Preface

City University of Macau has inherited the legacy of the University of East Asia and developed an education system that is in line with the socio-economic development and fulfills its social responsibility and the mission of “Serving Macao, Integrating into the Greater Bay Area.” As a metropolitan university with “Macao Characteristics, China Soul, and Global Vision,” we prioritize Digital Humanities and Social Sciences supported by Data Science and continue to innovate disciplinary structure to educate a wealth of high-caliber talents with solid knowledge foundation to serve Macao, Greater Bay Area, and the nation.

With the strong support of the Central Government, the Macao SAR Government, and all sectors of society, the City University of Macau (CityU Macau) has inherited the legacy of the University of East Asia and developed an education system that is in line with the socio-economic development and fulfills its social responsibility and the mission of “Serving Macao, Integrating into the Greater Bay Area.” As a metropolitan university with “Macao Characteristics, China Soul, and Global Vision,” we prioritize Digital Humanities and Social Sciences supported by Data Science and continue to innovate disciplinary structure to educate a wealth of high-caliber talents with solid knowledge foundation to serve Macao, Greater Bay Area, and the nation.

Commitment to quality education and research excellence continue to drive us ahead. The University offers interdisciplinary programs with a diverse pedagogical model that combines International Learning, Experiential Learning, Intercultural Learning, Peer Learning, and Value-Added Learning. CityU Macau plays an integral part in the integration of higher education in the Guangdong-Hong Kong-Macao Greater Bay Area and Guangdong-Macao In-Depth Cooperation Zone. Located in a city where Chinese and Western cultures interact while serving as a gateway to the Greater Bay Area, China, and the world, particularly to Portuguese-speaking countries, the University will continue to leverage its diverse cultural backgrounds and unique positioning to broaden its global perspective, expand academic reach, promote Chinese culture, and tell China’s stories.

We are delighted to witness the University gaining recognition in international academia over the past decade. Its Hospitality & Tourism Management subject ranked top 20% in the ShanghaiRanking’s Global Ranking of Academic Subjects 2023. And its Hospitality & Tourism Management subject, covering bachelor’s, master’s, and PhD education, is the only one in Macao accredited with World Tourism Organization (UNWTO) at all degree levels in 2023. According to the latest statistics from Essential Science Indicators (ESI), the University has achieved a significant milestone in its disciplinary development by being ranked among the top 1% globally in the Social Sciences, General category.

Credible faculty and a strong management team are essential for providing high-quality education and student services. This is why we continue to implement global initiatives to recruit experienced scholars and management executives. I currently hold the position of President at The International Research Foundation of English Language Education (TIF). I have over 40 years of experience in the field of English teaching and have assumed various positions in tertiary education institutions before joining CityU Macau, such as Vice President and Head of the English Department at various universities in the United States, possessing years of experience in higher education management. The University has appointed renowned expert Professor Zhou Wanhui, as Vice President for teaching and research. The teaching and research excellence at CityU Macau is characterized by diverse pedagogical models that combine International Learning, Experiential Learning, Intercultural Learning, Peer Learning, and Value-Added Learning. CityU Macau has a strong commitment to producing globally competitive graduates who are well-prepared for the global job market.

In response to the growing demand for well-being among citizens, CityU Macau has established the Research Center for Antimicrobial Modern Chinese Medicine Big Health. The center aims to promote research, applications, modernization, and internationalization of traditional Chinese medicine and the Big Health industry as well as seeks to cultivate interdisciplinary talents in this field. By doing so, the center aims to contribute to the development of a more comprehensive solution and integrated approach to healthcare that combines the best of ancient traditions and modern science and technology.

Looking towards the future, CityU Macau will continue to solidify its position as a leading metropolitan university with a global perspective and impact. With the support of nine faculties, we will introduce interdisciplinary programs to promote holistic development and equip students with innovative and entrepreneurial skills. By combining our administrative and academic governance, we aim to make significant progress in the practicality and applicability of our scientific findings for the benefit of society and nurture future generations to serve the nation and Macao.
顧景
Vision

追求“大數據技術支撐下的新型人文社科、交叉學科”的核心價值，努力發展成為一所具有澳門特色、中國靈魂、國際視野的都會大學。

The City University of Macau pursues the core value of social sciences and develops digital humanities and interdisciplinary studies underpinned by data science. It will continue to steer its role as a metropolitan university with pronounced emphasizes on Macao’s Characteristics, China’s Soul, and Global Vision.

使命
Mission

堅持“服務澳門，融入灣區”的辦學宗旨，積極配合特區政府經濟社會發展的長期策略與重大舉措，突出城市特色，緊跟市場需求完善學科建設，培養應用型、實務型人才。

The City University of Macau adheres to the philosophy of "serving Macao and integrating into the Greater Bay Area." It will continue aligning its initiatives with the government’s long-term development strategies to enhance academic disciplines and nurture application-orientated talents to serve society.

