Microsoft Innovation Center Cyprus
Microsoft Innovation Center on campus, one of the 110 worldwide
European University Cyprus is one of the leading institutions of higher education in Cyprus. It was established as Cyprus College in 1961 and was granted university status in 2007. It boasts a student enrollment of over 6,300 in undergraduate, graduate and doctorate degree programs.

European University Cyprus has established a reputation for quality education with a sharp focus on the employability of its students, and has been recognized for its investment in high tech innovation and engagement with industry and society. Over the last decade, the university has fostered a culture of modernization that has resulted in levels of growth that have exceeded all expectations, upgrading the quality of tertiary education in Cyprus and defining a clear international orientation for the university and the country.

European University Cyprus has introduced state of the art technology and boosted the country’s health sector through the establishment of the most advanced School of Medicine in the region. With the launch of the first Dentistry program in the country, the university offers the most comprehensive studies in the fields of Medicine and the Health Sciences, and is attracting academics and students from around the globe.

At European University Cyprus our core values are the advancement of learning, teaching and research. We respond to the needs of the members of the university community and society at large by investing in new ventures and institutes, rewarding ambition and drive in our staff and faculty and by continually developing our facilities and resources. The new campus consists of modern facilities, well equipped laboratories, amphitheater lecture halls, student apartments and entertainment venues. European University Cyprus is located in the capital Nicosia, which is the heart of political, economic and cultural activity in the country.

Schools and Departments

European University Cyprus consists of five schools offering internationally recognized undergraduate (Bachelor Degrees), graduate (Master Degrees) and doctorate programs (Ph.D.). In addition, the University operates a Distance Education Unit:

- **The School of Business Administration**
  - Department of Accounting, Economics and Finance
  - Department of Management and Marketing

- **The School of Humanities, Social and Education Sciences**
  - Department of Arts
  - Department of Education
  - Department of Humanities
  - Department of Social and Behavioral Sciences

- **The School of Sciences**
  - Department of Computer Science and Engineering
  - Department of Health Sciences
  - Department of Life Sciences

- **The School of Law**

- **The School of Medicine**

- **The Distance Education Unit (DEU)**
The first University in Cyprus rated by QS TOP UNIVERSITIES (QS Stars™)
European University Cyprus placed among the best institutions in the world

In 2015 European University Cyprus secured a momentous distinction following the assessment by QS TOP UNIVERSITIES, the independent and most authoritative university-rating tool globally.

European University Cyprus is the first University in Cyprus and Greece to be rated by QS TOP UNIVERSITIES (QS Stars), which ranks many of the most prestigious universities in the United States, Canada and Europe, placing it among the top universities in the world on the basis of its performance across several fields.

QS Stars University Rating is used by interested parties and prospective students internationally to get a wider, but also more comprehensive, picture of an institution’s qualities, looking at its administrative and academic standing assessing every aspect of a university’s performance from teaching and the employability of its graduates to its facilities and social responsibility.

The QS Stars University Rating evaluates an institution against 50 different indicators and awards universities between one and five stars in a range of fields.

European University Cyprus has been assessed with the highest distinction of 5-Stars in Teaching, Facilities, Inclusiveness, Social Responsibility and Internationalisation. Its 4-Star distinction in the field of Employability is also considered a remarkable success, a result of the close association of its academic programs to the job market.
The only Microsoft Innovation Center (MIC) in Cyprus
Research, Collaborations & Strategic Agreements

Microsoft Innovation Center

Microsoft has selected European University Cyprus to be its partner institution for the establishment of the only Microsoft Innovation Center (MIC) in Cyprus, one of the 110 Microsoft Innovation Centers worldwide. The operation of the MIC at European University Cyprus greatly benefit students, faculty, IT professionals, researchers, the economy and society at large.

The Microsoft Innovation Centers are state-of-the-art tech hubs designed to promote collaboration on innovative research, technology or software solutions, involving a combination of governmental, academic and industrial participants. As knowledge and innovation become the primary catalysts for economic growth, the Microsoft Innovation Centers can play a vital role in fostering innovation and developing software for sustainable local economies by generating powerful new ideas through training, education and knowledge transfer.

Microsoft and strategic partners in each community work together to operate the MICs, which are centers open to students, professional software developers, IT professionals, entrepreneurs, start-ups and academic researchers.

The University signs Magna Charta Universitatum

European University Cyprus has been approved by the Magna Charta Observatory Council to become a signatory university to the Magna Charta Universitatum. This is a remarkable distinction as the charter codifies the principles of academic freedom and institutional autonomy setting the guideline for good governance of universities.

U-Multirank Ranking

U-Multirank, the European Commission’s new international ranking university system, has placed European University Cyprus among the first 150 Universities of Europe in the Applied Knowledge category and among the first 300 Universities in the Research and Research Linkages. U-Multirank is a new, unique independent tool for comparing performance which includes information on more than 1,300 higher education institutions, 3,250 faculties and 10,700 study programmes from more than 90 countries.

UI GreenMetric World Ranking

European University Cyprus is ranked 43rd in the world in the “Energy and Climate Change” indicator by UI GreenMetric World Ranking.

UI GreenMetric World Ranking evaluates and classifies the energy and environmental policy of universities around the world. It follows the guidelines of the UN’s decisions and provisions and that of other international energy and environmental protection standards. In the field of “Energy and Climate Change”, European University Cyprus has ranked in the highest position among all the universities in Cyprus.
Strategic Collaboration
Agreements with Greek Universities and Higher Technological Institutes

In recognition of the important role undertaken by European University Cyprus in creating a common European higher education area, leading Greek Universities have joined forces with it through agreements of strategic collaboration. These are:

- The National and Kapodistrian University of Athens
- The Aristotelian University of Thessaloniki
- The Democritus University of Thrace
- The Ionian University
- The University of Patras
- The University of Peloponnese
- The Harokopio University
- The Hellenic Open University
- The University of Western Macedonia
- The University of Macedonia
- The University of the Aegean
- Higher Technological Educational Institute of Athens
- Higher Technological Educational Institute of Piraeus
- Higher Technological Educational Institute of Peloponnese

Such interdisciplinary collaborations aim, inter alia, at the establishment of joint/dual degrees, the design of joint research programs, transfer of knowledge, exchange of students and scientific and administrative personnel, the organization of scientific meetings (conferences, one-day events, symposia) and joint supervision of doctoral theses. Two postgraduate programs are already available in collaboration with the Higher Technological Educational Institute of Piraeus.

