Ulster University wishes to appoint 12 outstanding academics for its new Cognitive Analytics Research Laboratory to further develop its excellence in the area of cognitive analytics.

Faculty of Computing, Engineering and the Built Environment

Professors (2 posts)

Ref: 1648050/E

Readers/Senior Lecturers (4 posts)

Ref: 1648051/E

Lecturers (6 posts)

Ref: 1648064/E

Ulster is a university in the top 3% globally, with a £200m annual turnover; it has a central role to play in Northern Ireland's future. The Cognitive Analytics Research Laboratory is Northern Ireland's first data analytics institute. It is a £4 million investment that will bring together businesses, government and advanced academic research expertise to find innovative application areas for cognitive analytics techniques.

It represents a key component of Ulster's strategic plan for the next five years, which encompasses an ambitious vision that will take us to our fiftieth anniversary in 2034. The plan is focused on delivering a university that is sustainable and innovative with a strong international reputation for academic excellence and outstanding research.

The Cognitive Analytics Research Laboratory was established following consultation with industry and civic stakeholders and will have a strong focus on economic and societal impact. Ulster has a long history of expertise in data analytics in terms of both machine learning algorithms and the application of analytical techniques across a diverse range of domains.

The Cognitive Analytics Research Laboratory is part of the Faculty of Computing, Engineering and the Built Environment, one of the University's four faculties. The Faculty's research excellence is recognised nationally and internationally.

The successful applicants will have a determined and resilient approach to leadership, encouraging creativity and innovation in a relevant area of data analytics and be able to build strong stakeholder relationships so as to play a key strategic role in enabling the University to fulfil its potential. They will ensure the development and delivery of the Cognitive Analytics Research Laboratory and build and nurture partnerships (both external and internal) as required.

The appointments are permanent and are open to applications from individuals or teams. There are two Professorships, four Readerships/Senior Lectureships and six Lectureships available. The Cognitive Analytics Research Laboratory will be headquartered at the Magee campus.

The University offers an attractive reward package including a competitive starting salary, access to an attractive pension scheme and financial assistance with relocation expenses where appropriate.

The closing date for receipt of completed applications is **30 June 2017**.

We prefer to issue and receive applications via our on-line recruitment website at www.ulster.ac.uk/jobs

Hard copy applications can be obtained by telephoning **028 7012 4072**

The University is an equal opportunities employer and welcomes applicants from all sections of the community, particularly from those with disabilities. Appointment will be made on merit.

Faculty of Engineering and Environment Department of Computer and Information Sciences Head of Department - Ref EAE16/40

Full Time • Location: Newcastle upon Tyne • Salary: Competitive

With an outstanding result in REF 2014, Northumbria was the UK's largest riser in research power and now enjoys a top 50 position for research. The University has the highest level of student entry qualifications of any modern university, in addition to strong student satisfaction, high-quality home and international recruitment, and high-performing collaborations and partnerships at home and overseas.

The University is seeking to appoint an exceptional academic with a proven track record of personal excellence as Head of Department.

You will assist and support the Pro Vice-Chancellor for the Faculty in the strategic leadership of the Faculty's academic and entrepreneurial activities, and drive performance to achieve transformational change in the context of the University's Vision, Corporate Strategy, plans, policies and procedures. You will contribute personally to building the University's and the Faculty's reputation and ranking.

As a member of the Faculty Executive Team, you will be responsible for the leadership and management of colleagues to deliver academic excellence across all areas of activity within the Department.

As Head of the Department of Computer & Information Sciences you will develop and deliver a strategy that promotes excellence in research, enterprise, and learning and teaching across Computer, Data & Information Sciences and Computer Networks & Security, that reflects Northumbria University's vision and corporate strategy.

This is a permanent appointment as an academic with a fixed period of 5 years as HoD, (followed by a 6 month sabbatical) and renewable as HoD for a further period, and with a view of taking up a permanent Professorial role in the Faculty.

This role offers an exciting opportunity to join a dynamic and innovative university, a challenger institution with genuine global ambition.

For an informal discussion about the role, please contact Professor Glen McHale, Pro Vice-Chancellor for the Faculty on +44 (0)191 2273660 or glen.mchale@northumbria.ac.uk.

We are aiming for a start date of January 2018.

For more information or a confidential conversation please contact our retained consultant Richard Beresford at TMP Worldwide UK Ltd on 0117 910 3124 or send your CV to him at richard.beresford@tmpw.co.uk and he will respond to you directly.

Northumbria University takes pride in, and values, the quality and diversity of our staff. We welcome applications from all members of the community. The University holds an Athena SWAN (Bronze) award in recognition of our commitment to improving employment practices for the advancement of gender equality and is a member of the Euraxess network, which delivers information and support to professional researchers.

Closing Date: 23 June 2017

Northumbria is an equal opportunities employer

“*Times Higher Education* has helped to foster another important dimension of diversity at Harvard: international diversity. The exposure of Harvard's faculty positions on THEunijobs, since we embarked on our subscription package in October 2015, enhances our outreach efforts to a global community and showcases our institution as a destination of choice for academics around the world. Working with the *THE* team has also been a pleasure, and has enriched the conversation around international recruitment and retention.

— Elizabeth Ancarana, assistant provost for faculty development and diversity, Harvard University”
