Testimonials

Huda Khaled Aanee
Current Student

As a Nutrition and Dietetics student at Abu Dhabi University, I am learning about health promotion and nutrition intervention in chronic and cardiovascular diseases. I have learned how to be kinder to my body and how to help others find peace in theirs through healthy, conscious eating and exercise. I chose this major because I want to help fight malnutrition in all of its forms. The courses exposed me to a variety of skills and expanded my knowledge in food science and processing, case analysis, and research, nutrition care process, counseling, and menu planning, all of which helped me to hone my craft. Throughout my studies, I also developed a strong relationship with my professors and colleagues through frequent class discussions and interactions and am grateful for their guidance and mentorship.

Dr. Aref Al Shehhi
Sheikh Khalifa Medical
City, CEO

The pace of change has accelerated as we begin to experience the fourth industrial revolution, which is more digital, robotic, and enabling access to real-time information. With the massive advances in Internet, social media, technology, and automation, we are becoming more aware of our world and the universe. My master's program at Abu Dhabi University made me realize that we must better understand the symptoms and causes of management failure and develop new approaches to managing sustainable development. The Master of Strategic Leadership is designed to prepare professionals to successfully lead in this turbulent yet exciting future that is upon us.

International Accreditation

ADU is internationally accredited by the Senior College and University Commission of the Western Association of Schools and Colleges (**WSCUC**).

WSCUC is the highest form of accreditation available in the USA, and accredits such prestigious institutions as Stanford University, California Institute of Technology, University of California System, and the California State University system.

ADU's College of Business holds international accreditations from the Association to Advance Collegiate Schools of Business (**AACSB**) and the prestigious EFMD Quality Improvement System (**EQUIS**). Only 1% of business schools worldwide have this double accreditation.

Abu Dhabi University's BSc in Civil Engineering, BSc in Chemical Engineering, BSc in Electrical Engineering, BSc in Computer Engineering, and BSc in Mechanical Engineering are accredited by the Engineering Accreditation Commission of **ABET**, and the BSc in Information Technology by the Computing Accreditation Commission of **ABET**, the global accreditator of college and university programs in applied and natural science, computing, engineering, and engineering technology.

ABET accreditation assures that programs meet a standard to produce graduates ready to enter critical technical fields that are leading the way in innovation and emerging technologies and anticipating the welfare and safety needs of the public.

The Bachelor of Architecture program has earned the Royal Institute of British Architects **RIBA** validation, the highest accolade for architecture programs.

The College of Engineering has also recently received accreditation as an Authorized Training Center (ATC) from the International Air Transport Association (**IATA**). This applies in particular to the Department of Aviation and selected courses.

The College of Health Sciences has earned accreditation from the Agency for Public Health Education Accreditation (**APHEA**).

ADU is one of the youngest universities to receive international academic accreditation from the Western Association of Schools and Colleges: Senior College and University Commission - **WSCUC**. This gives your degree from ADU the competitive global edge and international recognition you need to stand out among your peers in the labor market after graduation.

As a student, why is this important?

- Your international employability prospects have increased significantly as you are now a future graduate of a **WSCUC** accredited university.
- The WSCUC accreditation is not specific to any one college or degree; it is institutional. This means that current and future ADU students can proudly say that they are **WSCUC** accredited.
- Your ADU degree is now internationally recognized and transferrable.

Three Locations One Great University

Our Campuses

We are a private, multi-campus university committed to providing an engaging learning environment, quality education, and qualifications that are respected world-wide.

Abu Dhabi Campus

Abu Dhabi University's flagship campus is located in Khalifa City, Abu Dhabi – the capital of the United Arab Emirates. This purpose-built facility, opened in 2006, offers an inspirational place for study and extra-curricular activities alike.

Dubai Campus

ADU launched its state-of-the-art Dubai campus in 2017 which is located in the world-renowned Dubai Knowledge Park the world's only free zone dedicated to learning excellence.

Al Ain Campus

Spanning an area of 28,000 sqm, the new Al Ain campus can accommodate 2500 students currently, and its capacity will increase to 5000 students upon full completion of the total 54,000 sqm area. The purpose-built facility includes high-tech 36 classrooms and 36 state-of-the-art laboratories empowered by artificial intelligence and 137 offices for staff and faculty. The campus is also home to a wide variety of amenities.
