The University Network of Jalisco
Shaping the future
Think and Work is our motto

“Due to its commitment to the principles of social solidarity and humanist thinking, the University of Guadalajara is called upon to contribute to its sustainable development through education, innovation, science and technology”.

Itzcóatl Tonatiuh Bravo Padilla
UdeG President
More than 200 years making history
UdeG is a vigorous community and the second most important university in Mexico.
Jalisco is amongst the top 5 states with more capacity for scientific and technological innovation.

75% of all the industries in Jalisco are located in Guadalajara Metropolitan Area.

Guadalajara Metropolitan Area is often called the “Latin American Silicon Valley”.

Our Network

1 Online University System
1 Medium Higher Education System

15 Campuses
Our Network
The University Network of Jalisco

UdeG is a public and autonomous university system in the Mexican state of Jalisco that combines an international scope and vision with a strong commitment to society. A tradition of constant innovation and quality has made of UdeG one of Mexico’s leading institutions of higher education. The university’s high school, undergraduate, graduate and research programmes are designed to promote a sustainable and inclusive social development. It is indeed a fundamental institution in the formation of human resources and in the production of scientific and technological knowledge both regionally and nationally. Its extension programmes make Mexican culture, arts, sports and our unique heritage more accessible to the citizens of Mexico and the rest of the world.

Academic Areas of study

- Health Sciences
- Economic and Management Sciences
- Exact Sciences and Engineering
- Social Sciences and Humanities
- Arts, Architecture and Design
- Biological and Agricultural Sciences
Our Students

At UDG, our students gain a unique perspective that generates a positive impact in their personal life and contribute to the development of the local and global society.

Students hosted by UDG come from all over the world. This diversity enriches our cultural and ethnic environment and improves the international profile of our community.
Our Faculty Members

The University of Guadalajara recognizes its faculty members as a key resource to promote and develop new ways of thinking through research and teaching, we are proud of being one of the top universities in the country with the highest number of nationally renowned researchers.
CUAAD is dedicated to training creative, prudent, and committed professionals in the fields of arts, architecture and design.

Its students are committed to having a positive impact on their social settings through artistic and cultural performance and through the use of scientific research in order to create sustainable environmental frameworks for a better social development.

The cultural diffusion by our community promotes ethical values in order to enhance equity and respect for all members of society.

12 undergraduate programmes:
- Architecture
- Audiovisual Arts
- Performing Arts for Dance Expression
- Performing Arts for Theatre Expression
- Visual Arts for Photographic Expression
- Visual Arts for Plastic Expression
- Interior Design
- Fashion Design
- Industrial Design
- Graphic Design and Communication
- Music
- Urban and Environmental Studies

12 graduate programmes:
**Master’s Degrees**
- Architectural Sciences
- Design and Industrial Innovation
- Education and Expression for Arts
- Ergonomics
- Ethnomusicology
- Cultural Management and Development
- Town and Country Planning
- Processes and Graphic Expression in Urban Architectural Design
- Design and Development of New Products
- Cinematographic Studies

**Doctoral Degrees**
- Town and Country Planning and Sustainability
- Arts and Culture (Interinstitutional)
CUCBA is a university centre focused on academic training and research in the fields of biology, agriculture and the environment.

It promotes the production of high quality research and technological developments with emphasis on the understanding of the biological processes, management and sustainable use of natural resources.

It is committed to developing improvements in the agricultural production sector and the enhancement of animal, plant and environmental health.

5 undergraduate programmes:
- Agrobusiness
- Biology
- Nutritional Sciences
- Agronomic Engineering
- Animal Husbandry and Veterinary Medicine

9 graduate programmes:

Master’s Degrees
- Behavioural Sciences
- Environmental Health Sciences
- Biosystematics Ecology, Natural Resources and Agricultural Management Sciences
- Environmental Education
- Protected Agricultural (Interinstitutional)
- Livestock Production (Interinstitutional)

Doctoral Degrees
- Behavioural Sciences
- Biosystematics Ecology, Natural Resources and Agricultural Management Sciences
- Ecophysiology and Genetic Resources

www.cucba.udg.mx
CUCEA is recognised at both national and international level for the quality of its research and teaching. It trains professionals, entrepreneurs and researchers with vocational skills in leadership and innovation and who are able to identify, produce, process, disseminate and utilise information to create and apply knowledge that contributes to the solution of problems and challenges of administrative, economic disciplines in the fields of human development, environmental, economic and social sustainability and general welfare of the population of Jalisco and Mexico.

Its mission is to satisfy the educational needs of higher education, focusing on economic and administrative sciences.

11 undergraduate programmes:
- Management
- Financial Management and Systems
- Governmental Administration and Local Public Policies
- Public Accounting
- Economics
- Environmental Management
- Marketing
- International Business
- Human Resources
- Information Systems
- Tourism

20 graduate programmes:

Master’s Degrees
- Business Administration
- Fiscal Studies
- Marketing Management
- Economic Studies
- Corporate Finance
- Management of Health and Safety in the workplace
- Management and Higher Education Policies
- International Business
- Business and Economic Studies
- Public Policies
- International Economic Relations and Cooperation
- Information Technology
- Learning Technologies

Doctoral Degrees
- Management Sciences
- Economic Studies
- Fiscal Studies
- Higher Education Management
- Public Policies and Development
- Information Technology

CUCEI promotes high quality academic teaching in the fields of exact sciences and engineering. Its scientific and technological research is at the core of the campus’ main activities in order to contribute to the social development of the region.

