RECTOR'S FOREWORD 校長序言

Dear prospective students,

Welcome to the University of Macau!

This Handbook will serve as a signpost to help guide you in making intelligent academic choices. It presents a buffet of opportunities that will allow you to achieve academic success and memorable experience over the next few years.

Beyond the great buildings and stunning vistas, the University of Macau has been working hard to develop. It positions itself as a university with firm roots in Macao, and at the same time being committed to participating in the development of the Greater Bay Area, integrating into national development while reaching out to the world. The University of Macau strives to provide you with an educational experience of a quality that matches its architectural appeal.

At its core is our unique education model that consists of discipline-specific education, general education, research and internship education, as well as peer and community education. Within this model, you will find a whole catalogue of educational activities both inside and outside the classrooms. We continue to strengthen our educational philosophy and characteristics, optimize and improve the teaching mode, launch new degree programmes to meet the needs of Macao's development, promote interdisciplinary collaboration and establish a high-level industry-academia-research cooperation platform. We leverage the combined strengths of and synergy among the Honours College, residential colleges and faculties, and actively engage in innovation and entrepreneurship education. Also, we are committed to providing students with more exchange and study opportunities in renowned higher institutions in the Chinese mainland or overseas, and nurturing talents that are innovative and patriotic with a global vision and international competitiveness.

Over the next four years, I hope you can enjoy a rich student life in one of the residential colleges, take a class that appeals to you, seek wisdom and knowledge from our great professors, knock on the doors of the Honours College, pursue learn-by-doing research and discover personal fulfilment through community service. Above all, you can sharpen life-long skills for your career and personal development, and develop competencies in seven areas: responsible citizenship, global competitiveness, knowledge integration, teamwork and collaboration, service and leadership, cultural engagement and healthy lifestyle.

At the University of Macau, we seek not so much to "provide" you with a quality education as to create the conditions favorable to your personal growth and development. This Handbook is an effective guide towards that end. But if it doesn't answer all your questions, please know that our dedicated staff and faculty are always available to provide you with assistance.

Again, welcome to the University of Macau!

With best wishes,

Yonghua Song
Rector

各位學子：

歡迎報讀澳門大學！

這本手冊就像路標一樣，引導你們做出明智的選擇。它將幫助你們發現許多獲得學術成就的機會，並將成為你們今後幾年難忘大學生活的開始。

在這壯觀的建築和美麗的景觀背後，澳門大學正辛勤耕耘，以立足澳門、共建灣區、融入國家、走向世界為發展定位，努力達到與校園壯麗外觀相匹配的教育水平。

澳門大學的核心是我們獨特的全人教育模式，包括專業教育、通識教育、研習教育及社群教育。在該模式下，學生可參與各式各樣的課堂內和課堂外的教育活動。我們不斷強化辦學理念和特色，優化完善教學模式，配合澳門發展所需新開辦多個學位課程，推動跨學科、跨領域合作，搭建高水平的產學研平台，發揮好榮譽學院、住宿制書院系統與學院的協同育人優勢，積極開展學生創新創業教育，為學生提供更多赴內地或海外著名高校的交流及學習的機會，致力培養具創新思維、家國情懷、國際視野和競爭力的國際一流人才。

在今後四年裡，我希望你們可以在住宿制書院中享受多姿多彩的學生生活，選擇自己喜愛的科目，從老師那裡獲得知識與智慧；嘗試敲開榮譽學院的大門，在研究中邊實踐邊學習；還可以通過社群生活實現個人目標。最重要的是，你們能在這裡磨煉出終生受用的技能，並且透過書院教育全面發展七個方面的勝任力：公民責任心、全球競爭力、知識整合能力、團隊協作、服務與領導、文化參與及健康生活，為將來的個人發展做好準備。

澳門大學不僅在努力提供高質量的教學，更是致力於為學生的個人成長和全方位發展創造良好的條件。這本手冊正是基於該宗旨所編寫的。當然，如果你們還有疑問，我們的教職員將十分樂意為你們提供協助。

再次歡迎你們來到澳門大學！

校長
宋永華

MILESTONES

1981 ▶ The University of East Asia, the predecessor of the University of Macau, was founded. The university comprised the University College (which housed the School of Arts, School of Business Administration, and School of Social Sciences), Junior College, and College for Continuing Education.

1982 ▶ The University of East Asia's Open College was established.

1984 ▶ The University of East Asia's Graduate College was established.

The first cohort of undergraduate students graduated and honorary doctorates were awarded for the first time.

1985 ▶ The University of East Asia's College for Continuing Education became the Polytechnic College.

1987 ▶ The University of East Asia's Institute of Macau Studies was established (later renamed the Centre for Macau Studies).

1988 ▶ The government acquired and restructured the University of East Asia, revising its charter.

1989 ▶ The then President of the Portuguese Republic, Mário Soares, visited the university.

The School of Arts, School of Business Administration, and School of Social Sciences of the University of East Asia became independent faculties. The university also established the Faculty of Science and Technology and the School of Education.

1990 ▶ The university changed its bachelor's degree programmes from a three-year system to a four-year system.

1991 ▶ The University of East Asia was renamed the University of Macau, and a new university charter was promulgated.

The Faculty of Law was established.

1992 ▶ The Centre for Continuing Education and Special Programmes (later renamed the Centre for Continuing Education) was established.

The first cohort of master's students of the University of Macau graduated.

1997 ▶ The then President of the Portuguese Republic, Jorge Sampaio, visited the university.

The university produced its first doctoral graduate.

2001 ▶ The Macao Special Administrative Region Government restructured the University Council.

2002 ▶ The Institute of Chinese Medical Sciences was established.

2003 ▶ The then Vice President of China, Zeng Qinghong, visited the university.

2006 ▶ The Legislative Assembly of Macao passed the Juridical Regime of the University of Macau, and the Chief Executive promulgated the new Charter of the University of Macau. According to the charter, the University Council is the highest collegiate organ of the university.

2007 ▶ The University of Macau 10-Year Development Strategy was formulated.

2008 ▶ The university conducted global recruitment for top management positions for the first time.

2009 ▶ The Standing Committee of the National People's Congress passed a resolution that authorises the Macao Special Administrative Region to exercise jurisdiction over the new campus on Hengqin Island.

The then President of China, Hu Jintao, officiated at the groundbreaking ceremony for the new campus.

The Honours College was established.

The University of Macau Development Foundation was established.

2010 ▶ The then Premier of the State Council of China, Wen Jiabao, visited the university.

The Ministry of Science and Technology approved the establishment of two state key laboratories: the State Key Laboratory of Analog and Mixed-Signal VLSI and the State Key Laboratory of Quality Research in Chinese Medicine (later renamed as the State Key Laboratory of Mechanism and Quality of Chinese Medicine).

East Asia College and Pearl Jubilee College were established.

2011 ▶ The Asia-Pacific Academy of Economics and Management was established.

2013 ▶ The Faculty of Health Sciences was established.

The new campus was handed over to the Macao Special Administrative Region on 20 July and brought under its jurisdiction.

The then Vice Premier of the State Council of China, Wang Yang, presided over the inauguration ceremony for the new campus.

2014 ▶ The Institute of Applied Physics and Materials Engineering was established.

The university completed relocation to the new campus and began holding classes on the new campus in the 2014/2015 academic year.

Chao Kuang Piu College, Cheng Yu Tung College, Choi Kai Yau College, Lui Che Woo College, Moon Chun Memorial College, and Shiu Pong College were established.

The President of China, Xi Jinping, visited the university.

2016 ▶ Cheong Kun Lun College, and Ma Man Kei and Lo Pak Sam College were established.

The university was awarded the Medal of Merit—Education by the Macao SAR Government.

2017 ▶ The Institute of Collaborative Innovation was established.

2018 ▶ The university was gifted 'The Wall of Great Wisdom' sculpture by the Ministry of Education.

The Ministry of Science and Technology approved the establishment of the State Key Laboratory of Internet of Things for Smart City.

The Institute of Microelectronics was established.

