Chancellor's Welcome

Warm greetings to all.

Keeping pace with today's rapid globalisation and dynamically changing world demands a lot from the society. In this challenging era, people need to adapt themselves to the situation, catch up with upcoming technologies, communicate effectively to align their ideas and find ways of working to suit changing situations. Recognising this need, UTAR prepares its students for the challenges of the 21st century and offers them an atmosphere which will encourage them to become life-long learners to work and be part of a multi-cultural and ever-changing global society.

Though young, UTAR's efforts in providing students with market-driven programmes and rewarding academic experiences have been recognised domestically and globally. The university is striving hard to make the best possible efforts to prepare its students with highly-recognised academic qualifications and to develop these graduates with attributes that are attractive to employers. This is reflected in the fact that 95% of UTAR graduates are employed within six months of graduation and many receive multiple job offers even before graduation.

The university prides itself on the strong links with the industry, professional bodies and associations that offer students with real-world insights. UTAR's education does not only involve equipping students with hard technical competencies and knowledge, but also emphasises hands-on training and proper practical exposure in the relevant field to ensure that students are ready for employment upon graduation.

In addition, students are given the opportunity to enhance their soft skills by enrolling in our soft skills competency programme where ten core components ranging from cognitive skills, complex problem solving and critical thinking skills to emotional intelligence, entrepreneurship skills and moral and professional ethics. The soft skills programme creates that balance for a wholesome education while guiding students to develop a more global mind-set and an enhanced level of maturity and professionalism to face new challenges.

UTAR is never complacent and it constantly seeks ways to improve. I am confident that you will be well-supported to achieve your educational goals here as well as your future career aspirations.

I look forward to welcoming you to our campus and to be part of our UTARian campus community for that educational experience to unleash your potential and towards lifelong learning.

All the best,

Tun Dr. Ling Liong Sik

President's Welcome

Welcome to UTAR.

It is always a heart-warming experience for me to introduce UTAR to parents and students. Being a private university set up by the people for the people, we have responsibilities to the community and we take efforts to sustain the trust of the community in many ways. From the provision of quality teaching and R&D to the provision of affordable fees while fulfilling educational standards and ensuring sustainability, UTAR has mapped out its strategies over the years; enforcing its 10-year Strategic Plan for the university and receiving significant recognition for its efforts.

Among the many accolades garnered by the university, its staff and students, the recognition accorded by the *Times Higher Education (THE)* reflect the significant efforts and overall direction of the university. UTAR was ranked #99 in the *Times Higher Education* Asia University Rankings 2018; ranked #101-150 in the *Times Higher Education* Young University Rankings 2018 and ranked #501-600 in the *Times Higher Education* World University Rankings 2019. In the Quacquarelli Symonds (QS) Asia University Rankings 2019, UTAR was placed #188.

The Malaysian Qualifications Agency (MQA) in the Ministry of Education Malaysia awarded the Self-Accreditation Status to UTAR; thereby, recognising the university's efforts and performance in enhancing and strengthening its internal quality assurance system. UTAR was also awarded 5 Stars under the Rating System for Malaysian Higher Education Institutions 2017 (SETARA'17) which indicates the university's strong fundamentals in delivering its core functions of teaching, research and services.

UTAR believes in promoting overall institutional excellence and quality education that culminate in all-rounded graduates who are knowledgeable and who are also equipped with the relevant soft skills to be ready to meet the demands of an ever-changing world. Our partnerships with more than 300 local and international universities and industry leaders provide many opportunities for student exchange programmes, overseas study tours, research collaborations, joint conferences and trainings, collaborative community projects and voluntary community services. For its contributions to community services, UTAR was awarded the Sin Chew Business Excellence Award 2017 in the CSR category, a well-deserved recognition for more than 3,800 community projects conducted since 2014.

Our commitment to quality education is also demonstrated in the wide range of academic programmes to ensure that our students stay relevant and connected to embrace the changes and the speed of technological advances in the changing global development. In addition, our commitment to the community extends to the provision of financial assistance to those in need. Loans and scholarships are available including sponsorships by corporations and organisations who share the same vision as the university.

The UTAR university experience is not just about learning in a classroom. It is equally important to enjoy a vibrant campus life as a student by seizing the opportunities to join the numerous student activities from the various clubs and societies. These are avenues to learn new skills, showcase talents and network with other students to gain experience in enhancing leadership and communication skills towards progressive personal development.

Pursuing a tertiary education is indeed a life-changing experience and I look forward to you partaking in this experience with us and embracing the numerous opportunities offered at UTAR to broaden your horizons.

With best wishes,

Ir. Professor Academician Dato' Dr. Chuah Hean Teik

Achievements and Affiliations

UTAR aims to achieve excellence in the advancement of knowledge and expertise as well as the holistic development of students.

Passionate Educator

We equip students with the right knowledge to enhance leadership, communication, teamwork and creativity skills.

Academic and Industry Advisors

We seek feedback and advice from eminent academicians, industry experts and professional bodies to design new programmes and update existing ones to better meet the latest requirements of the industry.

Compulsory Industrial Training

Industrial training is compulsory in our degree programmes. Students gain exposure and experience in an actual workplace to better prepare them for their career.

Accomplished Students

UTAR encourages accomplishments, innovation and entrepreneurship among students. The following are some of the recent achievements and awards won by our students:

- Merit Award in the International Asia Pacific ICT Alliance (APICTA) Awards 2018
- Best Booth Award and Favourite Booth by Sponsor (GIEF) in the 13th Malaysian Institute of Architects (PAM) Annual Architecture Student Works Exhibition 2018 (PAASWE18)
- Recipient of the Association of Chartered Certified Accountants (ACCA) Global World Prize Winner P1 award
- Silver Award in the InnovateFPGA Global Design Contest 2018 Regional Final and Award of Excellence in the US Grand Final
- MonsoonSIM Enterprise Resource Management Competition (MERMC) 2018 Regional Final Champion
- Merit Award (One-Belt-One-Road University Category) in the 9th China Students Service Outsourcing Innovation and Entrepreneurship Competition (CSSOIEC)
- CFA Career Day Video Competition 2018 Champion
- ACM ICPC Malaysia al-Khawarizmi National Programming Contest 2018 Champion
- Multiple awards in the 9th Malaysian Symposium of Biomedical Science (MYSYMBIOS)
- 3 Silvers in the National Innovation and Invention Competition through Exhibition 2018 (iCompEx'18)
- Champion ("Environmental/Wastewater Treatment/Biotechnology" category) in the 4th International Biotechnology Competition and Exhibition 2018 (BCEX 18)
- Second Prize, Third Prize and Honourable Mention in the 16th International Association for Humane Habitat (IAHH) International Student Design Competition 2018
- Second Prize in the Malaysia CFA Institute Research Challenge 2017/2018
- 1 Silver and 1 Bronze in the Novel Research and Innovation Competition (NRIC) 2017
- Immersion Project, Appreciation, and Tribute (IMPACT) 2017 Short Video Competition Grand Prize Winner and Third in the Best Communication Campaign category
- 2018 Shanghai Ocean University (SHOU) International Student Dragon Boat Invitational Tournament Merit Award
- 1 Gold, 1 Silver and 6 Bronzes in the Sukan Institusi Pendidikan Tinggi (SUKIPT) 2018
- Silver in MASISWA Badminton Championship and President Cup 2018 Women Double
- 1 Silver and 4 Bronzes in the *9th TM (WTF)-NSC-MILO National Taekwondo Championship 2018*
- 2 Golds and 2 Silvers in the 2017 *Kejohanan Sukan Majlis Sukan IPTS Malaysia (MASISWA) Zon Utara*
- Frisbee Champion in the Nottingham Ultimate Battle Royale (NUBR) 2017

Accomplished Lecturers

Our academia's pursuits for scholastic excellence constantly earn them recognition and accolades. Some of the recent accomplishments are:

- 2 Golds and 1 Silver in the 29th International Invention and Innovation Exhibition (ITEX) 2018
- Winners of the National Outstanding Researcher Award (Mobile Commerce) Award and National Outstanding Young Educator Award by the Private Education Cooperative of Malaysia (EduCoop)
- Winner of the International Conference: Korean Society for Molecular and Cellular Biology 2018 (KSMCB) Travel Grant Award
- IEEE 2018 2nd International Conference on BioSignal Analysis, Processing and Systems (ICBAPS 2018) Best Paper Award
- 9th International Conference of the Asian Association of Indigenous and Cultural Psychology (AAICP 2018) Young Scholar Awards
- Asia Innovation Show 2018 Gold Medal
- International Journal of Mobile Communications (IJMC) Most Read Paper
- Emerald Literati Awards Highly Commended Paper
- Elsevier Information and Management journal's Outstanding Reviewer Award
- Elsevier Expert Systems with Applications journal's Most Downloaded Article
- Elsevier Telematics and Informatics journal's Top Cited Author (2014-2018)
- Winner of 2018 Publons Global Peer Review Award
- World Conference on Business and Management (WCBM) 2018 Best Paper Award
- 10th Malaysia International Conference on Languages, Literatures and Cultures (MICOLLAC) 2018 Best Abstract Award

Inquisitive Researcher

The UTAR Research Roadmap with defined and deliverable objectives work towards research excellence with research opportunities for both staff and students.

Research Centres, Global Research Network and Endowed Chairs

UTAR has 32 research centres with the UTAR Global Research Network to help our researchers network with academics, researchers and technologists from all over the world. We have also established nine endowed chairs that raised a total of RM13.75 million.

Global Collaborator

UTAR has established collaborative partnerships with over 300 educational institutions and industry leaders from 27 economies. The partnerships facilitate mutual visits, academic and student exchanges, and joint developments in teaching methodologies and research.

Kampar Campus

UTAR was founded with a mission to provide quality education to all. To serve a large portion of the populace, the university has two campuses, namely the UTAR Kampar Campus in Perak, and the UTAR Sungai Long Campus in the Klang Valley. The two campuses house nine faculties, three institutes and three centres.

The Kampar Campus in the state of Perak is conveniently located off the North-South Highway, a 190-kilometre or two-hour drive from Kuala Lumpur.

Known as a former tin mining town, Kampar is a district within Perak's Kinta Valley, which is historically rich with tin reserves. Today, Kampar is a bustling education hub following the establishment of the Kampar Campus.

The township consists of two main areas commonly known as the "old town" and the "new town", where the campus is located. The "new town" is a residential estate with rows of shoplots catering to the influx of the university students and staff.

In addition to the affordable accommodation, eateries, supermarket and other amenities in the Kampar township, there are bicycle shops to cater to the convenience of students whose preferred mode of transport is by bicycle.

The award-winning Kampar Campus is flanked by picturesque mountains and scenic lakes, offering a naturally peaceful environment that is conducive for learning, teaching and research.

The faculties, institutes and centres at the Kampar Campus include:

- Faculty of Arts and Social Science (FAS)
- Faculty of Business and Finance (FBF)
- Faculty of Engineering and Green Technology (FEGT)
- Faculty of Information and Communication Technology (FICT)
- Faculty of Science (FSc)
- Institute of Chinese Studies (ICS)
- Institute of Postgraduate Studies and Research (IPSR)
- Centre for Extension Education (CEE)
- Centre for Foundation Studies (CFS)

Main Library

Sungai Long Campus

The Sungai Long Campus located in Bandar Sungai Long, a main township in Kajang, Selangor, is a state-of-the-art, purpose-built campus.

Its location within the Bandar Sungai Long residential township near Kuala Lumpur city provides the best of both worlds. It offers the tranquil learning environment of a suburban setting and the conveniences of a big city such as plentiful housing, affordable eateries, convenient banking facilities and diverse entertainment.

To complement its teaching, learning and research experience, the campus is equipped with a library, laboratories, computers and medical equipment.

The faculties, institutes and centres at the Sungai Long Campus include:

- Faculty of Accountancy and Management (FAM)
- Faculty of Creative Industries (FCI)
- Faculty of Medicine and Health Sciences (FMHS)
- Lee Kong Chian Faculty of Engineering and Science (LKC FES)
- Institute of Chinese Studies (ICS)
- Institute of Management and Leadership Development (IMLD)
- Institute of Postgraduate Studies and Research (IPSR)
- Centre for Extension Education (CEE)
- Centre for Foundation Studies (CFS)

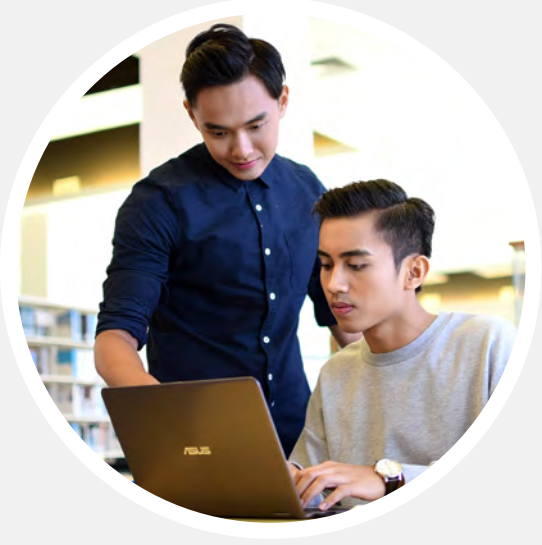
UTAR is for You

UTAR supports excellence in learning, teaching and research.

Globally Recognised Qualification

- All our academic programmes are approved by the Ministry of Education Malaysia.
- Our industry advisors provide advice to ensure that our programmes are updated to meet global demands.
- External examiners are engaged for international benchmarking.
- We are ranked Top 600 in the *Times Higher Education (THE)* World University Rankings 2019 and also #99 in the *THE* Asia University Rankings 2018.

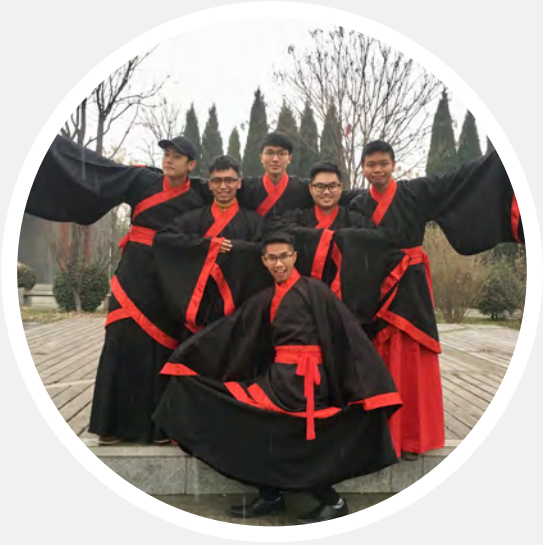


Excellent Learning Experience

- Our dedicated, resourceful and approachable lecturers and professors are qualified with extensive experiences in teaching and learning.
- Classroom learning is supplemented by experiential learning through practical sessions, final-year projects, compulsory industrial attachment, talks and seminars by industry experts.
- All our campuses are equipped with sufficient, up-to-date facilities and conducive environment for learning.

Holistic Education

- We emphasise on the holistic development of our students.
- We go beyond just imparting knowledge and technical competencies necessary to enter a profession.
- We also reinforce your credentials with soft skills.
- You can participate in extracurricular activities organised by clubs and societies, and the unique UTAR Soft Skills Development Certification (USSDC) programme to enhance management, leadership, entrepreneurial and social skills.



Global Exposure

- You need to have global exposure to be relevant in the global market.
- You can participate in our collaborative activities with partner institutions such as student exchanges, study tours, research projects, seminars, conferences and symposia.

Strong Research Culture

- UTAR has cultivated a strong culture for research among faculty members and students.
- We have established the required infrastructure and system essential to achieving research excellence at UTAR.
- Undergraduate students are explored to research projects through UTAR Undergraduate Research Scheme.

High Employability Rate

- UTAR graduates are well received by the industry.
- 95% of our graduates are employed within 6 months of graduation.
- Graduate works in multinational and SME companies locally and globally.

Student Services

For newly registered students commencing studies at UTAR, the new campus experience starts with our orientation programme which aims to facilitate a smooth transition into university life.

Orientation is required for newly enrolled:
- Foundation students
- Full-time Bachelor's degree students
- Foundation students progressing to Bachelor's degree
- International students

Benefits

Many activities are held during the orientation. As a new student at UTAR, you will get to meet your seniors, faculty members, senior university officials, your classmates and other new students.

You will also get to know the related university rules, regulations, the facilities and services available at UTAR such as the sports and recreational facilities, student clubs and societies, bus services, counselling and guidance services, and student support services. There will be an induction programme that covers campus adjustment talks, a campus tour and a city tour to familiarise you with the campus and its surroundings.

You will participate in icebreaking, telematch and sports games, and meet other new students in the campus. Briefings are available on soft skills development programmes and related community service activities.

Attending the UTAR orientation programme is the first step to your learning experience in UTAR.

