INTERNATIONAL POSTGRADUATE COURSE GUIDE 2016

Melbourne | Geelong | Warrnambool | Cloud learning

deakin.edu.au/international
This guide provides you with an introduction to Deakin University. Information on the services we offer and an overview of what you can study at Deakin. It’s designed to be read in conjunction with our website, which contains more detailed course information. You can learn more about what Deakin offers international students at deakin.edu.au/international or email us your questions at study@deakin.edu.au.
Deakin University, Australia, offers a world-class education recognised around the world. But Deakin is not just about reputation and prestige – we are a university that is all about you and your goals. Deakin offers you the chance to gain and advance your knowledge, skills and experience to make an impact in the global workplace. Let us help you realise your ambitions.

High rankings and big awards
Deakin is among the Top 3% of universities worldwide, according to every major international rankings organisation (Times Higher Education, QS and ARWU). An award-winning university, Deakin was named the 2014 International Education Provider of the Year by the Government of the Australian State of Victoria. Our cutting-edge online environments for students placed Deakin at the top of the Oceania Region at the 2014 Reimagine Education Awards – a major global competition focused on innovation in higher education.

We are a QS 5-Star university, and both QS and Times Higher Education have also ranked Deakin among the Top 50 universities under 50 years of age – an acknowledgement of the University’s rapidly growing renown and research capabilities.

World-class degree programs
Deakin is a global leader in a number of areas of study. Deakin is:
- 23rd in the world for Education – we are training the teachers of tomorrow (2014 QS Discipline Rankings)
- 3rd in the world and #1 in Australia for Sports Management (Sports Business International)
- In the Top 1% of all universities worldwide (2014 QS Discipline Rankings) for:
  > Accounting and Finance
  > History and Archaeology
  > Law and Legal Studies
  > Politics
  > Psychology
  > Sociology
- One of just three Australian universities with an EPAS-accredited MBA degree.

Preparing you for your career
There is more to Deakin University than just getting a world-class education – we are committed to progressing your career. Deakin’s courses have a focus on practical learning and work experience to make sure you have the skills that employers want and need. At Deakin you won’t just be learning out of a textbook: Our Education students teach in classrooms; our Nursing students provide assistance in clinics; our Environment students explore the forests. Through Deakin you will graduate ready to take on the world.

Our commitment to international student employability won Deakin the 2014 Victoria International Education Award for International Student Employability and Career Development.

Close links with Industry
Deakin maintains close ties with industry, government departments, professional associations and other educational providers to ensure our courses are developed and reviewed with industry and professional input.

You will be taught by staff who have industry experience as leaders and innovators in their fields. This means you can be confident that what you learn will be relevant to your working life.

Deakin is committed to high quality research and provides outstanding facilities and a supportive environment for our academics and students.

Through a research degree at Deakin, you will develop the skills and qualifications to thrive in a rewarding and meaningful career in research and industry.

With our strong international focus, Deakin has established partnerships with some of the world’s leading research organisations. These partnerships have allowed us to make a global impact in many research fields.

Deakin’s research portfolio extends across many different areas including, but not limited to, biotechnology; ageing and chronic illness; citizenship and globalisation; intelligent systems; natural resource management; physical activity and nutrition; education; and social and mental health.

And our facilities are second to none. Deakin’s Geelong Technology Precinct (GTP), for example, was developed to support advanced research for local industry by combining high-level research capabilities with specialised research equipment. The precinct contains a number of research facilities including the Institute for Frontier Materials.

For further information on higher degrees by research, see page 90 of this Guide.

deakin.edu.au/post-research
Victoria, Australia
Located on the southernmost tip of Australia is the State of Victoria. In its large cities and country towns, Victoria embraces Australian traditions, but has also welcomed the world, with people from over 200 countries calling the State home. Buzzying, cafe-filled laneways and surf beaches; expansive countryside and native forests make Victoria a vibrant place in which to live and study.

Melbourne
Melbourne is the multicultural heart of Australia – an international city that is home to people from all around the world. Melbourne is a city built for exploring: Coffee shops and galleries, music and amazing food can be found down every lane and alley in the city centre. There is always something happening in Melbourne, from cultural festivals and world-class arts performances to international sporting events like the Australian Open tennis tournament. Melbourne is a safe, smart and sociable city – a place that continues to earn its title as the most liveable city in the world (Economist Intelligence Unit, 2011–2014).

Geelong
Geelong combines the best of city living with an atmosphere that is more laid back. Just an hour away from Melbourne, Geelong has the shopping, dining and nightlife one expects of a dynamic city, but its beautiful waterfront and gardens are perfect for strolling and relaxing. And with some of the world’s best surf beaches close by, the city of Geelong is the perfect balance between the bustle of Melbourne and the beauty of seaside Victoria. Enjoy cultural festivals and a receptive community that gladly welcomes Deakin students. You might even become a new fan of Victoria’s sports obsession – Australian rules football – by attending the games of the Geelong Cats professional football club. The team is a partner of Deakin University.

Warrnambool
Warrnambool presents a different side of Victoria. Set along one of Australia’s most scenic coastlines, Warrnambool is the place to be for exploring the country’s famously unique plant and animal habitats. But Warrnambool is also a prosperous country town that offers comfortable living and a thriving cultural scene hosted by a great regional gallery and arts centre. Cruise up the Hopkins River or sit down to some excellent Southeast Asian cuisine on Liebig Street. Warrnambool has plenty of options for an active student, and the small town feel creates a sense of community that would be harder to find in a big city. And for students concerned about expenses, Warrnambool offers a lower cost of living than Melbourne and Geelong without sacrificing quality.
Deakin University has four campuses – one in Melbourne, two in Geelong and one in Warrnambool. All are accessible via public transport. Each Deakin campus has state-of-the-art facilities, its own distinctive character and a strong presence in the local community.

For more visit deakin.edu.au/post-campus-life.

Melbourne Burwood Campus
The Melbourne Burwood Campus is Deakin’s largest and has a lively and diverse on-campus culture. Distinguished by its striking modern architecture, the campus has open and inviting spaces for socialising and studying. In addition to excellent student service facilities and an exhaustive library, the campus features a professional motion capture lab; dance, drama and television studios; food nutrition lab; and IT gaming facilities. It is also home to the evocative Deakin University Art Gallery.

The campus is a short trip from the centre of Melbourne. Its location gives students access to the best of city living as well as the sense of community and relaxed feel of a suburban setting.

Some of the most popular postgraduate courses offered at the Melbourne Burwood Campus are in the areas of business and accounting, information technology, teaching and education, and media and communications.

Geelong Waterfront Campus
Located on the shores of the beautiful Corio Bay, the Geelong Waterfront Campus is positioned in the centre of Geelong’s central business district. The campus provides a unique look at Australian heritage: Historic buildings are combined with modern design and convenience to produce a unique and cutting-edge campus space. Perhaps it is therefore not surprising that the Geelong Waterfront Campus is home to Deakin’s massive architecture and creative arts studios. Alongside a full range of accessible student services, the campus is also home to teaching facilities for postgraduate clinical psychology.

Waterfront students love the central location, as well as the creative, modern areas to catch up or study. A free shuttle bus connects students with the Waurn Ponds Campus.

Geelong Waurn Ponds Campus
Set on expansive, landscaped grounds, Geelong Waurn Ponds is Deakin’s second largest campus. Waurn Ponds is home to the Deakin Medical School and Deakin’s innovative Geelong Technological Precinct – a collection of research centres exploring the latest in advanced fields like nanotechnology and biotechnology.

The Geelong Waurn Ponds Campus has extensive sporting facilities for students who appreciate an active lifestyle. And the campus is a short trip from the amazing surf beaches of Australia’s southern coast. Easy, free access to central Geelong and the ability to quickly head to Melbourne means that Waurn Ponds is connected to all of the best Victoria has to offer.

Flagship programs at Waurn Ponds include medicine, optometry, engineering, and science.

Warrnambool Campus
Deakin’s Warrnambool Campus is set on the banks of the picturesque Hopkins River, close to surf beaches and popular tourist attractions. The Warrnambool Campus is a close-knit community, a place where students and lecturers really have the opportunity to get to know each other and work closely together.

That sense of community extends to the whole of Warrnambool, providing support to new students in a relaxed, friendly atmosphere. But for those looking for an occasional jolt of big city excitement, trains run daily to Melbourne.

And being located near a number of unique aquatic environments makes the Warrnambool Campus an ideal location for marine biology, fisheries and aquaculture research.

Cloud Learning – Our Campus Without Walls
Deakin’s cloud learning is our fifth campus – one without walls, one that comes to you and fits around your life. Learning in the cloud is available in most units, incorporating classes and seminars with online interaction.

As a cloud learning student you:
• are taught by the same lecturers and tutors as on-campus students
• get remote access to all of Deakin’s student support services and activities such as an online orientation when you first start
• connect to specialist careers advisers and language and learning advisers who can help you with course direction and developing successful study skills and techniques.

Please note that some cloud units and courses do have compulsory on-campus components, which may include examinations and practicals.

To fully engage with these learning experiences, students need to have access to and be able to use internet-connected devices, and minimum computer standards are required.

For more information on computer standards, please visit deakin.edu.au/post-computer.
Deakin offers international students a complete range of services and programs, from accommodation assistance to academic development and social activities. Our staff are available to support you through every step in your Deakin experience.

GET STARTED
We make it our priority to ensure that all new international students – many of whom have arrived in Australia for the first time – make a smooth transition to university and don’t feel alone. Deakin’s welcome program includes orientation, workshops, social events, study groups and opportunities to get you involved in campus life. Participating in these activities ensure you make a successful start to studying at Deakin.

dedeakin.edu.au/post-start

DEDICATED SUPPORT STAFF
International Student Advisers (ISAs) are dedicated Deakin staff committed to the needs of international students. They serve as your first point of contact if you have any questions or problems, including help with visa matters. ISAs can be found on every Deakin campus. By advising you personally or referring you to specialist services, ISAs are there to contribute to your success at Deakin and beyond.

dedeakin.edu.au/post-isa

STUDENT MENTORS
Student mentors help newly-arrived students adjust to being on campus and can help familiarise you with the Australian way of life. New students can find mentors at drop-in stations located on all campuses. Mentors can provide academic help, social assistance and emotional support.

Many student mentors are international students themselves, and know what it means to be new to Deakin and Australia. They are happy to share their experiences to help you adjust to university life.

STUDY
At Deakin we want to help you get the most out of your learning experience. We have a team of staff and students dedicated to providing study support services to help you achieve this.

Library
The Library is vibrant and technology-rich, providing access to inviting learning spaces where you can study or meet friends on every campus, and it has a supportive online presence in the cloud.

Our extensive collection offers a range of resources to support your learning including e-books, books, streaming videos and journals, many of which are available online.

Liaison librarians – your faculty information specialists – are available to help you navigate and discover the latest global information resources and tools. Our liaison librarians can also help you develop your digital literacy skills in order to enhance your learning and research. You are also supported by our student rovers, who can help you with general library and IT queries.

dedeakin.edu.au/post-library

DeakinSync
DeakinSync is your personal online hub with everything you need to succeed. Access your study units, manage your email and calendar, and collaborate with others anywhere, anytime to stay connected and in control of your studies.

dedeakin.edu.au/post-sync

IT support
Deakin students are provided with IT support 24/7 via an online knowledge base of hundreds of IT self-help articles and videos. IT help is also available over the phone and on campus.

Study support
Get study advice in time management, note-taking, developing your academic English, avoiding plagiarism, critical thinking, writing essays and reports, class presentations and exam preparation.

dedeakin.edu.au/study-support

WORK
Deakin’s Jobshop can help you find a part-time job (on or off campus), volunteer position, course-related experience, or graduate position. We are here to help you develop the skills to manage your career. All of our services are free, even up to one year after you graduate. Among other things, Jobshop can help you:

• put together a winning job application with online and face-to-face help
• plan what you will do after you graduate – visit ‘my course, my career’ to see where your course may lead you or make an appointment with one of our qualified career counsellors
• polish up your interview skills using the viewing session of our online program ‘Career Gurus’ or by booking in for a mock interview.

