# Welcome to Deakin – your study destination

## G'day and welcome!

Australia is one of the world's most popular international study destinations, with thousands of students arriving every year. Like Australia, Deakin University is a welcoming community, and we support our international students to ensure they have a safe and enjoyable study experience.

## World-class degrees

Deakin offers a wide range of study areas and we can help you choose the right degree to pursue your dream career. Be ready to take your next step with confidence and gain the experience you need to succeed. Deakin is highly ranked in many study areas, which you can learn more about in this guide.

## Career focus

Deakin applies a practical focus across all its programs. We want to ensure you gain the exposure and experience you need to graduate with confidence. We do this by providing practical instruction on real-world problems, career guidance and work experience opportunities. Visit the course pages to find out what practical experience is involved as part of your degree.

## Campus locations

Deakin has four modern campuses in three unique locations. You will discover some of Australia's most popular destinations, incredible wildlife, and engaging and friendly culture when you study here. The University also offers courses through its innovative online Cloud Campus.

## Scholarships

Deakin offers many different scholarships to assist high-achieving international students throughout their studies. To check if you are eligible for a Deakin scholarship, visit [deakin.edu.au/scholarships](https://deakin.edu.au/scholarships).

## Trimester system

Deakin runs on a Trimester system whereby our courses start in March (Trimester 1), July (Trimester 2) or November (Trimester 3). This system can offer students the opportunity to complete their degree sooner by studying three terms in a single year. You will find Trimester information on the course pages in this guide.

# Your Deakin home

Deakin has four welcoming and engaging campuses located in south-east Australia, as well as our innovative Cloud Campus (online). Each campus offers a unique study experience, and Deakin's local communities are friendly, safe and lively, making for a perfect study environment.

## Melbourne Burwood Campus

The Melbourne Burwood Campus is Deakin's largest. It is located a short trip from Melbourne's central business district, and offers the perfect balance between city lifestyle and suburban comfort. The campus boasts impressive buildings and world-class facilities. Students love the relaxed atmosphere and huge choice of learning and social spaces. The campus sits alongside parkland, which is great for cycling, walking and jogging.

### Living in Melbourne

#### A welcoming community

A multicultural city, Melbourne is an international community that is home to people from all around the world.

#### Many activities

Enjoy live music at Federation Square, or ride a bike along the Yarra River trail. Visit the native animals at the Melbourne Zoo, or spend mornings exploring the Queen Victoria Market tasting fresh and local produce. There is so much to see and do in Melbourne.

## Geelong Waurn Ponds Campus

Deakin's Geelong Waurn Ponds Campus is known for its expansive grounds and impressive new buildings. It is home to cutting-edge engineering and medical facilities, as well as some of the world's most advanced material science research spaces. The campus also offers incredible sporting facilities, including Deakin's Elite Sport Precinct, which includes an Australian rules football oval, FIFA-grade soccer pitch, athletics track, basketball courts and more.

## Geelong Waterfront Campus

Deakin's Geelong Waterfront Campus is located right on Corio Bay in the heart of Geelong, making for spectacular views from its many study spaces. The campus has a modern, industrial feel, mostly due to its history as wool stores in the 19th century. The unique mix of old and new allows for engaging and creative spaces, and its central location means students can visit Geelong's central business district between classes.

### Living in Geelong

#### Be by the sea

Located a short train trip from Melbourne, Geelong is a coastal city located near some of the country's best surf beaches. You can head to the surf coast, where students take a break from their studies to enjoy a swim or surf.

#### Support the local team

Check out the GMHBA Stadium football oval where the Geelong Cats – an Australian league football team and partner of Deakin – play their exciting games. You might even become a fan!

## Warrnambool Campus

Deakin's Warrnambool Campus is close to surf beaches and popular tourist attractions. It is a close-knit community, a place where students and lecturers really have the opportunity to get to know each other and work closely together. That sense of community extends to the whole of Warrnambool, providing support to new students in a relaxed, friendly atmosphere. But for those looking for an occasional jolt of big city excitement, trains run four times daily to Melbourne.

### Living in Warrnambool

#### Made for exploring

Set along one of the country's most scenic coastlines, Warrnambool is the place to be for exploring Australia's famously unique plant and animal habitats.

#### A cost-effective choice

For students concerned about expenses, Warrnambool offers a lower cost of living than Melbourne and Geelong without sacrificing quality.

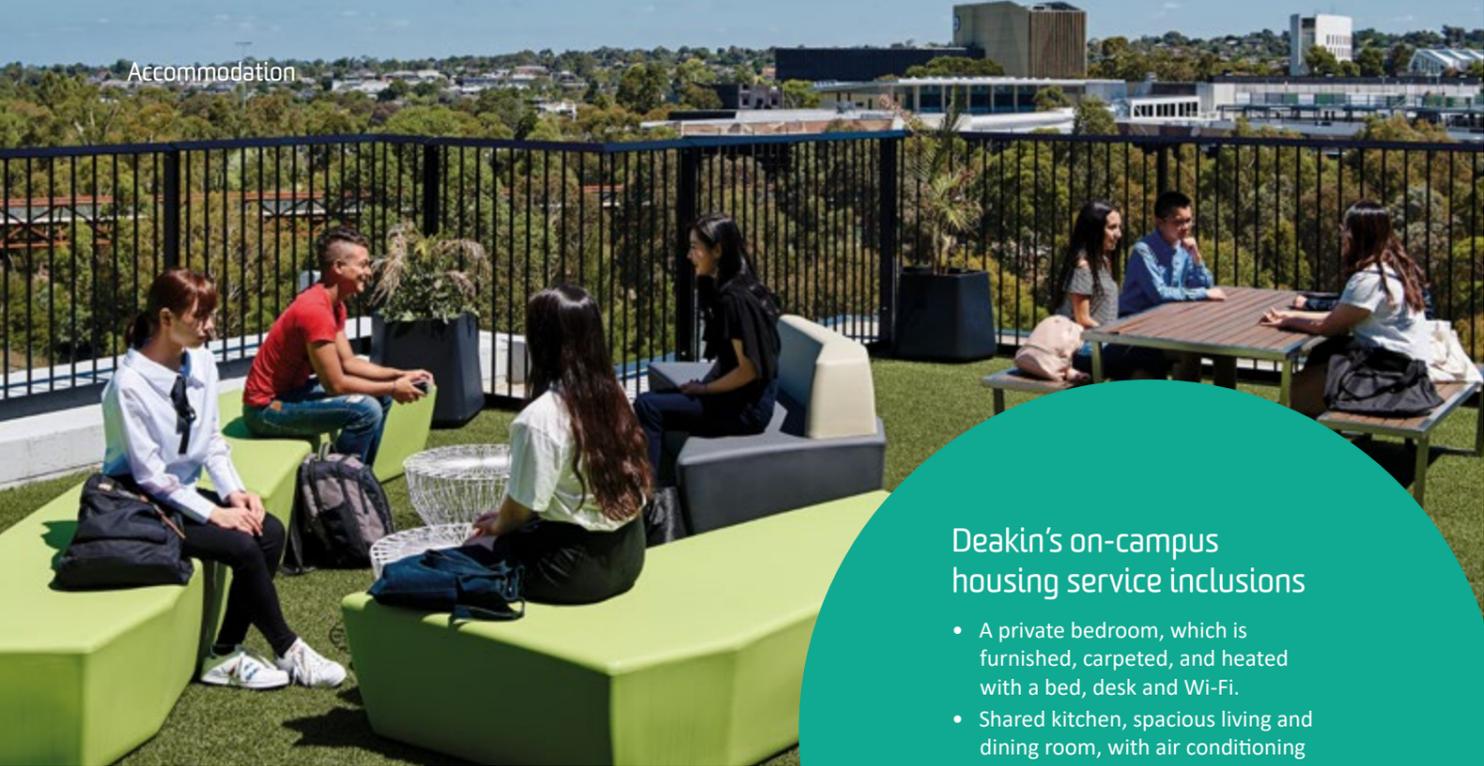

## Cloud Campus

As a flagship provider of distance education for more than 40 years, Deakin has a unique understanding of students who need to study from afar.

The Cloud Campus is a virtual, vibrant campus. It is your one-stop online shop to access lectures and resources, participate in live-stream seminars and class discussions, chat with lecturers and students, and submit assignments. When, where and how you study is up to you.

As a Cloud Campus student, you need to be a disciplined, independent and organised learner. Given your competing commitments, you will also need to know how to manage your time and priorities. That is why our Cloud Campus comes with orientation sessions, tailored support services, innovative but easy-to-use digital tools and resources, and a dedicated 'student success coach' to keep you on track.

### Deakin's on-campus housing service inclusions

- A private bedroom, which is furnished, carpeted, and heated with a bed, desk and Wi-Fi.
- Shared kitchen, spacious living and dining room, with air conditioning and bathrooms.
- Social, personal, academic and sporting activities calendar.
- Support from Deakin staff, the management and administration team, and 24-hour Deakin security.

## Accommodation

Deakin offers support in finding accommodation for students, whether you want to live on-campus or close by in a local community.

### On-campus accommodation

Living on campus offers a unique opportunity to immerse yourself in the Deakin experience. Accommodation is available at all of our Australian campuses, and various lease lengths are offered. On-campus living provides an affordable and secure living and learning community, ideal for meeting new people and achieving academic success.

Living on campus could save you money. Utility bills and internet are included in the fee, and you don't have to pay an accommodation bond nor public transport costs to get to and from class.

**Indicative weekly rates: A\$280 – A\$356\***

\* Price based on the Melbourne Burwood Campus costings. Rates are cheaper at the Geelong and Warrnambool locations.

### Medical accommodation precinct

The Geelong residences provides 10 self-contained individual modular units/pods for medicine students. Each pod houses three people. There are also seven townhouses specifically for Doctor of Medicine students, each having two bedrooms with private bathrooms.

### Off-campus accommodation

Deakin can assist you in searching for off-campus accommodation using our Houseme database. You will find a variety of rental opportunities, including long-term, short-term and casual options.

You can also access a range of free self-help resources to find out:

- when to start your accommodation search and how to go about it
- the costs associated with accommodation
- things to consider at property inspections
- locations around each campus
- rights and responsibilities when renting in the Australian State of Victoria.

### Homestay

Deakin students have the option of staying in a host family home. This provides a great opportunity for students to improve their English in everyday situations, and to learn more about living in Australia.

## Cost of living

Beyond tuition fees, there are a number of other costs that you need to consider before you decide to study in Australia.

The Australian Government provides average living cost estimates for international students living and studying in the Australian State of Victoria. Costs vary depending on where you live. For example, living in Melbourne is slightly more expensive than living in Warrnambool. The diagram to the right lists some of these costs, but for more detailed information visit [studyinaustralia.gov.au](http://studyinaustralia.gov.au).

### Overseas Student Health Cover

In addition to tuition fees, all on-campus international students are required to pay Overseas Student Health Cover (OSHC). The amount payable will be included in your Offer Letter.

### Scholarships

There are scholarships available to international students through Deakin and through other parties, including the Australian Government.

Deakin offers a variety of scholarships to support high-achieving students, including:

- **Deakin Vice-Chancellor's International Scholarship** offers a 100% or 50% tuition fee reduction for the normal duration of your course.
- **Deakin International Scholarship** offers 25% tuition fee reduction for the normal duration of your course.

Both scholarships recognise students with consistently high academic performance who have the potential to make a leading contribution to the University and its communities.

Deakin also offers scholarships and bursaries related to specific study areas and degrees, and to support students from certain countries and backgrounds.

For a full list of scholarship opportunities open to international students, and information on how to apply, visit [deakin.edu.au/scholarships](http://deakin.edu.au/scholarships).

### Accommodation

\$AUD

Hostels and guest houses	A\$90 to A\$150 per week
Shared rental	A\$85 to A\$215 per week
On campus (inclusive of amenities)	A\$280 to A\$356 per week*
Homestay	A\$235 to A\$325 per week
Rental	A\$165 to A\$440 per week

### Other living expenses

\$AUD

Groceries and eating out	A\$80 to A\$280 per week
Gas, electricity	A\$35 to A\$140 per week
Phone and internet	A\$20 to A\$55 per week
Public transport	A\$15 to A\$55 per week
Car (after purchase)	A\$150 to A\$260 per week
Entertainment	A\$80 to A\$150 per week

### Minimum cost of living

\$AUD

The Department of Home Affairs has financial requirements you must meet in order to receive a student visa for Australia. From 1 February 2018 the 12-month living cost is:

You	A\$20 290 per year
Partner or spouse	A\$7 100 per year
Child	A\$3 040 per year

All costs are in Australian dollars.

\* On-campus estimated cost is for Deakin's Melbourne Burwood Campus and includes amenities, such as electricity, gas and internet. On-campus accommodation costs for the Geelong and Warrnambool campuses are lower.

# Student services

We want you to have a meaningful learning experience. To achieve this, Deakin offers a complete range of services, from orientation and welcome sessions to academic development services and social activities.

## Get started

We make it our priority to ensure that all new international students – many of whom have arrived in Australia for the first time – make a smooth transition to the University. Deakin's welcome program includes airport pick up, orientation, workshops, social events, study groups and opportunities for you to get involved in campus life.

## Students Helping Students

No one understands students better than students. That is why student mentors are available to assist you with academic, practical or social matters to help you achieve your best results. This is a part of Deakin's Students Helping Students service. Many student mentors are international students themselves so they know what it means to be new to Deakin and Australia.

## International Student Advisers (ISAs)

Friendly ISAs are located on each of Deakin's campuses. These advisers have lived and studied in other countries and have experienced firsthand the cultural and social adjustments involved. ISAs provide general support to you during your studies and can do so in person, online or over the phone. You can book a private appointment or simply drop-in to the International Student Support Centre on your campus.

## Cutting-edge digital support

Deakin Genie is an award-winning mobile app that helps you keep on track with your studies. As a Deakin student, you can use Genie to keep a calendar of upcoming classes and assignments; set goals for the year and motivate yourself to achieve them; and access support services and learning tools from around the University. Deakin Genie is so advanced that it works to predict your needs and questions before you think to ask!

## Join the club

Getting involved in university life is a great way to meet new people, take on new challenges, and look after your health and fitness. As a Deakin student you can join more than 150 clubs and societies across all campuses. We have a diverse range of clubs, including sporting, academic, health, religious and many more.

## Health, safety and wellbeing

Deakin offers a range of services to help students stay healthy and safe, and to promote personal wellbeing.

### Deakin Medical Centre

Deakin Medical Centre provides professional medical and nursing healthcare and advice to students. Medical centres are located on all campuses. Campus nurse consultations are free and strictly confidential. Campus doctors bill directly through your Overseas Student Health Cover (OSHC).

### Safety

Deakin's campuses and communities are safe places for students. Even so, security officers are on duty 24 hours a day, 7 days a week at all campuses to ensure the safety of students and staff. Safer Community is a service available for support, advice or information if something just doesn't feel quite right. SafeZone is a free phone app for all Deakin students and staff, that connects you directly to the security team.

### Supportive and inclusive environment

Deakin promotes a diverse, inclusive and supportive environment through a number of services and initiatives. The Disability Resource Centre (DRC) provides individual support to students with a disability or health condition so they can successfully participate in their studies and university life. The ALLY Network creates a more diverse and inclusive culture by promoting greater visibility and awareness of lesbian, gay, bisexual, transsexual, intersex, queer or questioning (LGBTIQ) students and staff.

## Respected program

Australian employers have voted DeakinTALENT the most popular university career service in Australia two years in a row.\*

\* Australian Association of Graduate Employers 2017 – 2018

# Graduate employment

Deakin focuses on preparing you for your dream career. Experience practical, real-world learning, and be ready to enter the work force with confidence.

Our graduate employment division DeakinTALENT is dedicated to providing expert career guidance and development, and will help you connect with employers. DeakinTALENT offers a range of programs and services to start you on the right path.

## DeakinTALENT

DeakinTALENT helps students to explore career opportunities, develops their marketability as a graduate, and supports them to apply for graduate roles. Deakin's long-standing relationships with industry organisations means you will learn what employers are looking for in a graduate. Available to all students, our popular career planning resources aim to help you:

- identify and communicate your personal brand
- create a LinkedIn profile to stand out
- develop an effective cover letter and resume
- manage interview nerves
- excel at networking
- succeed in the workplace.

Visit [deakintalent.deakin.edu.au](http://deakintalent.deakin.edu.au) to learn more.

## Deakin International Students' Careers (DISC) program

DISC has been designed specifically for international students and graduates. It offers a suite of workshops to assist international students in understanding the workplace, learn what employers are looking for, and help them connect with and present confidently to employers. The program includes networking events to connect students with alumni to learn about their career journeys. DISC also helps returning international graduates connect with their home employment market.

## Interns@Deakin

The Interns@Deakin program coordinates a range of internships each trimester within Deakin's faculties, divisions, research centres, the FreelancingHUB and international offices overseas. With employers expecting graduates to already have work experience, completing an internship during your studies can be extremely important. The skills you learn will help build your resume, and will enable you to provide examples of how you have already applied your studies in a professional setting.

Interns@Deakin is a competitive process and you will need to meet baseline resume standards to progress in the selection process.

