## 1. Introduction to Jiangsu University

Jiangsu University (JSU) is located in Zhenjiang city of Jiangsu Province, China. JSU is renowned for its English taught programs with 13 bachelor courses ranked amongst the top English courses offered in China. Currently over 2,000 international students from more than 114 countries study bachelor, master, Ph.D. and non-degree courses on campus. The university is gaining popularity for innovative teaching and colorful college life. Mixing class-work with proper immersion in extracurricular activities has always been proven to be the best academic system with the most promising results. This is actually how our success works.

With over 100 years of history, JSU has developed into a comprehensive university. Located in a pleasant city, Zhenjiang provides students with more chance to experience typical Chinese culture and heritage. JSU's rankings are taking pace to the top rapidly. Currently, JSU is listed in the world's top 1 000 universities; Asia's Top 200 and also Top 200 in universities among BRICS and Emerging Economies according to the Times Higher Education.

JSU enjoys a national reputation of being among the top research-based academic institutions for engineering sciences with several innovative awards and patents for its achievement and contribution to China. Other academic disciplines have also witnessed considerable growth in their research faculty and the quality of graduates they turn out yearly. This has continually made the university enjoy an influx of international students from all continents with resultant increased growth in linkages and exchange programs with other educational institutions around the world.

## 2. Bachelor Programs

### 2.1 What Makes JSU's Bachelor Programs Unique ?

#### Hands-on Experience

We take education out of the classroom and into the professional world by placing our education in experiential learning and internships.

#### Better Understanding

Our students learn basic and advanced professionalism and the impact of education on an organization's profitability and sustainability.

#### Responsible Best-practices

The importance of ethical, social, moral and personal responsibility is integrated throughout the coursework. It's embedded in our classrooms and within our experiential learning activities.

#### Global Perspective

We delve into the global environmental impact on study fields. Our courses impart knowledge about how practices differ from other countries and cultures.

#### Integrated Curriculum

We establish principles for each major, and these become themes that are pursued through the curriculum and any experiential experiences. It is part of our effort to help students retain what they are learning and to offer them a foundation to draw upon throughout their collegiate career and beyond.

## 2.2 Bachelor Programs in English Medium

Bachelor programs in English medium are organized into six groups:

Group	Categories	Majors
1	Business & Economics	1. Accounting 2. Business Administration 3. Corporate Finance 4. E-Commerce 5. International Economics & Trade
2	Mechanical Engineering & Mechanics	6. Mechanical Design, Manufacturing & Automatization 7. Materials Science & Engineering
3	Food, Chemistry & Pharmacy	8. Chemical Engineering & Technology 9. Food Science & Engineering 10. Pharmacy
4	Computer Science	11. Computer Science & Technology
5	Civil engineering	12. Civil Engineering
6	Medicine	13. Clinical Medicine (MBBS)

\* Students admitted for a specific group will study one year together with all students who are in the same group, with the possibility to change their major after completing first year.

# Business & Economics

S/N	Name of Program	Duration	Seats
1	Accounting	4 years	15
2	Business Administration	4 years	30
3	Corporate Finance	4 years	15
4	E-Commerce	4 years	15
5	International Economics & Trade	4 years	30

# Accounting

## Program Introduction

Accounting provides relevant information about decision-makers, managers, investors, creditors, labor unions, government regulators and others interested in the financial circle and future of an entity of economic activity. Students mainly study the basic theory and methods in accounting and business administration. Accounting is a pathway to a range of careers for aspiring leaders who want to play an important role in driving organizational success. Students will develop analytical reasoning and data skills to equip them with the ability to make strategic business decisions.

## Key Courses

Principles of Management; Micro Economics; Macro Economics; Economic Law; Fundamental Accounting; Financial Accounting; Financial Management; Management Accounting; Auditing; Accounting Practice of Informatization; Cost Accounting.