Peer Mentoring Programme

Our 'peer-to-peer' programme offers a connecting bridge between seniors and university freshmen. Upon joining this programme, a senior who has gone through at least 10 hours of mentoring training by counsellors from the Department of Student Affairs will guide you through the orientation and help you adapt to campus life.

Pick-up Service

For new students from Sabah and Sarawak, we provide pick-up service from KLIA and KLIA2 to residential areas near all our campuses. The pick-up is usually done one or two weeks before the orientation. If you require the service, you may contact Department of Student Affairs or Division of Programme Promotion.

Department of International Student Services (DISS) offers a similar pick-up and 'meet and greet' service for new international students arriving at the Kuala Lumpur International Airport for the first time. These students must inform DISS at least one week before departing from their home countries. For more details, please contact our Department of International Student Services or visit *www.utar.edu.my/diss*

For more details on our orientation programme, contact our Department of Student Affairs or visit *www.utar.edu.my/dsa*

UTAR provides a range of support services for the convenience and welfare of the students.

Accommodation

Our campuses in Kampar and Sungai Long are all located within established suburban residential townships where students can easily find accommodation within walking distance to the campus. The suburbs provide convenient access to public transport, banks, restaurants, launderettes, supermarkets and shopping malls.

Cafeteria

Cafeterias in our campuses offer a variety of food at reasonable prices and a comfortable ambience for having meals. You can readily find a wide selection of Chinese, Malay, Indian, Western and vegetarian cuisines (at Kampar Campus) within the campus neighbourhood.

Bus Service

UTAR owns a total of 16 buses that facilitate students travelling to the campuses from the neighbourhood train stations, MRT stations, bus stops and housing areas. The buses follow a regular schedule daily and the schedule is posted on notice boards in the campus and on the UTAR website.

University Bookstore

There are bookstores in our Kampar Campus and Sungai Long Campus where academic books, stationery supplies, photocopying, book-binding, postal and other services are available. During the intake months, we invite book vendors to set up booths in the campus for the convenience of our students to purchase the necessary books. The estimated expenses on reference books for a trimester are about RM500.

Places of Worship

Surau or Muslim prayer rooms are available in all our campuses. You may enquire about the location of mosques, churches and temples from the Department of Student Affairs.

Healthcare Service

An on-campus Wellness Centre in Kampar Campus serves students and staff at minimal charges. Healthcare centres and clinics are readily available in the residential areas near our campuses; for example, the Putra Specialist Hospital Kajang located adjacent to the Sungai Long Campus. For minor medical attention, students can approach the Department of Student Affairs where sick bays are available. Every administrative office of UTAR has a first-aid kit.

Personal Accident Insurance

All registered students of UTAR are entitled to the group personal accident insurance which provides coverage including RM45,000 for death or total permanent disablement, RM3,000 for accident medical expenses, and RM500 for traditional medical expenses. Students from certain programmes are required to take up additional insurance such as medical student malpractice insurance for medical and health science students.

All international students are covered under a health insurance scheme required by the Ministry of Education (MOE) and Immigration Department of Malaysia through EMGS (Education Malaysia Global Services). The health insurance fee ranges from RM500 to RM800 per student per year which covers repatriation, personal accident and death, hospitalisation at private hospitals and outpatient treatment.

Counselling and Guidance Services

A team of trained counsellors who abide by the ethics of the counselling profession offers caring and confidential counselling for individuals and groups. They organise peer helping programmes and workshops on career guidance, stress management and learning skills. Students are welcome to walk in or make an appointment to see a counsellor.

Estimated Living Costs

The estimated monthly living expenses for a student at UTAR are as follows:

Description	Kampar Campus	Sungai Long Campus
Accommodation	RM180 - RM350	RM200 - RM600
Meals	RM320 - RM480	RM380 - RM550
Transportation	RM30 - RM100	RM100 - RM250
Other expenses	RM100 - RM150	RM200 - RM300
Total	RM630 - RM1,080	RM800 - RM1,700

Facilities

Our campuses provide latest facilities for the academic and personal development of our staff and students.

ICT Facilities

There are more than 3,000 computers installed in practical, project and research laboratories on Windows, UNIX and Apple OS platform. Software available range from standard office applications to course-specific applications such as:

- **Engineering and science software:** Android Studio, Ansys, Apache HTTP, Aspen Hysys, AutoCAD 2018, Axure Pro, Back Track 5, Binalink, Bitcricket IP calculator and UTAR IP calculator, Blender, Bonjour Print Services, Cisco Packet Tracer, Cloudera, CNC Milling Professional ikx1, CNC Turning Professional ikx, Communication System Toolbox, CST Microwave Studio, Design Expert, DigSilent Power Factory, DSP System Toolbox, Eclipse Kepler, Eclipse Neon/Luna, Enterprise Architect Academic, FPWIN GR, Fuzzy Logic Toolbox, Gabi, Git Hub, GNS, GNU Octave, Hilti Anchor & Rebar, IIS 10.0 Express, Integrated Environmental Solutions, Image Processing Toolbox, IntelliJ IDEA Community, International Centre for Diffraction Data (ICDD) database, Ipython, JCreator, JDK, Jenkins, Kali Linux, Keil uVision, Matlab, Maxima, Microsoft Visual Studio Ultimate, Microwind, Midas Gen, MobaXTerm, ModelSim Altera Starter Edition, MPLab X IDE, Naviswork Manage 2016, Naviswork Manage 2018, Netbeans, Neural Network Toolbox, NVIDIA CUDA Visual Studio Integration, Open CV, Optimization Toolbox, Open SUSE, Oracle 11g, Oracle VM Virtual Box, Paramics, Physio EX, Perl, Prophet, PSCad, Pvsyst, PyCharm Community, Python, QTSpim, Revit 2016, Revit 2018, Robot Structural Analysis Professional, Sapphire 1.1, SCIA Engineer, Sidra, Signal Processing Toolbox, SimPower Systems, Simscape, Simulia Abaqus, Simulink, Solidworks 2016, TwinCAT 2, TwinCAT 3, VMWare Workstation, Wamp Server, Wireshark, WITNESS 13, Xilinx ISE, Xubuntos 2 (TinyOS), Glodon Cubicost TAS, TRB and TBQ 2018, and Cost X 6.6.
- **Design-based software:** Adobe Creative Cloud, Adobe Creative Suite 6 Design and Web Premium, Autodesk 3ds Max, Autodesk Matchmover, Autodesk Maya, Final Cut Studio, Final Draft, iPi Soft Recorder, Kinect for Windows, Protools, Toonboom Harmony, Toonboom Storyboard Pro and Unity
- **Game development software:** Adventure Game Studio, Game-Maker, Unreal Engine, Unity, and Wintermute Engine Development Kit
- **Statistical analysis software:** AMOS, EViews, JMP, Nvivo, R for Window, SAS, Python and SPSS
- **Business and Application Software:** Adobe Reader, Adobe Director, Eclipse, Microsoft Office Professional 2013, Microsoft Project Professional 2013, Microsoft Visio Professional 2013, NetBeans, Oracle 10g/11g, SAP, and Visual Studio.Net
- **English Language Software:** Clear Pronunciation, Connected Speech – British, EGU, Tense Buster, Wordsmith

- **Accounting and Audit Software:** Audit Express, Bloomberg, Sage UBS Accounting, Sage UBS Inventory & Billing, Sage UBS Payroll, Taxcom, and SQL Accounting

In addition, through collaborations with ICT industry leaders, we have set up the latest software and hardware infrastructure for research, teaching and learning such as the Enterprise System and Database Laboratory, and the Intel Microprocessor Design and Development Laboratory. Our Cisco Network Academy Laboratory has 10 sets of Cisco 1841 Router, 15 sets of Cisco 2960 switches, two overhead projector/speaker sets and computers for two instructors and 42 students.

The newly set up UTAR-Huawei Networking Laboratory has three sets of Huawei University Teaching Laboratory Solution – Data Communication Package, two overhead projector/speaker sets and computers for two instructors and 42 students to facilitate training for Huawei certification programmes.

The latest setup is an Apple iMac Laboratory, which has 19 sets of Apple iMac PCs; 1 set for the instructor and 18 sets for the students. The Microsoft Software Engineering Laboratory has 21 PCs; 1 PC for the instructor and 20 PCs for the students.

Wireless Campus

Wireless internet access (WIA) is available in both campuses. Our students can access the internet anytime and anywhere free of charge through many WIA points installed in the campuses.

Library

UTAR has 2 libraries; Main Library in Kampar Campus, and the Mary KUOK Pick Hoo Library in Sungai Long Campus. The Main Library in the Kampar Campus is a purpose-built library with a built-up space of more than 70,000 sq feet, while the Mary KUOK Pick Hoo Library covers an area of over 27,000 sq feet.

The Library provides excellent informative resources, services, and facilities to support the advancement of teaching, learning, and research at the University. There are well-stocked collections of books, government publications, conference papers, dissertations and theses, journals, magazines, and newspapers as well as electronic resources such as online databases, e-journals, e-books, e-newspapers, and online past year examination papers. To date, the total book collection exceeds 288,000 volumes. Among the online databases subscribed are the ScienceDirect, EBSCOhost Business Source Complete, IEEE Xplore/IEL, ACM Digital Library, ClinicalKey, CNKI database, Emerald, SAGE Journals, JSTOR and many others. Presently, there are more than 37,000 e-journals and 156,000 e-books in the library collection. Library patrons are able to access these online resources 24/7 from campus as well as off-campus.

The Library conducts Information Skill classes where students are taught how to search for information efficiently, evaluate information sources effectively and use information ethically through proper referencing and citation. The Library also provides Inter-Campus Loan service where students and staff may borrow the books from both UTAR libraries. The Document Delivery Service is another value-added service provided by the Library to obtain library materials such as books, journal articles or conference papers and reports that are not readily available in the UTAR Library.

- Traffic Engineering Laboratory
- Unit Operation Laboratory
- Video-editing Room
- VLSI Design Laboratory
- X-Ray Diffractometer Room

Web-based Learning Resources

As a UTAR student, you will have access to the Web-based Learning Environment (WBLE) e-learning system of the university. The WBLE serves as a discussion platform among students and lecturers for exchange of ideas.

Via the WBLE, you can access lecture notes, tutorial questions, assignment questions, course materials and the UTAR student portal to view course structures, the student academic handbook, rules and regulations of the university, past year examination question papers, soft skills programmes and many more.

Language Learning Support

Most of UTAR's programmes are taught and assessed in the English language. Students who need to enhance their proficiency level in the English language can attend English language courses offered by the UTAR Centre for Extension Education.

Among the programmes offered are English for Tertiary Studies, English Enhancement Programme, and the Malaysian University English Test (MUET) Preparatory Course. Other languages such as Korean, Spanish, French, Thai, German, and many others are also available.

Sports and Extracurricular Activities

We understand the importance of sports and physical activities for the holistic development of our students. For that reason, we set up the Sports Complex in Kampar Campus which has facilities for basketball, futsal, netball, tennis, volleyball and badminton.

There is a fitness gymnasium equipped with cardiovascular, strength and resistance training equipment, a free weight area and an aerobic/dancing studio. At nominal fees, students may use the swimming pools and the squash courts in the Tunku Abdul Rahman University College campus adjacent to the Kampar Campus.

For Sungai Long Campus, UTAR has made arrangements with nearby sports and fitness centres for our students and staff to enjoy the use of facilities free of charge or at special rates. Students can make bookings directly with the staff of Department of Student Affairs.

Sports facilities available for students are listed in the table. You may visit the webpage of the Department of Student Affairs at our UTAR website for more information.

  - Lion Dance Unit

Sports and Recreation Events

Every year, the student clubs and societies in collaboration with various administrative departments of the university, organise many sports, recreational and social events such as:

- Sports carnival, inter-faculty games, races, table tennis and court games
- Treasure hunts and trekking
- Boggle, carom, Chinese chess, international chess and scrabble competitions
- Quizzes and Math competitions
- Debates
- Dances, performances, choir and cultural events
- Prom nights, reunion parties and annual balls

Overview of Student Representative Council

The main objective of the SRC is to encourage and promote intellectual, spiritual, emotional and physical development among the students of the university. The SRC also participates in the organisation and supervision of student welfare facilities and activities in the university including recreational, social, spiritual and religious activities.

Mission of SRC

The SRC is committed to preserving the rights, welfare and privileges of students through a transparent and interactive leadership system.

Mission:

- To improve UTAR student services
- To promote unity among clubs and societies
- To create a unified platform for publicising students' announcements, events and activities

Activities that are organised by the SRC are as follows:

- Orientation for new students
- UTAR Ball
- CNY Carnival
- Donation drive for needy students
- UTAR Cafeteria Price Checks
- Feedback on UTAR facilities
- Clubs and Societies Recruitment Drive/ Showcase
- Savings Project (get student discounts from nearby restaurants, clinics, laundromats, hair salons, computer shops, etc)
- Umbrella Project
- Dialogue Session with students
- Dialogue Session with OCPD
- Overseas Exchange Programme
- FEStival: A Campus Carnival
- Z Night

Study in Malaysia for International Students

Malaysia is a beautiful tropical country in the Southeast Asia with a rich diversity of languages, races, cultures and food. It has a population of over 31 million people, comprising Malays, Chinese, Indians and many indigenous groups, all living in peace and harmony.

With its history, social-economic diversity, culture and values, Malaysia is a living classroom for a holistic education. You will join more than 170,000 international students from over 150 nations to live and study in an exciting country with multicultural and multi-religious background.

Study in UTAR

Globalisation brings with it various opportunities and benefits particularly in the arenas of knowledge, education and research. In light of these opportunities, UTAR aims to position itself among the reputable institutions of higher learning in the region.

UTAR welcomes international students from all over the world to join us in our pursuit of knowledge and excellence through our range of Foundation, Bachelor's, Master's, PhD and Postdoctoral programmes. UTAR provides international students with a unique multicultural environment to enhance their intercultural and social skills and to prepare them for careers in the globalised world of the 21st century.

Here are a few reasons why other international students consider to study in UTAR:

(a) **Global Recognition** – UTAR is ranked among the top 600 universities in the *Times Higher Education (THE)* World University Rankings 2019. UTAR is ranked 99 in *THE* Asia University Rankings 2018 and 188 in QS Asia University Rankings 2019.

(b) **Recognised Qualification** – All our academic programmes are approved by the Ministry of Education Malaysia and the Malaysia Qualification Agency (MQA). Professional recognition and accreditation are being actively sought from leading Malaysian and international professional bodies for the relevant professional-related programmes. This enable students to acquire additional internationally-recognised qualifications by professional bodies.

(c) **Compulsory Industrial Training** – UTAR has made the industrial training compulsory for all undergraduate students so to provide them with experiential learning opportunities. For postgraduate studies, some courses provide students hands-on and consultative experience through the participation in the consultancy trips to international organisations.

(d) **Global Human Networking** – UTAR has formal collaboration with over 330 educational institutions and industries from 27 economies to give students access to international collaborative activities such as student exchanges, study tours, research projects, seminars, conferences and symposia. Credit transfer options are available through student exchange programmes.

(e) **Holistic Student Development** – UTAR goes beyond just imparting technical knowledge and encourage students to take part in extracurricular activities such as soft skills development, student entrepreneurship activities, sports and character building. Ambitious students can participate in the Undergraduate Research Scheme which allows them to be trained to conduct a scientific research and work with our researchers on a real-life research project.

(f) **Affordable Fees and Cost of Living** – UTAR keeps our programme fees affordable. As an example, students can acquire a 4-year Electrical and Electronic Engineering degree at an overall fee of RM65,000 (RM16,250 per year). If cost of living is taken into account (approximately RM12,000 per year), students can complete the entire degree in UTAR at RM113,000.

(g) **Medium of Instruction** – English is widely used in communication, teaching and learning. In addition, the unique multicultural environment in UTAR will enable cross-cultural learning with students picking up new languages formally (through language classes) or informally (through friendship).

International Student Support

UTAR provides student support services to all international students from enrolment until the completion of their studies. Among the services provided are:

- 'Meet and Greet' session for new students at the airport
- Accommodation arrangement
- Student orientation and activities
- Advice and assistance on living costs, health insurance, student bond, deposits and refunds
- Counselling services
- Peer Mentoring Programme
- Monitor students' progress

Student-Based Activities

International students are encouraged to participate in student clubs and societies to enrich their social life, develop their interests and potential, and make friends while studying at UTAR. There are 75 clubs and societies for students to identify, develop and nurture their talents and skills. There is a diverse range of co-curricular areas for the students to choose from such as performing arts, general interests, recreation, sports and games, self-defence and volunteer services.

Our students are active in sports and competitions which are held within the university and at inter-university levels. We have international students who have made the university proud with their contributions and achievements through their active participation in recreational and sports activities.

Working with various communities in Malaysia

International students in UTAR, through the Department of Soft Skills Competency (DSSC), have been engaging with various communities through cultural exchanges. Students have been able to teach villagers their various ways of life through food, games, culture and interaction sessions. This has not only enabled the communities to gain awareness about the world but also to see how people of various cultural backgrounds can co-exist under one umbrella. Working with local communities is one of the most exciting trips that international students always look out for as they get to bond and spend their day in a productive manner.