CityU Macau fulfills its mission of “serving Macao and integrating into the Greater Bay Area” and proactively working towards the Macao SAR Government and Central Government’s long-term strategies and major measures for political, economic and social development. Serving Macao lies at the center of our mission. With recognized achievements in disciplines construction and high-end talent cultivation, the University has enunciated its commitment to society.

Facing new opportunities at this historical juncture, CityU Macau spreads its wings for a greater success. It will seize the opportunities for regional cooperation, bring its discipline advantage in full swing to improve the competitiveness of local youths, promote talent cultivation in line with industrial development, and enhance academic output. Going forward, we will continue making steady progress in a pragmatic manner.

On the same day, the establishment of the Belt and Road English Education Guangdong-Hong Kong-Macau Greater Bay Area Exchange Base was announced.
CityU Macau pursues the core values of Digital Humanities and Social Sciences supported by Data Science, and develops interdisciplinary disciplines with focuses on the Telling China’s Stories, Data Science, Fintech, Healthcare, and City Development. It is committed to the development path of an global metropolitan university and to integrating its education into urban living. The University implements a diverse learning model that aligns with international standards, featuring International Learning, Experiential Learning, Intercultural Learning, Peer Learning, and Value-Added Learning.

CityU Macau takes the lead in offering programs with international accreditations. Its Hospitality and Tourism Management subject, covering bachelor’s, master’s and PhD education, is the only one in Macao accredited by the World Tourism Organization (UNWTO) at all degree levels. The Faculty of Business and Faculty of Finance have been awarded BGA Accreditation (Gold Status) and BGA Validation (Silver Status), respectively, by the Business Graduates Association (BGA) for their quality curriculum setting, fruitful education and research achievements, and promising potential for development. High-quality programs and faculty accreditations are pivotal measures for the University to enhance the cultivation of international talent in all aspects. In addition, CityU Macau offers more than 60 general education courses in different fields through a 3-dimensional learning model through compulsory courses, elective courses, and cross-discipline courses. The University provides an all-rounded education for undergraduates and promotes the holistic development of each individual.

CityU Macau continues to build a credible teaching and management team. Over 80 percent of its academic staff obtained their PhD degrees from world-renowned universities. The University invites leading experts and scholars with domestic and overseas backgrounds to educate and supervise postgraduate students. Under the guidance of the faculty, postgraduate students have the opportunity to participate in scientific research projects commissioned by the Macao SAR Government and national institutions, thereby enhancing their research capabilities.

In the past two years, CityU Macau has established close partnerships with over 230 renowned universities, institutions, and enterprises at home and abroad, providing a platform for students to engage in international and experiential learning and broadening their global vision. Currently, the University is offering Erasmus+ programs in collaboration with other international higher education institutions such as the University of Minho and the University of Granada. It has also joined the University Mobility Asia-Pacific (UMAP) to strengthen the exchange and cooperation between faculty and students of higher education institutions in the Asia-Pacific region. Moreover, CityU Macau has established joint laboratories in conjunction with well-known enterprises such as Zhongkai Anyun (Wuhan) Information Technology Co., Ltd., Zhuhai Gaoxiu Aerospace Science & Technology Co., Ltd., and Zhuhai Xuerui Group Co., Ltd., to cultivate talents by providing internship opportunities and enhancing their employability.

Catering to public’s needs for lifelong learning and continuing education, CityU Macau has established the International Training and Testing Center (ITTC) to offer on-the-job and professional training programs and provide comprehensive services for international English language proficiency tests.
Academic Research

City University of Macau (CityU) has 16 distinctive research institutes, some of which are the first or only ones in Macao, including the China-Portugal Joint Laboratory of Cultural Heritage Conservation Science supported by the Belt and Road Initiative under the Ministry of Science and Technology of the People’s Republic of China, the Key Laboratory of Cultural Heritage Conservation Science supported by the Ministry of Education, the Culture and Tourism Research Centre, the Research Centre for Social and Economic Development, the Research Centre for Humanities and Social Sciences, the Research Centre for Arts Education, the Research Centre for Smart Tourism and Gastronomy, and the Research Centre for Youth Development. These centers focus on research in areas such as cultural heritage protection, social and economic development, humanities and social sciences, arts education, smart tourism, gastronomy, and youth development.

CityU has established joint laboratories with renowned enterprises in Macao, such as the Guangdong-Macao In-Depth Cooperation Zone in Hengqin and the Guangdong-Hong Kong-Macao Greater Bay Area to promote the development of joint research laboratories on data security and smart protection, spatial-temporal big data and artificial intelligence, and industrial internet security. These partnerships will strengthen the linkage between industries and academia to serve the industrial development in Zhuhai and Macao and forge a substantial platform to enhance students’ research capability, entrepreneurship, and employability.

The University has carried out remarkable research outputs. In recent years, the faculty has published over 1,000 academic papers which are indexed in top international academic journals and published more than 100 scholarly works. Our research team has undertaken projects commissioned by government bodies and organizations, including the National Natural Science Foundation of China, Macao Foundation, and local government bodies, namely Policy Research and Regional Development Bureau, Talents Development Committee, Education and Youth Development Bureau, and Macao Trade and Investment Promotion Institute.