2019 ▶ The Institute of Advanced Studies in Humanities and Social Sciences was established.

The Faculty of Business Administration received accreditations from the Association to Advance Collegiate Schools of Business (AACSB) and Association of MBAs (AMBA), as well as became a full member of the European Foundation for Management Development (EFMD). The faculty also launched its Doctor of Business Administration (DBA) programme.

The Cultural Building was inaugurated.

The Centre for Innovation and Entrepreneurship received approval to serve as a national co-working space.

The university's first industry-academia collaboration demonstration base—Zhuhai UM Science & Technology Research Institute—was inaugurated in Hengqin.

2020 ▶ The university received approval to establish the Ministry of Education Frontiers Science Center for Precision Oncology, University of Macau.

The Public Administration Training Centre was established.

2021 ▶ The State Key Laboratory of Quality Research in Chinese Medicine was awarded the Medal of Merit—Professions by the Macao Special Administrative Region Government.

The Macau Institute for Translational Medicine and Innovation at the University of Macau was inaugurated.

The University of Macau Five-Year Development Plan was released.

The Macao Base for Primary & Secondary STEM Education at the University of Macau was listed as one of the national science education bases for 2021-2025.

2023 ▶ The Hengqin University of Macau Advanced Research Institute was established.

The Museum of Art was inaugurated.

2024 ▶ The university introduced new arts programmes, including a Master of Fine Arts programme and a Doctor of Fine Arts programme.

The Macao Centre for Testing of Chinese Medicine, University of Macau, was inaugurated.

The groundbreaking ceremony for the campus in the Guangdong-Macao In-Depth Cooperation Zone in Hengqin was held.

FACULTY OF ARTS AND HUMANITIES

Undergraduate Programmes

- 1 Bachelor of Arts in Chinese Language and Literature
- 2 Bachelor of Arts in English Studies
- 3 Bachelor of Arts in History
- 4 Bachelor of Arts in Japanese Studies
- 5 Bachelor of Arts in Portuguese Studies

Exchange Information

The Faculty of Arts and Humanities (FAH) provides a variety of exchange opportunities for our students in different countries such as the USA, Sweden, Thailand, Portugal, Brazil, Japan and Mainland China. Besides, students can also participate in the exchange programmes hosted by the Global Affairs Office of UM.

Bachelor of Arts in Chinese Language and Literature:

Exchange opportunities at East China Normal University and University of Chinese Academy of Social Sciences.

Bachelor of Arts in English Studies:

Exchange opportunities in USA, Sweden and Mainland China, such as Susquehanna University, Linköping University and the Chinese University of Hong Kong, Shenzhen.

Bachelor of Arts in History:

Exchange opportunities at East China Normal University, Peking University, Xiamen University and Chiang Mai University.

Bachelor of Arts in Japanese Studies:

Study abroad opportunities in several major Japanese universities such as Akita International University, Keio University, Kyoto University of Foreign Studies, Sophia University, University of Tsukuba, etc.

Bachelor of Arts in Portuguese Studies:

Study abroad opportunities in Portugal, Brazil and Mainland China, such as University of Coimbra, University of Lisbon, University of Porto, State University of Campinas, Beijing Foreign Studies University and Communication University of China.

Summer Programme/Activities

FAH is dedicated to providing a comprehensive education and nurturing well-rounded individuals with whole person development features by offering a variety of interesting extra-curricular activities and summer programmes to our students, such as: Portuguese language summer programme, field trips, participation in regional speech contests, summer programme in Japan, etc.

Collaborative Programme

The "2+2" programme is jointly launched by the UM and the Xiamen University (XMU). Students are required to study two years at the UM followed by two years at XMU. Upon the successful completion of this programme, students will receive Bachelor of Arts in History from UM and Bachelor of History from XMU.

Target Students:

- Macao and Hong Kong students (holders of either a "Macao Resident Identity Card" or a "Hong Kong Identity Card", along with the "Mainland Travel Permit for Hong Kong and Macao Residents"); and
- Students who are in good academic standing.

Graduate Prospects

Students of FAH are deeply engaged in exploring the rich diversity of human experience, with a strong emphasis on the systematic study of languages and literatures. Through this academic journey, they develop exceptional linguistic skills that open the door to a wide array of opportunities after graduation. In addition to pursuing further education, graduates can embark on careers in diverse fields such as teaching and training; translation and interpretation; research; government and public administration; management and business development; marketing and sales; event and exhibition planning; mass media and communications; social services; hospitality and tourism; International relations and diplomacy; economics and finance; insurance and banking; art and design; engineering and technical communication.

This broad spectrum of career paths reflects the versatility and value of a humanities education in today's globalized world.

FACULTY OF BUSINESS ADMINISTRATION

Undergraduate Programmes

- 1 Bachelor of Business Administration*
- 2 Bachelor of Science in Accounting
- 3 Bachelor of Science in Business Intelligence and Data Analytics
- 4 Bachelor of Science in Finance
 - Financial Engineering
- 5 Bachelor of Science in International Integrated Resort Management
 - Convention and Hospitality Management
 - Gaming Management

* Students enrolled in the "Bachelor of Business Administration" programme may declare one of the following five majors: Business Economics, Financial Controllership, Global Business Management, Human Resource Management, and Marketing. Those who do not declare a major or do not follow a prescribed set of courses for a major will be conferred the degree of Bachelor of Business Administration with no designation of major of study upon graduation.

Exchange Information

The Faculty of Business Administration (FBA) offers a range of exchange programmes for students.

FBA has active partnerships with over 30 institutions across 16 countries worldwide. Some notable partner institutions include IÉSEG School of Management (France), University of Lisbon (Portugal), Linköping University (Sweden), University of Southern Denmark (Denmark), University of Turku (Finland), Queen's University (Canada), and San Diego State University (USA).

Students enrolled in the Global Business Management major of the BBA programme are required to study abroad, typically in the second semester of their third year of study.

Collaborative Programme

Bachelor of Science in Finance (2.5+2.5)

Selected students will complete 2.5 years of study at UM followed by 2.5 years at the School of Economics of Fudan University, upon which they will receive two degrees: Bachelor of Science in Finance from UM and Bachelor of Economics from Fudan.

Target Students:

- Macao students who hold both a "Macao Resident Identity Card" and a "Mainland Travel Permit for Hong Kong and Macao Residents"; and
- Students who are in good academic standing.

Bachelor of Science in International Integrated Resort Management with Specialization in Convention and Hospitality Management (2+2)

Selected students will study for 2 years at UM followed by 2 years at the Department of Tourism of Fudan University, earning two degrees upon successful completion: Bachelor of Science in International Integrated Resort Management from UM and Bachelor of Management, Tourism Management from Fudan.

Target Students:

- Macao and Hong Kong students who hold either a "Macao Resident Identity Card" or a "Hong Kong Identity Card", along with the "Mainland Travel Permit for Hong Kong and Macao Residents"; and
- Students who are in good academic standing and have tested out of the Chinese language course (CHLL1000 University Chinese)

Bachelor of Science in International Integrated Resort Management with Specialization in Convention and Hospitality Management (2.5+1.5)

Selected students will study 5 semesters at UM followed by 4 trimesters at Griffith University, earning two degrees upon successful completion: Bachelor of Science in International Integrated Resort Management from UM and the Bachelor of International Tourism and Hotel Management from Griffith.
(This joint programme will come into operation upon publication in Macao SAR Gazette.)

Target Students:

- Students who are in good academic standing.

Internship Opportunity

As part of the programme requirements, the Bachelor of Science in Accounting programme and the Bachelor of Science in International Integrated Resort Management offers credit-bearing internship opportunities as elective or compulsory courses respectively.

International Accreditation

FBA has gained accreditations from the three major international accreditation bodies: AACSB (Association to Advance Collegiate Schools of Business), AMBA (Association of MBAs), and EQUIS (EFMD Quality Improvement System).

With the attainment of these three prestigious accreditations, FBA is one of 141 triple-accredited business schools in the world.