"Aside from exposing myself to a new environment and challenging myself, I think UTAR is a great university choice because I heard that being a student here prepares you a lot for the future. There are also a lot of reviews and news I have heard that students from UTAR are easily accepted by companies."

Maraya Rochelle Pineda Elona
Philippines
Faculty of Information and Communication Technology

"The main reason for selecting UTAR is because of its high standard of teaching qualities. There are many facilities available here. Also, the library is well equipped with computers and books. UTAR is also one of the highest ranking universities in Malaysia. It comes with a beautiful sight of lake view."

Aamna Batool
United States
Faculty of Business and Finance

"UTAR is a unique platform to equip manifold privileges including study, research, scholarship and industry collaboration, and to keep close touch with beautiful nature. UTAR as well as Malaysia is a multi-cultural hodgepodge."

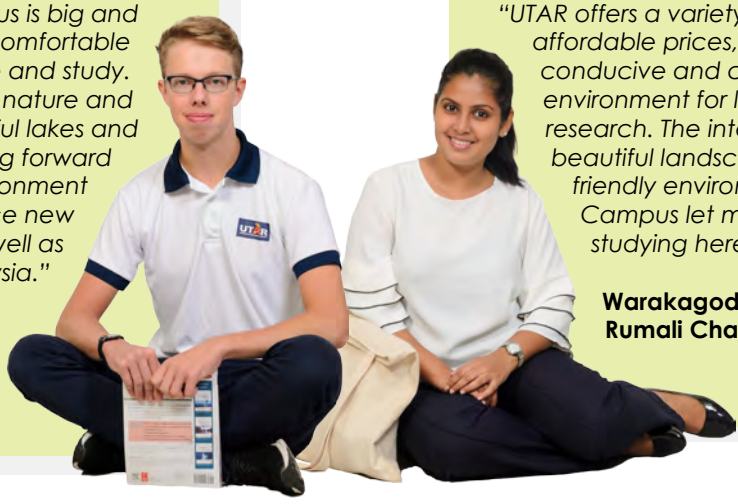
Mosharrof Hosen
Bangladesh
Faculty of Business and Finance

"Malaysia is one of the most multicultural nations in Southeast Asia. I have learnt to appreciate the uniqueness and respect the differences and the similarities among the Malaysian citizens. Being a part of Malaysian culture is truly a lifetime experience."

Nano Yokoyama
Japan
Faculty of Arts and Social Science

"The Kampar Campus is big and provides a safe and comfortable environment to live and study. It is embedded with nature and surrounded by beautiful lakes and mountains. I am looking forward to a rewarding environment to learn and experience new cultures in UTAR as well as Malaysia."

Rouven Leon Bozek
Germany
Faculty of Business and Finance



"UTAR offers a variety of programmes with affordable prices, reliable reputation, conducive and comfortable environment for learning and research. The integrated facilities, beautiful landscape, and also the friendly environment of Kampar Campus let me never regret of studying here."

Warakagoda Widanalage Don Rumali Chamathka
Sri Lanka
Faculty of Science

Scholarships and Loans

UTAR was founded as a not-for-profit private university with a mission to provide quality education affordable to everyone. Numerous scholarships and study loans are available for needy and deserving Malaysian students.

UTAR Scholarships for Foundation Programmes and Bachelor Honours Degree Programmes

We offer scholarships to prospective students who have achieved excellent academic results:

Description of Scholarships	Criteria (Based on actual results)	Ongoing Eligibility Requirements
Foundation Programme		
100% Tuition Fee Scholarship from UTAR Education Foundation	SPM 9As *O-Level/Equivalent: 8As* *All results must be obtained in one sitting.*	• Consistent CGPA of 3.5000 and above is required. • If the CGPA falls between 3.0000-3.4999, the scholarship will be reduced to 50% tuition fee scholarship from UTAR Education Foundation. • If CGPA falls below 3.0000, the scholarship ceases.
50% Tuition Fee Scholarship from UTAR Education Foundation	SPM 8As *O-Level/Equivalent: 7As* *All results must be obtained in one sitting.*	• Consistent CGPA of 3.0000 and above is required, otherwise, the scholarship ceases.
25% Tuition Fee Scholarship from UTAR Education Foundation	SPM 7As *O-Level/Equivalent: 6As* *All results must be obtained in one sitting.*	• Consistent CGPA of 3.0000 and above is required, otherwise, the scholarship ceases.

Description of Scholarships	Criteria (based on actual result)	Ongoing Eligibility Requirements
Bachelor's Programmes		
All programmes (except Medicine and Health Sciences Programmes in FMHS)		
100% Tuition Fee Scholarship from UTAR Education Foundation	• STPM/A-Level (Advanced Level): 4As or • UEC: 8As or • Canadian Pre-University (CPU): 95% for all subjects with a minimum of 6 subjects, or • South Australian Matriculation (SAM)/ Equivalent: ATAR>95, or • International Baccalaureate (IB): 7 points for every subject of 6 subjects (not including bonus point), or • UTAR Foundation Programme/Relevant TAR UC Diploma: CGPA of 3.9000 and above *All results must be obtained in one sitting.*	• Consistent CGPA of 3.5000 and above is required. • If the CGPA falls between 3.0000-3.4999, the scholarship will be reduced to 50% tuition fee scholarship from UTAR Education Foundation. • If CGPA falls below 3.0000, the scholarship ceases.
50% Tuition Fee Scholarship from UTAR Education Foundation	• STPM/A-Level (Advanced Level): 3As or • UEC: 7As or • Canadian Pre-University (CPU): 90% for all subjects with a minimum of 6 subjects, or • South Australian Matriculation (SAM)/ Equivalent: ATAR>90, or • International Baccalaureate (IB): 7 points for every subject of 5 subjects (not including bonus point), or • UTAR Foundation Programme/TAR UC Diploma: CGPA of 3.8000 to 3.8999 *All results must be obtained in one sitting.*	• Consistent CGPA of 3.0000 and above is required, otherwise, the scholarship ceases.
Health Sciences Programmes in FMHS		
50% Tuition Fee Scholarship from UTAR Education Foundation	• STPM/A-Level (Advanced Level): 4As or • UEC: 8As or • Canadian Pre-University (CPU): 95% for all subjects with a minimum of 6 subjects, or • South Australian Matriculation (SAM)/ Equivalent: ATAR>95, or • International Baccalaureate (IB): 7 points for every subject of 6 subjects (not including bonus point), or • UTAR Foundation Programme/TAR UC Diploma: CGPA of 3.9000 and above *All results must be obtained in one sitting.*	• Consistent CGPA of 3.5000 and above is required. • If the CGPA falls between 3.0000-3.4999, the scholarship will be reduced to 25% tuition fee scholarship from UTAR Education Foundation • If CGPA falls below 3.0000, the scholarship ceases.
25% Tuition Fee Scholarship from UTAR Education Foundation	• STPM/A-Level (Advanced Level): 3As or • UEC: 7As or • Canadian Pre-University (CPU): 90% for all subjects with a minimum of 6 subjects, or • South Australian Matriculation (SAM)/ Equivalent: ATAR>90, or • International Baccalaureate (IB): 7 points for every subject of 5 subjects (not including bonus point), or • UTAR Foundation Programme/TAR UC Diploma: CGPA of 3.8000 to 3.8999 *All results must be obtained in one sitting.*	• Consistent CGPA of 3.0000 and above is required, otherwise, the scholarship ceases.

Description of Scholarships	Criteria (based on actual result)	Ongoing Eligibility Requirements
Bachelor's Programmes		
M.B.B.S.*		
15% Tuition Fee Scholarship from UTAR Education Foundation (Interview is required) *Limit to three (3) scholarships per year.	• STPM/A-Level (Advanced Level)/Equivalent: 4As or • UEC: 8As or • Canadian Pre-University (CPU): 95% for all subjects with a minimum of 6 subjects, or • South Australian Matriculation (SAM)/ Equivalent: ATAR>95, or • International Baccalaureate (IB): 7 points for every subject of 6 subjects (not including bonus point), or • UTAR Foundation Programme: CGPA of 3.9000 and above AND • English Language Proficiency: MUET band score of 4 and above, or IELTS average band score of 6.5 and above AND • Combined annual income of the applicant/ applicant's spouse/applicant's parents should not exceed RM50,000 *All results must be obtained in one sitting.*	• Consistent CGPA of 3.5000 and above is required, otherwise, the scholarship ceases.

Note: Students enrolled based on forecast results will be automatically offered the scholarship when their actual results meet the UTAR scholarship criteria.

Scholarship recipients must act in accordance with UTAR Rules and Regulations and not be convicted of breaking the laws of Malaysia, otherwise, the scholarship ceases.

KOJADI Education Loan

Loan Package		
Scheme	**Course of Study** (Must be approved by MOE or relevant authorities or Board of KOJADI)	**Maximum Loan***
PLAN I	All **LOCAL** courses including certificate, skill based, diploma, professional, postgraduate and all undergraduate courses.	RM100,000
PLAN II	All **OVERSEAS** courses, postgraduate/undergraduate medical related courses and **LOCAL** medical related courses	RM200,000

*Terms and conditions apply on loan amount.

- Applicant (student) and co-applicant must be members of KOJADI.
- No restriction for PTPTN loan applicants.

For details, please refer to *www.kojadi.my/v2*

Other Scholarships/Financial Aid

UTAR collaborates with foundations, corporations and individuals to offer scholarships to our students. Among the scholarship providers are:

- Pesona Metro Holdings Berhad Scholarship
- MAPA Gloves Scholarship
- Chang Ming Thien Foundation Scholarship
- Goh Ing Sing Agriculture Science Scholarship
- Lee Foundation
- Selasih Permata Sdn Bhd
- Western Digital
- P Ganendra Scholarship
- Tan Sri Lee Loy Seng Foundation Scholarship
- WCT Scholarship Award
- Daikin Malaysia Group Scholarship
- Yayasan Tan Sri Lee Shin Cheng Scholarship
- UTAR - Top Glove Scholarship
- Bantuan Kerajaan Negeri Pulau Pinang
- UTAR JinBodhi Bursary
- Master Builders Association Malaysia Scholarship
- GS Paper and Packaging Sdn Bhd Scholarship
- Hong Leong Foundation
- United Malacca University Scholarship
- MREPC Scholarship
- Choice Foundation Scholarship for Needy Students
- Gamuda Scholarship
- Lion-Parkson Foundation Scholarship
- PIDM Undergraduate Scholarship
- Yayasan Sime Darby (YSD) Sponsorships
- Laubros Holdings (M) Sdn Bhd Scholarship
- Sin Chew Readers Study Aid Project
- Accurate Trading Scholarship
- Penang Future Foundation (PFF) Scholarship
- Yayasan KLK Scholarship

See: *www.utar.edu.my/deas*

UTAR UEC Scholarships

UTAR also offers scholarships to needy students from independent Chinese high schools. Students with good academic results and a proven record of participation in extra-curricular activities are eligible to apply for the scholarships.

Postgraduate Research Assistantships

UTAR appoints its postgraduate research students as research assistants under 3 schemes – Project Research Assistantship, Research Scholarship Scheme and Student Assistantship.

For **Research Scholarship Scheme (RSS)**, a monthly Research Scholarship stipend is given and may be used to support tuition fees. In addition, tuition fee scholarship from UTAR Education Foundation may be given to eligible RSS scholars who meet the required criteria.

Project Research Assistants (PRA) are paid a stipulated monthly salary (with EPF/SOCSO contribution). In addition, tuition fee scholarship from UTAR Education Foundation may be given to eligible PRAs who are registered as postgraduate students in UTAR (by research mode), and meet the required criteria.

Student Assistants (SA) are paid based on daily or monthly rate.

UTAR ASEAN Countries Scholarship

UTAR is awarding scholarships to needy students (with good academic records) from ASEAN countries to pursue any full-time foundation, undergraduate or postgraduate programmes offered by the University.

Grow With Us

UTAR Soft Skills Development Certificate

The UTAR Soft Skills Development Certificate (USSDC) Programme complements the academic education and contributes to the holistic development of the students. It focuses on the following ten components of essential soft skills:

- Communication and language skills
- Cognitive skills
- Complex problem solving
- Critical Thinking
- Emotional intelligence, cultural intelligence and teamwork
- Moral and professional ethics
- Leadership skills
- Entrepreneurship skills
- Lifelong learning and information management
- Digital literacy

The programme involves experiential learning in a series of interactive activities where participating students demonstrate their ability in using soft skills and acquire merit points.

Students, who have acquired at least 100 points out of the maximum 150 points in all the ten components, qualify for the USSDC certificate which formally recognises their efforts in improving themselves.

The Department of Soft Skills Competency (DSSC) organises activities such as study tours, competitions, speakers' corner, training sessions, New Village surveys, community service, new village e-commerce project and various student exchange activities to equip students with the necessary soft skills and life skills.

DSSC has also established collaborations with local and foreign university partners in organising collaborative projects that benefit students in the area of soft skills and life skills competency.

WE CARE, WE ACT
New Village Community Service

Complementing the formal learning in the campus environment, the university endeavours to cultivate community spirit among its students by engaging them in volunteer services for the community. Students who engage in volunteerism work learn to better understand the communities around them and gain meaningful experience to nurture humility and compassion.

DSSC implemented the 'WE CARE, WE ACT' New Village Community Service programme with the aim to create opportunities for students to mingle, interact and work with the new village communities.

The activities include cultural activities, health campaigns, English and IT tuitions, waste recycling campaigns, school safety projects, school motivational camps, school and village beautification projects and even family days. The programme provides the opportunity for students to act as vital members of the community while developing their leadership and communication skills as well as creativity and resourcefulness in solving problems.

To date, DSSC has successfully conducted community service projects in more than 180 new villages involving more than 15,000 students.

Malaysia Mental Literacy Movement

The Malaysia Mental Literacy Movement (MMLM) is the brainchild of Tun Dr Ling Liong Sik, the Chancellor of Universiti Tunku Abdul Rahman (UTAR). MMLM was officially registered by the Registrar of Societies (ROS) under the Societies Act 1996 on 4 July 2006.

The objectives of MMLM are to introduce and promote various techniques and skills pertaining to the improvement of mental literacy among Malaysians. In doing so, MMLM wishes to contribute to the development and upgrading of human capital resources which are necessary to face the globalised world in the age of the Fourth Industrial Revolution. Among the activities MMLM organises are workshops, seminars, dialogues and competitions to promote the development of mental literacy such as memory skills, thinking skills and creativity among Malaysians.

These mental literacy activities provide the opportunity for every level of society, be they a young student or a retiree, to learn ways to improve and sharpen their minds. These activities also encourage integration and unity among the community as they can be participated by people from all walks of life. Leveraging on this advantage, it would be a superb platform to propel the nation to greater heights.

Entrepreneurship

The Department of Consultancy and Commercialisation (DCC) is entrusted to manage and run various entrepreneurial programmes in UTAR. The aim is to create an entrepreneurial culture in UTAR so that students are equipped with basic business and start-up knowledge when they graduate.

Flea Market

The UTAR Flea Market aims to provide students with the opportunity to do business in the simplest way. Students learn risk management and can practise their communication and negotiation skills by selling various goods and services in the campus. The inaugural UTAR Flea Market commenced in December 2010 with just 41 vendors. To-date, more than 500 vendors have participated in the Flea Market.

Entrepreneurial Talk Series

Ben Teh
Chief Sales Officer and co-founder of redONE Network Sdn Bhd

Andy Goh Ching Mun
Old Town Group Co-Founder-cum-MeCan Mall Founder

Low Ngai Yuen
CEO of Global Entrepreneurship Movement (GEM)

Prof Xiao Jing
CEO of TusStar Incubator Centre in TianJing China

Foong Chee Mun
CTO and co- founder of MoneyLion, Inc

Jen Yong
Founder of SYNDES Technologies Sdn. Bhd.

The UTAR Entrepreneurial Talk Series was first introduced in 2011. Distinguished leaders, successful entrepreneurs, technopreneurs, founders and corporate CEOs who have demonstrated notable leadership and business acumen are invited to speak and share their experiences through these talk series. Students are given opportunities to attend the talk series and mingle with these illustrious leaders. More than 30 well-known leaders and captains of industry have delivered such talks to the students.

UTAR Young Entrepreneur Startup Scheme (UTARYESS)

The UTARYESS is a scheme that aims to provide capital and advisory support for UTAR students who wish to start or expand their business projects or ventures based on their innovative and practical ideas while still studying in the university. Financial support (interest-free loan) up to RM10,000 with possible training and mentorship will be given for each approved business project.

Student Software Application Scheme (SSAS)

This scheme aims to provide financial support to UTAR students in publishing their created software apps in designated open market platforms, such as Google and Apple. Through this scheme, students can register their apps and get a reimbursement of up to USD30 per registration.