Breakthroughs in Pioneering Research

One of the main targets of European University Cyprus is the generation of new knowledge through the promotion of scientific research. For European University Cyprus, research constitutes the primary factor in setting the bar higher in terms of teaching and education. With a proud history of innovative research activity across all sectors, the university has achieved research breakthroughs, for instance gaining participation in the European Social Survey-ESS, a research program that was awarded the prestigious Descartes Prize “for excellence in scientific collaborative research”.

The objective of the ESS research program is to study the attitudes of public opinion in European states, as regards critical topics pertaining to policies of European integration. A comparative research, with high standards of rigor applying to all countries, it is fielded every two years with a common questionnaire for all countries. In addition, the University's academic community has presented significant research work that has propelled the University into the international spotlight. European University Cyprus also participates in all significant European research programs and national programs alike, collaborating with leading Universities and public and private bodies for the promotion of scientific research.

European University Cyprus has joined forces with leading Universities in scientific research programs. This is an indicative list of our partners:

- FINE Network Harvard Family Research Project: University of Amsterdam, Netherlands; Johannes Kepler University, Austria; University of California, Berkeley, USA; The University of Edinburgh, Scotland; University of London, UK; Freien Universität Berlin, Germany; University of Zurich; University of Cambridge, UK; Aarhus University, Denmark; University of Oslo, Norway; Stockholm School of Economics, Riga; Tallinn University of Technology, Estonia; University of Leeds, UK; Vienna University, Austria; London School of Economics (LSE), UK; Helsinki University, Finland; University of Ljubljana, Slovenia; University of Applied Science, Munhen, Germany; Johannes Gutenberg; Universität Mainz, Germany; Universidad de Granada, Spain, Leuven; University College, Belgium; Universitat Autonoma de Barcelona, Spain.
European University Cyprus has placed Cyprus in the international and European map of “Science Shops”, with the establishment of the first “Science Shop”, one of 30 operating in Europe today. The “Science Shop” is a member of the International Network of the “Living Knowledge” International Science Shop. In Cyprus, the first “Science Shop” has been incorporated into the EUC through the PERARES European Research Program (Public Engagement with Research and Research Engagement with Society, 7th framework program). It runs in the premises of the European University Cyprus, having recourse to its labs, faculty and students. In collaboration with social groups, it consistently endeavors to offer scientific solutions to problems facing the Cyprus society and economy.

Professional Recognition

All degrees awarded by European University Cyprus are fully recognized by competent professional organizations. More particularly, the “Information Technology”, “Computer Engineering” and “Electrical and Electronic Engineering” programs are recognized by the Cyprus Scientific and Technical Chamber; the “Nursing” program by the European Commission; the “Radiodiagnostics-Radiotherapy” program by the Cyprus Council of Radiologic Technologists and Radiation Therapy Technologists; the “Nutrition and Dietetics” program by the Cyprus Council of Food Technologists, Nutritionists and Dieticians; the “Physiotherapy” program by the Cyprus Physiotherapists and Physiotherapy Establishments Registration Council; and the “Speech and Language Therapy” program by the Association of Registered Speech & Language Pathologists of Cyprus.

The European Commission has awarded Europe-an University Cyprus one of the most prestigious international awards, recognizing its contribution to research excellence. The “HR Excellence in Research Logo”, was awarded following a thorough analysis of European University Cyprus HR policies that provide and support a stimulating and favourable working environment for researchers and places the university among the leading 392 global academic institutions.

The Library

As with all educational institutions, the library at European University Cyprus is an integral part both of knowledge heritage and knowledge building. Even in our digital era, the library has a lot to offer through the management of online data, the selection and sorting of electronic sources and by providing information for purposes of research and study.

For more than 25 years now, the Library at European University Cyprus has focused on maintaining academic excellence. It was the first in Cyprus to offer online access through its webpage, whilst providing links to thousands of other websites.

The Library is connected to several databases, such as the Academic Onefile-Infotrac, Proquest Central, PsyArticles, ACM Digital Library, Emerald Insight 200, EBSCO’s Academic Complete and Business Source Complete, Sage, Medline Complete, CINAHL Plus fulltext, Health and Wellness Resource Center-Infotrac, Science Direct’s Health and Life Sciences, Health and Medical Complete-Proquest, IEEE and many other online databases. Databases provide users access to the full texts of periodicals, newspapers, conference minutes, company reports and several other sources. At present, users have access to more than 69,000 unique titles of e-journals and more than 230,000 e-books.
ERASMUS+
Exchange
Your Life!
ERASMUS+ Participation

ERASMUS+ is the new European Union (EU) program for Education, Training, Youth and Sport for 2014-2020.

European University Cyprus encourages student and staff mobility for work and study, and promotes transnational projects among universities across Europe. All European University Cyprus Schools participate in the Erasmus Program, and maintains links with the majority of EU member countries.

European University Cyprus supports the European Credit Transfer and Accumulation System (ECTS), which is a standard for comparing the study attainment and performance of students of higher education across the European Union and other collaborating European countries for the mutual recognition of studies between universities that have signed exchange agreements. European University Cyprus has signed more than 200 agreements under the ERASMUS+ program in 26 EU countries. All international students of European University Cyprus are eligible to participate in the Erasmus+ program.

Student Testimonials

Liogas Antonios
Program of Study: Law Studies
Country of Practical training: Greece

"Through the Erasmus program, I had the opportunity to participate in a traineeship program at a law firm in Greece for a period of four months. Practical training focused on Legal Science and more specifically on Criminal, Commercial and Civil Law.

My practice focused on learning legal texts after necessary research and help from my curator. I attended trials and participated in business appointments, provided secretarial support for complex cases, and learned how to archive and organize my time. This has led to enriching my knowledge and gaining professional experience that is one of the most valuable skills I could have."

