Welcome to Deakin – your study destination

G'day and welcome!

Australia is one of the world's most popular international study destinations, with thousands of students arriving every year. Like Australia, Deakin University is a welcoming community, and we support our international students to ensure they have a safe and enjoyable study experience.

World-class degrees

Deakin offers a wide range of study areas and we can help you choose the right degree to pursue your dream career. Be ready to take your next step with confidence and gain the experience you need to succeed. Deakin is highly ranked in many study areas, which you can learn more about in this guide.

Career focus

Deakin applies a practical focus across all its programs. We want to ensure you gain the exposure and experience you need to graduate with confidence. We do this by providing practical instruction on real-world problems, career guidance and work experience opportunities. Visit the course pages to find out what practical experience is involved as part of your degree.

Employment outcomes

Deakin is placed as the No. 1 university in the Australian State of Victoria for undergraduate employment outcomes. The 2018 Graduate Outcomes Survey – an Australian Government initiative – monitors the employment status of more than 40 000 higher education graduates three years after completing their studies. This amazing result is a reflection of the Deakin's dedication to preparing our students for a successful career.

Campus locations

Deakin has four modern campuses in three unique locations. You will discover some of Australia's most popular destinations, incredible wildlife, and engaging and friendly culture when you study here. The University also offers courses through its innovative online Cloud Campus.

Scholarships

Deakin offers many different scholarships to assist high-achieving international students throughout their studies. To check if you are eligible for a Deakin scholarship, visit deakin.edu.au/scholarships.

Trimester system

Deakin runs on a Trimester system whereby our courses start in March (Trimester 1), July (Trimester 2) or November (Trimester 3). This system can offer students the opportunity to complete their degree sooner by studying three terms in a single year. You will find Trimester information on the course pages in this guide.

Your Deakin home

Deakin has four welcoming and engaging campuses located in south-east Australia, as well as our innovative Cloud Campus (online). Each campus offers a unique study experience, and Deakin's local communities are friendly, safe and lively, making for a perfect study environment.

Melbourne Burwood Campus

The Melbourne Burwood Campus is Deakin's largest. It is located a short trip from Melbourne's central business district, and offers the perfect balance between city lifestyle and suburban comfort. The campus boasts impressive buildings and world-class facilities. Students love the relaxed atmosphere and huge choice of learning and social spaces. The campus sits alongside parkland, which is great for cycling, walking and jogging.

Living in Melbourne

A welcoming community

A multicultural city, Melbourne is an international community that is home to people from all around the world.

Many activities

Enjoy live music at Federation Square, or ride a bike along the Yarra River trail. Visit the native animals at the Melbourne Zoo, or spend mornings exploring the Queen Victoria Market tasting fresh produce. There is so much to see and do in Melbourne.

Living in Geelong

Be by the sea

Located a short train trip from Melbourne, Geelong is a coastal city located near some of the country's best surf beaches. You can head to the surf coast, where students take a break from their studies to enjoy a swim or surf.

Support the local team

Check out the GMHBA Stadium football oval where the Geelong Cats – an Australian league football team and partner of Deakin – play their exciting games. You might even become a fan!

Geelong Warrn Ponds Campus

Deakin's Geelong Warrn Ponds Campus is known for its expansive grounds and impressive new buildings. It is home to cutting-edge engineering and medical facilities, as well as some of the world's most advanced material science research spaces. The campus also offers incredible sporting facilities, including Deakin's Elite Sport Precinct, which includes an Australian rules football oval, FIFA-grade soccer pitch, athletics track, basketball courts and more.

Geelong Waterfront Campus

Deakin's Geelong Waterfront Campus is located right on Corio Bay in the heart of Geelong, making for spectacular views from its many study spaces. The campus has a modern, industrial feel, mostly due to its history as wool stores in the 19th century. The unique mix of old and new allows for engaging and creative spaces, and its central location means students can visit Geelong's central business district between classes.

Warrnambool Campus

Deakin’s Warrnambool Campus is close to surf beaches and popular tourist attractions. It is a friendly community: a place where students and lecturers really have the opportunity to get to know each other and work closely together. That sense of community extends to the whole of Warrnambool, providing support to new students in a relaxed, friendly atmosphere. But for those looking for an occasional jolt of big city excitement, trains run four times daily to Melbourne.

Living in Warrnambool

Made for exploring
Set along one of the country’s most scenic coastlines, Warrnambool is the place to be for exploring Australia’s famously unique plant and animal habitats.

A cost-effective choice
For students (and parents) concerned about expenses, Warrnambool offers a lower cost of living than Melbourne and Geelong without sacrificing quality.

Cloud Campus

As a flagship provider of distance education for more than 40 years, Deakin has a unique understanding of students who need to study from afar.

The Cloud Campus is a virtual, vibrant campus. It is your one-stop online shop to access lectures and resources, participate in live-stream seminars and class discussions, chat with lecturers and students, and submit assignments. When, where and how you study is up to you.

As a Cloud Campus student, you need to be a disciplined, independent and organised learner. Given your competing commitments, you will also need to know how to manage your time and priorities. That is why our Cloud Campus comes with orientation sessions, tailored support services, innovative but easy-to-use digital tools and resources, and a dedicated ‘student success coach’ to keep you on track.

Why study online?

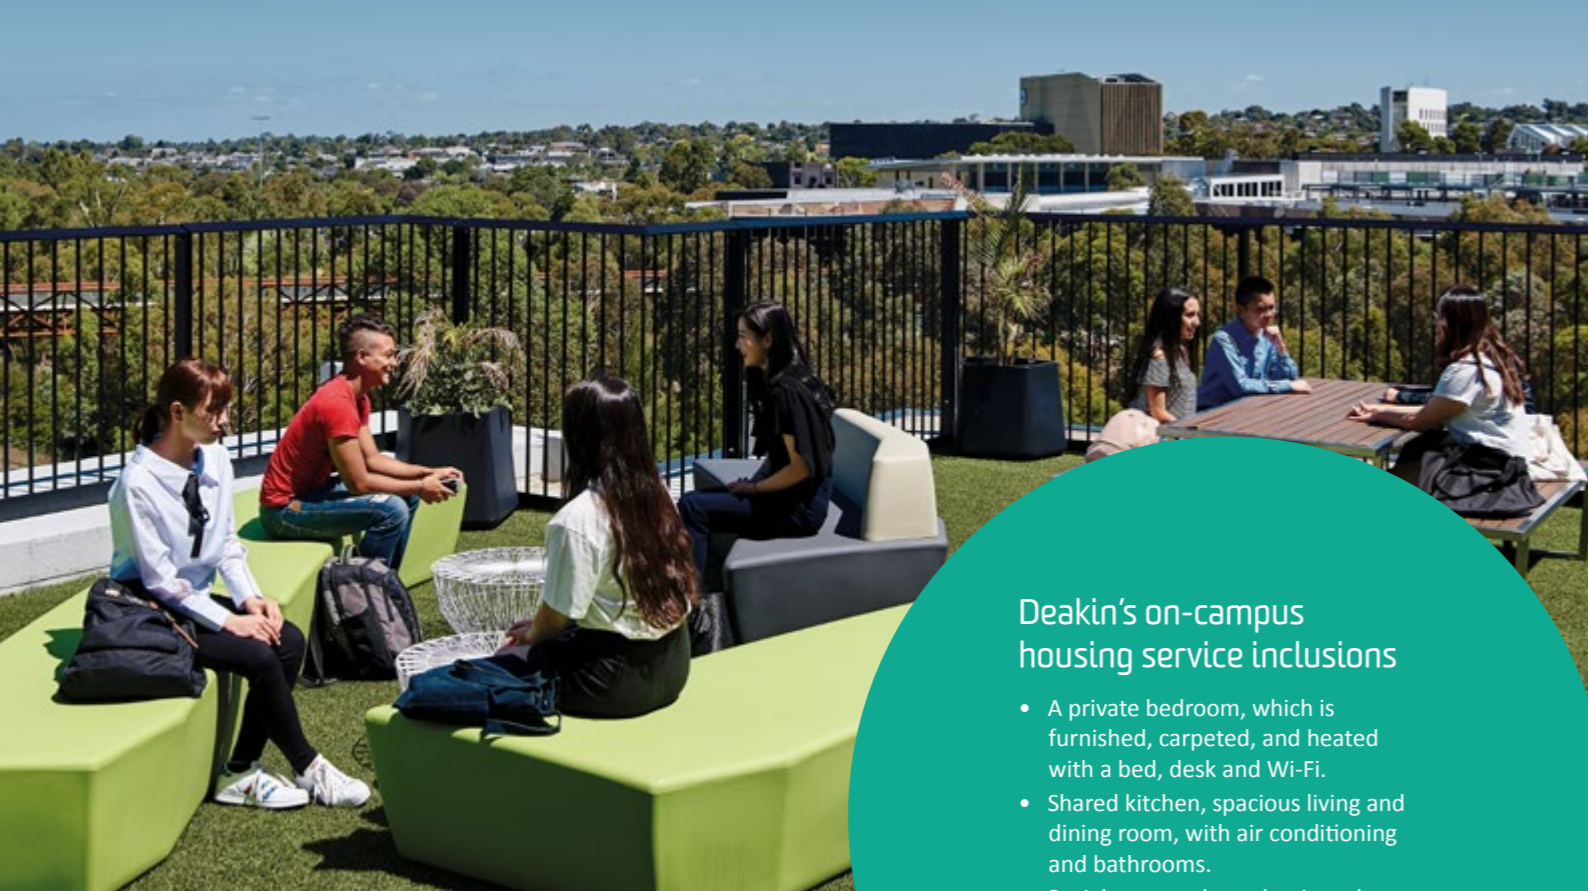

Same quality education
Cloud Campus students receive the same quality education as our on-campus students. Cloud students participate in lectures in real time and can contribute and ask questions like in-class students do. Deakin staff are also available to chat online should you need any assistance outside of class.

Engaging platform
Deakin’s Cloud Campus is delivered through innovative and engaging systems that allow students to access the same materials and services as on-campus students.

Deakin’s on-campus housing service inclusions

- A private bedroom, which is furnished, carpeted, and heated with a bed, desk and Wi-Fi.
- Shared kitchen, spacious living and dining room, with air conditioning and bathrooms.
- Social, personal, academic and sporting activities calendar.
- Support from Deakin staff, the management and administration team, and 24-hour Deakin security.

Accommodation

Deakin offers support in finding accommodation for students, whether you want to live on-campus or close by in a local community.

On-campus accommodation

Living on campus offers a unique opportunity to immerse yourself in the Deakin experience. Accommodation is available at all of our Australian campuses, and various lease lengths are offered. On-campus living provides an affordable and secure living and learning community, ideal for meeting new people and achieving academic success.

Living on campus could save you money. Utility bills and internet are included in the fee, and you don't have to pay an accommodation bond nor public transport costs to get to and from class.

Indicative weekly rates: A\$280 – A\$356*

* Price based on the Melbourne Burwood Campus costings. Rates are cheaper at the Geelong and Warrnambool locations.

Off-campus accommodation

Deakin can assist you in searching for off-campus accommodation using our Houseme database. You will find a variety of rental opportunities, including long-term, short-term and casual options.

You can also access a range of free self-help resources to find out:

- when to start your accommodation search and how to go about it
- the costs associated with accommodation
- things to consider at property inspections
- locations around each campus
- rights and responsibilities when renting in the Australian State of Victoria.

Homestay

Deakin students have the option of staying in a host family home. This provides a great opportunity for students to improve their English in everyday situations and to learn more about living in Australia.

Cost of living

Beyond tuition fees, there are a number of other costs that you need to consider before you decide to study in Australia.

The Australian Government provides average living cost estimates for international students living and studying in the Australian State of Victoria. Costs vary depending on where you live. For example, living in Melbourne is slightly more expensive than living in Warrnambool. The diagram to the right lists some of these costs, but for more detailed information visit studyinaustralia.gov.au.

Overseas Student Health Cover

In addition to tuition fees, all on-campus international students are required to pay Overseas Student Health Cover (OSHC). The amount payable will be included in your Offer Letter.

Scholarships

There are scholarships available to international students through Deakin and through other parties, including the Australian Government.

Deakin offers a variety of scholarships to support high-achieving students, including:

- **Deakin Vice-Chancellor’s International Scholarship** offers a 100% or 50% tuition fee reduction for the normal duration of your course.
- **Deakin International Scholarship** offers 25% tuition fee reduction for the normal duration of your course.

Both scholarships recognise students with consistently high academic performance who have the potential to make a leading contribution to the University and its communities.

Deakin also offers scholarships and bursaries related to specific study areas and degrees, and to support students from certain countries and backgrounds.

For a full list of scholarship opportunities open to international students, and information on how to apply, visit deakin.edu.au/int-scholarships.

Accommodation	\$AUD
Hostels and guest houses	A\$90 to A\$150 per week
Shared rental	A\$85 to A\$215 per week
On campus (inclusive of amenities)	A\$280 to A\$356 per week*
Homestay	A\$235 to A\$325 per week
Rental	A\$165 to A\$440 per week

Other living expenses	\$AUD
Groceries and eating out	A\$80 to A\$280 per week
Gas, electricity	A\$35 to A\$140 per week
Phone and internet	A\$20 to A\$55 per week
Public transport	A\$15 to A\$55 per week
Car (after purchase)	A\$150 to A\$260 per week
Entertainment	A\$80 to A\$150 per week

Minimum cost of living	\$AUD
The Department of Home Affairs has financial requirements you must meet in order to receive a student visa for Australia. From 1 February 2018 the 12-month living cost is:	
You	A\$20 290 per year
Partner or spouse	A\$7 100 per year
Child	A\$3 040 per year

All costs are in Australian dollars.
* On-campus estimated cost is for Deakin’s Melbourne Burwood Campus and includes amenities, such as electricity, gas and internet. On-campus accommodation costs for the Geelong and Warrnambool campuses are lower.

Student services

We want you to have a meaningful learning experience. To achieve this, Deakin offers a complete range of services, from orientation and welcome sessions to academic development services and social activities.

Get started

We make it our priority to ensure that all new international students – many of whom have arrived in Australia for the first time – make a smooth transition to the University. Deakin's welcome program includes airport pick up, orientation, workshops, social events, study groups and opportunities for you to get involved in campus life.

Students Helping Students

No one understands students better than students. That is why student mentors are available to assist you with academic, practical or social matters to help you achieve your best results. This is a part of Deakin's Students Helping Students service. Many student mentors are international students themselves so they know what it means to be new to Deakin and Australia.

International Student Advisers (ISAs)

Friendly ISAs are located on each of Deakin's campuses. These advisers have lived and studied in other countries and have experienced firsthand the cultural and social adjustments involved. ISAs provide general support to you during your studies and can do so in person, online or over the phone. You can book a private appointment or simply drop-in to the International Student Support Centre on your campus.

Cutting-edge digital support

Deakin Genie is an award-winning mobile app that helps you keep on track with your studies. As a Deakin student, you can use Genie to keep a calendar of upcoming classes and assignments; set goals for the year and motivate yourself to achieve them; and access support services and learning tools from around the University. Deakin Genie is so advanced that it works to predict your needs and questions before you think to ask!

Join the club

Getting involved in university life is a great way to meet new people, take on new challenges, and look after your health and fitness. As a Deakin student you can join more than 150 clubs and societies across all campuses. We have a diverse range of clubs, including sporting, academic, health, religious and many more.

Health, safety and wellbeing

Deakin offers a range of services to help students stay healthy and safe, and to promote personal wellbeing.

Deakin Medical Centre

Deakin Medical Centre provides professional medical and nursing healthcare and advice to students. Medical centres are located on all campuses. Campus nurse consultations are free and strictly confidential. Campus doctors bill directly through your Overseas Student Health Cover (OSHC).

Safety

Deakin's campuses and communities are safe places for students. Even so, security officers are on duty 24 hours a day, 7 days a week at all campuses to ensure the safety of students and staff. Safer Community is a service available for support, advice or information if something just doesn't feel quite right. SafeZone is a free phone app for all Deakin students and staff, that connects you directly to the security team.

Supportive and inclusive environment

Deakin promotes a diverse, inclusive and supportive environment through a number of services and initiatives. The Disability Resource Centre (DRC) provides individual support to students with a disability or health condition so they can successfully participate in their studies and university life. The ALLY Network creates a more diverse and inclusive culture by promoting greater visibility and awareness of lesbian, gay, bisexual, transsexual, intersex, queer or questioning (LGBTIQ) students and staff.

Respected program

Australian employers have voted DeakinTALENT the most popular university career service in Australia two years in a row.*

* Australian Association of Graduate Employers 2017 – 2018

Graduate employment

Deakin focuses on preparing you for your dream career. Experience practical, real-world learning, and be ready to enter the work force with confidence.

Our graduate employment division DeakinTALENT is dedicated to providing expert career guidance and development, and will help you connect with employers. DeakinTALENT offers a range of programs and services to start you on the right path.

DeakinTALENT

DeakinTALENT helps students to explore career opportunities, develops their marketability as a graduate, and supports them to apply for graduate roles. Deakin's long-standing relationships with industry organisations means you will learn what employers are looking for in a graduate. Available to all students, our popular career planning resources aim to help you:

- identify and communicate your personal brand
- create a LinkedIn profile to stand out
- develop an effective cover letter and resume
- manage interview nerves
- excel at networking
- succeed in the workplace.

Visit deakintalent.deakin.edu.au to learn more.

Deakin International Students' Careers (DISC) program

DISC has been designed specifically for international students and graduates. It offers a suite of workshops to assist international students in understanding the workplace, learn what employers are looking for, and help them connect with and present confidently to employers. The program includes networking events to connect students with alumni to learn about their career journeys. DISC also helps returning international graduates connect with their home employment market.