CityU Macau has 16 distinctive research institutes, some of which are the first or only ones in Macao, including the China-Portugal Joint Laboratory of Cultural Heritage Conservation Science supported by the Belt and Road Initiative under the Ministry of Science and Technology. This laboratory focuses on cultural heritage conservation, fostering the integration of the Belt and Road Initiative supported by Macao’s role as the exchange platform between China and the Portuguese-speaking countries in regional development, bringing together research and development capabilities of the three world heritage cities, and promoting the high-quality development of Macao while fostering cultural heritage conservation.

As a local university, CityU is responsible for promoting Chinese culture and values. We have established the Macau Research Center to support academic exchanges, disciplinary development, the “One Country, Two Systems” principle, and the Belt and Road Initiative. The research center is a leading think tank on Chinese culture studies and research that shapes Macao into a vital gateway for disseminating Chinese culture. Under collaborations with top academic institutions at home, it leverages resources to explore the history and development of Chinese culture in humanities, science and technology, economics, and trade, and society. In addition, we have built the City University of Macau – Culture Center to strengthen our academic offerings in Chinese culture and urban sciences. The Culture Center is a functional think tank for “city diplomacy” and “public diplomacy” that serves Macao’s three core positions of “One Centre, One Platform, One Base”.

Aside from that, CityU is actively establishing joint laboratories with renowned enterprises in Macao, such as the Guangdong-Macao In-Depth Cooperation Zone in Hengqin and the Guangdong-Hong Kong-Macao Greater Bay Area. This initiative aims to promote the development of joint research laboratories on data security and smart protection, spatial-temporal big data and artificial intelligence, and industrial internet security.
CityU Macau is committed to build a diverse and cohesive campus culture, promoting holistic development and encouraging students to develop interests and hobbies aside from their studies.

At CityU Macau, students are encouraged to actively participate in competitions to excel their strength and put their knowledge into practice. Over the past years, students have achieved remarkable success in local and national competitions, earning numerous awards that recognize their exceptional abilities across a wide range of disciplines. Notable awards include: gold prize at the 8th China International College Students’ Internet Innovation and Entrepreneurship Competition; first and second prizes at the 4th National Innovation Experience Competition for College Students; gold award in the tertiary education category at the Greater Bay Area regional level in the 4th Oriental Start Design Award; silver and bronze prizes at the 13th Challenge Cup China College Students’ Entrepreneurship Competition; national second prize at the 2022 Youth for Greater Good Expo Innovation Competition, a winner award at the DNA Paris Design Awards 2023, and silver medal at Wushu (Sanja) finals in the 19th Asian Games Hangzhou.

High profile academic seminars are an integral part of our campus life. CityU Macau invites renowned experts and scholars in various fields to give lectures to share cutting edge knowledge and interact with students, providing a platform for students to communicate with leading figures in academia and industries. Among them, the "Doctor Horacecaus Lecture Series", "Diplomatic Lecture Series", "Master Lecture Series", "Oriental Design Lecture Series", and "Chopstick Lecture Series" have become the iconic activities of CityU Macau. These activities strive to help students broaden horizons and foster their sense of patriotism.

With the support of the Macao SAR Government Cultural Affairs Bureau and the Education Fund of the Education and Youth Development Bureau, the University has held the "City University of Macau Cultural Festival" annually since 2015. Through spectacular performances and engaging interactive activities, the festival offers a platform for students to showcase their talents, fostering a positive campus atmosphere and promoting a diverse campus culture. Furthermore, the University organizes the "CityU Career Fair" to enhance students' understanding of local market trends and the industrial development within the Guangdong-Hong Kong-Macao Greater Bay Area. Each year, nearly a hundred prominent enterprises participate in the fair, offering a wide range of job opportunities for students.

To enhance students' employability and entrepreneurial skills, CityU Macau has established the Ung Chui Kin Entrepreneurship and Career Centre. Through this center, the University aims to pioneer a distinctive educational model that integrates innovation and entrepreneurship to nurture talent. To provide effective employment support and entrepreneurship advisory services, the center boasts strategic cooperations with 20 units and organizations, including the Labor Affairs Bureau, Zhonghong International Talent Hub, Guangzhou, Hong Kong-Macao Youth Innovation and Entrepreneurship Service Center, Jiangmen Xinhua District Committee Talent Office, and Shenzen North Station-Center for Hong Kong & Macao Youth Innovation and Entrepreneurship. Currently, the center has successfully incubated four project-based entrepreneurial teams: "Tang Chao Shiren", "Shu Ying", "QingnagYouzheng", and "Pen Fen".

