Study at a QS
top 100 university
Explore a unique
natural and
cultural environment

National Taiwan University

Academic breadth and depth

Ranked 69th, NTU is the only university in Taiwan in the QS top 100. NTU has the most comprehensive academic offerings in Taiwan, providing fertile soil for students' intellectual growth regardless of their interests.

Expand your social horizons

NTU offers student volunteer services, hundreds of students clubs, and Mandarin language courses that will help international students quickly settle in Taiwan and **meet many new local and international friends.**

What to study at NTU

In addition to hundreds of degrees programs, NTU offers a variety of non-degree programs of different lengths in English and Mandarin for international students to engage in academic studies and to get to know Taiwan's culture and society first-hand.

Non-degree programs

- **Exchange Student:** A one-semester or one-year academic program.
- **Visiting Student:** A fee-paying program for students to earn credits at NTU, enjoying the same benefits as exchange students.
- **Research Visiting Student:** A program for students to do short-term research at NTU.

Short-term and language programs

- **NTU Plus Academy:** Short-term programs that allow students to gain further insight into Taiwan's environment, culture, and language.
- **Chinese Language Division, Language Center:** General language courses at various levels.
- **International Chinese Language Program:** An intensive language program offering total immersion.

For more information about NTU's non-degree programs or to apply, please visit the website of the Office of International Affairs or contact OIA directly.

NTU, your gateway to Asia

Taiwan, the home of NTU, is located right in the heart of East Asia, making it the perfect location from which to explore East and Southeast Asia.

Born out of the sea, shaped by the elements

Surrounded by blue oceans and dotted with towering mountains and lush forests, Taiwan offers stunning nature and is home to unique endemic species.

A hub of historical and global importance

Successive waves of migration and colonization have resulted in a rich cultural and linguistic variety and a unique Taiwanese culture as people from all over the Asia-Pacific region have settled in Taiwan.

Taipei always offers something to experience as tradition and modernity exist side by side in a **city that never sleeps**. Visit an old temple in the afternoon, a modern art performance in the evening, and dive into the night life to finally eat traditional breakfast with Taiwanese as the night and day shifts change.

From tradition to modernity in 24 hours

NTU, located in the center of Taipei, offers students not only a modern liberal education that encourages critical and independent thinking, but also a starting point to investigate a modern Asian metropolis where the old and new are in constant exchange and creative tension.