There is a Jobshop resource centre on each Deakin campus and we also run workshops and webinars to help you manage your career.

dedeakin.edu.au/post-jobshop

Industry experience
Imagine getting real industry experience before you graduate. Many Deakin degree programs provide opportunities to gain discipline-specific work experience through work-integrated learning (WIL) programs and play a critical role in developing the employability and job readiness of graduates.

Deakin Jobshop International Internship Program
The Deakin Jobshop International Internship Program coordinates internships for international students in Australian businesses. It is a unique program that places current international students in engaging workplace opportunities, helping them gain the skills needed to work in their chosen field. Students get valuable real-world experience that they can put on their CVs when they graduate.

Please note that the Internship Program is a highly competitive program, so placements are not guaranteed.

PLAY
Getting involved in us life is a great way to meet new people, take on new challenges, look after your health and fitness and make the most of every opportunity while you study.

As a Deakin student you can explore more than 150 clubs and societies across all campuses including sporting, academic, personal development, health, course and discipline-specific, religious and many more. There is sure to be a club or society to suit you.

Plus, there is a wide range of sport and recreation activities available on all campuses, ranging from fitness centres, team sports competitions, as well as opportunities to participate in annual university, state and national sporting competitions.

Events such as Color Me Rad, Deakin Worldly Challenge, Deakin Bupa Games, Orientation, Get Involved Carnival, camps and day trips all ensure your time at Deakin is filled with opportunities to get involved and get active.

HEALTH, SAFETY AND WELLBEING
Deakin offers a range of services to help students stay healthy, safe and promote personal wellbeing – physically, mentally and spiritually. Services include medical centres, multi-faith chaplains, counselling, disability support, safer community, physiotherapy, sport and recreation and student advocacy.

Deakin Medical Centre
Deakin Medical Centre provides professional medical and nursing health care and advice to students. Medical centres are located on all campuses.

Services include:
• vaccinations – for general health, course requirements and travel
• tests and screenings – including blood pressure, pathology and medical check-ups
• referrals – to specialist doctors, hospitals, physiotherapists, psychologists
• diet and exercise advice
• mental wellbeing (for example, homelessness, depression, anxiety)
• treatment and care when sick.

Counselling
Campus nurse consultations are free and strictly confidential. Campus doctors bill directly through your Overseas Student Health Cover (OSHC). Health information is available in various languages at each Medical Centre.

dedeakin.edu.au/post-medicalcentre

DeakinJobshop
Get real industry experience! Students are provided with IT support 24/7 via an online knowledge base of hundreds of IT self-help articles and videos. IT help is also available over the phone and on campus.

Study support
Get study advice in time management, note-taking, developing your academic English, avoiding plagiarism, critical thinking, writing essays and reports, class presentations and exam preparation.

dedeakin.edu.au/study-support

Safety
Our campuses are increasingly open to the University community and the general public on a 24/7 basis. Security officers are on duty 24 hours a day, 7 days a week, and are based at all campuses.

In addition, SafeZone is a free phone app for all Deakin University students and staff, and connects you directly to the Security team if you need help on campus.

Supportive and inclusive environment
Deakin promotes a diverse, inclusive and supportive environment through a number of services and initiatives.

The Disability Resource Centre (DRC) provides individual support to students with a disability or health condition to successfully participate in their studies and university life. The centre promotes inclusive practices across the University and can arrange adjustments to suit your needs. These can include:

• alternative assessments/exam arrangements, such as extra writing time or rest breaks
• academic support workers, such as note-takers and sign interpreters.

The ALLY Network creates a more diverse and inclusive culture by promoting greater visibility and awareness of lesbian, gay, bisexual, transgender, intersex, queer or questioning (LGBTIQ) staff and students.

DEAKIN UNIVERSITY STUDENT ASSOCIATION (DUSA)
Looking for a friendly face? You’ll always find one at DUSA. From social events to support, with free legal, advocacy and welfare services, the student association has you covered.

dusa.org.au

Multifaith Chaplaincy
Our chaplaincy service offers spiritual counselling and faith support services to students regardless of their religious backgrounds. Multifaith prayer spaces are available at all campuses.

dedeakin.edu.au/post-chaplains
For many students, moving away from home is all part of the university experience. This is particularly true for international students, many of whom are coming to a brand new land for the first time. This can be a big adjustment, and Deakin has a variety of accommodation options to suit your needs.

**Campus accommodation**
Campus living offers a unique opportunity to immerse yourself in the Deakin experience. Accommodation is available at the Geelong Waurn Ponds Campus, the Warrnambool Campus, the Melbourne Burwood Campus and the Melbourne Medical Accommodation Precinct. Residences provide an affordable and secure living and learning community ideal for personal growth and academic success, as part of the student experience at Deakin.

Each residential community offers modern, single-room housing in a landscaped setting. All rooms are furnished, carpeted, heated and equipped with a bed, desk, Wi-Fi and data point linked to the University network. All Deakin residents have access to a range of support services in the form of residential leaders living within the community; residences management and administrative staff; a fully staffed 24-hour reception at Burwood and Geelong; on-call support staff at Warrnambool; and 24-hour Deakin security staff at all campuses. The residences team provides a comprehensive program of social, personal, academic and sporting activities, ensuring a smooth transition to University life and a rewarding and enjoyable experience. Residences at all campuses are self-catered, with food outlets available at all four campuses. Visit [deakin.edu.au/post-residences](http://deakin.edu.au/post-residences).

**Off-campus accommodation**
Students can search for off-campus accommodation using Deakin’s Houseme database. You will find a variety of accommodation, including long-term, short-term and casual options available to rent. In order to choose suitable accommodation, Deakin recommends you organise short-term accommodation for at least one week from the time you arrive in Australia. This will allow you some time to personally inspect the suitability of your long-term accommodation. You can also access a range of free self-help resources to assist with understanding:

- When to start your accommodation search and how to go about it
- The cost associated with finding accommodation
- Things to consider at property inspections
- Suburb locations around each campus
- Rights and responsibilities when renting in the State of Victoria.

**Melbourne Burwood Campus – Burwood residences**
The Melbourne Burwood Campus has on-campus accommodation available for 600 students. The student village has accommodation for 200 students and offers single rooms within five or six-bedroom apartments, with shared bathrooms, kitchens and lounge areas. The multistorey apartment complex has accommodation for 400 students in either self-contained studio apartments or individual rooms within five or six-bedroom apartments, with shared bathrooms, kitchens and lounge areas. Units are mixed gender and multicultural.

The residences also incorporate landscaped courtyards, study rooms on each floor, a computer lab, a large ground floor recreation space, central laundry and a bike room.

Indicative weekly rates: A$282–A$342.

**Geelong Waurn Ponds Campus – Geelong residences**
The Geelong Waurn Ponds Campus has on-campus accommodation available for 850 students. The shared accommodation units and dormitories house 475 students in 50 units, with unit sizes ranging from two to 29 bedrooms. Units feature communal kitchens, bathrooms and lounge areas, and central laundry facilities are available. Units are mixed gender and multicultural.

Indicative weekly rates: A$217–A$223.

**Medical Accommodation Precinct**
The Geelong Waurn Ponds residences also provide 10 fully self-contained individual modular units/pods designed for the use of the University’s graduate-entry medical students. Each of these units houses three people.

Indicative weekly rates: A$188–A$216.

**Warrnambool Campus – Warrnambool residences**
The Warrnambool Campus has on-campus accommodation available for 342 students. There is accommodation for 140 students in a mixed gender and multicultural environment, with unit sizes ranging from 4 to 21 bedrooms. All units have communal kitchens, bathrooms, lounge areas and laundries. All residences feature communal indoor and outdoor patio areas, a large kitchen and lounge and a central laundry facility.

Indicative weekly rates: A$317–A$323.

**FIND OUT MORE**

Deakin degree programs have eligibility requirements that students must meet in order to gain entry into their course of choice. This includes meeting Deakin’s academic admission requirements.

Each course at Deakin has its own academic entry requirements that applicants are expected to meet in order to gain entry. Information about entry requirements is listed on the Deakin University website and you can also consult with Deakin International throughout the application process. All academic admission requirements must be fulfilled prior to admission.

Below you can find the academic admission requirements organized by the type of degree being pursued. Please be advised that select courses have their own academic requirements that may differ from the eligibility requirements on this page.

Graduate Certificate and Graduate Diploma
Applicants applying for entry into a Graduate Certificate or Graduate Diploma degree program must have:

- an approved three-year undergraduate degree, or comparable, from an approved university or other educational institution; or
- comparable qualifications gained by examination or relevant professional or industrial experience.

Master’s degree by coursework
Students applying for entry into a master’s by coursework degree program are required to have completed at least a three-year bachelor’s degree, or comparable, of an acceptable standard from an approved university or other educational institution.

Master’s degree by research
Applicants must hold a bachelor’s degree with honours (lower second class and above), or equivalent, from a recognised tertiary institution in an appropriate discipline. You must also have demonstrated capacity to undertake significant research in the proposed field for which Deakin can provide the required supervisory expertise.

Applicants are encouraged to contact Deakin University faculty staff to discuss research areas of interest before submitting your application.

Doctoral programs
Applicants must hold a bachelor’s degree with honours (upper second class and above) or a master’s degree by research from a recognised tertiary institution in an appropriate discipline as well as demonstrated capacity to undertake significant research in the proposed field for which Deakin can provide the required supervisory expertise.

Applicants are encouraged to contact Deakin University faculty staff to discuss research areas of interest before submitting an application.

Please note that additional work experience requirements apply for entry into certain programs. For further information on specific courses, visit deakin.edu.au/post-requirements.

Some overseas study programs do not meet our academic standards for postgraduate study. But we know that great students can come from many backgrounds.

This is why Deakin College has teamed with the Deakin University English Language Institute (DUELI) to provide the Postgraduate Qualifying Program (PQP). The PQP is an alternative pathway for entry into postgraduate business degrees at Deakin University.

The Postgraduate Qualifying Program is designed to help you succeed in your postgraduate studies. The PQP combines postgraduate academic skills development with communication and English language training.

The PQP is a non-award course that is taken over one trimester. Students complete two discipline-based units, as well as two units of English language and academic skills instruction. Successful completion of the PQP program will enable students to meet the academic and English language requirements for entry into their specified postgraduate program at Deakin University.

Deakin University postgraduate courses
The PQP can prepare you for the following Deakin University postgraduate programs:

Master’s courses (2 years):
- Accounting and International Finance
- Business (Sport Management)
- Business Administration (International)
- Commerce
- Information Systems
- International Finance

Master’s courses (1.5 years):
- Business Administration (MBA)
- International Business
- Marketing
- Professional Accounting

Graduate diploma courses (1 year):
- Business Administration
- Business Administration (International)
- Commerce
- Information Systems
- International Finance
- Professional Accounting

English language entry requirements for PQP program
An overall band score of 6 or higher in the International English Language Testing System (IELTS) test, with no individual band score less than 6 or equivalent. For equivalent scores in other English tests, see Band A in the table on page 15 of this Guide.

Academic admission requirements for PQP program
For a detailed listing of the minimum admission requirements for the PQP, visit deakin.edu.au/post-pqp.

Admission requirements for students from China
Three-year diploma (full-time, self-study or adult education) from a degree granting institution recognised by the Chinese Ministry of Education (completion certificate must be provided), where:

- an overall weighted average mark of 70 percent has been obtained over three years of study
- the curriculum of the diploma has been developed by the degree granting institution and is delivered by the institution or its affiliates, or
- four-year bachelor’s degree from a degree granting institution recognised by the Chinese Ministry of Education without degree parchment (completion certificate must be provided).
ENGLISH LANGUAGE REQUIREMENTS

English is the language of instruction and assessment at Deakin University. As an international student you will need to demonstrate your English language ability to be eligible to enter the Deakin degree program of your choice.

English language requirements for postgraduate students

In order to gain entry to a postgraduate degree program at Deakin University you will have to demonstrate that you have the appropriate level of English language skills. There are two options available for international students to meet the English language requirements for their degree program:

Option 1 – You have completed previous studies in English (conditions apply)*

Option 2 – You received a high enough score on an approved English language test.*

Let us explore these two options further.