Interns@Deakin

The Interns@Deakin program coordinates a range of internships each trimester within Deakin's faculties, divisions, research centres, the FreelancingHUB and international offices overseas. With employers expecting graduates to already have work experience, completing an internship during your studies can be extremely important. The skills you learn will help build your resume, and will enable you to provide examples of how you have already applied your studies in a professional setting.

Interns@Deakin is a competitive process and you will need to meet baseline resume standards to progress in the selection process.

FreelancingHUB

The FreelancingHUB is an exciting initiative designed to develop work-ready graduates through work experience opportunities. The HUB positions students in not-for-profit or community organisations where they develop a solution to a real-world project. Students work in cross-disciplinary and cross-cultural teams, and gain key employability skills, such as communication, collaboration, creativity and critical thinking. Each team is assigned an experienced mentor and project manager, and regular client interaction is facilitated to ensure the project stays on track. Internship placements are open to students across all study areas, but places are limited.

Internships as part of your degree

Many Deakin degrees offer the opportunity to complete an internship as part of the program. With the help of your lecturer, you can find a short-term work opportunity in a local organisation to gain exposure to real-life projects. Deakin students have worked in advertising firms, sporting organisations, local hospitals and wildlife parks, just to name a few. The experience gained as part of these internships can help add to your portfolio of work, which you can present to future employers.

How to apply

1

Find your course

Browse the many exciting undergraduate courses we have on offer throughout this Guide, and choose the degree you wish to study.

2

Understand the entry requirements

It is important that you understand the entry requirements for your degree before you submit your application. Entry requirements for each Deakin degree differ, and also depend on your country of residence. The minimum academic entry requirements can be found on pages 12 – 17 of this Guide. Some degrees may have additional interview or portfolio requirements.

3

Understand the English language requirements

All applicants need to meet Deakin's English language requirements – to the level necessary for their course. Minimum International English Language Testing System (IELTS) scores are included in the course information of this guide. For more information see page 19.

4

Gather supporting documents

When you apply to study at Deakin, it is important to attach all requested supporting documentation, otherwise your application could be delayed or rejected. Most documents need to be certified before they are submitted to Deakin; so give yourself plenty of time to get organised. Certified copies must include: award certificates, academic transcripts and formal identity papers (e.g. your passport). Documents must be translated into English.

5

Submit your application

You can submit your application to study at Deakin using a variety of methods:

- **Email:** Download a pdf application form from the Deakin website. Complete this form on your computer or smart phone and email it to Deakin.
- **Through a representative:** Submit your application through one of Deakin's friendly agents. Visit deakin.edu.au/int-reps to search for a Deakin agent located near you.
- **Apply online:** Using Deakin's online application process is quick and easy. After submitting your application online, you will be asked to provide certified documentation.

Applying to Deakin

You can apply to Deakin at any time throughout the year, and Deakin's International Admissions team is always ready to quickly process applications and assist with any questions you may have. Application processes and requirements may differ slightly depending on your chosen degree, as well as your country of residence and entry pathway.

How to certify your documents

Certified copies of documents are photocopies that have been viewed along with the original document by an authorised person, who will stamp them as being authentic copies. Visit deakin.edu.au/int-apply to see how you can certify your documents and who they can be certified by.

Academic admission requirements

Deakin degrees have eligibility requirements and you will need to meet these in order to gain entry into a Deakin degree. Each degree has its own academic entry requirements.

Using the academic admission requirements table

The table beginning on the next page details the academic admissions requirements for entry into Deakin undergraduate degrees. Check the table for the qualification most relevant to your secondary school studies. Some qualifications will require you to make a quick calculation to convert your results into scores that Deakin will use to assess your application. Use the notes below each table to learn how to calculate your total score.

Is your country not mentioned?

If your academic achievements and country of origin are not mentioned on these pages, it does not mean that you cannot apply to Deakin. Our Admissions Team can take your academic record and other achievements, including workplace experience, into consideration.

Don't meet the academic admission requirements?

If you are not sure you meet the academic admission requirements for a Deakin degree, there may still be a pathway available for you to study at Deakin in the future. See page 18 of this Guide to learn about the alternative pathway options to Deakin.

Select countries not in the table

China entry requirements – Gaokao (高考)

Gaokao students who meet the higher Tier One university cut off score for their province will meet the academic requirements for entry into most Deakin undergraduate degrees.

Vietnam entry requirements

For entry into most bachelor degrees, Vietnamese students must graduate with a National High School Graduate Certificate and achieve an overall GPA of at least 8.0 for Year 11 and Year 12. In addition, applicants must achieve a minimum score of 8.0 for three major subjects in Year 12. Major subjects include Maths, English, Chemistry, Literature, Physics, or Biology.

Students from select high-achieving secondary schools will be eligible for entry into Deakin undergraduate courses by graduating with a National High School Graduate Certificate and achieving an overall GPA of 8.0 for Year 12.

Indonesia entry requirements

Deakin accepts students into bachelor degree programs who have successfully completed the SMA3, achieved the specified average grade in the final two semesters of Year 12, and have been awarded a Certificate of Graduation (Keterangan Hasil Ujian Nasional – SKHUN). Most Deakin bachelor degrees require an average grade of at least 8.0 in the final two semesters of Year 12. The two exceptions are Business School (8.5) and Law School (9.0) degrees.

Canada entry requirements

Applicants must achieve a minimum of six Grade 12 credits. All applications are assessed individually.

New Zealand NCEA requirements

Achievement of a New Zealand University Entrance certification, and a minimum of 80 credits, including at least 60 credits at Level 3 or higher on the NZ qualifications framework, and at least 8 credits at Level 2 or higher in English (4 credits in Writing and 4 credits in Reading required).

Footnotes

¹ The ATAR score presented here is the 2019 score and should only be used as a reference for 2020. Please note, clearly-in ATAR scores can change from year to year.

² To calculate eligibility, total up results of all A Levels, where A=5, B=4, C=3, D=2, E=1. You must complete a minimum of three A Levels.

³ To calculate eligibility, total up results of all A Levels, where A=5, B=4, C=3, S=2. You must complete a minimum of three A Levels.

⁴ Entry is based on a minimum ATAR of 80 or equivalent in the Victorian Certificate of Education (VCE) or its equivalent, with pre-requisite units 3 and 4; a study score of at least 25 in English EAL (English as an additional language) or 20 in English other than EAL.

⁵ The requirement of the Australian Government is that all teaching graduates must pass the Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE) in order to teach. Students must pass the test to graduate from the course. Visit www.education.gov.au/literacy-and-numeracy-test-initial-teacher-education-students for more information.

⁶ Students enrolling in this course will need to pass CASPer, an online test used to assess the personal attributes of applicants to initial teacher education courses. For more information visit deakin.edu.au/casper.

⁴ Students enrolling in this course will need to pass CASPer, an online test used to assess the personal attributes of applicants to initial teacher education courses. For more information visit deakin.edu.au/casper.

⁵ The requirement of the Australian Government is that all teaching graduates must pass the Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE) in order to teach. Students must pass the test to graduate from the course. Visit www.education.gov.au/literacy-and-numeracy-test-initial-teacher-education-students for more information.

Your pathway to Deakin University

Worried that you won't meet the academic admission requirements for Deakin University? Deakin College is the perfect pathway to gain entry into your dream degree.

Deakin College is a direct pathway to Deakin University, and provides an excellent avenue for students who do not yet meet the admission requirements for Deakin University programs. Deakin College and Deakin University work closely to support students and develop high-quality programs.

Deakin College offers diplomas in the areas of Business; Commerce; Construction Management; Design; Engineering; Film, Television and Animation; Health Sciences; Information Technology; and Science, as well as a Foundation Studies Program (equal to Australian Year 12).

Diplomas at Deakin College are equivalent to the first year of a Deakin University undergraduate degree, and may provide entry into the second year of a relevant Deakin University bachelor degree.

Location

Located at Deakin University's Melbourne Burwood, Geelong Waterfront and Geelong Waurn Ponds campuses, Deakin College students have full access to Deakin University's facilities and services, and can get involved in university life while undertaking Deakin College studies.

Deakin College advantages

- Starting with Deakin College offers a number of advantages, including:
- fast-tracking your studies
 - three trimesters per year in March, June and October
 - entry into the second year of a Deakin University degree (diploma studies only)
 - small group teaching and individual attention
 - academic and welfare support services.

For more course information and entry requirements for Deakin College, visit deakincollege.edu.au.

Who should apply?

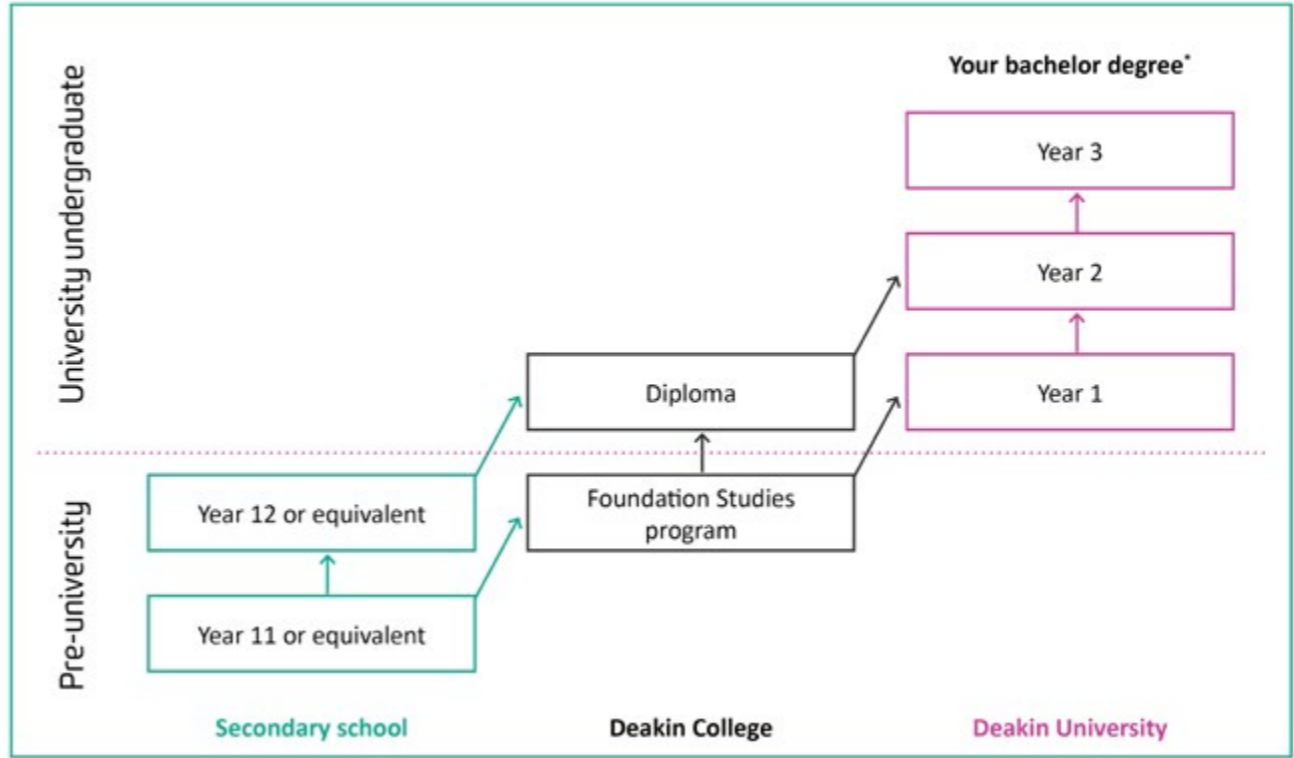

Deakin College programs are aimed at students who do not meet Deakin University's academic entry requirements.

Program structure

Each Deakin College program consists of eight academic units, which you must complete and pass to receive a Diploma or Foundation Studies award. Most units have four contact hours per week. Assessment for all units is ongoing and continuous, and includes tests, assignments and case study analysis.

Accreditation

Deakin College diploma programs are accredited by the Tertiary Education Quality and Standards Agency (TEQSA).

English requirements in this guide

This guide uses IELTS exam scores as the standard for English requirements, but Deakin does accept other English tests. If you have taken a test other than IELTS, visit deakin.edu.au/int-english to learn the scores needed for your degree.

English language requirements

To enrol in a Deakin degree, you will need to be able to read, speak, write and listen in English at a certain level. Different Deakin programs have different English language requirements.

There are many ways to meet Deakin's English language requirements. If your current English level is not high enough to meet our requirements, you may still be able to gain entry into your degree after improving your English at the Deakin University English Language Institute (DUELI).

How to meet English language requirements

All students must be able to prove that they can meet Deakin's English language requirements. You will be able to provide evidence of your English language skills if you have:

- met the required scores in a recognised English language test, such as IELTS or TOEFL
- completed university (tertiary) or high school (secondary) studies taught in English
- completed the Victorian Certificate of Education (VCE) or another type of qualification taught in English
- lived and worked in an English-speaking country for at least five years.

English language tests accepted by Deakin

IELTS

IELTS is the most popular English language test in the world. IELTS tests are taken in nearly every country, and Deakin has IELTS testing and study centres on some of our campuses. IELTS tests assess listening, reading, writing and speaking skills.

TOEFL

The TOEFL test is available in two formats — one is delivered via the internet, and the other is a paper test. The majority of TOEFL test takers worldwide take the TOEFL iBT test, delivered via the internet. The TOEFL Paper-delivered Test is offered only in locations where testing via the internet is not available.

Other accepted English language tests

- C1 Advanced (formerly Cambridge English Advanced CAE)
- C2 Proficiency (formerly Cambridge English: Proficiency CPE)
- English language test for healthcare professionals (OET)
- Pearson Test of English Academic (PTE Academic)

Learning English at Deakin

If you do not meet Deakin's English language requirements you can improve your English at the Deakin University English Language Institute (DUELI). Successful completion of a DUELI English pathway program will allow you to meet the English requirements for your degree.

Deakin English

Do you need help meeting Deakin's English language requirements? Or do you want to improve your English and study skills before starting your degree? The Deakin University English Language Institute (DUELI) can help you improve your English and prepare you for study at Deakin.

Meet Deakin's English language requirements

DUELI can help you meet the English language requirements for your Deakin University degree. Successful completion of DUELI's English for Academic Purposes (EAP) pathway programs can provide you with entry into most degrees at Deakin University. DUELI also has specialised English programs for Commerce, Nursing and Teaching.

The DUELI advantage

DUELI is recognised as one of the best English language centres in Australia. DUELI will do more than improve your English; it will give you the chance to improve your study skills and become familiar with studying at an Australian university. Courses start every five weeks.

What can you study?

English for Academic Purposes (EAP)

EAP programs prepare students for university studies in Australia. You can meet Deakin's English language requirements for most undergraduate courses by successfully completing the EAP 3 program. For most Health Faculty courses you can meet the English language requirements by successfully completing EAP 4.

General English (GE)

GE programs offer students at all levels the chance to use English confidently and correctly. GE programs can prepare beginner English speakers for the EAP program.

English for Commerce

This five-week program is designed for students wishing to undertake the Bachelor of Commerce at Deakin. You will develop your English skills for accounting, law, finance and marketing, and extend your reading and writing skills for a range of complex business ideas and concepts.

Entry requirements:

- IELTS score of 6.0 (no band lower than 5), or
- Completion of EAP 3 with an overall score of 60 per cent.

English for Nursing

English requirements are generally higher for Nursing programs than other degrees. The five-week English for Nursing program is an intensive English program for advanced students. You can meet the English language requirements for Deakin's Bachelor of Nursing by successfully completing this program.

Entry requirements:

- IELTS score of 6.5 (no band lower than 6.5), or
- Completion of EAP 4 with an overall score of 65 per cent.

English for Teaching

English requirements are generally higher for teaching programs at Deakin. The five-week English for Teaching program is an intensive English program for advanced students. You can meet the English language requirements for education courses by successfully completing the English for Teaching program.

Entry requirements:

- IELTS score of 7 (no band lower than 7), or
- Completion of EAP 4 with an overall score of 70 per cent.

Intensive Academic Preparation (IAP)

This is a five-week program for high-level students with IELTS scores of 6.5 or above. It is designed to develop the writing, reading, listening and speaking skills needed to achieve success at university. This is a high-level course for students who wish to excel in their degree, and for Australia Award scholarship students.

DUELI is a part of Deakin

DUELI is more than an English language centre; it is part of Deakin University. As a DUELI student you will have access to all of Deakin's facilities and services, including libraries, health services, and sport facilities.

Choose your degree

The rest of this guide will explore Deakin’s undergraduate degrees. Learn about our state-of-the-art facilities, work experience opportunities, accreditation and more.

Campuses

- B** Melbourne Burwood Campus
- WP** Geelong Waurrn Ponds Campus
- WF** Geelong Waterfront Campus
- WB** Warrnambool Campus
- C** Cloud Campus (online)

Trimester intakes

- T1** Trimester 1 (March)
- T2** Trimester 2 (July)
- T3** Trimester 3 (November)

Course duration

- 3** Course duration in years

Course code

- S342** Every Deakin degree has a corresponding course code for easy reference and identification.

Course fees

Example: A\$30 800

The annual course fee indicates the tuition fee for two trimesters of full-time study, or 8 credit points, unless otherwise indicated. Additional fees may apply and course fees may be subject to change. All fees are in Australian dollars.

For more information about fees visit deakin.edu.au/int-fees.

English requirements

Example: IELTS score 6.5/6

IELTS is the International English Language Testing System. The numbers reflect the minimum overall score required as well as the lowest score allowed for any band (overall score/lowest band score). Deakin also accepts the results of other English language tests. For more about English language requirements see page 19.

Course structure

Unit

A unit is normally one trimester long and most have a value of 1 or 2 credit points.

Credit point

For each unit you successfully complete, you will receive the credit point value of that unit towards your studies. You must complete a specified number of credit points to obtain your degree. Most undergraduate degrees require 24 or 32 credit points.

