The GLP is an extracurricular program that can be undertaken alongside your semester courses. It gives you the opportunity to gain global skills and understanding, and put them into practice by studying, volunteering and participating in a range of activities within Sydney and around Australia.

Our Distinguished Speaker Series is an especially rewarding part of the GLP. Be informed and inspired by a range of high-profile professionals and leaders in academia, business, government, international relations and non-profit sectors. You may also participate in our Global Leadership Symposium Series, which gives you an opportunity to learn and travel with your cohort to Australia's national capital, Canberra.

On completion, you'll receive a certificate, as well as a reference letter with a record of all the activities undertaken through the GLP. Your achievements can help give you an all-important competitive edge in the global employment market.
