YouthSight is the source of the data that have been used to compile the table of results for the *Times Higher Education* Student Experience Survey, and it retains the ownership of those data. Each higher education institution's score has been indexed to give a percentage of the maximum score attainable. For each of the 21 attributes, students were given a seven-point scale and were asked how strongly they agreed or disagreed with the following statement: "Based on your experience, how strongly do you agree that your university offers the following…?" For the 2010-11 comparison, only universities with 30 or more ratings in 2010 and 50 or more ratings in 2011 have been included. As a result, some rankings in the "Rank 2010" column vary slightly in comparison with last year's table.