Major sequence

A major sequence is a group of related units in a particular study area or academic discipline. A major can be made up of either 6 or 8 units. A successfully completed major sequence will be listed on your academic transcript.

Bachelor of Design (Architecture)

Course information

Course code: S342
Years (full time): 3
Campus: Waterfront
Intake: T1 (March), T2 (July)
2020 annual fee: A\$32 000
IELTS score: 6/6

Structure

24 credit points, including:

- 19 core units (totalling 22 credit points)
- 2 elective units
- 2 zero-credit-point academic integrity and safety induction units.

Careers

Potential job opportunities include: Private architectural practices, government organisations and private companies in property development, building and design. Deakin architecture graduates have worked in China, Dubai, Oslo, Berlin, Malaysia, America, the UK and the Middle East.

Related degrees

Bachelor of Design (Architecture)/
Bachelor of Construction Management (Honours)

Course overview

Deakin's Bachelor of Design (Architecture) allows you to explore the design of our physical environments, including residential, commercial and industrial. You will focus on architectural ideas, innovative real-world projects and building science. In addition to exploring architectural history and philosophy, you will create design concepts that are meaningful, sustainable and stimulating. You will learn about building science and the environment, construction technologies, computer-aided modelling, drawing, model making and digital fabrications, all within a creative space at our Geelong Waterfront Campus.

Accreditation

When followed by successful completion of an accredited Master of Architecture, the Bachelor of Design (Architecture) is accredited within Australia by the Australian Institute of Architects (AIA), the Architects Registration Board of Victoria (ARBV) and the Architects Accreditation Council of Australia (AACA). The Bachelor of Design (Architecture) is also validated and recognised by the Board of Architects Malaysia (Lembaga Arkitek Malaysia).

Innovative teaching and facilities

The School of Architecture and Built Environment has undergone major refurbishment, resulting in an inspiring learning space. The a+b studio and workshop provides students, academics and researchers with a place to fabricate models, encouraging experimentation with technology, materials and processes. These interdisciplinary spaces provide access to a variety of digital tools with the open plan studio design facilitating collaboration on projects.

Bachelor of Construction Management (Honours)

Course overview

Whether large or small, domestic or commercial, building projects require a manager who understands how to make it happen on time and within budget. Deakin's Bachelor of Construction Management (Honours) explores building economics and law, project management, building technology, measurement and estimating, quantity surveying, and building practice. You will develop a broad skill set to manage the many different aspects of construction projects.

Professional recognition

As a graduate of this professionally accredited program, your qualifications will be recognised for practice in more than 50 countries. The degree is accredited by the:

- Australian Institute of Building (AIB)
- Australian Institute of Quantity Surveyors (AIQS)
- Chartered Institute of Building (CIOB)
- Royal Institution of Chartered Surveyors (RICS).

Working together

Deakin construction management students work closely with our architecture students. The insight into each other's work is invaluable when you graduate and begin to work together on real-world projects.

Course information

Course code: S346
Years (full time): 4*
Campus: Waterfront
Intake: T1 (March), T2 (July)
2020 annual fee: A\$32 000
IELTS score: 6/6

Structure

32 credit points, including:

- 28 core units (totalling 29 credit points)
- 3 elective units
- 2 zero-credit-point academic integrity and safety induction units.

Careers

Potential roles include: construction manager, estimator, quantity surveyor in a building company or sub-contracting organisation. Opportunities also exist in the property and maintenance divisions of companies that are responsible for large property portfolios.

Related degrees

Bachelor of Design (Architecture)/
Bachelor of Construction Management (Honours)

* Students have the opportunity to complete this course in three years of full-time study by undertaking units in Trimester 3.

Highly ranked

Deakin is ranked in the Top 200 universities in the world for its architecture and built environment courses, based on the 2019 QS World University Rankings. These are informed by academic and employer perspectives, as well as research impact.

Should you study Business or Commerce?

Deakin's Bachelor of Business and Bachelor of Commerce programs are both well-regarded degrees that can help you start your business career. The degree you choose depends on what career focus you wish to take. Review the major sequences offered by each course, and choose the degree with the major that fits your career goals.

Bachelor of Business

Course information

Course code: M325
Years (full time): 3
Campus: Burwood, Waterfront, Cloud
Intake: T1 (March), T2 (July), T3 (November)*
2020 annual fee: A\$34 600
IELTS score: 6/6

Structure

24 credit points, including:

- 12 core units
- 6 major sequence units
- 6 elective units
- 0-credit-point academic integrity unit.

Careers

This degree leads to a variety of careers, including business analyst, project manager, customer relations manager, events manager, business development manager, procurement manager, business operations manager, small business owner, and product manager.

* This intake available at the Cloud Campus only.

Course overview

Deakin's Bachelor of Business allows you to explore business principles across a range of contexts. By choosing a major sequence of interest, you can focus your studies and learn what it is to be an adaptable business professional in a variety of industries. The degree combines practical learning with classroom theory to prepare graduates for a competitive and fast-paced work environment. You will tackle real business problems and engage with business professionals, ensuring you feel confident when entering the business world upon graduation.

Work experience

This degree will enable you to learn through real experiences. Work-integrated learning – also known as a work experience opportunity – is a key component of the program, allowing you to connect with the business world. A capstone unit, which consists of a research project or industry internship, in your final year offers a great opportunity to practise and develop professional skills such as teamwork, communication, negotiation, conflict resolution, decision-making, problem solving and leadership.

Among the best

Deakin is ranked in the Top 200 universities in the world for business by the prestigious 2019 QS World University Rankings by Subject. This means you can be confident that your Deakin business degree will be well respected by employers.

Bachelor of Business Analytics

Course overview

'Big data' is a driving force in the modern business environment – and it could be your pathway to a rewarding career. Deakin's Bachelor of Business Analytics will teach you to use technology to capture and use digital information effectively in professional settings.

Business Analytics refers to using technology to analyse, present and support decision-making from 'big data' held in organisational settings. It looks at the way businesses structure their information architecture, and the ways people and organisations use technology to improve their processes and workflows, and innovate their products or services.

You will learn about the types of data collected by businesses, and how to use that data to make improvements that can give your future employer a competitive advantage. The program explores how to manage data, social media analytics, supply chain management, and more.

Practical experience

You will have the opportunity to put your classroom knowledge into practice: an internship unit allows you to learn directly from business analysts in a local organisation. Deakin's 'Industry Campus' program will also equip you with professional connections for a head-start in your career.

Course information

Course code: M340
Years (full time): 3
Campus: Burwood, Cloud
Intake: T1 (March), T2 (July)
2020 annual fee: A\$35 000
IELTS score: 6/6

Structure

24 credit points, including:

- 16 core units
- 8 elective units
- 2 zero-credit-point academic integrity and induction units.

Careers

Typical roles can be found across business and scientific fields, as well as within governments, and include: business analytics consultant, business intelligence specialist, business analytics consultant, business systems analyst, computer system analyst, data analyst, information analyst, information manager/information officer, market analyst, project manager, predictive modeller.

Bachelor of Commerce

Course overview

Deakin's Bachelor of Commerce gives you the opportunity to explore accounting, economics, marketing, and more. You will gain understanding in financial, market and personal skills, and develop fundamental knowledge of money (finance/accounting), evidence-based decision-making and business analytics. You will come to understand the world of business and be aware of external environments, including consumer and business markets across domestic and international economies. You will also gain knowledge of commercial, contractual and governance frameworks, and the vital role of marketing in modern businesses.

Professional recognition

The Bachelor of Commerce may lead to accreditation with professional bodies, including:

- Association of Chartered Certified Accountants
- Australian Human Resources Institute
- Australian Marketing Institute
- Certified Practising Accountants
- Chartered Accountants Australia and New Zealand
- Financial Planning Association of Australia
- Institute of Public Accountants.

Bachelor of Laws

Careers

Graduates may find employment as property developers, private or government valuers, property advisers, market research analysts, property sales and acquisitions managers, financiers, sustainability consultants, funds managers, property and asset managers, leasing agents and land economists. Graduates are able to specialise in all facets of the real estate market, including commercial and industrial property, residential property and other related land uses in the built environment.

Bachelor of Communication

Communication at Deakin is all about identifying, creating and analysing different contexts and audiences to deliver tailored messaging and communications solutions.

Discover the different programs we offer, each allowing you to focus on an area that interests you.

Experience cutting-edge facilities

Deakin has heavily invested in state-of-the-art facilities so that our communications students can bring their knowledge and skills from the classroom and apply them in practical settings. You will have access to learning spaces, such as a newsroom and creative media lab, as well as other spaces, including:

- a green-screen studio linked to the newsroom and other creative production suites, enabling production of video content
- a collaborative news production area with an editorial hub, including workstations and monitors to stream live TV news channels
- editing booths for audio and audiovisual editing, and to conduct recorded interviews in acoustically quiet spaces
- a creative media lab and workspace for the production of physical media
- shared computer spaces for students to work together on a single digital production
- creative spaces for collaborative learning and team projects.

Gain real-life experience

Deakin communication students gain practical experience throughout their degree thanks to work-integrated learning initiatives and an internship program, which are embedded into our degrees. In the first year you will start working on your professional identity and how to make and pursue industry contacts. This will prepare you to undertake an internship in your chosen industry. Through a specialised third year unit, and after your internship, you will learn how to think strategically about career readiness and career development. These experiences, along with your study, will allow you to finalise your resume and portfolio of work, helping you to graduate with confidence, ready to demonstrate your professional skills to employers.

Career opportunities

A career in communication could lead nearly anywhere. Fields of work include:

- advertising, public relations and digital media agencies
- creative and design studios
- PR and event management
- communication roles in government
- marketing consultancies
- media agencies
- multimedia businesses
- newspaper and magazine publishers
- web development companies
- freelancing.

Bachelor of Communication (Advertising)

Advertising at Deakin exposes you to the fast-paced and constantly changing world of brand communication. This degree provides you with industry-based learning experiences, including an internship that involves real advertising projects, to prepare you for a stimulating career. To broaden your skill set, you will undertake study in important areas, such as design, digital media, film and television, public relations, journalism and marketing. On completion, you will have a folio of work to show employers that demonstrates your capabilities and experience in strategy development, copy writing and/or art direction.

Accreditation

Deakin's Bachelor of Communication (Advertising) is accredited by the International Advertising Association.

Course information

Course code: A334
Years (full time): 3
Campus: Burwood, Cloud
Intake: T1 (March), T2 (July), T3 (November)
2020 annual fee: A\$30 600
IELTS score: 6/6

Structure

24 credit points, including:

- 18 core units*
- 6 elective units
- 0-credit-point academic integrity unit.

Further study

Bachelor of Communication (Honours)

* Includes 7 credit points of core option units, which you can choose from a specialised list of design, journalism, public relations and digital media units.

Bachelor of Communication (Digital Media)

Through this degree you will engage in the examination and creation of digital media content to experience how practitioners operate, respond to, and engage with audiences and stakeholder groups. These groups include consumers, communities, government and business. You will learn about media industry processes of planning and production, intellectual property and piracy, gamification, and many other workplace-relevant areas. In addition, you can take electives in specific areas such as screen production, design, journalism, public relations, advertising, film and television and more. Combining digital media with these other study areas enhances your career opportunities in a broad range of fields of specialised media employment. Practical assessments and an internship in your final year mean you will also graduate with a portfolio of digital work and experience to showcase your online capabilities.

Course information

Course code: A333
Years (full time): 3

Bachelor of Communication (Honours)

* This intake available at Melbourne Burwood Campus and Cloud Campus only.
^ Includes 7 credit points of core option units which you can choose from a specialised list of design, journalism, public relations and digital media units.

Bachelor of Communication (Journalism)

Learn how to identify, research, plan and produce newsworthy stories suitable for print, broadcast and online media. You will learn how to work across all media platforms, whether your goal is to work for large news organisations, allied media businesses, online media outlets, or as a freelancer. The program emphasises hands-on learning of journalistic skills in print, radio, television, and online platforms. From day one, you will learn how to research stories, conduct interviews, write news articles and report multimedia stories. You will build towards completing intensive news production work in your final year and become fully prepared for the workforce through an industry internship.

IELTS score: 6/6

Structure

24 credit points, including:

- 18 core units*
- 6 elective units
- 0-credit-point academic integrity unit.

Further study

Bachelor of Communication (Honours)

* This intake available at Melbourne Burwood Campus and Cloud Campus only.
^ Includes 7 credit points of core option units which you can choose from a specialised list of design, journalism, public relations and digital media units.

Bachelor of Film, Television and Animation

Course overview

From documentary and short narrative fiction, to more experimental productions, this course will expose you to a number of production and post-production roles and practices. You will explore studio and location production, film analysis, team and project management, visual language, digital cinematography, animation for screen, editing, sound design, high definition broadcast TV studio production, scriptwriting, short film making and the business of freelance work.

Animation

Develop clever and creative ways of manipulating and animating images. Gain a broad understanding of moving image, graphic and animation practice, allowing you to develop your own unique future specialisation.

Film and television

Learn the skills to create every aspect of a variety of genres, from documentary to short film. You will study scriptwriting and editing through to sound design and cinematography. Being a multi-disciplinary creative, you can tailor your skills and explore other areas.

State-of-the-art facilities

Get inspired in the Deakin television broadcast studio, a high-definition television studio used by commercial broadcasters. You can also learn advanced cinema workflows with our Red Epic 5K cameras, the same ones director Peter Jackson used to film *The Hobbit*.

Work experience opportunities

Work experience plays a critical role in developing your employability; students who undertake placements and internships are highly sought-after by employers. Students of film, television and animation have many work experience and networking opportunities prior to graduation. The Marngrook Internship is offered annually, giving a number of Deakin students the opportunity to work on a full season of the *Marngrook Footy Show* – a television show that commentates and critiques Australian rules football.

Course information

Course code: A351
Years (full time): 3
Campus: B
Intake: T1 (March), T2 (July), T3 (November)
2020 annual fee: A\$32 200
IELTS score: 6/6

Structure

24 credit points, including:

- 18 core units
- 6 elective units
- 0-credit-point academic integrity unit.

Careers

You may find a career in fictional and factual production for cinema and television, or work as a member in the camera, lighting, sound, design and effects or editing departments within the corporate, educational and advertising sectors. Students with an interest in animation may work as animators in the arts and digital content industries, including the animation, film, television and games design sectors, and as independent professional creative practitioners.

Bachelor of Creative Writing

Course overview

Deakin's Bachelor of Creative Writing will see you explore narrative-driven works, experimental innovations, editing, creative non-fiction, and script writing. You will discover new takes on traditional genres of poetry and short and extended fiction writing. Collaboration, practice, professionalism and creative sustainability are emphasised throughout this degree to ensure you develop the skills necessary to work with teams in writing, film, drama and new technologies. In your final year, studio projects will develop and extend your style, as well as allow you to undertake creative research work and produce professional-standard publications for web and print.

Work experience opportunities

As a student of creative writing, you can gain valuable work experience within an Australian company through our work placement program. This will give you the opportunity to broaden your skills, experience and networks before graduation. You might undertake work placements at magazine and book publishing houses, or within broadcast and print media.

Course information

Course code: A316 ^{A316}
Years (full time): 3 ³
Campus: Burwood, Waurin Ponds, Cloud
Intake: T1 (March), T2 (July), T3 (November)*
2020 annual fee: A\$30 600
IELTS score: 6.5/6

Structure

24 credit points, including:

- 18 core units
- 6 elective units
- 0-credit-point academic integrity unit.

Careers

Our graduates have applied their skills in an array of settings, including in consumer goods and services companies; freelance editing and writing; finance, health and manufacturing industries; government departments; media and entertainment industries; publishing companies; and tourism, hospitality and service industries.

* This intake available at Melbourne Burwood and Cloud campuses only.

Bachelor of Creative Arts

Pursuing a career in the creative arts will allow you to express yourself and work with other professionals who share a passion for creating and creative thinking. By studying one of Deakin's creative arts degrees, you will gain invaluable industry contacts and transferable skills of collaboration, creative problem-solving and communication, all highly valued by today's creative industries.

State-of-the-art technology

You will have the opportunity to work in dedicated spaces. Display your work in the innovative Phoenix Gallery, a state-of-the-art theatre, and studio spaces – all equipped for mixed-media, pop-up installations and high-quality technical production.

Everything you need at your fingertips

Students can borrow professional-grade equipment from Deakin's extensive media resource centre, including lighting and professional audio gear, digital video cameras, and SLR cameras for projects and practice. We have a team of technicians who can provide support and expertise. Deakin is one of the first universities in the world to offer RED EPIC cameras – the digital camera of choice for the world's best filmmakers and photographers.

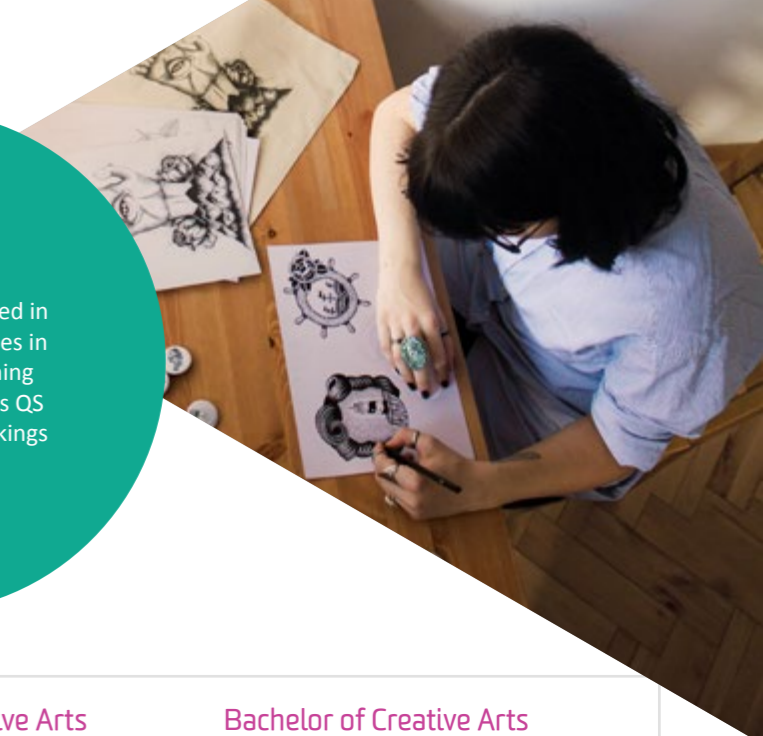

Cross-disciplinary learning

Deakin's creative arts programs provide you with the opportunity to collaborate with students across disciplines. Students are encouraged to explore complementary skills to maximise career options, including specialist electives in other creative arts disciplines. This encourages innovation and ensures you graduate ready to work across a wide range of disciplines and with many varied professionals.