OPTION 1 – Previous studies in English

For some students, Deakin will recognise your previous studies in English as being enough to meet your course’s English language requirements. If you have previously studied in an environment where English was the language of instruction and assessment, you might meet Deakin’s English language requirements. For example, students who complete the whole of their undergraduate studies in selected English-speaking countries may meet the requirements. For a complete list of previous studies and assessment results that meet Deakin’s English language requirements visit deakin.edu.au/post-english.

OPTION 2 – Approved English language tests

Deakin accepts results from many international English language tests. If you earn a sufficient score on one of these tests you can meet the English requirements for your course of choice.

The table on the opposite page shows the approved English language tests and the scores for BAND A through BAND E.

Most postgraduate courses at Deakin require English language test scores equal to or better than the scores in BAND B. However, some postgraduate degree programs require higher levels of English proficiency. The tables of course descriptions in this Guide will provide you with the minimum IELTS scores for entry into each course. Check your course to see what the English language requirement is. If you have taken an English test other than the IELTS exam, use the table on the opposite page to find out the score that is the equivalent of the minimum IELTS score for your course.

DO YOU HAVE THE GRADES, BUT NOT THE ENGLISH?

If you meet the academic requirements to study at Deakin, you can still apply even if your English does not meet our requirements.

Qualified students who need help with their English will receive a conditional offer that allows you to study at the Deakin University English Language Institute (DUELI). If you successfully complete the necessary English language programs at DUELI, you will gain direct entry to your course at Deakin.

You can learn more about DUELI on the next page of this Guide.
DEAKIN UNIVERSITY
ENGLISH LANGUAGE INSTITUTE (DUELI)

Do you need help meeting Deakin’s English language requirements? Or do you want to improve your English and study skills before starting your degree?

DUELI can help you improve your English and prepare you for study at Deakin.

Meet Deakin’s English requirements
DUELI can help you meet the English language requirements for your Deakin degree. DUELI’s high-quality language programs will improve your English. And you can meet the English language requirements of your Deakin course by successfully completing select DUELI programs.

The DUELI advantage
DUELI is recognised as one of the best English language centres in Australia. As part of Deakin, DUELI will do more than improve your English. DUELI will give you the chance to improve your study skills and become familiar with studying at an Australian university.

Courses start every five weeks.
At DUELI you will find:
• dedicated, experienced and highly qualified teachers
• modern, well-equipped classrooms and library
• excellent student support, including advisers and counsellors.

For more information about DUELI, please visit deakin.edu.au/post-dueli.

Meet Deakin’s English requirements
DUELI can help you meet the English language requirements for your Deakin degree. DUELI’s high-quality language programs will improve your English. And you can meet the English language requirements of your Deakin course by successfully completing select DUELI programs.

DUELI is part of Deakin University
DUELI is more than an English language centre; it is part of Deakin University. As a DUELI student you will have full access to all of Deakin’s facilities and services. This includes libraries, health and counselling services, and Deakin’s sport facilities.

DUELI is accredited by the National ELICOS Accreditation Scheme (NEAS) and is a member of University English Centres Australia (UECA) and English Australia (EA).

GETTING TO LEARN ENGLISH AND STUDY... HERE AT DEAKIN UNIVERSITY HAS GIVEN ME A PERSPECTIVE WELL BEYOND PURE ACADEMICS.

CHARLOTTE PEDERSEN
FORMER DUELI STUDENT
COUNTRY OF ORIGIN: NORWAY

Originally from Norway, Charlotte Pedersen is now a postgraduate student of Media and Communication at Deakin. But before she could start her Deakin degree program, Charlotte needed to meet the University’s English language requirements. After 10 weeks at DUELI, she was able to start her Deakin degree with strong English skills.

WHAT CAN I STUDY?

English for Academic Purposes (EAP)
EAP programs prepare students for university studies in Australia. You can meet Deakin’s English language requirements for most postgraduate courses by successfully completing the EAP 4 program.

General English (GE)
GE programs offer students at all levels the chance to use English confidently and correctly. GE programs can prepare beginner English speakers for the EAP program.

English for Teaching
English requirements are generally higher for Teaching programs at Deakin. The five-week English for Teaching program is an intensive English program for advanced students. You can meet the English language requirements for the Master of Teaching by successfully completing the English for Teaching program.

Entry requirements:
• IELTS score of 7 (no band lower than 7), or
• Completion of EAP 4 with an overall score of 70 per cent.

IELTS Preparation
This is a special five-week IELTS preparation program at Deakin’s official IELTS Test Centre. The program has been designed to equip students with the knowledge and skills to succeed in an IELTS test.

Entry requirements:
• Minimum IELTS score of 5.5 or equivalent.

Intensive Academic Preparation (IAP)
The IAP program is a five-week program for high-level AusAid students with IELTS scores of 6.5 or above. The IAP program is designed develop the writing, reading, listening and speaking skills needed to achieve success at university. This is a high-level course for students who wish to excel in their degree program.

Entry requirements:
• Minimum IELTS score of 7 (no band lower than 7), or
• Completion of EAP 4 with an overall score of 70 per cent.

- Nutrition and dietetics: 78
- Psychology: 82
- Science and environment: 86
World-class facilities
The School of Architecture and Built Environment has a wide range of facilities that mirror those used in the workforce. These include cutting-edge digital and Geographical Information Systems laboratories and software that accommodate woodwork, metal work, 3D printing, CNC routers and 2D laser cutting, as well as a new, well-equipped workshop and a large modern studio.

Professional accreditation
All of our courses are regularly examined by key professional groups, including (within Australia) the Australian Institute of Architects, Architects Accreditation Council of Australia (AACA), Architects Registration Board of Victoria (ARBV), Royal Institution of Chartered Surveyors (RICS), Chartered Institute of Building (CIOB), Australian Institute of Landscape Architects (AILA), the Planning Institute of Australia (PIA), as well as by the University itself.

An annual exhibition to be celebrated, Paper Space showcases the outstanding talents of the School of Architecture and Built Environment’s undergraduate and postgraduate students.

Deakin’s School of Architecture and Built Environment incorporates technology, innovation and design, meaning our courses develop the knowledge and skills required for you to further your career in your chosen field.

At Deakin, our courses reflect industry trends and focus on creating excellent professional working relationships between students and peak bodies in the areas of planning, architecture, construction and landscape architecture.

WHAT CAN I STUDY?

Master of Architecture, Master of Architecture (Design Management)
Deakin’s postgraduate architecture programs provide students with the highly developed skills and knowledge expected in modern professional practice. You will develop the capabilities to design public and private buildings, integrate a range of technologies and services in design, as well as enquire into sustainable and interdisciplinary practice.

The above is combined with a knowledge of architectural design research and resolution, urban ecologies and contexts, integrated project evaluation and performance-measured sustainable design.

Master of Construction Management, Master of Construction Management (Professional)
Deakin’s postgraduate construction management degree programs provide you with understanding, knowledge and skills suited to a variety of roles in construction management, project management and quantity surveying. As a construction management student, you can undertake exciting industry-relevant, case-based learning in cloud (online) and on-campus learning modes. The Master of Construction Management is professionally accredited by the Royal Institution of Chartered Surveyors (RICS) and the Australian Institute of Quantity Surveyors (AIQS).

Master of Landscape Architecture
Deakin’s landscape architecture program meets the challenges of an ever-changing urban, regional and rural environment. Focused upon sustainability, the program addresses the creation of quality places in response to current and future environmental and lifestyle challenges. Distinguishing characteristics of the program include its engagement with ecology, spirit of place, people, Indigenous knowledge and urban design to inform and craft places of renewal, stimulation, healing and respect.

Master of Planning (Professional)
Deakin’s planning program addresses and responds to the emerging issues confronting our cities and regions globally, such as climate change, a low-carbon future and demographic shift. The program has a strong emphasis on practical implementation, using an understanding of urban dynamics and delivery mechanisms to influence quality outcomes, and provides graduates with the necessary skills to work across diverse sectors of the built environment industry.

World-class rankings and recognition
Deakin Business School has been awarded a 5-star ranking by the prestigious international university rankings organisation QS for its facilities, internationalisation, teaching and student quality. The Deakin MBA is also a QS 5-star rated program with EPAS international accreditation by the European Foundation for Management Development.
You can be confident that your Deakin degree will be respected by employers around the world.

Real work experience
Deakin students graduate work-ready thanks to work-integrated learning programs. We have a wide range of experiential learning programs that help give students a taste of the real world, from internships to community-based volunteering and more.

Student mentoring
The Faculty of Business and Law Student Mentor Program supports new students through their social and academic transition to life at Deakin.
Deakin’s distinctive MBA is one of Australia’s best sport management programs. Deakin’s Master of Business (Sport Management) remains Australia’s best sport management program. We’ve been ranked 3rd in the world by Sport Business International®, and we’re the only Australian program in the top 25.

What can I study?
Master of Accounting and International Finance
This combined course, with specialisations in Accounting and Finance, is designed to meet the needs of employers and professional bodies operating in this area. It will provide you with an opportunity to complete a combined masters as well as achieving a recognised professional accounting and/or finance qualification.

Master of Arts and Cultural Management
Arts and cultural management is a fast-growing area and the opportunities to work in this sector have never been more exciting. This postgraduate program is for people seeking to expand their knowledge and skills to work in the arts and in tourism, Indigenous arts, local government, community arts, arts education and the non-profit sector. We have a track record for producing graduates who go on to work in a variety of key organisations, as well as a strong and active advisory board, meaning you will be well-connected within the industry.

Master of Business Administration (International), Graduate Diploma of Business Administration, Graduate Certificate of Business Administration, Graduate Certificate of Corporate Management.

Master of Business Administration/ Master of Leadership
This course is a two-year dual degree program which combines Deakin’s highly acclaimed MBA with the Master of Leadership. Our MBA focuses on themes of teamwork, globalisation and social and regulatory responsibility. The MBA is supported by the Master of Leadership in this dual degree, which will provide you with an understanding of what it really means to be a leader within an organisational context.

Master of Business Administration (International)
Deakin’s Master of Business Administration (International) has been designed to give high-performing students an opportunity to gain industry experience as part of a world-class MBA. The MBA (International) is available to applicants who may not have had experience as a business manager. It includes an optional business practicum project unit, which is completed in an operating business environment to equip you with valuable practical managerial expertise. High-achieving students are able to move directly from their undergraduate degree to postgraduate MBA studies, saving time and money.

Deakin’s Master of Business Analytics is a collaborative education program with industry. The program develops business analytics professionals with a broad skill set that enables them to develop analytics-based solutions for business. The degree will introduce you to a range of internationally recognised business intelligence and analytics tools and has a very strong practice focus. You will also have access to analytics certification programs by market leaders IBM, SAS and Microsoft. This course is unique, as it teaches the three areas of business analytics: data capture, analytics and decision making.
See also Graduate Certificate of Business Analytics.

Master of Business (Sport Management)
Australia has one of the strongest sporting sectors in the world. Deakin’s Master of Business (Sport Management) develops a comprehensive understanding of the integration of business disciplines in the effective management of sport and the leadership to provide effective management and direction to sporting organisations. Deakin’s Master of Business (Sport Management) remains Australia’s best sport management program.

Deakin’s Master of Business Analytics is a collaborative education program with industry. BUSINESS

Master of Commerce
Deakin’s Master of Commerce gives professionals from non-business backgrounds the opportunity to move into a business career. It utilises sophisticated computer-mediated conferencing for classes, conferences, group work and debates among students, as well as for assessment. One of the great benefits of this is that it will prepare you for the use of information technology, which is a core competency for employees in today’s commerce and related industries.
See also...
Graduate Diploma of Commerce,
Graduate Certificate of Commerce.

Master of Financial Planning
Deakin’s financial planning degree programs are recognised for entry into the Certified Financial Planner (CFP) Program, which is offered by the Financial Planning Association of Australia. These courses also provide credit for three of the five CFP segments, namely CFP 2, 3 and 4.
See also...
Graduate Diploma of Financial Planning,
Graduate Certificate of Financial Planning.

Master of Human Resource Management
The Master of Human Resource Management is a specialised program designed to provide a qualification for graduates in business, government and industry. In addition, the program aims to meet the needs of senior management whose duties require them to take on responsibilities in human resources development and management. Deakin’s Master of Human Resource Management is accredited by the Australian Human Resources Institute (AHRI).
See also Graduate Certificate of Human Resource Management.