Its internationally recognised academic programmes and research production, as well as the creation of international collaboration networks, have been placed among the top priorities for the campus in order to increase its international outlook, and quality standards.

17 undergraduate programmes:
- Physics
- Informatics
- Biomedical Engineering
- Civil Engineering
- Surveying Engineering
- Food Science and Biotechnology
- Computational Engineering
- Communications and Electronic Engineering
- Industrial Engineering
- Electro-Mechanical Engineering
- Chemical Engineering
- Mathematics
- Chemistry
- Chemical Pharmaceutical Biology
- Science Materials
- Photonic Engineering
- Robotics Engineering

17 graduate programmes:

Master’s Degrees
- Science Materials
- Forestry Products
- Physics
- Hydrometeorology
- Electric Engineering
- Electronic Engineering and Computing
- Chemical Engineering
- Biotechnological Processes
- Chemistry
- Mathematics
- Technological Projects

University Centre for Health Sciences
Guadalajara, Jalisco, Mexico.

CUCS
www.cucs.udg.mx

It is a university centre that contributes to the search for better health, through the training of people interested in achieving a high professional competency level, capable of generating scientific knowledge for the benefit of the citizens.

We promote a link with the community to share plans, actions and programmes developed by our researchers, students and graduates for the development of the community.

11 undergraduate programmes:

Undergraduate Programs
• Medicine
• Dental Surgery
• Physical Culture and Sports
• Nursing
• Human Nutrition
• Psychology

Associate degrees
• Occupational Health, Safety and Emergencies
• Dental Prosthesis
• Radiology and Imaging
• Physical Therapy
• Respiratory Therapy

27 graduate programmes:

Master’s Degrees
• Sciences in Physical Education and Sports
• Environmental Health
• Youth and Adolescent Health Sciences
• Health Sciences at Work
• Sociomedical Sciences
• Health Services Administration
• Gerontology

• Clinical Investigation
• Neuropsychology
• Management of Quality and Safety in Health Services
• Human Nutrition
• Health Psychology
• Educational Psychology
• Social Psychology
• Public Health
• Family Therapy

Doctoral Degrees
• Public Health Sciences
• Molecular Biology in Medicine
• Pharmacology
• Clinical Research
• Psychology (Interinstitutional)
• Biomedical Sciences (Immunology/Neurosciences)
• Human Genetics
• Sociomedical Sciences
• Health at Work

Digital Journalism Training Centre
We have academic collaboration with universities around the world.
University of Guadalajara, Los Angeles
A project intended to provide extended education opportunities for Mexican and Hispanics in the United States.
It is aimed at intensifying exchange programmes and scientific cooperation between the University of Guadalajara and higher education institutions in the United States.

Civil Hospitals of Guadalajara
It forms a public Hospital Complex that offers comprehensive medical services.
It is also a teaching hospital dedicated to training highly qualified human resources.

Guadalajara International Book Fair
The most important publishing gathering in Ibero-America and a cultural festival.
It is aimed at professionals and the general public alike; authors from all continents and languages participate.
There is a different Guest of Honour (a city, a region or a country) every year.

Guadalajara International Film Festival
A cultural event and a showcase for the appreciation, promotion and distribution of Mexican and Ibero-American films.
It serves as a forum for the creative exchange between professionals, filmmakers, critics, students and audiences.
Transdisciplinary Instrumentation and Services Centre (CITRANS)

It is a state of the art research centre dedicated to analyze and advice the regional industries. Some of the target industries are biology, chemistry, physics, pharmaceutical and tequila, among others.

Environmental Sciences Museum

It is a project that will focus on the human well-being and conservation of the environmental diversity through the following areas: water, energy, biodiversity and food.

The main objective of the museum is to promote a culture of sustained development.

University's Programme for Energy Transition

It focuses on the following topics:
- Energy conservation
- Energy efficiency
- Renewable energies
- Solar power plants

Highlights and Projects

University Cultural Centre

The University Cultural Centre is a compound that hosts cultural, scientific and commercial activities. It is conceived to consolidate an urban district that will bring arts and culture closer to the public.
U de G Culture

Telmex Concert Hall

One of Latin America's most important concert halls, it is located in Guadalajara's Metropolitan Area and it's part of one of the biggest cultural projects of the University of Guadalajara, “The University Cultural Centre”.

Diana Theater

As part of the University Cultural Centre, the Diana theatre is a venue created in order to fulfill the cultural promotion needs in the state of Jalisco.

MUSA

The Museum of Arts (MUSA) it’s a venue with an important architectonic heritage and with a highly historical significance in an unsurpassable location. It is conceived as a place where art and culture in general coexist as living entities to enable the enjoyment of aesthetic experiences and the interaction between the public and the arts.
Leones negros is the soccer team of the University of Guadalajara since the 70’s.

From **high level competition** to recreation activities
Be part of our community

Shaping the future
“With your tongue and your eyes we’re both going to recreate history. Meanwhile, they all dread to see you and me alive again, to see us relive our youth, while they’ve all been six feet under for so many years”.