## FreelancingHUB

The FreelancingHUB is an exciting initiative designed to develop work-ready graduates through work experience opportunities. The HUB positions students in not-for-profit or community organisations where they develop a solution to a real-world project. Students work in cross-disciplinary and cross-cultural teams, and gain key employability skills, such as communication, collaboration, creativity and critical thinking. Each team is assigned an experienced mentor and project manager, and regular client interaction is facilitated to ensure the project stays on track. Internship placements are open to students across all study areas, but places are limited.

## Internships as part of your degree

Many Deakin degrees offer the opportunity to complete an internship as part of the program. With the help of your lecturer, you can find a short-term work opportunity in a local organisation to gain exposure to real-life projects. Deakin students have worked in advertising firms, sporting organisations, local hospitals and wildlife parks, just to name a few. The experience gained as part of these internships can help add to your portfolio of work, which you can present to future employers.

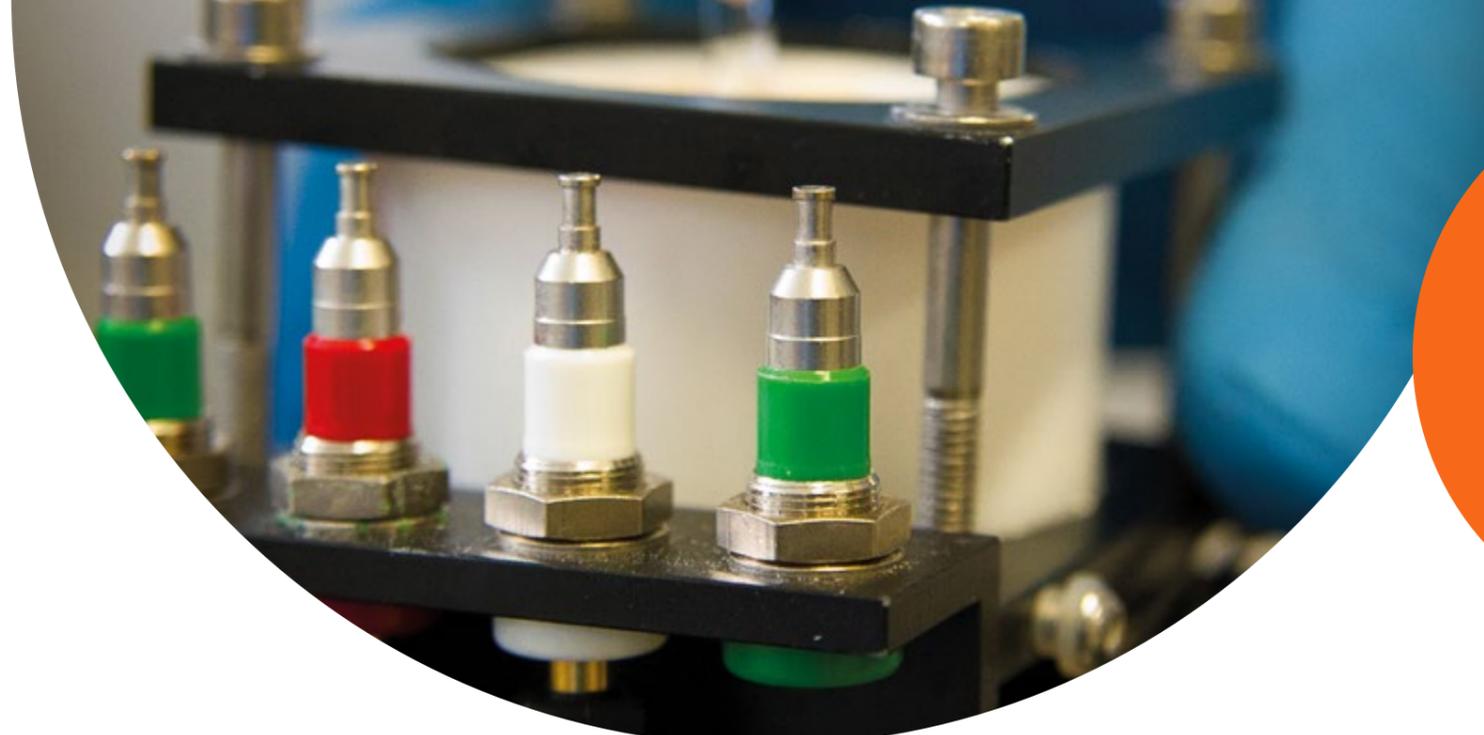

# Research

With an international outlook and a commitment to research driven by the needs of communities, Deakin is forging research partnerships with institutions and industry players around the world. By working towards a higher degree by research at Deakin, you will be making yourself part of a community devoted to success and mutual support.

Each of Deakin's faculties – Faculty of Health; Faculty of Science, Engineering and Built Environment; Faculty of Arts and Education; and Faculty of Business and Law – and our research institutes and strategic research centres conduct future-focused research that aims to achieve world-class translational research. Research at Deakin revolves around the following four themes:

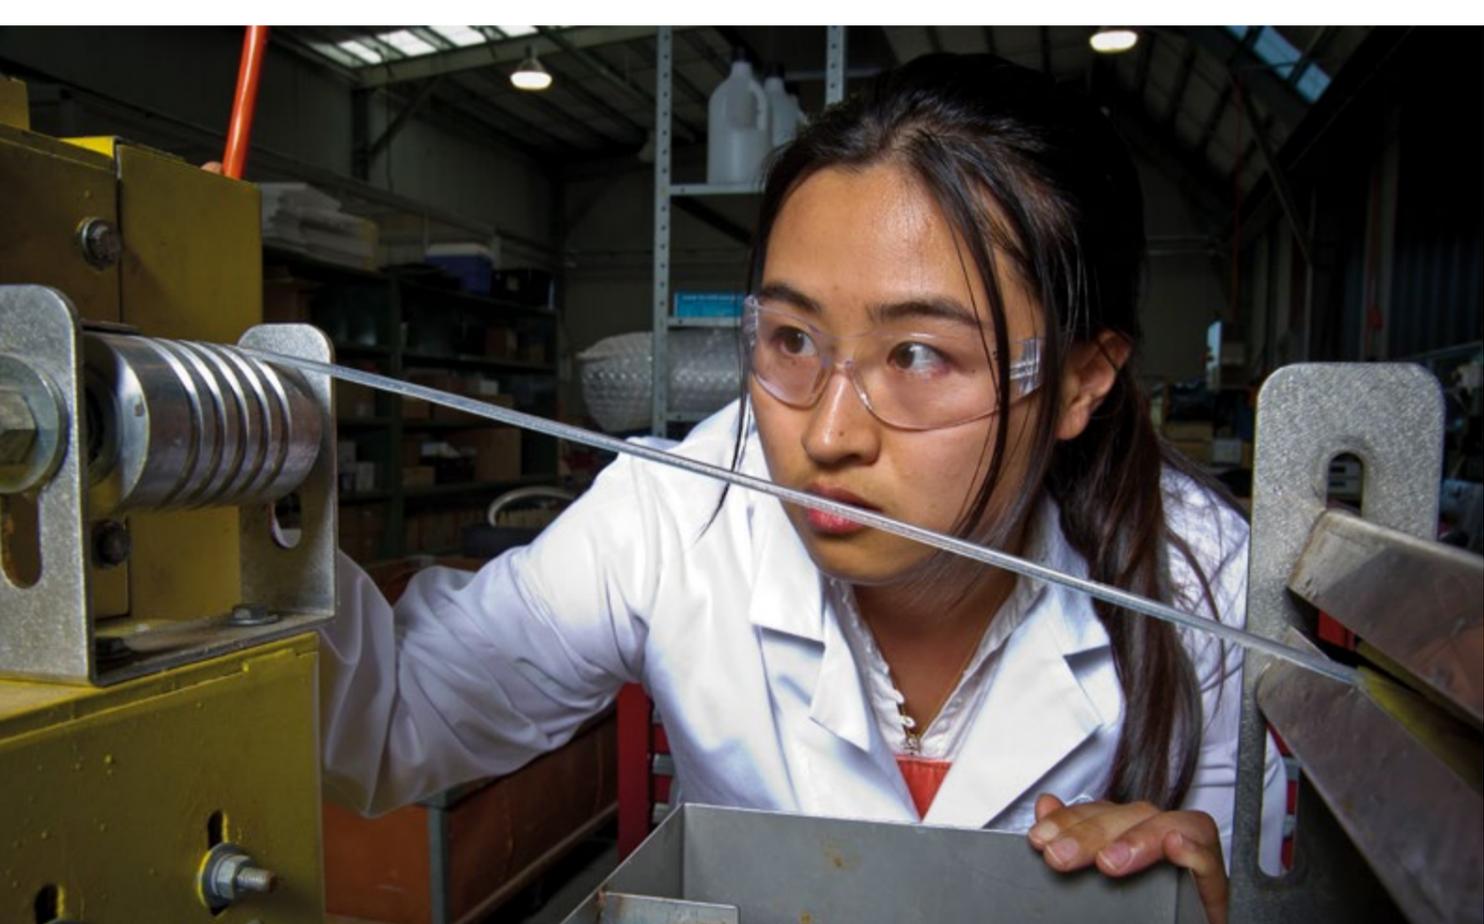

- Improving health and wellbeing
- Designing smarter technologies
- Enabling a sustainable world
- Advancing society and culture.

## Applying for a research degree at Deakin

You can use Deakin's online Higher Degree by Research application form to apply for a research degree. You will need to attach proof of citizenship, academic transcripts, a research proposal, referee reports and other certified documents.

Visit [deakin.edu.au/post-research](https://deakin.edu.au/post-research) to learn more.

### Improving health and wellbeing

From designing health literacy tools used in over 20 countries to working to develop world-first robotic ultrasound technology that can diagnose a patient thousands of miles away, Deakin researchers are discovering ways to overcome barriers of geography and inequality in healthcare.

Deakin's health research works towards understanding, developing and deploying systems of care that optimise health outcomes. We conduct world-class research into obesity prevention, disability and inclusion, and epidemiology, as well as health technology development, mental health, child and maternal health, cancer, cardiovascular disease and diabetes.

In one ground-breaking initiative, the Deakin-led multi-partner program *Transform-Us!* is increasing children's activity levels and reducing sitting time in primary schools located in the Australian state of Victoria. This project is expected to be introduced across Australia in the next few years.

In another project, researchers are using machine learning and artificial intelligence to spearhead precision medicine in Australia. And researchers at the ARC Research lab for Digital Enhanced Living are developing personalised technologies to support elderly people living at home or in residential aged care.

### Designing smarter technologies

Deakin is a world leader in carbon and short fibre, metals and steel research, electromaterials, corrosion, nanotechnology, and composite materials. We are home to some of the best future-focused engineering and design facilities in the Australian university sector, including our unique, pilot scale, carbon fibre research plant in Geelong: Carbon Nexus.

In the field of energy, our researchers are making outstanding progress in developing more efficient energy storage systems, as well as working on innovative generation technologies, new materials and intelligent management systems. Deakin is researching a number of new battery technologies and their large-scale prototyping. We are also currently installing an industrial-scale, smart microgrid energy system and research platform, which will provide a unique opportunity in Australia for developing renewable energy solutions.

In analytics, our novel machine learning algorithms are helping to transform several industry sectors, ranging from healthcare (via accurate risk prediction from patients' data), to advanced manufacturing (via efficient optimisation of expensive processes).

And our Liveable + Smart Cities Research Lab is focusing on real problems related to two of the biggest issues of the 21st century — rapid urbanisation and the decline of rural areas. Using advanced technology that includes dynamic 2D/3D modelling and AR/VR simulations, the Lab helps policy-makers reach informed decisions in advance through dynamic scenario planning backed by robust data analytics.

### Enabling a sustainable world

Deakin's ecologists and evolutionary biologists are helping to protect Australia's vulnerable flora and fauna from disease, rapid development and climate change. Through every project in this field, our research drives outcomes that address global environmental and sustainability issues.

Our marine researchers have developed the purpose-built research vessel *Yolla*, which houses one of the most advanced sonar systems in the world. The data they collect plays a key role in supporting fishery and conservation management of marine environments.

The global aquaculture industry is also being supported by our nutritionists. One team is investigating the effect of farmed fish diets on human nutrition, of crucial significance given the global shortage of appropriate fish food.

In the agricultural sphere, teams of experts are focusing on solving productivity problems. In consultation with farmers, Deakin scientists are developing sophisticated lab-on-a-chip technology to optimise livestock health. Water management advice is also being provided to farmers, governments and rural planners, both in Australia and around the world.

## Advancing society and culture

Deakin's research in the humanities and social sciences covers topics such as: identifying ways to improve social cohesion in diverse societies; devising strategies for managing humanitarian disasters; writing novel 20th century histories; and investigating ethical dilemmas posed by new technologies, all using cutting-edge social research methods.

In the technical domain, we are exploring the risk, governance and legal issues of cyber security. Deakin researchers are also developing creative solutions in the field of movement-based art and technology.

Deakin is a leader in providing higher education opportunities to indigenous students and supporting research on indigenous culture. Deakin's Institute of Koorie Education offers subjects on Aboriginal studies to all students, providing an introduction to Aboriginal Studies and insights into Aboriginal knowledge and experiences.

In education, our researchers are helping to lead a major national program that aims to increase the study of science and technology in Australian secondary education. This project is one of a host of research activities making Deakin an international leader in education research.

# New learning options online

Deakin has provided quality off-campus learning for more than 40 years. Adding to our innovative Cloud Campus, Deakin has developed new online degrees and short courses for both curious learners and experienced professionals.

## Deakin and FutureLearn

Deakin has partnered with FutureLearn – a world-renowned online learning platform – to deliver full postgraduate qualifications.

Since 2012, FutureLearn has offered free, online short courses hosted by many universities around the world. Deakin was the first university in the world to offer full degrees on FutureLearn, including masters programs.

FutureLearn gives you the opportunity to complete a free two-week course to gain a sense of whether you are interested in the degree. Once you have completed this, you can then choose to enrol in the full program. The degrees are delivered by the same experienced lecturers as Deakin's on-campus programs, and you will have access to extensive resources and support.

Deakin is now offering a variety of postgraduate degrees through FutureLearn, including Diabetes Education, Information Technology, Cyber Security, Humanitarian Action, and Property and Real Estate.

## Professional Practice degrees

If you are a professional with extensive experience in your field, a Deakin Professional Practice degree could allow you to gain a professionally-recognised qualification using the knowledge and skills you have already gained in the workplace. This, in turn, can help further your career.

### How do these degrees work?

Delivered online, Professional Practice degrees ideally suit busy professionals. Students undertaking these programs gain their degree through a combination of credentialing and coursework units. These include:

- introductory units that provide the insight, knowledge and tools needed to complete the qualification
- Professional Practice credentials earned by providing evidence from your professional life that demonstrate mastery of a particular skill
- a capstone unit where you complete a professional project that demonstrates your expertise.

### What are Professional Practice credentials?

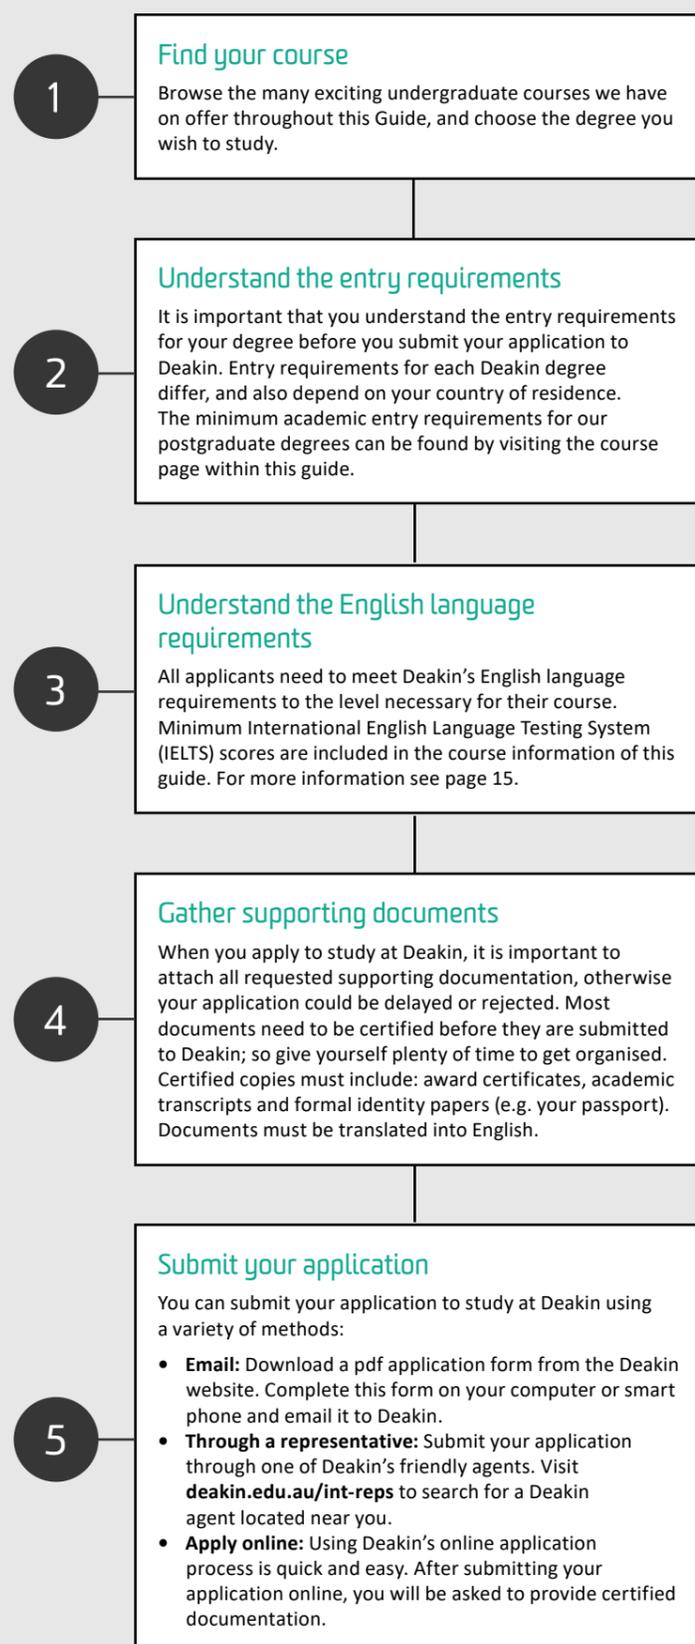

Deakin's Professional Practice credentials offer a new way to recognise the skills and knowledge that you have already developed through learning, work and experience. Credentialing isn't about attending lectures, tutorials or taking in new information. Instead, it is all about showcasing the skills and knowledge you already have through a portfolio of evidence. Credentials showcase to employers that you have recognised mastery of important professional skills.