CityU Macau has a number of student clubs and societies, including Sports Teams, Art Troops, Flag-Raising Teams, Volunteering Team, Debating Clubs, and Student PR Team. Sports teams such as the basketball, football and fencing teams have represented the University in many national and local competitions and gained distinguished achievements. The principle of "life influences life" is ingrained in every member of the Volunteering Team, and they are committed to serving society through their dedicated service. Every academic year, faculty and students actively participate in a wide range of community service, such as city-wide nucleic acid testing, visiting elderly care centers, and public fundraising by selling stickers for individuals with intellectual disabilities. With these wholehearted services, we are devoting CityU power to address city's needs.

Academic clubs and extracurricular activities that infuse the campus with dynamic and positive energy, offering valuable opportunities for personal growth and fulfillment, for each individual. CityU Macau has two student associations: the City University of Macau Students’ Association and the City University of Macau Postgraduate Association. A total of 26 affiliated clubs across different areas were established such as Chinese culture, literature, foreign languages, sports, painting and calligraphy, music, musical instruments, chess, drama, eSports, traditional Chinese clothing – Hanfu, dance, volunteering, photography and animation.

In 2023, CityU Macau established the Student Activity Center and the Student Club, covering a space of 1,460m², to provide multifunctional spaces for studying, academic discussions, team activities, and fitness. These facilities are the ideal place for students to engage in extracurricular activities, cultivate their sentiments, promote personal development, and foster peer communication.
Global Vision

In the past two years, CityU Macau has established multi-level collaborations with over 210 top universities, organizations and enterprises with pronounced emphasis on the exchanges with Portuguese-speaking countries.

At present, CityU Macau has established mutually beneficial partnerships with various higher education institutions in academic exchange, joint training scientific research and joint projects which build innovative learning platforms for students and faculty members. Our partner universities include Minho University of China, Beijing Language and Culture University, Beijing University of Posts and Telecommunications, Communication University of China, University of Chinese Academy of Social Sciences, East China Normal University, Soochow University, Xiamen University, Wuhan University, Nanyang University of China, University of Technology Shanghai International Studies University, University of Tartu, University of Hong Kong, University of Macau, University of Science and Technology, University of Sydney, University of Coimbra, University of Aveiro, University of Minho, University of Porto, Imperial College London, and University of Oxford, among others.

Also, CityU Macau has established close ties with enterprises and organizations to develop joint research and create opportunities for experiential learning, innovation and entrepreneurship. Our partner institutions include Bank of China (Macau) Ltd, Lexo International Banking Ltd., Banco Nacional Ultramarino S.A. (BNUS), Industrial and Commercial Bank of China (Macau) Ltd, General Union of Neighbourhood Associations of Macau (Chapter 5 Women’s General Association of Macau), Macao Urban Planning Institute, Macao New Economic Union, Guangzhou Data & Information Technology Co., Ltd, Zhonghang Anyun (Wuhan) Information Technology Co., Ltd, China Daily, Macau Post, China UnionPay, Zhuhai Orba Aerospace Science & Technology Co., Ltd, and Zhuhai Greener Group Co., Ltd.

To strengthen the close collaboration among partner universities and enterprises, and alignize multi-dimensional integration and interaction between universities and cities, CityU Macau initiated and joined hands with the Hong Kong Metropolitan University, Zhongshan University, Guangzhou University, and Dongguan City College to establish the Global Consortium of Metropolitan Universities (GCUM). In November 2022, CityU Macau hosted the inauguration ceremony and the President’s Forum to mark the establishment, joint effort “To Share a Sustainable Shared Development of Universities and Cities.” The forum brought together the presidents’ representatives from GCUM member universities to share their insights on three topics: “Multi-dimensional Integration and Interaction Between Universities and Cities,” “Exchange and Innovation of Universities in the Post-pandemic Era,” and “Strategic Collaboration among Metropolitan Universities.” The member universities include East China Normal University, Nankai University, Nanjing University, Peking University, Guangzhou University, Hong Kong Metropolitan University, Fuzhou University, Tsinghua University, Dongguan City College, Beijing City University, Urban University, and Tokyo City University.

In collaboration with partner universities, CityU Macau carries out a range of summer and winter exchange programs, semester exchange programs, and short-term exchange visits to provide opportunities for students to study outside Macao. In recent years, the University has teamed up with higher education institutions in Portugal, Spain, and Turkey in Erasmus+ Programme and joined the University Mobility Asia Pacific (UMAP) to strengthen the exchanges amongst higher education institutions in the Asia-Pacific region.
Faculty of Business

The Faculty of Business (FOB), founded in 1988, is the oldest and most prestigious faculty within CityU, Macau. With the objective of nurturing interdisciplinary senior management and economic talent to meet the needs of various industries, FOB encourages exploration and innovation. It actively develops an interactive teaching model infused with industry-academic collaboration, and enhances the academic and research capacity of both teachers and students. The faculty adopts a more efficient management and leadership service model for the economic sectors in Macao, the Guangdong-Hong Kong-Macao Greater Bay Area, and China. Therefore, it leverages Macao’s unique advantages to better serve the commercial and cultural exchange between China and the Portuguese-speaking countries.