**Program Duration:** 4 Years

**Tuition:** 18,000 CNY per Academic Year

**Scholarship:** Presidential Scholarship

**College or Department:** School of Finance and Economics

**Graduation Requirements:** Pass all credits; Finish graduation project and defense; Pass HSK level 4

**Degree Awarded:** B.Sc. Acc

# Business Administration

## Program Introduction

In this four-year programme, students will learn about management principles and practices, market influences, operations, finance and communication, and more. The broad curriculum ensures student master the basic skills and methods of Business Management. They get familiar with knowledge of Business Regulation, Trade Rules and Economic Performance Analysis. Students also have access to the different SEMs lab and participate in quantitative and qualitative data collection, processing and usage of management software.

## Key Courses

Principles of Management; Operation Management; Principles of Economics; Human Resource Management; Operational Research; Organization Behavior; Management Information System; Business Operation Strategy; Business Statistics; Economic Law; Accounting; Business & Ethic; Financial Management; Management Communication; Marketing; International Trade.

**Program Duration:** 4 Years

**Tuition:** 18,000 CNY per Academic Year

**College or Department:** School of Management

**Graduation Requirements:** Collect all credits; Finish graduation project and defense; Pass HSK level 4.

**Degree Awarded:** B.Sc. B.B.A

# Corporate Finance

## Program Introduction

The School of Management offers undergraduate program to students interested in pursuing a bachelor's degree in Corporate Finance (FC). Corporate Finance, as the honorary program in our University, provides students plentiful academic experiences and promising career life. This program introduces the latest financial theories and international accounting standards on public companies, multinational companies and international capital markets. Accountant is one profession we develop and reshape you for, with wider perspectives of management for both Chinese local and international corporations.

## Key Courses

Courses include Financial Management (from primary to advanced), Accounting (IFRS), Managerial Accounting, Corporate Financial Management, Financial Analysis, International investment, Multinational Financial Management, International Accounting, International Settlement.

**Program Duration:** 4 Years

**Tuition:** 18,000 CNY per Academic Year

**Scholarship:** Presidential Scholarship

**College or Department:** School of Finance and Economics

**Graduation Requirements:** Collect all credits; Finish graduation project and defense; Pass HSK level 4.

**Degree Awarded:** B.Sc. Corporate Finance

# E-Commerce

## Program Introduction

The School of Management offers the undergraduate program to students interested in pursuing a bachelor's degree in Electronic Commerce (EC). This program aims to train high-level, inter-disciplinary, specialized and innovative talents who have the knowledge of management, economics, law, computer science, electronic commerce and have the Humanistic spirit, scientific quality, credibility and integrity.

## Key Courses

Principle of Management, Economics, Electronic commerce, Electronic commerce network and communication, Database principle and application, Electronic commerce security and payment, Internet marketing planning and practice, Customer relationship management, Business big data analysis and mining, Electronic commerce webpage and website design.

**Program Duration:** 4 Years

**Tuition:** 18,000 CNY per Academic Year

**Scholarship:** Presidential Scholarship

**College or Department:** School of Management

**Graduation Requirements:** Collect all credits; Finish graduation project and defense; Pass HSK level 4.

**Degree Awarded:** B.Sc. Electronic Commerce

# International Economics and Trade

## Program Introduction

The program aims to cultivate of advanced, specialized and interdisciplinary talents for doing business and management in foreign economies & trade sectors and multinational companies. Graduates will have a good mastery of the fundamentals of economics, basic theories and practice of international trade, the development of modern international economics & trade, social, economic, and cultural conditions of major trading partners, and the present status and future trends of modern science & technology. Graduates will be familiar with the prevailing rules and practices of international trade as well as China's foreign economic, trade policies and regulations.

## Key Courses

Principles of Management; International finance; Microeconomics; Theory of international trade; Macroeconomics; Practice of international trade; International marketing; Statistics; World economy; Money & banking; Commodity studies of foreign trade; Econometrics; Multinational management; International technology trade; International business negotiation

**Program Duration:** 4 Years

**Tuition:** 18,000 CNY per Academic Year

**College or Department:** School of Finance and Economics

**Graduation Requirements:** Collect all credits; Finish graduation project and defense; Pass HSK level 4.

**Degree Awarded:** B.Sc.IET

# Mechanical Engineering & Mechanics

S/N	Name of Program	Duration	Seats
1	Mechanical Design, Manufacturing and Automatization	4 years	15
2	Materials Science & Engineering	4 years	15

# Mechanical Design, Manufacturing and Automation

## Program Introduction

The discipline is currently the core support discipline of engineering characteristics in Jiangsu University. School of Mechanical Engineering offers four majors for undergraduates ; mechanical design and manufacturing automation, mechatronic engineering, measurement and control technology and instrument, opto-electronic information science and engineering.