### Deakin Professional Practice degrees

- Master of Information Technology Leadership
- Graduate Certificate of Information Technology Leadership
- Master of Leadership
- Graduate Certificate of Leadership
- Master of Professional Practice (Engineering)
- Master of Professional Practice (Digital Learning)
- Graduate Certificate of Professional Practice (Digital Learning)

# How to apply

## Applying to Deakin

You can apply to Deakin at any time throughout the year, and Deakin's international admissions team is always ready to quickly process applications and assist with any questions you may have. Application processes and requirements may differ slightly depending on your chosen degree, as well as your country of residence and entry pathway.

## How to certify your documents

Certified copies of documents are photocopies that have been viewed along with the original document by an authorised person, who will stamp them as being authentic copies. Visit [deakin.edu.au/int-apply](http://deakin.edu.au/int-apply) to see how you can certify your documents and who they can be certified by.

# Academic admission requirements

Deakin degrees have eligibility requirements that you need to meet to gain entry. Each degree has its own academic entry requirements that applicants are expected to meet.

## Masters by coursework

Deakin masters by coursework programs are typically 18 months to two years full time, or up to four years part time. Many degrees allow you to choose a 'specialisation' – the area of study from which you choose the majority of your units. Studies are completed mainly through coursework, with a thesis or major project completed in the last part of the degree.

### Admission requirements

Students applying for entry into a masters by coursework degree are required to have completed at least a bachelor degree, or comparable, of an acceptable standard from an approved university or other educational institution. Some degrees may have additional entry requirements, which you can find on the course pages in this guide. Masters degrees by coursework that include a research stream may provide a possible pathway to PhD candidature.

## Graduate certificates and graduate diplomas

Graduate certificates are usually six months in duration, and are designed to add practical and vocational skills to your undergraduate degree, diploma or previous work experience.

Graduate diplomas are one year in duration. They are designed to build on the understanding and skills developed during a graduate certificate, or from work experience.

### Admission requirements

Applicants applying for entry into a graduate certificate or graduate diploma program must have:

- an approved undergraduate degree, or comparable, from an approved university or other educational institution; or
- comparable qualifications gained by examination or relevant professional or industry experience.

Additional requirements may exist for certain degrees.

## Masters by research

A masters by research takes two years full time to complete, and can serve as a prerequisite to applying for PhD studies. For a masters by research degree, you will be allocated a dedicated research supervisor.

### Admission requirements

Applicants must hold a bachelor degree with honours (lower second class and above), or equivalent, from a recognised tertiary institution in an appropriate discipline. You must also have demonstrated capacity to undertake significant research in the proposed field for which Deakin can provide the required supervisory expertise.

## Doctoral programs (PhD)

Doctoral programs are between two and four years full time and are the highest degree available in academia. PhD students conduct original research in order to progress their chosen field. People choose to do PhDs if they want a career in academia or if they want to reach higher levels in their non-academic jobs.

### Admission requirements

Applicants must hold a bachelor degree with honours (upper second class and above) or a masters degree by research from a recognised tertiary institution in an appropriate discipline, as well as demonstrated capacity to undertake significant research in a field for which Deakin can provide the required supervisory expertise.

## Your pathway to business studies at Deakin

Some international undergraduate programs do not meet Deakin's academic standards for postgraduate study. This is why Deakin College – Deakin University's pathway provider partner – offers the Masters Qualifying Program (MQP). The MQP is an alternative pathway into postgraduate business degrees at Deakin University. To learn more visit [deakin.edu.au/post-mqp](http://deakin.edu.au/post-mqp).

# English language requirements

To enrol in a Deakin degree, you will need to be able to read, speak, write and listen in English at a certain level. Different Deakin programs have different English language requirements.

There are many ways to meet Deakin's English language requirements. If your current English level is not high enough to meet our requirements, you may still be able to gain entry into your degree after improving your English at the Deakin University English Language Institute (DUELI).

## How to meet English language requirements

All students must be able to prove that they can meet Deakin's English language requirements. You will be able to provide evidence of your English language skills if you have:

- met the required scores in a recognised English language test, such as IELTS or TOEFL
- completed university (tertiary) or high school (secondary) studies taught in English
- lived and worked in an English-speaking country for at least five years.

## English language tests accepted by Deakin

### IELTS

IELTS is the most popular English language test in the world. IELTS tests are taken in nearly every country, and Deakin has IELTS testing and study centres on some of our campuses. IELTS tests assess listening, reading, writing and speaking skills.

### TOEFL

The TOEFL test is available in two formats — One is delivered via the internet, and the other is a paper test. The majority of TOEFL test takers worldwide take the TOEFL iBT test, delivered via the internet. The TOEFL Paper-delivered Test is offered only in locations where testing via the internet is not available.

### Other accepted English language tests

- C1 Advanced (formerly Cambridge English Advanced CAE)
- C2 Proficiency (formerly Cambridge English: Proficiency CPE)
- English language test for healthcare professionals (OET)
- Pearson Test of English Academic (PTE Academic)

## Learning English at Deakin

If you do not meet Deakin's English language requirements you can improve your English at the Deakin University English Language Institute (DUELI). Successful completion of a DUELI English pathway program will allow you to meet the English requirements for your degree.

# Deakin English

Do you need help meeting Deakin's English language requirements? Or do you want to improve your English and study skills before starting your degree? The Deakin University English Language Institute (DUELI) can help you improve your English and prepare you for study at Deakin.

## Meet Deakin's English language requirements

DUELI can help you meet the English language requirements for your Deakin University degree. Successful completion of DUELI's English for Academic Purposes (EAP) pathway programs can provide you with entry into most degrees at Deakin University. DUELI also has specialised English programs for Teaching.

## The DUELI advantage

DUELI is recognised as one of the best English language centres in Australia. DUELI will do more than improve your English: it will give you the chance to improve your study skills and become familiar with studying at an Australian university. Courses start every five weeks.

## What can you study?

### English for Academic Purposes (EAP)

EAP programs prepare students for university studies in Australia. You can meet Deakin's English language requirements for most postgraduate courses by successfully completing the EAP 4 program.

### General English (GE)

GE programs offer students at all levels the chance to use English confidently and correctly. GE programs can prepare beginner English speakers for the EAP program.

### English for Teaching

English requirements are generally higher for teaching programs at Deakin. The five-week English for Teaching program is an intensive English program for advanced students. You can meet the English language requirements for education courses by successfully completing the English for Teaching program.

Entry requirements: IELTS score of 7 (no band lower than 7).

### IELTS Preparation

This is a special five-week IELTS preparation program at Deakin's official IELTS Test Centre. The program has been designed to equip students with the knowledge and skills to succeed in an IELTS exam.

Entry requirements: Minimum IELTS score of 5.5 or equivalent.

### Intensive Academic Preparation (IAP)

The IAP program is a five-week program for high-level students with IELTS scores of 6.5 or above. The IAP program is designed to develop the writing, reading, listening and speaking skills needed to achieve success at university. This is a high-level course for students who wish to excel in their degree and for Australia Award scholarship students.

## English requirements in this guide

This guide uses IELTS exam scores as the standard for English requirements, but Deakin does accept other English tests. If you have taken a test other than IELTS, visit [deakin.edu.au/post-english](http://deakin.edu.au/post-english) to learn the scores needed for your degree.

## DUELI is a part of Deakin

DUELI is more than an English language centre; it is part of Deakin University. As a DUELI student you will have access to all of Deakin's facilities and services, including libraries, health services, and sport facilities.

# Choose your degree

The rest of this guide will explore Deakin's postgraduate degrees. Identify the entry requirements and learn about our state-of-the-art facilities, work experience opportunities, accreditation and more.

## Campuses

- B Melbourne Burwood Campus
- WP Geelong Waurn Ponds Campus
- WF Geelong Waterfront Campus
- WB Warrnambool Campus
- C Cloud Campus (online)

## Trimester intakes

- T1** Trimester 1 (March)
- T2** Trimester 2 (July)
- T3** Trimester 3 (November)

## Course duration

- 3 Course duration in years

## Course code

- S342 Every Deakin degree has a corresponding course code for easy reference and identification.

## Course fees

Example: A\$30 800

The annual course fee indicates the tuition fee for two trimesters of full-time study, or 8 credit points, unless otherwise indicated. Additional fees may apply and course fees may be subject to change. All fees are in Australian dollars.

For more information about fees visit [deakin.edu.au/post-fees](https://deakin.edu.au/post-fees).

## English requirements

Example: IELTS score 6.5/6

IELTS is the International English Language Testing System. The numbers reflect the minimum overall score required as well as the lowest score allowed for any band (overall score/lowest band score). Deakin also accepts the results of other English language tests. For more about English language requirements see page 15.

## Course structure

### Unit

A unit is normally one trimester long and most have a value of 1 or 2 credit points.

### Credit point

For each unit you successfully complete, you will receive the credit point value of that unit towards your studies. You must complete a specified number of credit points to obtain your degree. Most masters degrees require 12 or 16 credit points.

### Specialisation

A specialisation is a group of related units on particular area or field of study within a degree. A successfully completed specialisation may be listed on your academic transcript.

## Visit our website

The course information throughout this guide is designed to be used as a companion to the Deakin website, which contains more detailed information. We encourage you to visit [deakin.edu.au/international](https://deakin.edu.au/international), or email us with any questions you might have at [study@deakin.edu.au](mailto:study@deakin.edu.au).

**Footnotes**  
 \* Unlike most Deakin courses, this degree operates on a Semester system.  
 † This course will only be offered to international students subject to Australian Psychology Accreditation Council (APAC) accreditation assessment in 2019.  
 # This degree is a one-year accelerated full-time program delivered over three consecutive trimesters. This means you will study three trimesters in the one year.  
 ‡ The 2020 course fee is for 10 credit points over three trimesters of full-time study in a single calendar year.  
 \*\* A shorter course duration may be available to those who have completed previous studies in a similar discipline and with relevant work experience. Please visit the course page on the Deakin website for more details.

# Master of Architecture

## Course information

Course code: S700  
 Years (full time): 2  
 Campus: WF  
 Intake: T1 (March), T2 (July)  
 2020 annual fee: A\$35 000  
 IELTS score: 6.5/6

## Structure

- 16 credit points, including:
- 9 core units (totalling 12 credit points)
  - 4 elective units
  - 2 zero-credit-point compulsory units.

## Minimum entry requirements

Bachelor degree in architecture (accredited) with a weighted average mark (WAM) (or equivalent average grade indicator) of 60. Applicants not having obtained a WAM of 60 may submit a portfolio of their relevant work for consideration by the School of Architecture and Built Environment.

## Course overview

Explore the design of physical environments – from residential to commercial to industrial. Deakin’s Master of Architecture will develop your skills and knowledge in architectural design research, urban ecologies and contexts, project evaluation, and performance-measured sustainable design. All of these skills are expected in modern professional practice. You will also undertake advanced studies in cultural, technological, design, environmental and theoretical knowledge. Plus, you will study the ethical and evaluative frameworks that underpin the architecture field.

## World-class facilities

Deakin’s School of Architecture and Built Environment has an open and engaging environment that strengthens the school community and enhances our students’ learning experience. Facilities include a well-equipped workshop with 3D printers, CNC routers and 2D laser cutters; and an extensive design studio accessible 24 hours, seven days a week.

## Professional recognition

Deakin’s postgraduate architecture programs are accredited by leading industry bodies. These include, within Australia, the Australian Institute of Architects (AIA), Architects Accreditation Council of Australia (AACA) and the Architects Registration Board of Victoria (ARBV). This course has also been validated and recognised by the Board of Architects Malaysia (Lembaga Arkitek Malaysia).

## Highly ranked

Deakin’s architecture programs are ranked in the Top 1% of all universities worldwide, according to QS World University Rankings by Subject 2019. This means you can be confident that your Deakin degree will be well respected by employers.

# Master of Architecture (Design Management)

## Course information

Course code: **S711**  
Years (full time): **1.5**  
Campus: **WF**  
Intake: T1 (March), T2 (July)  
2020 annual fee: A\$35 000  
IELTS score: 6.5/6

## Structure

12 credit points, including:

- 7 core units (including two core units of 2 credit points each)
- 3 course elective units
- 2 zero-credit-point compulsory units.

## Minimum entry requirements

Bachelor degree in architecture (accredited) and construction management, with a WAM (or equivalent average grade indicator) of 60. Applicants not having obtained a WAM of 60 may submit a portfolio of their relevant work for consideration by the School of Architecture and Built Environment.

## Course overview

The Master of Architecture (Design Management) is designed for students who have completed a combined degree in architecture and construction management. Your masters studies will build upon your established background in architecture and built environment studies, and you will develop your skills and knowledge in architectural design research, urban ecologies and other aspects expected in modern architectural professional practice.

## Professional recognition

This course is on the Architects Accreditation Council of Australia (AACA) list of accredited architecture qualifications recognised by the Australian Institute of Architects and the Architects Registration Board of Victoria (ARBV).

## Career opportunities

Graduates from the architecture course may be sought after by private architectural practice firms, government organisations and private companies in property development, building, and design. Graduates will be required to complete an additional two years of work experience under the supervision of a registered architect in order to present for registration with the Architects Registration Board of Victoria and the Australian Institute of Architects.

# Master of Landscape Architecture

## Course overview

Build upon your knowledge of maintaining the quality, sustainability and development of cities, towns and regional landscapes. Deakin's Master of Landscape Architecture addresses the creation of quality places in response to current and future environmental and lifestyle challenges. The program focuses on ecology, spirit of place, people, Indigenous thought and urban design to inform and craft places of renewal, stimulation, healing and respect. A career in landscape architecture could propel you into the world of project management, urban design and change management planning.

## Professional recognition

The Master of Landscape Architecture is professionally accredited by the Australian Institute of Landscape Architects (AILA). It has been designed in direct consultation with AILA, potential employers, industry, government and professional representatives. It is co-taught by many of these representatives, to ensure it provides graduates with the knowledge, skills and competencies sought by employers.

## Structure

16 credit points, including:

- 11 core units (totalling 13 credit points)
- 3 course elective units
- 2 zero-credit-point compulsory units.

## Minimum entry requirements

Bachelor degree in a related discipline with a weighted average mark (WAM) of 60 (or equivalent), or a portfolio of relevant work.

# Master of Construction Management

Deakin offers two postgraduate construction management degrees. Both offer a similar curriculum, but with slightly different focuses and course duration.

## Professional Recognition

Deakin's Master of Construction Management degrees are professionally accredited by the Royal Institution of Chartered Surveyors (RICS), the Australian Institute of Quantity Surveyors (AIQS) and the Australian Institute of Building (AIB).

## Career outcomes

Graduates may find career opportunities in the fields of quantity surveying and construction management. There are a wide range of potential employers, including construction companies, quantity surveying, project management and construction consultants.

## Inspiring learning environments

The School of Architecture and Built Environment has undergone major refurbishment, resulting in a creative learning space. Originally built as wool stores in the 19th century, Deakin's award-winning Geelong Waterfront Campus has been extensively renovated, creating a modern, impressive campus located right on the foreshore in the heart of Geelong.

## The right degree for you

Are you wondering which Deakin Construction Management degree is right for you? The Master of Construction Management is delivered in just 1.5 years, making it the quickest path to a degree. The Master of Construction Management (Professional) involves an additional trimester of professional practice study. By successfully completing this two-year degree, you may be eligible for post-study work rights in Australia. Post-study work rights allow you to gain work experience in Australia for two years before returning to your home country.