Zhi Xi
Program of Study: Business Studies
Erasmus Exchange University: Munich University of Applied Sciences

"I have been studying Business at European University Cyprus for three years. I enjoy my life here very much. Cyprus is a very safe and beautiful Mediterranean country. What’s more, I have joined the European exchange program, Erasmus, and went to Munich, Germany last year. This half-year experience in Germany as an exchange student taught me a lot, and opened up the world to me. I also received Erasmus funding for monthly living expenses. I really appreciate it that European University Cyprus has given me a precious opportunity like this."
EUC is the first choice of hundreds of young people from Europe, Asia and the Middle East.
The criteria for admission to European University Cyprus have been set to enable the Office of Admissions to select students who have the ability to do university-level work and to place students in courses and programs appropriate to their academic strengths, in an effort to help them successfully realize their full academic potential.

Our students come from many parts of the world and bring with them a wide range of academic skills, experiences, special interests, talents and cultural backgrounds. The Office of Admissions aims to form a student body which will give the opportunity to each student to share education and grow in experience as a member of an international community.

All applicants must have completed a secondary (high) school education or twelve years of schooling or the equivalent, to be considered for admission to undergraduate study, or hold a bachelor's degree for post-graduate study.

Candidates who have successfully completed part of their studies at an accredited university may be exempted from respective courses in the program they attend at European University Cyprus, thus reducing the period of study to obtain their degrees. For the evaluation of transferred courses, candidates must submit a copy of their transcripts to the Office of Admissions.

### Undergraduate Students Admission Requirements

The general admission requirement for all undergraduate programs is the successful completion of the secondary education cycle. International students will need to submit the following documents to the Office of Admissions, in electronic form to admit@euc.ac.cy, at least three months prior to the beginning of the semester in order to be considered for admission to the university and comply with Immigration regulations:

1. A completed application form together with a non-refundable fee of €52. Applicants may also apply online at www.euc.ac.cy
2. Official copy of High School Leaving Certificate and grade marksheet, in English, with an average grade of ‘C’ or above
3. Proof of English language proficiency (if any)*
4. Copy of a valid passport

*Proof of English language proficiency

Knowledge of the English language is not a requirement for admission. At European University Cyprus, applicants whose native language is not English take the university’s English Placement Test (EPT) upon arrival at the university to indicate their English level and placed in appropriate courses. Applicants who have passed either the TOEFL examination with a minimum score of 550 (213 computer-based, 79 Internet-based), English IGCSE with grade ‘C’ or above, or IELTS with a score of 6.5 or above are exempted from the EPT. Other external exams may be accepted by the English Department as equivalent. Please consult with the Office of Admissions for more details. Candidates, whose English proficiency is not up to the university’s standard, have the opportunity to take additional English Language classes according to their degree requirements.
Graduate Students Admission Requirements

The general admission requirement for graduate programs is the successful completion of a bachelor’s degree at an accredited institution, or its equivalent (professional qualifications). International students will need to submit the following documents to the Office of Admissions at least three months prior to the beginning of the semester in order to be considered for admission.

1. A completed application form together with a non-refundable fee of €52. Applicants may also apply online at www.euc.ac.cy
2. Official copy of a bachelor’s degree, in English, from a recognized university, with an average grade of ‘C’ or above, or official copies of professional qualifications
3. Official copy of academic transcript, in English
4. Official copy of High School Leaving Certificate and grade marksheet, in English
5. Proof of English language proficiency (if any)
6. One recommendation letter
7. Proof of work experience (if applicable)
8. Curriculum Vitae (CV)
9. Copy of a valid passport

PhD Students Admission Requirements

Every year, European University Cyprus announces a limited number of positions for various doctoral programs. International students will need to submit the following documents to the Office of Admissions, in electronic form to admit@euc.ac.cy, in order to be considered for a Ph.D program:

1. A completed application form together with a non-refundable fee of €52. Applicants may also apply online at www.euc.ac.cy
2. Official copies of bachelor and master degrees (or official letter verifying that the applicant has successfully completed all degree requirements)
3. Official copies of academic transcripts
4. Proof of English language proficiency (if any)
5. Copies of relevant publications (up to two)
6. One letter of recommendation from faculty members of higher academic institutions
7. Other supporting documents such as awards, distinctions, etc.
8. Curriculum Vitae (CV)
9. Copy of valid passport

All eligible applicants will be invited for an interview in Cyprus. When necessary the University will conduct interviews online. Applicants will need to produce evidence of their academic performance and credentials. Applicants will be notified of the exact date of their interview.

Payment of Fees (EU students only)

Upon receipt of an acceptance letter from the University, undergraduate students are required to submit a down payment of €1,100 and postgraduate students a down payment of €500.
Admission and Visa Requirements (Non - EU students)

All international, non-European Union students need to obtain a visa to study in Cyprus. Student visas are issued in Cyprus, a copy of which is sent to successful applicants. After receiving a letter of acceptance from the Office of Admissions, students must apply for a visa by submitting the documents listed below to the University (Office of Admissions, International Office, P.O. Box 22006, 1516, Nicosia, Cyprus) in English, at least three months prior to the beginning of the semester:

- Certified copy of relevant academic records in English
  - Undergraduate students: certified copy of High School Leaving Certificate and grade marksheet
  - Master students: certified copy of Bachelor’s degree from a recognized university, or certified copies of professional qualifications
  - PhD students: certified copy of Bachelor and Master degree

- Certified copy of a valid passport, valid for a minimum of two (2) years

- Certified original letter attesting to good conduct, issued by the police authorities in the student’s country of citizenship, confirming a clear criminal record. The letter of good conduct should be issued no more than 6 months before the date of submission of documents for Visa approval.

- Certified original health certificates for HIV, hepatitis B, hepatitis C, and syphilis and a chest X-ray report (for tuberculosis). Health certificates should be issued no more than 4 months before the date of submission of documents for Visa approval and must be issued only from public hospitals.

- Certified original bank letter and recent bank statement confirming that the student or sponsor (parent(s)/guardian(s)) has sufficient funds to finance the student’s fees and living expenses in Cyprus. The amount indicated on the bank letter and bank statement must be equivalent to at least €7,000. The bank letter should be issued no more than 6 months before the date of submission of documents for Visa approval whilst the bank statement must show the transactions of the last two months.

Note: Visa Requirements vary according to the country of citizenship, for further information on visa attestation procedures please contact the Office of Admissions at admit@euc.ac.cy

Payment of Fees

Upon receipt of an acceptance letter from the University, undergraduate students are required to submit a down payment of €1,100 and postgraduate students a down payment of €500.