The Bachelor of Science in Accounting programme has been accredited by several leading international professional accounting associations. Graduates who have completed the required degree courses can obtain the paper exemptions from the following professional bodies:

- Association of Chartered Certified Accountants (ACCA);
- Chartered Institute of Management Accountants (CIMA);
- Certified Practising Accountant (CPA) of Australia;
- Association of International Accountants (AIA);
- Hong Kong Institute of Certified Public Accountants (HKICPA).

The Bachelor of Science in Finance has been recognized by the CFA Institute under its University Affiliation Programme. This recognition indicates that the programme covers a significant portion of the CFA Programme Candidate Body of Knowledge (CBOK), along with other eligibility requirements.

Graduate Prospects

Our programmes typically prepare our graduates for working across various sectors and industries in addition to further studies. Here are some examples where our graduates shine:

- Bachelor of Business Administration programme: monetary authorities, banks, public relations companies, retail marketing agencies, multinational corporations in many other industries and government.
- Bachelor of Science in Accounting programme: auditing, taxation, accounting, financial services and management.
- Bachelor of Science in Business Intelligence and Data Analytics programme: business analyst, marketing analyst, system analyst, and financial/risk analyst.
- Bachelor of Science in Finance programme: banks, financial institutions, and insurance companies.
- Bachelor of Science in International Integrated Resort Management programme: integrated resorts, hotels, and event management.

General Contact Information

Tel: (853) 8822 4623 / 8822 4734 / 8822 4737

E-mail: fba.suggestion@um.edu.mo

Website: <https://fba.um.edu.mo>

Undergraduate Programmes

- 1 Bachelor of Education in Chinese
- 2 Bachelor of Education in English
- 3 Bachelor of Education in Integrated Science
 - Biology
 - Chemistry
 - Physics
- 4 Bachelor of Education in Mathematics
- 5 Bachelor of Education in Pre-Primary Education
- 6 Bachelor of Education in Primary Education

Exchange Information

Faculty of Education (FED) provides exchange/summer programme opportunities with several universities such as:

- East China Normal University
- Beijing Normal University
- Shaanxi Normal University
- South China Normal University
- The Education University of Hong Kong
- University of Auckland

An exchange programme with the theme of "Language and Culture" is co-organized by the University of Macau and the Beijing Normal University for the Chinese Education Programme. This exchange programme aims to promote communication between the universities in Macao and Mainland China, enhancing the sense of identity among students and faculty as contributors to the development of the Guangdong-Hong Kong-Macao Greater Bay Area. Bay Area.

Collaborative Programme

The "1+2+1" programme is jointly launched by UM and the East China Normal University (ECNU). Upon the successful completion of this programme, students will receive two degrees (i.e., B.Ed. in Mathematics from UM and B.Sc. in Mathematics and Applied Mathematics from ECNU).

Target Students:

- Macao and Hong Kong students (holders of either "Macao Resident Identity Card" or "Hong Kong Identity Card", along with the "Mainland Travel Permit for Hong Kong and Macao Residents"); and
- Students who are in good academic standing.

Internship Opportunity and Activities

Students are required to have teaching practice in local schools in year 4 for all programmes.

In addition, a one-week course will be arranged for Year 3 Primary Education Program students to observe how homeroom teachers manage classrooms and what and how subject-based instructional practices are implemented in grades 1 to 6 in the Greater Bay Area.

English Immersion/Internships Programme

The English Immersion/Internships Programme in Auckland, New Zealand. The English Enhancement/Internships Programme consisted of three parts: 1. one-week intensive Teaching Methodology Course offered by the English Language Academy (ELA), University of Auckland; 2. school placement for whole-day teaching practicum at well-known local schools and 3. homestay in New Zealand.

Visits and Assistantships

First-year students in the Pre-primary Education Programme will have the opportunity to visit local nurseries and gain valuable learning experiences in caring and teaching very young children. Such experiences will broaden students' scope of learning in the field of early childhood education and care, and set a foundation for theoretical study later in the Programme.

Kindergartens offer many physical play activities. Years 2 and 3 students have the opportunities to assist kindergarten teachers with physical play, fitness activities, and playtime activities. Volunteering gives pre-service students real-world training in teaching, communication, and leadership. Firsthand experience may promote social responsibility and community involvement.

House Programme

Established in the academic year 2013/2014 in FED, the aim of the House Programme is to let the senior FED students carry and "give warmth" to the junior students of the same major/programme, and to create a family-like spirit for the House in the Faculty.

Voluntary Teaching Activity

FED undergraduate students interact with children from diverse backgrounds in Mainland China, allowing them to practice teaching in a different school environment and learn from in-service teachers. This experience broadens their horizons and enhances their understating of tailored teaching.

FED STEAM Team

FED students are welcome to join FED STEAM Team. FED STEAM Team members will have extra preparation on the implementation of STEAM education through project-based learning and cooperative learning. Opportunities for team members to offer STEAM instructional services in schools in the Greater Bay Area will be arranged before their Year 4 teaching practice. Team members will develop transdisciplinary teaching knowledge and leadership skills.

Graduate Prospects

Continued Education:

- Master/Doctoral degree in Education and in other studies

Job Opportunities:

- Teachers in kindergartens, primary and secondary schools
- School counselors
- School administration
- Training officers in other industries
- Journalists
- Publication services
- Writers of children's literature
- Designers of learning materials or toys
- Educators of digital media and coding education
- Reading promoters in schools

Undergraduate Programmes

- 1 Bachelor of Science in Bioinformatics
- 2 Bachelor of Science in Biomedical Sciences
- 3 Bachelor of Science in Pharmaceutical Sciences and Technology

Collaborative Programmes

The "2+4" programme is jointly launched by UM and the Zhejiang University (ZJU). Eligible students will be recommended to School of Medicine of ZJU after the completion of the first two years of studies in Biomedical Sciences at UM for the admission to its medical programme. Upon the successful completion of this programme, students will receive Bachelor of Science in Biomedical Sciences from UM and Bachelor of Medicine in Clinical Medicine from ZJU.

Target Students:

- Macao and Hong Kong students (holders of either a "Macao Resident Identity Card" or a "Hong Kong Identity Card", along with the "Mainland Travel Permit for Hong Kong and Macao Residents"); and
- Students who are in good academic standing.

The "3+2" programme is jointly launched by the UM and the Queen's University Belfast (QUB). Students are required to study three years at UM followed by two years at QUB. Upon the successful completion of this programme, students will receive Bachelor of Science in Biomedical Sciences from UM and Bachelor of Science in Food Science and Nutrition from QUB.

Target Students:

- All students; and
- Students who are in good academic standing.

The "2+3" programme is jointly launched by the UM and the Sichuan University (SCU). Eligible students will be recommended to the West China School of Pharmacy of SCU after the completion of the first two years of studies in Pharmaceutical Sciences and Technology at UM for the admission to its Clinical Pharmacy programme. Upon the successful completion of this programme, students will receive Bachelor of Science in Pharmaceutical Sciences and Technology from UM and Bachelor of Natural Science in Clinical Pharmacy from SCU.
(This joint programme will come into operation upon publication in Macao SAR Gazette)

Target Students:

- Macao and Hong Kong students (holders of either a "Macao Resident Identity Card" or a "Hong Kong Identity Card", along with the "Mainland Travel Permit for Hong Kong and Macao Residents"); and
- Students who are in good academic standing.

Internship / Exchange Opportunity

The International Association for the Exchange of Students for Technical Experience (IAESTE) is an independent, non-profit and non-political student exchange organization. Study aboard through the IAESTE programme in Macao sends out selected students of the Faculty of Health Sciences (FHS) for short-term or long-term visit to gain research exposure in the areas of science and technology.

The programmes also provide internship / exchange opportunities for students with organizations, companies and universities in Macao and/or the surrounding regions.