## Master of Construction Management

This degree blends innovative practice and cutting-edge research by using a case-based approach to learning. You will be provided with specialist skills related to the policy, evaluative and research frameworks that underpin the construction professions. The course is ideally suited to those with a construction background seeking to upskill, as well as those who have completed an undergraduate degree in a related area who are looking to enter the construction management profession.

## Course information

Course code: **5791**  
 Years (full time): **1.5**  
 Campus: **WF** **C**  
 Intake: T1 (March), T2 (July), T3 (November)  
 2020 annual fee: A\$37 400  
 IELTS score: 6.5/6

## Structure

12 credit points, including:

- 11 core units (totalling 12 credit points)
- 0-credit-point academic integrity unit.

## Minimum entry requirements\*

# Accounting

Complex global markets and reporting requirements mean that accounting has never been a more dynamic and exciting profession. Businesses and individuals increasingly rely on accountants to assess their financial situation and give advice on financial dealings. Deakin offers a number of accounting degrees to cater for your career goals.

## Graduate job-ready

At Deakin, we understand that professional experience, particularly for postgraduate students, plays a critical role in helping you take the next step in your career. Practical experience as part of your degree gives you the opportunity to enhance your job prospects, enrich your resumé and network within the industry, all while gaining credit towards your degree.

## Professional recognition

Deakin's accounting programs are professionally accredited. Completion of the appropriate selection of units within the **Master of Professional Accounting** grants eligibility for entry as an associate member of CPA Australia. It also meets the educational requirements for entry into the CA program of the Chartered Accountants Australia and New Zealand (CA ANZ), the Institute of Public Accountants (IPA), and Professional Accounting Program (PEP). By completing appropriate units, it is also possible to receive exemptions from the Association of Chartered Certified Accountants (ACCA) towards the ACCA qualification.

On successful completion of the **Master of International Accounting** you will not only gain exemption from all nine 'fundamental' level Association of Chartered Certified Accountants (ACCA) papers, but also have the necessary knowledge to undertake the ACCA's six 'professional' level examinations. In addition to the ACCA qualification, completion of the appropriate selection of units within the Master of International Accounting also grants eligibility for entry into alternate professional bodies, including as an associate member of CPA Australia. It also meets the educational requirements for entry into the CA program of Chartered Accountants Australia and New Zealand (CA ANZ) and the Institute of Public Accountants (IPA).

The **Master of Professional Accounting and Finance** allows you to work towards membership in professional bodies in accounting and finance, including Certified Practising Accountants (CPA) Australia, Chartered Accountants Australia and New Zealand (CA ANZ), and the Institute of Public Accountants (IPA).

The **Master of Professional Accounting and Law** offers graduates a pathway to gain entry to professional accounting bodies such as CPA Australia, the Institute of Public Accountants (IPA), Chartered Accountants Australia and New Zealand (CA ANZ) and exemptions from the Association of Chartered Certified Accountants (ACCA).

## Master of Professional Accounting

This degree is open to graduates from both accounting and non-accounting backgrounds. It covers areas such as corporate and management accounting, commercial law, corporations law, accounting theory, economics and finance. Students are introduced to research tools in the core unit component of the degree where they learn analytic skills and the practical application of those skills in professional contexts.

### Course information

Course code: **M720**  
 Years (full time): **1.5**  
 Campus: **B** **C**  
 Intake: T1 (March), T2 (July), T3 (November)

### Minimum entry requirements

- Bachelor degree in any discipline, OR
- Successful completion of Deakin's Masters Qualifying Program with a minimum overall average of 60 in the discipline units, and a pass grade in the communication and academic skills instruction.

## Master of Professional Accounting and Law

This degree is designed for non-law and non-accounting graduates. It is tailored for those who need specialist legal knowledge in their roles (regulatory, compliance or risk management positions), and want to combine this knowledge with an advanced accounting qualification. The degree provides the required knowledge for professional accounting practice and gives law students the opportunity to gain accounting expertise to enhance their career outside the legal profession. Graduates gain knowledge in accounting and business law, which is critical for today's complex regulatory environment.

### Course information

## Leading the way

Deakin is one of the Top 100 universities in the world for Finance (ShanghaiRankings), and in the global Top 150 for Accounting (QS). Deakin Business School is also accredited by the Association to Advance Collegiate Schools of Business (AACSB), the longest-serving global accrediting body for business schools in the world.

# Master of Business Administration (MBA) degrees

Deakin's Master of Business Administration (MBA) programs are some of the most highly regarded in Australia, and are recognised around the world. We offer a number of different MBA programs, and what you study depends on your previous experience, as well as your career goals. Let us help you find the right MBA for you.

## Refined qualification

Deakin has been offering MBA programs for more than 30 years. As a result our programs are refined, relevant and prepare graduates for a range of business careers. You will learn from some of the best in the business: Deakin's MBA teaching staff are recognised experts in their fields, and they not only teach but also publish in quality international journals and serve as consultants for industry organisations.

## Which Deakin MBA is the right one for you?

Deakin offers three MBA programs: Master of Business Administration; Master of Business Administration (International); and Master of Business Administration (Healthcare Management). Your previous professional or managerial experience, as well as the industry you wish to work in upon graduating, will determine which MBA is right for you. The diagram below provides a general guide as to which degree you are best suited and eligible for.

## Accreditation

Deakin's MBA is EPAS accredited by the European Foundation of Management Development. EPAS is an international quality benchmark for business programs worldwide, so you can be sure your degree will be recognised globally as being of the highest quality.

## Minimum entry requirements

**The Deakin MBA and MBA (Healthcare Management) have the following entry requirements:**

- Bachelor degree in any discipline AND three years relevant work experience\*, OR
- Successful completion of the Masters Qualifying Program (MQP) AND three years relevant work experience\*, OR
- Graduate certificate qualification in a related discipline AND five years relevant work experience\*, OR
- Graduate diploma equivalent (professional pathways).

**Deakin's MBA (International) has the following entry requirements:**

- Bachelor degree in any discipline, with a minimum weighted average mark (WAM) of 65, OR
- Successful completion of the Masters Qualifying Program with a minimum overall average of 65 in the discipline units.

\* Must be in a managerial or professional role. Applicants must demonstrate decision-making responsibility in a range of areas, such as budgeting, staffing, project management, financial management, or other relevant professional experience. For MBA (Healthcare Management), further work experience considerations may apply. Visit the course pages on the Deakin website to learn more.

## Highly ranked

Deakin is in the Top 1% of universities worldwide for business, and the Deakin MBA is rated 5 stars by QS University Rankings for facilities, internationalization and diversity, teaching and student quality, and engagement and program strength. Deakin's online MBA is ranked in the world's Top 20 – and the best in Australia – by QS.

### Master of Business Administration

The Deakin MBA equips you with knowledge, real-world skills, and business and management best practice. Whether you are seeking a promotion or looking for a new career direction, an MBA demonstrates that you are an aspiring employee who is prepared to invest in your career.

### Specialisations

You will have the opportunity to choose specialisations, including, but not limited to: accounting; business analytics; business consulting; corporate governance; environmental sustainability; financial planning; healthcare management; human resource management; international and community development; international trade and business; marketing; project management; property and real estate; retail management; and strategy and planning.

### Course information

Course code: **M701**  
 Years (full time): **1.5**  
 Campus: **B C**  
 Intake: T1 (March), T2 (July), T3 (November)  
 2020 annual fee: A\$42 200  
 IELTS score: 6.5/6

### Structure

- 12 credit points, including:
- 8 core units
  - 4 elective units
  - 0-credit-point academic integrity unit
  - 3 zero-credit-point compulsory units.

### Related programs

- Graduate Diploma of Business Administration
- Graduate Certificate of Business Administration

### Master of Business Administration (International)

The MBA (International) focuses on business for those currently working or seeking to work in an international context. The MBA (International) is for those who may not have experience as a business manager, but have aspirations to move into management. High achievers can move directly from undergraduate studies to postgraduate MBA (International) studies. You will study a broad range of business and management disciplines and develop the creative, analytical and interpersonal capabilities that are key to successful business leadership.

### Specialisations

You will have the opportunity to choose specialisations, including: business consulting; e-business and supply chain management; finance; human resource management; international business; marketing; project management; research; retail management; and social media and mobile strategies.

### Course information

Course code: **M751**  
 Years (full time): **2**  
 Campus: **B C**

 IELTS score: 6.5/6

### Structure

- 16 credit points, including:
- 12 core units
  - 4 elective units
  - 0-credit-point academic integrity unit.

### Master of Business Administration (Healthcare Management)

The MBA (Healthcare Management) is a unique, specialised course that will prepare you for management roles within the challenging – and quickly growing – global healthcare sector. Management success in the healthcare sector requires a unique combination of business skills and health policy knowledge. Through the MBA (Healthcare Management) you will be able to draw from the combined expertise of the Deakin Business School and the Deakin School of Medicine, giving you a unique set of skills that will make you stand out among future employers.

### Professional recognition

Deakin's MBA (Healthcare Management) is the most comprehensive healthcare management program currently available in Australia, and has attained the Australasian College of Health Service Management (ACHSM) accreditation. ACHSM is the peak body for Healthcare Executives in the Asia-Pacific, their accreditation not only ensures quality and industry relevance, but also enhances graduate employability.

### Course information

# Master of Business Analytics

## Master of Business (Arts and Cultural Management)

### Course overview

Deakin's Master of Business (Arts and Cultural Management) combines both the theory and practice of arts and cultural management, through a combination of reading, research and practical assignments. It provides art leaders and managers with a tailored business education that emphasises management, marketing and finance skills.

You will take part in an internship project that will enable you to apply the theory learned in class to hands-on industry experience. Through this project, you will learn from professionals who are experts in their fields, gaining knowledge and valuable contacts while you study.

### Career opportunities

Graduates of this program have gone on to find work in high-profile organisations, including:

- arts and cultural departments
- art galleries
- arts marketing
- ballet, theatre and opera companies
- event and festival management
- local government
- multimedia and publishing
- museums.

### Leading the way

### Course overview

We live in a world of data. Businesses are continuously looking for ways to analyse, dissect and manipulate data to better inform best practice. This is why it is becoming increasingly important for organisations to employ qualified graduates who are ready to tackle 'big data'. Deakin's Master of Business Analytics introduces a range of internationally recognised business intelligence and analytics tools and provides you with the skills for the thriving business analytics profession.

### Practical focus

Deakin's Master of Business Analytics has been designed and developed in partnership with industry. It is one of the most practice-focused and industry-aligned business analytics courses available.

Course partners include IBM, Microsoft, SAS, ALTIS Consulting, Deloitte, Ernst & Young, PBT Group and PricewaterhouseCoopers (PwC). The degree is partly delivered by these industry practitioners in the form of practice modules, lectures, analytics case studies and projects. The capstone project – Decision Analytics in Practice – is developed and run entirely by PwC as a master class in analytics practice.

## Among the best

Deakin is ranked in the Top 100 worldwide for Finance (ShanghaiRankings) and the Top 200 worldwide for Business (QS). These rankings are informed by academic and employer reputation, as well as research impact.

## Professional recognition

The Master of Financial Planning is approved by the Financial Adviser Standards and Ethics Authority (FASEA). This means graduates will be eligible to provide financial advice in Australia\* and be eligible for entry into the certification programs of the professional financial planning associations – the CERTIFIED FINANCIAL PLANNER® (CFP®) Certification Program offered by the Financial Planning Association of Australia (FPA) and the Fellow Chartered Financial Practitioner (FChFP) designation offered by the Association of Financial Advisers (AFA). Successful completion of this degree will also provide advanced standing for three of the five CFP® Certification units, and up to two of the four FChFP Certification units.

\* Subject to visa terms and conditions.

# Master of Human Resource Management

## Course overview

Deakin's Master of Human Resource Management meets the needs of all managers whose duties require them to take on responsibilities in human resource development and management. It is a specialised course that provides enhanced qualifications for graduates in business, government and industry. Human resource (HR) management is no longer regarded as the sole responsibility of a specialised department. An understanding of HR management is now an essential requirement of managers in all organisations.

The degree helps to enhance the skills that current HR professionals are utilising. It offers specialist units in organisational development and change, employment relations, human resource strategy, and analytics.

## Who we work with

Deakin's human resource management degrees are delivered by experienced academic staff who engage with industry professionals from a diverse range of organisations. These include public sector, not for profit and various private sector enterprises.

## Accreditation

Deakin's Master of Human Resource Management is accredited by the Australian Human Resources Institute (AHRI). AHRI is the national peak association that represents human resource and management professionals.

## Course overview

Deakin's Master of International Finance focuses on international trade and associated financial markets. You will establish an understanding of the structure and operation of financial markets and the financial instruments used in those markets. The program adds an international perspective to finance, reflecting the increasing sophistication of financial markets in the world and their integration within international trade of the global economy. Finance professionals will be especially interested in this degree because the coursework and research components have been designed to enhance professional practice in a range of financial domains.

You will develop analytical skills for making key financial management decisions, including time-value-of-money and risk-return analysis. Plus you will learn how to apply basic mathematics to solve real-world financial decisions. Through practice, you will become skilled in using various digital technologies used to process complex financial data, information and ideas.

## Study with the best

Deakin's finance programs are ranked in the Top 100 in the world by the prestigious ShanghaiRankings Global Ranking of Academic Subjects 2018. These rankings assess research output, international collaboration and impact. You can be confident that you will learn relevant material driven by high-quality research throughout your Deakin Master of International Finance degree.

## Professional recognition

By completing the Master of International Finance, you may gain membership or eligibility to apply for membership at the Finance and Treasury Association (FTA) and the Financial Services Institute of Australasia (FINSIA), two leading professional bodies.

 IELTS score: 6.5/6

## Structure

16 credit points, including:

- 10 core units
- 4 specialisation units
- 2 elective units
- 0-credit-point academic integrity unit.

## Minimum entry requirements

- Bachelor degree in any discipline, OR
- Successful completion of Deakin's Masters Qualifying Program with a minimum weighted average mark (WAM) of 60%, OR
- Evidence of academic capability judged to be equivalent.

## Related programs

- Graduate Diploma of Marketing
- Graduate Certificate of Marketing

\* A shorter course duration may be available to those who have completed previous studies in a similar discipline and with relevant work experience. Please visit the course page on the Deakin website for more details.

## Course overview

Marketers help to add value to the customer experience and build relationships between consumers and organisations. They skilfully position brands and products to better place and promote them in market. This requires great skill and knowledge about the way marketing works. Deakin's Master of Marketing focuses on practical learning, and provides opportunities for you to try your hand at managing a team to deliver marketing solutions with competing deadlines. The program offers skills in market insight, integrated marketing communication, marketing analysis, services marketing, online and international marketing.

## Specialisations

Customer and digital marketing analytics **B C**  
 Public relations and image marketing **B C**  
 Research project **B C**

## Career opportunities

A marketing qualification can open doors to careers in multinational, local, government, non-government and not-for-profit entities, in roles such as:

- Big data and mobile marketing
- Community management executive
- Marketing assistant
- Marketing coordinator
- Mobile marketing manager
- Product management
- Research analyst, marketing
- Social media marketing.

## Accreditation

Deakin's Master of Marketing is accredited by the Australian Marketing Institute (AMI). The AMI is the leading professional association for marketers in Australia, and provides accreditation, training and professional development opportunities to ensure members remain up to date with industry.

# Graduate Diploma of Property

## Course overview

Progress your existing property knowledge with expertise in valuation and property development, or get the qualifications you need to start a new career in the property industry. Deakin's Graduate Diploma of Property will prepare you for a range of roles, including property development, property management and valuation. The program is delivered online, and is designed in close consultation with industry. It brings together a range of built environment disciplines, from sustainable construction to property management, to provide a broad perspective on issues of relevant international significance.

## Professional recognition

The Graduate Diploma of Property is academically accredited for Certified Practising Valuer (CPV) and Certified Property Practitioner (CPP), providing there has been prior study in the knowledge field areas of finance and accounting, commercial law, property economics, or economics. Professional association recognition means that your qualifications will be professionally recognised by employers and clients across Australia.

# Master of Communication

## Course overview

Deakin's Master of Communication is suited to those looking to upskill in their careers, as well as those wanting to break into a new industry. Taught by industry experts, it offers flexibility in focus and structure: you have the opportunity to undertake intensive studies by choosing a specialisation. These specialisations, in combination with core units, ensure you graduate with a versatile skill set for the jobs of the future.

The degree also includes a capstone program of study. For this, you can complete either a research project relevant to industry practice or an academic research project, which offers a potential pathway into PhD studies. This hands-on-learning focus is further supported by access to state-of-the-art facilities. Depending on your area of study, you may use Deakin's newsroom, TV production facilities, and sound recording studios.

Graduates have found work as public relations practitioners, media advisers, journalists, project officers in government, communications officers and coordinators, technical writers, producers, and more.

## Specialisations

- Digital media
- Journalism
- Public relations
- Television production
- Visual communication design

## Among the world's best

Deakin has been ranked in the Top 100 universities globally for Communication and Media by prestigious university rankings organisation QS, 2019. That's in the top 1% worldwide!

## Professional membership

If you choose to specialise in Public Relations as part of this degree, you may be eligible to graduate with membership of the Public Relations Institute of Australia (PRIA). This membership can create a point of difference for you when applying for jobs.

