NEWCASTLE

WOON TAI JEE PROFESSOR OF ASIAN ART.

Are you an outstanding scholar of international repute in the study of Asian Art? If so this unique and exciting opportunity, could be for you.

Northumbria University, supported by the Woon Brothers Foundation, is seeking to appoint the Woon Tai Jee Professor to develop our global reputation in the study and conservation of Asian Art. In this prestigious role you will lead research around our Woon Gallery and its collection and also direct the expansion of the gallery, particularly around artefacts from the Nanzhao and Dali Kingdoms.

UNIVERSITY OF
BIRMINGHAM

Lecturer/Senior Lecturer in Engineering (4 posts) - Engineering

Lecturer salary from £40,792 - £48,677 a year with potential progression (to £54,765 a year).

Senior Lecturer salary from £50,132 - £58,089 a year with potential progression (to £75,744 a year).

This is an exciting time to be an engineer at the University of Birmingham. Following the creation of the School of Engineering in 2016, which brought together the disciplines of Civil Engineering, Mechanical Engineering and Electronic, Electrical & Systems Engineering, we are into Phase 2 of our renaissance.

We are investing significantly in people and infrastructure – our new £65m signature build and our £28m UK Rail Research and Innovation Network (UKRRIN) Centre of Excellence for Digital Systems are currently under construction. In addition, our world-leading National Buried Infrastructure Facility will shortly open in October early 2020.

The School has a history of undertaking world class research and is proud of its strong and extensive links with industry ensuring that our innovative research is rapidly translated into practice. As part of our investment, we are now seeking to appoint up to four motivated and highly research active engineers to join our dynamic team and help us create the future. We are particularly interested in colleagues who demonstrate ambition, innovation and leadership, and thus we will consider excellent candidates in closely aligned fields.

It is expected that the appointees will have excellent communication skills and the ability to undertake inspirational teaching. Successful candidates will be expected to be able to teach at undergraduate and postgraduate level, and to supervise final year undergraduate and postgraduate Masters projects.

Candidates will be expected to have a first degree in engineering or an allied subject, a relevant doctoral qualification and be able to demonstrate their commitment to the development of the School.

Informal enquiries about the post may be made to Professor Mark Sterling, Head of School of Engineering (Telephone: 0121 414 45065; e-mail m.sterling@bham.ac.uk).

Applicants are invited to submit their application (including a CV detailing future research plans) via www.bham.ac.uk/staff/jobs

Closing date: 14 April 2019 | Reference: 80884

Please quote the appropriate Job Ref in all enquiries. Further information can be obtained from www.birmingham.ac.uk/staff/jobs/index.aspx