Student visa

Your application for admission to European University Cyprus is subject to approval by the Ministry of Education and Culture and the Cyprus Migration Office. Student visas are issued in Cyprus. Upon approval, a copy of the original Entry Permit (Blue Slip), will be sent to successful applicants by the Office of Admissions.

A Temporary Residence Permit (student visa card) will be issued after students arrive at European University Cyprus and complete all necessary admission, registration and payment requirements. International students holding a student visa must be enrolled for full-time study.

Tuition fees

Tuition fees vary according to program of study and are charged per teaching hour and not the number of credits. Any balance will be set off against the next semester’s fees. No refund will be given for any credit balance.

Payments for the tuition fees can be paid in monthly installments. Final adjustments to tuition fees will be made after the student registers at European University Cyprus.

A total payment of €3,000 against tuition fees should be made to the Office of Admissions (prior to sending the visa required documents) via bank transfer*, or online**. The Cyprus Migration Department will NOT accept applications for student visa if the University is unable to present evidence of payment.

An additional immigration charge of €175 for the issuance of the student visa card is payable by the student, in cash, after arrival in Cyprus.
Payment covers
- Alien Certificate (€70)
- Temporary Residence Permit (€35)
- Health Certificates (€35)
- Chest X-Ray Report (€20)
- Document Attestation (€15)

Note: Upon arrival students will need to open a bank account in Cyprus and deposit the total amount of at least €2,000

** Students are kindly requested to use one of the following methods of payment:

1. ONLINE
   - FLYWIRE: https://www.flywire.com/pay/euc
   - OR
   - JCCSMART: https://www.jccsmart.com/e-bill/ 4724035
     a. Select European University Cyprus
     b. Select the payment account: Tuition & Fees or Housing Fees
     c. Every new user has to make a simple registration on the website. If you already have an account just log in and proceed with the card information

2. BANK DEPOSIT
   - Bank of Cyprus
     Bank Name: Bank of Cyprus
     Account Name: European University - Cyprus LTD
     Account Number: 0136-11-007463-00
     IBAN: CY3900200136000001100746300
     SWIFT: BCYPCY2N
   - Hellenic Bank
     Bank Name: Hellenic Bank
     Account Name: SPS Institute of Education Ltd
     Account Number: 121-01-030320-01
     IBAN: CY73005001210001210103032001
     SWIFT: HEBACY2N

Note: Always quote your Reference number or Passport Number and Name of Student when making payments. Tuition fees are expressed in euros (€), the official currency of Cyprus. Students are advised to make payments in euros.

Refund policy
- A student who fails to register because he/she has not completed the process of admission or was refused a Cyprus entry visa is entitled to a refund, provided the Office of the Registrar is notified in writing. An administrative charge of €175 will be deducted, covering visa and bank expenses.
- A student who fails to register and does not enter Cyprus, even though an entry visa was issued, is entitled to a refund provided the Office of the Registrar is notified in writing. An administrative charge of €175 will be deducted, covering visa and bank expenses, as well as the International Student Guarantee of €342.
- A student who fails to register but does enter Cyprus is entitled to a refund, provided the Office of the Registrar is notified in writing. An administrative charge of €175 will be deducted, covering visa, bank, and other expenses, as well as the International Student Guarantee of €342.

Arrival checklist
When entering Cyprus (Larnaca or Paphos International Airport) all international students should also have the following with them, to ensure entry to the country:

1. The original (or copy) Entry Permit – Blue Slip, issued by the Migration Authorities of Cyprus
2. The receipts (or copies) indicating total payments of visa and registration/tuition fees to European University Cyprus
3. Official bank receipts from the bank in your country to prove the transfer of payment to the university
4. Cash in hand of at least Euro €2,000 to cover personal expenses (meals, books, accommodation, etc)
5. Acceptance letter from the Office of Admissions
6. A valid passport
Student apartments only minutes from campus
Accommodation and Cost of Living

Our student private apartments are located only minutes away from the campus and offer world class amenities. The total capacity of the University’s housing facilities is 144 people. Single, double, triple and quadruple apartments and studios are available. The apartments are fully equipped with a kitchen, bathroom, living room and air conditioning systems. The monthly rent for student apartments ranges from €250 to €490 depending on the choice of apartment. Costs for electricity, water and heating are not included in the rent.

As space is limited, the application for accommodation must be submitted, preferably by the end of July or earlier. Details of the cost of accommodation and services are provided by the Housing Office. Additionally, the Housing Office has a list of private apartments / houses for rent very close to campus. Typically, the rent for a one-bedroom apartment is usually between €300 to €500 a month, two-bedroom is between €400 to €550 a month, while the rent for a three-bedroom apartment is between €550 to €650 a month. The cost of living in Nicosia depends on the lifestyle of each individual. For the average student, it is calculated between €450 to €550 a month.

The dedicated staff of the Housing Office will guide you to get the best of student accommodation that meets your personal needs and standards. Accommodation is available at anytime, subject to availability, but the busiest hunting months are normally June - September. An online housing application on the University’s website enables you to secure your preferred accommodation option and complete peace of mind.

On the University campus a cafeteria-restaurant, offers meals and snacks at regulated prices. The cafeteria-restaurant is open daily from 8:00am – 9:00pm except Saturday and Sunday.

Visit our website at www.euc.ac.cy/el/housing for a virtual tour of our housing facilities.

UniPlace - New Accommodation Facilities

The brand new accommodation facilities will provide housing to 228 students. The new 3-building complex is located next to the main campus. It is designed to offer high quality residential standards with peripheral services and amenities to create value for its residents including a restaurant-cafe, 24 hours security, modern gym, laundry room and other. The new unit will be in operation around July 2018.
78% of graduates employed in their field within six months of graduation
Employability

Employability is a major strategic pillar of the learning experience at European University Cyprus. This process encompasses the academic knowledge students receive at our university, development of the right skills and attributes employers demand but mostly we ensure that our graduates are fully prepared to achieve the highest personal and professional standards. The strategic pillar of employability focuses on a comprehensive set of actions to include internships and practical training programs, links with the industry and industry leaders, programs of study that meet the needs of the global market and continued professional and personal development programs.