## Course information

Course code: **A743**  
 Years (full time): **1.5-2\***  
 Campus:    
 Intake: T1 (March), T2 (July), T3 (November)  
 2020 annual fee: A\$31 400  
 IELTS score: 6.5/6

## Minimum entry requirements

- Bachelor degree in any discipline, OR
- Other evidence of academic ability judged to be equivalent.

## Related programs

- Graduate Diploma of Communication
- Graduate Certificate of Communication
- Graduate Diploma of Digital Media
- Graduate Diploma of Journalism
- Graduate Diploma of Public Relations
- Graduate Diploma of Television Production
- Graduate Diploma of Visual Communication Design

\* Students entering the degree with a related academic or professional background may be eligible for credit transfer and recognition for up to 4 units, reducing the full-time duration from 2 years to 1.5 years.

## Structure

16 credit points, including:

### Core Communication Program (4 credit points)

### Specialisation (8 credit points)

- Four 1-credit-point specialisation-specific units selected from one only of five specialisations (Digital Media; Journalism; Public Relations; Television Production; or Visual Communication Design); and
- A 4-credit-point professional capstone program, including a work-based internship and an applied research project to boost your career prospects.

### Electives (4 credit points)

Students select 4 credit points of electives from any specialisation in the course. Students may complete up to two electives from any equivalent postgraduate course.

### 0-credit-point academic integrity unit

# Master of Arts (Writing and Literature)

## Course overview

The Master of Arts (Writing and Literature) offers you the chance to focus on your interests through advanced study in a writing or literature specialisation. Students undertake coursework relevant to their specialisation as well as a substantial research project (thesis) under the supervision of an academic with a professional research record. The unique research pathway brings you a new level of intellectual stimulation and personal enrichment, and the opportunity to contribute to a wider debate within your field, often through publication.

## Specialisations

- Children's literature
- Literary studies
- Professional writing
- Creative writing

## Learn from the experts

Our staff have extensive industry experience meaning you will gain relevant insights and invaluable contacts. Our staff have worked in organisations such as Arts Victoria, the BBC, Penguin Books and Samsung.

# Master of Creative Arts

## Course overview

This program is designed to further develop your undergraduate creative arts experience into a professional creative arts practice. It will enhance your career as a creative practitioner by providing you with advanced academic and professional skills in practice-focused research. You will work within your creative arts discipline and produce two major projects across the two years of the program. Working with leading industry experts, this internationally focused qualification enables you to develop your professional creative arts practice and offers a pathway to further study.

## Disciplines

Animation and motion capture **B**  
 Dance **B**  
 Drama **B**  
 Film and television **B**  
 Photography **B** **WF**  
 Visual arts **B** **WF**  
 Design **B**

## State-of-the-art facilities

Learn in purpose-built facilities to enhance your knowledge and prepare you for work upon graduation. Based on professional recommendations, we are continually improving our facilities so they are at the forefront of technology, providing students with access to the most up-to-date, industry-standard equipment. Our students use dedicated studios for dance, drama, animation, visual arts, design, television, film and sound, along with photographic darkrooms, lighting and digital imaging suites.

## Innovative programs

Deakin's creative arts programs are regularly updated to ensure the best fit between critical study, professional preparation and a great student experience. They incorporate the latest technology and industry equipment. You will benefit from the broad range of disciplines on offer, allowing for interdisciplinary exploration and inspiration.

## Education and teaching ranked 27th in the world

Deakin is ranked 27th in the world for its education courses, based on the 2019 QS World University Rankings. These rankings are informed by academic and employer reputation, as well as research impact.

# Master of Education

## Course overview

Deakin's Master of Education is a leading course for teachers, and brings together advanced learning, professional education, inclusive education, and international education through coursework and research. The course provides teaching professionals with the skills and knowledge to tackle the challenging and dynamic nature of education, as well as providing a rigorous research pathway to a PhD in education. This well-recognised qualification has gained recognition from the International Baccalaureate Organisation for the IB Graduate Certificate of Teaching and Learning (Research).

## Specialisations

Professional education and training **C**

Deakin has been ranked in the Top 100 universities for Performing Arts by the prestigious university rankings organisation QS, 2019.

# Graduate Certificate of Education Research

## Course overview

The Graduate Certificate of Education Research covers education research theories, methodologies, design, ethics and conduct. Students design and conduct a guided research project and develop a research paper. You will develop knowledge and skills in:

- identification of an issue in education and design of a related research study
- evaluation of research in education through understanding a range of research theories and methodologies
- conduct of a guided education research project
- engagement with a community of education researchers through knowledge exchange
- creation of shareable products that adhere to the conventions of research, including a research paper that reports on the project.

## Career opportunities

Deakin's Graduate Certificate of Education Research offers research training and experience to teachers and other educational professionals who seek to develop capacities in critiquing and conducting research, enhancing their leadership within their workplace, and providing opportunities for advancement.

## Course information

Course code: **E590**  
 Years (full time): **0.5**  
 Campus: **C**

 2020 annual fee: A\$14 700  
 IELTS score: 6.5/6

## Structure

4 credit points, including:

- 4 core units
- 0-credit-point academic integrity unit.

## Minimum entry requirements

- Bachelor degree or higher in the field of education, OR
- Attainment of a bachelor degree or higher in any discipline PLUS three years relevant work experience.

# Master of Education (Leadership and Management)

## Course overview

The management of learning is becoming a key focus for many organisations within the education sector. A popular specialist degree for education professionals, this program develops your skills and prepares you for a leadership role. While schools are a focus of much of the work in this degree, the basic ideas are equally applicable to other learning organisations and those who work within them.

As a graduate of this course you will possess an understanding of contemporary education issues; have high-level critical and evaluative skills; and research methods and techniques for educational research projects.

## Specialisations

Professional education and training **C**  
 International education **C**

## Learn from experts

Deakin education staff are active researchers in the field, working to improve the quality of learning for all students. Deakin staff have developed strong partnerships with education communities, governments and research institutions. Students benefit from these partnerships by gaining industry-relevant experience and professional contacts.

## Course information

# Master of Teaching

Deakin offers a number of Master of Teaching programs. The degree you choose will depend on the area you wish to focus on.

## Education and teaching ranked 27th in the world

Deakin is ranked 27th in the world for its education courses, based on the 2019 QS World University Rankings, which are informed by academic and employer reputation, as well as research impact.

## Accreditation

All of Deakin's Master of Teaching programs are fully accredited by the Victorian Institute of Teaching (VIT) and Early Childhood programs by the Australian Children's Education and Care Quality Authority.

## Career opportunities

There is a strong demand for qualified teachers, which has resulted in improvements in teaching conditions, resources and career advancement opportunities. As a Deakin graduate you may find employment within the education sector in Australia or overseas.

## Hands-on experience

Our professional experience program gives you real-life teaching experience and study credit for your degree. You will undertake supervised professional experience, packing your CV with practical know-how and sought-after skills that employers look for.

## Links with the education sector

Deakin's education programs are developed in consultation with principals, teachers and the Victorian Institute of Teaching (VIT) and Australian Children's Education and Care Quality Authority, ensuring the curriculum addresses the needs of industry. Deakin also has several school alliances. These provide opportunities for extensive placements in schools beyond those that form the usual course requirements.

### Master of Teaching (Early Childhood)

This degree prepares graduates for employment as early childhood teachers in programs for children from birth to five years, in Australia and overseas. It provides industry practice through 70 days of supervised professional experience. The unique elective pathways allow students to build on their interest and discipline knowledge. The program offers an internship opportunity in the final phase of study.

#### Course information

Course code: **E761**  
 Years (full time): **2**  
 Campus: **B**  
 Intake: T1 (March)  
 2020 annual fee: A\$29 400  
 IELTS score: 7/7\*

#### Structure

16 credit points, including:

- 12 core units
- 4 credit points of specialisations units
- 0-credit-point academic integrity unit.

#### Specialisations

Internship **B**  
 Research **B**  
 Leadership **C**  
 Inclusive education **B**

#### Minimum entry requirements

- Bachelor degree in a different discipline, OR
- Degree in Primary or Secondary Teaching.

All applicants must complete an additional selection tool for non-academic attributes.

\* IELTS band score of 7 (with no band less than 7) and speaking and listening of 7.5.

### Master of Teaching (Primary and Early Childhood)

This degree is a professional teaching qualification that enables graduates to register as teachers in both early childhood education and across all levels of primary school. You will study units relevant to early childhood and primary education, including curriculum, maths, science, the arts, English/literacy, language, humanities, health and physical education, and play pedagogy.

#### Course information

Course code: **E764**  
 Years (full time): **2**  
 Campus: **B**  
 Intake: T1 (March)  
 2020 annual fee: A\$29 400  
 IELTS score: 7/7\*

#### Structure

16 credit points, including:

- 16 core units
- 0-credit-point academic integrity unit
- 2 zero-credit-point units for Literacy and Numeracy Testing for Initial Teacher Education (LANTITE).

#### Minimum entry requirements

Bachelor's degree in a different discipline with successful completion of the equivalent of one full-time year of study in content relevant to the Australian Curriculum for primary schools, including a part minor in science, mathematics/numeracy or English/literacy for specialisation.

All applicants must complete an additional selection tool for non-academic attributes.

\* IELTS band score of 7 (with no band less than 7) and speaking and listening of 7.5.

### Master of Teaching (Primary)

The degree will qualify graduates to seek registration as a teacher in Australia and possibly elsewhere. The course includes core learning areas of the Australian primary curriculum and provides opportunities to undertake advanced study of teaching in a curriculum learning area related to their undergraduate degree. The program provides a range of professional learning experiences through 60 days of supervised placement in schools.

#### Course information

Course code: **E762**  
 Years (full time): **2**  
 Campus: **B**  
 Intake: T1 (March)  
 2020 annual fee: A\$29 400  
 IELTS score: 7/7\*

#### Structure

16 credit points, including:

- 12 core units
- 4 credit points of specialisation units
- 0-credit-point academic integrity unit
- 2 zero-credit-point units for Literacy and Numeracy Testing for Initial Teacher Education (LANTITE).

#### Specialisations

Internship **B**  
 STEM **B**  
 Arts education **B**  
 Leadership of teaching **B**  
 Inclusive education **B**  
 Teaching English to speakers of other languages (TESOL) **B**  
 Languages teaching **B**

#### Minimum entry requirements

Bachelor degree in a different discipline, with successful completion of the equivalent of one full-time year of study in content relevant to the Australian Curriculum for primary schools, including a part minor in one specific curriculum content area for specialisation.

All applicants must complete an additional selection tool for non-academic attributes.

\* IELTS band score of 7 (with no band less than 7) and speaking and listening of 7.5.

### Master of Teaching (Primary and Secondary)

This program will prepare you to work as a teacher across all primary and secondary levels. Study core units to enhance your teaching skills and decide on which student level you would like to teach later. Alongside core studies in education, you will complete two secondary curriculum studies from English, TESOL, languages other than English, drama, dance, media, visual arts, music, humanities, geography, history, mathematics, health, physics, biology, chemistry, science, studies of society and environment, and environmental science.

#### Course information

Course code: **E765**  
 Years (full time): **2**  
 Campus: **B**  
 Intake: T1 (March)  
 2020 annual fee: A\$29 400  
 IELTS score: 7/7\*

#### Structure

16 credit points, including:

- 12 core units
- 2 curriculum study units in a first teaching method area
- 2 curriculum study units in a second teaching method area
- 0-credit-point academic integrity unit
- 2 zero-credit-point units for Literacy and Numeracy Testing for Initial Teacher Education (LANTITE).

#### Minimum entry requirements

Bachelor degree in a different discipline, including successful completion of major and minor studies in at least two curriculum areas recognised by Deakin University.

All applicants must complete an additional selection tool for non-academic attributes.

\* IELTS band score of 7 (with no band less than 7) and speaking and listening of 7.5.

### Master of Teaching (Secondary)

Completing this degree will enable you to teach in secondary schools from junior secondary to high school levels. Graduates can take up education positions within organisations, cultural institutions, TAFE and adult community educational settings. The degree offers a range of industry-based learning through 60 days of supervised professional experience. Alongside core studies, you will complete two secondary curriculum studies from English, TESOL, languages other than English, drama, dance, media, visual arts, music, humanities, commerce and business, geography, history, mathematics, health, physics, biology, psychology, chemistry, science, studies of society and environment, and environmental science.

#### Course information

Course code: **E763**  
 Years (full time): **2**  
 Campus: **B**  
 Intake: T1 (March)  
 2020 annual fee: A\$29 400

#### Structure

16 credit points, including:

- 8 core units
- 2 curriculum study units in a first teaching method area
- 2 curriculum study units in a second teaching method area
- 0-credit-point academic integrity unit
- 4 credit points of specialisations units
- 2 zero-credit-point units for Literacy and Numeracy Testing for Initial Teacher Education (LANTITE).

#### Minimum entry requirements

Bachelor degree in a different discipline, including successful completion of major and minor studies in at least two curriculum areas recognised by Deakin University.

All applicants must complete an additional selection tool for non-academic attributes.

\* IELTS band score of 7 (with no band less than 7) and speaking and listening of 7.5.

# Master of Teaching English to Speakers of Other Languages

## Course overview

This degree is open to qualified professionals, including teachers and international graduates in the field of education and training. When you complete this course, you will be able to teach English to speakers of other languages in nearly any school or institution (dependent on what level of teaching you are qualified for – primary, secondary or other).

## Partnerships

Deakin has developed strong partnerships with education communities, governments and research institutions in Australia and overseas, particularly in Europe, the Asia-Pacific region and Latin America. The Centre for Teaching and Learning Languages (CTaLL) is a research group within the TESOL/Languages team at Deakin that develops these connections and serves as a forum for our students.

## Choose your path

Two streams are available as part of this degree:

Stream A is for teachers of any method who are registered or eligible for primary or secondary registration in Australia, and would like to add TESOL as a method or gain further recognition as a TESOL specialist. Qualified teachers who complete this course or its embedded graduate certificate can work in a wide range of professional contexts in Australia or internationally.

Stream B is for applicants who do not require Australian teacher recognition, such as those who teach or intend to teach English overseas, or work in adult education in Australia, including adult migrant programs or ELICOS (English Language Intensive Courses for Overseas Students).

## Course information

Course code: [E757](#)  
 Years (full time): [1.5](#)  
 Campus: [B](#)  
 Intake: T1 (March), T2 (July), T3 (November)  
 2020 annual fee: A\$31 000  
 IELTS score: 6.5/6

## Structure

12 credit points, including:

- 0-credit-point academic integrity unit
- 4 credit points from Stream A, OR
- 4 credit points from Stream B, PLUS
- 8 credit points of study as a combination of research and elective units in one of the following configurations:

### Option 1

- 2 credit points of research units,
- 6 credit points of electives.

### Option 2

- 6 credit points of research units,
- 2 credit points of electives.

## Minimum entry requirements

- Bachelor degree in education or a cognate field – for example linguistics, English studies, English translation – whether or not it is an initial teacher qualification, OR
- Bachelor degree in any discipline PLUS a graduate certificate or graduate diploma in education.

## Related programs

- Graduate Certificate of Teaching English to Speakers of Other Languages
- Graduate Certificate of Teaching English to Speakers of Other Languages (Education)

# Master of Engineering

Deakin's postgraduate engineering programs go beyond theory, offering strong industry links, state-of-the-art facilities and practical hands-on experience. You will build the critical and technical skills needed to expand your career opportunities.

## Outstanding facilities

As a Deakin engineering student, you will have world-class facilities and equipment at your fingertips. You will access the Centre for Advanced Design in Engineering Training (CADET) and the Geelong Future Economy Precinct (GFEP) – home to many innovative research centres. The GFEP provides unique resources and facilities for research aimed at industry cooperation and research application. CADET will give you access to world-class laboratory facilities, including AusNet Services engineering lab, 3D printing laboratory, high voltage lab, virtual reality laboratory, and more. You will have access to infrastructure facilities for design of buildings, transportation networks, water and wastewater systems.

## The right degree for you

Are you wondering which Deakin Engineering degree is right for you? The difference is in the entry requirements. The Master of Engineering requires a three-year degree (or equivalent) in a related engineering discipline for entry. Whereas the Master of Engineering (Professional) requires a four-year degree (or equivalent) in a related engineering discipline or membership of Engineers Australia. So the degree you choose will depend on your previous studies.

## Master of Engineering

The Master of Engineering assists you in acquiring advanced engineering skills and the forward-thinking, innovative and entrepreneurial skills employers are looking for, while strengthening and extending your understanding of engineering through the pursuit of a specialisation. This course will accelerate your career to become a professional engineer. Core technical skills, specialist units and a supervised project are combined with a 12-week work placement as a professional engineer.

## Course information

# Master of Health Economics

## Course information

Course code: **H704**  
 Years (full time): **1-2\***  
 Campus: **B C**  
 Intake: T1 (March), T2 (July)  
 2020 annual fee: A\$32 400  
 IELTS score: 6.5/6

## Structure

16 credit points, including:

- 7 core units
- 3 selective units
- 6 credit points of elective units.

## Minimum entry requirements

- Bachelor degree in any discipline, OR
- Other evidence of academic capability judged to be equivalent.