Seminars and Workshops

From time to time, DCC also organises trips for students to attend entrepreneurship related seminars and workshops that are held outside the university. This allows UTAR students to network with other start-ups, angel investors and venture capitalists.

E-Commerce Delivery Centre

Established in the year 2018, the E-Commerce Delivery Centre is a pick-up centre dedicated to staff and students to collect their online purchases. UTAR staff and students can direct their e-commerce packages to the E-Commerce Delivery Centre to enjoy a hassle-free and time-saving service.

UTAR has set up two E-Commerce Delivery Centres, one on each campus. The delivery centre in Sungai Long Campus is located at KAG08, Block-KA while the centre in Kampar Campus is located at KMG1, Student Pavilion II.

Both centres are currently run by UTAR students, with the guidance and assistance from the Department of Consultancy and Commercialisation (DCC) and Department of General Services (DGS) of the University.

The expansion of other services by the centre, such as outbound parcel service, is in the pipeline in order to further encourage students to start their e-businesses at the University.

Unovate Centre 优创中心

Unovate is a combination of the Chinese character '优' and the English word 'innovate'. The new word means 'excellence in innovation'. This is in line with UTAR's new Chinese name '优大'.

The business incubator was established on 17 January 2018. UTAR has set up two business incubators, one on each campus. The Unovate Centre aims to foster an entrepreneurial culture in the campus. It also aspires to nurture and accelerate the successful development of young businesses or start-ups during their early years.

Among the services provided are:

1. Shared physical space
2. High-speed internet access
3. Business advice
4. Networking connections
5. Mentoring
6. Training
7. Assistance to set-up the company
8. Legal advice

Alumni Relations

The Department of Alumni Relations and Placement (DARP) was set up to foster closer relationships with our alumni, to facilitate job placement for final year students and graduates, and to create opportunities for networking.

To enhance the employability of our graduates, DARP organises career workshops which includes coaching on interviewing skills, resume writing and grooming.

DARP also serves as an information provider for postgraduate studies (including scholarships, research and teaching assistantships) as well as to other affiliated overseas higher learning institutions.

Through the UTARian e-Newsletter and UTAR Alumni E-Magazine, DARP constantly updates alumni members with the latest announcements and developments in the employment market, collaborations with local and foreign partners, and updated news on alumni and the university.

DARP serves as a hub for our alumni to network, exchange information and receive updates. The Department organises events such as gatherings, annual dinners, performances, carnivals, sports and games, Career Day and Career Fair, local and overseas trips.

What Our Alumni Say

Koh Fook Huat

Executive Director
Raffles International Investment Management (Private) Limited

President
UTAR Alumni Association of Malaysia (2015-2017) and (2017-2019)

Kenneth Koh Fook Huat graduated in the year 2008 with a degree in Bachelor of Administration (Honours). He is currently holding a position as an executive director in the Raffles International Investment Management (Private) Limited, based in Singapore.

Koh began his first career as a bancassurance with Public Bank. After that, he spent four years with Media Pertiwi and Sigma Persada, a billboard advertisement company and another two years with Selangor Times as a marketing manager in Runway Designer Outlet. He took almost two years to start-up Raffles International Investment Management with few partners. The investment company covers not only Singapore but also Malaysia, China, Hong Kong, Thailand, Vietnam and Cambodia.

Koh wished all UTARians success in their future undertakings and said, "Never stop and never be afraid of failures. Keep moving and SUCCESS will be waiting for you at the finishing line. It's just a matter of time and effort."

Koh is also the president of UTAR Alumni Association of Malaysia since 2015 until now, where he has been holding the position for two terms (2015-2017) and (2017–2019).

Dhaarshini Balachandran

Founder
Dhaarshini & Co.

Founder
Prriya Management and Consultancy Services

Dhaarshini Balachandran obtained her degree in Accountancy in the year 2013 and her MBA in Corporate Management in the year 2015 from UTAR. Currently, she is pursuing her PhD in Technology Management at Universiti Sains Malaysia.

She started her career as an in-house accountant in a telecommunication company in the year 2013 and moved to work as an auditor in an audit firm later on. After gaining invaluable experience on the practical aspects of audit, taxation and accounts, she joined another company to serve as a group accountant. There she had the opportunity to familiarise herself with internal auditing functions. Upon mastering all the areas in the accounting field, she decided to set up her own Chartered Accounting Firm (Dhaarshini & Co.) and her own Management and Consultancy Company (Prriya Management and Consultancy Services) in the year 2018.

She advised her juniors, "Don't limit yourself into employment, consider yourselves as an entrepreneur. The world needs more entrepreneurs as they help in creating jobs, lifting the standard of living, ushering new technology and keeping competition alive in the marketplace. Don't ever give up or be afraid of the challenges you may face in the future; those challenges are meant to strengthen you. I truly thank UTAR for giving me this beautiful opportunity."

Global UTARians

Tan Jun-Yan
BEng (Hons) Mechanical Engineering
Student Exchange Programme, OTH Regensburg, Germany

"My student exchange programme in OTH Regensburg was a fruitful one. I transferred credit for two subjects and took another three subjects. Classes in Germany are more relaxed and less oriented towards spoon-feeding. Course load per subject is also lesser but they generally take about eight to nine subjects per semester. I got to meet people from all around the world and socialise with them, an eye-opener."

Suhanya a/p Vijayaraj
Bachelor of Medicine and Bachelor of Surgery
Internship, Cardinal Tien Hospital, Taiwan

"I certainly managed to fulfil my objectives by doing my elective clinical postings in Taiwan and gaining medical knowledge in the field of Cardiology and Obstetrics & Gynaecology. I was given the chance to attend case conferences, observe invasive procedures, attend grand round symposium and I even presented a journal report on "Nonsteroidal anti-inflammatory drug resistance in dysmenorrhea" during the morning meeting to the fellow medical personnel."

Liew Zi Qing
BSc (Hons) Actuarial Science
Student Exchange Programme, Inje University, South Korea

"Throughout the student exchange programme, Inje University took care of us very well. We were given the chance to participate in many activities which were not only organised within the campus, but Busan city as well. It was a very special and memorable experience. I noticed, when we attended a class on basic Korean language, the class size was very small compared to our University. I found that the lecturers there emphasised more on two-way communications with the students."

Phua Cheng Ho
BSc (Hons) Biochemistry
Internship, Prince of Songkla University, Thailand

"As undergraduate students, it was a unique experience to have involved in the overseas internship programme, where we were able to explore different parts of the world. It was a different cultural experience for me to work with Thais. I am grateful for the opportunity given, especially to be part of the staff team."

Ong Kuan Yen
Bachelor of Economics (Hons) Global Economics
Internship, Cigna HLA, Hong Kong

"Having my internship abroad was an eye-opening experience for me as I was placed in the global office instead of the local one. I dealt with people across the countries and attended conference calls. I was assigned a role as a junior level project manager and was responsible to coordinate and facilitate meetings."

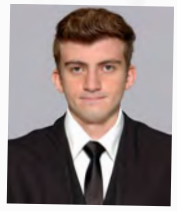
Ku Wen Xin
BCom (Hons) Public Relations
Internship, MAD & Medley Pte Ltd, Singapore

"My internship in Singapore was indeed an eye-opening experience for me as I was able to experience a new culture and learn new things in a new environment. My internship company mostly executes events at Changi Airport where I met a lot of people. It made me realise that different people from a different culture would have different expectations. I find that very interesting."

Our Graduates

Kee Cia Hee
Master of Business Administration (Corporate Governance)

"Studying MBA has enabled me to acquire new skills such as leadership, interpersonal communication and project management skills which have very much benefitted me for my promotion. One of the best experiences in UTAR would be being able to collaborate with international people for the assignments and through that, I learnt other soft skills, understood different cultures and created meaningful friendships."



Mansour Ayman Alawi
Bachelor of Engineering (Hons) Biomedical Engineering

"To UTAR management, lecturers and staff, thank you for providing a great learning platform and passing all the knowledge and skills throughout my years in UTAR. As an international student, I learned a lot of new things and I learned to be more determined and persistent. I am so thankful to UTAR for the diverse education that I have received."

Amalia Maisarah binti Zulkifli
Bachelor of Arts (Hons) Early Childhood Studies

"I have been working for a few months now and honestly it has not been easy. There will be many competitors out there and it's not easy to survive in the competitive workplace. Therefore, take initiative and don't ever wait for your supervisor to tell you what to do. Take charge and don't be shy to share your ideas and always be a team player to succeed in your career."

Sivaraj a/l Lingaraj
Bachelor of Communication (Hons) Journalism

"UTAR's Journalism programme gave me a solid foundation of knowledge that assists me with my current job at the ASTRO Tamil News. The programme is structured to balance real exposure with strong teaching and guidance by lecturers who genuinely care about students' success. I graduated knowing how to tell a story, edit for style and with a passion for journalism."

Yong Jia En Amelia
Bachelor of Medicine and Bachelor of Surgery

"Reflecting on the past five years spent in UTAR, I realised that the challenging journey I faced has moulded me into the graduate I am today. It was a difficult journey and I could not have succeeded without the help and support of those around me. I would, therefore, like to take this opportunity to thank my parents, families, friends and eminent professors and lecturers who mentored me."

Joannes Ngu Tien Wei
Bachelor of Engineering (Hons) Chemical Engineering

"I believe that no matter how hard we study, we must also take a good care of our health, and be well rested. When your mind is well rested, you will be able to focus better, especially during the examination. Thus, burning the midnight oil does not necessarily guarantee a sure pass but a good and healthy mind will enable us to perform well in our exams."

Explore the World Programme

Explore the World Programme is a short-term programme that provides global networking opportunities for students to experience student life in a foreign country, pick up a new language, experience new cultures and make new friends from around the globe. UTAR students may choose to join partner institutions for a semester or up to one academic year from a list of more than 27 partner economies for the academic exchange.

Academic Exchange Programme

The academic exchange programme is open to students pursuing undergraduate or postgraduate programmes and students may choose to join partner institutions for a semester or up to one academic year from a list of more than 27 partner economies, including China, Germany, France, Japan, Korea, Thailand, etc, for academic exchange, research attachment or overseas internship. It is also a chance for international students to study at UTAR and experience the Malaysian culture. More than one thousand students have benefited culturally and academically from this programme.

Students on academic exchange for undergraduate and postgraduate programmes may attend classes with or without seeking credit transfers for subjects taken for a semester to one academic year.

Applicants must be full-time students preferably with sufficient proficiency in the English Language for class instructions at UTAR or the language used for class instructions at the host institution.

Applicants need to fulfill all attendance and programme requirements at UTAR or at the host institution while ensuring that the requirements of home institution and host institution are not breached during the exchange.

Educational Tours and Training Courses

Educational tours and training courses are unique opportunities for students to combine overseas travel and cultural experience with learning.

There are also educational tours and training courses for International students such as Edu-tourism Programme, Malaysian Cultural Immersion Programme, English Immersion Programme, Conversational Malay and Cultural Immersion Programme and Biodiversity and Eco-tourism Programme.

International study tours offered by Department of Soft Skills and Competency (DSSC) are also a popular choice for students to enhance their international mobility experience. Every year DSSC organises a few overseas study tours for UTAR students to Korea, Japan, Singapore and others.

Students who enrol under this programme will be permitted to register in courses of their choice (subject to the rules and regulations governing the programme).

Quality Programmes

Ministry of Education (MOE) and Malaysian Qualifications Agency (MQA)

All UTAR programmes are approved by MOE, which is a requirement under the Private Higher Educational Institutions (Conducting Course of Study) Regulations 1997. The programmes were granted provisional accreditations when they first commenced and were subsequently granted full accreditation. UTAR was granted self-accreditation status by the MQA in 2017. The self-accreditation status entitled UTAR's Senate to accredit its programmes based on the standard set by the MQA, excluding programmes that require accreditation/recognition from the relevant professional body.

MQA Full Accreditation

When a programme is fully accredited by MQA, it would be registered under the Malaysian Qualifications Register (MQR). All programmes under the MQR are recognised by MOE, MQA and the Jabatan Perkhidmatan Awam (Public Services Department).

All UTAR programmes due for accreditation have achieved the Full Accreditation status. This is the testimony to the quality of all UTAR programmes.

Self-Accreditation Status

UTAR was awarded the self-accreditation status by MQA effective from 21 February 2017. The self-accreditation status entitled UTAR to accredit its programmes except for programmes that require accreditation and recognition from the relevant professional body. This autonomy is granted to higher education providers that have demonstrated a solid and stable internal quality assurance system. The self-accreditated programmes would be registered in the MQR.

Academic Review

We have implemented the following procedures after obtaining the self-accreditation status:

- Programme Provisional Accreditation Procedure (PPAP)
- Programme Full Accreditation Procedure (PFAP)
- Programme Accreditation Maintenance Procedure (PMAP)

Programmes which have fulfilled the requirements will be recommended to UTAR Senate for approval and subsequently to MQA for registration in MQR.

International Advisory Council

The UTAR International Advisory Council was established as a platform to foster international affiliations and collaborations with local and foreign universities and research centres. The Council periodically convenes for its members to share their views and advise on further improvements in the university. The council's membership consists of eminent scholars and experts. They are:

- YBhg Professor Emeritus Dato' Wang Gungwu (Chairman)
- Professor Yang Fujia
- Professor Yuan Tseh Lee
- YBhg Tan Sri Dr Ghauth Jasmon
- Professor Tu Weiming
- YBhg Professor Emeritus Academician Tan Sri Datuk Dr Augustine Ong Soon Hock
- YBhg Professor Emeritus Academician Dato' Dr Lam Sai Kit
- Mr Tony Buzan

Industry Advisory Panel

We appoint relevant industry experts as advisors, seeking their feedback and advice on the latest requirements of the industry and market so that we can design new programmes and enhance existing ones to better meet these latest requirements.

Professional Bodies

We maintain strong ties with leading professional bodies. Our programmes are recognised by many local and international professional bodies such as:

In addition, UTAR is also a member of the Association to Advance Collegiate Schools of Business (AACSB) and the Alliance on Business Education and Scholarship for Tomorrow, a 21st century organisation (ABEST21).

Washington Accord Countries

As Malaysia is a signatory of the Washington Accord, UTAR's engineering degrees are recognised by each signatory as being substantially equivalent to accredited or recognised qualifications within its own jurisdiction. The following are other signatories of the Washington Accord:

1. Australia
2. Canada
3. China
4. Chinese Taipei
5. Hong Kong China
6. India
7. Ireland
8. Japan
9. Korea
10. New Zealand
11. Russia
12. Singapore
13. South Africa
14. Sri Lanka
15. Turkey
16. United Kingdom
17. United States
18. Pakistan

External Examiners

To ensure impartiality in the evaluation of academic standards and benchmarking of our programmes against international standards, we have appointed more than 100 prominent faculty members from educational institutions worldwide as external examiners for our academic programmes.

Collaborative Partners

Being committed to academic and research excellence, we have established formal collaborative partnerships with over 330 educational institutions and industries from 27 economies. The partnerships facilitate mutual visits, academic and student exchange, and joint development in teaching and research.

ISO 9001: 2015 Quality Management System Certification

The ISO 9001: 2008 Quality Management System was upgraded to the ISO9001: 2015 Quality Management System in 2018 with a change to a different scope, covering the following:

1. Provision of medical and health sciences education services for undergraduate levels;

2. Provision of financial management services.

The certification reflects UTAR's commitment to quality through the various continuous improvement activities to ensure quality services to UTAR students.

Management Audits

Management audits are periodically carried out by either external auditors or by a team of internal auditors managed by the Division of Strategy Planning, Performance Monitoring and Audit to ensure efficient, effective and prudent management of UTAR.