Career Center

The Career Center was established in 1989 and has consistently provided students as well as alumni with personal and career development counseling and advice. The Center maintains long industry links to local and regional public sector organizations and private corporations.

Every year the Career Center invites distinguished professionals from various fields to talk to students helping them broaden their scope and understanding of the job market as well as refine their own professional choices. Through the use of innovative tools and technologies, the Career Center helps strengthen students’ knowledge, competencies and skills to help them respond to the multi-faceted entrepreneurial demands of our time. Some of the most important functions of the Career Center include the administration of the Ariadne Psychometric Tool, the operation of the Career Simplicity Management and the organization of the Annual Internship and Career Exhibition where students are exposed to the trends and prospects of employment in Cyprus and the EU. The Center is an active member of the International Association for the Exchange of Students for Technical Experience IAESTE.

Services Offered

- Internship Programs
- CV Writing
- Interview Simulation Techniques

Cyprus Annual Medical Students Meeting

The first “Cyprus Annual Medical Students Meeting” (CAMESM) took place on February 13th 2015, and was addressed by the Minister of Health, Dr George Pamborides and the Minister of Education and Culture, Dr. Costas Kadis, as well as by the Chairmen/Representatives of the respective Committees of the House of Representatives. Keynote speakers at the meeting included Professors of international reputation and recognition, eminent educators and distinguished scientists who are specialists on issues of concern and interest to the students of medicine and health sciences, such as: Issues Relating to Clinical Training, Career Orientation and Involvement in the field of Medical Research, Clinical Specialization, Industrial Applications and Academic Positions, Rules of Medical Ethics, Directives from the Pancyprian Medical Association, Various Medical Training Programs, Main Currents and Trends in Medical Training around the World, Combating of Stress and Burnout of Health Professionals, Medical Altruism and Volunteerism, Charitable organizations and their contribution to those suffering and to medical sciences. Doctors of the World, the Cross-border Medical Care and other issues.

First prize at the Researcher’s Night 2017

The School of Medicine was awarded 1st prize for “Best Activity” during the Researcher’s Night 2017. The project “Exploring the Brain” aimed to outreach the public and motivate their interest into discovering the structure and function of the human brain.

More than 1500 schoolchildren visited the exposition in the morning and an equal amount of adults was present during the evening session. The activities were run with dedication, teamwork and passion by a team of forty medical students of our university.

First Prize Pancyprian Educational Robotic Olympiad

The Department of Computer Science & Engineering of European University Cyprus won First place for the second consecutive year in the 4th Pancyprian Educational Robotic Olympiad. The university’s team won the University Students category for the implementation of a robotic system on Bowling Simulation. The European University Cyprus winning team represented Cyprus in the World Educational Robotics Olympiad in December 2016 in India, securing the 20th position among 52 universities that attended the event.

‘Motion Vibes’ an Innovative Education Project

An outstanding innovative program for hearing impaired students takes place only at European University Cyprus. “Motion Vibes” is a unique innovative project – the only one of its kind – through which hearing impaired students can add sound to the moving image.

The project was developed and implemented by Ms. Demetra Englezou, 3D Design and Animation Instructor with students’ contribution, as part of the activities of the Cultural Studies and Contemporary Arts Laboratory. The “Motion Vibes” is based entirely on the relationship between kinesiology and sound using vibrations. The students, using apps (applications) with a vibration output depending on the ripples of the music, can “feel” the sound and synchronize it to the moving image. The “Motion Vibes”: An Educational Project, was presented at the Conference Motion Design Education Summit in Dublin, December 2016.
A vibrant student life with many ways to get involved
Student Life and Services

Student life is an important aspect of university education as it can offer a unique opportunity to develop leadership and communication skills. Campus life at European University Cyprus focuses on the intellectual, occupational, social and cultural growth and nurturing of students. Students are encouraged to become involved with one or more clubs and student organizations. Extra curricular activities ranging from Legal Rhetoric Speech Contests, Cultural Nights, Meditation, BBQs, Parties, Excursions and Festivals, complement an active campus life and offer ample opportunity for fun and memories.

- Airport pick-up services
- Orientation program for new students
- Welcome back party
- International Student Advisors for continued support
- Continuous self development programs
- Student clubs and associations
- Cultural activities, bazaars, exhibitions, excursions and festivals
- Indoor athletic center
- Fitness center
- Athletic teams participate in various championships
- Music Band, music events and concerts

Fitness Center

The New Life Fitness Center is located only 5 minutes from the university campus and accommodations units. Our students exercise and enjoy themselves at the New Life Health Center multi-venue, which offers the most comprehensive fitness and health facilities services in the area.

- Indoor heated 21x10m swimming pool
- Aqua Aerobics and freestyle swimming programs
- Ultra-modern gym
- Individual and group fitness programs
- Pilates Studio, Aerial Yoga and static bicycles
- Unique Performance Service to improve athletic performance
- Body Combat, CXWORX, Body Balance team programs
- Aesthetics Centre and Clinical Nutrition Services
- Supervision by highly trained fitness instructors

‘The moment I started my MBA at European University Cyprus, I was immersed in specialized business knowledge. From leadership seminars and courses taught by highly experienced professionals to spirited conversations with peers, the European University Cyprus MBA program develops the students’ leadership abilities and provides students with a strong business insight, valuable tools for my future career advancement and development.’

Elena Maslennikova
Major: Marketing and Social Media
From: Russian Federation
‘I have been studying at European University Cyprus for the last four years, and I’m very happy with my decision. There are a lot of things I like here. First of all, the professors are highly qualified and they are always there for me to help with any problem. Every student has an advisor, who advises you on any matter concerning courses and student life. The classrooms and laboratories are modern and well-equipped. There are also different student clubs depending on each person’s interests such as the art and photography club. In the spacious cafeteria you can have a delicious lunch or just spend free time with your friends. The university is located in a convenient area of Nicosia, so everything that you could need is nearby. My student card allows me to get a discount in some shops, even out of Cyprus. I love Cyprus and studying here is a pleasure!’