FOB offers bachelor’s, master’s and doctoral programs in Business Administration. Through diverse curriculums and a teaching model that places equal importance on theoretical knowledge and practical application, the faculty aims to enhance students’ professional knowledge and expertise to cater to the global demand for international business elites who possess the necessary skills and capabilities to excel in the field. The faculty members have teaching backgrounds in well-known higher education institutions worldwide and possess extensive industry experience in Europe, North America, mainland China, Hong Kong, Macao, and Taiwan.

In addition, FOB is committed to cultivating students’ creativity by developing a conducive learning environment that integrates university-enterprise collaboration. It engages students in extra-curricular activities, including off-campus lectures, seminars, and entrepreneurship competitions. Recently, the faculty has been actively preparing for various entrepreneurship competitions. These competitions allow students to apply their knowledge in practical scenarios and gain valuable insights into the world of entrepreneurship.

Currently, FOB has established alumni associations and an employment center, which aim to build a strong connection between the alumni and the faculty. Through the center, graduates are invited to share their successful experiences and host career talks. This alumni network plays a pivotal role in providing students with more direct and valid information on employment and entrepreneurship, consequently assisting them in their career development.

The Faculty of Data Science (FDS), established in 2020 on the basis of the Institute of Data Science, aligns itself with important strategies such as keeping up with cutting-edge international technology focusing on innovative development, and bringing into full play the advantages of the disciplines. FDS develops in tandem with the country’s key strategies for the development of the Greater Bay Area, serves the Macao SAR’s development goals, and promotes the development of the smart industry of Macao and other cities of the Greater Bay Area. Meanwhile, the faculty nurtures talents and leads first-rate research in the fields of Data Science and Computer Science, and establishes itself as a leading research and education base for education, scientific research, innovative application, and industry incubation. It strives to achieve an integrated teaching model that features “talent cultivation, innovative research and development, and project practice”, strengthening Macao’s competitiveness in the field of Technology thereby facilitating the city’s industrial diversification.

FDS features a team of high-level faculty members who possess PhD degrees from renowned universities from home and abroad, and it will continue to recruit talents with a high reputation in the international academy. The faculty currently offers six programs, namely bachelor's program in Intelligence Technology and Services, master's program in Data Science, PhD program in Data Science, as well as Computer Science at the bachelor's, master's and PhD levels.

FDS adheres to the education system adopted by international first-class higher education institutions in Data Science and Computer Science to improve curriculum design. Through its interdisciplinary curriculum design, the faculty aims to cultivate versatile professionals who possess both theoretical knowledge and practical expertise in areas such as Data Science, Artificial Intelligence, and Information Security, as well as innovative spirit, a sense of teamwork and comprehensive qualities.

FDS actively engages in comprehensive cooperation with research institutes, industries, and local governments both domestically and internationally, encompassing academic exchanges and technological development initiatives. The faculty serves as the Partner Base of Hong Kong New Area Postdoctoral Research Station, with the key industries of focus on smart cities, smart tourism, commerce innovation, metaverse, smart medical care, smart healthcare, smart finance, blockchain, cybersecurity and privacy protection, smart ocean and other industrial fields. It will also promote the transformation and development of scientific research and technology in Macao and the Greater Bay Area.

**Faculty of Finance**

The Faculty of Finance (FOF), established in 2018, is committed to exploring innovation in cultivating financial talent in Macao. It is the first faculty of its kind in Macao and the Greater Bay Area. FOF has established a close strategic cooperation network with eminent universities and the financial and business community, providing students with a multitude of practice, research and career counselling opportunities. Besides, students at FOF are educated by a wealth of faculty members who possess extensive teaching and industry experience in leading higher education institutions at home and abroad.

FOF offers three degree programs, namely, Bachelor of Applied Economics, Master of Science in Finance, and Doctor of Philosophy in Finance. The curriculum settings feature frontier finance topics such as FinTech, Finance Leasing, Green Finance, and adopt an outcome-based learning approach to educate financial talents with future readiness to thrive under the ever-changing market environment.

Currently, FOF has forged a strategic alliance for industry-academia collaboration and formed agreements with 18 local financial institutions. It regularly invites senior management from local financial institutions and experienced practitioners to host thematic seminars on campus. Aside from that, FOF students are able to gain industrial know-how in the real-world contexts through a wide range of summer internship programs. Through financial practices, it enables students to further develop international perspectives, practical skills, and competitiveness. FOF is a driving force for industry-academia-research cooperation between Hengqin and Macau. It has partnered with Hengqin International Finance Research Institute and Hengqin-Macau Youth Entrepreneurship Valley to establish a learning hub for academic exchanges. Through active participation, significant educational achievements have been accomplished in workshops, research, teaching and learning, and field visits.