Master of Information Systems
This degree program integrates the use of technology within a broader policy and strategic framework, equipping you for higher level policy and management opportunities, beyond the constraints of narrow technical boundaries. Interdisciplinary specialisations open up opportunities in one of the most important areas of demand in the professional labour market. The program offers career opportunities to students desiring IS knowledge, and to those who want to combine IS skills and knowledge with other disciplines, such as marketing, commercial law and international business.
See also Graduate Certificate of Information Systems.

Master of International Business
Deakin’s Master of International Business is relevant across the spectrum of business and government, and is especially designed for executives directly engaged with international markets or seeking to maximise their overseas potential. The course will extend your understanding of trade development, policy making and planning, and provides a framework to develop a successful international business strategy. You will develop technical knowledge and skills, political and cultural awareness and an international perspective to qualify you to take up a wide range of career opportunities.

Master of International Finance
Deakin’s Master of International Finance is a specialist program that develops professional capability in finance, with a particular emphasis on international trade and associated financial markets. Graduates working in the finance sector will improve their professional capabilities. Graduates without a background in finance will gain advanced knowledge in financial markets and appropriate research methodologies. Available specialisations are Advanced Finance, Finance Research Project, Financial Planning and Risk Management.
See also...
Graduate Diploma of International Finance,
Graduate Certificate of International Finance.

Master of Marketing
This degree develops knowledge and skills in areas such as marketing research and integrated marketing communication, enabling graduates to analyse, plan, implement and control marketing activities in a variety of organisations. It provides an understanding of the theoretical, practical and research frameworks that underpin marketing, and develops the research, strategy and communication skills that are crucial in each of the key areas of marketing.
See also Graduate Certificate of Marketing.

Master of Professional Accounting
The Master of Professional Accounting provides graduates from non-accounting backgrounds the opportunity to obtain a professional accounting qualification. As part of the course you will study areas such as corporate and management accounting, commercial law, corporate auditing, corporations law, accounting theory, information systems for business, economics and finance.
See also...
Graduate Diploma of Professional Accounting,
Graduate Certificate of Professional Accounting.

Our study options are not just about ‘knowledge’ and ‘skills’ – but also about networking, career enhancement, and professional development.

Deakin’s communication and creative arts courses are all about developing your professional expertise, building career opportunities, and unleashing your inner creative talents. Whether you want to write, communicate, film, produce, design, perform or create, Deakin has a course that is right for you. You can add to your existing skills or branch out into new areas. Be inspired by our state-of-the-art technologies and learn from staff with outstanding reputations combining academic and real-world experiences.

Your course, your pace, your future
You can choose a postgraduate program of study that is right for you. You can accelerate your studies through three-trimester enrolment and credit for prior learning (many students can complete their master’s in 12 months); or you can develop deeper and wider knowledge over two full years to potentially be eligible for post-study work rights.

Studios and state-of-the-art technology
Learn in purpose-built facilities to enhance your knowledge and prepare you for work upon graduation. We are continuously improving our facilities to ensure they are at the forefront of technology. Each year Deakin invests in new equipment across all programs, and we have great technical support staff.

Multiple career options
Not sure if it is journalism, digital media, design, public relations, writing or TV that works for you? Our cross-disciplinary approach allows you to choose how to structure your studies to play to your strengths and build your career choices.

If you are looking for an exciting new career or to refine your skills for future success, communication at Deakin offers a world of choices and with multiple areas of specialisation on offer, your degree will give you a leading edge.
Writing and Literature
Our longest-running program is best studied through our Master of Arts (Writing and Literature). Highlights include extensive practical development of your writing abilities, working closely with published authors, poets and script-writers. Your professional abilities are built by our key units in publishing and editing. You will complete an extended critical, professional or creative research project to demonstrate your skills to potential employers, or to advance your university career. The degree provides advanced knowledge of English and is a great qualification to support teachers in their further career development through knowledge of literature and written and spoken English for academic work. Deakin is also a world leader in children’s literature.

Graduate Diploma of Writing and Literature,
Graduate Certificate of Writing and Literature,
Graduate Diploma of Children’s Literature
Graduate Diploma of Creative Writing,
Graduate Diploma of Literary Studies
Graduate Diploma of Professional Writing.

As a Master of Communication student, you have the option of choosing one area of specialisation or a cross-disciplinary approach to your studies, allowing you to expand your skill set and work across a number of closely related discipline areas, including journalism, public relations, television production, professional writing, and visual communication design.

THE PLACE FOR PROFESSIONALS
Deakin is your best choice to excel in communication and creative arts. Our courses offer a fresh, exciting opportunity for you to reach your creative potential with a strong focus on professional success.

EXPERT STAFF
Our academic staff are experienced industry professionals and are enthusiastic about sharing their skills and knowledge and providing you with valuable industry insights as you learn.

YOUR FUTURE. YOUR CAREER.
One-on-one consultation with our academic and support staff will help you to make the right study choices for your career goals. You’ll explore your internship prospects and opportunities, and work with academic staff to gain advice on securing work placements.

THE RESEARCH DIFFERENCE
At Deakin you can conduct research with an expert in the communications industry. All students will complete a professional research project, designed for business or a creative audience. Our experienced academic staff will guide you through the process and help you to design a research project that best suits your needs and enhances your skills.

43DEAKIN UNIVERSITY42
Deakin’s School of Education offers a comprehensive range of graduate entry and postgraduate courses encompassing school education, adult and workplace contexts and lifelong learning. At postgraduate level, Deakin offers courses suitable for professional educators wanting to advance their qualifications, as well as graduates from other discipline areas wishing to enter the education sector.

**Study education at a leading university**
Deakin’s education discipline was ranked 23rd in the world by the prestigious QS World University Rankings in 2014. These rankings are based on various data sources covering reputation and research citations, so you can be sure you will be learning from one of the leaders in the education discipline.

**Strong links with education stakeholders**
Our School of Education academic staff have strong partnerships with education communities, governments, systems and research institutions, and ensure programs reflect the latest research and innovations in learning, curriculum and pedagogy.

**Your chance to become a specialist**
Deakin’s postgraduate education degrees offer the opportunity for educators to gain specialist knowledge in a wide array of areas, including arts education; mathematics education; science and environmental education; health and physical education; language and literacy education; Teaching English to Speakers of Other Languages (TESOL); Teaching Languages Other than English (TLOTE); humanities education, pedagogy and curriculum; education policy, leadership and internationalisation; early childhood education; applied learning; and professional education and training.

**Professional recognition**
All our education courses meet the registration requirements of the Victorian Institute of Teaching (VIT) and other state teacher registration boards in Australia.

**WHAT CAN I STUDY?**

- **Master of Education**
  Deakin's Master of Education provides students with an understanding of relevant education issues and discourses and enables you to learn high-level critical and evaluation skills to demonstrate the ability to undertake educational research projects.

- **Master of Education (Special Educational Needs)**
  As a graduate of the Deakin special educational needs program, you will translate your understandings of individualised, inclusive, educational programs into practice. The program takes into account the implementation of social justice policy and addresses the fundamental philosophy of access and success for people with diverse educational needs. The Master of Education (Special Educational Needs) is an externally accredited program that meets the requirements of the Department of Education and Training Victoria and the Victorian Institute of Teaching guidelines for special education.

- **Master of Education (Teaching English to Speakers of Other Languages)**
  This program is designed for experienced Teaching English to Speakers of Other Languages (TESOL) professionals wishing to develop their understanding of current practice and issues in English language teaching in Australia and overseas. It is also suitable for teachers who are newcomers to the field of TESOL, as the core units explore the key principles and practices in contemporary English language teaching.

See also **Graduate Certificate of Education** (Teaching English to Speakers of Other Languages)

**Master of Education (Teaching Languages Other Than English)**
This course is designed for qualified languages teachers who want to further their understanding of contemporary language education. It is also suitable for qualified teachers from other disciplines who wish to add a languages specialisation to their professional qualifications.

**Master of Teaching**
Deakin’s Master of Teaching program is an innovative course with the flexibility of allowing you to gain a teaching qualification in early childhood, primary or secondary teaching, as well as the option of a dual qualification in early childhood and primary or in primary and secondary. The program was developed in response to the growing trend, nationally and internationally, to require postgraduate qualifications for entry into the teaching profession and to offer a number of pathways into the profession.

**Master of Teaching English to Speakers of Other Languages**
The Master of Teaching English to Speakers of Other Languages (MTESOL) has been specifically designed to address the wide diversity of educational backgrounds of students who are interested in teaching English. The course is open to qualified professionals, including teachers, in the field of education and training.

“...The Australian Bureau of Statistics notes that teaching is one of the largest professions in Australia. More than 200 000 teachers work in 10 000 schools teaching more than 3 000 000 students...."
**EDUCATION**

Students have the option of completing the Master of Teaching in 1.5 years by studying across four consecutive trimesters. Or students can complete the Master of Teaching in 2 years by only studying during Trimesters 1 and 2.

1 IELTS is the International English Language Testing System. The IELTS scores in the table above reflect the minimum overall score required as well as the lowest score allowed for any band (overall score/band score). For further information about English language requirements, see page 14 of this Guide.
2 Students have the option of completing the Master of Teaching in 1.5 years by studying across four consecutive trimesters. Or students can complete the Master of Teaching in 2 years by only studying during Trimesters 1 and 2.

---

**NATIONALLY ACCREDITED**

The Master of Teaching is nationally accredited through the Australian Institute for Teaching and School Leadership and Australian Children’s Education Care Qualifications Authority. You’ll gain professional experience, linking your learning to the practice and theory of teaching, preparing you to become a professional educator from day one.

Deakin’s School of Engineering offers a unique approach to learning by providing opportunities for you to focus on actual industry projects that build on and extend your understanding of engineering and design principles.

Our engineering courses provide you with technical skills, a positive approach to problem solving and the ability to work as part of a team within our advanced design and engineering facilities.

**Specialisations**
Deakin’s engineering courses enable you to choose from a range of specialisations so you can focus your studies on a particular area you are interested in. Specialisations are available in Civil and Water Engineering; Electrical and Renewable Energy Engineering; Electronics Engineering; Mechanical Engineering Design; Engineering Management; and Frontier Materials and Nanotechnology. Whether you have worked in the industry, or are looking to learn more about this industry, these specialisations will provide you with the necessary expertise for a professional career.

**Centre for Advanced Design in Engineering Training**
The newly opened CADET facility, located at Deakin’s Geelong Waurn Ponds Campus, provides engineering and design students with future-focused equipment to facilitate design and manufacturing. CADET houses virtual and rapid prototyping facilities, allowing creative design solutions to be developed almost seamlessly from imagination to reality and manufacture in a single process. Be it new wind turbines, medical devices, sustainable infrastructure, alternative vehicles or robotic aids, CADET will provide the key elements to design and engineer the ultimate solution.

**Deakin engineering graduates are internationally qualified, giving them excellent career opportunities in Australia and around the world.**

**Explore endless possibilities through computer modelling, virtual reality environments, 3D printing, one of the largest high-voltage teaching labs and world-leading rapid prototyping capabilities in Deakin’s new Centre for Advanced Design in Engineering Training (CADET).**

**For more on the cutting-edge research being done at Deakin’s School of Engineering, check out a short video at deakin.edu.au/post-engres.**

**WHAT CAN I STUDY?**

**Master of Engineering**
Deakin’s Master of Engineering has been designed to strengthen, build and extend your understanding of the engineering principles required for successful engineering careers in Australia and overseas. The Master of Engineering aims to ensure that you will be technically skilled, have a positive approach to problem solving and be equipped to work effectively as part of a team. This course was developed to answer the industry need for capable and highly-skilled employees who can start work on complex projects immediately.

Deakin’s Master of Engineering extends your professional network while upgrading your qualifications.

**Master of Engineering (Professional)**
The Master of Engineering (Professional) allows you to specialise and apply advanced technical knowledge and skills in an industrial context and enables you to partner with industry and form professional networks. The program builds upon Deakin’s research expertise in a number of specialised fields of engineering, including civil and water engineering; electrical and renewable energy engineering; electronics engineering; engineering management; and mechanical engineering.