Independent Research Opportunity

The Independent Research Programme serves to provide an opportunity for undergraduate students to participate in research projects and gain research experience on top of their undergraduate studies, especially during the summer recess. It aims to provide more opportunities for students to have practical experience in research field in addition to their academic studies. In this way, students can experience the research work earlier and enhance their enthusiasm and confidence with the professors' supervision.

International Competition Opportunity

The International Genetically Engineered Machine (iGEM) Competition is an international team competition made up of predominantly undergraduate students interested in the field of synthetic biology. It provides an opportunity for undergraduate students to apply their biomedical knowledge into applications, build up their research abilities and broaden their horizons. FHS has been joined the iGEM competition since 2019 and plans to join competition regularly, and the team is supervised by our professors.

Graduate Prospects

- Continue post-graduate studies in Macao, the nearby region and overseas
- Work in the health science-related industries including hospitals, medical laboratories, government departments, drug manufacturers, etc.
- Work in universities, scientific institutes and education industries
- Pursue further study in professional qualifications, including medical doctor, pharmacist, dietitian and medical lab technologist, etc.
- Work in research and development in health-related industries, pharmaceutical and food testing, etc.

Undergraduate Programmes

- 1 Bachelor of Law (Chinese)
- 2 Bachelor of Law (Portuguese)
- 3 Bachelor of Law (Chinese and Portuguese)
- 4 Bachelor of Law in Chinese Law and Global Legal Studies

Exchange Information

The Faculty of Law (FLL) provides exchange/summer programme opportunities with several universities such as:

- Law School of Ribeirão Preto, University of São Paulo
- Instituto Brasiliense de Direito Público
- Universidade do Mindelo
- Faculty of Law, Shanghai University of International Business and Economics
- Faculty of Law, China Jiliang University
- School of Law, Zhejiang University City College
- International Law School, East China University of Political Science and Law
- Faculty of Law, Zhongnan University of Economics and Law
- The National Police University for Criminal Justice
- Zhejiang University Guanghua Law School
- Shanghai University of Political Science and Law
- School of Law, Qingdao University
- Law School, Tsinghua University
- Law School, Yangzhou University
- Law School, Guangzhou University
- Law School, Beijing Normal University
- Lille Catholic University
- Law School, EBS Universität
- University of Palermo
- Eduardo Mondlane University
- Faculty of Law, University of Coimbra
- Faculty of Law, University of Lisbon
- Law School, University of Porto
- School of Law, University of Minho
- Faculty of Law, Nova University of Lisbon

Internship opportunity

C & C – Advogados is a law firm, with more than thirty lawyers and trainees Lawyers, established in Macao for over 20 years. It offers internship opportunities to students of Bachelor of Law programmes for a pre-defined period. Priority will be given to students of the 3rd and 4th year while 5th year students may be included if special interest in the internship are shown.

Graduate Prospects

The Bachelor of Law (Chinese), Bachelor of Law (Portuguese) and Bachelor of Law (Chinese and Portuguese) programmes have nurtured many talents in the field of legal and public administration. Professions suitable for law graduates include: lawyers, judges, prosecutors, magistrates, notaries, jurists in public and private institutions, judicial assistants, teachers, researchers in law area, and government officials. In fact, our law graduates are highly sought after by public administrative departments in Macao.

The main objective of Bachelor of Law in Chinese Law and Global Legal Studies programme is to enable graduates to pursue legal work and research in the Greater Bay Area outside Macao. Since the programme does not cover the content of local law in Macao, item 1 of Article 4 of the Lawyers' Entry Regulations is not applicable to the Bachelor of Law in Chinese Law and Global Legal Studies Programme, and graduates are unable to engage in legal affairs in the public administration sector of Macao.

FACULTY OF SCIENCE AND TECHNOLOGY

Undergraduate Programmes

- 1 Bachelor of Science in Applied Physics and Chemistry
- 2 Bachelor of Science in Civil Engineering
- 3 Bachelor of Science in Computer Science
- 4 Bachelor of Science in Electrical and Computer Engineering
- 5 Bachelor of Science in Electromechanical Engineering
- 6 Bachelor of Science in Mathematics
 - Mathematics and Applications
 - Statistics and Data Science

Exchange Information

Faculty of Science and Technology (FST) provides exchange programme opportunities with several universities such as:

- City University of Hong Kong
- Fundação Universidade Regional de Blumenau
- Instituto Superior Técnico Universidade de Lisboa
- Linnaeus University
- Polytechnique de Montréal
- Shibaura Institute of Technology
- University of Jaén
- University of Porto
- Xi'an Jiaotong University

Collaborative Programme

FST has signed an agreement on a "2+2" joint undergraduate programme between UM and the South China University of Technology (SCUT). This is the first dual degree programme in the Guangdong-Hong Kong-Macao Greater Bay Area. Upon the successful completion of this programme, students will receive Bachelor of Science in Civil Engineering from UM and Bachelor of Engineering in Civil from SCUT.

Target Students:

- Macao students (holders of both a "Macao Resident Identity Card" and a "Mainland Travel Permit for Hong Kong and Macao Residents"); and
- Students who are in good academic standing.

Also, FST launched a "2.5+2" dual degree undergraduate programme with Nanjing University. Upon the successful completion of this programme, students will receive Bachelor of Science in Applied Physics and Chemistry from UM and Bachelor of Science in Applied Physics from NJU.

Target Students:

- Macao and Hong Kong students (holders of either a "Macao Resident Identity Card" or a "Hong Kong Identity Card", along with the "Mainland Travel Permit for Hong Kong and Macao Residents"); and
- Students who are in good academic standing.

Internship Opportunity

- The International Association for the Exchange of Students for Technical Experience (IAESTE): It is an independent, non-profit and non-political student exchange organization. IAESTE Programme in Macao sends out selected FST students to fill short-term or long-term positions worldwide, in fields and areas in Science and Technology.
- Organizations and companies in the field of technology and engineering in Macao and the region, including but not limited to:
 - * Civil Engineering Laboratory of Macau
 - * China Construction Engineering (Macao) Company Limited
 - * Companhia de Telecomunicações de Macau, S.A.R.L.
 - * Institute for the Development and Quality, Macau
 - * Macao Post and Telecommunications Bureau
 - * Municipal Affairs Bureau
 - * Transport Bureau
 - * Sands China Ltd.

International Accreditation

Four undergraduate programmes, namely Bachelor of Science in Civil Engineering, Bachelor of Science in Computer Science, Bachelor of Science in Electrical and Computer Engineering and Bachelor of Science in Electromechanical Engineering were fully accredited by the Hong Kong Institution of Engineers (HKIE).

The three aforementioned HKIE accredited engineering degree programmes have obtained recognition by signatories of the Washington Accord and aforementioned HKIE accredited computer science degree programme has obtained recognition by signatories of the Seoul Accord.

Students will be eligible to apply for HKIE membership upon graduation to receive professional qualifications recognized worldwide.

Graduate Prospects

The graduates of FST have very promising prospects, with over 90% either continuing their studies or finding employment. Nearly half of the students secure their desired jobs after graduation, applying the expertise and skills they have acquired in the workplace, including practical engineering, software development, and data analysis in world leading companies and organizations.

Students who choose to pursue further studies have access to numerous regional opportunities, including admission to universities such as the University of Southern California in the United States, the Singapore National University of Singapore, and the University of Hong Kong. Some students also venture abroad to countries like Australia and Germany for advanced studies in their respective fields of expertise.