Foundation, Undergraduate and Postgraduate Programmes

Foundation and Bachelor's Honours Degree Programmes (Full-time)

Programme Codes	Programmes	Duration (Years)	Campuses

Master of Sustainable Construction Management *(N/526/7/0138)08/25*	Coursework	Jan, May	1	2	Kampar
Information and Communication Technology and Mathematics					
Master of Information Systems *(R/481/7/0662)10/20(MQA/FA0185)*	Coursework	Jan, May, Oct	1	2	Sungai Long
Master of Mathematics *(R2/461/7/0004)04/23(A8216)*	Coursework	Jan, May	1.5	2	Sungai Long
Programmes by Research					
Arts and Social Sciences					
Master of Arts (Communication) *(R/220/7/0002)03/21(MQA/FA0473)*	Research	Throughout the year	2	3	Sungai Long
Master of Philosophy (Social Science) *(R2/310/7/0022)07/24(A9923)*	Research	Throughout the year	2	3	Kampar
Doctor of Philosophy (Social Science) *(R/226/8/0001)06/19(A10033)*	Research	Throughout the year	3	4	Kampar
Business and Management					
Master of Philosophy *(R2/345/7/0667)05/26(A10031), (R/340/7/0395)05/19(A10012)*	Research	Throughout the year	2	3	Kampar/ Sungai Long
Doctor of Philosophy *(R2/345/8/0666)05/26(A10032), (R/340/8/0443)05/19(A10011)*	Research	Throughout the year	3	4	Kampar/ Sungai Long
Chinese Studies					
Master of Arts (Chinese Studies) *(R/312/7/0008)09/20(A11666)*	Research	Throughout the year	2	3	Sungai Long
Doctor of Philosophy (Chinese Studies) *(R2/224/8/0034)11/23(A9050)*	Research	Throughout the year	3	4	Sungai Long
Engineering					
Master of Engineering Science *(R2/520/7/0005)03/21(A6919), (R/520/7/0062)07/20(A11098)*	Research	Throughout the year	2	3	Kampar/ Sungai Long
Doctor of Philosophy (Engineering) *(R2/520/8/0021)03/21(A6917), (R/520/8/0078)07/20(A11099)*	Research	Throughout the year	3	4	Kampar/ Sungai Long

Computer Science					
Master of Science (Computer Science) *(R/481/7/0539)01/20(A11054)*	Research	Throughout the year	2	3	Kampar
Doctor of Philosophy (Computer Science) *(R/481/8/0557)03/20(A11097)*	Research	Throughout the year	3	4	Kampar
Sciences and Health Sciences					
Master of Science *(R2/440/7/0004)03/21(A6918), (R/440/7/0021)03/20(A11039)*	Research	Throughout the year	2	3	Kampar/ Sungai Long
Master of Medical Science *(R/720/7/0015)11/21(MQA/FA1390)*	Research	Throughout the year	2	3	Sungai Long
Master of Medical Science (Chinese Medicine) *(N/811/7/0250)03/20(MQA/PA5352)*	Research	Throughout the year	2	3	Sungai Long
Doctor of Philosophy (Chinese Medicine) *(N/721/8/0054)08/20*	Research	Throughout the year	3	4	Sungai Long
Doctor of Philosophy (Science) *(R2/440/8/0001)03/21(A6916), (R/440/8/0020)03/20(A11018)*	Research	Throughout the year	3	4	Kampar/ Sungai Long
Doctor of Philosophy (Medical Science) *(R/720/8/0016)02/22(MQA/FA1389)*	Research	Throughout the year	3	4	Sungai Long

Double Degree Programmes (DDP)

UTAR Double Degree Programmes (DDP) is a special academic programme that allow students to graduate with two different undergraduate degrees in two discipline areas within the same faculty or in two different faculties. It enables the students to complete the two degrees in a shorter period than it would take to complete both degrees separates.

The Double Degree Programmes available are:

Programme	Duration	Campus
Bachelor of Business Administration (Honours) and Bachelor of Social Science (Honours) Psychology *(R2/345/6/0972)03/22(A7942) and (R/311/6/0046)06/19(A10064)*	5 years	Kampar
Bachelor of Science (Honours) Construction Management and Bachelor of Business Administration (Honours) Entrepreneurship *(R/526/6/0055)05/19(A9827) and (R/345/6/0460)05/19(A10331)*	5 years	Kampar
Bachelor of Communications (Honours) Public Relations and Bachelor of Business Administration (Honours) Entrepreneurship *(R2/342/6/0191)03/22(A7908) and (R/345/6/0460)05/19(A10331)*	5 years	Kampar

A student for Double Degree Programme shall possess the following qualifications and demonstrate that he/she is qualified to undertake the programme:

(a) Completed two (2) years of study in his/her first degree programme, and
(b) Obtained a minimum CGPA of 3.0000 for the first degree programme.

Academic Calendar

Foundation Programmes

January 2019 Intake

First Trimester
14 Jan 2019 - 26 May 2019
14 weeks (Teaching)
1 week (Examinations)
4 weeks (Break)

Second Trimester
27 May 2019 - 22 Sept 2019
14 weeks (Teaching)
1 week (Examinations)
2 weeks (Break)

Third Trimester
23 Sept 2019 - 12 Jan 2020
12 weeks (Teaching)
1 week (Examinations)
3 weeks (Break)

May 2019 Intake

First Trimester
27 May 2019 - 22 Sept 2019
14 weeks (Teaching)
1 week (Examinations)
2 weeks (Break)

Second Trimester
23 Sept 2019 - 12 Jan 2020
12 weeks (Teaching)
1 week (Examinations)
3 weeks (Break)

Third Trimester
13 Jan 2020 - 24 May 2020
14 weeks (Teaching)
1 week (Examinations)
4 weeks (Break)

October 2019 Intake

First Trimester
23 Sept 2019 - 12 Jan 2020
12 weeks (Teaching)
1 week (Examinations)
3 weeks (Break)

Second Trimester
13 Jan 2020 - 24 May 2020
14 weeks (Teaching)
1 week (Examinations)
4 weeks (Break)

Third Trimester
25 May 2020 - 20 Sept 2020
14 weeks (Teaching)
1 week (Examinations)
2 weeks (Break)

Undergraduate and Postgraduate Programmes

January 2019 Intake

First Trimester
14 Jan 2019 - 26 May 2019
14 weeks (Teaching)
3 weeks (Examinations)
2 weeks (Break)

Second Trimester
27 May 2019 - 13 Oct 2019
14 weeks (Teaching)
3 weeks (Examinations)
3 weeks (Break)

Third Trimester
14 Oct 2019 - 12 Jan 2020
7 weeks (Teaching)
3 weeks (Examinations)
3 weeks (Break)

May 2019 Intake

First Trimester
27 May 2019 - 13 Oct 2019
14 weeks (Teaching)
3 weeks (Examinations)
3 weeks (Break)

Second Trimester
14 Oct 2019 - 12 Jan 2020
7 weeks (Teaching)
3 weeks (Examinations)
3 weeks (Break)

Third Trimester
13 Jan 2020 - 24 May 2020
14 weeks (Teaching)
3 weeks (Examinations)
2 weeks (Break)

October 2019 Intake

First Trimester
14 Oct 2019 - 12 Jan 2020
7 weeks (Teaching)
3 weeks (Examinations)
3 weeks (Break)

Second Trimester
13 Jan 2020 - 24 May 2020
14 weeks (Teaching)
3 weeks (Examinations)
2 weeks (Break)

Third Trimester
25 May 2020 - 11 Oct 2020
14 weeks (Teaching)
3 weeks (Examinations)
3 weeks (Break)

Note: Orientation for new students usually starts one week before the new trimester begins.

Admission

Admission to UTAR is on a meritocratic basis. You are expected to satisfy both minimum entry requirement and language requirement set by the university. Some programmes may have additional requirements such as submission of a drawing portfolio, previous project reports, and an interview before the university decides on the admission.

Foundation/Undergraduate Programmes

Entry with Standard Qualifications

If you possess an SPM/SPMV/UEC/O-Level or equivalent qualification, you are encouraged to apply for entry to one-year Foundation in Arts or Foundation in Science. Upon successful completion of the Foundation programmes, you will progress to Year 1 of the corresponding undergraduate programmes.

Sijil Pelajaran Malaysia (SPM)/Sijil Pelajaran Malaysia Vokasional (SPMV)/O-Level	5 credits in the relevant subjects
Unified Examination Certificate (UEC)	Grade B in 3 relevant subjects
Other qualifications	Subject to approval

Generally UTAR accepts applicants with any of the following qualifications for entry to undergraduate degree programmes:

Sijil Tinggi Persekolahan Malaysia (STPM)	2 principal passes in the relevant subjects
GCE A-Level (Advanced Level)	2 passes in the relevant subjects
Unified Examination Certificate (UEC)	Grade B in 5 relevant subjects
South Australian Matriculation (SAM)	Australian Tertiary Admission Rank (ATAR) of 70 and grade B in 2 relevant subjects
Canadian Pre-University (CPU)	An average of 70 percent in 6 relevant subjects
Matriculation Certificate, Ministry of Education Malaysia	Pass
UTAR Foundation Programme	Pass
Other equivalent qualifications	Subject to approval

Entry with Credit Transfer

If you apply with a diploma-level qualification from another higher learning institution, appropriate credit transfers or advanced standing may be granted subject to approval.

Incomplete degree holders can also apply and may be considered for horizontal credit transfer.

Entry by Accreditation of Prior Experiential Learning (APEL)

Accreditation of Prior Experiential Learning (APEL) provides an alternative entry method to those who do not possess the requisite formal qualification to further their education to a higher level. A candidate to be assessed via APEL must be a Malaysian citizen of at least 21 years of age, as of first of January in the year of application for APEL, and possess relevant work experience. In general, knowledge obtained through formal education and working experience can be accessed through APEL.

Fee for APEL's assessment (Aptitude and Portfolio test) is RM250.00 per registration. For more information, please visit the Malaysian Qualifications Agency (MQA) website at *http://www2.mqa.gov.my/APEL/*

Entry with Specific Qualifications

UTAR also welcomes students from all over the world to study with us. The following table enlists the entry level for different qualifications. If your qualification is not listed, please get in touch with UTAR's Division of Programme Promotion for more details.

Economies	Names of Qualification	Entry Levels
Afghanistan	Baccalauria/Baccalaureate Certificate (Grade 12 Graduation Certificate)	Bachelor
Algeria	Baccalauréat de l'Enseignement Secondaire	Bachelor
Australia	Australian Year 10 (ACT, HSC, NTCE, QCE, TCE) The School Certificate Part A and B issued by the Board of Studies, New South Wales	Foundation
	Australian Year 12 (ACT, HSC, NTCE, QCE, SACE, TCE, VCE, WACE) Result Notification for University Entrance, Bursaries and Scholarships Examination Australian Qualifications Framework Level 4 (AQF4)	Bachelor
Bahrain	Tawjahiya (Secondary School Leaving Certificate)	Bachelor
Bangladesh	Secondary School Certificate (SSC)/Dhakil (from Bangladesh Madrasah Education Board)	Foundation
	Higher Secondary Certificate (HSC)/Intermediate Certificate/Alim (from Bangladesh Madrasah Education Board)	Bachelor

Uzbekistan	Diploma of Specialised Secondary Education	Foundation
	Diploma of Professional College Diploma of Academic Lyceum	Bachelor
Vietnam	Upper Secondary School Graduation Diploma	Bachelor
Yemen	General Secondary Education Certificate (Al-Thanawiya)	Bachelor
Zambia	School Certificate	Bachelor
Zimbabwe	ZIMSEC O-Level Certificate (formerly Cambridge School Certificate/ GCE O-Level)	Foundation
	ZIMSEC A-Level Certificate (formerly Cambridge High School Certificate/GCE A-Level)	Bachelor

Postgraduate Programmes

Master's Programmes

Entry with Standard Qualifications

(a) A Bachelor's Degree with Honours and CGPA of 2.75 and above or a Bachelor's Degree with CGPA of 2.75 and above in a related field from UTAR; or
(b) A Bachelor's Degree with Honours and CGPA of 2.50 and above but less than 2.75 or a Bachelor's Degree with CGPA of 2.50 and above but less than 2.75 in a related field from UTAR and subjected to rigorous internal assessment; or
(c) A Bachelor's Degree with Honours and CGPA of 2.00 and above but less than 2.50 or a Bachelor's Degree with CGPA of 2.00 and above but less than 2.50 in a related field from UTAR, show evidence of at least five (5) years of relevant working experience and subjected to rigorous internal assessment; or
(d) Any other academic qualifications equivalent to (a), (b) or (c) from another recognised University as approved by the Senate

Specific Academic Requirements Entry for the following programmes

Master of Psychology (Industrial and Organisational Psychology)
(a) A Bachelor's Degree in Psychology or its equivalent with minimum CGPA of 2.75; or Note: A Bachelor's Degree in Psychology not meeting CGPA of 2.75 (but not lower than 2.5) can be accepted subject to rigorous internal assessment by an independent review panel.
(b) A Bachelor's Degree with minimum CGPA 2.75 in any field, and a minimum 45 credits of prerequisites modules in Psychology or its equivalent; or
(c) A Bachelor's Degree with minimum CGPA 2.75 out in any field, and a minimum 30 credits of prerequisites modules in Psychology or its equivalent, and a Graduate Record Examination (GRE) Subject Test (Psychology) with a minimum score of 550.

Master of Architecture
(a) a Bachelor's Degree with Honours and CGPA of 2.75 and above or a Bachelor's Degree with CGPA of 2.75 and above in a related field from UTAR; or
(b) a Bachelor's Degree with Honours and CGPA of 2.00 and above but less than 2.75 or a Bachelor's Degree with CGPA of 2.00 and above but less than 2.75 in the relevant field of study from UTAR and subjected to rigorous assessment; or
(c) any other qualifications equivalent to (a) and (b) as recognized by the Senate and Board of Architects Malaysia; and
(d) at least six months of post-degree Practical Experience in a registered architect's office recorded in a log book and submission of a portfolio for assessment.

Master of Science (Computer Science)
(a) a Bachelor's Degree in Computing or in the area of science and technology or related to computing, with a minimum CGPA of 3.00; or
(b) a Bachelor's Degree in Computing or in the area of science and technology or related to computing, with CGPA below 3.00 but above 2.50, can be accepted subject to rigorous internal assessment; or
(c) a Bachelor's Degree in Computing or in the area of science and technology or related to computing, with CGPA less than 2.50, with a minimum of 5 years working experience in a relevant field and subjected to rigorous assessment.

Entry with Accreditation of Prior Experiential Learning (APEL) – Malaysian students only

Students can now apply for admission into the following Master's degree programmes by Coursework in UTAR through APEL:

1. Master of Business Administration
2. Master of Business Administration (Corporate Governance)
3. Master of Business Administration (Building Management)
4. Master of Business Administration (Corporate Management)
5. Master of Project Management
6. Master of Information Systems
7. Master of Communication
8. Master of Mathematics
9. Master of Engineering (Electrical)
10. Master of Engineering (Mechanical)
11. Master of Engineering (Electronic Systems)

Who can apply APEL
- A Malaysian citizen
- At least 30 years of age (at the time of the application)
- At least STPM/diploma/equivalent qualifications
- Relevant work experience

For more information, please visit *http://ipsr.utar.edu.my/APEL.php*

Doctorate's Programme

A Master's Degree in related field from UTAR or from another recognised University/Institution as approved by the Senate.

English Language Requirements

Malaysian Students/International Students

You need to be proficient in the English Language, which is the medium of instruction and examination at the University. Most programmes would normally require a credit/relevant score in English Language in one of the following examinations:

Recognised Tests	Minimum Grade/Score		
	Foundation	Undergraduate	Postgraduate
International English Language Testing System (IELTS)	4.0	5.0	5.0
TOEFL PBT (Paper Based)	397	410	410
TOEFL iBT (Internet-based)	30	34	34
SPM English Language/O-Level English Language	Credit	Credit	
Malaysian University English Test (MUET)	Band 2	Band 3	Band 3
UEC English Language	Grade B	Grade B	
Pearson Test of English (PTE)	30	36	36

Notes:

1. Some undergraduate and postgraduate programmes may require higher English Language test scores as set by the Ministry of Education (MOE) or the Malaysian Qualification Agency (MQA). For more information, kindly contact Division of Programme Promotion.
2. Malaysian students who do not fulfil the English Language requirement will need to enrol and pass the English Enhancement Programme (EEP) offered by the UTAR Centre for Extension Education as a prerequisite before pursuing a foundation or degree programme.
3. International students (including Chinese Studies programmes) who have fulfilled the minimum entry requirements but do not possess a required score in an international English Language examination will be considered for a conditional offer. Under this condition, the students will enrol into the UTAR's English Enhancement Programme (EEP) and at the same time, register and pass the IELTS or other recognised international English Language examination with required test score within 1 year after arriving to Malaysia.
4. International students who have failed the English Language competency requirement within 1 year must return to their home country.
5. Students who have obtained the Bachelor's or Master's degree with English as the sole medium of instruction, should provide the letter from the institution's Registrar.

For students who enrol into the programmes with medium of instruction fully or partially in Chinese Language must fulfil the University Chinese Language requirements as follows:

Recognised Tests	Minimum Grade/Score		
	Foundation	Undergraduate	Postgraduate
SPM/O-Level/UEC Chinese Language	Credit	Credit	B4
STPM Chinese Language	Pass	Pass	Grade C
Chinese Proficiency Test: HSK (The Intermediate Certificate)	Grace C (Level 6)	Grace B (Level 7)	Grace A (Level 8)
China Hanyu Shuiping Kaoshi (New HSK)/New Chinese Proficiency Test (since 2010)	Level 5 (Minimum 180 marks, maximum 194 out of 300 marks)	Level 5 (Minimum 195 marks, maximum 209 out of 300 marks)	Level 5 (Minimum 210 marks, maximum 300 out of 300 marks)
Test of Proficiency-Huayu: TOP (Intermediate Level)	Level 3	Level 4	Level 5
Test of Chinese as a Foreign Language (TOCFL) (since 2013)	Level 3	Level 4	Level 5

Admission Process

Malaysian Students

1. Search for a programme that suits your interest and fulfills the academic entry and language requirements.
2. Apply and upload the required documents online, and pay a non-refundable application fee of RM60. Alternatively, you can download the application form of admission from www.utar.edu.my or purchase at UTAR campuses.
3. Notify you by SMS (Foundation and Undergraduate Programmes) or email (Postgraduate programmes) if you are a successful applicant.
4. Receive your offer of admission and student bill. Take note on the payment due date that stated on the student bill.
5. Accept your offer of admission by paying your student bill before the due date of payment.
6. Attend the orientation and begin your classes.