**Master of Science (Research)**
Comprising a unique combination of coursework and research, this advanced degree prepares you for a career in industry and can serve as a pathway to doctoral studies. Five engineering specialisations are available: Civil and Water Engineering; Electrical and Renewable Energy Engineering; Electronics Engineering; Mechanical Engineering Design; and Frontier Materials and Nanotechnology. Whether you have worked in the industry, or are looking to learn more about this industry, these specialisations will provide you with the necessary expertise for a professional career.

Deakin’s School of Health and Social Development brings together more than 140 teaching and/or research academics who embrace a holistic, integrative, critical and community-based perspective on health. Our health courses and our graduates are highly regarded by the professions and industry and also provide a sound basis for those interested in pursuing research degrees.

Our Faculty of Health makes a difference
Deakin Health is recognised in Australia and internationally for its contribution to teaching, training, research and service. We are one of the fastest growing health faculties in Australia, assisting governments, communities and organisations to develop a wide variety of health and social policies and programs.

Learn from experts closely tied to industry
Our academic staff are actively involved in many areas of research and are experts in their respective fields. Our staff are well connected with the health industry, and our partnerships will give you access to cutting-edge health practice, enhance your skills and prepare you to develop attributes valued by employers.

Flexible learning opportunities in the cloud
Many health courses at Deakin are offered online, providing you a media-rich interactive learning environment that you can access when and where you want. Cloud (online) students have access to the same lectures and resources as campus students.

WHAT CAN I STUDY?
Master of Health and Human Services Management
Studying health and human services management at Deakin develops your leadership and management skills and is ideal for those seeking or holding senior positions in the health sector. Throughout this program, you will build on the knowledge gained in your undergraduate degree in a health-related field, such as nursing, medicine, dentistry, psychology, health promotion or social work. You will develop skills relevant to management and leadership in public health, health services and the broader human health services sector, including government departments, health services and networks, local government and major health, welfare and human service delivery organisations. Our graduates have gone on to work in international agencies with a presence in public health, divisions of general practice, health administration departments, hospitals and associated networks.

Master of Health Economics
Health economics is a demand area within health policy development. Deakin’s health economics program is designed to develop postgraduate skills in health technology assessment, economic evaluation of health interventions, resource allocation and priority setting, healthcare financing, health systems research and the health economics/health policy interface. Deakin’s health economics team – the largest in Australia – will provide you with high level training in economic evaluation and modelling and health technology assessment. Graduates will be equipped with the theoretical knowledge and skills required to analyse and advise on health expenditure trends, health insurance, funding and payment mechanisms, health system design and associated policies; to design and undertake economic appraisal of interventions; to design and undertake high level health technology and pharmaceutical assessment; and to lead priority setting exercises in health care. Deakin has the largest health economics academic team in Australia.

Deakin’s public health programs are population-focused with strengths in health promotion, environments for health, epidemiology and research, in addition to health economics and economic analysis. Teaching activities reflect current research and evidence-based practice and students have the option of applying their knowledge in a practical setting with a major or minor project. As a graduate, you will have the ability to generate initiatives for policy and action, strategies to ensure equity in the health system and interventions to promote the health of disadvantaged groups.

Master of Health Promotion
Deakin’s postgraduate courses in health promotion provide students with the knowledge and skills to develop appropriate approaches to health promotion practice. You can study a wide range of units including health promotion and community development, environments for health and public health nutrition, allowing you to structure your course to pursue your interests and career aspirations. After successfully completing one of Deakin’s postgraduate courses in health promotion, you will be qualified to undertake roles in private industry, government and non-government organisations (NGOs), and international agencies. See also... Graduate Diploma of Health Promotion, Graduate Certificate of Health Promotion.

Graduate Certificate of Diabetes Education
Deakin’s Graduate Certificate of Diabetes Education prepares qualified health professionals for specialty practice in diabetes education. Teaching staff address both disease prevention and disease management. The course is solution-focused with the goal of transferring knowledge gained from research findings to inform policy, practice and teaching. On completion of the Graduate Certificate course, you will be eligible to apply to continue your studies in the Master of Nursing Practice.

“...We have been designated an official World Health Organization Collaborating Centre for Obesity Prevention and Related Research and Training and we host the Australian Centre for Behavioural Research in Diabetes. ..."

**SELECTIVE UNITS**

Students must choose six additional credit points of elective study (can include selective units above not already taken) completed as either Option A or Option B. It is also possible to undertake elective units from any other faculty subject to approval of the Course Director. Students interested in pursuing this option should seek the advice of the Course Director before proceeding.

**OPTION A**

- HSH731 Minor Project A (1 credit point)
- HSH732 Minor Project B (1 credit point)
- Plus four elective units

**OPTION B**

- HSH733 Major Project A (2 credit points)
- HSH734 Major Project B (2 credit points)
- Plus two elective units

**WAM** applies to core units.

**ELECTIVE UNITS**

Can include selective units above not already taken, as well as any of the units below:
- AIP740 Public Policy Analysis
- HSH701 Principles and Practice of Public Health
- HSH704 Health and Social Impact Assessment
- HSH744 Epidemiology 1
- HSH746 Biostatistics 1
- HSH747 Health Economics 1
- HSH748 Health and Equity and Human Rights
- HSH763 Resource Allocation and Priority Setting
- HSH764 Economic Evaluation - Theory and Practice
- HSH766 Economics and Health Policy Analysis
- HSH767 Economic Modelling

*IELTS is the International English Language Testing System. ### GRADUATE CERTIFICATE OF DIABETES EDUCATION

**DEAKIN CODE**: H520

**TRIMESTER**: T1

**2016 ANNUAL COURSE FEE**: $16,000

#### Course structure

This course comprises a total of 4 credit points.

HND701 The Pathophysiology of Diabetes

HND732 Diabetes in Social and Psychological Contexts

HND702 Management of Diabetes

HND731 Learning and Teaching for Health Professionals
Deakin’s courses in humanities and social sciences open up a broad range of career opportunities, from international development and cultural heritage to politics and government. Study in these areas will help you develop a number of skills – such as communication, problem solving, evidence-based decision making and critical thinking – that are of critical use in cultural and policy contexts around the world.

**WHAT CAN I STUDY?**

**Master of Arts (International Relations)**

Deakin’s international relations degree program produces graduates who are able to demonstrate high-level skills of analysis and interpretation of global issues and events, with a deep understanding of the complexities of contemporary international relations. Specialisations are available in human rights and international law, Asia Pacific regional politics, conflict and security and international history. Links with other social science and humanities studies at Deakin offer relevant elective to extend specialisation options, such as genocide history, gender and development and global media units. Career opportunities for international relations graduates exist in all levels of government, business, the media, consultancy, the defence forces, education, health, politics and research. See also Excel Diploma of International Relations.

**Master of Humanitarian Assistance**

Deakin is committed to engaging and developing current and future humanitarian leaders as innovative thinkers and dynamic achievers through our unparalleled humanitarian assistance program. The Masters of Humanitarian Assistance is the first course of its kind in the Asia Pacific region. It builds a unique platform where humanitarian practitioners and academics can share knowledge and experience, with a focus on improving leadership, preparedness and response capacities to national and international emergencies.

**Master of Cultural Heritage**

The Master in Cultural Heritage allows you to develop the knowledge, understanding, research skills and practical experience to make a difference in the cultural heritage sector. Whether you want to work with collections, manage a museum or heritage site, or protect and interpret significant sites, landscapes or intangible cultural heritage, specific pathways through the master’s mean you can create a program that is right for you. Through this program you develop an extensive, cross-disciplinary knowledge of heritage principles and practice across a range of disciplines, as well as an awareness of community sensitivities. Practical experience is a key theme of the program and you will have the opportunity to incorporate internships and international field schools within your course and to participate in visits to museums, galleries and heritage places as part of the campus programs.

**Graduate Certificate of International and Community Development**

Good development promotes justice, reduces poverty and builds environments for people to lead productive, creative and fulfilling lives. Development programs and project work for poverty reduction are major areas of professional employment. Deakin’s international and community development degrees have been developed for professionals seeking to advance their careers by gaining relevant, skills-based and theoretically sound professional qualifications. And the program is one of the longest established in Australia, giving you the assurance of many years’ experience in teaching this highly developed program.

**Graduate Certificate of International and Community Development**

Politics and international studies at Deakin are ranked in the top one percent in the world, according to the prestigious QS World University rankings (2014).

**Degree programs with an international perspective**

Our faculty of leading scholars and industry professionals can connect you to the Australian experience and to forces driving the whole of the world. In an increasingly globalised workplace, it is more important than ever to understand the international political, social and cultural dynamics that shape our businesses and communities.

**Study from where you are, when you want**

Deakin is a leader in cloud (online) learning and offers international students the opportunity to learn in our media-rich and engaging online learning platforms. Deakin’s cloud courses offer you the chance to ‘learn where you live’, all while accessing the same academic staff and learning resources available to on-campus students.

**During the program you will...**

- Focus on improving leadership, preparedness and response capacities to national and international emergencies.
- Make a positive impact in Australia and around the world.
- Develop the knowledge, understanding, research skills and practical experience necessary to make a difference in the cultural heritage sector.
- Create a program that is right for you.
- Develop an extensive, cross-disciplinary knowledge of heritage principles and practice across a range of disciplines.
- Gain awareness of community sensitivities.
- Gain practical experience as a key theme of the program.
- Incorporate internships and international field schools within your course.
- Participate in visits to museums, galleries and heritage places as part of the campus programs.

**You’ll learn from experts**

Our teaching staff have extensive experience working in the industry and are active in the media and are conducting important research, making a positive impact in Australia and around the world.

**This program has been incredible. I’ve interned at the US Senate, visited the UN and Australian Embassy and met with Australian/US Ambassadors and Ministers.**

Information Technology is key to society’s economic growth and well-being and has become ubiquitous and pervasive in our lives. In a connected world with emerging intelligent machines it is exciting to contemplate making a contribution.

As jobs and roles change, completing a Deakin postgraduate IT course can be one of the best preparations for the future.

**Professional recognition**
Professional accreditation by the Australian Computer Society (ACS) means your degree is recognised in industry, resulting in stronger job outcomes. Deakin’s IT courses give you the option to study units that lead to Cisco certification, giving you a relevant, practical qualification, as well as an advantage over other graduates when applying for jobs.

**Maintaining relevance**
Deakin recognises the importance of being closely aligned with industry and maintains strong links through IT representatives from leading organisations such as IBM, Telstra, ANZ and Computershare. These industry representatives provide us with curriculum advice, keeping our courses current and relevant to industry needs, which is key in a sector where change is constant.

**Modern facilities with the latest technology**
Deakin continually invests in its facilities and IT programs, ensuring you have access to the latest software and technologies in fully equipped computer labs.

---

**WHAT CAN I STUDY?**

**Master of Information Technology**
Deakin’s postgraduate information technology program provides a combination of leading-edge theory and technical knowledge, plus hands-on practical experience to prepare you for a successful career as an IT professional in Australia and around the world. Continual consultation with industry ensures the courses are relevant and up-to-date with workplace demand and that our program is designed to meet future industry requirements. The program offers the flexibility to tailor your course to suit your own needs. You may choose to specialise in IT security, IT services, networking or software development, in addition to obtaining a broad grounding in IT. You will have access to specialist research and the opportunity to establish long-term contacts with the people who are shaping and influencing all levels of IT.

See also...

- Graduate Diploma of Information Technology, Graduate Certificate of Information Technology.

---

**Master of Information Technology (Professional)**
The Master of Information Technology (Professional) is designed to extend the specialised skills obtained in the Master of Information Technology. You can undertake a trimester of industry-based, work-integrated learning or a trimester of research under the guidance and supervision of Deakin researchers.

**Master of Information Systems**
Deakin’s Master of Information Systems offers an expansive view of information systems and electronic business to include the associated strategies, processes, technologies and human aspects for its application in a business and social context. The program integrates the use of technology within a broader policy and strategic framework, equipping you for higher level policy and management opportunities, beyond the constraints of narrow technical boundaries. Interdisciplinary specialisations are offered, broadening your opportunities in one of the most important areas of demand in the professional labour market throughout the world.

**IT is changing the ways in which we communicate, exercise and stay healthy; how we form relationships; how we learn; how we do business; how we invest; how we collect information and monitor our environments; how medicine is practised; how engineering is done; and how we entertain ourselves.**

---

**GAIN INDUSTRY EXPERIENCE**
As a Deakin IT student you will have the opportunity to apply for internships or industry placements related to your area of study, as part of your course. Industry placements provide you with real-world work experience that is highly valued by today’s employers and can give you a critical edge in a competitive global job market.

