The top 100 universities by reputation are listed (see overleaf for 51-100), but *Times Higher Education* has agreed with data supplier Thomson Reuters to rank only the top 50 because the differentials between institutions after that point become very narrow. The second group of 50 institutions are listed in groups of 10, in alphabetical order. In some cases, universities at the threshold between groups have the same scores, which results in some groups having more or fewer than 10 universities. Scores are given to one decimal place, but were calculated to a higher precision.