人文社會科學學院 Faculty of Humanities and Social Sciences

The Faculty of Humanities and Social Sciences (FHSS), established in 2011, demonstrates distinctive disciplinary strengths and promising development with equal emphasis on teaching, research, and application. Within the faculty there are several teaching and research units, namely the Department of Innovative Social Work, the Institute of Analytical Psychology, the General Education Department, and the Foreign Language Education and Research Center. In addition, the Faculty of Humanities and Social Sciences (FHSS) offers 11 programs spanning from bachelor’s to PhD degrees in Applied Psychology, Applied Linguistics, Cultural Industry Studies, Social Work, English Studies, and Portuguese Studies. Furthermore, it provides general education courses to all students across various disciplines, aiming to enhance the comprehensive abilities of each individual.

Starting from 2023, FHSS has introduced and begun offering bachelor’s, master’s, and PhD programs in Applied Linguistics. These programs, available at all levels of study, are the first of their kind in mainland China, Macao, and Hong Kong. Through successful practices, students are exposed to a wide range of areas within Applied Linguistics and have the opportunity to specialize in TESOL (Teaching English to Speakers of Other Languages) and TCSOL (Teaching Chinese to Speakers of Other Languages).

FHSS is an organizer and hosting partner of various academic activities and cultural exchanges in Cultural Industry Studies, Digital Cultural Industries, Artificial Intelligence, Cultural and Creative Production, Merging Industries and Management Innovation, and Applied Psychology. These activities included the "10th Cultural and Technological Innovation Symposium in Shenzhen City and the China Mainland & Macao Digital Culture Industry Development and Cooperation Forum." In addition, Professor Shen Huying has launched a national charitable project called "The Garden of Heart & Soul" and has led faculty and students to actively engage in community service through over 80 affiliated service stations.

FHSS has yielded fruitful academic outcomes, it has undertaken various research projects funded by the Macao Foundation, the Cultural Affairs Bureau, and the Education Fund. These projects include: "Theories and Disciplinary Systems in Cultural Industry Studies," "Intangible Cultural Heritage Survey in Macao," and "Innovative Ecosystem of Macao's Cultural Industries." Moreover, its academic staff has compiled and prepared the translation and publication of over 100 academic works in Applied Psychology, including "The Selected Works of C.C. Jung," "A Critical Dictionary of Jungian Analysis," and "Psychology of the Heart.

FHSS has established partnerships with numerous renowned institutions, universities, and enterprises both domestically and internationally to foster industry-academia development. In recent years, the faculty has established close partnerships with the College of Chinese Language and Literature at Fujian Normal University, the General Union of Neighborhood Association of Macao, Shenzhen, China Co., Ltd., the International Association for Analytical Psychology (IAAP), the International Society for Sandplay Therapy (ISSST), and the Good Shepherd Centre. Through collaborative efforts, FHSS has facilitated practical outcomes through joint international forums, training programs, internships, exchanges, and academic research initiatives.

學院與國内外著名機構、高校、企業開展交流合作，為學術研究的發展提供廣闊的平臺。近年來，學院與 福建自貿大學文學院、澳門聯合書協會、深圳聯合數位科技有限公司、國際分析心理學會（AAAP）、 國際心理指導與訓練學會（SGST）、善心國等建立了緊密的合作關係，並合作開展國際論壇，聯合培養人才， 實踐交流，學術研究等，取得顯著合作成果。
創新設計學院 Faculty of Innovation and Design

The Faculty of Innovation and Design (FAID), formerly known as the Faculty of Urban Management and Studies, was established in 2015. It aims to address the ever-changing needs for education reform due to the societal, economic, technological and environmental development. FAID is committed to cultivating leading figures in the design industry with an innovative mindset and international perspective in the new era. FAID offers seven degree programs, namely, bachelor’s program of Arts in Design, master’s and PhD programs in Urban Planning and Design, master’s and PhD programs in Arts Studies, and master’s and PhD programs in Design.

FAID has established the Craft Laboratory and the China-Portugal Joint Laboratory of Cultural Heritage Conservation Science supported by the Belt and Road Initiative. The Craft Laboratory is a space for experimental learning and a teaching platform, where model-making equipment is available for students from design-related and urban planning programs or any student who is interested in the field to unleash their creativity and research potential through art pieces. Established in the context of the integrated development of higher education in the Greater Bay Area, the China-Portugal Joint Laboratory of Cultural Heritage Conservation Science supported by the Belt and Road Initiative fulfills its social responsibility and mission of “taking root in Macao and serving the Greater Bay Area” to provide services for preservation of cultural heritages and monitoring their conditions, while cultivating high-level professionals that meet the demand of Macao and neighboring regions, thereby continuously giving intellectual support to the city and its social development.

FAID has established academic exchanges and partnerships with renowned higher education institutions and research institutes at home and abroad, including Central Academy of Fine Arts, Communication University of China, Beijing University of Technology, Beihang University of Posts and Telecommunications, Jiangnan University, South China University of Technology, Guangdong Academy of Fine Arts, Shenzhen University, Shenzhen University of Technology, Suzhou University, Kunshan University, Yaping University of Science and Technology, Aalto University in Finland.