FACULTY OF SOCIAL SCIENCES

Undergraduate Programmes

- 1 Bachelor of Social Sciences in Communication**
 - Creative Media
 - Public Communication
 - Journalism and Mass Communication
- 2 Bachelor of Social Sciences in Economics**
- 3 Bachelor of Social Sciences in Government and Public Administration**
 - Public Administration
 - International and Public Affairs
- 4 Bachelor of Social Sciences in Psychology**
- 5 Bachelor of Social Sciences in Sociology**

Exchange Information

Faculty of Social Sciences (FSS) provides exchange opportunities with a number of universities such as:

- China Foreign Affairs University, China
- Chinese University of Hong Kong (CUHK)-Shenzhen, China
- De La Salle University, the Philippines
- De Montfort University, United Kingdom
- East China Normal University, China
- Fundação Getulio Vargas (FGV), Brazil
- Hanze University of Applied Sciences, Groningen, the Netherlands
- Institut des Hautes Etudes des Communications Sociales, Belgium
- Linköping University, Sweden
- Maastricht University, the Netherlands
- Shantou University, China
- Susquehanna University, USA
- Taiwan Shih Hsin University
- Universidad Austral, Argentina
- Universidade Católica Portuguesa, Portugal
- Université Catholique de Lille, France
- Université Libre de Bruxelles, Belgium
- University Institute of Lisbon (ISCTE), Portugal
- University of Coimbra, Portugal
- University of Malaya, Malaysia
- University of Southern Denmark, Denmark
- University of Twente, the Netherlands
- University of Turku, Finland
- Zhejiang University, China

Internship Opportunity

Bachelor of Social Sciences in Communication:

Students are required to join the "Field Internship" course as one of the course requirements.

Bachelor of Social Sciences in Economics:

Students are welcome to enrol in "Internship" at their 2nd or 3rd year of study.

Bachelor of Social Sciences in Psychology:

Students are welcome to enrol in "Field Experience" at their final year of study.

Bachelor of Social Sciences in Psychology:

Students are welcome to enrol in "Internship" at their 3rd or 4th year of study.

The Creative Media Lab is designed to support the production of creative work from live broadcasts to digital cinema production and studio photography.

Graduate Prospects

FSS aims to provide a holistic, student-centred liberal arts education which is designed to prepare students to be knowledgeable, informed, and productive global citizens equipped to contribute to a complex and dynamic planetary condition. It will both enable students to further their education or to pursue careers in the public or private sectors. Graduates may work in fields such as public administration, international relations, education, research, banking & finance, clinical psychology, counselling, social services, jurisdiction, public security, mass media, creative industries, advertising & public relations, conventions & exhibitions, nonprofits, etc.

HONOURS COLLEGE

The Honours College Certificate Programme Curriculum

The curriculum is designed to nurture high flying students into globally competitive leaders and intellectual achievers committed to collaborative and creative thinking for Macao and beyond. It provides students with courses for learning and practicing leadership, experience of study abroad, community engagement at residential college (RC) and service learning on and off campus. In completion of the programme, students will have:

- Earned seven credits of honours courses
- Gained study-abroad experience
- Fulfilled the RC residency requirement
- Completed a leadership & service learning requirement

Admission Requirement

Students pursuing a Bachelor's degree at UM could be admitted through three different ways by fulfilling the below requirements:

- 1. Direct Admission of incoming first-year students**
 - Students who are offered the specified scholarship awards are eligible for application of expedited admission to the Honours College (HC), and will be admitted upon passing the admission interview.
- 2. Admission by Open Application**
 - First-year students for 4-year programme and second-year students for 5-year programme could be admitted through application.
 - A minimum of 3.3 cumulative Grade Point Average (Scale Average 15 for Faculty of Law) is required at the time of application and admission.
- 3. Admission by Recommendation of Residential College and Student Affairs Office**
 - Students who have demonstrated strong leadership potential, stronger participation in services and/or special talents in areas such as arts, sports, language, music, literature.
 - First-year students for 4-year programme and second-year students for 5-year programme could be admitted through application.
 - A minimum of 3.0 cumulative Grade Point Average (Scale Average 14 for Faculty of Law) is required at the time of recommendation and admission.

Study Abroad

Students are required to fulfill a "study abroad" experience during their studies at UM. The experience must be semester/academic year based and credit bearing with a minimum of 3 abroad credits successfully transferred back to UM. It must be international experience. Hence, mobility programmes to universities in Mainland China, Taiwan and Hong Kong regions will not be considered as fulfillment of the programme.

There are multiple ways in fulfilling this requirement with different types of financial support and requirements as stipulated by internal regulations; e.g.

- A full time semester abroad at universities having agreement with the Honours College.
- A full time semester/academic year abroad through the programme operated by UM.

* Different types of scholarship with requirements will be awarded to support this study abroad experience based on the availability of university's financial resources.

Internship Opportunity

The Research Experiences for Students of Honours College (RESHC) Programme provides opportunities for students at the college to participate in on-going research projects as interns. It serves to engage students in scholarly investigations for gaining experience in scientific and/or creative activities, and promote interactions between students and the research community. Faculty members holding research projects at the university are invited as mentors for the programme to provide internship positions.

Missions of UM Residential College system

UM adopts a holistic education system based on the Residential College (RC) system (abbreviated as “College system”) and uses the College system as a platform for integrating four types of education of UM’s ‘4-in-1’ model. This is unique among universities in Macao. As a complement to the faculty-based system, RCs serve as a vehicle for whole-person education through the systematic planning of experiential learning programmes, with the aim of nurturing students who are successful in their studies and of high moral character.

RC education experience

- 1 UM’s implementation of RC system as a collaboration platform for “4-in-1” whole-person education
- 3 Collaborative efforts of three internal systems in education
- 5 Practising through five major experiential education measures:
Activity Learning; Communal Meal Participation Education; Academic Support; Credit-bearing Courses; Pastoral Care
- 7 Enhancement of seven learning competencies:
Responsible Citizenship, Global Competitiveness, Knowledge Integration, Teamwork and Collaboration, Service and Leadership, Cultural Engagement, and Healthy Lifestyle

In colleges, students come from diverse academic backgrounds, creating an inspiring environment that fosters mutual learning, broadens horizons, and teaches how to coexist and collaborate with individuals from different disciplines, preparing students for their future careers in society. In the process of promoting college education, the colleges work together with academic staff members, both resident and non-resident, student leaders and fellow student members to cultivate a conducive atmosphere for college education.

RC Environment & Life

Each RC has its own dining hall and courtyard as well as spaces that serve specific purposes (e.g., classroom, study room, meeting room, common room, music room, gym, laundry room). The RCs offer a wide variety of activities and social events, including High Table Dinners, Master’s Dinners, a series of talks by internal and external guest speakers, activities of special interest groups, exchange activities with other institutions, community service events, entrepreneurial training projects, and Language Tables. English- and Chinese-speaking debating tournaments as well as sporting, cheerleading, singing, and dancing competitions are some of the RC highlights that create an active campus life and vibrant residential community.

RC Requirements

Students are required to fulfil the following RC requirements in their affiliated RC before graduation:

- Two-semester residency requirement (typically during the first year at the University);
- Completion of CPED1000 (normally during the first year of study);
- Completion of CPED2001 (normally during the second year of study);
- At least one High Table Dinner

STATE KEY LABORATORIES

State Key Laboratory of Analog and Mixed-Signal VLSI

The laboratory was established by the University of Macau to conduct cutting-edge research on state-of-the-art electronics and other related emerging fields with research emphasis in analog and mixed-signal circuits specially focusing in wireless/wireline RF transceivers and data converters for high-speed and low-power applications. The laboratory also actively develops research in power management circuits and microfluidic chips, developing solutions for Lab-on-Chip and eventually Lab-on-CMOS applications.

The core research team of the laboratory (lab) is mainly composed (50%) by Macao talents born and trained at all levels up to the PhD in the University of Macau. In the first 14 years of its operation 2011- 2024, it has attracted 1 chair professor, 2 full professors, 7 associate professors, 13 assistant professors, among them 2 are IEEE Fellows (USA). There are also over 20 post-docs and around 300 doctoral and master students. The dominant expertise of the lab in state-of-the-art electronics reached world-top standards in the field. The testing equipment is also advanced and quite unique in the Greater Bay Area. The laboratory published 14 books and chapters, 681 international refereed journal articles and 386 international conference papers, 74 of which were published in the most prestigious electronics conference in the world – the International Solid-State Circuits Conference (ISSCC), that takes place every year in San Francisco, USA. In addition, 14 papers from UM were presented at the ISSCC 2025, which is testament to UM's leading position in microelectronics research. Furthermore, during the same period the lab had 50 patents granted by China and the United States. Several works from the lab are already in practical use in a wide range of electronic equipment, achieving technology transfer. In addition, the lab's research team won the second prize of the 2011 National Science and Technology Progress Award, for the first time attributed to a team from Macao, and numerous FDCT awards in particular the 1st prize in Technological Invention also attributed for the first time in Macao in 2020. Besides, the lab's research team won the 2022 Xplorer Prize, 2010 Ho Leung Ho Lee Science and Technology Innovation Award, 6 decorations from the Macao (4) and Chinese (2) Governments, 1 of its members was elevated to the Chinese Academy of Sciences as a Foreign Expert, and 2 of its members are academicians of the Lisbon Academy of Sciences, Portugal.