---

**For more on the cutting-edge research being done at Deakin’s School of Information Technology, check out a short video at deakin.edu.au/post-infosys**

---

**Master of Science (Research)**
This advanced degree program comprises a unique combination of coursework and research. The Master of Science (Research) will prepare you for a career in industry and can serve as a pathway to doctoral studies. Three IT specialisations are available: IT Security, Software and Services, and Data Science.

The IT Security specialisation enables you to explore information and network security, security management and digital forensics while developing the advanced skills required to manage and secure data, communications and infrastructure. The Software and Services specialisation provides opportunities to explore advanced software engineering, business intelligence and service oriented architecture to develop the skills needed in a services-led economy. The Data Science specialisation provides students with a solid background and advanced working knowledge in data science and analytics, covering everything from basic skills of data munging and visualising relationships in data to building sophisticated descriptive, prescriptive and predictive models.

* The Data Science specialisation will be offered from 2017.
INFORMATION TECHNOLOGY

T1 = Trimester 1
T2 = Trimester 2
T3 = Trimester 3

** Available from 2017
# IT-related specialisations for the Master of Science (Research) are only available at the Melbourne Burwood Campus. For more information, refer to the Master of Science (Research) course details on page 87 of this Guide.

~ Trimester 3 intake is only available to cloud (online) students.

* IELTS is the International English Language Testing System. The IELTS scores in the table above reflect the minimum overall score required as well as the lowest score allowed for any band (overall score/lowest band score). For further information about English language requirements, see page 14 of this Guide.

If you want a career making a genuine difference to people’s quality of life, consider study at the Deakin Medical School. Graduate courses are available in medicine and optometry to serve as entries into careers that are all about helping people – diagnosing health issues and providing solutions to alleviate or cure them.

**Professionally accredited courses**

All of Deakin’s postgraduate-level courses in medicine are professionally accredited by relevant governing bodies:

- **Bachelor of Medicine Bachelor of Surgery – Australian Medical Council**. Graduates who satisfactorily complete an accredited intern year following successful completion of this course will qualify as registered medical practitioners in Australia and New Zealand.
- **Bachelor of Vision Science/Master of Optometry – Optometry Council of Australia and New Zealand**.

**Gain experience in clinical and practice settings**

Deakin Medical School courses include a variety of placements conducted throughout the duration of your degree, providing you with the opportunity to gain valuable skills and experience under the supervision of qualified practitioners.

Bachelor of Medicine Bachelor of Surgery students choose one of four clinical schools for their third and fourth year and some students will have the chance to study for a full year attached to a general practice. Optometry students experience clinical placements in ophthalmology clinics, hospitals, optometry clinics and private practice. In addition optometry students have an additional six-month clinical residential placement in private practice.

**Rural and regional focus**

There is currently a significant allied health workplace shortage throughout Australia, particularly in rural, regional and outer metropolitan locations. To help address this, our courses in allied health have a rural and regional focus, giving you a broader perspective on your studies. You can also undertake placements in rural and regional locations, to complement learnings gained from metropolitan settings.

Deakin’s medicine curriculum is designed around problem and team-based learning and delivering excellence across clinical, commercial and professional domains in patient-centred care.
## BACHELOR OF MEDICINE BACHELOR OF SURGERY

**DEAKIN CODE**: H311  
**SEMESTER INTAKE**: S1  
**2016 ANNUAL COURSE FEE**: $62,040

**Course structure**

The course is only available to students on a full-time basis. Students must pass all units including all components of units in the course.

### Level 1
- HME101 Medicine 1A
- HME102 Medicine 1B

### Level 2
- HME201 Medicine 2A
- HME202 Medicine 2B

### Level 3
- HME301 Medicine 3A
- HME302 Medicine 3B

### Level 4
- HME401 Medicine 4A
- HME402 Medicine 4B

---

## BACHELOR OF VISION SCIENCE/MASTER OF OPTOMETRY

**DEAKIN CODE**: D302  
**SEMESTER INTAKE**: T1  
**2016 ANNUAL COURSE FEE**: $32,000

**Course structure**

The course comprises a total of 40 credit points.

### Year 1
- HBS107 Understanding Health
- HBS108 Health Information and Data
- HME101 Medicine 1A
- HME102 Medicine 1B
- HMO101 Principles of Optics
- SLE010 Cells and Genes
- HMO102 Science of Vision 1
- HMO103 Clinical Optics
- HMO104 Ocular Structure
- HMO105 The Business of Optometry
- HMO201 Science of Vision 2
- HMO202 Ocular Function
- MAA103 Accounting for Decision Making
- SLE010 Laboratory and Fieldwork Safety Induction Program
- SLE111 Cells and Genes
- SLE133 Chemistry in Our World

### Year 2
- HMO203 Health and Vision Sciences 1
- HMO204 Principles and Practice of Optometry 1
- HMO205 Principles and Practice of Optometry 2
- HMO301 Medicine 3A
- HMO302 Medicine 3B
- HMO303 Health and Vision Sciences 3
- HMO306 Principles and Practice of Optometry 3
- HMO401 Medicine 4A
- HMO402 Medicine 4B

### Year 3
- HMO501 Health and Vision Sciences 4
- HMO502 Principles and Practice of Optometry 4

*IELTS is the International English Language Testing System. The IELTS scores in the table above reflect the minimum overall score required as well as the lowest score allowed for any band (overall score/lowest band score). For further information about English language requirements, see page 14 of this Guide.

* Unlike other Deakin courses, the Bachelor of Medicine Bachelor of Surgery operates on a semester system.

* The Bachelor of Vision Science/Master of Optometry is a 3.5-year accelerated full-time program delivered over 10 consecutive trimesters commencing in Trimester 1. This means you will study three trimesters in each calendar year.

* The 2016 annual course fee for the Bachelor of Vision Science/Master of Optometry is for three trimesters of full-time study in a single calendar year.

* SLE010 is a 0-credit point unit.

### FEATED COURSES

For further information on all medicine courses, visit deakin.edu.au/post-medicine
Deakin’s School of Nursing and Midwifery is one of the largest in Australia and provides degree programs that reflect current industry trends. You may be interested in Deakin’s specialised postgraduate nursing degree programs if you are a registered nurse wishing to gain expertise in research, leadership and management or advanced clinical or specialty practice.

Nursing study areas
Based on contemporary, evidence-based practice, all of Deakin’s nursing courses equip you with advanced critical thinking and problem-solving skills for professional practice. In addition, you will gain essential teamwork, communication and collaborative decision-making skills that will enhance the safety and quality of nursing care to optimise patient outcomes. Study areas include leadership and management as well as advanced clinical practice.

Partnerships
Deakin’s School of Nursing and Midwifery Research Partnership Program is the first coordinated program of its kind in Australia. This extensive program connects the school to seven health care organisations in the public and private sector and in metropolitan and non-metropolitan areas of the Australian State of Victoria.

The goal of this innovative program is to facilitate clinical multi-disciplinary research. To this end, programmatic research has been progressed in four strategic research priority areas:

- clinical risk and symptom management
- workforce development and health care service delivery models
- consumer involvement in health and social care decision-making
- health care ethics and policy development.

Teaching Excellence in the Cloud
Deakin’s postgraduate nursing courses are taught in the cloud (online). Studying via cloud learning means you can study from anywhere at any time. Deakin is a leader in cloud learning, and will provide you with a rich, interactive, personal and empowering learning experience. You will be supported by Deakin’s award-winning library services and interactive learning technologies such as CloudDeakin, videoconferencing, Blackboard Collaborate for synchronous online teaching and learning seminars, as well as EchoSystem to record and playback lectures. Your learning experiences will be cutting-edge, engaging and effective.

Deakin’s postgraduate nursing program prepares registered nurses to meet contemporary challenges in advanced practice and specialist fields of nursing practice and research. The program has a strong focus on research, leadership, quality and risk management with several pathway options providing the opportunity to tailor your studies to meet your career aspirations. Depending on your desired career direction, you can complete this course focusing on research, leadership and management or advanced clinical practice.

Graduate Certificate of Diabetes Education
Deakin’s Graduate Certificate of Diabetes Education prepares qualified health professionals for specialty practice in diabetes education. Teaching staff address both disease prevention and disease management. The course is solution-focused with the goal of transferring knowledge gained from research findings to inform policy, practice and teaching. On completion of the Graduate Certificate course, you will be eligible to apply to continue your studies in the Master of Nursing Practice.

NUTRITION AND DIETETICS

Increasing awareness of issues related to nutrition and health has lead to a growing demand for specialists in these fields. Deakin’s nutrition courses provide an opportunity to learn about nutrition in a broad context — be it food science or metabolic studies — thereby preparing students for a diverse array of career outcomes. And both in the classroom and through work placement opportunities, Deakin’s Master of Dietetics provides students with professional training to develop skills in the dietary management of individuals and groups.

Flexible learning opportunities in the cloud
Most of the postgraduate nutrition courses at Deakin are offered online, providing you a media-rich interactive learning environment that you can access when and where you want. Deakin is a leader in online learning, providing high-quality courses delivered by expert academic staff. The Master of Dietetics is the only postgraduate course that is not offered online and requires students to attend classes on campus.

Professional accreditation and registration
Deakin’s Master of Dietetics is accredited by the Dietitians Association of Australia (DAA) and, as a graduate, you are eligible for full membership of the DAA and the Accredited Practising Dietitian (APD) program. As a graduate of the other postgraduate nutrition courses, you may be eligible for registration with the Nutrition Society of Australia (NSA) as an Associate Nutritionist (ANutr). In some circumstances you may also qualify for Registered Nutritionist (RNutr) or Registered Public Health Nutritionist (RPHNutr) status.

Partnerships with key industry and non-government players
Deakin’s nutrition and dietetics research and teaching is done in collaboration with major industry and non-government partners, such as the National Heart Foundation and Dairy Australia. The School of Exercise and Nutrition Sciences also has numerous clinical and community dietetics placement partnerships with health care networks, including Melbourne Health, Austin Health, Northern Health and Western Health. These formal partnerships ensure that Deakin’s dietetics students have access to some of the largest and most well-respected teaching hospitals and community health services in Melbourne.

Deakin was the first university to offer a course in dietetics in Australia and has been proudly offering the Dietitians Association of Australia (DAA) accredited course for more than 35 years.

WORK THAT MAKES A DIFFERENCE

Our work is important as poor nutrition and inadequate physical activity are known to increase the risk of a range of chronic health conditions, including heart disease, diabetes, high blood pressure, obesity, osteoporosis, cancer and depression, all of which are common in developed countries such as Australia.

PSYCHOLOGY

Deakin’s large range of psychology postgraduate programs include pathways to registration as a psychologist, academic and research careers. Our professional training programs adopt an evidence-based and competency-focused approach to training. We endorse an integrative model acknowledging the complex interaction between the range of genetic, physiological, behavioural and social/environmental variables that impact on psychological health and wellbeing.

Valuable links with industry
Deakin’s School of Psychology has strong partnerships with industry, facilitating collaborative activities and research with government agencies, public and private organisations, hospitals and other universities. These partnerships ensure that our courses remain relevant to industry and workforce needs, as well as enable us to provide our research students with excellent opportunities to pursue their own research.

Our courses are professionally accredited
All psychology courses offered at Deakin meet the requirements of the Australian Psychology Accreditation Council (APAC), and the Psychology Board of Australia, translating into excellent job and career opportunities for graduates.

You will be ready for the workforce
Work readiness is a key feature of Deakin’s psychology courses. To give you every success upon graduation, you’ll have the opportunity to undertake relevant work experience in psychology and participate in transition-to-work activities, such as developing a professional portfolio, writing a resume and perfecting your interview skills.

POSTGRADUATE PATHWAYS TO FULL REGISTRATION
To obtain registration as a provisional psychologist, you need to complete four years of academic study in psychology that is recognised by the Psychology Board of Australia. This usually consists of an approved three-year undergraduate psychology sequence followed by an approved fourth year of study (such as Deakin’s Graduate Diploma of Psychology or honours in psychology). You may then apply for provisional registration with the Psychology Board of Australia and associate membership of the Australian Psychological Society (APS).