## Key Courses

Mechanical engineering; Mechanics; Fluid Dynamics; Basics of Mechanical Manufacturing Technology; Fundamentals of Control Engineering; Electrotechnics & Electronics; Engineering Graphics; Electromechanical Transmission Control

**Program Duration:** 4 Years

**Tuition:** 20,000 CNY per Academic Year

**College or Department:** School of Mechanical Engineering

**Graduation Requirements:** Collect all credits; Finish graduation project and defense; Pass HSK level 4.

**Degree Awarded:** B.M.E.

# Materials Science & Engineering

## Program Introduction

MSE is a major that is concerned with the structures and properties of all engineering materials. After graduation, MSE students have wide basic theory in materials science and technology and can become materials research workers or materials engineers who are responsible for designing, producing, examining and testing diverse materials. Students who graduated with honor can also be engaged in research, education, developments and management related to materials designing and producing, materials processing, manufacturing or other relative fields.

## Key Courses

Engineering Graphics, Fundamental of Material Science, Engineering Mechanics, Engineering Mechanics, Electrical and Electronic Engineering, Material Chemistry, Fundamentals of Machine Design, Thermodynamics of Materials, Inorganic Chemistry, and Analytical Chemistry.

**Program Duration:** 4 Years

**Tuition:** 20,000 CNY per Academic Year

**Scholarship:** Presidential Scholarship and School's scholarship

**College or Department:** School of Materials Science and Engineering

**Graduation Requirements:** Collect all credits; Finish graduation project and defense; Pass HSK level 4.

**Degree Awarded:** B.Sc. Materials Science and Engineering.

# Food, Chemistry & Pharmacy

S/N	Name of Program	Duration	Seats
1	Chemical Engineering & Technology	4 years	15
2	Food Science & Engineering	4 years	15
3	Pharmacy	4 years	30

# Chemical Engineering and Technology

## Program Introduction

A multi-disciplinary branch of engineering that combines natural and experimental science, along with life sciences plus mathematics and economics to design, develop, produce, transform, transport, operate and manage the industrial processes that turn raw materials into valuable products. The Program is based on the studies of basic rules of chemical production processes and fundamental principles, involving of related production processes, researches, designs and optimization in the chemical engineering area.

## Key Courses

Inorganic and Analytical; Chemistry Organic Chemistry; Physical Chemistry; Chemical Engineering Principles; Basic Chemical Equipment Mechanical; Chemical Meters and Automation; Chemical Reaction Engineering; Chemical Engineering Thermodynamics; Chemical Technology; Fine Chemical Technology; Industrial Catalysis; Separation Engineering.

Provincial Key Course: Organic Chemistry.

**Program Duration:** 4 Years

**Tuition:** 20,000 CNY per Academic Year

**College or Department:** School of Chemistry and Chemical Engineering

**Graduation Requirements:** Collect all credits; Finish graduation project and defense; Pass HSK level 4.

**Degree Awarded:** B.Sc. Ch Eng

# Food Science and Engineering

## Program Introduction

The objective is to develop within the student an understanding of the nature, properties, and characteristics of foods as determined through biochemistry, chemistry, microbiology, physics, statistics and nutrition. This program gives students an in-depth understanding of food processing, food texture, flavour, food formulations, product development, and food safety. Students will investigate operations that are applied to preserve foods as well as special procedures that are used to produce everyday commodities.

## Key Courses

Microbiology; Biochemistry; Organic Chemistry; Principle of food engineering; Modern food Detection Technology; Food Processing Machinery and Equipment; Food Analysis.

Food Processing Machinery and Equipment and Modern Food Detecting Techniques have been certified as "National Quality Courses".

