"After high school I was in search of a university that would enable me to study Italian and Indonesian. As UWA was the only university in WA to offer these two languages, it made my decision simple. The flexibility of the undergraduate course structure enabled me to explore different possibilities and my love of studying languages grew. I'm now one year away from becoming a professional translator and can't wait to put into practice the skills and knowledge I obtained from UWA."

- Allira Hanczakowski, Master of Translation Studies student

“Throughout my postgraduate studies at UWA I’ve been given great opportunities to network with professionals from a wide range of industries. The MPE course provides a good mix of theory and practical work, necessary for a career in environmental engineering. UWA offers a supportive environment for learning and there are many opportunities to gain hands-on experience in your field of interest.”

- Hannah Dawson, Master of Professional Engineering graduate

“I really enjoyed studying my Master of Teaching at UWA. I found the course to be relevant, stimulating and challenging. I enjoyed meeting like-minded individuals who shared my goal of supporting children on their path of lifelong learning. Learning from and working with incredible staff as part of my studies was also a standout.”

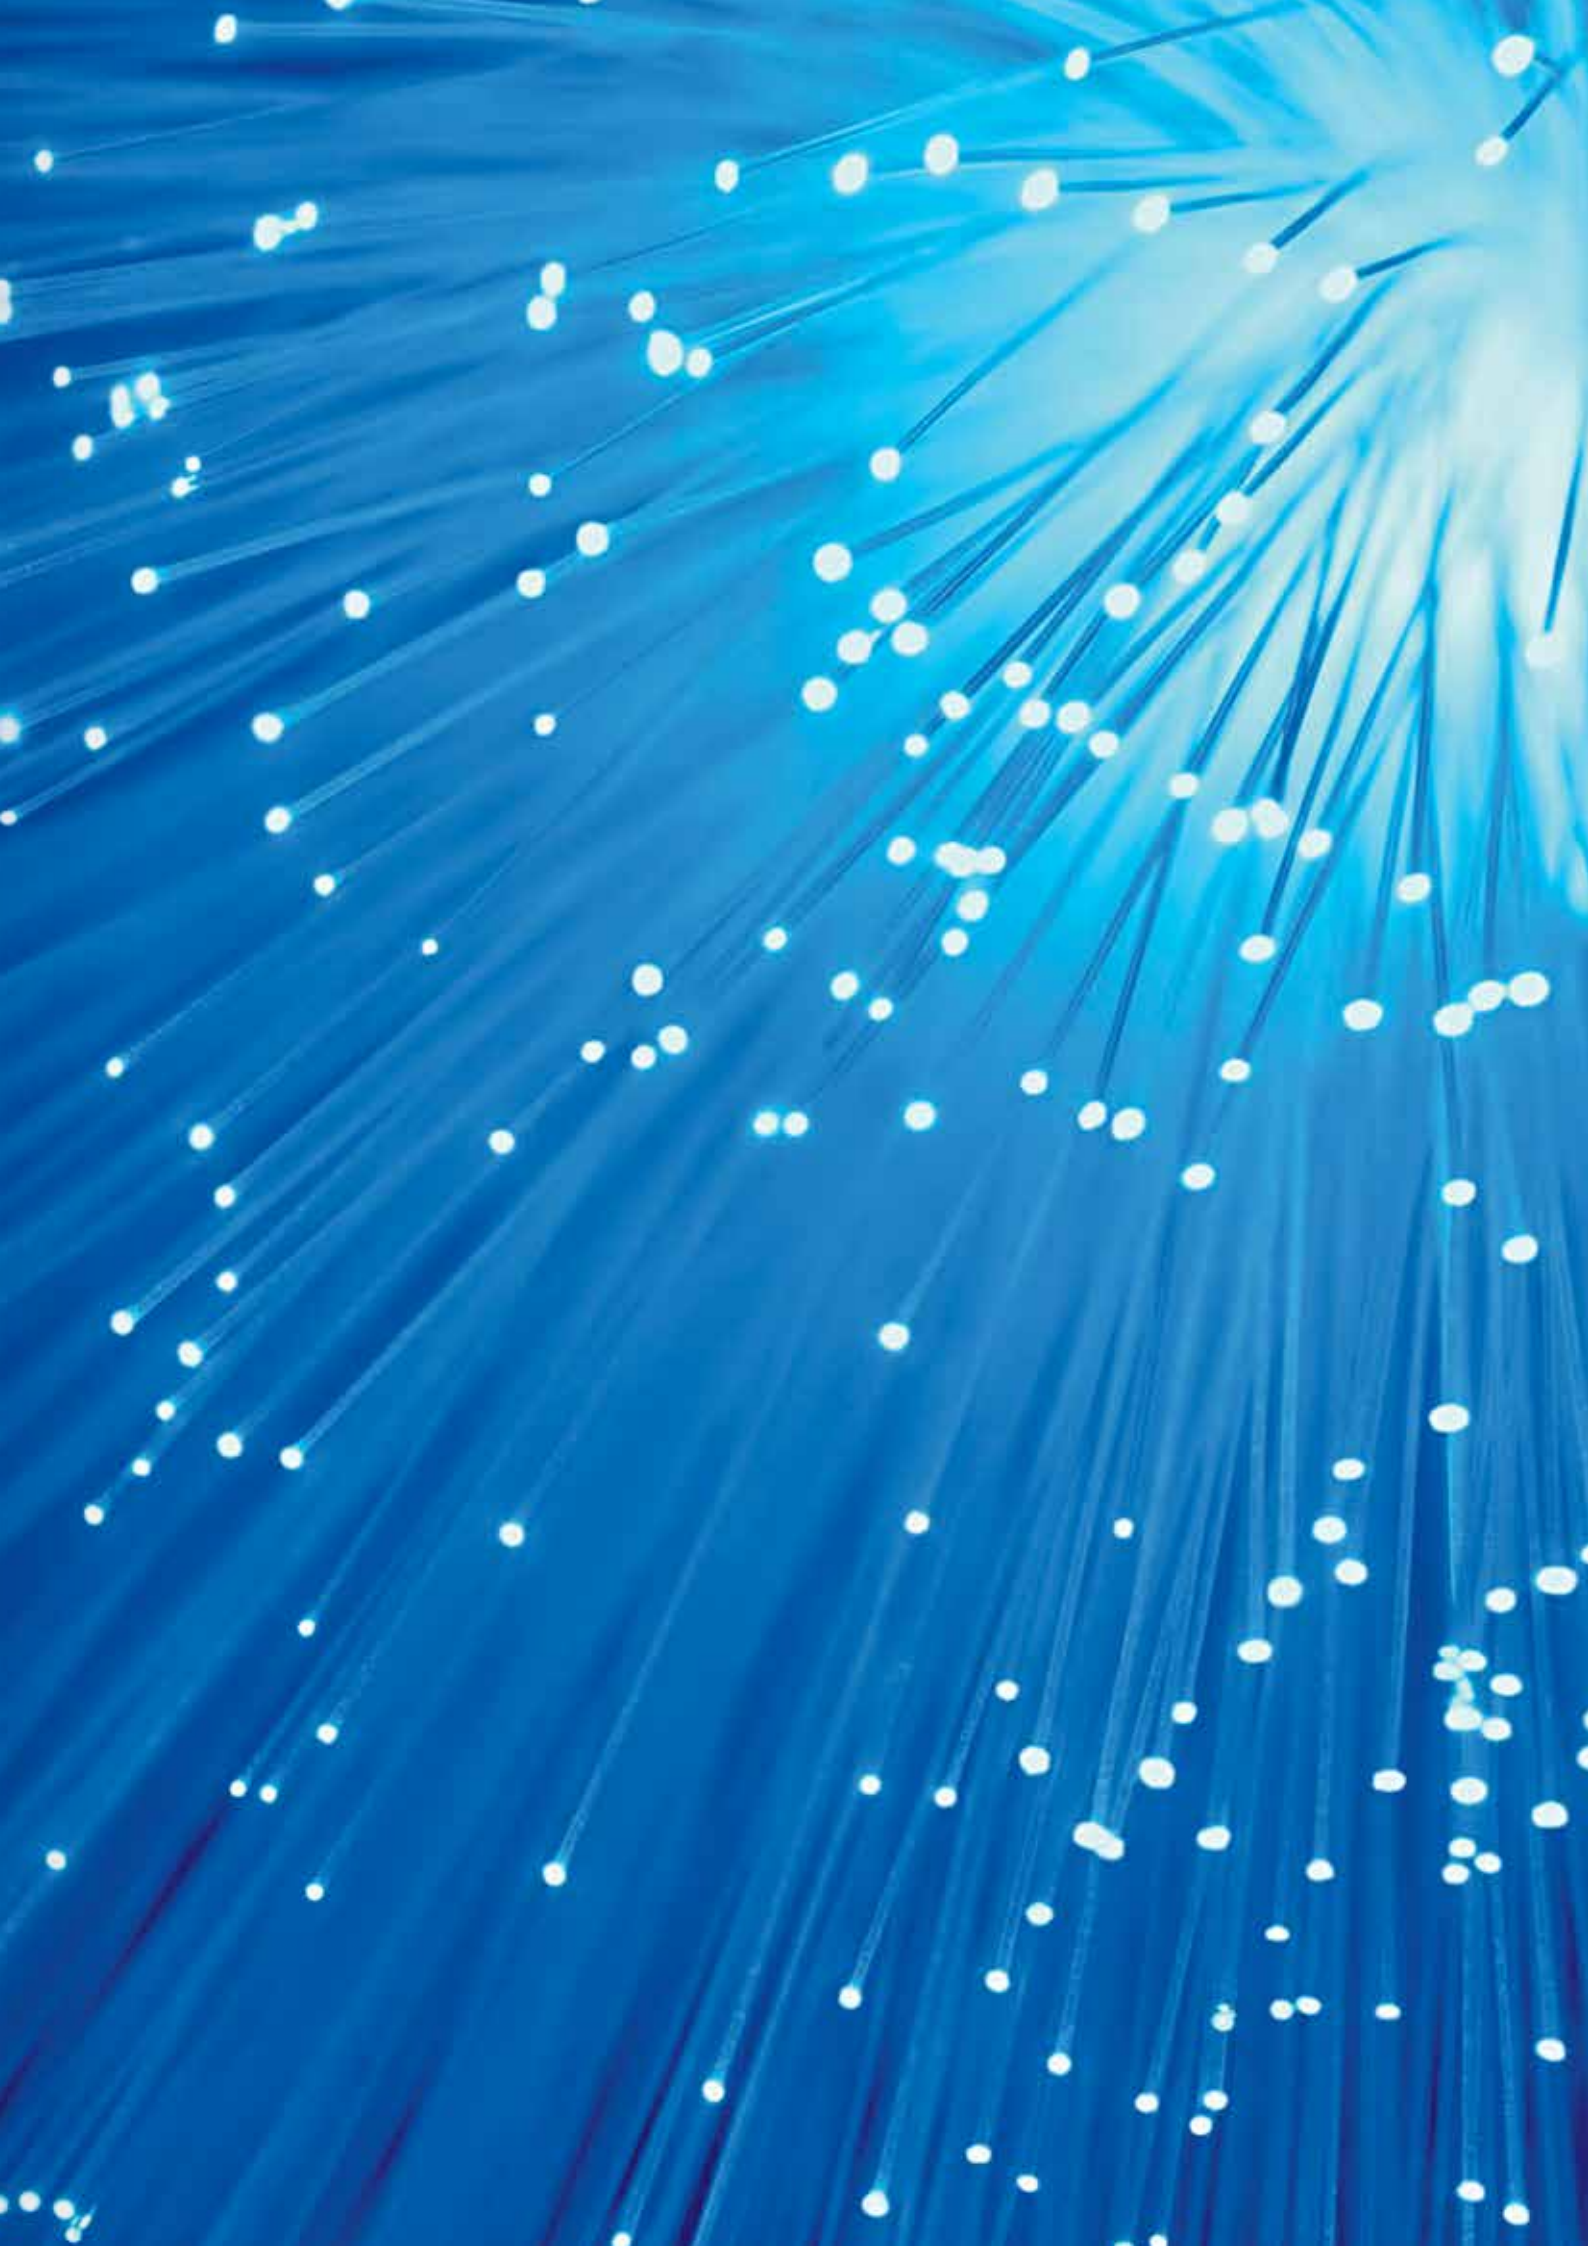

- Amelia Baker, Master of Teaching graduate