Richard Saad
Major: Medicine
From: France
‘European University Cyprus offers a rich education that goes beyond the lecture halls and the laboratories. The School of Medicine is a very international environment, my fellow students are from a broad range of countries. We are very close, organised and very committed as a group. We’ve just held our Annual Medical Students Meeting which was a great opportunity to discuss many important issues that are of concern for us now, in the present, and for our future. There is great support from the University, a great spirit among the students and a continuous flow of renowned, academics, scientists and professionals.’
Schools and Programs of Study
The School of Business Administration is the oldest School at European University Cyprus. Today, graduates of the School hold managerial positions in both the public and private sectors. It is the first school to establish the Start-Up Academy through Microsoft Innovation Center to promote innovation and start-up projects.

The development of the School’s programs of study has been consistent with the emergence of Cyprus as a center for services, which made managers trained in Management, Marketing and Hotel Management highly sought after. The School’s programs have been drawn up in parallel to the development of Economics both in Cyprus and internationally, in order to always meet the needs and demands of contemporary economy and society. The faculty’s high scientific stature reflects the quality of studies and rightly preserves the School of Business Administration of European University Cyprus in the international spotlight.

Graduates with a degree in Accounting may be exempted from 9 out of 14 courses of the ACCA (Association of Certified Chartered Accountants) and 12 out of 15 courses of the ICAEW (Institute of Chartered Accountants in England and Wales).

The Business Studies program encompasses a wide range of subjects, enabling students to design a flexible program of study with up to three areas of concentration. The degree provides students with practical business skills in accounting, finance, human resource management, strategy, change-management, and quantitative and qualitative tools of analysis, as well as offering insight into different business sectors.

The Master of Business Administration offers a rigorous training across the field of management, including strategy, marketing, information management, leadership, team-building, innovation, human resources, finance, and change management. The program equips graduates to successfully perform in senior management positions and strengthens qualitative and quantitative analytical skills.
The School consists of the Department of Arts, Department of Education, Department of Humanities and Department of Social and Behavioral Sciences.

The Department of Arts offers a notable Music program, its faculty and students participating in the University’s Symphonic Band and/or Choir, well-liked contributors to Nicosia’s calendar of cultural events. Students may choose between Music Pedagogy or Music Performance courses, whilst Elective Courses span a wide range of topics, including jazz.

The International Motion Festival Cyprus organised by the School of Arts and Education Sciences received the EFFE Label for the second consecutive year. Following a thorough assessment process conducted by the relevant national authority of each country and then by the International Festival Jury, 761 festivals from 31 countries now belong in the first generation of festivals honored with the EFFE Label 2015-2016.

Graphic Arts teachers infuse their teaching methods with imagination, creativity and originality, training students to work with images and texts in graphic design companies, publishing houses or advertising firms. In a growing industry that involves a variety of different types of images for newspapers, periodicals or the TV, skilled graphic designers are highly sought after either as employees or self-employed professionals.

The Department of Arts has developed an innovative educational program, the Motion Vibes, which helps hearing impaired students to understand the emotional value of music. Motion vibes is based entirely on the relation between kinesiology and sound using vibrations which enables students to add sound in their animation graphics using images. The 3D and Animation instructor Ms Demetra Englezou who developed this project, presented it at the Motion Design Education Summit in Dublin.

Graduates of the English Literature and Linguistics program are qualified to seek employment in either public or private educational institutes as Teachers of English Language and Literature.

Scholars of the Psychology program cover a wide span of fields relevant to psychology, such as developmental difficulties, psychopathology, learning difficulties, counselling etc.
The scientific and teaching personnel of this particular discipline, just as that of the entire School, maintains active participation in research pertaining to the field’s requirements and objectives.

Furthermore KEPSYPA was established to provide psychological services (Prevention-Assessment-Therapy) to the community of European University Cyprus. The Center offers professional psychological services to all students and staff, free of charge. The School also hosts the Center for the Study of Childhood and Adolescence and the Euro-Mediterranean Research Center.

The Department of Education has seen a growing demand for Bachelor Degrees in Primary Education and Early Childhood Education, as well as for postgraduate programs in Special (Inclusive) Education and Education Leadership. The Department's increased popularity is owed mostly to the high-level of teaching in combination with significant research work performed by the Department’s scientific personnel. Equally indicative of the high level of studies is the requirement for practical training.

The Department has been the first to introduce a doctoral degree in Education Sciences, with a focus on Special (Inclusive) Education or Education Leadership.

**PROGRAMS OF STUDY**

**Bachelor Degrees (4 years)**
- English Language & Literature
- Early Childhood Education
- Graphic Design
- Mass Media and Communication
- Music
- Primary Education
- Psychology
- Public Administration and Governance

**Master Degrees (18 Months)**
- Career Guidance and Counseling
- Early Childhood Education
- Education Leadership
- Music Education
- Psychology (2 years)
  - Clinical Psychology
- Special (Inclusive) Education
- Technologies of Learning & Communication
- Visual Arts in Education

**Doctorate Degrees**
- Education Sciences
- Music Education
- Psychology
European University Cyprus boasts the most fully-fledged Departments of Health and Life Sciences in Cyprus, including programs in Pharmacy, Radiodiagnosics-Radiotherapy, Sports Science and Physical Education, Biological Sciences, Nutrition and Dietetics, Occupational Therapy, Nursing and Physiotherapy.

The parallel operation of the School of Medicine at the University provides extra impetus to the Pharmacy program in terms of infrastructure and lab equipment, academic personnel, interdisciplinary support, knowhow, research, prestige and recognition.

The Nursing degree (BSc in General Nursing) has been recognized by the European Commission as an approved European program according to the EU Directive on the “Recognition of Professional Qualifications”, which allows qualified nurses to carry out their profession in all EU countries.

Students pursuing “Speech and Language Therapy” are trained at the University’s Speech, Language and Hearing Clinic under the direct supervision of experienced Speech Pathologists. The School of Sciences of European University Cyprus is the only School in Cyprus running its own Clinic.
The School of Law

The School of Law at European University Cyprus is the first and to this day the only fully-fledged Law School in Cyprus, accredited by The Cyprus Agency of Quality Assurance and Accreditation (Di.P.A.E.) and the Ministry of Education and Culture of the Republic of Cyprus.

The School’s Law Degrees are officially recognized by the Law Office of the Republic with the accreditation officially posted on the website of the Law Office of the Republic of Cyprus. Having amassed the required credit units for obtaining a degree, graduates of the Faculty of Law may submit their degree to the Law Office of the Republic and register as trainee lawyers with the Cyprus Bar Association.