International Students

1. Search for a programme that suits your interest and fulfills the academic entry and language requirements.
2. Download application form at www.utar.edu.my, and pay a non-refundable application fee of USD100/RM300.
3. Receive an offer of admission and the first student bill via email if successful. The first bill consists of Education Malaysia Global Service (EMGS)'s charges and university administrative fees.
4. Pay the first student bill before the due date and email your receipt of payment to diss@utar.edu.my. UTAR will apply for the student visa for you after receiving your payment.
5. Undergo pre-entry medical screening at one of the EMGS approved overseas clinics. Your medical examination report will be automatically submitted online by the clinic to EMGS.
6. Receive Electronic Visa Approval Letter (eVAL) and apply for the Single Entry Visa (SEV) at the nearest Malaysian Embassy/High Commission/Consulate Office in your country.
7. Pay the second student bill and send the receipt together with the accommodation and airport pick up service request forms to diss@utar.edu.my a week before your arrival to Malaysia.
8. On your arrival date, UTAR staff will facilitate you in immigration clearance at the airport and transfer you to the respective campus.
9. Post-medical screening will be carried out at EMGS appointed clinics within 7 days of arrival in Malaysia to obtain student pass.
10. Join our orientation and begin your classes.

Faculties, Institutes and Centres

Faculty of Arts and Social Science

Kampar Campus

Academic excellence is greatly emphasised in the programmes offered by the Faculty of Arts and Social Science. Graduates are not only taught theories and concepts but also equipped with skills to meet the needs of their respective industries. Information on the recent developments in technology is applied in projects for graduates to analyse the effects of these developments in their respective fields. Language and nation-building subjects appropriate in the context of Malaysia help graduates to be excellent communicators and well-versed in the diversity of cultures in this country. Talks, workshops and industry visits are organised by the faculty for staff and students to gain insights and knowledge about the developments in the respective fields.

The faculty stresses the following aspects:

- Development of analytical and critical thinking skills in the practical aspects of the subjects offered
- An understanding of the Malaysian socio-cultural, political and economic environment in relation to world economies in the curriculum of all programmes
- The assessment of curriculum by external examiners from renowned universities
- Support for research activities among staff and students with grants and scholarships from more than 15 organisations through the Faculty Research and Development and Postgraduate Committee (FRDPC)

Faculty of Business and Finance
Kampar Campus

The Faculty of Business and Finance (FBF) aims to build and sustain UTAR as a leading learning community in Accounting, Business, Marketing, Retail Management, Economics, Entrepreneurship, and Banking and Finance in Malaysia and internationally.

The faculty is committed to providing a university education that is intellectually rigorous with contemporary and professional relevance in the industry.

FBF offers a distinctive range of professionally accredited courses designed for successful and fulfilling careers (e.g. Bloomberg Experiential Learning Partner Programme, CFA University Affiliation Program and ACCA Accelerate Scheme). The faculty aims to create an environment conducive for high academic achievements in learning and research.

Undergraduate Programmes

Bachelor of Business Administration (Honours)* *(R2/345/6/0972)03/22(A7942)*
Bachelor of Business Administration (Honours) Banking and Finance *(R/343/6/0104)05/19(A10330)*

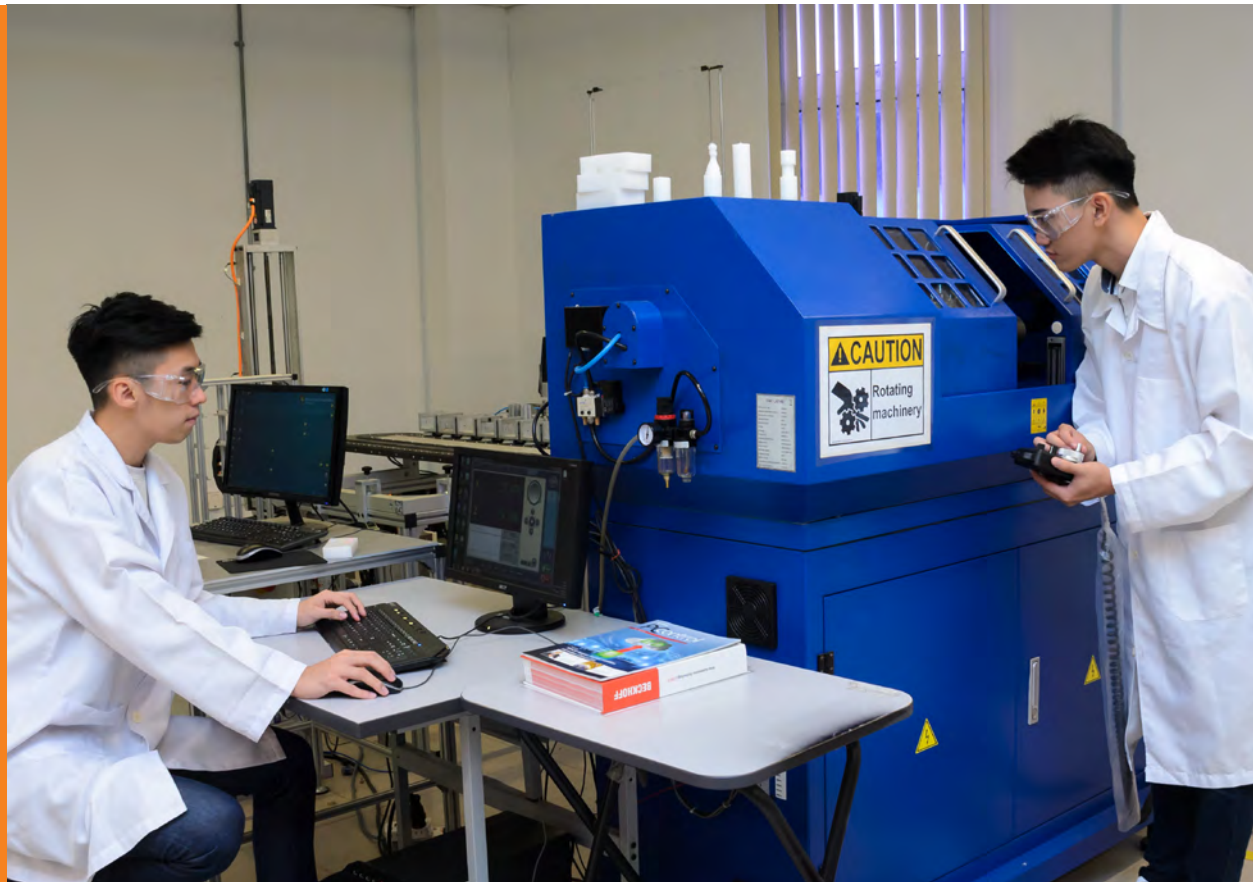
Faculty of Engineering and Green Technology
Kampar Campus



In the last few decades, developments in science and technology have been progressing at a rapid pace. The world has entered a new economic paradigm in the new millennium as a result of globalisation and the emergence of new science and technology.

The Faculty of Engineering and Green Technology (FEGT) is entrusted with a mission to provide quality undergraduate and postgraduate education, conduct cutting-edge fundamental and applied research, and support and enhance the profession of engineering and green technology through its education, research and service activities.

FEGT aspires to play a central role as the new knowledge provider of basic and applied aspects of engineering and green technology. The faculty is devoted to producing qualified, skilful and well-informed engineers, who are committed to pursuing knowledge at the frontiers of science and green technology.

The other highlights of the faculty include the following:

- The curriculum of all programmes is benchmarked against reputable local and international institutions of higher learning
- Enhanced inputs from leaders in related industries together with strong and active support from industry advisory panel members from local and multinational companies ensure that programmes are relevant
- Curriculum incorporates knowledge gained from research works of the faculty academics involved in postgraduate programmes
- The programmes contain the elements of innovation and technopreneurship, allowing graduates a wider choice of career prospects
- Located in a campus with a picturesque lake view providing a serene and green environment
- Active student clubs and societies together with the surrounding historical sites provide an opportunity to enrich student's stay and experience in the university
- The Centre for Environment and Green Technology Research provides avenues for students and staff to engage in active research projects

Faculty of Information and Communication Technology

Kampar Campus

The Faculty of Information and Communication Technology (FICT) aims to produce competent and skilful graduates catering to the demands of the rewarding ICT job market in various industry sectors.

ICT is the backbone and an essential element of most businesses today. It provides impetus for the day-to-day business functions by allowing better cross-departmental or organisational collaboration and communication, more effective streamlining of business processes, better management of human and material resources, and better facilitation of human-system interaction through the implementation of integrated, efficient and reliable information systems. More importantly, ICT opens up access to a whole world of information, a fact that has fundamentally changed the way we live.

FICT offer classes which include important fundamentals of computing and up-to-date specialised areas such as Internet-of-Things, Deep Learning, Mobile Application Development, Wireless Communications, Artificial Intelligence, Cloud Computing, Software Engineering and Testing, Computer and Network Security, Data Science, Databases, Data Warehousing and Data Mining, Enterprise Systems and Business Systems, Information Technology in Customer Relationship Management, Web Development, and Software and Hardware Integration. The faculty also introduces research elements into the programmes in order to inculcate lifelong learning in the graduates as well as nurture excellence in their ICT careers.

The prospects of a career in the ICT arena are simply enormous given the heavy reliance of business on ICT. In fact, ICT graduates can choose either to develop their own application and start up a business or be employed in a wide range of industry sectors including technical consulting, telecommunication, web design and development, banking and finance, manufacturing, biotechnology, civil service and more.

The other highlights of the faculty include the following:

- Extensive collaborations with industry partners such as Microsoft, Oracle, Intel, IBM, Cisco, Huawei and Alibaba, which assisted in the setting up of teaching and research laboratories at UTAR
- Collaborations deliver industry-relevant curriculum to students to enhance their employability after graduation

- Internships with major industry partners allow students to gain valuable experience and exposure
- Employment rate of FICT graduates is more than 97% within six months of graduation
- Participation in both national and international competitions and events
- Champion in Microsoft Imagine Cup, Champion in ACM-ICPC Malaysia National Programming Contest, Champion in SAP Lumira University Challenge, and Best of Tertiary Student Project in APICTA
- Research Centres that promote practical discovery, learning and innovation. The research centres are:
  - Centre for Computing and Intelligent Systems (CCIS)
  - Centre for Communication Systems and Networks (CCSN)
  - Centre for Information Systems and Software Technologies (CISST)

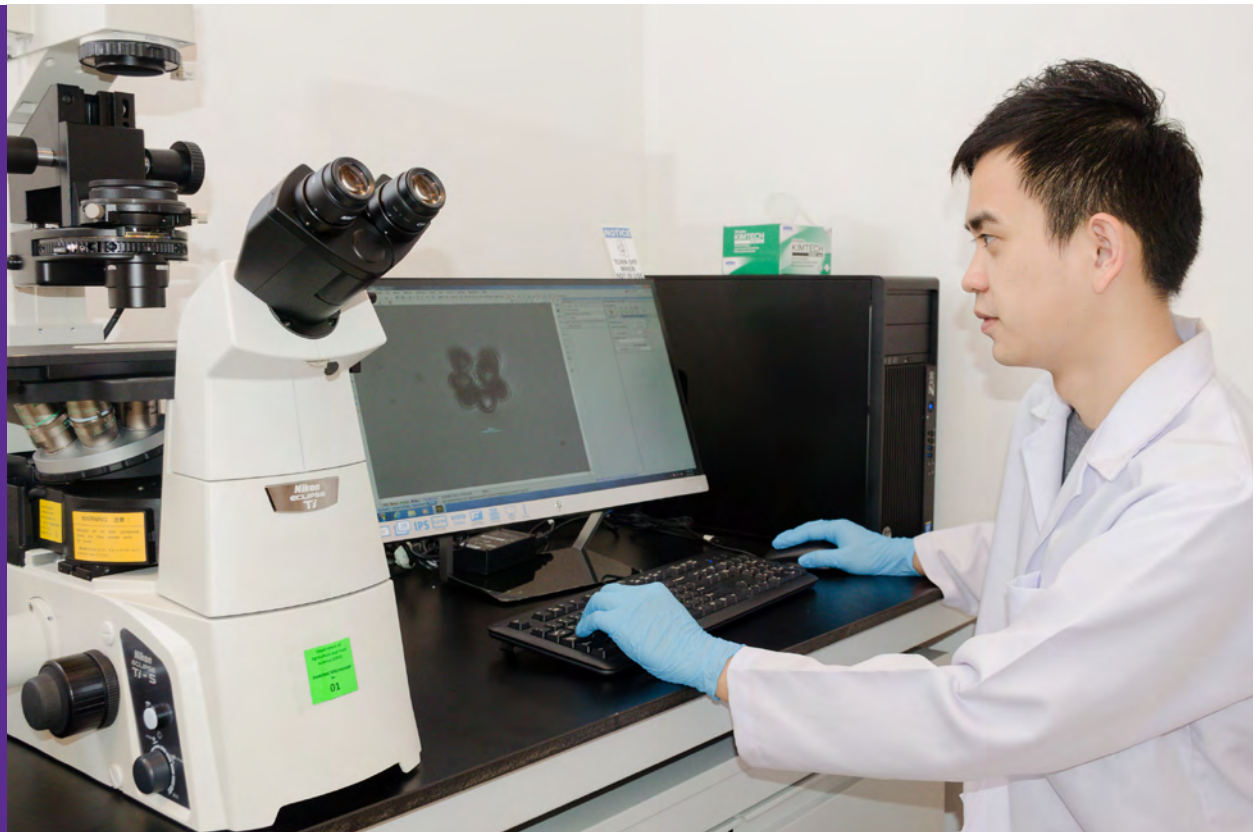
Industry Advisor Panel Meeting

Faculty of Science
Kampar Campus



The Faculty of Science (FSc) aims to spearhead the development, application and dissemination of knowledge related to the Biological, Chemical and Mathematical Sciences including fields such as Agriculture, Food Sciences, Chemistry, Biochemistry, Biomedical, Dietetics, Biotechnology, Microbiology, Statistics and Logistics. The faculty's team of dedicated staff is actively involved in research related to these fields and their findings ultimately benefit the students and the industries. The faculty has invested heavily in modern scientific instruments which will allow students to acquire hands-on experience with modern instrumentation which is an important feature of education in science today.

The following are some highlights of the faculty:

- UTAR is the only private institution which offers Chemistry, Logistics and International Shipping, and Agricultural Science programmes
- Hands-on practical experience with modern instrumentation
- Quality of teaching is audited by a panel of external examiners from the United Kingdom, Singapore, Hong Kong, Japan and Taiwan
- 61.54% of faculty staff are PhD holders
- Affordable science education in a beautiful and spacious campus environment
- The Centre for Bio-Diversity Research provides opportunities for students to engage in funded research initiatives

Faculty of Accountancy and Management

Sungai Long Campus

It is the philosophy of the Faculty of Accountancy and Management (FAM) to constantly keep its programmes up-to-date with the latest changes in the ever-evolving world of business. This is done via regular monitoring of local, regional and global business trends and developments. Programmes are designed to prepare graduates for the real world of rapid changes, technological innovation and advancement, and the effects of globalisation.

The faculty also aims to achieve world-class standards in its entire curricula through collaborations with global academic and professional communities. Industry advice is constantly sought to ensure that the programmes are contemporary, up-to-date, relevant, practical and in line with the demands of today's business landscape.

Students are given the opportunities to participate in study tours and student exchange programmes whereby students visit foreign countries and universities to obtain credits transfer, undertake consultancies in various businesses (locally and overseas), undergo internships, and participate in visits to organisations, both local and international. Students are encouraged to participate in business games and competitions; providing practical real-life situations and scenarios that can prepare them for the real world. Students are also encouraged to engage in many clubs and societies available at UTAR; arming themselves with leadership skills.

The programmes offered are recognised and accredited by the Malaysian government, professional bodies and supported by the industry. The faculty focuses on preparing graduates for professional practice with a balance between theory and practical education. It also forms strong foundations for those in pursuit of educational excellence.

Faculty of Creative Industries
Sungai Long Campus

The Faculty of Creative Industries (FCI) nurtures and develops students to be creative and critical thinkers who are confident, competent and industry-ready for the various fields within the creative industries, not only in Malaysia but around the world.

The faculty offers programmes that enhance students' understanding and appreciation of the local and global creative industries, as well as the intersections of the Malaysian socio-cultural, political and economic spheres. In addition, the faculty offers language and nation-building units which are relevant to the local context.

Above all, the faculty emphasises creative, technical and academic excellence in all its programmes. Students' grasp of concepts and theories in their respective fields is an important aspect of their education.