Highly ranked

Deakin has been ranked in the Top 100 universities in the world for Performing Arts by the prestigious QS World University Rankings by Subject, 2019.

Bachelor of Creative Arts (Dance)

Immerse yourself in the exciting physical, social and conceptual possibilities of contemporary dance. You will explore dance technique, choreography, history and theory. You will learn how dance intersects with creativity, innovative thinking, community enrichment and technology. You will also have opportunities to develop individual and group performance projects.

Course information

Course code: A356 A356
 Years (full time): 3 3
 Campus: Burwood B
 Intake: T1 (March)
 2020 annual fee: A\$32 200
 IELTS score: 6/6

Structure

24 credit points, including:

- 16 credit points of compulsory core units
- 8 credit points of electives
- 0-credit-point academic integrity unit.

Careers

Graduates are equipped with the skills to enter the expanding arts and entertainment industries, including making independent dance or working in contemporary dance companies. Careers include: dancer, choreographer, arts centre or festival manager, dance teacher, community dance practitioner, production manager, presenter.

Further study

Bachelor of Creative Arts (Honours)

Bachelor of Creative Arts (Drama)

Do you want to be a part of the next generation of innovative performers and theatre makers? This degree will help you develop acting, improvisation, voice and devising techniques, as well as digital theatre crafts, to create new stories and forge your own unique path as a creative in the industry. You will have the opportunity to work on individual and group creative projects to develop your skills in ensemble creation and production management.

Course information

Course code: A357
 Years (full time): 3
 Campus: Burwood
 Intake: T1 (March)
 2020 annual fee: A\$32 200
 IELTS score: 6/6

Structure

24 credit points, including:

- 18 core units
- 6 elective units
- 0-credit-point academic integrity unit.

Careers

Our drama graduates are equipped with the skills required to enter the expanding arts and entertainment industries, including in live theatre, film and television, drama education, contemporary performance companies, and in performing arts centres and community theatre.

Further study

Bachelor of Creative Arts (Honours)

Bachelor of Creative Arts (Photography)

In this degree you will develop the specialist knowledge, critical awareness and confidence required to establish yourself as an adaptive professional photographer. With the guidance of leading photography experts and access to state-of-the-art equipment and facilities, you will experiment, research and develop your own aesthetic sensibilities to document and tell stories of the world around you through images.

Course information

Course code: A352
 Years (full time): 3
 Campus: Burwood, Waterfront
 Intake: T1 (March), T2 (July), T3 (November)*
 2020 annual fee: A\$32 200
 IELTS score: 6/6

Structure

24 credit points, including:

- 18 core units
- 6 elective units
- 0-credit-point academic integrity unit.

Careers

Graduates have moved into roles such as independent fine arts practitioners; event and sport photographers; commercial studio photographers, including portraiture, fashion and product and community-based arts; darkroom photographers; gallery directors and assistants; teaching; postgraduate pathways; and many other fields.

Further study

Bachelor of Creative Arts (Honours)

* This intake available at Melbourne Burwood Campus only.

Bachelor of Creative Arts (Visual Arts)

Combining art theory and studio practice, you will explore visual arts techniques, including contemporary drawing, painting, and 3D modelling. You will become a curious and creative student, and will learn to combine digital technologies and traditional practices. Our students engage with the arts industry by visiting specialists and professionals. Deakin offers professional placements in art institutions with contemporary artists, as well as community and cultural events.

Course information

Course code: A359
 Years (full time): 3
 Campus: Burwood, Waterfront*
 Intake: T1 (March), T2 (July)
 2020 annual fee: A\$32 200
 IELTS score: 6/6

Structure

This course comprises 24 credit points, including:

- 18 core units
- 6 elective units
- 0-credit-point academic integrity unit.

Careers

Graduates can enjoy creative roles as artists, in arts administration, curation, academic research, illustration, design, video, advertising, film production and teaching. You could also work on creative designs for websites, packaging, printed material, company branding, video games, advertising, exhibitions and displays.

Further study

Bachelor of Creative Arts (Honours)

* Geelong Waterfront students can take units of study at the Geelong Warrn Ponds Campus.

Bachelor of Design

Design can drive business through innovation, as well as facilitate positive change in society. Learn the tools and strategies to become a creative thinker. Deakin offers different design degrees so you can specialise in an area that interests you.

Cross-disciplinary learning

Our design degrees provide you with the opportunity to collaborate with students across all design disciplines. Students are encouraged to explore complementary skills to maximise career options, including specialist electives in design, visual arts, photography, media and marketing. This encourages innovation and ensures you graduate ready for a career as a well-rounded creative practitioner.

Collaborative exhibition

Final year design students come together in a dynamic, cross-discipline collaborative project. You will work with non-profit clients to deliver on real briefs and, in some cases, assist with brand development, culminating in a final exhibition of work. This experience ensures our design students experience the industry before they graduate.

Accreditation

Deakin's Design programs are recognised by the Design Institute of Australia (DIA), so you can be sure you will remain up-to-date with the current industry practices and developments. The DIA also offers student membership and access to some of the biggest design events and experts in the nation.

Student work: 3D Animation *Into the Woods*
by A Dunkerley, P Billones and K Jorgensen

Bachelor of Design (3D Animation)

This degree embeds animation into design, focusing on the requirements of the client, and on delivering projects to suit industry standards across digital platforms. Explore design histories and theories, and develop skills in animation production by exploring computer graphic animation (3D CG modelling, character design and rigging, CG lighting and rendering) and motion capture techniques. Throughout your course you will have the opportunity to work on industry briefs with real-life clients, ensuring you develop a comprehensive portfolio of work.

Course information

Course code: A343
Years (full time): 3
Campus: Burwood
Intake: T1 (March), T2 (July),
T3 (November)
2020 annual fee: A\$31 000
IELTS score: 6/6

Structure

24 credit points, including:

- 10 core units (totalling 11 credit points)
- 7 x 3D animation core units
- 6 elective units
- 0-credit-point academic integrity unit.

Careers

Graduate ready to work in motion design; animation, film, television and web design; motion capture performance or in augmented reality and virtual reality.

Bachelor of Design (Digital Technologies)

This degree combines software design, virtual and augmented reality experience design, mobile app design, web design and creative arts design. Learning a variety of skills offers graduates opportunities to extend their design experience into the application of technological products that will address pressing creative and social issues in today's society. Work on real projects with real briefs, and develop a strong portfolio of work. Explore technological entrepreneurship and innovation, and specialise in an area that interests you most.

Course information

Course code: A344
Years (full time): 3
Campus: Burwood
Intake: T1 (March), T2 (July)
2020 annual fee: A\$31 000
IELTS score: 6/6

Structure

24 credit points, including:

- 15 core units (totalling 16 credit points)
- 2 digital technology units
- 6 elective units
- 0-credit-point academic integrity unit.

Careers

Our graduates have worked in creative agencies, advertising and design studios, print houses and corporate companies. You will have skills relevant to user experience design, app design and development, web design, digital design and immersive design, which are highly sought after by employers.

Bachelor of Design (Visual Communication)

From day one you will be introduced to the professional design world, learning and creating in state-of-the-art facilities with industry leaders. We encourage our Visual Communication students to shape their ideas into practical and attractive propositions for users, customers and society as a whole. You will connect with industry throughout the program, with the opportunity to take part in regular showcases, including an exhibition in your final year. You will also take part in a collaborative industry project.

Course information

Course code: A345
Years (full time): 3
Campus: Burwood, Waterfront
Intake: T1 (March), T2 (July),
T3 (November)*
2020 annual fee: A\$31 000
IELTS score: 6/6

Structure

24 credit points, including:

- 10 core units (totalling 11 credit points)
- 7 visual communication units
- 6 elective units
- 0-credit-point academic integrity unit.

Careers

Our graduates have worked in advertising, graphic design studios, print houses, publishers, corporate companies who host in-house design services, government and private practices.

* This intake available at the Melbourne Burwood Campus only.

Bachelor of Education

Deakin's education courses prepare you to understand learners and equip you with the leadership skills you need to be a professional educator. Choose between our Early Years and Primary degrees depending on your area of interest.

Hands-on experience

Deakin's professional experience program gives you real-life teaching experience and study credit for your degree. You will undertake at least 80 days of placements, meaning your CV will be filled with practical know-how and sought-after skills that employers look for.

Accreditation

Deakin's Bachelor of Education (Early Years) is approved by the Australian Children's Education and Care Quality Authority (ACECQA) as an early childhood teaching qualification in Australia; and is accredited by the Victorian Institute of Teaching (VIT) as an initial teacher education program against the Australian professional standards for teachers.

Deakin's Bachelor of Education (Primary) is accredited with the Victorian Institute of Teaching (VIT) as a nationally accredited course for the purposes of teacher registration in Victoria. The course is the only undergraduate teacher education program in the Australian State of Victoria to be accredited with the International Baccalaureate Organisation to offer a recognised pathway for teaching in the IB Primary Years Program.

Both courses will prepare you to meet all requirements to register with the VIT.

The CASPer assessment

If you are applying for entry into an initial teacher education course, you will be required to complete a test to assess your non-academic attributes or 'people skills'. CASPer (Computer-based Assessment for Sampling Personal Characteristics) is an online, scenario-based test that assesses your suitability for a teaching career. For more information on dates and sample test content, visit deakin.edu.au/casper.

Bachelor of Education (Early Years)

This program focuses on contemporary issues in children's learning and development, curriculum theories, and discipline knowledge. You will apply your learning in education settings, allowing you to gain experience and confidence as a teacher in early childhood, preschool and primary school settings.

Course information

Course code: E330
Years (full time): 4
Campus: Burwood
Intake: T1 (March), T3 (November)*
2020 annual fee: A\$29 400
IELTS score: 7/6.5

Structure

32 credit points, including:

- 29 core units
- 3 specialisation units
- 0-credit-point academic integrity unit
- 2 zero-credit-point units for Literacy and Numeracy Testing for Initial Teacher Education (LANTITE).

Specialisations

Promoting equity, social justice and inclusivity B
Arts education B
Aboriginal knowledge and experiences B
Science B
Language and literacy B

Careers

Graduates may work as an early childhood teacher, service director, coordinator, preschool field officer, adviser or senior adviser within early childhood facilities. You may work as a primary school teacher or seek employment in government agencies, community services and not-for-profits.

* Offered to Diploma of Early Childhood Education holders only.

Bachelor of Education (Primary)

Gain the knowledge, skills, understandings and values required to teach young people. Deakin's aim is for graduates to be professional educators who can demonstrate that they are classroom-ready and able to make a difference in students' learning. You will be supported in your learning through Deakin's Professional Experience Program.

Course information

Course code: E359
Years (full time): 4
Campus: Burwood, Waurn Ponds, Warrnambool
Intake: T1 (March)
2020 annual fee: A\$29 400
IELTS score: 7/6.5

Structure

32 credit points, including:

- 26 core units
- 4 specialisation units
- 2 elective units
- 0-credit-point academic integrity unit
- 2 zero-credit-point units for Literacy and Numeracy Testing for Initial Teacher Education (LANTITE).

Specialisations

Mathematics and numeracy B WP C
Language and literacy B WP WB C
Science B WP WB C
Humanities B WP C
The arts B WP WF
Special education needs B WP WB C
Health physical education B WP WB
Languages B WP WB C

Careers

As a Deakin graduate, you may find employment as a teacher within the private or public education sectors. Opportunities also exist in government agencies, community services and not-for-profit organisations.

Bachelor of Health and Physical Education

Course information

Course code: E377
Years (full time): 4
Campus: Burwood, Waurn Ponds
Intake: T1 (March)
2020 annual fee: A\$29 400
IELTS score: 7/6.5

Structure

32 credit points, including:

- 26 core units
- 4 credit points of discipline study in a third teaching method area
- 2 credit points of curriculum study in the third teaching method area
- 0-credit-point compulsory unit
- 2 zero-credit-point units for Literacy and Numeracy Testing for Initial Teacher Education (LANTITE).

Students must also complete an Emergency First Aid Certificate (Level 2) and AUSTSWIM qualifications prior to graduation.

Careers

Deakin graduates may choose to work as secondary health and physical education professionals, or move into areas such as sports management, recreation and fitness, community and government agencies, professional coaching positions, as well as into private academies and agencies.

Course overview

Deakin's Bachelor of Health and Physical Education will prepare you for a career teaching health and physical education in secondary schools. You will explore areas such as applied sports science, biomechanics, motor learning and development, exercise physiology, health and human development, nutrition, and education. You will also discover the science and art of movement education and performance skills through dance and gymnastics, and gain an understanding of basic anatomical and physiological language and terminology.

Professional experience

In all four years of the course you will undertake professional work placement, first in primary, then in secondary school settings. This gives you the chance to apply your learning in a real-life teaching role with the support of a qualified and experienced teacher. This course includes 80 days of supervised professional experience placements.

Accreditation

Deakin's Bachelor of Health and Physical Education has been approved by the Victorian Institute of Teaching (VIT) for the purposes of teacher registration in Victoria. Graduates intending to apply for registration in the Australian State of Victoria should carefully check all requirements relating to this process specified at vit.vic.edu.au. This course will prepare you to meet all requirements to register with the VIT.

Education and teaching ranked 27 in the world

Deakin is ranked in the Top 27 universities in the world for its education courses, based on the 2019 QS World University Rankings by Subject, which are informed by academic and employer reputation, as well as research impact.

Secondary teaching degrees

Deakin's unique combined secondary education degrees allow you to specialise in arts or science while gaining your secondary teaching qualification. You will learn to teach subjects from junior secondary to senior secondary school.

Professional experience

Deakin's aim is for graduates to be professional educators who can demonstrate that they are classroom-ready and able to make a difference in students' learning. You will be supported in your learning through Deakin's Professional Experience Program. These courses include 60 days of supervised professional experience placements.

Careers

Graduates of Deakin's secondary teaching degrees may find careers in secondary schools, government departments, the public service, TAFE and adult community education institutions, health and welfare organisations, as well as in private academies and agencies. Bachelor of Arts/Master of Teaching (Secondary) graduates have the opportunity to work in arts-related areas, such as youth work and community development programs. Bachelor of Science/Master of Teaching (Secondary) graduates have opportunities to work in science-related areas, such as science writing and interpretation; public-sector positions, such as with conservation groups; and in other research positions.

Accreditation

Our combined secondary education courses are accredited with the Victorian Institute of Teaching (VIT) as nationally accredited courses for the purposes of teacher registration in the Australian State of Victoria. These courses will prepare you to meet all requirements to register with the VIT.

Bachelor of Arts/ Master of Teaching (Secondary)

This combined degree prepares graduates with the knowledge and professional skills required to be a secondary school teacher, teaching from junior secondary to high school levels. Combine teaching and the arts, and go on valuable school placements to help you discover your interests as a future teacher. The fast-tracked postgraduate level of study means that graduates are ready to teach after just four years.

Course information

Course code: D303
Years (full time): 4
Campus: Burwood, Cloud
Intake: T1 (March)
2020 annual fee: A\$29 400
IELTS score: 6/6

Structure

36 credit points, including:

Bachelor level studies:

- 2 arts major sequences (totalling 16 credit points)
- 4 elective units from another group of arts majors
- 4 core units.

Postgraduate level studies:

- 8 core teaching units
- 4 curriculum study units
- 0-credit-point compulsory unit
- 2 zero-credit-point units for Literacy and Numeracy Testing for Initial Teacher Education (LANTITE).

Teaching specialist areas

Art 
Drama 
English 
History 
Languages teaching 
Media 
Studies of society and environment 

Bachelor of Science/ Master of Teaching (Secondary)

This degree combines a postgraduate teaching qualification with undergraduate discipline studies in the sciences. It prepares graduates with the discipline-specific knowledge and standards required to be a secondary school teacher, from junior secondary to senior secondary levels. The fast-tracked postgraduate level of study allows for some units to be undertaken in Trimester 3 so that graduates are ready to teach after just four years.

Course information

Course code: D304
Years (full time): 4 *
Campus: Burwood
Intake: T1 (March)
2020 annual fee: A\$36 000
IELTS score: 6/6

Structure

36 credit points, including:

Bachelor level studies:

- 7 core science units
- 2 chemistry/science units
- 1 six-credit-point science major sequence
- 5 science major sequence units
- 2 zero-credit-point compulsory units.