To gain full registration, provisional psychologists must then complete either two years of supervised practice or a minimum two years of further study (with supervised practice completed outside the degree). This further study enables you to specialise through a Master of Psychology or Doctor of Psychology degree.

WHAT CAN I STUDY?
Master of Psychology (Clinical)
This Deakin program provides students with a broad set of clinical skills in a range of assessment and therapy models. Based on an integrative approach to clinical psychology that emphasises evidence-based practice, the program has been designed in consultation with our industry partners to enable you to develop the academic, practical and research skills necessary to register as a psychologist and to practise as a clinical psychologist.

See also Graduate Diploma of Psychology.

Master of Psychology (Organisational)
Throughout Deakin’s Master of Psychology (Organisational) you will acquire the academic, practical and research skills required for accreditation and registration and to enter this specialty profession either in employment as a practising organisational psychologist or as an employee of one of the many organisations or industries employing psychologists. The Master of Psychology (Organisational) meets the requirements for graduates to register as generalist psychologists with the Psychology Board of Australia and for membership of the Australian Psychological Society (APS).

See also Graduate Diploma of Psychology.

CAREER OPPORTUNITIES
Qualified psychologists can work in a variety of settings, including clinical, forensic, organisational, educational, health and many other specialist areas. The contexts in which you can work are just as varied, including private practice, hospitals, business organisations, schools, universities, government agencies and various research groups.

You don’t have to go on to full registration to enjoy the benefits of studying psychology. Your understanding of human behaviour and the skills that you develop throughout your course will open up opportunities in industries* such as community services, counselling, education and health services.

* Some of these industries will require further study.

The Deakin University Psychological Society (DUPS) is a student group that links Deakin psychology students with each other, with Deakin psychology staff and with the profession.

DEAKIN UNIVERSITY
An innovative new degree program

Deakin science students have access to cutting-edge facilities and the latest research at the Geelong Technology Precinct (GTP). The GTP contains industrial scale infrastructure and specialised research equipment that focuses on Deakin’s core research areas in materials, biotechnology, chemistry and environmental engineering. Among the many tenants at the GTP is Carbon Nexus, the world’s first dedicated, pilot-scale carbon fibre plant.

State-of-the-art facilities

Deakin’s commitment to cutting-edge research also means sharing our expertise with students through outstanding teaching. For example, Associate Prof Kiernan Lim of Deakin’s School of Life and Environmental Science has been involved in the development of the Australian Science and Innovation Facilities and has produced outstanding teaching. For example, Deakin’s commitment to cutting-edge research also means sharing our expertise with students through outstanding teaching. For example, Associate Prof Kiernan Lim of Deakin’s School of Life and Environmental Science has been involved in the development of the Australian Science and Innovation Facilities and has produced outstanding teaching.

What can I study?

Master of Science (Research)

The Master of Science (Research) prepares you for a career in research and industry. A distinctive suite of specialisations provides options in advanced research training, specialised coursework and professional skills development. You will develop expertise in a different but related discipline area from that of your undergraduate degree to build skills necessary for a professional or research career. Below you can find descriptions of each of the ten specialisations offered by the Master of Science (Research).

Biotechnology

Biotechnology is one of the fastest growing scientific sectors. Students will benefit from the state-of-the-art facilities and cutting-edge research, while exploring their interests in agricultural, cellular and molecular biotechnology, nanotechnology, and analytical techniques. Graduates completing this specialisation will have the ability to work in industrial, innovative, regulatory, emerging and commercial biotechnology sectors.

Civil and Water Engineering

Demand for civil and water engineers has been rising due to expansions in infrastructure around the world. In addition to this, fresh water is an essential resource for any country or industry planning for a sustainable future. Industrialisation and urban development is impacting water scarcity at an alarming rate and solutions for this need to be found. Graduates will develop an in-depth knowledge to plan, design, construct and maintain the infrastructure systems that are necessary for our day-to-day lives such as roads, bridges and railways; water supply and sewerage systems; water resources management; and structural buildings.

Electronics Engineering

Electronics Engineering provides unique technical, research and practical learning experiences to prepare graduates for professional and leadership roles in contemporary power systems environments. Students will have access to industry-standard tools and facilities, as well as opportunities to engage with internationally recognised teaching and research staff who have extensive experience in electrical and renewable energy.

Frontier Materials and Nanotechnology

This specialisation equips students with the skills to push forward the frontiers of technology through the development of new materials. Units of study are presented by experts in the fields of materials characterisation and modelling, and in the latest developments in natural, functional and structural materials. Students are also exposed to exciting new developments in nanotechnology with particular attention to materials for improved functionality, more effective energy generation and longer energy storage.

Data Science

Data Science specialisation aims to provide students with a solid background and advanced, working knowledge in data science and analytics. The specialisation covers a comprehensive data science and analytics pipeline from basic skills of data munging and visualising relationships in data, to building sophisticated descriptive, prescriptive and predictive models. Students will also be equipped with a strong background in underlying theory and theoretical foundations of data science, including distributed computing, statistics and machine learning.

Civil and Water Engineering

Civil and Water Engineering specialisation allows students to enhance the skills acquired through their undergraduate degree and specialise in technological areas associated with electronics. Students will have opportunities to explore interests in control systems engineering, instrumentation and process control, sensor networks, and embedded systems.

Cyber Security

Cyber issues have attracted enormous attention, both in terms of every day issues such as internet banking and internet ‘scams’, through to cyber-terrorism and cyber-warfare. This specialisation gives you opportunity to explore your interests in information and network security, security management and digital forensics while developing the advanced skills required to manage and secure data, communications and infrastructure.

Software and Services

Digital forensics while developing the advanced skills required to manage and secure data, communications and infrastructure. For more on the cutting-edge research being done at Deakin’s School of Life and Environmental Science, check out a couple of short video at: deakin.edu.au/post-sports.
SCIENCE AND ENVIRONMENT

**SUSTAINABLE REGIONAL DEVELOPMENT**

Globalisation, population growth, economic structural adjustments, and climate change are having an impact on regional and rural economies, environments and communities around the world. But through targeted analysis and proper planning these changes can be harnessed to create new economic, social and environmental opportunities for regional/rural areas and communities.

Deakin now offers opportunities for advanced studies in sustainable regional development at the master’s, graduate diploma and graduate certificate levels. Graduates will be well-prepared for employment in rural and regional socio-economic and environmental planning.

With an international outlook and a commitment to research driven by the needs of communities and the global marketplace, Deakin is forging research partnerships with institutions and industry players throughout the world.

The results speak for themselves: International publications by Deakin researchers nearly tripled between 2009 and 2013, and we continue to rapidly climb in global research rankings.

By working towards a higher degree by research at Deakin you will be making yourself part of a community devoted to success and mutual support.

For more information visit deakin.edu.au/post-research
### Research Areas

Within the Faculty of Arts and Education, each School offers research opportunities including but not restricted to the following areas:

#### School of Communication and Creative Arts
- Affect theory, celebrity studies, children’s literature, communication studies, contemporary arts theory, collaborative arts and professional practice, corporate citizenship, communication studies, cultural studies and policy, dance, drama, digital culture and interactive media, journalism, linguistics and applied linguistics, literary studies, media and communication, media arts, performance studies, persona studies, postcolonial literature studies, practice-as-research, professional writing, public relations, visual arts, visual communication.

  - Commercial law, company law, corporate governance, financial crime, health and medicine law, property law, natural resource law, mining and energy law, competition law, sentencing, intellectual property (covering moral rights; Asia, Europe and comparative law).
Research areas

The Faculty of Health offers research opportunities in the following areas:

**Disability**
- Equity and access issues and the nature of disability in the areas of augmentative and alternative communication; ageing; employment; the law; community living; and evaluation of services.
- Exercise and sport science
- Physical activity and health; exercise and behaviour; muscle and bone metabolism; molecular regulation of muscle growth and function; movement analysis; neural control of muscle in health and disease; musculoskeletal rehabilitation; athletes and sport performance; clinical exercise; occupational exercise science; health and sport coaching.
- Food and nutrition science
- Measurement and evaluation of food sources of nutrients; impact of nutrient intake on disease risk; sensory evaluation of taste and its influence on diet; nutritional assessment; epidemiology and population health; public health policy; diet and disease relationships throughout the lifespan, including a specific interest in cancer; cardiovascular disease; epidemiology, lipidology, obesity, diabetes, osteoporosis, and gut health; muscle growth and metabolism; molecular nutrition; food formulation; chemical evaluation of food; and substantiation of health benefits of functional foods.
- Health
- Health promotion; health economics; program evaluation; public health policy; community interventions; obesity prevention; diabetes; osteoporosis; rural health; health and the environment encompassing sustainability, decision-making and community involvement; social determinants of health (focus on equity, gender, ethnicity and inequality).

**Medicine**
- Molecular medicine research in immunity, infectious diseases; developmental biology; molecular physiology; musculoskeletal biology; haematology; cancer; metabolic disease; structural biology; nanomedicine; gene discovery and analysis; functional genomics and pre-clinical development; testing of new therapeutics; rural/regional general practice; health and wellbeing; chronic disease management.

**Nursing and Midwifery**
- Safety; quality and equity of health care; minimising clinical risks; symptom management; workforce development; health services evaluation.

**Psychology**
- Early childhood intervention; specific learning disabilities; developmental coordination disorders; social adaptive behaviour.

**Epidemiology and Public Health**
- Nutrition, physical activity and population health; public health and social/ cultural aspects of health; health economics and program evaluation; international health and human services systems; epidemiology and population health; behavioural epidemiology.
- Social work
- Social work theory and practice; critical social work; evidence bases in social work; social work education; human services provision; child and family welfare; mental health; diversity and inclusivity; masculinities; religion and spirituality; gender relations and gender violence.
HOW TO APPLY

Once you have chosen a degree and checked all entry requirements, applying to study at Deakin is easy.

To start a postgraduate program, you can apply using a number of methods.

When can I apply?
International students are able to apply to study at Deakin throughout the year, and Deakin’s international admissions team is always on hand to quickly process applications. There are three trimester intakes throughout the year – March, July and November – depending on the course.

How do I apply?
Once you have organised all the necessary documentation, you can submit your application using one of the following methods:

Applying online
Using Deakin’s online application process is quick and easy. After submitting your application, you will be provided with unique login details so that you can track the progress of your application. To apply online, visit deakin.edu.au/post-apply.

Applying by mail or email
After completing the relevant application forms, depending on the degree you have chosen, you can either mail or email your application to Deakin International. The postal address and email can be found on the application form. To apply online, visit deakin.edu.au/post-apply.

Applying in person
If you would prefer to submit your application in person, Deakin has a number of offices around the world where you can do so. You can visit the Deakin International offices located in Melbourne (Australia), Indonesia, India or China. See the back cover of this Guide for addresses.

Applying through a representative
Deakin has a network of experienced representatives around the world who can assist you in submitting your application. You can find a Deakin representative in your country by visiting deakin.edu.au/post-reps.

Entry requirements
When you are applying for a degree at Deakin, make sure you check all the entry requirements carefully to ensure you are eligible to start your studies. The admission requirements for each degree program may differ. For further information about academic admission requirements, see page 12 of this Guide.

You will also need to check the English language requirements as Deakin degree programs require different levels of English language proficiency. The Deakin University English Language Institute (DUELI) is an excellent resource for international students who need to progress their English language skills. For further information about English language requirements and DUELI, see pages 14 – 17 of this Guide.

Offers
International applications for postgraduate degree programs can take approximately three weeks to process. Students who meet the entry requirements for their course will be extended an offer by the University. The Letter of Offer is delivered via email and includes information about your degree, fees, important dates, Overseas Student Health Cover (OSHC) and much more. It is important for students to read this document very carefully, and if you have any questions, Deakin is always here to help.