**Program Duration:** 4 Years

**Tuition:** 20,000 CNY per Academic Year

**Scholarship:** Presidential Scholarship and School's scholarship

**College or Department:** School of Food and Biological Engineering

**Graduation Requirements:** Collect all credits; Finish graduation project and defense; Pass HSK level 4.

**Degree Awarded:** B.Sc. FST

# Pharmacy

## Program Introduction

Pharmacy focuses on the science and technique of preparing and dispensing drugs. It is a health profession that links health sciences with chemical sciences and aims to ensure the safe and effective use of pharmaceutical drugs. The scope of pharmacy practice includes modern services related to health care, including clinical services, reviewing medications for safety and efficacy, and providing drug information.

## Key Courses

Physical chemistry; Chemical engineering principle; Medicinal chemistry; Pharmaceutical analysis; Pharmacology; Pharmaceutical polymers; Industrial pharmacy; Biopharmaceutics and Pharmacokinetics; Process design workshop

**Program Duration:** 4 Years

**Tuition:** 22,000 CNY per Academic Year

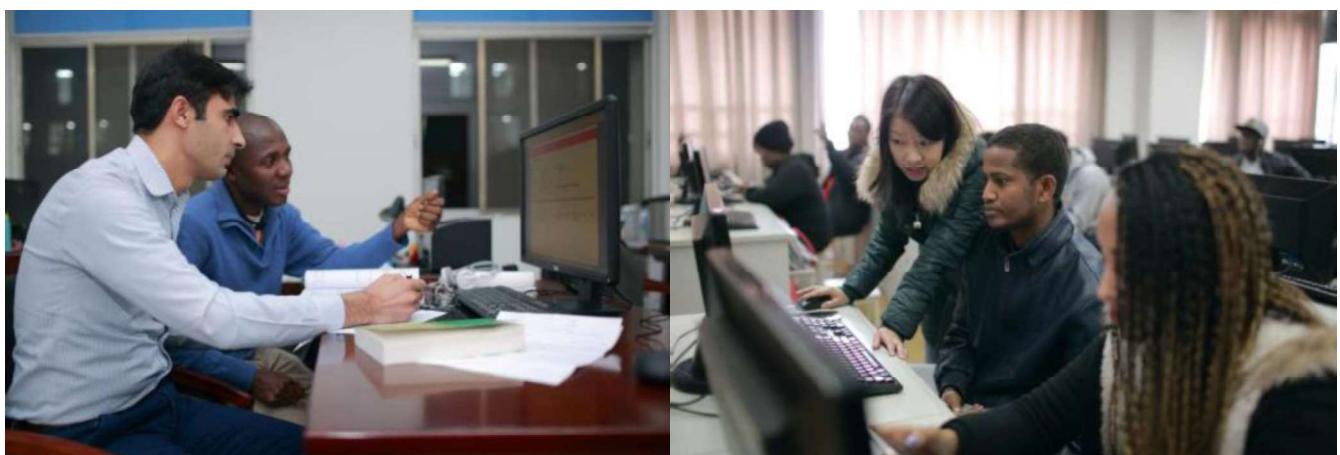

**College or Department:** School of Pharmacy

**Graduation Requirements:** Collect all credits; Finish graduation project and defense; Pass HSK level 4.

**Degree Awarded:** B. Pharm

# Computer Science

S/N	Name of Program	Duration	Seats in 2 Intakes	
			March (Spring)	September (Autumn)
1	Computer Science & Technology	4 years	10	30

# Computer Science & Technology

## Program Introduction

Computer Science program provides a strong technical background for students planning to begin careers upon graduation and for those interested in graduate study in computer science. Students will learn to work with state-of-the-art technologies and select optional modules that suit their interests and career plans, from cloud computing to bio-computation and machine learning. Emphasis is placed on developing both the software programming and hardware design necessary to begin and enhance an individual's career. Graduates of this program are well prepared for immediate employment in either the computer industry or many other businesses that increasingly rely on computer science.