\* Degree duration depends on recognition for prior learning.

## Course overview

If you are a health professional or economist interested in furthering your knowledge of health economics in Australia and internationally, then this is the degree for you. Join the largest health economics team in Australia and begin to understand the complexities of the economics of health. The program prepares graduates for a range of areas – from nursing and pharmacy to commerce and public health – with specialist training in the application of health economics to health policy, health technology assessment and the healthcare system.

## Who we work with

Our students benefit from Deakin's partnerships with a range of federal and state government departments, national and international research institutes, universities and large national not-for-profit organisations. Some of our current collaborators include:

- Cancer Council Victoria
- Centre on Population Approaches for Non-Communicable Disease Prevention, Oxford University

# Master of Philosophy (Electromaterials)

## Course overview

As a student in the world-first Master of Philosophy (Electromaterials), your study will be hands-on, discovering new materials, using cutting-edge characterisation techniques and assembling new materials into electrochemical devices for applications in clean energy, health or advanced manufacturing. You will be working with leading researchers in electromaterials through the ARC Centre of Excellence for Electromaterials Science. Deakin and the University of Wollongong have teamed up to offer this unique opportunity. You will choose from a variety of research projects – anything from medical bionics to sustainable energy generation, robotic hands to solar water splitting and the next generation of battery designs. In addition, core units will be streamed live between the two campuses, so you won't miss out on anything.

## Highly sought-after graduates

The majority of engineers today are baby boomers: ready for retirement and creating an engineering skills shortage. As a result, roles in engineering are expected to rise by 429,000, or 17.3 per cent, in the next five years\* – placing you in prime position to slot into your dream career.

\* Australian Government's Industry Employment Predictions 2015 Report.

## Course information

Course code: **F801**  
 Years (full time): **2**  
 Campus: **B WP**  
 Intake: T1 (March), T2 (July), T3 (November)  
 2020 annual fee: A\$36 200  
 IELTS score: 6.5/6

## Structure

16 credit points, including:

- Year 1 – 2 core units, 2 elective units and Research Thesis unit (totalling 8 credit points)
- Year 2 – research project and thesis (totalling 8 credit points).

## Minimum entry requirements

Bachelor degree in the appropriate science, engineering, or information technology field that is aligned with the chosen specialisation in the Master of Philosophy. The undergraduate qualification must be equivalent to an Australian degree of at least three years of full-time study with a minimum weighted average mark (WAM) or grade point average (GPA) of 65% in the final year units/subjects.

## A leader in public health and economics

Deakin has been ranked in the Top 100 in the world for Public Health and is a leader in Finance and Economics. This means that you can be confident that your Deakin health economics degree will be respected by future employers.

# Master of Health and Human Services Management

## Course overview

Deakin's Master of Health and Human Services Management is suited to those interested in working in the sector, as well as those who currently hold senior positions in the industry. You will develop skills required for leadership and strategic planning, health needs assessment and evaluation, program planning and monitoring, resource and project management, and communication and negotiation.

The program allows you to choose elective study options that align with your career aspirations. Elective units can be chosen from specialty areas, such as health economics, public health research and business administration. You will also choose whether to focus on a research or coursework project, enabling you to construct a study program that best meets your interests.

## Career opportunities

Career opportunities for graduates exist in:

- government departments and agencies
- hospitals and primary healthcare services
- non-government organisations
- welfare organisations.

## Advance your career

The unique combination of units in this degree – from public health, economics, management and business administration – will help you develop your leadership and management skills in health. These skills are relevant in diverse areas, from hospitals through to disability services, and will give you an advantage when applying for jobs.

## Course information

- Other evidence of academic capability judged to be equivalent.

## Related programs

Graduate Diploma of Health Promotion

\* Degree duration depends on recognition for prior learning.

## Course overview

Preventing illness and promoting health are major aspects of the work of health agencies in all developed and developing countries. You will examine strategies that help people take action about their own health, strengthen community action and create environments that are more supportive of health. These include policy environments, physical environments, social environments and economic environments. Deakin's partnerships with local organisations give you access to cutting-edge health promotion practice and prepare you to develop attributes valued by employers, such as critical analysis, creativity, reflective practice and lifelong learning.

## Research partnerships

Should you choose to take part in research in the health promotion area, you will benefit from established partnerships with local industry, giving you access to cutting-edge health promotion practice. Some of our partnerships include:

- Barwon Health
- Cancer Council Victoria
- Country Fire Authority
- Diabetes Australia
- Heart Foundation
- VicHealth
- YMCA Australia.

# Master of Public Health

## Course information

Course code: **H757**  
 Years (full time): **1-2\***  
 Campus: **B C**  
 Intake: T1 (March), T2 (July)  
 2020 annual fee: A\$37 400  
 IELTS score: 6.5/6

## Structure

16 credit points, including:

- 8 core units
- 8 elective units.

## Minimum entry requirements

- Bachelor degree in any discipline, OR
- Other evidence of academic capability judged to be equivalent.

\* Degree duration depends on recognition for prior learning.

## Course overview

Are you interested in developing health-promoting environments, identifying public health priorities, generating initiatives for policy and action, and developing interventions that ensure equity in the health system? Then our Master of Public Health is for you. This course will help you develop an understanding of global public health challenges. You will learn strategies and practical techniques to take action on these challenges, prevent diseases, and promote the conditions that optimise population health. Many students study this course to progress in their current roles or to obtain senior positions. The degree is ideal for both clinical and non-clinical health professionals, as well as graduates from a wide range of other fields who are looking for 'bigger picture' approaches to enhancing the health of individuals, communities and populations.

## Career pathways

Career pathways are offered in six areas:

- applied research
- health promotion
- public health practice
- health economics and management
- environments for health
- public health nutrition.

# Master of Arts (International Relations)

## Course overview

Through Deakin's Master of Arts (International Relations) you will learn how international forces shape your environment, develop skills in policy analysis, and get a systematic understanding of the threats to peace and security and the global forces shaping political, social and economic life. Examine key issues and developments around the world, particularly in the Asia-Pacific region. This degree is ideal for those that work in public service, the private sector, a large multinational company or a small business looking to expand internationally.

## Specialisations

Asia-Pacific regional dynamics **B C**  
 Conflict and security **B C**  
 Human rights and international law **B C**  
 International political economy and global governance **B C**  
 Transnational activism and civil society **B C**

## Top 1% for Politics and International Studies

Deakin has been ranked in the Top 1% of all universities worldwide for Politics and International Studies by QS. These rankings assess research output, international collaboration and impact.

 IELTS score: 6.5/6

## Minimum entry requirements

- Bachelor degree in any discipline, OR
- Other evidence of academic capability judged to be equivalent.

## Related programs

- Graduate Diploma of Museum Studies
- Graduate Certificate of Museum Studies

\* A shorter course duration may be available to those who have completed previous studies in a similar discipline or with relevant work experience. Please visit the course page on the Deakin website for more details.

## Structure

16 credit points, including:

- 0-credit-point academic integrity unit
- 6 core units
- 10 credit points of study combining research and elective units in one of the following configurations:

### Option 1: Dissertation

- 2 credit points of research training
- 4 credit point independent research project
- 4 credit points of Cultural Heritage and Museum Studies electives.

### Option 2: Research Paper

- 2 credit points of research training
- 2 credit point independent research project
- 6 credit points of Cultural Heritage and Museum Studies electives.

### Option 3: Research Project

- 1 credit point research training
- 8 credit points of Cultural Heritage and Museum Studies electives
- 1 credit point independent research project.

## Course overview

Develop the skills and experience to make a difference in the cultural heritage sector. Whether you are a mid-career professional consolidating your practical experience, are looking for a change in career, or are a recent graduate who would like to work in museums or heritage organisations, Deakin's Master in Cultural Heritage provides a pathway into employment in this diverse and exciting field. You may want to work with collections; manage a museum or heritage site; or protect and interpret significant sites, landscapes or intangible cultural heritage. Through this program, you will learn about heritage principles and practice across many disciplines.

## Dual award program

Deakin has partnered with the Brandenburg University of Technology (BTU) in Cottbus-Senftenberg, Germany, to deliver a dual-award program. The program results in two degrees: Deakin's Master of Cultural Heritage and BTU's Master of World Heritage. The aim of the program is to educate museum and heritage management specialists with cross-sectoral knowledge. Graduates can identify, assess, protect, manage and promote cultural heritage objects, collections, sites and archives, with a focus on intangible heritage knowledge and practices. A group internship in Melbourne and a study project in Cottbus are built into the program, underlining the development of teamwork talents in an industry environment.

To learn more about this program visit [deakin.edu.au/post-humanities](http://deakin.edu.au/post-humanities).

# Master of Development and Humanitarian Action

## Course information

Course code: **A705**  
 Years (part time): **2**  
 Campus: **C**  
 Intake: T1 (March), T2 (July), T3 (November)  
 2020 annual fee: A\$12 600  
 IELTS score: 6.5/6

## Structure

8 credit points and a 0-credit-point academic integrity unit. All units are core units.

## Minimum entry requirements

- Bachelor honours degree in a related discipline
- Bachelor degree in a related discipline, PLUS two years relevant work experience
- Graduate certificate or graduate diploma in a related discipline.

## Related programs

Graduate Certificate of Development and Humanitarian Action

## Course overview

Natural disasters, poverty, injustice, conflict: all around the world, the environment in which development and humanitarian workers find themselves is more complex than ever. This course – developed in association with Save the Children – builds a unique, global platform where development and humanitarian practitioners and academics can share knowledge and experience. It has a focus on improving leadership, preparedness and response capacities to national and international emergencies and developmental issues. Deakin's Master of Development and Humanitarian Action provides you with the analytical skills needed to understand the contexts of development and humanitarian programs, as well as practical skills to apply in the field.

## Trial this course on FutureLearn

The coursework units of the Master of Development and Humanitarian Action are delivered on FutureLearn: a highly flexible, easy-to-use online learning platform that connects you with practitioners and Deakin students from all over the world for a truly global perspective.

Units delivered on FutureLearn are broken down into easily manageable two-week blocks, allowing you to gain an insight into what the degree has to offer. The first two-week block of this course is delivered for free, meaning you can get a taste for Deakin's world-class education before deciding to continue on to complete the program.

## Celebrating 40 years

This year Deakin is celebrating 40 years of offering cultural heritage and museum studies. Over this time, our graduates have gone on to make a difference in the sector, and this highlights the quality and prestige of our programs.

# Master of Humanitarian Assistance

## Course information

Course code: **A767**  
 Years (full time): **1\***  
 Campus: **B** **C**  
 Intake: T1 (March), T2 (July), T3 (November)  
 2020 annual fee: A\$27 000  
 IELTS score: 6.5/6

## Structure

8 credit points, including:

- 4 credit points of core units
- 4 credit points of a combination of research and elective units
- 0-credit-point integrity unit.

## Minimum entry requirements

- Bachelor degree in any discipline, OR
- Other evidence of academic capability judged to be equivalent

\* International students studying in Australia may package the Master of Humanitarian Assistance with the Graduate Diploma of Humanitarian Assistance for a total duration of 2 years.

## Course overview

Deakin's Master of Humanitarian Assistance is the first course of its kind in the Asia-Pacific region. This degree will provide you with a unique combination of theory, practice and reflection using cloud-based and intensive located modes of learning. Combined with action-based research and field experience, the Master of Humanitarian Assistance enables students to be better equipped, effective and highly skilled practitioners in the sector. Specialisations in Public Health, International Relations and Development are also possible.

## Partnerships

You will capitalise on Deakin's strong partnerships with relevant international non-government organisations (NGOs), United Nations agencies, other locally-based NGOs, government agencies such as Australian Department of Foreign Affairs and Trade, and other relevant stakeholders in the sector.

## Centre for Humanitarian Leadership

Almost 68.5 million people are displaced around the world due to conflict and disaster, and with the severity and frequency of disasters increasing, the humanitarian sector is facing significant challenges. This is why Deakin University – in partnership with Save the Children Australia – established the Centre for Humanitarian Leadership. Through teaching, research, policy development and innovation for the humanitarian sector, the centre better serves communities affected by crisis with more responsive, efficient and relevant actions. The centre enables Deakin students to learn from those with real and practical experience in the humanitarian field.

# Master of International and Community Development

## Course overview

Effective development promotes justice, reduces poverty and builds environments so that people can lead fulfilling lives. Development programs and project work for poverty reduction are major areas of professional employment. If you are looking to develop your career in international and/or community development, or are looking to gain work in the sector, Deakin provides the right industry links and connections from within the field to give you a head start. As part of this course, you will undertake research in a relevant area, and will develop a good balance of theoretical knowledge and practical skills to allow you to undertake projects that benefit the communities in which you work.

## Career opportunities

If compassion motivates you, advance your existing career by gaining relevant, skills-based, theoretically sound professional qualifications. This will help you complete project work and reduce poverty in local and international communities. Career opportunities could include working in:

- government agencies
- international development organisations
- non-government organisations
- community-based organisations
- internationally oriented businesses.

## Course information

# Master of Politics and Policy

## Course overview

Prepare to tackle current social and political challenges – such as gender equality and asylum seekers – by building your media campaigning skills and engaging in lively discussions. Deakin's Master of Politics and Policy focuses on the development, implementation and politics of public policy. Explore our role as citizens; the nature of diverse ideologies; and the close relations between government, the private sector and community organisations.

With a dual focus on politics and public policy, Deakin offers a wide range of units to appeal to public sector, business, NGO and community sector managers and leaders, and those wishing to move into this area. You will undertake practical training focused on the relations between government, the private sector and community organisations, and between different levels of government.

## We're one of the best

Deakin is ranked in the Top 1% of universities worldwide for Politics and International Studies (2019 QS Subject Rankings).

## Career opportunities

Our graduates gain employment in many fields, including:

- business
- foreign affairs
- government organisations
- intelligence and security
- journalism
- policy advocacy, design, analysis and research
- politics
- public relations and lobbying
- public service
- speechwriting
- teaching.

# Graduate Certificate of Humanitarian Health

## Course overview

Identify and manage the health needs and issues that emerge in a variety of environments. You can build upon your existing knowledge or delve into an entirely new area through Deakin's humanitarian health program, and work towards helping those in humanitarian crises.

The Graduate Certificate in Humanitarian Health will equip health professionals with the essential knowledge and skills to identify and manage the public and clinical health needs and issues that emerge in complex humanitarian contexts and low-resource environments. This course is an online, part-time program that incorporates a unique mix of theory, practice and reflection. You will learn from experts, leaders, thinkers and researchers from within the humanitarian sector, all through Deakin's innovative online Cloud Campus.

## Course information

Course code: **A590**  
 Years (full time): **0.5**  
 Campus: **C**  
 Intake: T1 (March), T2 (July), T3 (November)  
 2020 annual fee: A\$11 600  
 IELTS score: 6.5/6

## Structure

4 credit points and a 0-credit-point academic integrity unit. All units are core units.

## Minimum entry requirements

- Bachelor degree in any discipline OR
- At least three years of relevant work experience (or part-time equivalent).

## Humanitarian Health Scholarship

You may be eligible to apply for Deakin's Humanitarian Health Scholarship. A fee reduction of between 50% and 100% is available only to international students. It could provide you with financial support while studying this degree. Eligibility criteria apply.

# Master of Cyber Security

Deakin offers two postgraduate cyber security programs, and both allow you to gain the skills to understand cyber issues and ways to identify, diagnose and resolve these challenges.

## Replicate cyber attacks

Deakin's cyber security learning spaces use specialised software to enable practice of real-world cyber attack and response scenarios. You will get the chance to reflect on the need for cyber security in a working environment, and the various solutions that might apply.

## Centre for Cyber Security Research and Innovation

Deakin's Centre for Cyber Security Research and Innovation (CSRI) develops innovative technologies and methodologies for securing cyberspace in Australia and beyond. Engaging directly with industry and governments through collaborative research projects, CSRI provides protection from major cyber security threats. CSRI models and informs policy development in addition to raising cyber-safety awareness. Deakin students have access to the latest research and expert academics through this centre.

## Identify, diagnose and analyse

By studying cyber security at Deakin you will become skilled in identifying, diagnosing, analysing and handling the challenges of:

- computer crime and digital forensics
- evaluating software for security vulnerabilities
- performing risk assessments
- designing and securing operating systems, networks, websites and databases
- responding to cyber security incidents
- integrating security requirements into new developments.

## Master of Cyber Security

Cyber attacks occur everyday, and cyber security professionals who can protect organisations from such threats are in high demand. The Master of Cyber Security gives you the cyber security skills that are crucial to the success of our digital future, focusing on a range of studies, from system security and digital forensics to analytics and organisational security.

### Course information

Course code: **5734**  
 Years (full time): **1-2\***  
 Campus: **WP**  
 Intake: T1 (March), T2 (July)  
 2020 annual fee: A\$35 000  
 IELTS score: 6.5/6

### Structure

16 credit points, depending on your professional experience and previous qualifications. The course is structured in three parts:

- Part A. Fundamental Information Technology Studies (4 credit points),
- Part B. Introductory Cyber Security Studies (4 credit points), and
- Part C. Mastery Cyber Security Studies (8 credit points).

### Minimum entry requirements

Bachelor degree in any discipline.