- Excellent educational facilities: recording studios, media, photography and computer labs to support teaching and project work
- Study of industry-relevant software on graphic design, animation, multimedia and game design
- Prominent and international external examiners
- Industry support from panel members consisting of industry experts
- Two research centres available to support staff and student research activities:
  - Centre for Immersive Technologies
  - Tun Tan Cheng Lock Centre for Social and Policy Studies

Faculty of Medicine and Health Sciences
Sungai Long Campus

The Faculty of Medicine and Health Sciences (FMHS) was established on 16 November 2009 with the aspiration to be the preferred centre of education and research for medical and health sciences. The faculty is devoted to providing an environment conducive for the acquisition of knowledge and skills for effective clinical practices, developing values and attitudes of dedication, ethics and professionalism in the delivery of healthcare and producing graduates who would serve and improve the quality of life of the community.

Team of Dedicated Educators and Support Staff

The faculty aims to build a team of dedicated educators and support staff to produce caring and competent health professionals. It also implements an effective learning model with extensive use of ICT, establishes and nurtures an innovative research and development culture, and carries out community and social responsibilities. Among the pioneering faculty members, there are Fellows of the Academy of Sciences of Malaysia as well as Fellows of the Academy of Medicine of Malaysia.

Undergraduate Programmes

Bachelor of Chinese Medicine (Honours)* *(R/721/6/0066)07/20(A11119)*
Bachelor of Medicine and Bachelor of Surgery (M.B.B.S.) *(R/721/6/0053)01/20(MQA/FA5540)*
Bachelor of Nursing (Honours) *(R/723/6/0155)10/20(MQA/FA9369)*
Bachelor of Physiotherapy (Honours) *(R/726/6/0061)10/20(A10816)*

**Also offered part-time at the Sungai Long Campus*

Postgraduate Programmes

Master of Medical Science *(R/720/7/0015)11/21(MQA/FA1390)*
Master of Medical Science (Chinese Medicine) *(N/811/7/0250)03/20*
Doctor of Philosophy (Chinese Medicine) *(N/721/8/0054)08/20*
Doctor of Philosophy (Medical Science) *(R/720/8/0016)02/22(MQA/FA1389)*

The first batch of M.B.B.S., Physiotherapy and Nursing graduates attended their convocation on 22 August 2015 and the first batch of Chinese Medicine graduates attended their convocation on 19 August 2016.

Postgraduate Studies

The faculty welcomes applications for the Masters and Doctor of Philosophy in the broad areas of studies such as bio-diversity research, medical application of biosensors, application of stem cells in regenerative medicine, emerging infectious diseases such as those causing pandemics, novel therapeutic approaches to treat cancers, and health issues related to an ageing population, mothers and newborns as well traditional Chinese Medicine. The intake is open throughout the year.

Collaborative Research on Stem Cell, Cancer, Communicable Diseases, Non-Communicable Diseases and Traditional Chinese Medicine

There are five research centres associated with the Faculty of Medicine and Health Sciences, namely the Centre for Research in Traditional Chinese Medicine, Centre for Research on Non-Communicable Diseases, Centre for Cancer Research, Centre for Stem Cell Research, and Centre for Research on Communicable Diseases.

Faculty members are actively involved in research collaborations and projects with research funding based on external grants from the funding agencies of the Malaysian Government, International Foundation for Science (IFS), Royal Bird's Nest Sdn Bhd, Eu Yang Sang, MAKNA, Toray Foundation, and Cryocord Sdn Bhd. The university has also provided internal seed grants.

The main thrust of the research activities among faculty members are within the areas of stem cell research, cancer research, chemoprevention, health and nutrition, stroke management, medical education, edible bird nests, communicable diseases and traditional Chinese medicine. The faculty currently has a total of 40 postgraduate students working in various areas of medical and health science-related research and is also hosting a number of post-doctoral scientists and international visiting scholars.

	Professor Dr Luo Wei Sheng Guangxi University of Chinese Medicine

Lee Kong Chian
Faculty of Engineering and Science
Sungai Long Campus

The Lee Kong Chian Faculty of Engineering and Science (LKC FES) aspires to play a central role as the new knowledge provider of basic and applied aspects of engineering, science and technology. The faculty is devoted to providing high-quality undergraduate and postgraduate programmes, which will, in turn produce qualified, skillful, knowledgeable and well-informed engineers, scientists and technologists committed to pursuing knowledge at the frontiers of science.

The faculty also aims to become a leader in high quality fundamental and applied research in engineering and science, as well as to advance the frontiers of science for the betterment of humanity. The programmes incorporate the elements of innovation and technopreneurship, thus allowing graduates a wider choice of career prospects.

Undergraduate Programmes

- Bachelor of Engineering (Honours) Biomedical Engineering *(R2/524/6/0004)07/21(MQA/FA1045)*
- Bachelor of Engineering (Honours) Chemical Engineering *(R2/524/6/0003)07/21(MQA/FA4697)*
- Bachelor of Engineering (Honours) Civil Engineering *(R/526/6/0098)07/20(MQA/FA4653)*
- Bachelor of Engineering (Honours) Electrical and Electronic Engineering *(R/522/6/0049)07/20(MQA/FA9225)*
- Bachelor of Engineering (Honours) Electronic and Communications Engineering *(R/523/6/0268)03/21(MQA/FA9224)*
- Bachelor of Engineering (Honours) Electronics (Computer Networking) *(R/523/6/0298)03/21(MQA/FA0272)*
- Bachelor of Engineering (Honours) Materials and Manufacturing Engineering *(R/540/6/0013)07/20(MQA/FA9227)*
- Bachelor of Engineering (Honours) Mechanical Engineering *(R/521/6/0106)06/20(MQA/FA9226)*
- Bachelor of Engineering (Honours) Mechatronics Engineering *(R2/523/6/0042)07/21(MQA/FA4789)*
- Bachelor of Science (Honours) Actuarial Science *(R/462/6/0009)11/20(A6628)*
- Bachelor of Science (Honours) Applied Mathematics with Computing *(R/461/6/0005)01/20(A6034)*
- Bachelor of Science (Honours) Architecture *(R2/581/6/0048)06/24(MQA/FA9610)*
- Bachelor of Science (Honours) Financial Mathematics *(R/343/6/0145)01/20(A10874)*
- Bachelor of Science (Honours) Physics *(R2/441/6/0001)05/21(A7015)*
- Bachelor of Science (Honours) Quantity Surveying *(R/526/6/0072)01/20(MQA/FA8841)*
- Bachelor of Science (Honours) Software Engineering *(R/481/6/0558)03/20(A10947)*

Postgraduate Programmes

Master of Architecture *(N/581/7/0069)04/20*
Master of Engineering (Electrical) *(R/522/7/0061)09/22(MQA/FA1989)*
Master of Engineering (Electronic Systems) *(N/523/7/0309)12/22*
Master of Engineering (Mechanical) *(R/521/7/0041)09/22(MQA/FA1990)*
Master of Engineering Science *(R2/520/7/0005)03/21(A6919)*
Master of Information Systems *(R/481/7/0662)10/20(MQA/FA0185)*
Master of Mathematics *(R2/461/7/0004)04/23(A8216)*
Master of Project Management *(R/340/7/0449)01/20(A10780)*
Master of Science *(R2/440/7/0004)03/21(A6918)*
Doctor of Philosophy (Engineering) *(R2/520/8/0021)03/21(A6917)*
Doctor of Philosophy (Science) *(R2/440/8/0001)03/21(A6916)*

Institute of Chinese Studies

Kampar Campus and Sungai Long Campus

The Institute of Chinese Studies (ICS) was established in September 2010 with the aim of expanding the teaching and the research agendas of Chinese Studies. It consists of the Department of Chinese Studies, which was founded as one of UTAR's earliest academic departments in 2002, and the Centre for Chinese Studies.

The Department of Chinese Studies can be found in both Kampar and Sungai Long Campuses. It offers both undergraduate and postgraduate studies programmes.

The institute's programmes emphasise the in-depth understanding of Chinese history, literature, philosophy, language, society and culture. Students are required to study various aspects of Chinese civilisation to better understand the Chinese classics, the historical development of Malaysian Chinese and also developments in modern China.

The curriculum is based on an intensive reading of classical and contemporary texts as well as extensive fieldwork. Students will acquire not only strong theoretical knowledge, but will also gain practical skills in speaking, writing, research, analysis and critique. Candidates will be required to give seminars and write reports on their research as well.

With the structured academic performance and skills in critical thinking and inquiry, the Institute of Chinese Studies hopes to produce graduates to cater for the needs of various professions inside and outside the country in the era of globalisation. Graduates can seek employment as educators, writers, news reporters, interpreters, translators, researchers and administrators in organisations such as educational institutions, resource centres, publishing firms and a wide range of public and private organisations.

The Centre for Chinese Studies has six research units, namely Malaysian Chinese and Cultural Studies Unit, Sinology Unit, Modern Chinese Literature Studies Unit, Min-nan Cultural Studies Unit, Chinese Arts Research Unit and Contemporary China Studies Unit. The centre has published 14 academic books since its establishment. It has successfully hosted several significant seminars and conferences throughout the years.

Numerous notable Chinese online databases such as China Knowledge Resource Integrated Database (CNKI - 中国知网), Airiti Library (华艺线上图书馆), Chinese Rare Books Catalog (中国古籍书目资料库) and more are provided by the UTAR Library to form one of the most exceptional learning and research environments for Chinese Studies in the region.

The other highlights of the institute include the following:

- With over 300 undergraduate and 100 postgraduate students, UTAR's Institute of Chinese Studies is the largest Chinese Studies institute in Malaysia
- The lecturing team consists of 19 doctoral degree holders and 2 Master's degree holders, the most comprehensive academic team in Chinese Studies available in Malaysia
- Annual conferences and seminars with speakers from renowned international institutions
- International student exchanges, overseas academic participations and cultural activities

拉曼大学文学周

拉曼大学中华研究院的源头，可追溯至2002年8月创校既有的中文系。2010年9月1日中华研究院成立后，中文系即隶属于此学院之下。中文系是创校初期的八个科系之一，其设置目标是人文教育与学术研究并重，培育德智兼备人才，并逐步发展成为本区域的重点中文教学与研究中心。中华研究院是目前校内唯一跨校区的学院，分别在两校区各设有中文系，即双溪龙校区中文系负责硕、博士课程及在职学士课程，而金宝校区中文系则负责学士课程。

中文系创系之初，先后由系主任洪天赐教授与林水檬教授领航，借鉴世界各地中文系之成功经验，兼综精华，并结合本国中文人才之实际需求，编制成一套以传统中文系为主而兼具本地特色的课程，其课程内容包括有古典文学、现代文学、马华文学、比较文学、语言学、中国思想、中国历史、本地华人研究等，为拉曼大学中文系奠下了稳健发展及坚实的学术基础。目前，中文系设有学士课程、硕士课程、博士课程，为国人提供完整的高校华文教育与研究体系。

目前中文系全职教师共21人，包括5名副教授、14名助理教授、2名讲师，其中具博士资格者，则有19人。此外，亦聘有客卿教授两名。

拉曼大学设有校外考试委员制度。目前中文系学士课程的校外考委(2017–2020)为黄贤强副教授(新加坡国立大学)；硕士课程(混合制)的校外考委(2013–2019)为劳悦强副教授(新加坡国立大学)；硕士课程(研究制)和博士课程的校外考委(2018–2021)为陈益源教授(金门大学)。

中华研究院另一重要的组成部分是中华研究中心。此中心成立于2008年，其宗旨为提倡拉曼大学中华学术研究、提升其素质，并成为本区域中华文化、汉学与马来西亚华人的重要研究中心之一。数年来研究中心扮演着研究、资料收藏、促进国际学术交流的角色。中华研究中心立志于整合及招揽人才，设定重要议题，推动研究计划及汇集研究成果。

中华研究中心的具体研究工作及领域包括：马来西亚华人与文化研究、现代华文文学研究、汉学研究、当代中国研究、艺术研究及闽南文化研究。中心成员由中心主任、各组组长以及校内各院系教员等组成，每年举办各类学术活动（讲座、座谈、研讨会、读书会等），亦聘请国内外杰出学者为访问学人到中心做短期研究访问。

中华研究中心设有以下6个组别：
1) 马来西亚华人及文化研究组
2) 现代华文文学研究组
3) 汉学研究组
4) 当代中国研究组
5) 闽南文化研究组
6) 中华艺术研究组

华乐表演

Institute of Postgraduate Studies and Research

Kampar Campus and Sungai Long Campus

The Institute of Postgraduate Studies and Research (IPSR) serves as a central coordinating body for all postgraduate programmes and research and development activities undertaken in the university.

IPSR consists of two units:

- Postgraduate Studies Unit (PSU) is responsible for all administrative matters and provides necessary operational support pertaining to postgraduate programmes;
- Research and Development Unit (RDU) facilitates research and development activities by providing assistance to researchers in matters such as processing research fund applications and managing research grant utilisation.

Functions of Postgraduate Studies Unit (PSU)

Admission
Processing of applications
- Verifying the qualification of candidate
- Submitting applications and research proposals to faculties

Programme Management
- Programme Induction
  - Updating Programme Handbooks
  - Updating Rules and Guidelines

- Monitoring Progress of Research and Studies
  - Submission of 6-Monthly Progress Reports
  - Proposal Defence
  - Work Completion Seminar

- Examination of Dissertation/Thesis
  - Appointment of Panel of Examiners
  - Board of Examiners Meetings

Programme Logistics
Staff and Candidates Support
- Ensure adequate facilities and resources

Organising Enhancement Programmes
Seminars, workshops and others

Promotion and Counselling
Assists in programmes promotion and counselling to potential candidates in education fairs, exhibitions, programme previews and open days.

Postgraduate Programmes in UTAR

- **Research Programmes**
  11 PhDs and 12 Master's
  - Directed Readings and/or Research Methods
  - Thesis/Dissertation

- **Mixed Mode Programmes**
  3 Master's programmes
  - Taught Courses
  - Dissertation

- **Coursework Programmes**
  12 Master's programmes
  - Taught Courses
  - Project

Financial Assistance for Postgraduates

Project Research Assistantship (PRA)
- 1 year engagement + can be extended
- With EPF and Socso
- May opt for UTAR Education Foundation Tuition Fee Scholarship (Terms and Conditions apply) for Postgraduate Programme by Research mode only

Research Scholarship Scheme (RSS)
- 1 year engagement + can be extended for a maximum of one (1) year
- Without EPF and Socso
- May opt for UTAR Education Foundation Tuition Fee Scholarship (Terms and Conditions apply) for Postgraduate Programme by Research mode only; or
  May support tuition fees for Postgraduate Programme by Research mode only

Student Assistantship (SA)
- Maximum 3 months engagement + can be extended
- Part-time basis

Functions of Research and Development Unit (RDU)

- Coordinates applications of internal and external fundings from pre-call to awarding of research grants.

- Provides support and services throughout the research project implementation i.e. project financial account setup and maintenance, procurement and manpower sourcing, progress monitoring and reporting as well as output measurement.

- Organises Research Grant Proposal Writing Workshops and Consultation sessions on application for external Research and Development grants.

- Sourcing and information dissemination of potential external sources of funding for research activities in UTAR.

UTAR Research and Development Funding

Internal Funding

UTAR Research Fund (UTARRF) is an internal research grant scheme designed as seed funding to kick-start new projects which researchers are expected to eventually source external funds for their continuation.
UTARRF also provides funding for the setting up of certain key research facilities essential for specified key research areas of strategic importance to UTAR.

Other internal R&D initiatives implemented comprise:
- UTAR Strategic Research Fund
- UTARRF Top-up Scheme
- UTAR Postdoctoral Research Scholarship Scheme
- UTAR Financial Support for Journal Paper Publication
- UTAR Research Publication Scheme
- UTAR Undergraduate Research Scheme

External Funding

IPSR looks out for external sources of funding for research activities in UTAR. Such information is constantly disseminated to the university community; support and advice are provided so that a good match between the interests of the researchers and the funding agencies can be attained and thus enhancing the success rates of fund biddings.

External funding sources include:
1. Government Agencies and NGOs: MOSTI, MOE, SAGA, MAKNA, Toray, etc.
2. Businesses and Industries (Local and MNCs).
3. International Agencies: EU, AOARD, UNESCO, etc.

Website: *ipsr.utar.edu.my*
facebook.com/UTARIPSR

Centre for Foundation Studies

Kampar Campus and Sungai Long Campus

The Centre for Foundation Studies (CFS) aims to provide students with a solid academic background and foundation in the respective disciplines of Arts and Science in order to develop understanding and appreciation of the core subjects in the respective disciplines.

Upon successful completion of the Foundation programmes, students proceed to join the corresponding undergraduate programmes.

Foundation in Arts/Science

UTAR Foundation programmes are one-year in duration and entry is gained with SPM/O-Level or other equivalent qualifications. Students are offered the appropriate foundation programme that is dependent on their choice of study in the subsequent undergraduate programmes. The foundation programme is offered in both the Kampar Campus and Sungai Long Campus.