## Key Courses

Programming in C++; Database Principle; Discrete Mathematics; Computer Architecture; Digital Logic Circuit Design; Principles of Microcomputer and Interfacing Technology; Data Structure; Digital Image Processing; Computer Organization; Computer Networks; Operating System; The Design and Analysis of Algorithms; Software Engineering

**Program Duration:** 4 Years

**Tuition:** 20,000 CNY per Academic Year

**College or Department:** School of Computer Science & Communication Engineering

**Graduation Requirements:** Collect all credits; Finish graduation project and defense; Pass HSK level 4.

**Degree Awarded:** B.Sc. CST

# Civil Engineering

S/N	Name of Program	Duration	Seats in 2 Intakes	
			March (Spring)	September (Autumn)
1	Civil Engineering	4 years	10	30

# Civil Engineering

## Program Introduction

Civil engineers make a huge impact on the world we live in and our quality of life. The program is designed to produce high-quality graduates, with a strong spirit of innovation and proficiency in construction technology as well as management. During four years of the program students will gain the relevant knowledge as well as practical skills in geotechnical experiments, computer applications, construction supervision, and engineering structural tests.

## Key Courses

Engineering Mechanics; Steel Structure Design Principles; Structural Mechanics; Bridge Engineering; Foundation Engineering; Road Surveying and Design; Civil Engineering Materials; Civil Engineering Surveying and Construction; Concrete Structure Design Principle; Engineering Economics; Engineering Geology and Soil Mechanics; Architectural Structure Design; Architecture and Planning

**Program Duration:** 4 Years

**Intakes:** March and September

**Tuition:** 20,000 CNY per Academic Year

**College or Department:** Faculty of Civil Engineering and Mechanics

**Graduation Requirements:** Collect all credits; Finish graduation project and defense; Pass HSK level 4.

**Degree Awarded:** B.Sc. CE

# Clinical Medicine

S/N	Name of Program	Duration	Seats in 2 Intakes	
			March (Spring)	September (Autumn)
1	Clinical Medicine (MBBS)	6 years	0	100

# Clinical Medicine (MBBS)

## Program Introduction

Jiangsu University offers a five-year long MBBS program, with an extra year of hands-on internship. The premedical stage addresses not only much of science that underpins medicine, but also the clinical problems that arise when systems fail. Students are introduced to study the major systems of the bodies and their structures. Moreover, they are encouraged to develop an enquiring approach to consider the experimental basis of the course and understand matters of clinical relevance. During the clinical stage, students will have the experience of hospital learning and spend much time with patients.

## Key Courses

Histology; Organic Chemistry; Regional Anatomy; Pharmacology; Surgery; Pediatrics; Emergency Medicine; Internal Medicine; Radio diagnosis; Otorhinolaryngology; Ophthalmology; Geriatrics; Oncology; Neurology

**Program Duration:** 6 Years

**Tuition:** 34,000 CNY per Academic Year

**College or Department:** School of Medicine

**Graduation Requirements:** Collect all credits; Finish graduation project and defense; Pass HSK level 4; Complete 1-year internship.

**Degree Awarded:** M.B.B.S

## 2.3 Bachelor Programs in Chinese Medium

### Science & Engineering

Agricultural Electrification	Food Science and Engineering
Agricultural Mechanization and Automation	Industrial Engineering
Applied Chemistry	Information Safety
Architectural Environment and Energy Application	Internet of Things Engineering
Engineering	Intelligent Manufacturing Engineering
Automation	Intelligent Science and Technology
Biological Technology	Material Shaping and Control Engineering
Biomedical Engineering	Materials Science and Engineering
Chemical Engineering and Technology	Mathematics and Applied Mathematics
Chemistry	Measurement and Control Technology and Instruments
Civil Engineering	Mechanical Designing and Manufacturing
Communication Engineering	Automation
Composite Materials and Engineering	Mechanical Electrical Engineering
Computer Science and Technology	Metallic Materials Engineering
Electrical Engineering and Automation	Metallurgic Engineering
Electronic Information Engineering	New Energy Science and Engineering
Energy and Power Engineering	Optic Information Science and Engineering
Engineering Management	Polymeric Materials Engineering
Engineering Mechanics	Security Engineering
Environmental Engineering	Traffic and Transportation
Environmental Equipment Engineering	Traffic Engineering
Financial Mathematics	Vehicle Engineering
Facility Agricultural Science and Engineering	
Food Quality and Safety	