The Department of Law is recognised - by a decision of DOATAP, the Hellenic National Academic Recognition Information Centre - as equivalent and corresponding to the Law Schools of Greek Universities and its degrees carry the full academic and professional rights as those of the degrees of Greek universities. Following approval of the equivalence by DOATAP, holders of a degree from the Department of Law of European University Cyprus may submit an application to the Trainee Register of the Greek Bar Association to be considered by the Assessment Committee (pursuant to Article 15 of L. 4254/2014).

Students of the Law department participate in Erasmus which refers to the mobility of students in universities of the EU member countries. The Law department has signed Erasmus mobility agreements with the National and Kapodistrian University of Athens, the Democritus University of Thrace, the Aristotle University of Thessaloniki and the Panteion University.

European University Cyprus has signed a memorandum of cooperation with the Law School of the University of Athens, Democritus University of Thrace, the European Public Law Organization and the Institute for Constitutional Studies of the University of Athens.

As an indication of the School of Law’s widening regional reach and its growing prestige Greek President Prokopis Pavlopoulos in his official visit to Cyprus in March 2015 was awarded an honorary degree by European University Cyprus. President Pavlopoulos in his previous capacity as Professor of Law at the University of Athens had taught and participated in workshops and seminars organised by the School of Law of European University Cyprus.

**PROGRAMS OF STUDY**

**Bachelor Degrees (4 years)**
- Law (L.L.B.)
- Law - Cyprus Law (L.L.B.)
- Law - Greek Law (L.L.B.)

**Master Degree (18 Months, LLM)**
- Law
  - International Commercial Law
  - Public Law

**Doctorate Degree**
- Law
The School of Medicine

The establishment of the School of Medicine at European University Cyprus has been pivotal to the institution’s aims to be part of the country’s aspiration as a regional medical center.

Founded in collaboration with distinguished scholars from Cyprus and abroad the organization of the School of Medicine is based on EU directives and international health standards. It is accredited by The Cyprus Agency of Quality Assurance and Accreditation (DI.P.A.E.), approved by the Hellenic National Academic Recognition Information Center and listed in the International Medical Directory of FAIMER (Foundation for Advancement of International Medical Education and Research).

The School of Medicine serves as the regional ‘educational medical-platform’, providing high-caliber education in medicine and healthcare, targeting not only residents of Cyprus, but also international medical student candidates from Europe, Asia, the Americas, Africa and the Middle East.

European University Cyprus educational model aims at making future graduates able to function anywhere within the EU and other international health care systems.

Doctor of Medicine Program

The medical graduate will be equipped with all the traditional traits and contemporary knowledge and advanced skills that rightfully come with the acquisition of a prestigious medical qualification conferred by an accredited EU university such as European University Cyprus.

The School of Medicine at European University Cyprus has an integrated system-based curriculum and employs a variety of approaches to its teaching-learning methods. These include lectures, problem-based learning, task-based learning, practical classes, independent learning, clinical skills sessions, virtual learning and clinical training with patient contact at public and private hospitals in Cyprus.

- Doctor of Medicine, MD (6 years)
- Dental Surgery, BDS (5 years)

- Listed in the International Medical Directory of FAIMER (Foundation for Advancement of International Medical Education and Research)
- Nobel Laureates, Biochemist Tomas Lindahl (Chemistry 2015) and Biochemist Robert Huber (Chemistry 1988) are among the Professors of the School of Medicine
- Nobel Laureate (Chemistry 2009), Biochemist Ada Yonath is an Honorary Professor of the School of Medicine
The School of Medicine is a dynamic learning environment, which enables students to develop the necessary skills and attributes required to practice medicine. The curriculum is skilled-based but students are exposed to clinical work and clinical relevance starting from the first year of study. This hands-on, practical approach is maintained throughout the six years of the course of study.

Teaching is conducted in English, with a minimum work load of 360 ECTS of the education and training required to complete the Bachelor of Medicine Degree over six years. No ‘premedical’ coursework is required as the program of study provides an all-inclusive, full basic sciences thematic unit.

The training of the students is oriented to the preparation of up-to-date, competent, ethical and fully adaptable medical doctors with the resourcefulness necessary to face inevitable changes in the field that develop over time. It will focus on its students’ acquisition of the most efficient clinical skills and on the implementation of professional ethics in the field of medicine.

Students also have access to private and state-run hospitals throughout Cyprus and particularly the Larnaca General Hospital which serves as European University Cyprus’ Hospital.

Dentistry Program

Dentistry is a five-year program, leading to the Bachelor of Dental Surgery (BDS). Students are taught in state-of-the-art facilities equipped with the latest technology used in dental education. Teaching is conducted in English, with a minimum workload of 5,000 hours of theoretical and practical training, equivalent to 300 ECTS.

Our faculty is a dedicated team of high-caliber dental practitioners who share a common goal of graduating first-class dentists able to function anywhere within the EU and other international health care standards.

We believe in early clinical exposure and our privately owned dental clinic will give you the opportunity for patient interaction and clinical training as early as the first year of study.

The Dental Surgery program is based on the existing programs of European and North American dental schools with particular consideration on the “2009 Update of the Profile and Competences for the Graduating European Dentist”, which was approved by the Association of Dental Education in Europe (ADEE) on 28.08.2009.

The curriculum and training will provide graduates with a recognised qualification necessary for the practice of Dentistry as a general dental practitioner according to the EU-Directives 2005/36 and amendment 2013/55/EU.
The Distance Learning Unit

The Unit was established in 2013 and has grown rapidly, offering easy access to education opportunities to a wide number of students or professionals who are not able to attend a face-to-face program/course, due to geographical, professional, family or other constraints. By responding to a growing social need for learning through alternative education programs, the Distance Education Unit helps promote equal opportunity in education. It counts students from numerous countries such as Austria, France, Germany, Greece, Luxembourg, Poland, Sweden, Russia, the UAE, the UK and the USA as well as many students from Cyprus.

In collaboration with the University’s Schools, the Distance Education Unit offers Bachelor and Master Degrees, in various disciplines, such as Education, Music Education, Psychology, Public Health, Public Administration, Counselling, Business Administration, Marketing Communication and Social Media, Information Systems and English Language and Literature. These programs are offered in Greek and/or English.