State Key Laboratory of Internet of Things for Smart City

The State Key Laboratory of Internet of Things for Smart City at the University of Macau (SKL-IoTSC), established in 2018, is the nation's first state key laboratory dedicated to the field of the Internet of Things for smart cities. This pioneering laboratory aims to address national needs by leveraging Macao's unique expertise and aspires to become a world-class research center for interdisciplinary collaboration.

SKL-IoTSC's core mission is to tackle critical scientific and technical challenges in the realm of the Internet of Things (IoT) for smart cities. Through the research and innovation of fundamental theories, algorithms and systems, SKL-IoTSC's research focuses on five key areas: Intelligent Sensing and Network Communication, Urban Big Data and Intelligent Technology, Smart Energy, Intelligent Transportation, and Urban Safety and Disaster Prevention. The first two concentrate on establishing a robust R&D platform for smart cities, while the latter three are geared toward practical applications to support the diversified economic development of Macao. The laboratory has an excellent scientific research team that includes 1 foreign academician of Academia Europaea, 1 academician of the Royal Academy of Engineering, and 4 IEEE Fellow.

Since its inception, SKL-IoTSC has achieved significant advances in both fundamental research and innovation. It has published over 2,400 academic papers and secured 10 invention patents in China and the US. SKL-IoTSC has been honored with several prestigious awards, including the Prize for Scientific and Technological Progress of The Ho Leung Ho Lee Foundation, the 14th and 15th Guanghua Engineering Science and Technology Award, the Second Prize of State S&T Progress Award, the First Prize of the Guangdong Provincial S&T Award, and National Innovation Excellence Award, etc. the Second Prize of FDCT S&T Progress Award, the First Prize of the Guangdong Provincial S&T Award, the Third National Innovation Pioneer Award, and the 14th Guanghua Engineering Science and Technology Award, etc.

The laboratory aims to master key technologies and significantly contribute to the development of smart cities in Macao and China, ensuring a brighter and more innovative future.

State Key Laboratory of Quality Research in Chinese Medicine

The State Key Laboratory of Quality Research in Chinese Medicine (SKL-QRCM), the first-ever SKL dedicated to the broad field of Chinese medicine, has attracted top-tier talents to build a premier platform for innovative mechanism and quality research of Chinese medicine. To date, SKL-QRCM has published over 4,300 SCI-indexed papers, contributing to UM's 5 disciplines ranked in the ESI Top 1%. SKL-QRCM's leading pharmaceutical science research platform has propelled UM to 33rd place in the 2024-2025 US News & World Report Best Global Universities Rankings for pharmacology and toxicology, the highest ranking among universities in Hong Kong and Macao, as well as elevated the university into the ESI Top 0.1% globally.

SKL-QRCM has also played a pivotal role in fostering academic and industry collaboration, hosting more than 20 forums and conferences on topics spanning Chinese medicine, natural products, and healthcare industry. The groundbreaking research of SKL-QRCM has garnered more than 100 prestigious awards, including the National Science and Technology Award, Macao Medal of Merit-Professions, Macao Special Award, Golden award in International Exhibition of Invention, and International Award for Contribution to Chinese medicine. To promote the internationalization of Chinese medicine, SKL-QRCM has also formulated more than 20 quality standards of Chinese medicine in cooperation with the USP, EDQM, ChP and DAC.

SKL-QRCM now offers 1 undergraduate programme, 3 master programmes and 1 PhD programme, delivered by our excellent teaching team with outstanding academic background and research experience. Over 900 PhD and master students, taught in English, have graduated from SKL-QRCM with groundbreaking research and honourable achievements, including 2 Gold Medals at the 2019 International Exhibition of Inventions of Geneva, 4 first prizes at the National Challenge Cup Competition, 1 China Youth S&T Innovation Prize, and 42 Macao Postgraduate S&T Awards. The founding director of the SKL-QRCM was honored with the Medal of Merit-Education in recognition of his outstanding educational contribution. Our academic staff received UM Teaching Excellence Award (2018/2019) and 2 academic staff members were awarded the Excellent Young Scientist Fund by National Natural Science Foundation of China. Additionally, 4 academic staffs were elected 'Qi-Huang' Young Scholars, a prestigious distinction celebrating their exceptional contributions to Chinese medicine research.

STUDENT ACTIVITIES AND SERVICES

Student Activities and Services

- Cultural and Arts Activities on Campus
- Student Services (Student Insurance, Student Visa Application, Medical Examination for Non-Local Students, Locker Rental, etc.)
- Venue Reservation of Student Activity Centre
- National Education and Cultural Visits

Brilliant Achievements of UM University Teams

Cantonese Debating Team

- Champion and 1st runner-up in the “Hong Kong and Macao Cantonese Debating Contest” (2024)
- Champion of the Greater Bay Area College Debate Invitational Tournament (2023)
- Champion of the 2023 “Integrity Cup” Invitational Debating Contest
- Champion of Macao Inter-Tertiary Debate Competition for 7 consecutive years (2016-2022)
- Champion of the “Kiang Wu Cup” Inter-varsity Debate Competition (2021)

English Debating Team

- Championship in the Star of Outlook National College English Debating Competition (2024)
- 3 of National Champions, 3 of 1st Runner-up, 1 of 2nd Prize, and Best 10 Debaters in FLTRP Cup National English Debating Competition (2005-2023)
- Champion of the 1st and 2nd FLTRP English Debating Open and the Guangdong-Hong Kong-Macao Greater Bay Area College Universities Debating Championship (2022-2023)
- Champion of the Sixth Guangdong Debate Challenge (2021)
- Champion of the Macao Inter-Tertiary English Debating Competition for 11 years (2011-2021)

Mandarin Debating Team

- Champions of the “Walk with the Constitution and the Basic Law – the 2nd Chinese Debate Competition for Higher Education Institutions in Macao” for 3 consecutive years (2022-2024)
- Champion of the 20th to 22nd Macao Varsity Debate Contest (2022-2024)
- Champion of the “Future Cup” Sci-Fi Themed Chinese Debate Competition (2022)
- Champion of the Walk with the Constitution and the Basic Law – First Chinese Debate Competition for Higher Education Institutions in Macao (2022)
- Champion of the STAR of Greater Bay Area Debating Competition (2020)
- Champion of the Wanqu Debating Contest “Shui Xuan Cup” (2020)
- Champion of the 6th International Chinese Debating Competition (2018)
- Champions of the 2nd and 3rd “Return of Kings” International Varsity Debating Contests (2017-2018)

Portuguese Debating Team

- Champion of the 10th Portuguese Debate Competition for Higher Education Institutions in China and Asia (2019)
- 2nd Runner-up of the 8th Portuguese Debate Competition for Higher Education Institutions in China and Asia (2017)
- 1st Runner-up of the 6th Portuguese Debate Competition for Higher Education Institutions in China and Asia (2015)

Public Speaking Team

- 3rd prize in the “FLTRP-ETIC Cup” “Understanding Contemporary China” National Foreign Language Contest (2024)
- Champion, 1st Runner-up, 2nd Runner-up, Best Impromptu Speaker Award, Best Manner Award and 5 Merit Awards in the 17th Macao-Wide English Speech Contest and the 24th “21st Century Cup” National English Speaking Competition (2021)
- Champion of the 20th “21st Century Cup” National English Speaking Competition (2018)