## Arts & Social Sciences

Animation	Industrial Design
Chinese International Education	Japanese
Chinese Language and Literature	Law
Digital Media Arts	Product Design
English	Visual Communication Design
Environmental Design	

## Economics & Management

Accounting	Insurance
Business Administration	International Economics and Trade
E-Commerce	Logistics Management
Finance	Marketing
Financial Management	Public Affairs Management (Medical Insurance)
Human Resources Management	Statistics
Information Management and Information Systems	

## Medicine & Pharmacy

Clinical Medicine	Pharmaceutical Engineering
Laboratory Medicine Technology	Pharmaceutical Preparation
Medical Imaging	Pharmacy
Nursing	

---

**Program Duration:** 4 Years (Clinical Medicine in Chinese 5 years)

**Intake:** September

All Chinese medium bachelor programs are open to overseas students. Students with good Chinese language proficiency (HSK 4 or above) can apply for Chinese taught programs and join classes with Chinese students. Students applying for bachelor programs will get a 40% discount on tuition fee.

### 3. Master Programs

#### 3.1 Science & Engineering

Agricultural Electrification and Automation	Information and Communication Engineering
Agricultural Engineering	Instrument Science and Technology
Agricultural Mechanization Engineering	Materials Science and Engineering
Biological Medical Engineering	Mechanical Engineering
Chemical Engineering and Technology	Power Engineering and Engineering Thermophysics
Civil Engineering	Traffic Engineering
Computer Science and Technology	Vehicle Engineering
Control Science and Engineering	Biology
Ecology	Chemistry
Electrical Engineering	Mathematics
Electronic Science and Technology	Optical Engineering
Environmental Science and Engineering	Physics
Food Science and Engineering	
Hydraulic Engineering	

#### 3.2 Economics & Management

Accounting	MBA
Applied Economics	Public Administration
Business Administration	Statistics
Management Science and Engineering	

#### 3.3 Arts & Social Sciences

*Chinese International Education (In Chinese)	Library, Information and Archives Management
*Chinese Language and Literature (In Chinese)	Law
Foreign language and Literature	Pedagogy
Fine Arts	

### 3.4 Medicine & Pharmacy

Anesthesiology	Nursing
Chinese Materia Medica	Oncology
Clinical Laboratory Diagnostics	Otolaryngology
Dermatology and Venerology	Pathogenic Organisms
Gynemetrics	Pathology and Pathophysiology
Human Anatomy, Histology and Embryology	Pediatrics
Imaging and Nuclear Medicine	Pharmaceutical Science
Immunology	Surgery
Internal Medicine	
Neurology	

---

Duration for all the above master degree programs is three years (except MBA). The instruction medium could be either English or Chinese. For graduation, students will have to meet all requirements relating to article publishing, thesis writing, defense, etc.

## 4. Ph.D. Programs

PROGRAM DURATION: 4 Years

TEACHING LANGUAGE: English or Chinese

Agricultural Engineering

Clinical Medicine

Computer Science and Technology

Control Science and Engineering

Electrical Engineering

Environmental Science and Engineering

Food Science and Engineering

Instrument Science and Technology

Management Science and Engineering

Materials Science and Engineering

Mechanics

Mechanical Engineering

Power Engineering and Engineering Thermophysics

Traffic Engineering

Vehicle Engineering

---

Duration for all the above Ph.D. degree programs is four years. The instruction medium could be either English or Chinese. For graduation, students will have to meet all requirements relating to article publishing, thesis writing, defense, etc.

## 5. Non-Degree Programs

### 5.1 Summer School - Engineering

JSU's summer school offers a unique experience in Engineering, regardless of your education background. Applicants receive one-week intensive Chinese Language Training. For the following 3 weeks of the programs. Students are free to choose any workshops and get indulged in creativity and innovation in JSU. The following are the list of workshops:

Nondestructive Detection of Food & Agri-product quality

Materials Forming

Programmable Logic Controller (PLC)

Application and Development of Internet

High-Performance CFRP Structure & Eco-concrete Technique

Duration: 1 month

Fees: 3,000 CNY

Intake: July/August (Can also be organized any time for group applicants)

### 5.2 Summer School - Market Research

This program is envisioned as an extension to students' knowledge and understanding of the global marketplace. The learning process is facilitated in the framework of company projects. JSU will provide support and collaboration from a certain number of industry partner companies, willing to take their products/services to the world market. Students will collaborate with companies, through compulsory company visits.

