5. MATRICULATION EXEMPTION

Matriculation exemption is a legal requirement for first-degree study at a South African university. If you have completed an international curriculum or foreign schooling system, you will need to make sure that you meet the requirements for matriculation exemption set by Universities South Africa (USAf).

New applicants for the 2023 academic year do not need to apply for their matriculation exemption certificate prior to application to Stellenbosch University for the 2023 academic year, but they should do an online assessment on the website of USAF at https://mbit-application.usaf.ac.za/assessment/online-assessment/ to make sure they comply with the matriculation exemption requirements.

Please check that you meet the requirements for your chosen degree programme, and that you have attained the indicated grades in the subjects on the indicated levels. The list of subjects is available here: https://mb.usaf.ac.za/sc-government-gazette-5-december-2008/

Application for their matriculation exemption certificate may be done after registrations in 2023 should they get admission to Stellenbosch University. More information about when to start the application process will be communicated to enrolled students.

To apply for matriculation exemption:
- International citizens, Refugees, Asylum-seekers and Permanent residence holders should visit the International Office, in the Kroota Building.
- SA citizens should visit Ms Grove-Le Guillou at the Admission Office in Admin A. Building, ground floor as from September 2023.

Please consult this booklet in conjunction with the USAF requirements. https://mb.usaf.ac.za/qualification-bycountry/

A GUIDE TO PERCENTAGE UNIFORM MARKS

This factsheet is a guide for schools in countries where percentage uniform marks appear on statements of results for Cambridge IGCSE, Cambridge O Level and Cambridge International AS & A Level.

Cambridge provides the percentage uniform mark as well as the grade for a syllabus. The percentage uniform mark is not the total mark achieved for the syllabus. It is a point on a common scale for all syllabuses to show whether the candidate’s performance is close to the top, middle or bottom of the grade.

For example, a student who gets the minimum mark necessary for a Grade A* obtains a percentage uniform mark of 90. A student who gets a mark halfway between the Grade D threshold and Grade C threshold achieves a percentage uniform mark of 55.

We do not provide a percentage uniform mark when the candidate’s result is Ungraded, No Result, Pending or To Be Issued.

The table below shows the percentage uniform marks:

<table>
<thead>
<tr>
<th>Grade</th>

</tr>
</tbody>
</table>

† In the case of the Cambridge International AS Level qualification, where there is no Grade ‘a’, the percentage uniform mark range for Grade ‘a’ is 80–100

The key messages for students are:

- the percentage uniform mark shows you whether you are in the middle of a grade, or near either the top or the bottom
- it does not affect the grade you receive, but gives you more information about it
- it will appear on your statement of results but not on your certificate.

The percentage uniform mark is stated at syllabus level only. It is not the same as the actual total mark that the candidate achieves on the syllabus.

This is because the percentage uniform mark depends on both the actual total mark for the syllabus and the position of the grade thresholds (which may vary from one exam series to another and from one syllabus to another).

The percentage uniform mark is also different from the actual mark because it is always calculated out of 100.

FREQUENTLY ASKED QUESTIONS

Are percentage uniform marks the same as the Uniform Mark Scale (UMS) used by UK exam boards?

Our percentage uniform mark scale uses the same approach as UMS. However, the UMS is not always shown as marks out of 100, whereas our percentage uniform marks are always out of 100.

Do percentage uniform marks appear on Cambridge certificates?

No. They are published on the statement of results to supplement the grade issued at syllabus level.
CAMBRIDGE ASSESSMENT – INTERNATIONAL EDUCATION

A GUIDE TO A* - G AND 9-1 GRADES

Cambridge IGCSE is graded A* - G, Cambridge O level is graded A* - E. Both grade sets are well established, widely used systems that universities, parents and schools know to trust. In August 2017, some GCSE results in England will be reported on a different, 9-1 grading scale. On this scale, 9 is the top grade.

UK GCSEs and Cambridge IGCSEs have been reported on an A* - G grading scale for almost 30 years and offer a good level of differentiation between students’ performance. The grading scale is understood and accepted by universities and employers around the world.

WILL CAMBRIDGE CONTINUE TO USE A* - G GRADING?

- Yes. We asked Cambridge schools worldwide for their views on our grading scale.
- Most of our schools have chosen to retain the A* - G grades, because they are so well understood.
- We will continue to consult with Cambridge schools.

HOW DO A*-G GRADES COMPARE TO 9-1 GRADES?

There are three anchor points where standards are benchmarked between the two systems.

A* - G GRADE FACTS AND FIGURES

- Our A* - G grading is used in over 145 countries in over 6000 schools around the world
- Over 800 000 Cambridge IGCSEs are awarded A* - grades by Cambridge every year
- All students in England taking GCSEs in 2017 will receive A’ - G grades in all but three subjects

WILL STUDENTS OUTSIDE ENGLAND RECEIVE 9-1 GCSE GRADES?

Wales, Scotland and Northern Island are not adopting 9-1 grading. Some other exam boards offering international GCSEs plan to introduce 9-1 grades.

WILL STUDENTS APPLYING TO UNIVERSITY WITH A*-G GRADED IGCSES BE TREATED DIFFERENTLY TO STUDENTS WITH 9-1 GRADES?

- No. universities have made it clear that they will treat students with 9-1 grades and students with A* - G grades equally.
- Some UK universities require a C grade at GCSE in Maths and English. Under the 9-1 grading system some universities will use the new grade 5 as an equivalent while other will use grade 4.