STUDENT ACTIVITIES AND SERVICES

National Flag Team

- Organised National Flag Raising seminars for Macao secondary schools (*From 2022-present*)
- Invited by the Legal Affairs Bureau (DSAJ) for demonstration of flag raising ceremony for the event “國安有法” 國家安全教育普法同樂日的國旗和區旗升旗演示 (*2024*)
- Invited by the Education and Youth Development Bureau (DSEDJ) for marching demonstration for the event “同升一面旗·旗隊齊展示” in Taipa Military Site in (*2024*)
- Flag Raising Ceremony of the “2019 Zhuhai-Hong Kong-Macao Coming of Age Ceremony” (*2019*)
- 2nd Runner-up of the 6th National High School Flag-Raising Exhibition in Beijing (*2019*)
- 2nd Runner-up of the 1st Guangdong Province High School National Defense Education Exhibition (*2019*)
- Organised and participated in the 1st National Flag-Raising and Marching Parade of Macao Tertiary Institutions and Youth Organisations (*2019*)

Symphonic Band

- First Prize in Art Performance Category in the 6th National University Arts Festival (*2021*)
- The 38th Macao Young Musicians Competition (*2020*)
 - * Chamber Music for Brass Instruments First Prize
 - * Chamber Music for Brass Instruments Second Prize & Trombone (Intermediate Level) Merit
 - * Chamber Music for Percussion Distinction
 - * Percussion (Advanced Level) Distinction
 - * Chamber Music for Percussion Distinct

Chinese Orchestra

- Joint Chinese music concert with Tsinghua University, Peking University, and Zhejiang University at the Beijing Concert Hall (*2024*)
- 2nd Prize in Art Performance Category in the 6th National University Arts Festival (*2021*)

String Orchestra

- “Performance Awards” in the instrumental category at the 4th Guangdong-Hong Kong-Macau Greater Bay Area’s University Students Art Festival (*2024*)
- The 38th Macao Young Musicians Competition (*2020*)
 - * Violin (Advanced level) First Prize
 - * Viola (Advanced level) Second Prize
 - * Cello (Advanced level) Distinction
 - * Violin (Advanced level) Distinction

Choir

- 1st Prize in Art Performance Category in the 6th National University Arts Festival (*2021*)
- First Macao high school and troupe to perform at the National Centre for the performing arts for Beijing International Choral Festival (*2018*)
- Gold Medal in the IFCM World Choral Expo (*2015*)
- Silver Medal in the 8th International Choir Festival Grand Prix Pattaya (*2015*)

Dance Troupe

- Gold medal in the Senior Duet/Trio Contemporary category in 2025 Dance World Cup – Macao Regional Qualifiers (*2025*)
- “Artistic Awards” in the Dance Category at the 4th Guangdong-Hong Kong-Macau Greater Bay Area’s University Students Art Festival (*2024*)
- Second Prize in Dance Category at the 7th National University Arts Festival (*2024*)
- Performed in the Student and Youth Show in Celebration of Macao’s Return to the Motherland cum International Youth Dance Festival (*2024*)
- Outstanding Composition Award and 3rd Prize in Dance Category at the 6th National University Arts Festival (*2021*)
- 2 Bronzes and Best Choreography in Macau International Creative Dancing Art Festival 2018: Dance Competition (Youth Category) (*2018*)
- Outstanding Composition Award and 1st Prize in Dance Category at the 5th National University Arts Festival (*2017*)

STUDENT ACTIVITIES AND SERVICES

Sports Team and Major Achievements

UM has 17 university sports teams including Badminton, Basketball (Men & Women), Dragon Boat, Fencing, Karate, Korfball, Martial Arts, Rock Climbing, Soccer (Men), Squash, Swimming, Table Tennis, Tennis, Track and Field, Volleyball (Men & Women). Besides, we have 2 sports performing teams in Cheerleading and Dragon and Lion Dance.

Besides, we have a total of 25 sports sub clubs under UM Student Union, namely Sports Association, American Football, Archery, Badminton, Basketball, Dance, Diabolo, Dragon Boat, Fencing, Football, Handball, Judo, Karate, Kinball, Korfball, Orienteering, Rock Climbing, Rowing, Sailing, Squash, Table Tennis, Taekwondo, Tchoukball, Track and Field and Volleyball.

A variety of sports activities will be organized throughout the year including sports interest courses and experience classes, sports seminars, sports volunteer services, meets with and cheers for university teams, campus run, swimming pool challenge fun etc.

Sports Fest is the university wide sports day at UM organized in Oct every year for students, staff and alumni, while the 1st Wednesday in September is our university Sportswear Day in which new members for u teams and sub clubs will be recruited on this day.

The UM Sports Volunteer Programme aims to nurture and develop students' quality to become volunteers through participation in different sports activities and training, and to enhance students' ability in knowledge integration and application.

The UM Swimming Pool is free for students every Monday, Wednesday and Friday during 15:00 – 18:00 at the UM Swimming Pool.

Our university teams have participated in a wide range of sports events with impressive achievements. Locally we capture the championship in Badminton, Basketball (Men & Women), Dragon Boat, Fencing, Soccer (Men), Squash, Swimming, Table Tennis, Track and Field and Volleyball (Men & Women). For non-local sports events, achievements are as follows:

Badminton	2 golds, 1 silver and 1 bronze at 2nd Guangdong-Macau University Student Carnival
Basketball (Men)	Champion at 27 th Chinese University Basketball Association League (CUBAL) Division 3 – Southwest Region 2 nd runner-up at 2 nd Guangdong-Macau University Student Carnival 1 st runner up at Guangdong-Hong Kong-Macao University Sports Alliance Basketball Competition
Basketball (Women)	2 nd runner up at 1 st Together in Pursuit of Dreams University Basketball Match Champion at 2 nd Guangdong-Macau University Student Carnival 1 st runner-up at 4 th Guangdong-Hong Kong-Macau Greater Bay Area Students Sports Festival 2 nd runner up at 1 st Guangdong-Hong Kong-Macao University Sports Alliance Basketball Competition
Dragon Boat	3 rd prize at 2024 Guangdong-Hong Kong-Macau Youth Dragon Boat Invitational Tournament Champion at 23 rd Hong Kong Dragon Boat Short Course Races 2 silvers and fourth place (second prize) at 2024 International Elite Universities Water Sports Open
Fencing	1 bronze at Yi Xiao Guo Cup Shandong Youth Fencing Open Tournament 2 golds, 3 silvers and 4 bronzes at 28 th All China University Fencing Championship
Karate	1 gold, 1 silver and 2 bronzes at 2024 Hong Kong Karate Open Competition
Korfball	Champion at 67 th Festival of Sport – President Cup Korfball Sports Trial and Demonstration Invitation Competition 2024
Martial Arts	3 golds, 4 silvers and 2 bronzes at 11 th International WuDeBei Traditional Wushu Competition 2024 1 gold, 2 silvers and 2 bronzes at 2024 All China University Wushu Championship
Rock Climbing	1 gold and 1 bronze at 20 th All China University Rock Climbing Championship
Squash	1 silver at 2024 National University Squash Championship
Tennis	1 gold and 1 silver at 4 th Guangdong-Hong Kong-Macau Greater Bay Area Students Sports Festival
Track and Field	2 silvers and 2 bronzes at WSE Athletics Open Shanghai
Volleyball (Men)	Champion at 5 th UVCC Volleyball Championship

For more information, please visit the website of Office of Sports Affairs: <https://osa.um.edu.mo>

Sports Facilities

Indoor Sports Facilities:

- 1st Floor Common Area (with Basketball Machine, Air Hockey Machines, Foosball Tables, Dart Machine, Snooker and American Pool Tables, etc.)
- Activity Room
- Badminton Hall (4 courts)
- Bouldering Wall
- Dance Room
- Fitness Rooms (N1 & N8)
- Multi-purpose Room
- Sport Climbing Wall
- Sports Pavilion
- Squash Court (5 courts)
- Swimming Pool (10 lanes)
- Table Tennis Room (9 tables)
- Training Hall (2 courts)