Postgraduate level studies:

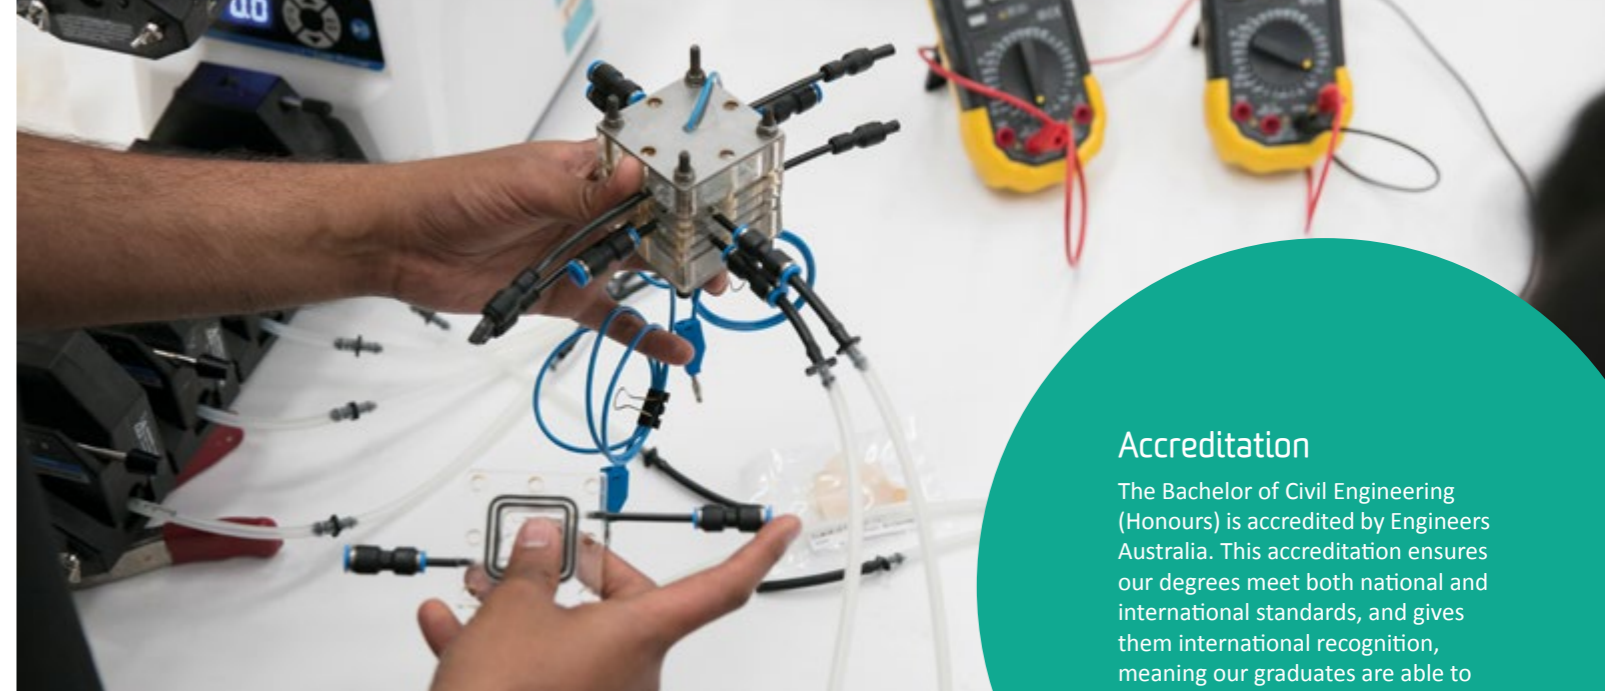

- 8 core teaching units
- 4 curriculum study units
- 0-credit-point compulsory unit
- 2 zero-credit-point units for Literacy and Numeracy Testing for Initial Teacher Education (LANTITE).

Teaching specialist areas

Alongside core education studies, you will complete studies in two teaching specialist areas. Choose from:

Biology 
Chemistry 
Environmental science 
Geography 
Mathematics 
General science 

* Trimester 3 in Year 3 is compulsory for this course.

Accreditation

The Bachelor of Civil Engineering (Honours) is accredited by Engineers Australia. This accreditation ensures our degrees meet both national and international standards, and gives them international recognition, meaning our graduates are able to practise as professional engineers in many countries around the world.

Bachelor of Civil Engineering (Honours)

Course information

Course code: S460
Years (full time): 4
Campus: Waurin Ponds*
Intake: T1 (March), T2 (July)
2020 annual fee: A\$35 200
IELTS score: 6/6

Structure

32 credit points, including:

- 31 core units
- 1 elective unit
- 3 zero-credit-point-units relating to safety and project orientated learning, work placements and academic integrity.

Careers

Employers seek out Deakin graduates for their forward thinking, innovative and entrepreneurial qualities. As a civil engineering graduate, you can gain employment with government bodies and departments, consulting firms, water authorities, road authorities and public works.

Related degrees

Bachelor of Design (Architecture)/
Bachelor of Construction Management (Honours)

* Cloud Campus students will be required to participate in campus-based intensive activities each trimester at the Geelong Waurin Ponds Campus.

Course overview

Civil engineers are responsible for the planning, design, construction and project management of buildings and roads; airports and railways; water resources management; and other infrastructure systems. The Bachelor of Civil Engineering (Honours) gives you the building blocks to plan, design, construct and maintain the infrastructure systems that are necessary for our day-to-day lives. It covers the broad range of civil engineering disciplines, including engineering materials, structural engineering, water engineering, geotechnical engineering and transport engineering.

Work experience

Professional Engineering Practice is a compulsory unit in all Deakin engineering degrees. This means you will have a minimum of 60 days of work experience in one or more organisations, giving you insight into your future career options. You will also study a range of project-oriented, design-based learning and project-based learning units. These units bring together theory, site studies and laboratory investigations, and include Water Engineering Design and Geotechnical Investigation and Design, for example.

Join the Peer Support Program

The Faculty of Science, Engineering and Built Environment offers a Peer Support Program as part of its commitment to providing new students with the best possible transition into university life. By joining the program, you will receive support and guidance from more senior students in their course, helping you become familiar with the support services and facilities available, while gaining useful tips about studying at Deakin.

Highly ranked

Deakin is ranked in the Top 1% worldwide for Electrical Engineering by QS, which is a reflection of the University's high-quality program.

Bachelor of Electrical and Electronics Engineering (Honours)

Course information

Course code: S461
Years (full time): 4
Campus: Waurm Ponds, Cloud*
Intake: T1 (March), T2 (July)
2020 annual fee: A\$35 200
IELTS score: 6/6

Structure

32 credit points, including:

- 31 core units
- 1 elective unit
- 3 zero-credit-point-units relating to safety and project orientated learning, work placements and academic integrity.

Careers

Employment opportunities exist in design, production, technical and consulting roles within a range of industries, including renewable energy, power utilities, resources/mining, local government and public works.

* Cloud Campus students will be required to participate in campus-based intensive activities each trimester at the Geelong Waurm Ponds Campus.

Course overview

This program covers many areas of electrical and electronic engineering disciplines, including renewable power generation and grid integration of renewable energy sources; smart distribution and transmission; urban, industrial, rural and regional power usage; and energy efficiency and intelligent demand management.

The course encourages the responsible use of electrical power in a changing climate, and covers a broad range of electrical and electronic engineering disciplines.

You will develop an understanding of ethical considerations and contemporary technical issues in the practice of engineering, and apply fundamental theory in industry-relevant projects, combining project management and communication skills. Plus, you will have direct access to industry and state-of-the-art facilities.

World-class facilities

Engineering students at Deakin learn in world-class facilities located within the Centre for Advanced Design in Engineering Training (CADET). Having access to some of the best facilities in Australia allows students to realise and validate their designs through combinations of computer simulation, prototyping, testing and manufacturing. The high voltage lab is a key facility within CADET that enables students and industry to utilise a number of Tesla transformers within the lab to test electrical-related experiments. The system is capable of reaching voltages up to 500kV. From late-2019, students will also have access to a 8MW Microgrid facility and a state-of-the-art Visualisation and Control Centre.

Accreditation

This degree is accredited by Engineers Australia. This accreditation ensures our engineering course meets both national and international standards and gives our degrees international recognition, meaning our graduates are able to practise as professional engineers in many countries around the world.

Bachelor of Environmental Engineering (Honours)

Course information

Course code: S465
Years (full time): 4
Campus: Waurm Ponds
Intake: T1 (March), T2 (July)
2020 annual fee: A\$35 200
IELTS score: 6/6

Structure

32 credit points, including:

- 31 core units
- 1 engineering elective unit
- 3 zero-credit-point-units relating to safety and project orientated learning, work placements, and academic integrity.

Careers

Employment opportunities exist with engineering firms, land developers, government agencies, consulting firms, and well prepared for careers that address global issues, such as climate change, environmental sustainability, waste disposal, recycling, public health, and air and water pollution.

Course overview

Learn how to develop practical engineering applications to protect our environment. Discover the natural and physical sciences involved in environmental engineering, including geography, chemistry, mathematics, environmental science and analysis, marine ecosystems, fluid mechanics, hydrology and hydraulics, waste management, environmental infrastructure, protection, planning and more.

Learn in the field

Participate in off-site activities that will give you hands-on, practical experience on projects similar to those tackled by professional engineers. You will undertake at least 60 days of practical work experience in an engineering organisation. This will enable you to enhance your skills and understanding of environmental engineering and develop valuable professional networks before you graduate.

Accreditation

Deakin's Bachelor of Environmental Engineering (Honours) has been designed in accordance with Engineers Australia professional accreditation requirements. Deakin is currently seeking provisional accreditation for the Bachelor of Environmental Engineering (Honours) with Engineers Australia.

Bachelor of Mechanical Engineering (Honours)

Course overview

Mechanical engineering applies science and technology to the design, production and operation of systems, mechanical devices and machinery. Deakin's Bachelor of Mechanical Engineering (Honours) will allow you to apply theory in industry-relevant projects, combining project management skills with numerical simulation techniques, product realisation and testing. You will cover many mechanical disciplines, including machine design, thermofluids, structural design and industrial control, while developing skills in project management, communication and financial management. You will also explore product and process modelling, and how to design for sustainability.

Centre for Advanced Design in Engineering Training (CADET)

CADET is a \$55 million facility with state-of-the-art simulation and visualisation systems, and purpose-built interactive laboratory and workshop learning spaces. CADET provides students with some of the best future-focused engineering and design facilities in Australia, including a globally-unique Virtual Reality (VR) Lab, high voltage lab and one of largest 3D printing facilities in the southern hemisphere.

Accreditation

This degree is accredited by Engineers Australia. This accreditation ensures our engineering course meets both national and international standards and gives our degrees international recognition, meaning our graduates are able to practice as professional engineers in many countries around the world.

Course information

Course code: S462
Years (full time): 4
Campus: Waurrn Ponds, Cloud*
Intake: T1 (March), T2 (July)
2020 annual fee: A\$35 200
IELTS score: 6/6

Structure

32 credit points, including:

- 31 core units
- 1 elective unit
- 3 zero-credit-point-units relating to safety and project orientated learning, work placements and academic integrity.

Careers

Employment opportunities exist in design, production, technical and consulting roles within a range of industries, including high-tech manufacturing, automotive and resources/mining.

* Cloud Campus students will be required to participate in campus-based intensive activities each trimester at the Geelong Waurrn Ponds Campus.

Leading the way

Deakin is ranked in the Top 250 universities in the world for mechanical engineering by QS World University Rankings by Subject 2019. Our engineering research is also ranked highly by Excellence in Research for Australia (ERA), a national research evaluation framework. ERA awarded Deakin a ranking of 4 (classed above world standard) for Mechanical Engineering, highlighting Deakin's strength in engineering-related research. Our research excellence informs our teaching to ensure our students are aware of new developments that will shape the engineering industries of the future.

Bachelor of Mechatronics Engineering (Honours)

Course overview

Mechatronics teaches you how to combine electronic devices with mechanical design and information technology. You will learn to design and build applications such as the automation of industrial processes, flying drones, 3D printers, robotics and self-driving cars. In second year you will design a robot for potential entry into the Warman Competition. And in third year you will design and build 'sumo robots' that need to outsmart, overpower and outmanoeuvre the competition. The Bachelor of Mechatronics Engineering (Honours) will develop your skills in entrepreneurship, innovation, project management, technical report writing and more. You will come to understand ethics within the engineering profession, and of technical and professional issues within the industry.

Work experience

Professional Engineering Practice is a compulsory unit in all Deakin engineering degrees. This means you will have a minimum of 60 days of work experience in one or more organisations, giving you insight into future career options.

Accreditation

The Bachelor of Mechatronics Engineering (Honours) is accredited by Engineers Australia. This accreditation ensures our engineering course meets both national and international standards and gives our degrees international recognition, meaning our graduates are able to practise as professional engineers in many countries around the world.

State-of-the-art facilities

Based within the engineering precinct at our Geelong Waurrn Ponds Campus, the Centre for Advanced Design in Engineering Training (CADET) signals a new era in engineering and industrial design education in Australia. CADET houses some of the most advanced and future-focused simulation and visualisation systems, purpose-built interactive laboratories and learning environments in the country. It changes the way students learn and train to become engineers. You will also have access to advanced mechatronics, electronics, and 3D printing laboratories.

Course information

Course code: S463
Years (full time): 4
Campus: Waurrn Ponds, Cloud*
Intake: T1 (March), T2 (July)
2020 annual fee: A\$35 200
IELTS score: 6/6

Structure

32 credit points, including:

- 30 core units
- 2 elective units
- 3 zero-credit-point-units relating to safety and project orientated learning, work placements and academic integrity.

Careers

Employment opportunities as a mechatronics engineer are diverse. They include roles in industrial automation and electronic control systems, transportation systems, developing mechatronic products and systems, and as a consulting engineer.

* Cloud Campus students will be required to participate in campus-based intensive activities each trimester at the Geelong Waurrn Ponds Campus.

Bachelor of Health Sciences

Course information

Course code: H300
Years (full time): 3
Campus: Burwood, Waurin Ponds
Intake: T1 (March), T2 (July),
T3 (November)*
2020 annual fee: A\$32 000
IELTS score: 6.5/6

Structure

24 credit points, including:

- 6 core units
- 2 major sequences (totalling 6 credit points each)
- 6 electives.

Careers

Depending on the major sequences you choose and your choice of electives, you could be qualified to work in areas such as health promotion, health education, community health, family and community support, health marketing, exercise and sport, public relations, health policy development, nutrition, and research in health areas. The practical placements and volunteer opportunities available to you during this degree will prepare you for such roles.

Related degrees

Further study

- Bachelor of Health Sciences (Honours)
- Bachelor of Health and Medical Science (Honours)

* This intake available at the Melbourne Burwood Campus only.

Course overview

Deakin's Bachelor of Health Sciences will enable you to explore the many areas of the health sector. This flexible course focuses on improving the health and wellbeing of people in local and global communities. By choosing one or two major sequences of study, you will tailor your degree to the areas of health you wish to focus on. You will have the opportunity to get exposure to real-world health environments and scenarios through placements in actual workplaces. These opportunities will help you gain the industry connections and professional experience to build an impressive resume.

* This major is not available to students undertaking the combined Bachelor of Health Sciences/Bachelor of Arts degree.

Bachelor of Medical Imaging

Course information

Course code: H309
Years (full time): 4
Campus: Waurin Ponds
Intake: S1*
2020 annual fee: A\$37 200
IELTS score: 7/7

Structure

32 credit points. All units are core units.

Careers

A degree in medical imaging prepares you for careers in hospital radiology departments, specialist medical facilities, and private radiology practices. Final year options mean that you can also get the skills to progress into roles in business management, and advanced imaging within the medical imaging field. Plus, you will develop strong skills in research, which could lead to careers in health or basic science research.

* Unlike most Deakin courses, the Bachelor of Medical Imaging runs on a Semester system.

Course overview

Otherwise known as medical diagnostic radiography, medical imaging is the technique of creating visual representations of the internal organs of the body for clinical analysis and medical intervention. Deakin's Bachelor of Medical Imaging will launch your career as a registered diagnostic radiographer. You will use the latest in medical equipment to learn basic x-ray techniques before advancing to more complex medical imaging procedures. These include ultrasound, magnetic resonance imaging (MRI), and computed tomography (CT). Supporting this exposure to industry-grade equipment and techniques, you will participate in extensive clinical practice in clinical centres nationally, as well as at Deakin's own state-of-the-art medical imaging training unit. You will also learn about professionalism, communication, and ethical and legal aspects of healthcare that will inform and support your future clinical practice.

Work experience

From your first year of study you start clinical placements, allowing you to develop clinical skills under the supervision of experienced practitioners. You will gain experience working in a broad range of settings, including hospitals and private radiology clinics throughout Australia.

Accreditation

Deakin's Bachelor of Medical Imaging is designed to meet the requirements of the Australian Health Practitioners Regulation Agency (AHPRA). The course has been awarded the title of 'accreditation with conditions' by AHPRA, with statutory direction provided by the Medical Radiation Practice Board of Australia (MRPBA). Possession of an AHPRA/MRPBA Statement of Accreditation means that you are eligible to work in Australia, New Zealand, the UK and Canada.

Bachelor of Occupational Therapy

Course information

Course code: H555
Years (full time): 4
Campus: Waterfront
Intake: T1 (March)
2020 annual fee: A\$37 400
IELTS score: 7/7

Structure

32 credit points, including:

- 29 core units
- 1 selective unit
- 2 credit points of elective units.

Careers

As a graduate you will be able to assist people of all ages to engage in any aspect of daily living – assisting them to achieve independence at home, at work and in the community, as well as helping them enhance their quality of life. You may work with children who have physical or intellectual disabilities, in aged care, or with people who have had accidents or are suffering from medical problems. You may work in acute, psychiatric or rehabilitation hospitals; schools; community health; mental health; workplaces (such as in occupational safety and health); government; private practice; or teaching and research.

Course overview

Occupational therapy combines physical and mental rehabilitation to support people to live happy, healthy and productive lives. Deakin recognises the importance of getting hands-on experience early in your occupational therapy journey. So, starting in your first trimester, you will have the opportunity to explore the differing occupational therapy specialisations and develop your own professional network.

Work experience

You will undertake more than 1000 hours of practicum placements throughout the four years of the course, starting in year one. Fieldwork is conducted in a range of settings, including schools, hospitals, clinics, community health organisations and industry. In a host agency, you can play a meaningful role in a variety of activities, including planning programs and events, undertaking needs assessments, developing evaluation tools, counselling, and group work.

