## Research into poverty

1.1.1 Proporations of students receiving financial aid to attend university because of poverty

- Number of students receiving financial aid to attend university because of poverty.
- Number of students receiving significant financial aid to attend university.

1.1.2 Number of students receiving significant financial aid to attend university

- Number of students receiving financial aid to attend university because of poverty.
- Number of students receiving significant financial aid to attend university.

3.4 Health impact

- Current collaborations with local or global health institutions to improve health & wellbeing outcomes.
- Established programmes and projects in the local community to improve or promote health & wellbeing including hygiene, nutrition, family planning, sports, exercise, smoking, air and water quality, and mental health.
- More sports facilities with the local community, for instance with local clubs or with the university.
- Provide students access to free sexual and reproductive health-care services including information and education services.
- Provide students and staff with access to free mental health support.
- Have a clear, free policy for the university.

## Number of students receiving financial aid to attend university because of poverty

1.1.1 Proporations of students receiving financial aid to attend university because of poverty

- Number of students receiving financial aid to attend university because of poverty.
- Number of students receiving significant financial aid to attend university.

1.1.2 Number of students receiving significant financial aid to attend university

- Number of students receiving financial aid to attend university because of poverty.
- Number of students receiving significant financial aid to attend university.

3.4 Health impact

- Current collaborations with local or global health institutions to improve health & wellbeing outcomes.
- Established programmes and projects in the local community to improve or promote health & wellbeing including hygiene, nutrition, family planning, sports, exercise, smoking, air and water quality, and mental health.
- More sports facilities with the local community, for instance with local clubs or with the university.
- Provide students access to free sexual and reproductive health-care services including information and education services.
- Provide students and staff with access to free mental health support.
- Have a clear, free policy for the university.

## Number of students receiving significant financial aid to attend university

1.1.1 Proporations of students receiving financial aid to attend university because of poverty

- Number of students receiving financial aid to attend university because of poverty.
- Number of students receiving significant financial aid to attend university.

1.1.2 Number of students receiving significant financial aid to attend university

- Number of students receiving financial aid to attend university because of poverty.
- Number of students receiving significant financial aid to attend university.

3.4 Health impact

- Current collaborations with local or global health institutions to improve health & wellbeing outcomes.
- Established programmes and projects in the local community to improve or promote health & wellbeing including hygiene, nutrition, family planning, sports, exercise, smoking, air and water quality, and mental health.
- More sports facilities with the local community, for instance with local clubs or with the university.
- Provide students access to free sexual and reproductive health-care services including information and education services.
- Provide students and staff with access to free mental health support.
- Have a clear, free policy for the university.

## Current collaborations with local or global health institutions to improve health & wellbeing outcomes.

3.4 Health impact

- Current collaborations with local or global health institutions to improve health & wellbeing outcomes.
- Established programmes and projects in the local community to improve or promote health & wellbeing including hygiene, nutrition, family planning, sports, exercise, smoking, air and water quality, and mental health.
- More sports facilities with the local community, for instance with local clubs or with the university.
- Provide students access to free sexual and reproductive health-care services including information and education services.
- Provide students and staff with access to free mental health support.
- Have a clear, free policy for the university.