Faculty of International Tourism and Management

The Faculty of International Tourism and Management (FITM) was established in 2001 with the mission of “promoting innovative teaching and scientific research, cultivating high-quality tourism talent, and fostering social harmony and prosperity”. FITM strives to develop a prestigious and pronounced academic influence in Macao and the Asia-Pacific region, characterized by a high level of internationalization, distinctive features, and extensive industry-academia collaboration. Notably, the “Hospitality & Tourism Management” subject was ranked within the range of 51-75 in the ShanghaiRanking’s Global Ranking of Academic Subjects 2023.

To line up with Macao’s economic development, FITM offers an array of programs, namely a bachelor’s program in International Tourism and Hotel Management, master’s programs in International Hospitality and Tourism Management and International Hotel Management, and a PhD program in International Tourism Management. In 2023, FITM established a practical and educational base in the China Dragon Hotel. This facility offers diverse training spaces to enhance students’ experiential learning, thereby improving their overall competitiveness.

FITM advocates quality education and scientific research and is the first in Macao to have its bachelor’s, master’s, and PhD programs accredited with “TeqQual Certification by the World Tourism Organization (UNWTO)” at all degree levels. As of August 2023, FITM’s academic staff has published 249 academic papers in international SSCL journals and 42 academic works and teaching materials, and undertaken more than 80 research projects on various subjects.

Meanwhile, FITM has been expanding its partnership to build a broader development platform for students. For instance, it has established close partnerships with many renowned local and overseas tourism enterprises, including the InterContinental Hotels Group, PLC, MGM Macau, Sands China, Macau Convention & Exhibition Association, Shanghai Disney Resort, SJM Resorts, S.A., Galaxy Entertainment, Wynn Macau, Regent Hong Kong, DFS and the Disney International Programs, to provide internships for students. In addition, the faculty actively promotes the cultivation and development of local talent and forges cooperation with large tourism enterprises to deliver more sessions of the “Professional Development Scheme” for outstanding local students.

教育學院

School of Education

教育學院成立於2014年，自成立之日起，學院就專注於研究生教育，開設了教育學碩士、教育研究碩士和教育學博士三類學位課程。目前已經培養了來自香港和海外的碩士和博士研究生。學院在“學術與學術研究並重”的辦學理念的基礎上，進一步突顯了學術研究能力和人才培養中的重要地位。

學院擁有在各領域中具有豐富經驗的學術研究專家學者，兼任特邀講座教授、特聘教授和兼任研究生導師。教師與學生共同成長，學生在學術研究中，能充分發揮學生的主體地位，進而學術水平發展，鼓勵他們承擔社會責任，並以實踐性研究和知行轉移貢獻社會。

在國際化、更實戰化的教育大背景下，學院新設立“澳門國際教育研究創新中心”，作為學院教學和研究的學術交流的平台。澳門國際教育研究創新中心設有多個國際和國內的重點領域，並與澳門、大灣區和國際多所大學的教育科研機構保持緊密合作，為學生“基於科學計劃式”的培養模式提供了支持。

法學院
School of Law

The School of Law (SOL), established in 2015, demonstrates strong local characteristics through its teaching model that integrates knowledge and practice, with a specific focus on the legal system of Macao. Its faculty team comprises a wealth of leading professionals and scholars in Macao's legal sector.

SOL offers a master's degree program in Law with an emphasis on comparative law. The curriculum setting center around the Chinese Constitution, the Macao Basic Law, Administrative Law, Comparative Criminal Law, Comparative Civil Law, and International Commercial Law, among other areas. The program features highly qualified teaching staff and meticulous pedagogical activities that center on comparative studies of Macao's legal system and China's legal system. It is dedicated to elevating students' academic standards in law and equipping them with the necessary skills and knowledge for their future careers. Graduates can expect promising career development opportunities, benefiting from the demand for legal professionals in the local market and the legal services arising from the economic and trade cooperation platform between China and Portuguese-speaking countries.

In addition, SOL is dedicated to establishing a hub for high-level academic exchanges. Each year, the School invites distinguished legal professionals from both domestic and international backgrounds to participate in legal forums and seminars, such as the Macau-Canton Legal Forum and the Law Studies Forum of CityU, to enhance the academic and research capabilities of the faculty and students while fostering a culture of knowledge exchange.

SOL is committed to further expanding academic exchanges with domestic and overseas law schools, legal institutions, and organizations. By adopting an innovative teaching model that integrates practice and research studies, it aims to nurture professionals who possess a global outlook and legal expertise to serve not only Macao but also the neighboring regions.

The Institute for Research on Portuguese-Speaking Countries (IROPIC), established in 2013, is a key faculty-level academic unit dedicated to systematic studies, postgraduate education, and research publication. It is also a distinctive training base and a think-tank for country and regional studies in Macau. The institute provides master’s and PhD programs in Portuguese-Speaking Countries Studies. The programs are classified into the academic fields of international relations and regional and country studies. They are the only non-language research program in Portuguese-speaking countries in Macao and the third of their kind around the world. IROPIC has a team of experienced teaching and research professionals with strong academic backgrounds.