During three weeks of the program students will be introduced to Global Marketing and learn basics on how to do market research. Also this program is meant to help students to discover their potentials and to learn more about work in China.

Duration: 1 month

Fees: 3,000 CNY

Intake: July/August (Can also be organized any time for group applicants)

## 5.3 Visiting Students & Entrepreneurship Programs

All the schools of JSU can accept either long-term or short-term programs of visiting scholars abroad, including English-taught Bachelor Training or Practice Programs, PG research cooperative programs, and Senior Visiting Programs for professors or doctors.

Duration: Flexible

Fees: 3,000 CNY per month (Arts); 4,000 CNY per month (Science)

Intake: Flexible

## 5.4 Pre-University Foundation Program

Prepare for your college study in a dynamic, supportive environment. JSU offers non-credit pre-university courses, and are designed as refresher courses for students who need improvement in the subjects considered essential for related first-year courses at JSU. At the end of the course, students who wish to take bachelor 'sdegree courses at JSU will have to apply for "Admission Entrance Exam for Overseas Students". Students who score well in this exam will be admitted to the next intake for bachelor 's degree students.

Subjects: Mathematics, Physics, Chemistry, English or Chinese Language

Duration: 2 semesters

Fees: 15,000 CNY

Intake: March (1 semester, 7,800 CNY) and September

## 5.5 Discounts & Offers

Special discounts apply to large groups who join the short-term programs.

Groups with >10 Students: 10% Discount

Groups with >20 Students: 20% Discount

Groups with >30 Students: 30% Discount

For customizing your short-term program, please contact the admission office at least two weeks ahead of your arrival.

## 6. Scholarships

JSU offers many kinds of scholarships to international students. For more details about scholarships, please visit our website: <http://oec.ujs.edu.cn/pub/eng/Scholarship/GS/> Overseas Education College (OEC) of JSU keeps the right to explain all scholarships.

### 6.1 China Scholarship Council (CSC)

Funds by: Chinese Government

Scholarship type: Full Scholarship (Tuition + Accommodation + Living Expenses)

Applicants: Students of bachelor, master and Ph.D. programs

Application: Please check the link for application information.

<http://oec.ujs.edu.cn/en/pages?cid=109&id=103>

Visit CSC website: <http://www.csc.edu.cn/laihua/> for scholarship application

---

The Agency Number of Jiangsu University is 10299.

Age limit:

CSC undergraduate (25 years), PG (35), Ph. D. (40)

### 6.2 Confucius Institute Scholarship (CIS)

Scholarship winners are exempt from tuition, accommodation fees on campus, and are provided with monthly living allowance, and comprehensive insurance for foreign students studying in China. Monthly living allowances are provided at the following rates (CNY Yuan per month):

---

Funds by: Hanban

Scholarship type: Full Scholarship (Tuition + Accommodation + Living Expenses)

Applicants: Students of bachelor, master, non-degree

Scholarship Amount: CNY 2,500 for Bachelor's Degree Students, One-Academic-Year Students and One-Semester Students. CNY 3,000 for Master's Degree Students.

## 6.3 Jiangsu University Presidential Scholarship

In order to further develop the education of international students, Jiangsu University provides scholarship for international students getting registered for English-taught degree programs.