Outdoor Sports Facilities:

- Archery Range
- Basketball Courts (14 courts)
- Beach Court
- Lawn Bowling Green
- Mini Artificial Turf Soccer Pitch
- Tennis Courts (9 courts in total, 3 of them are managed by Sports Bureau and 1 practice court)
- UM Stadium (Running Tracks and Grass Soccer Pitch, managed by Sports Bureau)
- Volleyball Court (Managed by Sports Bureau)

For more information, please visit the website of Sports Facilities Management of Office of Sports Affairs: <https://facility.osa.um.edu.mo>

GLOBAL OPPORTUNITIES

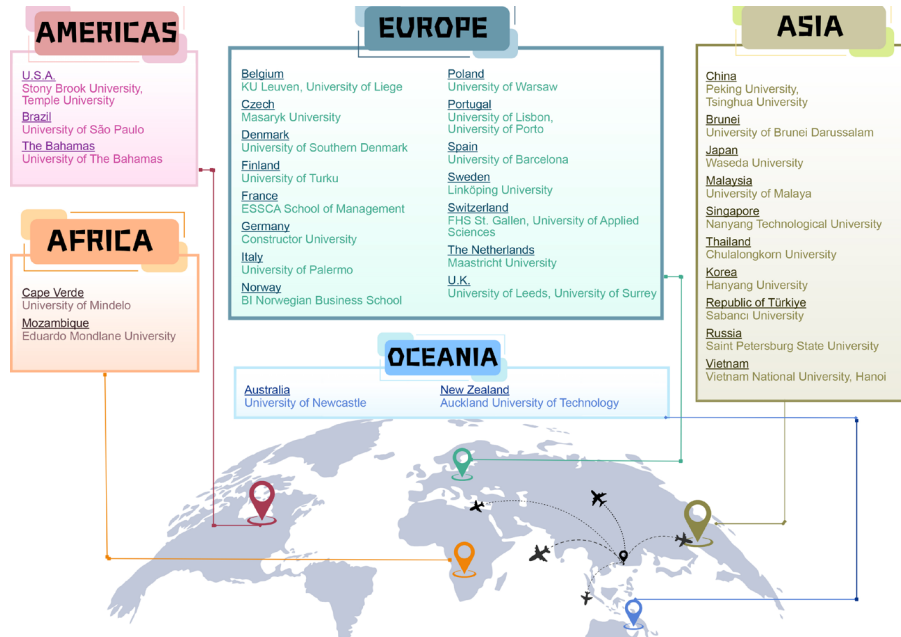

Outbound Programmes

The University of Macau (UM) encourages its students to go abroad, which helps students develop a global perspective by exposing them to different cultures and broadening their horizons and knowledge. UM offers a variety of outbound programmes to both undergraduate and postgraduate students.

Semester Exchange Programme	IAESTE Internship Exchange Programme
<ul style="list-style-type: none"> To study at UM partner institution for one to two semesters Credits earned at host university can be transferred to UM Certificates / cash awards are available for Distinguished Exchange Ambassadors on a competitive basis 	<ul style="list-style-type: none"> Course-related overseas internships for students in the science and engineering disciplines during summer One-time subsidy will be provided after internship
10,000 Talent Programme	Erasmus+ Programme
<ul style="list-style-type: none"> Programmes provided by higher education institutions in Mainland China during summer and winter breaks No programme fee is required 	<ul style="list-style-type: none"> Non-regular project-based exchange programme hosted by the European higher education institutions Scholarships provided by European Commission are available

Semester Exchange Programme

UM has more than 190 exchange partner institutions in 37 countries/regions, including the followings:

MORE THAN 190 EXCHANGE PARTNERS

Advantages

- Tuition fee at Host University is waived
- Improve Employability Prospects
- Experience a New Culture
- Personal connection

Exchange Sharing

LEI WENG IAN, FBA

Exchange to WHU Otto Beisheim School of Management (Germany)

The most meaningful parts of my exchange weren't just the big adventures—they were the quiet moments of growth. Making friends from around the world taught me more than any textbook. I went to my German buddy's dorm and cooked with her. We shared our own cultures and talked about our travel experiences. She helped me a lot before and when I arrived.

I arrived at WHU hoping for a semester of new experiences. I left with a transformed perspective. WHU gave me more than a semester abroad; it gave me a deeper understanding of life. I learned to appreciate other cultures and get along with people from all over the world. I returned home with a suitcase full of memories and a newfound confidence.

SENG LISA, FLL

Exchange to University of Porto (Portugal)

Attending the University of Porto as an exchange student has been an incredibly enriching experience. It allowed me to connect deeply with the city and its people. I met many friends from diverse backgrounds, ranging from architecture to neuroscience and astrophysics, each enriching my experience further. The exchange program is undoubtedly valuable, fostering international collaboration and cultural exchange. It has broadened my academic and cultural horizons and created lifelong memories and connections. I am grateful for this opportunity and believe it has significantly contributed to my personal and professional growth.

WU JIAJIAO, FSS

Exchange to University of Turku (Finland)

My semester at the University of Turku was an unforgettable journey that enriched my academic and personal life. The exchange experience exceeded all expectations. Initially, I felt a bit uncertain about adapting to a new environment, but the welcoming atmosphere of the University of Turku and the Finnish community made the transition smooth. The experience pushed me out of my comfort zone and helped me grow in ways I hadn't anticipated. I gained knowledge and developed invaluable skills in communication, adaptability, and cultural understanding. I wholeheartedly recommend it for future students considering Turku as their exchange destination. It is a place where you will not only study but also create lasting memories and friendships that will shape your future.

UNDERGRADUATE ADMISSION

Admission Channels

Local and non-Mainland China applicants may apply for our undergraduate programmes by "Admission Examination" or "Direct Admission" while Mainland China applicants may choose Gaokao or non-Gaokao channels.

1. Admission Examination

Examination Subjects and Application Requirement

Potential secondary school graduates usually take the Admission Examination for admission to our undergraduate programmes. The examinations include a total of 6 Joint Admission Examination (JAE) subjects namely Chinese, Portuguese A, Portuguese B, English, Mathematics Standard Paper, Mathematics Supplementary Paper, in addition to Physics to be administered by the University of Macau.

The Joint Admission Examination is jointly held by the Four Higher Education Institutions of Macao including the University of Macau, Macao Polytechnic University, Macao University of Tourism and Macau University of Science and Technology. For the arrangement about the JAE, please refer to Admissions Weixin.

Admission selection will base on the examination results of subjects required for each programme. For details on the application requirements of Admission Examination, please refer to Admissions Weixin.

Examination

2. Direct Admission

Local or non-local applicants holding public examination results or qualifications can choose to apply by "Direct Admission". Admission selection will be made on a competitive basis subject to various factors including applicant's academic background, qualifications attained as well as an interview (if applicable). For details on the application requirements of Direct Admission, please refer to the Admissions Weixin.

3. Mainland China Students Admission

Mainland China students must take the Gaokao in 2026 while the result needs to attain the admission standard of key universities in China. As for the score of English subject, the minimum requirement is 110 or above (on the base of 150 for English subject whilst score for other scale will be adjusted accordingly).

Admission selection will be made on a competitive basis subject to various factors including the candidates' 2026 Gaokao result, English score, choices priority and admission quota of programmes applied.

For details on the application requirements for Mainland China students, please refer to the Admissions Weixin.

Scholarship

The University of Macau (UM) offers various types of scholarships to outstanding new undergraduate students upon admission on a competitive basis. Details about the scholarship scheme can be found at the Admissions Weixin.

Application Period for 2026/2027 Intake

Admission Channel	Application Period
Admission Examination	2 – 16 Jan 2026
Direct Admission	3 Feb – 9 Apr 2026
Mainland China (Gaokao)	4 May – 26 Jun 2026

Tuition Fees
