Interdisciplinary Science Rankings (ISR)

Master Interdisciplinary Science Ranking logo, with partner Schmidt Science Fellows

Interdisciplinary Science Rankings
Powered by THE

In association with
SCHMIDT SCIENCE FELLOWS

This is the logo for use when in conjunction with our partner, Schmidt Science Fellows. Dated versions are also available for each yearly ranking (see example below).

Alternative versions

Alternative versions are available, to ensure good legibility when the logo is placed over colour; black and photographic backgrounds:

Plus, dated versions for use year-on-year:

Interdisciplinary Science Rankings 2027

Exclusion zone

The minimum clearance space is calculated using the height & width of the THE tile shape. This clear space is required around all sides of the logo lock-up:

Minimum size use

Digital: Do not use smaller than **60pixels** in height.

Print: Do not use smaller than **15mm** high.

Usage

Please ensure the correct ISR logo is used, as supplied by your THE contact.

Do not alter the ISR logo design in any way, including pre-designated brand lock-up colours. If needed, please use or request the alternative versions of the logo lock-ups (see examples far left).
Do not adjust the typeface, or make additions to the logo lock-up in any way.
Do not alter; outline or update the shape; inner colour or design of the THE tile lozenge.
Do not place over an image or texture that negatively affects the legibility of the lock-up.

For further information please contact: ***media@timeshighereducation.com***
Note: This is an evolving document, please be sure you the have the latest, most up-to-date version of these guidelines from your *THE* contact.