Funds by: Jiangsu University

Scholarship type: Partial Scholarship (Discount on tuition)

Applicants: All master and Ph.D. students and some bachelor\* students

Application time: During admission

Scholarship Amount:

Ph.D.s: Full tuition and on-campus accommodation + 5000 CNY Stipend (Type A)

Full tuition and on-campus accommodation (Type B)

Masters: 25,000 CNY per year (Type A)

20,000CNY per year (Type B)

Bachelors: 10,000 CNY in the first year

Bachelor Degree Students from targeted countries: 10,000 CNY/year on tuition

\*English-taught Bachelor programs covered under Presidential Scholarship:

- Food Science and Engineering
- Material Science and Engineering
- E-Commerce
- Corporate Finance

Terms and Conditions:

- Only applicable to overseas students who take English-taught degree programs. Students applying for Chinese-taught bachelor programs can get a 40% discount on tuition fee.
- The JSU Presidential Scholarship to graduate students will be renewed once a year after annual evaluation of the student's performance (awarded scholarship from the second year may increase or decrease according to evaluation points). Refer to our website for more details on JSU presidential scholarship.
- Transferring of major by students who availed JSU Presidential Scholarship in the first year, shall be approved only after the student compensates the scholarship amount back to the university.
- Age Limits: 25 for undergraduates, 30 for masters, 40 for PhDs.
- JSU keeps the right to explain or change the scholarship policy if necessary.

## 6.4 JSU School/Department Scholarships

No.	School/Faculty	Candidate	Funding Period	Coverage (RMB)	Funding Quota
1	School of Mechanical Engineering	Bachelor	2 <sup>nd</sup> -3 <sup>rd</sup> year	600~ 2,000	10
		Master	2 <sup>nd</sup> -3 <sup>rd</sup> year	1,500~ 2,000	30% , 40% , 30%
		Ph.D.	2 <sup>nd</sup> -3 <sup>rd</sup> year	2,000~ 3,000	30% , 40% , 30%
2	School of Agricultural Equipment Engineering	Master	2020-2021 academic year	6,000~16,000	Contributors
		Ph.D.	2020-2022 academic year	16,000~26,000	Contributors
3	School of Automotive and Traffic Engineering	Bachelor	Schooling	5,000	5
		Master	Schooling	5,000	5
		Ph.D.	Schooling	10,000	100%
4	School of Materials Science and Engineering	Bachelor	1 <sup>st</sup> year	10,000	All
			2 <sup>nd</sup> -4 <sup>rd</sup> year	2,000-10,000	All
		Master	Schooling	5,000-15,000	All
		Ph.D.	Schooling	6,000-24,000	All
5	School of Electrical and Information Engineering	Master	Schooling	2,000~4,000	Indeterminate
		Ph.D.	The first year	6,000~8,000	Indeterminate

No.	School/Faculty	Candidate	Funding Period	Coverage (RMB)	Funding Quota
6	School of Food and Biological Engineering	Non-degree students	Schooling	Tuition	All
		Bachelor	The first year	4,000	All
			2 <sup>nd</sup> -4 <sup>th</sup> year	4,000	50%
		Master	Schooling	2,000~ 18,000	All
		Ph.D.	Schooling	2,000~ 30,000	All
7	School of Computer Science and Telecommunications Engineering	Master	1 <sup>st</sup> year	1,000	All
			2 <sup>nd</sup> -3 <sup>rd</sup> year	1,000~8000	≥40%
		Ph.D.	1 <sup>st</sup> year	2000	All
			2 <sup>nd</sup> -3 <sup>rd</sup> year	1,000~12,000	≥40%
8	Faculty of Science	Master	year	1,500~ 5,000	1 <sup>st</sup> year
					2 <sup>nd</sup> -3 <sup>rd</sup> year
		Ph.D.	year	3,000~10,000	1 <sup>st</sup> year
					2 <sup>nd</sup> -4 <sup>rd</sup> year
9	Faculty of Civil Engineering and Mechanics	Master	three year	2,000	5~6
		Ph.D.	four year	5,000	2~3
10	School of Management	Ph.D.	Schooling	2,000~4000	15-20
11	School of Finance and Economics	Bachelor	year	1,000	≤10%
		Master	Schooling	2,000	100%
		Ph.D.	Schooling	4,000	100%

No.	School/Faculty	Candidate	Funding Period	Coverage (RMB)	Funding Quota
12	Faculty of Law	Master	1 <sup>nd</sup> -2 <sup>rd</sup> year	1,000~3,000	100%