IROPIC conducts research projects spanning a wide array of disciplinary fields, including politics, economy, law, history, social sciences, culture, and the transformation and governance of Portuguese-speaking countries. Additionally, it focuses on diplomatic relations, economic exchanges, and cultural interactions between China and the Portuguese-speaking countries. It is currently preparing a directory of Chinese enterprises in Portuguese-speaking countries and those from Portuguese-speaking countries based in China.

Aside from that, compiling data and academic journals related to Portuguese-speaking countries is IROPIC’s commitment to ensuring that faculty and students have access to valid literature resources. It has currently collected more than 3,000 related publications. In addition, the Institute has established the Macau “One Belt, One Road” Research Center to provide intellectual support to the development of the Belt and Road Initiative between China and Portuguese-speaking countries.

IROPIC actively explores cooperation with universities and academic institutions at home and abroad. It has partnered with higher education institutions in Portuguese-speaking countries to offer students with exchange opportunities, improving the global perspectives and academic research. Nevertheless, students will gain valuable insights from leading local and international scholars through their participation in various research initiatives, academic conferences, workshops, and seminars.

International Training and Testing Center

The establishment of the International Training and Testing Center (ITTC) in 2021 signifies the continuous effort of the University's commitment in the provision of lifelong learning and professional development programs in Macao.

- **Professional training programs**
  ITTC offers a series of short, medium, and long-term certification or diploma programs designed for working adults to further their studies after work, and most of the programs are subsidized by the "Continuing Education Development Plan" in line with Macao government's broad initiatives on lifelong learning and career development for the local community. ITTC has partners with different government offices and industries in Macao to design and organize bespoke training programs to our local talents to fulfill both skill-based-for-the-job training as well as preparation for both national and international professional accreditation. Our units included Education and Youth Development Bureau, Labour Affairs Bureau, Public Administration and Civil Service Bureau Macau Gaming Industry Labourers Association, Macau Institute of Financial Services, local schools, and various association.

- **Internationally Testing**
  ITTC serves as official testing administration location for IELTS, TOEFL, TOEIC, CET4&6, SAT, ACT and BETT, offering English proficiency tests services for the convenience of Macao students and the general public.

- **Academic Exchange and Training Programs**
  Based on the requests of guest academic institutions and visiting delegations, ITTC runs short-term collaborative academic training programs and experiential learning activities throughout the year. The core content of these programs includes lectures, conferences and thematic seminars. To further enrich the participants' Macao experience, frequent fieldtrips and experiential learning activities are also organized in collaboration with local businesses and government offices.

- **International Testing**
  ITTC serves as official testing administration location for IELTS, TOEFL, TOEIC, CET4&6, SAT, ACT and BETT, offering English proficiency tests services for the convenience of Macao students and the general public.

- **Academic Exchange and Training Programs**
  Based on the requests of guest academic institutions and visiting delegations, ITTC runs short-term collaborative academic training programs and experiential learning activities throughout the year. The core content of these programs includes lectures, conferences and thematic seminars. To further enrich the participants’ Macao experience, frequent fieldtrips and experiential learning activities are also organized in collaboration with local businesses and government offices.

因應社會對“終身教育，持續進修”的需求，澳門城市大學於2021年成立國際培訓與測試中心（簡稱“ITTC”），中心積極探索優質高效的新型教學模式，優化特色學科，加強貼近社會需求的在職及專業培訓課程，提供全面的國際化或英語考試服務，包括但不限於以下領域：

- **專業培訓課程**，與政府部門、機構、協會合辦之課程，配合澳門特區政府經濟產業的多元發展，中心與本校及海外機構合作，共同開辦各種專業培訓和國際認證課程，為在職人士開設短、中、長期的證書課程，並提供課程的“終身學習發展計劃”方案，充分幫助學員業務發展。同時，為澳門多個政府部門及機構人員提供專業的在職培訓，包括教育及青年發展局、勞工事務局、行政公務局、澳門手術博彩業職工總會、澳門金融總會、澳門中小學及其他社會機構等，提升專業素質及優化個人職場能力。

- **國際認證的英語考試**，專用澳門語言教學資源平台，設有聽力測試（IELTS）、托福（TOEFL）、多益（TOEIC）、專業考証（SAT）、美國大學入學測試（ACT）、全國大學英語四級（CET4）、全國大學英語六級（CET6）及全國美國外語測試考試（BETT）等，以滿足語言人才認證考試的需求，為澳門大陸、學生及社會人士提供便捷的英語考試服務。

- **培訓項目、學術交流活動**，根據外地的學術機構／考務單位的需求，規劃及籌辦訂制化的短期實習及專業項目合作活動，例如短期訪問專業研討會、專題研討會等，幫助訪學人員通過實踐、探究、創新提升自身的綜合能力。