Accreditation

Deakin's Bachelor of Occupational Therapy is accredited by Occupational Therapy Australia, the Occupational Therapy Council and the World Federation of Occupational Therapists, enabling you to work in Australia and overseas.

Bachelor of Public Health and Health Promotion

Course information

Course code: H313
Years (full time): 3
Campus: Burwood
Intake: T1 (March), T2 (July)
2020 annual fee: A\$32 000
IELTS score: 6.5/6

Structure

24 credit points, including:

- 16 core units
- 8 elective units.

Careers

Graduates may work as a health promotion officer, community development officer, social planning officer, health educator, women's health officer, health policy developer, planning officer, health researcher, program development officer or program evaluator. Employment areas may include community and population nutrition, physical activity, mental health, social inclusion, chronic illness (such as asthma, arthritis, heart disease) and women's health.

Related degrees

- Bachelor of Nursing/Bachelor of Public Health and Health Promotion
- Bachelor of Public Health and Health Promotion/Bachelor of Commerce

Further study

- Bachelor of Public Health and Health Promotion (Honours)
- Master of Health Promotion

Course overview

Begin to understand and act on the factors that cause poor health, and those that create and sustain good health. Through Deakin's Bachelor of Public Health and Health Promotion, you will gain important skills in industry-recognised competencies, including planning and evaluation, health communication strategies, epidemiology and health research. Practical work placements give you the chance to gain valuable experience and further develop your expertise in the field.

Work experience

Work experience is a core feature of this course. For example the capstone experience is a 120-hour field education placement that provides you with an opportunity to transfer your knowledge and skills to a practical setting, where you can further your learning through realistic field experience. These placements enable you to consolidate your skills under the supervision of qualified practitioners, which will assist you to be work-ready upon graduation.

Among the best

Deakin is ranked in the Top 100 of universities worldwide for Public Health by ShanghaiRankings. This means you can be confident that your Deakin degree will be well respected by future employers.

Professional recognition

Graduates may be eligible to become members of the Public Health Association of Australia (PHAA) and the Australian Health Promotion Association (AHPA).

Bachelor of Social Work

Course overview

If you have a strong sense of social justice and are passionate about human rights, a career in social work could be for you. Social workers aim to enhance the wellbeing of people's lives, taking into account the influence of policy, socio-economic factors and social justice issues. Deakin's Bachelor of Social Work has a particular emphasis on human rights, socioeconomic oppression and the importance of critical reflection. You will become familiar with a range of social research methods and learn how to design and conduct research directly relevant to social work practice.

Work experience

Field education placements provide an opportunity for students to learn under the supervision of qualified social work practitioners. During the course there is a minimum of 1000 hours of fieldwork placements conducted in a variety of communities and workplaces in metropolitan and regional settings.

Course information

Course code: H330
Years (full time): 4
Campus: Waterfront
Intake: T1 (March)
2020 annual fee: A\$32 200
IELTS score: 7/7

Structure

32 credit points, including:

- 29 core units
- 3 elective units.

Careers

You may be involved in policy development and research, counselling, family therapy, drug and alcohol counselling, community development and refugee assistance. Social workers also work as program managers or coordinators, and as advocates, facilitators, activists or consultants. You may work in specialist areas such as health, housing or education, or with groups such as the aged, women, youth or multicultural populations.

Professional recognition

Deakin's Bachelor of Social Work is an Australian Association of Social Workers (AASW) accredited qualification. It is an entry qualification into the social work profession and has been determined to meet the Australian Social Work Education and Accreditation Standards (ASWEAS).

Bachelor of Vision Science/ Master of Optometry

Course overview

Learn how to diagnose and manage a wide range of ocular conditions and diseases. The Bachelor of Vision Science/Master of Optometry will see you graduate as a qualified optometrist, as you learn about visual health issues and their impact at local and international levels.

Deakin offers Australia's first accelerated optometry course. You complete the five-year degree in just 3.5 years by studying three trimesters per year. The program focuses on case-based and team-based learning, and offers an extensive, fully equipped clinical skills facility. You will explore clinical, commercial and professional domains in optometry. Throughout your studies you will explore elements from the health, medical and vision sciences, as well as business and management.

State-of-the-art facilities

During the first three years of the program, you will be based at the Regional and Community Health Hub (REACH) facility at the Geelong Waurn Ponds Campus, which includes a fully-equipped clinical skills laboratory and a full-scale optometry practice that allows for simulation-based learning, examinations and research.

Work experience

Clinical placements are an integral part of this degree. You will undertake a variety of short-term clinical placements and spend the final six months of the course as a 'student resident' in a clinical optometric and medical setting. These rotations take place in both metropolitan and regional or rural settings, and will enable you to apply your knowledge and skills under the supervision of qualified optometrists.

Professional recognition

Graduates of Deakin's Bachelor of Vision Science/Master of Optometry are eligible to apply for registration with the Australian Health Practitioner Regulation Agency (AHPRA) and as Medicare Service Providers. This course is accredited by the Optometry Council of Australia and New Zealand.

Course information

Course code: D302
Years (full time): 3.5*
Campus: Waurn Ponds
Intake: T1 (March)
2020 annual fee: A\$55 800*
IELTS score: 7/7

Structure

This degree comprises 40 credit points. All units are core units.

Careers

Deakin optometry graduates are well prepared for employment in a diverse range of work settings, including private practice, corporate and community settings, health services, hospitals, non-government organisations, research institutes, government, and tertiary education institutions. Career opportunities include private and public eye care; research and education; and special interests within optometry, such as myopia control, dry eye management, low vision, and paediatric vision.

* This degree is a 3.5-year accelerated full-time program delivered over 10 consecutive trimesters. This means you will study three trimesters each calendar year.
^ The 2020 course fee is for three trimesters of full-time study in a single calendar year.

Bachelor of Arts

Course overview

A Deakin Bachelor of Arts degree offers many opportunities, allowing you to keep your career options open and design your course around your interests for maximum employability. All arts majors are taught as a combination of practical and theoretical learning, with many areas of study offering work placements. You can take single, double and even triple majors, allowing you to build the degree you want.

Tailor your degree

This degree offers a wide range of major sequences allowing you to choose an area of study that suits your career aspirations. Choosing a major sequence means you can focus your studies on that particular area, and pursue further studies or a career in that area.

Bachelor of Criminology

Course overview

Learn the who, why and how of crime with Deakin’s Bachelor of Criminology. With the perfect balance of theory and practical learning, join the university with the most established criminology program in Australia, and graduate armed with the critical thinking skills to tackle criminal justice issues. We will help you understand the inner workings and impacts of criminal behaviour and various responses to it, from environmental crime to terrorism, and how to use this understanding when making decisions within the criminal justice system.

Practical experience

You will have the opportunity to complete a Criminology Practicum in your final year of study. This unit brings the profession to the classroom with seminars led by professional criminologists, activities bridging theory and practice, and the development of an e-portfolio that can be used for employment or career development.

Course information

Course code: A329
Years (full time): 3
Campus: Burwood, Waurn Ponds, Cloud
Intake: T1 (March), T2 (July)

Bachelor of International Studies

Course information

Course code: A326
Years (full time): 3
Campus: Burwood, Waterfront, Cloud
Intake: T1 (March), T2 (July)
2020 annual fee: A\$29 400
IELTS score: 6/6

Structure

24 credit points, including:

- 6 core units
- 1 major sequence
- Maximum of 8 credit points taken outside the Faculty of Arts and Education
- At least 2 credit points of approved international experience
- 0-credit-point academic integrity unit.

Careers

Our graduates work in a wide range of fields, including local and national government, diplomacy and foreign affairs, international aid and development, the business sector (communications, human resources, analysts, marketing), law, international education, and social entrepreneurship.

Related degrees

- Bachelor of International Studies (Global Scholar)
- Bachelor of International Studies/ Bachelor of Commerce
- Bachelor of Laws/ Bachelor of International Studies

Course overview

Studying international relations will strengthen your understanding of the key political issues of our time. Deakin's Bachelor of International Studies focuses on diplomacy, foreign policy and global governance, as well as theory related to questions of order, justice and resistance in world politics. An important component of the degree is developing strong intercultural competence and graduate employability. This is achieved through a combination of core units and participation in a wide range of international experiences. The program offers an Asia-Pacific view on international relations, politics, security, society and culture.

International experience

You will take part in an approved international experience that will gain you credit towards your degree. Opportunities include:

- trimester of study at an overseas university exchange partner
- international internship
- in-country language program (in Chinese, Indonesian, Arabic or Spanish)
- study abroad program or study tour
- two credit points of consecutive language units other than an in-country language.

Be a global scholar

Deakin also offers the Bachelor of International Studies (Global Scholar), which is designed for high-achieving students who want to combine study and travel and proactively build a global career from the very start of their studies. You will develop intercultural competencies, transversal skills, and important skills of analysis, critical thinking and reflection – all of which are essential for effective personal and professional operation in international environments. You will complete an international experience, supported by the award of a A\$3000 scholarship.

We are among the best

Deakin is ranked in the Top 1% of all universities for computer science by the 2019 QS World University Rankings by Subject and 2018 ShanghaiRankings Global Ranking of Academic Subjects.

Bachelor of Computer Science

Course information

Course code: S306
Years (full time): 3
Campus: Burwood
Intake: T1 (March), T2 (July)
2020 annual fee: A\$33 000
IELTS score: 6/6

Structure

24 credit points, including:

- 17 core units (totalling 18 credit points)
- 6 elective units
- 3 zero-credit-point units (safety induction, work placements and academic integrity).

Careers

Computer science graduates are in high demand in a variety of roles, such as data scientist, software developer, software engineer, systems or network administrator, database administrator, AI developer, solutions architect, systems analyst, or project manager. Computer scientists also work in specialist research and development roles, in both public and private organisations.

Further study

Bachelor of Information Technology (Honours)

Course overview

Studying computer science gives you the skills to design and develop advanced software and systems, along with the capacity to create and integrate new computing technologies that enhance effective business operations. You will practice your skills in our modern computing laboratories and gain knowledge of data science concepts, robotics application development, artificial intelligence, machine learning, human computer interaction, algorithm design, and analysis and optimisation techniques. This course is ideal if you are passionate about creating solutions to complex problems, curious about how something works rather than simply what it does, and interested in working at the leading edge of technology innovation and development.

Work experience

This degree includes an IT work placement, where you will be required to undertake a minimum of 100 hours working in industry. Alternatively, high-achieving students may have the opportunity to undertake an extended full-time paid Industry-Based Learning (IBL) placement between 6–12 weeks (conditions apply). You will work on industry projects, gaining experience in entrepreneurship and business skills.

Professional recognition

This course is accredited by the Australian Computer Society (ACS). Graduates of accredited courses are highly regarded by employers.

Bachelor of Cyber Security

Course overview

Cyber security professionals protect the data and systems of the digital services we use every day. Cyber security is a growing issue for individuals and businesses alike. Through Deakin's Bachelor of Cyber Security, you will learn how to identify, diagnose, analyse and manage cyber security issues. You will explore and learn cyber security skills within computer crime and digital forensics, evaluating software for security vulnerabilities, designing secure databases, assessing and reinforcing the security of websites, designing secure network architectures, performing risk assessments, responding to cyber security incidents, and much more.

The degree focuses on technical elements and sets you up with strong skills in critical thinking and problem solving. Upon graduation, you will be able to capably deal with imminent threats and challenges in the digital space.

Bachelor of Cyber Security students have the opportunity to complete course certifications to add value to their degree. These certifications – which include Cyber Security Fundamentals, Computer Hacking Forensic Investigator, Certified Ethical Hacker, and Certified Security Analyst – are voluntary zero-credit-point units, and add additional skills to your resume.

Graduate ready

As a cyber security graduate you will have the skills demanded by a diverse range of industry and government sectors. Our courses are industry-specific, so you study issues important to industry – like implementing security technologies to protect against hackers or developing cyber security solutions.

Work experience

This degree includes a core IT placement unit where you will be required to undertake a minimum of 100 hours in industry, providing professional work experience with an approved host organisation. Alternatively, high-achieving students may have the opportunity to undertake an extended full-time paid Industry-Based Learning (IBL) placement between 6–12 weeks (conditions apply). You will also work on industry projects, gaining experience in entrepreneurship and business skills.

Further study

Bachelor of Information Technology (Honours)

Bachelor of Software Engineering (Honours)

Course overview

Create the smart systems of the future. Studies in software engineering give you specialised skills in computing, robotics and cyber-physical systems, in preparation for a career as an innovative software engineer capable of developing the smart devices and systems of the future. Deakin's Bachelor of Software Engineering (Honours) will extend your skills beyond web and database technologies and desktop software patterns, enabling you to acquire niche skills in robotics and cyber-physical computing.

Work experience

This course includes a professional experience unit where you will be required to undertake at least 60 days of industry work experience. You will also have an opportunity to use your elective units to apply for an industry-based learning position, or alternatively a short-term Career or STEM Placement. These opportunities will enable you to work on industry projects to gain experience in entrepreneurship and business skills.

Course information

Course code: S464
Years (full time): 4
Campus: Burwood, Cloud
Intake: T1 (March), T2 (July)
2020 annual fee: A\$33 000
IELTS score: 6/6

Structure

32 credit points, including:

- 22 core units (totalling 28 credit points)
- 4 elective units
- 3 zero-credit-point units (safety and project orientated learning, safety induction, work placements and academic integrity).

Careers

As a graduate, you will have access to a wide range of industries, such as smart cities, digital health, precision agriculture, and manufacturing automation. You may pursue a career as an entrepreneur, software engineer, software developer, embedded systems developer, robotics systems engineer, mobile and web app developer, business analyst, or software tester.

Further study

Bachelor of Information Technology (Honours)

Modern facilities with the latest technology

Deakin's new Robotics and Internet of Things (RIoT) lab is equipped with the latest technologies in computing, robotics and cyber-physical systems. You can also access specialised software, such as professional development platforms, industry-standard modelling and animation packages.

Bachelor of Laws

Course overview

As a lawyer, you will offer both practical and legal advice to help clients in criminal or civil court proceedings. Deakin's Bachelor of Laws explores commercial law, criminal law, criminal procedure, constitutional law, contract, legal practice and ethics, taxation, civil rights, property, and more. You will develop skills in negotiation, mediation, preparing for court appearances, legal drafting, and statutory interpretation. You will also develop skills in critical thinking, evaluation, analysis, problem solving, communication, research and formal document drafting.

Areas of law

A centre for excellence in commercial law, Deakin Law School delivers a diverse range of study and research areas, including intellectual property, corporate governance, tort and the law of medicine, sentencing and criminal justice, energy and natural resource law, and constitutional law.

Deakin Law Clinic

Deakin Law Clinic provides legal assistance to eligible clients in a range of areas, including civil and commercial law, criminal law, employment law, family law, and venture law. Students interview real clients under the supervision of qualified solicitors, conduct research on legal issues, and offer advice where appropriate. Students also have the opportunity to attend court proceedings in some instances. These clinical programs empower students to expand on the rigorous academic knowledge and the critical skills they gain during their degree.

Legal internship program

Students can also access internship placements at many law firms, legal aid providers and government offices for credit as part of their Deakin Law School experience. Students will gain practical legal skills and experience that employers look for, and graduate work-ready into a competitive employment market.

Professional recognition

This course fulfils the academic requirements for admission to practise as an Australian lawyer as set by the Victorian Legal Admissions Board (VLAB). In addition to completing the degree, a person seeking admission is required to work for one year as a legal trainee, or to undertake a practical legal training course.

Further study

Bachelor of Laws (Honours)

* Intake available at the Melbourne Burwood and Cloud campuses only.

Highly ranked

Deakin's law programs are ranked in the Top 100 of all universities worldwide by the prestigious 2018 ShanghaiRankings World University Rankings by Subject.

Nursing and midwifery at Deakin

If you are a good communicator, enjoy working in a team and want to make a genuine difference, a career in nursing and midwifery may be for you. Deakin offers a single nursing degree and a nursing and midwifery double degree.

Among the best

Deakin is ranked in the Top 28 universities in the world for nursing by the prestigious QS World University Rankings by Subject 2019, which is informed by academic and employer reputation, as well as research impact.

Professional recognition

As a graduate of either degree, you will be eligible to apply for registration as a registered nurse with the Nursing and Midwifery Board of Australia (NMBA). On completion of the Bachelor of Nursing/ Bachelor of Midwifery, you are also eligible to register as a midwife.

Practical, real-world experience

You will gain 20 weeks of clinical experience in a variety of nursing settings. Midwifery clinical experiences take place over 21 weeks, and include all areas of midwifery practice. The number of weeks you conduct for your placement may differ, depending on whether you enter the course with credit from prior learning. Visit the Deakin website for the most up-to-date information.

Clinical simulation centres

Simulating real hospital and community environments, Deakin's clinical simulation spaces replicate real-world hospital and community settings with state-of-the-art equipment. You will take part in case-based scenarios, and these will become more complex as your nursing degree progresses.

Bachelor of Nursing

This degree will teach you to provide high-quality, patient-centered care in a range of settings. Clinical placements start in the first trimester of your first year, and continue throughout your degree. These placements are undertaken in various metropolitan, regional and rural healthcare settings under the supervision of qualified practitioners. You will develop skills in a range of areas, including acute/sub-acute care, medical and surgical care, aged care, rehabilitation, paediatrics, community nursing, and mental health nursing. Students with current or previous nursing experience may be eligible to earn up to 16 credits points in recognition of prior learning. As a Deakin nursing graduate you will be highly sought-after for your knowledge, problem-solving capabilities and ability to provide high-quality, person-centred and evidence-based care.

Course information

Course code: H326
Years (full time): 3
Campus: Burwood, Waterfront, Warrnambool
Intake: T1 (March), T2 (July)*, T3 (November)^
2020 annual fee: A\$33 800
IELTS score: 7/7

Structure

24 credit points, including:

- 17 core units (totalling 21 credit points)
- 3 elective units.

