UNIVERSITY of NICOSIA

UNIC
AT A GLANCE

unic.ac.cy

THE UNIVERSITY

The University of Nicosia is an international, research-oriented university in the Eastern Mediterranean, connecting learning, research and practice across Cyprus, Greece and online.

More than 11,000 students from over 100 countries study at the University of Nicosia, taught primarily in English by a faculty publishing across Europe, North America and beyond. The University teaches at its base campus in Nicosia, a branch campus in Athens, and through a long-established online programme.

Teaching is organised in eight schools across more than 100 degrees, from Bachelor's to Doctoral: health and life sciences, artificial intelligence and digital systems, business and law, education, the humanities, architecture, and engineering. Professional and clinical training takes place within the same buildings as the research, so students work in the laboratories, studios and clinics rather than simply alongside them.

The research programme concentrates on a small number of questions rather than spreading across many: how artificial intelligence and biology can be brought together to extend healthy life, how digital systems can be built to deserve trust, how Mediterranean cities can serve as reference environments for environmental and health science, and how law, business and education adapt as all of this changes. UNIC Evolve, the University's flagship platform, is the largest of the programmes built to answer them.

Two developments in 2026 mark the University's direction. In April, UNIC Athens was inaugurated in the presence of the Prime Minister of Greece and the President of the Republic of Cyprus. In the same year the University announced a strategic partnership with Purdue University, including a planned Purdue Regional Office at the UNIC Athens campus, which would be Purdue's first physical presence in Europe.

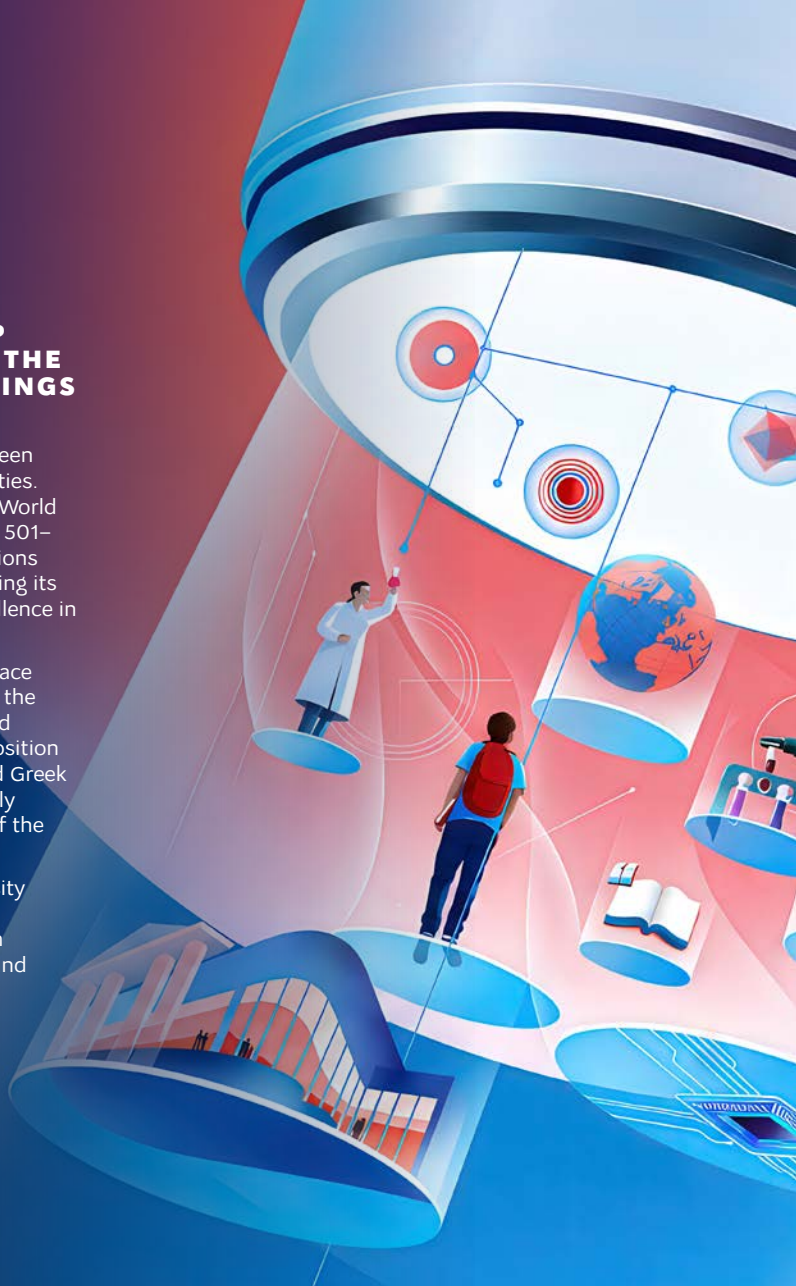

World University Rankings 2027

UNIC IN THE WORLD'S TOP 501–550 UNIVERSITIES IN THE WORLD UNIVERSITY RANKINGS 2027

The University of Nicosia has once again been recognised among the world's top universities. In the 2027 Times Higher Education (THE) World University Rankings, UNIC is ranked in the 501–550 band worldwide, among 2,297 institutions from 118 countries and territories, reaffirming its position as an international centre of excellence in higher education and research.

Specifically, the University is tied for 1st place among the Cypriot universities included in the rankings and for 2nd place among Greek and Cypriot universities, retaining also its 1st position in Research Quality among the Cypriot and Greek universities. Additionally, UNIC holds jointly the 153rd position among the universities of the European Union.

The Times Higher Education World University Rankings assess universities across five key performance areas: Teaching, Research Environment, Research Quality, Industry, and International Outlook.

UNIC
NICOSIA

EXPANSIVE URBAN UNIVERSITY CAMPUS

NICOSIA CAMPUS

The UNIC Nicosia Campus is situated in Engomi, a vibrant and student-centred area of the city. Purpose-built with modern facilities and a welcoming atmosphere, “UNIC City” serves as home to over 11,000 students from more than 100 countries, creating a diverse and inclusive environment for learning and personal growth. Beyond the campus boundaries, Engomi enhances the student experience with its array of cafes, restaurants, and services specifically catering to university life.