All the distance learning programs are fully accredited in Cyprus by the Ministry of Education and Culture and in Greece by the Hellenic NARIC.

**PROGRAMS OF STUDY**

**Bachelor Degrees (4 years)**
- Business Studies
- English Language and Literature
- Marketing Communications and Social Media
- Psychology

**Master Degrees (18 Months)**
- Business Administration (MBA)
- Career Guidance and Counseling
- Early Childhood Education
- Education Leadership
- English Language and Literature
- Information Systems
- Music Education
- Public Administration
- Public Health
- Special (Inclusive) Education
- Technologies of Learning and Communication

They are taught by the highly qualified faculty of the European University Cyprus and external associates, specialists in their respective fields, with experience in Distance Education and using the most advanced Information and Communication technologies currently available.
Pedagogical Model
The Distance Education Unit of European University Cyprus is determined, from a pedagogical perspective, by a concrete model. Our main inspiration for the design and development of this model has been the Open University of Catalonia, the first 100% online university in the world, with which the Distance Education Unit of the EUC is constantly collaborating not only in research, but also at teaching level. Of course our pedagogical model is adapted to the needs, special characteristics and legislation of the Hellenic region (Greece and Cyprus), where distance education is still always accompanied with face-to-face meetings between the tutors and the students, as well as with the existence of an obligatory (written) final examination. In this context, European University Cyprus has taken into consideration the fundamental functioning principles of the Hellenic Open University and the Open University of Cyprus, with which it collaborates in issues that concern the learning materials that will be used by the University’s distance learning students, as well as the creation and offer of Joint Degrees.

Educational process
- Use of modern technologies, programs and applications for the educational process.
- Availability of the appropriate teaching resources, tailored to the particularities of distance learning.
- Learning activities throughout the four-month period with the aim of developing the expected student skills (50% of the final grade in each course).
- Final written examinations (50% of the final grade in each course).
- Various ways of modern (teleconferencing, chat, etc.) or asynchronous (email, forums, etc.) communication.

Infrastructure and Support
- Experienced and trained teaching staff.
- Comprehensive and up-to-date sources / educational material.
- Modern e-learning platform Blackboard.
- Modern web-conference tools and online collaboration.
- Access to the University Library services.
- 24-hour online student service support for technical issues.
- Academic consultant for student mentoring.
A small country... 
a strategic location... 
a wealth of resources... 
a heart of gold
Cyprus: Ideal location for studying

- 1st safest small country in the world
- 2nd best climate worldwide with 340 days of shine every year
- 5th best relocation destination in the world
- The most blue flag beaches per coastline
- 12,000 years of history through museums, archeological and religious sites
- Highest tertiary education percentage in the EU (54.6%)
- A rising power in international education (students from 50+ different countries study in Cyprus)
- Popular tourist attraction for European & Scandinavians (3,000,000 millions tourists every year)
- 80% of the population is bilingual (Greek & English)
Programs of Study

### THE SCHOOL OF BUSINESS ADMINISTRATION

**Bachelor Degrees (4 years)**
- Accounting
- Business Economics
- Business Studies
- Hotel, Tourism & Event Management
- Marketing Communications & Social Media

**Master Degrees (18 Months)**
- Business Administration (MBA)
- Shipping and Maritime Studies

**Doctorate Degree**
- Business Administration

Το Ευρωπαϊκό Πανεπιστήμιο Κύπρου αποτελεί την κορυφαία επιλογή για χιλιάδες νέους από την Κύπρο, την Ελλάδα και την Ευρώπη. Δομημένο με βάση τα Ευρωπαϊκά και Αμερικανικά πρότυπα, το Ευρωπαϊκό Πανεπιστήμιο Κύπρου δημιουργεί τις κατάλληλες προϋποθέσεις μιας πολυδιάστατης εκπαίδευσης και μιας ολοκληρωμένης παιδείας, εξασφαλίζοντας την καταξίωση των φοιτητών του σε προσωπικό και επαγγελματικό επίπεδο. Προσφέρει πλήρως αναγνωρισμένα προγράμματα Πτυχιακού (Bachelor Degree), Μεταπτυχιακού (Master Degree) και Διδακτορικού (Ph.D) επιπέδου.

Η νέα πανεπιστημιούπολη μπορεί να δεχθεί μέχρι και 7,000 φοιτητές και αποτελείται από υπερσύγχρονες εγκαταστάσεις, άρτια εξοπλισμένα εργαστήρια, αμφιθεατρικές αίθουσες διδασκαλίας, ιδιόκτητα φοιτητικά διαμερίσματα και χώρους ψυχαγωγίας. Το Ευρωπαϊκό Πανεπιστήμιο Κύπρου βρίσκεται στη Λευκωσία, την πρωτεύουσα της Κύπρου. Η Λευκωσία είναι η μεγαλύτερη πόλη του νησιού και θεωρείται κέντρο οικονομικής και πολιτιστικής δραστηριότητας.

Σχολές και Τμήματα

Στο Ευρωπαϊκό Πανεπιστήμιο Κύπρου λειτουργούν 6 Σχολές με 9 τμήματα, από τις οποίες προσφέρονται Πτυχιακά (Bachelor Degree), Μεταπτυχιακά (Master Degree) και Διδακτορικά (Ph.D) προγράμματα σπουδών, που διδάσκονται εξ ολοκλήρου στην αγγλική, ή στην ελληνική γλώσσα. Στο Πανεπιστήμιο λειτουργεί Μονάδα Εξ Αποστάσεως Εκπαίδευσης.

Σχολή Διοίκησης Επιχειρήσεων
- Τμήμα Λογιστικής, Οικονομικών και Χρηματοοικονομικών
- Τμήμα Διοίκησης και Μάρκετινγκ

Σχολή Ανθρωπιστικών και Κοινωνικών Επιστημών
- Τμήμα Ανθρωπιστικών Επιστημών
- Τμήμα Κοινωνικών Επιστημών και Επιστημών Συμπεριφοράς

Σχολή Θετικών Επιστημών
- Τμήμα Πληροφορικής και Μηχανολογίας
- Τμήμα Επιστημών Υγείας
- Τμήμα Επιστημών Ζωής

Σχολή Τεχνών και Επιστημών της Αγωγής