Careers

Graduates will be well prepared to pursue a career as a registered nurse in a range of work areas, including hospitals, homes, hospices, aged care settings, clinics, schools, universities and community health centres.

Related degrees

- Bachelor of Nursing/ Bachelor of Midwifery
- Bachelor of Nursing/ Bachelor of Psychological Science
- Bachelor of Nursing/Bachelor of Public Health and Health Promotion

Bachelor of Nursing/ Bachelor of Midwifery

Learn how to provide the necessary support, care and advice to women and their families throughout pregnancy and childbirth, as well as postnatal care. Throughout this course you will get a valuable mix of hands-on clinical practice and theory. Clinical placements will develop your skills in a range of settings, including acute/sub-acute care, medical and surgical care, maternity care – including antenatal, birthing, and post natal – paediatrics, aged care, rehabilitation, community nursing, and mental health nursing. Through this program, you will boost your skill set and open the door to rewarding career options.

Course code: D355
Years (full time): 4
Campus: Burwood, Waterfront, Warrnambool
Intake: T1 (March)
2020 annual fee: A\$33 800
IELTS score: 7/7

Structure

This degree comprises 32 credit points, including 26 core units.

Careers

Graduates find work as a registered nurse and/or a registered midwife in hospitals, clinics, community health centres, schools and maternity services.

Related degrees

Bachelor of Nursing

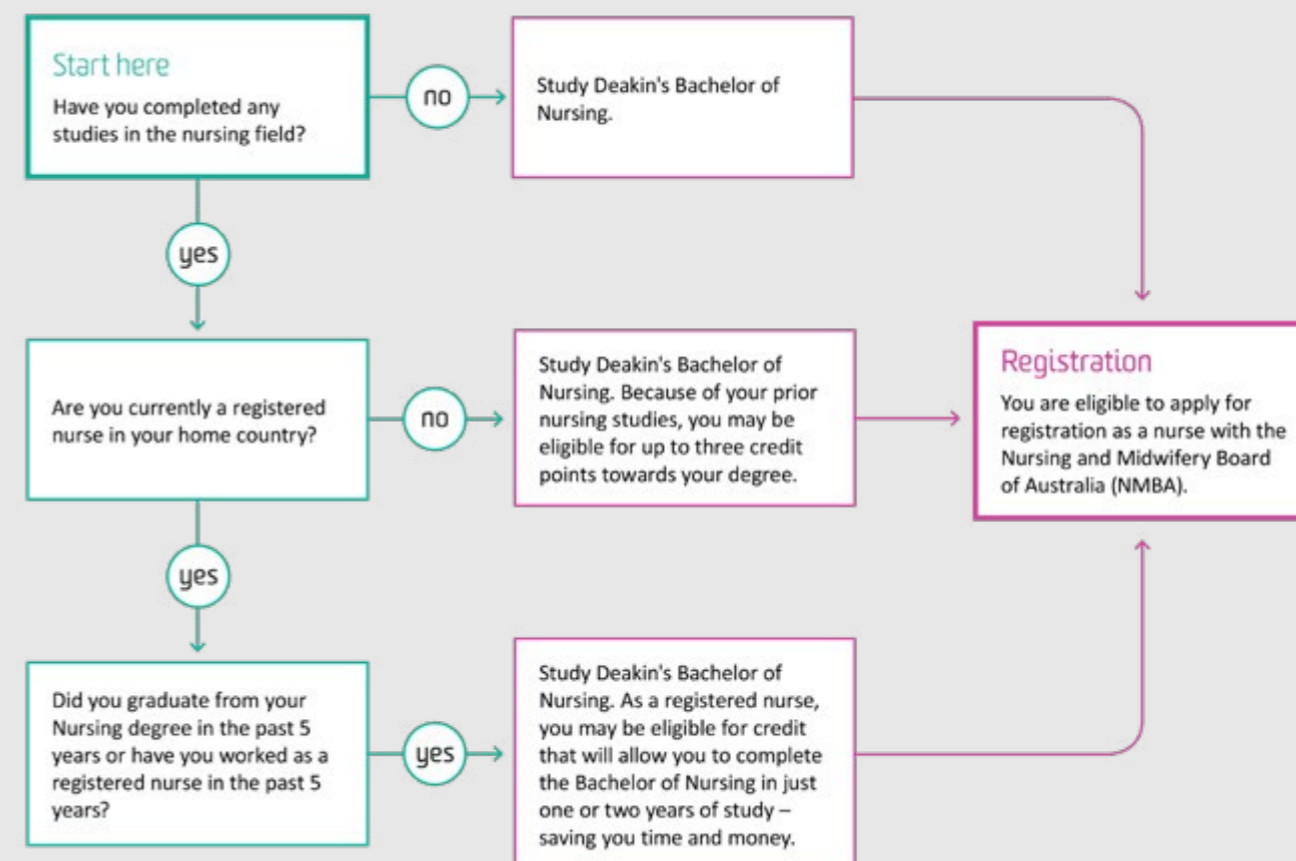

* This intake is available to: (1) students who are registered or eligible to register as an enrolled nurse with the Nursing and Midwifery Board of Australia (NMBA) (all campuses available); or (2) students who are a Registered Nurse in their home country and meet the course's Credit for Prior Learning requirements (Melbourne Burwood and Geelong Waterfront campuses only).

^ This intake is available to students who are eligible to register as an enrolled nurse with the Nursing and Midwifery Board of Australia (NMBA). Students will study at the Melbourne Burwood Campus in Trimester 3 then return to their enrolled campus (if this is not the Melbourne Burwood Campus).

Your pathway to becoming a registered nurse

Deakin's undergraduate nursing degrees are specifically designed to fulfil the registration standards of the Nursing and Midwifery Board of Australia (NMBA). The diagram below highlights the study options available to achieve NMBA registration as a registered nurse.

Bachelor of Nutrition Science

Course information

Course code: H315
Years (full time): 3
Campus: 3
Intake: T1 (March), T2 (July)
2020 annual fee: A\$35 600
IELTS score: 6.5/6

Structure

24 credit points, including:

- 12 core units
- 6 HSN-coded* selective units
- 6 elective units.

Careers

Graduates are well prepared for careers requiring knowledge of nutrition and health in different populations and life stages, diet and disease relationships, food sustainability, food composition and analysis, and food policy. Students completing the food innovation major will be prepared for careers requiring knowledge of consumer behaviour, sensory analysis, product development, food quality and safety, food manufacturing. You may also gain employment in food policy, food regulation, consumer education and awareness campaigns, and community nutrition.

Related degrees

- Bachelor of Nutrition Science/ Bachelor of Commerce
- Bachelor of Exercise and Sport Science/Bachelor of Nutrition Science

Further study

- Bachelor of Food and Nutrition Sciences (Honours)
- Master of Dietetics
- Master of Nutrition and Population Health

* HSN-coded refers to the coded name of the elective units, such as HSN223 Sensory Evaluation of Food and HSN307 Sports Nutrition: Theory and Practice.

Course overview

Gain an understanding of how food impacts health and the role of nutrition in disease prevention, as well as the complexities of current issues relating to food and human health.

Deakin's Bachelor of Nutrition Science addresses all aspects of human nutrition and food relevant for employment in the health industry. To add diversity to your degree, you may choose to undertake elective units in complementary areas, such as food innovation, health promotion, psychology, physical activity and health, exercise science, and more.

If you are interested in a career in nutrition and food but have not studied chemistry at school, you will be happy to know that it is not a prerequisite for studying this program. This course provides an opportunity to complete the prerequisites required to apply for Deakin's Master of Dietetics, and is a direct pathway for students to apply into the Master of Human Nutrition or Master of Nutrition and Population Health.

Work experience

You may choose to undertake an industry placement elective unit and/or volunteer unit to gain hands-on experience while completing your degree.

Bachelor of Arts (Psychology)

Course overview

Study people's behaviour, their cognitive processes, and the factors that influence all of us to think and act in different ways. The Bachelor of Arts (Psychology) combines research-based and professional studies in psychology with the many benefits of pursuing a Bachelor of Arts. These include the development of critical and systematic thinking skills, cross-cultural awareness, and an appreciation of the broader contexts in which societies operate. Following successful completion of this degree, graduates may apply for a fourth year of psychology study (including Deakin's Graduate Diploma of Psychology or honours in psychology). The Bachelor of Arts (Psychology) (Honours) is only available to Deakin graduates.

Professional recognition

Deakin's Bachelor of Arts (Psychology) with a 10-credit-point major in psychology is accredited by the Australian Psychology Accreditation Council (APAC) and enables you to undertake additional study in pursuit of provisional registration.

Bachelor of Psychological Science

Course overview

Psychology is a scientific discipline that studies the mind and its processes, behaviour and mental states. There is increasing emphasis on mental health in the modern world and employment prospects in the area continue to grow accordingly. Deakin's Bachelor of Psychological Science covers behavioural and clinical neuroscience, child and adolescent psychology, relationships and the psychology of groups, personality, cognitive psychology, forensic psychology and psychopathology. Following successful completion of this degree, graduates may apply for a fourth year of psychology study (including Deakin's Graduate Diploma of Psychology or honours in psychology).

Work experience

You have the opportunity to strengthen your employment prospects and knowledge by electing to undertake a psychology internship unit in your second year of study. You will gain 140 hours of practical industry experience, making you job-ready.

Professional recognition

Deakin's Bachelor of Psychological Science is recognised for registration purposes by the Psychology Board of Australia, accredited by the Australian Psychology Accreditation Council (APAC), and enables you to undertake a fourth year of study in psychology in pursuit of provisional registration.

The right degree for you

Wondering whether to study Deakin's Bachelor of Psychological Science or Bachelor of Arts (Psychology)? It depends on your interests. The Bachelor of Psychological Science explores clinical and behavioural psychology, and focuses on the affect our mental health has on relationships and our wellbeing. The Bachelor of Arts (Psychology) allows you to combine your study of psychology with other areas, from sociology to creative writing. Both courses contain the accredited major sequence in psychology, ensuring you are on the right pathway if you would like to apply for provisional registration as a psychologist.

Course information

Course code: H344
Years (full time): 3
Campus: Burwood, Waurn Ponds, Cloud *
Intake: T1 (March), T2 (July)

- Graduate Diploma of Psychology
- Master of Clinical Psychology
- Master of Organisational Psychology

^{*} Available for Trimester 1 intake only.
[^] Deakin's Bachelor of Psychological Science (Honours) is only offered to Deakin graduates, however Deakin's Graduate Diploma of Psychology is open to non-Deakin graduates.

Pathways to full registration

To obtain registration as a provisional psychologist, you will need to complete four years of psychology studies recognised by the Psychology Board of Australia. After completing a Deakin undergraduate psychology degree there are a number of further study options you can take to be eligible for registration. The following diagram provides an overview of potential pathway options.

^{*} Students must complete the 10-credit-point major in psychology

Bachelor of Biomedical Science

Course information

Course code: S323
Years (full time): 3
Campus: Burwood, Waurin Ponds
Intake: T1 (March), T2 (July)
2020 annual fee: A\$36 400
IELTS score: 6/6

Structure

24 credit points, including:

- 15 core units
- 3 elective units
- 6 major sequence units
- 3 zero-credit-point units (laboratory and fieldwork safety, work placements and academic integrity).

Careers

Biomedical science provides opportunities in a range of health-related industries, including medical research, genetic engineering, the pharmaceutical industry, pharmaceutical/medical sales and laboratory technology. You could also advance to honours or postgraduate studies, enhancing your professional development as a scientist, which will complement your scientific training and broaden your career opportunities. Deakin also offers three preferential places into the Doctor of Medicine for international students who successfully complete our Bachelor of Biomedical Science and meet the Doctor of Medicine admission criteria.

Further study

- Bachelor of Science (Honours)
- Doctor of Medicine

Course overview

Biomedical science covers the science underpinning medical applications, from basic biology to specific disease processes. Deakin's Bachelor of Biomedical Science focuses on causes, diagnosis and treatment of disease at the molecular, cellular and system levels. You will learn from both scientific and health perspectives, and will gain practical experience in the laboratory. You will have the opportunity to explore a range of elective units across the University. These may include studies in psychology, nutrition or animal behaviour. Exploring these different areas means you gain a holistic perspective of biomedical science and the many fields in which biomedical science professionals work.

Major sequences

Environmental health B WP
Infection and immunity B WP
Medical biotechnology B WP
Medical genomics B WP
Molecular life sciences B WP
Pharmaceutical science B WP

Work experience

Professional practice in bioscience is a compulsory unit in this degree. This means you will have a minimum of 80 hours of work experience in a course-related organisation, giving you insight into your future career options. You can also elect to study a range of placement and industry-based learning units, bringing together theory, site studies and laboratory investigations.

Your pathway to medicine

If you are interested in a career as a medical doctor, the Bachelor of Biomedical Science can be your first step.

Deakin offers three preferential places into Deakin's Doctor of Medicine for international students who successfully complete our Bachelor of Biomedical Science and meet the Doctor of Medicine admission criteria.

Find out more at deakin.edu.au/medicine/study-options/international-admission.

Highly ranked

Deakin's medicine programs are among the best in the world. We have been ranked in the Top 250 universities worldwide for medicine by QS World University Rankings by Subject 2019. These rankings are informed by academic and employer reputation, as well as research impact.

Bachelor of Environmental Science

Play a vital role in creating a sustainable future for the Earth. Deakin's courses in environmental science have a strong focus on fieldwork and practical experiences. We offer degrees in Environmental Management and Sustainability, Marine Biology, or Wildlife and Conservation Biology.

First-class facilities and equipment

Your learning is enhanced by the use of state-of-the-art facilities and equipment, such as a Geographic Information Systems (GIS) laboratory, wildlife tracking technology, aquaculture facilities, infrared motion sensing wildlife cameras, high-tech research laboratories, research vessels and remotely operated underwater vehicles.

Deakin is also a significant partner at the Queenscliff Marine Research Centre, providing students with access to laboratories and a variety of remarkable nearby marine and coastal ecosystems.

For Deakin marine students, researchers have developed Deakin's purpose-built research vessel *Yolla* – which houses one of the most advanced sonar systems in the world – and have created a detailed continuous map of Victoria's sea floor habitats. This data is playing a key role in supporting fishery and conservation management of the state's marine environments.

Professional recognition

After graduating and gaining experience working in industry, you will be eligible to become a Certified Environmental Practitioner through the Environment Institute of Australia and New Zealand.

Work experience

Professional Practice is a core unit in all of Deakin's environment degrees. It allows you to complete a placement for a minimum of two weeks (at least 80 hours) within a relevant, course-related organisation. A number of elective units also offer you the opportunity to gain extensive practical experience, including undertaking a Global Environment Placement, Global Science Placement, Industry Based Learning, Career Placement or a STEM Placement.

Hands-on learning

All of Deakin's environment degrees have a focus on hands-on learning, with experiences taking place from year one. Depending on the degree you choose, you may learn skills such as measuring the health of freshwater environments, coastal planning, surveying wildlife populations, conducting sustainability assessments and studying seals and penguins.

For example, students will undertake work in places such as:

- community environment parks and sustainability centres where you will learn about sustainable communities, green technologies and community engagement with diverse stakeholders;
- urban parks where students learn how to conduct vegetation surveys, analyse water quality, map soils and microclimates, and analyse groundwater pollution and water table profiles;
- businesses to analyse waste management programs and develop waste management strategies and environmental improvement programs;
- national parks to learn about scientific research, data analysis and teamwork, and to gain experience handling animals such as bandicoots, potoroos, antechinus, possums and gliders.

Other activities undertaken include GPS and GIS exercises, radio-tracking, camera trapping and bird surveys.

Bachelor of Environmental Science (Environmental Management and Sustainability)

Learn to manage the interaction between people and the environment, and at the same time meet society's needs for clean water, fresh air and healthy soils through the sustainable use of natural resources, environments and ecosystem services. Design your own career direction by choosing elective units in areas such as wildlife management, coastal and marine management, environmental sustainability, natural resources management, environmental protection, and environmental policy and planning.

Course information

Course code: S398
Years (full time): 3
Campus: Burwood
Intake: T1 (March), T2 (July)
2020 annual fee: A\$36 000
IELTS score: 6/6

Structure

24 credit points, including:

- 15 core units
- 9 elective units
- 3 zero-credit-point units (laboratory and fieldwork safety, work placements and academic integrity).

Careers

Career opportunities include environmental planning, environmental policy, sustainability, environmental protection, climate change adaptation and mitigation, industry-based environmental management, waste management, environmental education, catchment management, water resource management, land rehabilitation, pollution control, environmental science, wildlife management, conservation, and coastal and park management.

Further study

Bachelor of Environmental Science (Honours)

Bachelor of Environmental Science (Marine Biology)

This course allows you to study temperate marine biology in a marine environment that has some of the highest biodiversity in Australia. The degree has a strong ecological focus, linking biological and oceanographic processes in the study of marine environments. Conduct fieldwork, learn in natural marine environments, and access world-class facilities and equipment such as a Geographic Information Systems (GIS) laboratory, infrared sensing wildlife cameras and remote-operated underwater research vehicles.

Course information

Course code: S399
Years (full time): 3
Campus: Warrn Ponds
Intake: T1 (March), T2 (July), T3 (November)
2020 annual fee: A\$36 000
IELTS score: 6/6

Structure

24 credit points, including:

- 21 core units
- 3 elective units
- 3 zero-credit-point units (laboratory and fieldwork safety, work placements and academic integrity).

Careers

Diverse career opportunities include fishery officer, marine biology consultant, laboratory technician, marine biology tour guide, local government environmental officer, aquaculture manager and sustainability project officer, as well as moving into research or pursuing postgraduate study.