### Exit options

- Graduate Certificate of Cyber Security
- Graduate Diploma of Cyber Security
- Graduate Certificate of Information Technology

\* Students entering the degree with a relevant academic qualification or relevant professional experience may be eligible to reduce the full-time duration from 2 years to 1 year. Visit our website for more information.

## Master of Cyber Security (Professional)

The Master of Cyber Security (Professional) will give you a solid understanding of cyber security concepts and industry practices, as well as the techniques and tools available to prevent and mitigate cyber security threats. You will also have the option of undertaking a research project or a work placement as part of your degree.

### Course information

### Structure

16 credit points, including:

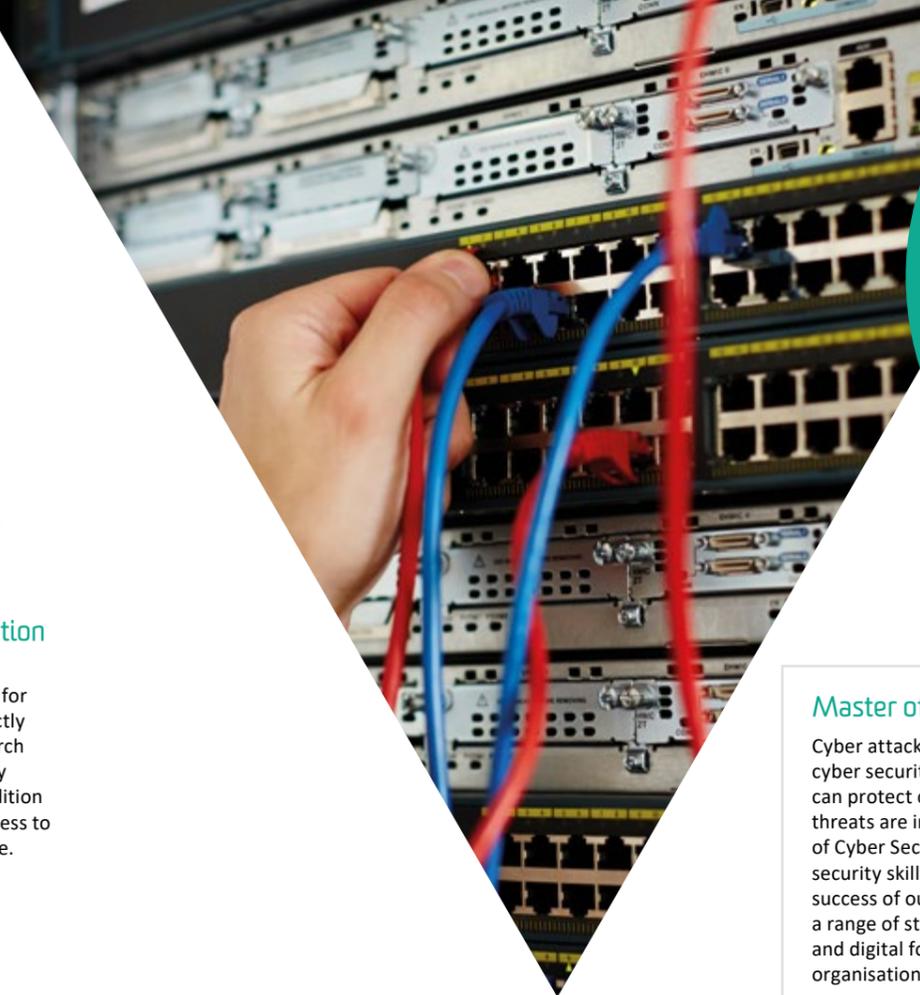

- 10 core units
- 2 course-grouped elective units
- 4 credit points from a specified list
- 0-credit-point elective unit.

### Minimum entry requirements

- Bachelor degree in related discipline, OR
- Graduate Certificate of Information Technology or equivalent.

### Exit options

- Graduate Certificate of Cyber Security
- Graduate Diploma of Cyber Security

# Master of Information Systems

## Course overview

The mass introduction of social media, advances in new technologies, and the accumulation of large amounts of data has made information central to many aspects of business. Deakin's Master of Information Systems focuses on the strategic use of information in business, supported by an understanding of specific areas of information systems, particularly information security, supply chain management, and project management. You will learn about stakeholder analysis; identification of business needs, problems and opportunities; negotiation; and implementing solutions.

## How are information technology and information systems different?

Information technology is a hands-on discipline that uses different tools, processes and methodologies to develop solutions and address problems using technology. Information systems is the business side of technology, and it focuses on the way people and organisations use technology to enhance their businesses and lives.

## Accreditation

Deakin's information systems degrees are accredited by the Australian Computer Society (ACS), offering you international and national recognition.

# Master of Data Science

## Course information

Course code: **S777**  
 Years (full time): **1-2\***  
 Campus: **B C**  
 Intake: T1 (March), T2 (July), T3 (November)

- Part B. Introductory Data Science Studies (4 credit points), and
- Part C. Mastery of Data Science Studies (8 credit points).

## Minimum entry requirements

- Bachelor degree or other qualification in any discipline; OR
- Evidence of academic capability judged to be equivalent.

## Exit option

- Graduate Diploma of Data Science
- Graduate Certificate of Data Science
- Graduate Certificate of Data Analytics

\* Students entering the degree with a relevant academic qualification or relevant professional experience may be eligible to reduce the full-time duration from 2 years to 1 year. Visit our website for more information.

## Course overview

Do you want to become invaluable to businesses and governments around the world? Learn how to extract insights and value from big data by studying data science at Deakin. You will propel to the forefront of this rapidly growing industry.

Deakin's Master of Data Science prepares you for professional employment across all sectors. The sheer volume and complexity of data already at the fingertips of businesses and research organisations gives rise to challenges that must be solved by tomorrow's graduates. Become a data science specialist capable of using data to gain insights and support decision making.

Modern organisations are placing increasing emphasis on the use of data to inform day-to-day operations and long-term strategic decisions. This degree equips you with skills in data engineering, statistical modelling, and building machine learning solutions. In addition to these essential foundations, you will also be exposed to cutting-edge techniques, such as deep learning – a machine learning technique that teaches computers to learn by example.

## Among the best

- Graduate Certificate of Information Technology or equivalent

# Master of Laws (LLM)

## Course overview

Deakin's Master of Laws focuses on international commercial law and corporate regulation. It will equip you with knowledge of important areas of the Australian and international legal systems and recent professional practice developments. The LLM covers new developments in major areas of human activity (health, financial services, corporate governance), and increased regulation in traditional areas (dispute resolution, human rights, tax) to prepare you for an advanced legal career. It also develops research, analytical, evaluative and communication skills.

## Highly ranked

Deakin's law programs are ranked in the Top 100 worldwide by ShanghaiRankings. This means your Deakin LLM will be respected by employers, providing you with better career opportunities upon graduation.

## Venture law clinic

Deakin Law School offers opportunities to gain extra legal experience through its Venture Law Clinic. The clinic enables students to turn classroom theory into practice through unique practical learning. Under academic supervision, you can work with real clients and have the opportunity to interview entrepreneurs, conduct research in order to solve problems, and provide advice with practicing lawyers.

Through the clinic, you will put your commercial or regulatory knowledge to the test in exciting real-world scenarios. It's your chance to develop your skills to enhance your career position and build confidence in the knowledge acquired through your LLM experience.

8 credit points, including:

- 4 core units
- 4 elective units from a specified list
- 0-credit-point academic integrity unit.

## Minimum entry requirements

- Honours degree or equivalent in the same discipline, OR
- Bachelor degree or equivalent in the same discipline PLUS two years relevant work experience.

# Doctor of Medicine (MD)

## Course information

Course code: **H911**  
 Years (full time): **4**  
 Campus: **WP**  
 Intake: **M1**  
 2020 annual fee: **A\$70 800**  
 IELTS score: **7/7**

## Structure

32 credit points. All units are core units.

## Minimum entry requirements

- Relevant bachelor degree completed no more than 10 years before the course commencement date, with a final GPA (weighted) of 5.0 or greater on a 7.0 minimum GPA scale, AND EITHER:
- GAMSAT: A minimum score of 50 in each of the three sections of the GAMSAT, and an overall score of 50 or greater, OR
- MCAT: A score of 125 or greater in each of the four sections of the Medical College Admission Test (MCAT). The score on the MCAT or GAMSAT must be obtained in the two years preceding the year of application, PLUS
- Successful completion of an interview.

## Related programs

Graduate Certificate of Hospital Administration

\* The Doctor of Medicine operates on a medicine semester system.

## Course overview

Studying an MD at Deakin prepares you for a career in all areas of medicine. It is a four-year program for students wishing to qualify as medical practitioners. With a rural and regional medical focus, you will learn about anatomy, physiology and pathology, plus clinical procedural skills, public health issues and managing chronic diseases. There is also a focus on the early development of clinical, communication and procedural skills; diagnosis and management of chronic diseases; and multidisciplinary teamwork.

## The four themes of the Deakin MD

Deakin's Doctor of Medicine has three key themes that structure the program's curriculum and focus:

- **Medical Science and Clinical Practice:** The biological and behavioural sciences underpinning the practice of medicine, and the clinical skills required to practise medicine.
- **Public Health Medicine:** A broad theme that includes biostatistics and epidemiology, population and public health, health systems, and the effect of culture on health, particularly Indigenous health.
- **Ethics, Law and Professionalism:** The ethical, professional and legal bases of medical practice.

## Clinical placements

You will study at Deakin's Geelong Warrn Ponds for the first two years, learning through problem-based seminars and practical classes. You will have clinical exposure in laboratories, hospitals and other health services. During Year 3 most students undergo intensive clinical training within health services based at public and private hospitals and general practices in Geelong, Warrnambool, Ballarat or Melbourne. A small cohort will attend Deakin's Rural Community Clinical School (RCCS), where they will be based in general practice clinics in South West Victoria. In Year 4, students continue clinical training within the health services, complete the research scholar program and finish the year with a capstone pre-internship rotation.

## 100% graduate employment

The Doctor of Medicine saw 100% of its 2016 and 2017 graduates find employment. This shows that the course meets industry demands and is well respected by employers. To add to this, Deakin's medicine programs are among the best in the world. Deakin has been ranked in the Top 250 universities worldwide for medicine by QS.

# Graduate Certificate of Agricultural Health and Medicine

## Course overview

Learn how to care for people in rural areas living with physical and mental health issues. As a graduate of this program you will be empowered to improve and genuinely make a difference to agricultural workforces and communities. The course focuses on the physical and mental health issues encountered by people within the agricultural industry. You will explore what influences higher rates of morbidity and mortality in rural and remote areas, and what influences successful health policies and safety intervention programs. By understanding these issues, along with learning the impact of poor health on agribusiness, agricultural production and sustainability, you will be placed to make a significant difference in agricultural communities.

## Professional recognition

The Graduate Certificate of Agricultural Health and Medicine is recognised by Agrisafe Australia and allows you to register as an Agrisafe practitioner. The course also offers continuing education and professional development after graduation with the:

- Australian Association of Social Workers
- Australian College of Rural and Remote Medicine
- Australian Veterinary Association
- Royal Australian College of General Practitioners.

## Course information

Course code: **H522**  
 Years (part time): **1**  
 Campus: **C**  
 Intake: **T1 (March), T2 (July)**  
 2020 annual fee: **A\$15 300**  
 IELTS score: **6.5/6**

## Structure

4 credit points, including:

- 2 credit point minor research project, OR
- 2 credit points from the course-grouped electives in the coursework stream.

## Minimum entry requirements

- Bachelor degree in any discipline, OR
- At least three years of relevant work experience (or part-time equivalent).

\* Due to Australian Government regulations, student visas to enter Australia cannot be issued to students who enrol in Deakin's Cloud Campus. To participate in the mandatory campus-based scheduled sessions, it is suggested that you apply for a tourist visa to enter Australia. Please be advised that Deakin University cannot guarantee that you will be granted a tourist visa by the Australian Government.

## Career opportunities

- agricultural productivity
- health management
- health promotion
- health service provision
- rural policy
- rural research
- sustainability

# Graduate Certificate of Diabetes Education

## Course information

Course code: **H520**  
 Years (full time): **1**  
 Campus: **C**  
 Intake: T1 (March)  
 2020 annual fee: A\$23 600  
 IELTS score: 6.5/6

## Structure

4 core units equal to four credit points.

## Minimum entry requirements

- Three-year undergraduate health-related degree, or equivalent, from an approved university or other educational institution, OR
- Successful completion of other equivalent qualifications in health gained by examination, OR
- At least two years of relevant professional experience.

\* As this course is conducted via the Cloud Campus (online), it does not meet requirements for obtaining a student visa to study onshore.

## Course overview

Develop the skills, knowledge and attributes to educate people with diabetes. As one of the fastest-growing public health issues in the world, diabetes is a field in need of more qualified health professionals and subject matter experts. The Graduate Certificate of Diabetes Education is considered a benchmark course in the health sector, preparing health professionals for specialty practice in diabetes education. Teaching staff address both disease prevention and disease management. The degree is solution-focused with the goal of transferring knowledge gained from research findings to inform policy, practice and teaching. On completion of this program, you will be eligible to apply to continue your studies in Deakin's Master of Nursing Practice.

## Flexible delivery

The coursework units in this program are delivered on FutureLearn – a highly flexible, easy-to-use online learning platform that connects you with Deakin students and practitioners from all corners of the world.

## Study with the best

Deakin is ranked 28th in the world for nursing (2019 QS Subject Rankings). This prestigious ranking is based on academic reputation, employer reputation and research impact, and showcase the strength of Deakin's School of Nursing and Midwifery and its programs.

# Master of Nursing Practice

## Course overview

Strengthen your knowledge of nursing and progress your career as a registered nurse. Studying at the masters level will further develop your nursing skills to solve complex problems, think critically, and take on new roles. Deakin's Master of Nursing Practice was designed in response to industry and professional demand to increase the number of masters-qualified registered nurses in the workforce. The program aims to broaden the knowledge and skills of registered nurses who work in a variety of healthcare settings. It recognises that graduates should be able to practise in ways that extend beyond the technical and practical concerns of nursing to include research-based practice. The degree is designed to allow you to choose from a range of study pathways that support your career aspirations in nursing management and governance, and clinical education and leadership.

## Course information

Course code: **H771**  
 Years (full time): **1.5**  
 Campus: **C**  
 Intake: T1 (March), T2 (July)  
 2020 annual fee: A\$33 800  
 IELTS score: 6.5/6

## Structure

12 credit points, including one compulsory coursework unit in research methods, designed to ensure students develop research skills. Students have the option of completing a masters by Minor Thesis or Coursework.

## Minimum entry requirements

- Applicants should be overseas qualified nurses, holding a bachelor degree in nursing, or equivalent approved qualification.
- Evidence of nursing registration with an authority equivalent to the Australian Health Practitioner Regulation Agency (AHPRA) is required.
- Applicants should also have had a minimum of 12 months' recent clinical experience.

\* As this course is conducted via the Cloud Campus (online), it does not meet requirements for obtaining a student visa to study onshore.

## Aligning course content with industry

The Graduate Certificate of Diabetes Education is the first and longest-running course of its type in Australia, and has a unique teaching partnership with diabetes clinicians Australia-wide. This ensures an alignment between the course curriculum and current clinical and evidence-based practice.

# Master of Dietetics

## Course overview

Help people understand the relationship between healthy eating and the prevention and treatment of illness and disease. The Master of Dietetics will enable you to work in areas such as hospitals, private practice, public health, sport and media. It is a professional training program that builds on your undergraduate knowledge in nutrition, physiology and biochemistry to develop skills in dietary management of individuals and groups in both health and disease.

## Practical experience

Full-time professional practice placements provide you with hands-on experience in clinical, community and food service settings. You will also develop research and communication skills through group projects and undertake professional and career development through a dietetics-specific professional practice unit.

## Professional recognition

The Master of Dietetics is accredited by the Dietitians Association of Australia (DAA). Graduates are eligible for full membership of the DAA and the Accredited Practising Dietitian (APD) program, and to work in all areas of dietetics.

## Key industry partnerships

Deakin's nutrition and dietetics research and teaching is done in collaboration with major industry and non-government partners. The School of Exercise and Nutrition Sciences also has numerous clinical and community dietetics placement partnerships. These ensure that you have access to some of the largest and most well-respected teaching hospitals and community health services in Melbourne.

## Course information

Course code: **H718**  
 Years (full time): **1.5**  
 Campus: **B**  
 Intake: **S1**<sup>\*</sup>  
 2020 annual fee: A\$43 000  
 IELTS score: 7/7

## Structure

12 credit points. All units are core units.

## Minimum entry requirements

Three-year bachelor degree or equivalent in a relevant cognate area (for example: science, health sciences, nutrition, food science, exercise science, biomedical science, allied health or nursing) completed within the last 10 years from an approved university or other educational institution.

Students who have completed an undergraduate degree in a relevant cognate area must demonstrate learning in Human Biosciences and Food and Nutrition Science as described below:

- Biochemistry content with Chemistry (0.25 EFTSL<sup>†</sup>) followed by Biochemistry (0.25 EFTSL<sup>†</sup>);
- Human Physiology content with Human Biology (0.25 EFTSL<sup>†</sup>) followed by Human Physiology (0.25 EFTSL<sup>†</sup>).