Foundation in Arts
(R/010/3/0210)05/19(A10335), (R2/210/3/0010)11/22(A8661)

Arts and Social Science Stream
Applicable for undergraduate programmes in the fields of Chinese Studies, English Language, Early Childhood Education, Social Science, Communication, Graphic Design, Game Design, Journalism and Architecture.

Management and Accountancy Stream
Applicable for all Business, Economics, Management, Marketing, Accountancy and Finance undergraduate programmes.

Foundation in Science
(R/010/3/0211)05/19(A10336), (R2/010/3/0082)11/22(A8660)

Physical Science Stream
Applicable for all Physics, Chemistry, Engineering, Actuarial Science, IT and Mathematical undergraduate programmes.

Biological Science Stream
Applicable for all Health Sciences and various Biology-related undergraduate programmes.

Student Activities

Sungai Long Campus

To complement academic studies, students and staff alike participate in various educational and community-outreach activities outside the classroom. Some of these activities include:

- Mathematics and Science Fair, KLESF, Science Mini Workshops
- Various talks by industry experts
- Competitions showcasing students' competency in various academic fields (Public Speaking and Math Olympiad)
- Community outreach-based projects and educational workshops in local schools
- Nature drawing expeditions
- Student artwork exhibition
- Educational visit to AT&T, Bank Negara Malaysia
- YTL Learning Space hands-on workshops

These activities have helped in ensuring that our students and staff gain a holistic learning and working experience at the Centre.

Kampar Campus

The Centre aims at equipping the students with essential knowledge and skills for their undergraduate years. Our experienced team of educators are committed to teaching and learning and also offer personalised consultation during the academic advisory sessions. We provide a conducive environment for our students to achieve excellence not only academically but also through extra-curricular activities to promote holistic development. Students are encouraged to participate in activities such as KLESF, Kampar Science Fiesta, Language Diversity Week and community projects. In addition, students also take part in marketing and poster competitions which enabled them to express their creativity and hidden talents. To ensure our international students are not left behind, the centre takes interest not only in their academic performance but also their welfare.

CFS students of both campuses are encouraged to participate in various events under the sports, clubs and societies and other UTAR events for a more wholesome learning experience in the university.

Centre for Extension Education

Kampar Campus and Sungai Long Campus

The university, through its Centre for Extension Education (CEE), is a **4-Star Approved Training Provider** by the Human Resources Development Fund (HRDF) in Malaysia. CEE offers programmes for your personal and professional development regardless of your age. Give yourself options and choose the path that is right for you by investing in lifelong learning at CEE.

Part-Time Honours Degree Programmes

- Bachelor of Arts (Honours) Chinese Studies *(R2/312/6/0011)03/22(A7909)*
- Bachelor of Business Administration (Honours) *(R2/345/6/0972)03/22(A7942)*
- Bachelor of Chinese Medicine (Honours) *(R/721/6/0066)07/20(A11119)*
- Bachelor of Commerce (Honours) Accounting *(R2/344/6/0072)03/22(A7943)*
- Bachelor of Computer Science (Honours) *(R2/481/6/0128)03/22(A7930)*
- Bachelor of Early Childhood Education (Honours) *(R/143/6/0009)04/21(MQA/FA0300)*
- Bachelor of Science (Honours) Construction Management *(R/526/6/0055)05/19(A9827)*

Public/Corporate/Institutional Training Programmes

- 4th Industrial Revolution
- Artificial Intelligence
- Augmented Reality
- Autonomous Robots
- Big Data
- Cloud Computing
- Cybersecurity
- Deep Learning
- E-Commerce
- Internet of Things (IoT)

21st Century Competencies
- Critical Thinking
- Creativity
- Communication

Others
- Accounting, Economics and Finance
- Administration, Management and Entrepreneurship
- Language and Communication
- People Management
- Sales, Marketing and Customer Relations

Note: Customised training is available

Talks and Seminars

Complimentary talks by successful entrepreneurs, industry practitioners, academics and experts in their respective fields are presented to the public throughout the year in areas such as the 4th Industrial Revolution, Education, Finance, Global Affairs, Life Skill, Mental Literacy, Public Health, and Self Development.

Professional Qualification Programmes

- Certified Financial Planner™ Certification (CFP)
- The Association of Chartered Certified Accountants (ACCA)
- The Chartered Institute of Management Accountants (CIMA)
- The Institute of Chartered Secretaries and Administrators (ICSA)

Short Courses

- Languages
- Personal Interest
- Traditional Chinese Medicine (English/Mandarin)
- Health and Aged Care
- Certification Courses
- Non Graduating Modular Programme

English Enhancement Programme

Develop your English language skills through the English Enhancement Programme to achieve your personal and professional goals. The programme consists of three levels: Elementary, Intermediate and Advanced. Each level is designed to enhance your ability to communicate effectively in everyday situations using English and to improve your English for further study (Foundation, Undergraduate and Postgraduate) at UTAR.

English Immersion Programme

The English Immersion Programme (EIP) emphasises primarily the oracy skills (listening and speaking) followed by the literacy (reading and writing) skills, including the language content of grammar and vocabulary. Application of skills is then applied through fun and stimulating cultural activities and tours to famous tourist attractions in Malaysia. Students are also given the opportunity to learn the true culture and lifestyle of Malaysia through the Homestay Programme.

MUET Preparatory Course

Prepare for the Malaysian University English Test (MUET) with the intensive MUET Preparatory Course. The course aims to provide MUET candidates with skills and techniques needed and increase their confidence level in dealing with all the four components of the test – reading, writing, listening and speaking. Strategies to tackle exam questions, relevant skills and sub-skills in each component will be reviewed. A mock MUET exam will be conducted at the end of the course for candidates to apply what they have learnt.

IELTS Preparatory Workshop

Join IELTS Preparatory Workshop with UTAR-CEE and learn test techniques and strategies to achieve higher grades in IELTS! The workshop is structured and designed to provide a comprehensive overview of the internationally recognised test format and question types. IELTS candidates will be familiarised with the format of the exam, as well as developing essential exam skills via strategy training and practice activities.

IELTS Registration Partner

UTAR is an Authorised IELTS Test Registration Agent. You can now register for IELTS test at UTAR Centre for Extension Education (CEE).

Note: The preparatory course and workshop are intended for those who have intermediate to upper intermediate level of English

Institute of Management and Leadership Development

The Institute of Management and Leadership Development (IMLD) was established in response to the growing and crucial need to nurture quality leaders capable of assuming management and leadership roles in an increasingly complex and globalised environment.

The primary goal of the IMLD is to provide professional advancement opportunities to business leaders and government officials, through creatively designed programmes that aim at addressing various critical management and leadership issues in today's economic environment.

IMLD emphasises on tri-sector leadership development: Academic, Industry and Government. IMLD focuses on activities in three main areas:

Training

IMLD provides training and short courses on critical issues and practices related to management and leadership development. IMLD provides professional training programmes locally and overseas which include:

- Tri-sector Leadership Development
- Mid-management Development
- Professional Development Series
- Social Science Short Courses
- Islamic Finance and Banking Programme
- Malaysia Traditional Advantage Industries
- Belt and Road Projects and Development in Malaysia

The programmes are delivered by a mix of lectures, discussions, role plays, case studies and excursions.

Networking

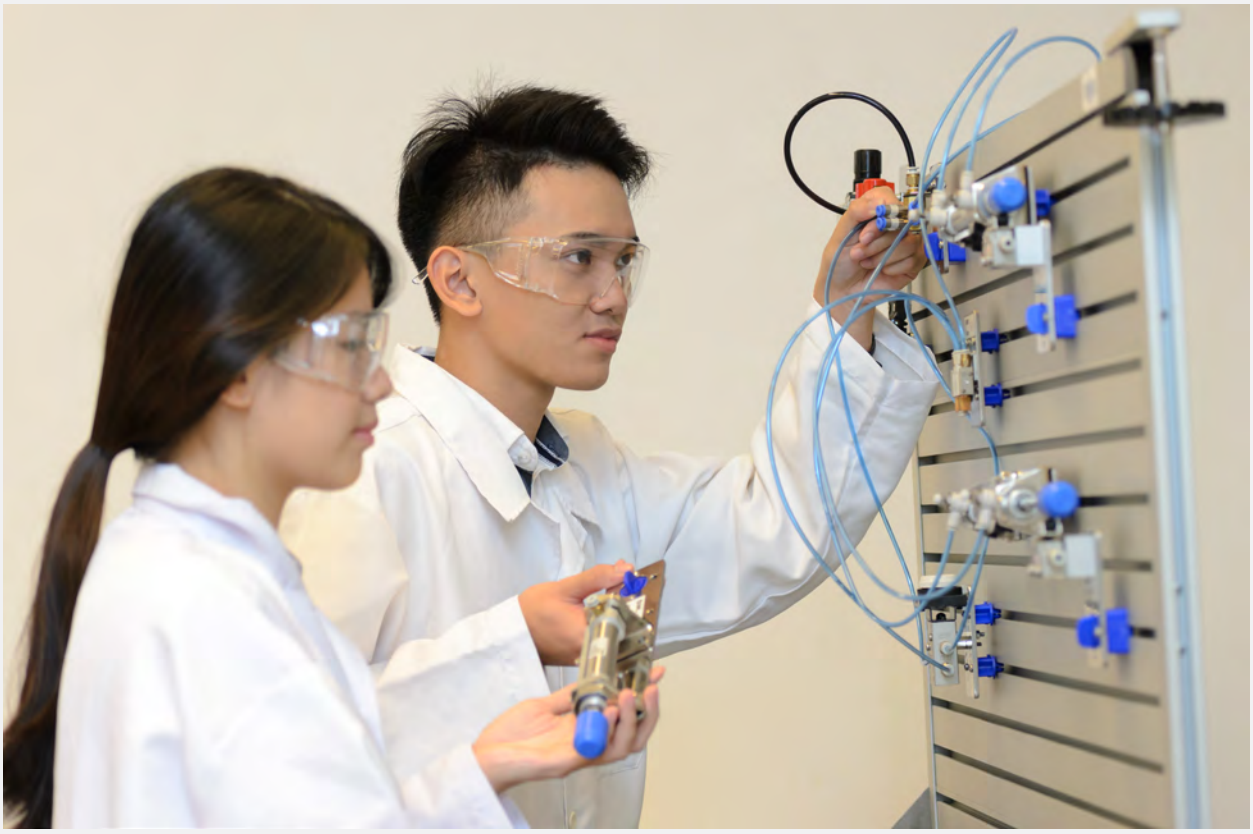
IMLD provides platforms for productive interaction and cross-country networking between industry leaders and policymakers by organising social activities, talks and networking forums. IMLD also connects and signs memoranda of understanding (MoUs) with overseas institutions.

Research

IMLD conducts research on public policy, business and management, economic development as well as other matters pertinent to the Asia Pacific region so as to provide current information and insights to leaders for effective decision-making.

See: *www.utar.edu.my/imld*

Research & Development and Commercialisation



In today's competitive and globalised world, universities must always ensure that research and development activities are done continuously for the betterment of our society. UTAR places great importance on research, development and commercialisation (RDC) to support the Malaysian Government's Economic Transformation Plan and to help Malaysia achieve a developed nation status by 2020. With a well-defined framework in RDC and strong management support, UTAR is transforming itself into a world recognised research-focused university. Under the UTAR 10-year Strategic Plan (2013-2022), 5 strategies were formulated to strengthen UTAR's R&D. They are:

- Cross-disciplinary research to solve real-world problems
- Diversification of research funding sources
- Publication and Patent filing
- Commercialisation and Consultancy
- International collaborations

Two main units in UTAR that support the goal of RDC is the Institute of Postgraduate Studies and Research (IPSR) and the Department of Consultancy and Commercialisation (DCC). IPSR serves as a central coordinating body for research and development activities undertaken by the university. IPSR assists researchers with funding application from the public and private funding bodies. In addition to that, IPSR also serves as a central coordinating body for all postgraduate programmes offered in the university.

DCC was established to link the industry with UTAR's pool of researchers by facilitating the transfer of knowledge from academia to the industry. This is achieved through consultancy activities or contract R&D. In addition, DCC is entrusted to manage and commercialise UTAR's intellectual property through licensing agreements or the establishment of spin-off.

R&D Funding

UTAR Research Fund (UTARRF) is an internal research grant scheme designed to support UTAR researchers and students in implementing research projects and research-related activities. The objective of UTARRF is to provide seed funding to kick-start new projects so that external funding can be sourced for continuation and expansion in the future. From 2005 to 2018, the total funding allocated under UTARRF is over RM50 million.

Experienced UTAR researchers are well-recognised for their research work. Since 2005, they have successfully secured external funding of more than RM51 million as at 30 September 2018, providing funds to more than 420 research projects especially in the areas of science and engineering. The funding comes from the Malaysian Government, as well as from the private sector such as Malaysia Toray Science Foundation, Eu Yan Sang, Archtron R&D, Kuok Foundation, YTL Corporation, Intel MSC, Kuala Lumpur Kepong, OYL R&D Centre, Collaborative Research in Engineering, Science and Technology Centre (CREST), Erasmus+Programme European Union, Malaysian Forestry Research and Development Board, The Asian Office of Aerospace Research and Development (AOARD), Universiti Teknologi Petronas (UTP), Malaysia Rubber Promotion Export Council (MREPC) and Ino Nature Sdn. Bhd.

Research Centres

UTAR research centres aim to allow researchers from various disciplines to interact and work together in a particular research area. The researchers can leverage on each other's expertise to solve a particular problem. These centres also organise regular public talks, seminars and workshops to disseminate the latest information about developments in their area of research.

To date, UTAR has set up 32 research centres to spearhead R&D activities. The breakdown is 12 research centres under the area of Arts, Humanities and Social Sciences, and 20 under the area of Science and Technology. The names of the research centres are listed below:

- Belt and Road Strategic Research Centre (BRSRC)
- Centre for Accounting, Banking and Finance (CABF)
- Centre for Applied Psychology (CAP)
- Centre for Bio-Diversity Research (CBR)
- Centre for Business and Management (CBM)
- Centre for Cancer Research (CCR)
- Centre for Chinese Studies (CChS)

Through the dedication of our researchers and support from the management, UTAR has achieved strong research in agricultural science, biotechnology, building construction, Chinese studies, cloud computing, information security, multimedia education, photonics, psychology, renewable energy, stem cell research, traditional Chinese medicine, wastewater treatment and wireless sensor network.

UTAR Undergraduate Research Scheme

UTAR Undergraduate Research Scheme is a scheme in which UTAR undergraduates can systematically undergo a structured programme designed to expose and train them in various aspects of research project implementation. This scheme is open to all UTAR undergraduates who are interested in R&D. It aims to provide an opportunity for students to undertake practical research during the undergraduate years to better prepare students who opt to continue on to graduate studies. By participating in this scheme, UTAR undergraduates can learn important problem-solving skills and thus, be more prepared when they join the workforce upon their graduation.

UTAR Global Research Network

The UTAR Global Research Network (UTARGRN) is a network that links academics, researchers, scientists and technologists at the forefront of research and technology development with the education and research activities of UTAR, such that research relationships and collaboration can be created and further enhanced.

In addition to that, UTARGRN assists UTAR in forming strategic partnerships with other established education and research institutions worldwide. The members of UTARGRN are called International Collaborative Partners (ICP). Currently, there are 38 ICP members from Malaysia, USA, Singapore, China, Australia, UK, Korea, Japan, Taiwan R.O.C, Canada and Hong Kong who have contributed actively towards UTAR's R&D activities.

Intellectual Property and Commercialisation

Some of the R&D activities have resulted in the creation of new invention and technology. To date, UTAR has submitted more than 20 applications for patent protections where 6 of them were granted patent protection. Some of these inventions are jointly developed with other institutions and companies such as the Institute for Medical Research (IMR), Mimos and RBN.

DCC is always actively working with the industry to commercialise the inventions so that they would benefit the community and society at large. At present, UTAR is working closely with a few companies in the biotech and energy industry to commercialise its patents.

Endowed Chairs

To promote research and scholastic developments in various fields, UTAR initiated the establishment of endowed chairs in 2009. Since then, nine endowed chairs have been established and a total of RM13.75 million has been raised.

The endowed chairs, in the chronological order of establishment, are as follows:

- Tan Sri Dato' Sri Dr Teh Hong Piow Chair in Banking and Finance
- SP Setia Professor of Environmental Engineering and Green Technology
- The Star Foundation Professor of Creative Industries
- Sin Heap Lee Professor of Construction Management
- Datuk and Datin Tan Kim Leng Professor of Medicine
- Mr and Mrs Chua Chai Leng Professor of Economics
- Brunsfield Professor of Civil Engineering
- Tan Sri Dato' Philip Kuok Hock Khee Professor of Agricultural Science
- Top Glove Professor of Chemistry