Further study

Bachelor of Environmental Science (Honours)

Bachelor of Environmental Science (Wildlife and Conservation Biology)

Deakin's wildlife and conservation biology degree focuses on areas such as biodiversity, wildlife ecology, landscape and vegetation management, conservation, animal biology and park management. Get out of the classroom and into nature: learn skills such as handling native animals, measuring the health of ecosystems, surveying wildlife populations and conducting sustainability assessments.

Course information

Course code: S393
Years (full time): 3
Campus: Burwood
Intake: T1 (March), T2 (July), T3 (November)

IELTS score: 6/6

Structure

24 credit points, including:

- 15 core units
- 9 elective units
- 3 zero-credit-point units (laboratory and fieldwork safety, work placements and academic integrity).

Careers

Graduate ready to take up challenging roles such as wildlife officer, conservation officer, wildlife manager, park ranger, project officer, research scientist, wildlife biologist, conservation biologist or landscape ecologist.

Further study

Bachelor of Environmental Science (Honours)

Bachelor of Science

Course overview

Science plays a key role in finding solutions to global issues. These can range from the impact of climate change and reducing our carbon footprint, to stem cell research and forensic/criminology science. Deakin's Bachelor of Science allows you to explore a wide range of science-related study areas and specialise in at least one area of interest. The degree is about more than just laboratory work, and prepares you for many of the real-life settings in which today's science graduates work. Throughout the degree you will gain experience through practical programs undertaken in modern teaching laboratories; complete a community science project; and establish valuable professional networks prior to graduation.

Bachelor of Forensic Science

Course overview

This degree provides formal training in the skills and techniques needed in the forensic field, including the examination and presentation of scientific evidence. It exposes you to the full scope of modern forensic science, from simulated crime scenes to courtroom presentations. You will learn how to apply forensic analysis, including chemical, biological and physical techniques, while also learning about the Australian legal system. You will cover forensic chemistry and toxicology, arson and explosives investigations, analysis of illicit drugs, and also undertake studies in criminology. You will also gain practical experience by spending time in our unique crime scene training facility, which simulates real-world situations faced by forensics professionals.

Major sequences

Forensic biology WP
 Forensic chemistry WP

Professional recognition

Deakin is the first university in Australia – and the only university in the Asia-Pacific region – to offer a professionally-accredited forensic science degree. The Bachelor of Forensic Science is accredited by the Chartered Society of Forensic Sciences.

Course information

Course code: S324
 Years (full time): 3
 Campus: Waurm Ponds
 Intake: T1 (March), T2 (July)
 2020 annual fee: A\$36 000
 IELTS score: 6/6

Structure

24 credit points, including:

- 11 core units
- 1 major sequence of study in either forensic chemistry or forensic biology
- 3 zero-credit-point units (laboratory and fieldwork safety, work placements and academic integrity).

Careers

Graduates may find work in areas such as forensics, insurance investigation, risk analysis, research science, in government institutions and within chemical, food and pharmaceutical industries.

Bachelor of Zoology and Animal Science

Course information

Course code: S369
Years (full time): 3
Campus: Waurin Ponds
Intake: T1 (March), T2 (July)
2020 annual fee: A\$36 000
IELTS score: 6/6

Structure

24 credit points, including:

- 18 core units
- 6 elective units
- 3 zero-credit-point units (laboratory and fieldwork safety, work placements and academic integrity).

Careers

Career opportunities include government environmental monitoring, private and environmental consulting, museums, school and university education, primary industries, quarantine and wildlife biology. Successful completion of the degree may also lead to opportunities for further study, including postgraduate research training. The course may also be a potential pathway to veterinary science programs (subject to specific entry requirements).

Further study

Bachelor of Science (Honours)

Course overview

Gain an understanding of the form and function of different animals and how they are adapted to their environment, including diversity, ecology, behaviour, physiology, genetics and evolutionary biology. Deakin's Bachelor of Zoology and Animal Science has a strong focus on Australian fauna and their unique importance to the global environment. The social and economic impact that human activity has on animals and their ecosystems and vice versa is also explored.

Work experience

A professional practice unit gives you the opportunity to complete a placement as part of your course. This means you will have a minimum of 80 hours work experience in a course-related organisation, giving you insight into your future career options. You also have the opportunity to undertake an industry-based learning experience as part of the Faculty of Science, Engineering and Built Environment's work-integrated learning program.

The longest running degree

There's a reason Deakin's sport management course attracts the greatest talent the nation has to offer: it is the oldest and most prestigious course of its kind in Australia!

Bachelor of Business (Sport Management)

Course overview

People working behind the scenes in sport are often just as important as the players on the pitches, courts and fields. Sport management is about managing organisations that conduct sporting competitions, major events and community programs that encourage participation in sport. It also relates to the management of organisations involved in sporting goods, manufacturing, retail, promotion, and more. Deakin's Bachelor of Business (Sport Management) teaches you about the business aspects of sport, including sport systems and organisations, finance, promotion, management and law. Equipping you for roles in national and state organisations – as well as sporting goods manufacturers, facility designers, player agents and beyond – this degree is perfect for anyone who would love to work in the exciting world of sport.

Leader in sport management

Deakin has a long-standing reputation for excellence in sport education, which is why more students choose to study sport at Deakin than any other university in the Australian State of Victoria. We are currently ranked in the world's top 10 for postgraduate sport management programs, and we are the only Australian program to make it into the top 40. Even better news – our graduate salaries are fifth highest in the world.*

Careers

Graduates may work in coaching, the leisure industry, sports science and in community sports development. Employment areas may include sport coaching and leadership; elite sport pathway development; sport policy development and management; sport and recreation coordination and management; community and participation development; sport development through inclusion, diversity and access; and facilities development and management.

Course overview

Sport development at Deakin is distinctive due to its unique focus on three study streams: sport management and marketing, coaching and exercise, and sport science. Through Deakin's Bachelor of Sport Development, you will build an understanding of sport programs and pathways; contemporary health and community development approaches; and the organisation, management and governance of sport organisations. The course is focused on the quality of sport outcomes at all levels through the design of sport systems to attract, retain and nurture participants. You will learn how to develop coaching programs and sport development philosophies, and examine theoretical aspects of the science of coaching and how sport is used as a vital tool for community development. You will undertake analysis on agencies and organisations within the sports industry while examining and developing the skills utilised by professional sport managers.

Who we work with

Deakin works with industry to bring you the most relevant knowledge and skills. Organisations we work with include:

- Baker IDI Heart and Diabetes Institute
- Disability Sports Australia
- Exercise Research Australia
- Geelong Football Club
- VicHealth
- Victorian Institute of Sport
- YMCA Australia.

Bachelor of Exercise and Sport Science

Course overview

Learn how to apply exercise and sport science to improve the athlete, the team or the individual through training, coaching and advice. The Bachelor of Exercise and Sport Science will prepare you to become a professional leader in exercise and sport science and allied fields. You will have the opportunity to study the biological, sociological and behavioural bases of exercise and sport science. This degree provides a direct pathway for students to apply into the Master of Clinical Exercise Physiology.

Work experience

A minimum 140 hours of practical experience in your final year is a core feature of this degree. This practical experience – which includes up to 13 exercise science discipline areas – combined with one-on-one career mentoring by staff, sets you apart from other graduates. You will also complete 80 hours of practical experience focusing on exercise delivery, bringing your total practical experience up to 220 hours throughout the degree.

Major sequences

Exercise physiology **B** **WP**
Applied sport science **B** **WP**
Physical activity and health **B** **WP** **WB**
Sports nutrition **B** **WP**
Sport coaching **B** **WP**
Strength and conditioning **B** **WP**
Psychology **B** **WP** **WB** **C**
Nutrition **B** **WP**
Health promotion **B** **WP** **WB** **C**
Family, society and health **B** **C**
Disability and inclusion **B** **C**

Professional recognition

Deakin's Bachelor of Exercise and Sport Science is accredited by Exercise and Sport Science Australia (ESSA), and is the first and longest-standing nationally accredited undergraduate exercise and sport science program in Victoria. All graduates are eligible to apply for accreditation with ESSA as an Accredited Exercise Scientist.

Course information

Course code: H343
Years (full time): 3
Campus: Burwood, Waurin Ponds
Intake: T1 (March), T2 (July)
2020 annual fee: A\$36 000
IELTS score: 6.5/6

Structure

24 credit points, including:

- 16 core units
- 8 elective units.

Careers

You may work in sports administration, facility management, community health and wellness, rehabilitation or health promotion. Potential employers include government agencies, professional sporting bodies, hospital and rehabilitation clinics, fitness and aquatic centres, and health centres.

Related degrees

Further study

- Bachelor of Exercise and Sport Science (Honours)
- Master of Clinical Exercise Physiology

One of the best

Deakin's School of Exercise and Nutrition Science is ranked **#3** in the world and **#1** in Australia for Sport Science by the prestigious ShanghaiRanking's Global Ranking of Sport Science Schools and Departments. So you can be confident that your degree will be valued by employers everywhere.

Research and honours

After completing a bachelor degree at Deakin University, you may be interested in continuing your studies through an honours year, or even a research degree. Deakin offers a number of further study opportunities, and we invite you to explore these by visiting deakin.edu.au/international.

Research at Deakin

At Deakin, we are proud to provide our research students with access to world-class facilities, a network of academic supervisors who are leaders in their fields, and a large range of research disciplines.

Deakin's research portfolio extends across many areas, including advanced materials, biotechnology, built environment, ageing and chronic illness, citizenship and globalisation, intelligent systems, natural resource management, physical activity and nutrition, education, social and mental health, and more. Using our industry, government and institutional networks, Deakin is building our global research footprint across four key themes, supported by world-class research institutes and strategic research centres. The themes are:

Improving health and wellbeing

Covering the broad spectrum of health, our research is helping to improve the lives and wellbeing of people and communities on a global scale. From medicine, ageing, chronic illness and disability to nutrition, physical activity and child health, we are continuously striving to discover more through ground-breaking research.

Designing smarter technologies

Deakin is a world leader in carbon and short fibre, metals and steel research, electromaterials, corrosion, nanotechnology and composite materials. We are home to some of the best future-focused engineering and design facilities in the Australian university sector.

Enabling a sustainable world

Deakin leads one of the world's most prestigious environmental and marine science research programs. Our ecologists and evolutionary biologists are helping to protect Australia's vulnerable flora and fauna from disease, rapid development and climate change. In agriculture, we are developing more sustainable practices and technologies that improve water and land management, and enhance rural and regional productivity.

Advancing society and culture

Deakin research is helping to advance understanding of intercultural relations, politics and governance. We are also working to shape the future of education, art and culture in Australia and around the world.

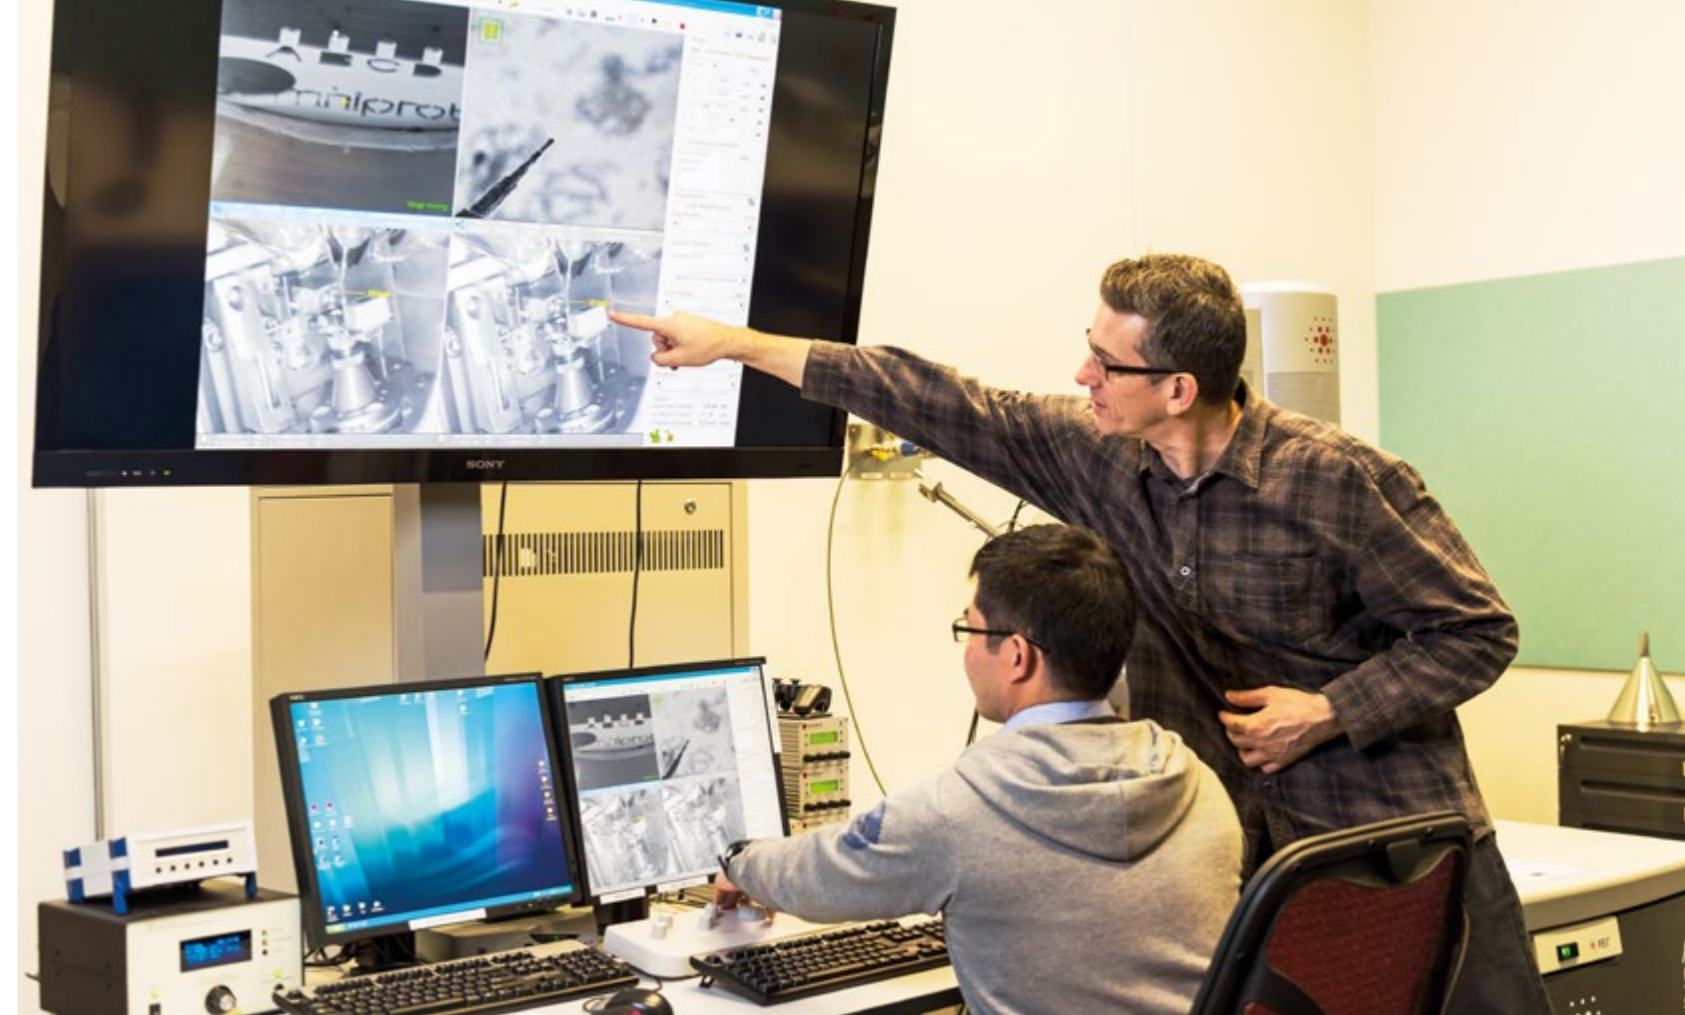

Research degrees

You can pursue postgraduate research studies in three different ways:

- Masters by research, which is awarded for an original contribution to knowledge, achieved in up to two years of full-time candidature or part-time equivalent
- Doctor of Philosophy (PhD), which is awarded for a substantial original contribution to knowledge, achieved in two to four years of full-time candidature or part-time equivalent
- Doctor of Psychology (DPsych), which is a professional doctorate program that combines a research project, coursework and structured research tasks that specifically relate to professional practice.

Research rankings

Our strong commitment to research can be seen in Deakin's excellent performance in the ShanghaiRankings, which has positioned Deakin in the Top 1% of universities worldwide. The University has also been ranked among the Top 50 young universities in the world by *Times Higher Education* and QS. We have about 1800 higher degree by research candidates – smart people making the most of our excellent facilities, partnerships, research institutes, strategic research centres and excellent reputation.

Honours degrees at Deakin

If you are a high-achieving student set to finish your bachelor degree at Deakin, you might have the opportunity to undertake an honours degree with us. Honours is a specialised year of study drawing together the theory and practical skills gained in your undergraduate studies. Studying at the honours level is a great way to get valuable research experience, improve your career opportunities or specialise in an area that you love. You will develop your knowledge of your chosen discipline through research and additional course work. Honours students are encouraged to take part in research seminars and forums and to present their research at conferences.

At Deakin you can apply to undertake honours in one of two ways:

On-course honours award

Choose a course that has honours embedded within the course, e.g. Bachelor of Occupational Therapy. This type of honours award recognises outstanding achievement in a bachelor degree program of four or more years that has an embedded honours component.

Research-based honours award

Choose a course that allows you to undertake an additional year of study, e.g. Bachelor of Arts. This type of honours award allows you to undertake specialised research and research training while being supervised by an academic with a proven research record.

These honours awards will provide you with significant experience and exciting opportunities to expand your skill base before moving onto employment or postgraduate study. An honours award also provides the standard (and shortest) pathway for entry into research degrees.