Applicants are also required to have completed at least 4 units (equivalent to 4 Deakin credit points) of nutrition and food science study covering content relating to principles of nutrition, lifespan nutrition, diet, and disease and food science.

<sup>\*</sup> Unlike most Deakin courses, the Master of Dietetics operates on a semester system.  
<sup>†</sup> EFTSL refers to a full-time study load for a single term. 0.25 EFTSL is typically equivalent to two units of study.

# Master of Human Nutrition

## Course overview

Learn the skills to work effectively as a nutritionist in a range of employment settings. Deakin's Master of Human Nutrition draws on multiple disciplines, including food science, physiology, epidemiology, psychology and sociology. You will develop an advanced understanding of the role of nutrition and diet in the health of individuals and the population. You will also learn about the biological, social and policy-related aspects of human nutrition, along with skills to evaluate the findings of human nutrition studies and undertake research. This degree provides you with the opportunity to undertake a diverse range of electives from 13 different options, giving you the ability to pursue topics that align with your interests and career goals. You will also gain experience in either quantitative or qualitative methods by completing a research project, giving you a thorough overview and understanding of the research process.

## Professional recognition

As a Master of Human Nutrition graduate, you may be eligible for registration as an associate nutritionist through the Nutrition Society of Australia (NSA).<sup>\*</sup> Following three years of relevant work experience, associate nutritionists are able to apply for registered nutritionist status.

<sup>\*</sup> Registration with NSA does not authorise registrants to obtain provider numbers with Medicare or private health insurers.

## Course information

Course code: **H714**  
 Years (full time): **1.5**  
 Campus: **C**  
 Intake: T1 (March), T2 (July), T3 (November)  
 2020 annual fee: A\$36 200  
 IELTS score: 6.5/6

## Structure

12 credit points, including 6 core units, PLUS one of the following options:

### Option A:

- HSN753 Research Practice in Human Nutrition, and
- 5 elective units<sup>\*</sup>.

### Option B (research focus):

- HSN750 Nutrition Research Project Part A (2 credit points), and
- HSN751 Nutrition Research Project Part B (2 credit points), and
- 2 elective units<sup>\*</sup>.

## Minimum entry requirements

- Bachelor degree in a related discipline from an approved university or other educational institution, OR
- Completion of a bachelor degree in any discipline PLUS two years relevant work experience.

## Related programs

- Graduate Diploma of Human Nutrition
- Graduate Certificate of Human Nutrition

<sup>\*</sup> Up to 2 elective credit points may be chosen from postgraduate units offered by any faculty of the University (subject to unit rules and approval by the Course Director).

## Over 40 years teaching dietetics

Deakin was one of the first universities in Australia to offer a course in dietetics, and has been proudly offering the Dietitians Association of Australia-accredited courses for more than 40 years.

# Master of Nutrition and Population Health

## Course overview

If you are interested in helping communities through improved nutrition, this is the degree for you. Advance your qualification and equip yourself with the skills and knowledge required to work across a range of government, industry and community health sectors, with a focus on nutrition and how it relates to public health.

This advanced degree in human nutrition draws content from related disciplines, such as public health, food science, biochemistry, physiology, epidemiology, psychology, sociology, and politics and policy.

Throughout the degree you will complete 16 diverse units, and will develop an understanding of the biological, social and policy-related aspects of human and public health nutrition.

## Accreditation

As a graduate of this program you may be eligible for registration as an associate nutritionist through the Nutrition Society of Australia (NSA).<sup>\*</sup> Following three years of relevant work experience, associate nutritionists are able to apply for registered nutritionist status.

## Career opportunities

Graduates can become qualified nutritionists who design, coordinate, implement and evaluate a range of population nutrition interventions to improve the wellbeing of individuals, communities and the population as a whole. You may find opportunities in a wide range of nutrition positions in government departments, non-government organisations, community sector agencies, the food industry and private consulting.

<sup>\*</sup> Registration with NSA does not authorise registrants to obtain provider numbers with Medicare or private health insurers.

## Course information

Course code: **H748**  
 Years (full time): **2**  
 Campus: **B**

 2020 annual fee: A\$36 400  
 IELTS score: 6.5/6

## Structure

16 credit points. All units are core units.

## Minimum entry requirements

Three-year bachelor degree or postgraduate degree in any discipline, or equivalent qualifications from an approved university or other educational institution.

# Your pathway to becoming a registered psychologist

To study a master or doctor of psychology at Deakin, you need to have successfully completed a four-year sequence of study. With many psychology bachelor degrees being three years in duration, Deakin offers two programs that will gain you entry into postgraduate psychology studies, which – upon successful completion – will allow you to register as a psychologist.

## Provisional registration

If you would like to become a psychologist, you will need to undertake at least four years of academic study: an approved three-year undergraduate course, plus either an honours year or the Graduate Diploma of Psychology. You can then register as a provisional psychologist while you undertake a minimum of two years further training to achieve general registration as a psychologist. Currently, these two years can be done as an approved internship under the supervision of a registered psychologist, or as a two- or four-year postgraduate degree (a Master or Doctor of Psychology) that incorporates clinical work experience and coursework. You must be a registered psychologist to practice as a psychologist and to use the title of psychologist.

## Graduate Diploma of Psychology

If you are a psychology graduate, undertake an additional year of study to get registered as a provisional psychologist. Successful completion of this course means you will receive provisional registration with the Psychology Board of Australia and associate membership of the Australian Psychological Society. The program will allow you to undertake both coursework and a research project, further developing your ability to critically evaluate theory and empirical studies. You will learn advanced skills in research design, implementation, analysis and reporting, as well as developing your understanding of professional responsibilities, standards of performance, and ethical issues.

You will also learn advanced skills in research design, implementation, analysis and reporting, and develop your understanding of professional responsibilities, standards of performance, and ethical issues. On completion, you can pursue general registration as a psychologist by completing a masters or doctorate that includes work placement, or supervised work for two years. If you choose not to pursue general registration, you will still be highly employable in a variety of settings and roles, including social work, business and more.

## Course information

Course code: **H650**  
 Years (full time): **1**  
 Campus: **B** **WF**  
 Intake: T1 (March)  
 2020 annual fee: A\$33 200  
 IELTS score: 6.5/6

## Structure

8 credit points. All units are core units.

## Minimum entry requirements

Three-year bachelor degree in psychology or equivalent.

## Further studies

- Master of Psychology (Clinical)
- Master of Psychology (Organisational)
- Doctor of Psychology

## Graduate Diploma of Psychological Science\*

This degree allows students with an undergraduate degree in another discipline to fast track their journey towards a career in psychology, without having to undertake another three-year undergraduate course. You will explore human behaviour, social development, the human mind, child and adolescent development, psychopathology, and much more. Graduates who choose not to undertake the further study required for general registration as a psychologist are still highly employable in a variety of settings and roles. These include the public sector and statutory bodies; health and human services; community welfare and case management; not-for-profit aid; social work; and business (e.g. human resources, market research, marketing and communications).

## Course information

Course code: **H603**  
 Years (full time): **1**<sup>†</sup>  
 Campus: **B** **WP** **C**  
 Intake: T1 (March), T2 (July), T3 (November)  
 2020 annual fee: A\$41 500<sup>#</sup>  
 IELTS score: 6.5/6

## Structure

10 credit points. All units are core units.

## Minimum entry requirements

Three-year bachelor degree from a discipline other than psychology.

## Further studies

- Master of Psychology (Clinical)
- Master of Psychology (Organisational)
- Doctor of Psychology
- Graduate Diploma of Psychology

<sup>\*</sup> This course will only be offered to international students subject to Australian Psychology Accreditation Council (APAC) accreditation assessment in 2019.

<sup>†</sup> This degree is a one-year accelerated full-time program delivered over three consecutive trimesters. This means you will study three trimesters in the one year.

<sup>#</sup> The 2020 course fee is for 10 credit points over three trimesters of full-time study in a single calendar year.

See the next page to learn more about Deakin's masters qualifications in psychology. These degrees are your next step to becoming a registered psychologist.

**Learn from the best**  
 Deakin's psychology programs are ranked in the global Top 200 universities by QS. That means we are in the Top 1%, so you can be confident that your Deakin psychology degree will be respected by prospective employers.

# Master of Psychology (Clinical)

## Course overview

Be ready for a career in psychology and become a specialist in the diagnosis and treatment of psychological and mental health conditions. Deakin's Master of Psychology (Clinical) was designed in consultation with industry partners, and is based on an integrative approach to clinical psychology that emphasises evidence-based practice. Streams of theory, research and practice provide the skills needed to become a registered psychologist.

## Accreditation

This course is accredited by the Australian Psychology Accreditation Council (APAC), and recognised by Psychology Board of Australia, the Australian Psychological Society (APS) and its College of Clinical Psychologists.

## Practical learning

Through our clinical training programs, you will have opportunities to develop skills with our public mental health partners and through placements with community agencies. This lets you put your academic knowledge into real-life application.

## Professional recognition

On completion of this course, graduates may apply to the Psychology Board of Australia for registration as a psychologist and to the Australian Psychological Society (APS) for full membership. To obtain endorsement in the clinical area of specialisation, graduates are required to complete two years of approved supervised practice and fulfil professional development requirements.

## Course information

Course code: **H750**  
 Years (full time): **2**  
 Campus: **B** **WF**  
 Intake: T1 (March)  
 2020 annual fee: A\$35 200  
 IELTS score: 7/7

## Structure

16 credit points. All units are core units.

## Minimum entry requirements

Four-year sequence of study in an accredited psychology program that meets national registration requirements and eligibility for Associate Membership of the Australian Psychological Society, or equivalent. The four-year sequence may be either an honours program or the combination of a three-year undergraduate degree, including a psychology major, and an approved postgraduate program.

## Related programs

Graduate Diploma of Psychology

# Master of Psychology (Organisational)

## Course overview

Work with organisations, teams and individual employees to improve their performance and increase effectiveness in the workplace. Through Deakin's Master of Psychology (Organisational) you will have the ability to analyse organisations and their people, and devise strategies to recruit, motivate, develop, change and inspire. The program has very strong research, placement and consulting connections with a large number of external organisations. It will equip you with the skills required for accreditation and registration, and for employment in one of the many organisations employing psychologists.

## Professional recognition

This degree qualifies you to register as a generalist psychologist with the Psychology Board of Australia, and for full membership of the Australian Psychological Society (APS). Graduates will be eligible to apply for membership of the College of Organisational Psychologists and endorsement as an organisational psychologist following the completion of an approved registrar program with the Psychology Board of Australia.

## One of a kind

Deakin has the only course in the Australian State of Victoria where you can study organisational psychology, learning how to increase employee well being, team effectiveness and organisational performance.

## Course information

Course code: **H752**  
 Years (full time): **2**  
 Campus: **B**  
 Intake: T1 (March)  
 2020 annual fee: A\$35 200  
 IELTS score: 7/7

## Structure

16 credit points. All units are core units.

## Minimum entry requirements

Four-year sequence of study in an accredited psychology program that meets national registration requirements and eligibility for Associate Membership of the APS, or equivalent. The four-year sequence may be either an honours program or the combination of a three-year undergraduate degree, including a psychology major and an approved postgraduate program. Admission to the course is competitive and based on grades, experience, and an interview.

## Related programs

Graduate Diploma of Psychology

## Deakin's Doctor of Psychology (Clinical)

Another pathway to obtaining full registration as a psychologist is through Deakin's Doctor of Psychology (Clinical). This four-year degree provides the same coursework elements as the Master of Psychology (Clinical), however it also offers expanded opportunities for clinical placements and research. Visit the Deakin website to learn more.

# Master of Sustainability

## Further studies

Following successful completion of the course, graduates may choose to pursue further research through a PhD, or seek employment in industry or government roles. Alternatively, students may choose to exit early with a Graduate Certificate of Research Management or Graduate Diploma of Biotechnology and Bioinformatics.

# Master of Biotechnology and Bioinformatics

## Course information

Course code: **S772**  
 Years (full time): **2**  
 Campus: **WP**  
 Intake: T1 (March), T2 (July)  
 2020 annual fee: A\$36 400  
 IELTS score: 6.5/6

## Structure

16 credit points, including:

- 7 core units
- 1 elective unit
- 1 eight-credit-point research pathway or Industry Practice pathway.
- 2 zero-credit-point units relating to laboratory and fieldwork safety, and academic integrity.

## Minimum entry requirements

- Bachelor degree in same discipline with a minimum WAM (Weighted Average Mark) of 60% OR,
- Graduate Certificate in same discipline, OR
- Bachelor degree in any discipline PLUS 3 years relevant work experience

## Course overview

This cutting-edge course provides experience of the latest techniques in biotechnology and bioinformatics research, including up-to-date bio-processing and production technologies. Throughout the Master of Biotechnology and Bioinformatics, you will gain experience operating analytical equipment and cell-culture bioreactors similar to those in industrial-scale production facilities. You will cover a wide range of emerging topics in biotechnology and, importantly, research management and business skills.

## Industry connections

Industry connectedness is an integral part of this course and ensures you will have opportunities to gain an industry perspective and establish professional networks prior to graduation. Strong industry links ensure that guest lectures from key industry partners are embedded into each unit to provide you with an understanding of industry-engaged research and commercialisation in the biotechnology environment. You will also have the opportunity to participate in site visits and are required to undertake a research project in a biotechnology-related field.

## Course information

Course code: **S721**

 2020 annual fee: A\$36 200  
 IELTS score: 6.5/6

## Structure

The course comprises a total of 16 credit points, including:

- 2 core units
- 1 four-credit-point specialisation unit
- 2 elective units
- 8-credit-point research pathway or Industry Practice pathway
- 0-credit-point academic integrity unit.

## Minimum entry requirements

- Bachelor degree in same discipline with a minimum WAM (Weighted Average Mark) of 60%, OR
- Graduate certificate in same discipline, OR
- Bachelor degree in any discipline PLUS 3 years relevant work experience.

## Exit options

- Graduate Certificate of Research Management
- Graduate Diploma of Sustainability

## Course overview

With globalisation, population growth and climate change affecting economies around the world, issues of 'sustainability' become increasingly critical to address. Deakin's Master of Sustainability will allow you to specialise in either Environmental Management or Sustainable Regional Development. It has been structured to increase the breadth and depth of your knowledge, and the application of skills necessary to develop and implement sustainability strategies for a range of sectors. You will also have the opportunity to learn to examine environmental impacts and why they occur, and how to develop appropriate solutions to managing these impacts.

## Specialisations

Sustainable regional development **B** **C**  
 Environmental management **B** **C**

## Further studies

Following successful completion of this degree, graduates may choose to pursue further research through a PhD. Alternatively, students may choose to exit early with a Graduate Certificate of Research Management or Graduate Diploma of Sustainability.

# Master of Clinical Exercise Physiology

## Course overview

Chronic health problems, such as cancer or mental health, are known to respond positively to exercise. Study clinical exercise physiology and develop the knowledge and expertise to prevent and treat many medical conditions, injuries and disabilities. As part of Deakin's Master of Clinical Exercise Physiology you will undertake study and hands-on experience in a clinical setting. You will learn in the award-winning Deakin Clinical Exercise Learning Centre, as well as at the Baker IDI Heart and Diabetes Institute, where you will develop practical skills under close supervision and mentoring. You will then embark on a range of external clinical experiences, designed to expose you to a wide range of patients, practitioners and institutions.

## Professional recognition

This is the first course in the Australian State of Victoria to be accredited by Exercise and Sports Science Australia (ESSA). Students are eligible to apply for accreditation as Accredited Exercise Physiologists upon graduation. They are then eligible for a provider number with Medicare Australia and patients can claim the cost of their service through many compensable schemes.

## Course information

Course code: **H743**  
 Years (full time): **1.5**  
 Campus: **B**  
 Intake: T1 (March)  
 2020 annual fee: A\$36 200  
 IELTS score: 6.5/6

## Structure

12 credit points. All units are core units.

## Minimum entry requirements

Three-year bachelor degree in a related discipline from an approved university or other educational institution. Applicants have to be eligible to obtain Exercise Scientist accreditation from Exercise and Sports Science Australia (ESSA) and have completed 140 hours of exercise science service delivery for apparently healthy clientele.

## World-class facilities

Deakin's Elite Sports Precinct, specialised indoor sport and exercise science building\*, teaching labs and extensive equipment will support your training and help you gain a better understanding of sport science.

\* Due for completion Trimester 2, 2019.

# Master of Business (Sport Management)

## Course overview

Underpinning the multi-billion dollar sports industry are business professionals who provide direction and leadership to sporting organisations. There are significant opportunities for those who want to work in sport management, whether it is at elite, semi-elite or recreational level, sport management involves strategy, financial management, marketing, and development. This degree integrates business disciplines to provide you with effective management and direction skills.

## In the global top 10

According to the prestigious SportBusiness Postgraduate Course Rankings 2018 – which has three times named Melbourne the sporting capital of the world – Deakin is ranked in the top 10 in the world for sport management education. Graduates of Deakin's Master of Business (Sport Management) also rank in the top five for average salaries three years after graduation, compared to their peers around the globe.