Privacy statement
Please read the following Deakin University privacy statement with regard to any information you provide to Deakin as part of the application process:

Deakin University is collecting your personal information for the primary purpose of assessing your application. The University will also use this information to register you in Deakin’s student management system, for planning and quality assurance purposes and to notify you about further opportunities and activities of Deakin that may be of interest to you. Your personal information may be stored in ‘cloud’-based servers located in Australia or overseas. Deakin may provide your personal information to relevant institutions and employers to verify your qualifications and may disclose your personal information to Australian government agencies, including the Department of Immigration and Border Protection and the Department of Education and Training, where required by legislation or to support your visa application. Your personal information will also be disclosed to your overseas student health cover provider and, if you are under 18 years of age, to the carer appointed for you. If an agent has assisted you with your application for admission or your visa application, Deakin and the agent may share your personal information.

You are not required to provide the information requested, however if the information is not provided, Deakin may not be able to assess your application.

Deakin manages personal information it holds, including requests by individuals for access to their personal information, in accordance with the Privacy and Data Protection Act 2014 (Vic) and the Health Records Act 2001 (Vic). Deakin’s Privacy Policy may be viewed on The Guide – http://theguide.deakin.edu.au.

For further information on privacy at Deakin please contact +61 3 5227 8524 or email privacy@deakin.edu.au.
A university education is an invaluable investment in your future and it is important to understand the costs involved. There are also scholarship opportunities to help you pay for your Deakin education.

**Tuition costs**

Tuition costs for studying at Deakin vary depending on the course you select to study. For example, courses in the sciences tend to have higher tuition costs than courses in the humanities. Please refer to the discipline pages in this Guide to find the 2016 annual course fee for your course. For most master’s and graduate diploma courses, the annual course fee in this Guide indicate the cost for the entire course (4 credit points).

The fee for one trimester as listed on your Offer Letter must be paid before a Confirmation of Enrolment (COE) can be issued. You will need a COE to apply for a student visa. Please note that Deakin will be determining course fees by a new method for 2016. Starting in Trimester 1 of 2016, international students will pay one flat course fee for their studies, regardless of what units they take in a given trimester.

If you plan to start your Deakin studies in Trimester 2 or Trimester 3 of 2015, please be advised that your tuition costs for 2015 will be based on the units that you take.

For more information on fees, please visit deakin.edu.au/post-fees.

**Overseas Student Health Cover**

In addition to tuition fees, all on-campus international students are required to pay Overseas Student Health Cover (OSHC). OSHC service providers offer concessional rates for OSHC paid at the offer acceptance stage for health coverage for the length of your visa. The amount payable will be included in your Offer Letter.

**Other costs**

Other costs you will need to pay are living costs (food, accommodation, etc.) and course-related expenses such as computer equipment, books, field trips and special equipment or clothing (if applicable to your course).

**Scholarships**

At Deakin, we believe everyone should have the option of going to university. And there are an array of scholarships available to international students through Deakin and other parties, including the Australian Government.

For a full list of scholarship opportunities open to international students, and information on how to apply, please visit deakin.edu.au/post-scholarships.
APPLICANT NAME:

EMPLOYMENT HISTORY (IF APPLICABLE)

Please attach a more detailed statement if necessary.

<table>

CHECKLIST

- I declare I am a Genuine Temporary Entrant (GTE)* and genuine student and have read and understood conditions relating to these requirements.
- I am aware of the tuition and living costs of my stay in Australia and have financial capacity to meet such costs for the duration of my course. I will make timely payments of any fees or associated costs.
- I have paid the A$55 ($50+10% GST) non-refundable application fee.
- I have attached certified/notarised documentary evidence of all my academic studies and associated application documentation (including studies not completed) with its official explanation of the grading system in both original and English translated version. I grant approval to Deakin University to verify my academic documentation with my previous institutions. Failure to provide all information to Deakin will cause a delay in the assessment of your application.
- I have attached documentary evidence of relevant English language qualifications.
- I have attached employment history details (where applicable).
- I have attached a certified copy of my passport.
- I have attached a more detailed statement if necessary.

DECLARATION

I declare that the information in this application and the supporting documentation is true and correct. I have read and understood the sections of the International Course Guide relating to the courses I have selected, and the admission procedures, fees, refund policy and privacy policies. I acknowledge that the provision of incorrect information or documentation or the withholding of relevant information or documentation relating to this application may result in Deakin University cancelling any offer of enrolment or actual enrolment. If sponsored by a government body or private corporation I give Deakin University permission to provide this sponsor with information about my academic progress.

No

If yes, degree  

1.  
2.

Duration of whole course (years)

Duration of research component (semesters)

What proportion of the degree was the thesis (e.g. 5 out of 60 credit points)?

Word or page length (specify which)

Grade for thesis*

Grade/GPA for whole course (expressed as %)

* Can include ‘ungraded pass’ if this is the result on your transcript.

POSTGRADUATE RESEARCH EXPERIENCE

Please describe briefly any postgraduate research experience (if insufficient space, please attach further information).
APPLICANT NAME: ____________________________

PUBLICATIONS

Have you had any of your research published?

[ ] Yes [ ] No

If yes, please list number of:

- Refereed journal articles
- Refereed conference papers
- Non-refereed conference papers
- Books based on original research
- Book chapters based on original research
- Professional research reports

Please attach a complete list of publications as per the above groups. For each, you must provide:

- Full bibliographic references. For example: Smith, J., Brown, S., Shaw, P. "Title", Name of Publication, Type of Publication (refereed journal article, non-refereed journal article, book chapter, review etc.), Publication Details (e.g. volume 29, issue 2, 2005);
- An outline of your contribution to the work (e.g. first or second author, what you did);
- Details of whether the journal or conference was local, national or international; and
- A copy of the contents page and abstract page for each item.

OTHER SCHOLARSHIPS OR AWARDS

Have you previously received any postgraduate awards or prizes?

[ ] Yes [ ] No

If yes, please list number of:

1. Name and duration of award
2. Institution which granted award

ENGLISH LANGUAGE PROFICIENCY

Is English your first language?

[ ] Yes [ ] No

If no:

[ ] Have you obtained a tertiary degree taught in English?* [ ] Yes [ ] No

[ ] OR have you sat an IELTS/TOEFL test?* [ ] Yes [ ] No

[ ] OR other** – provide details

* Much documentary evidence.

** See details of English language requirements at www.deakin.edu.au/study-at-deakin/english-language-requirements.

REFEREES

Are you a current Deakin Honours student?

[ ] Yes [ ] No

If yes, please provide the details of two referees:

1. Name
   Institution
   Position
   Telephone
   Facsimile
   E-mail

2. Have you forwarded Referee Report Forms to both referees to complete?

[ ] Yes [ ] No

FUNDING SOURCE

Please attach a more detailed statement if necessary.

Private Funding

[ ] Self [ ] Loan [ ] Funding

Scholarship/Sponsorship

[ ] Government [ ] Private institution

Other

Please specify

DECLARATION

I declare that the information in this application and the supporting documentation is true and correct. I acknowledge that the provision of incorrect information or documentation or the withholding of relevant information or documentation relating to this application may result in Deakin University cancelling any offer of enrolment or actual enrolment.

I declare that I am a Genuine Temporary Entrant (GTE) and genuine student and that I have read and understood conditions relating to these requirements. I am aware of the tuition and living costs of my stay in Australia and I have the financial capacity to meet such costs for the duration of my student visa. I will be responsible for making timely payments of any fees and associated costs.

Applicant’s signature: ____________________________ Date: __/__/____

Please print and sign this form and email it to di-team8@deakin.edu.au or by post.
This report is to provide information on the applicant’s eligibility and readiness for a higher degree by research program at Deakin University. In the case of scholarship applicants, this information will assist in their ranking.

Entry to a research degree at Deakin is based on a demonstrated capacity to undertake significant research in the proposed field. This can be done by completing:

• advanced coursework in a relevant field of study;
• initial research training in appropriate methods; and
• a research project resulting in a written report, thesis or comparable output.

We would appreciate your comments on whether the applicant has achieved these goals. Below is the Deakin grading system to provide you with a guide for comparison, and examples of other achievements which may show the applicant’s readiness for a research degree.

### Grading system

<table>
<thead>
<tr>
<th>Description</th>
<th>Length of thesis (words)</th>
<th>Percentage range</th>
</tr>
</thead>
<tbody>
<tr>
<td>H1 First class Honours with thesis</td>
<td>10,000 – 20,000</td>
<td>80%+</td>
</tr>
<tr>
<td>H2A Upper second class Honours with thesis</td>
<td>10,000 – 20,000</td>
<td>70% – 80%</td>
</tr>
<tr>
<td>H2B Lower second class Honours with thesis</td>
<td>10,000 – 20,000</td>
<td>60% – 70%</td>
</tr>
</tbody>
</table>

### Other achievements

Deakin seeks this report from you in confidence, however it is a Victorian agency subject to the Freedom of Information Act 1982 (Vic). The Applicant has a right to make an application for access to documents under the Act, in which case Deakin may be under an obligation to disclose your report.
FREQUENTLY ASKED QUESTIONS

How do I know what fees I need to pay?
All deposit fees you are required to pay (including the tuition fee) will be listed in your Offer letter. You will need to pay the tuition fee and Overseas Health Cover (OHC) if you are studying on-campus.
If there is a difference between your initial course payment and the actual fee liability generated by your enrolment, you will need to pay any outstanding amount; over payments will be credited to your next term’s fees.

What accommodation is available?
There are a number of accommodation options available to international students, including:
• on-campus accommodation
• off-campus accommodation – private rentals
• non-university homestay

The cost of on-campus accommodation can vary depending on the amenities included in the housing. A general range of on-campus accommodation fees is as follows:
Melbourne Burwood Campus – Indicative weekly rates: A$276–A$335
Warrnambool Campus – Indicative weekly rates: A$188–A$216
Geelong Waurn Ponds Campus – Indicative weekly rates: A$208–A$236

Where can I find more information about Deakin University as a study destination?
If you are applying through a representative, they will provide you with more information.
You can also go to the Australian Government website www.studyinaustralia.gov.au. This site provides impartial and reliable information about courses, institutions, study and living costs, the application process, visa requirements and more.
You will also find more information in the ‘Living in Australia’ section of our website deakin.edu.au/international, including virtual campus tours that will give you a feel for what it is like being a Deakin student.

Are there any restrictions as to where I can source funds from for payment of tuition fees?
Yes, Australian laws restrict the use of funding obtained from various foreign persons and entities. Information about these restrictions and lists of entities to whom restrictions apply are available on the Department of Foreign Affairs and Trade (DFAT) website at www.dfat.gov.au/en/unsanctions/autonomous-sanctions_measures.html. You must ensure that you do not make or arrange any payments using funds obtained from any prohibited person or entity.

What is a Confirmation of Enrolment (CoE)?
A document that confirms the eligibility of a student to enrol as an international student at Deakin University is called a Confirmation of Enrolment (CoE). The CoE provides various Australian Government Departments with important information and it needs to be an accurate record of the student’s enrolment. For further information, visit deakin.edu.au/students/international/compliance/coe-information

What do I have to do prior to arriving at Deakin?
Deakin places high importance on creating a welcoming and exciting environment for new international students. To ensure you enjoy your university experience and understand your rights and responsibilities as an international student at Deakin, you will be asked to complete an online induction. This orientation is compulsory and will go hand-in-hand with your face-to-face induction, teaching you all there is to know about studying at Deakin. For further information, visit deakin.edu.au/students/international/compliance/online-induction

This fee is inclusive of internet, laundry and utilities.

For more information, please visit deakin.edu.au/post-accommodation

If I don’t meet the admission requirements for Deakin University, what are my options?
If you do not meet the academic admission requirements for Deakin, there still may be an opportunity for you to study select postgraduate courses after successfully completing our Postgraduate Qualifying Program (PQP). For further information, see page 13 of this Guide.
If you do not meet the English language admission requirements for Deakin, you should consider an English language course at the Deakin University English Language Institute (DUELI). Students can meet the English language requirements of Deakin undergraduate and postgraduate courses by successfully completing a program at DUELI. See page 16 of this Guide for further information.
If you decide to take an IELTS (Academic) or TOEFL test, you will need to book early as places fill quickly. If you sit for a TOEFL test, you should select Deakin University’s designated institution code (DI Code 0765) as one of your institutions to receive your score.

Where can I find more information on Deakin degrees?
For complete information about individual course offerings and other information published here, for the most up-to-date course information please view our website at deakin.edu.au.
Deakin University reserves the right to alter, amend or delete details of course offerings and other information published here.
