2019–2020

ulster.ac.uk/global

The background of the slide is a composite image. The top half shows a close-up of a person's face, with their eyes closed, overlaid with a blue tint. The bottom half shows a vibrant, high-angle night view of a city, likely Belfast, with numerous lights from buildings and streets.

Ready for UU

Introduction

Welcome to Ulster University. This guide offers you a flavour of life at Ulster University; the unique student experience, the outstanding facilities on our campuses across Northern Ireland and the stimulating learning environment where you can pursue your ambitions.

At Ulster, our students are at the heart of everything that we do as we work to provide you with the most rewarding student experience and education possible.

We are committed to providing an educational experience that helps you to develop skills, raises your ambitions and prepares you to be a future leader in your chosen field, transforming lives both locally and globally.

Our teaching is underpinned by world-leading research that has global significance and meaningful impact. This means your learning will be influenced by experts who are making pioneering breakthroughs and shaping our understanding of their subject and your area of study.

Ranked number 1 in the UK in the International Student Barometer and as one of the top 200 most outward-looking institutions in the world by Times Higher Education, we have a richly diverse, multicultural community of learners. We promote a strong, internationally relevant curriculum across our broad range of undergraduate and postgraduate courses.

What sets us apart is how we prepare you for your future career. We work with business and industry to make sure that our courses meet their needs, and all of our students have the opportunity to undertake work experience. Our dedication to developing highly employable graduates is reflected in Ulster being one of the UK's top ten entrepreneurial universities.

Northern Ireland is renowned for its friendliness and warm welcome. Our vibrant cities, unspoilt countryside, efficient public transport and minimal congestion ensure a quality of life unsurpassed by few.

We recognise that relocating and, in many instances, living away from family and friends for the first time can be a daunting experience – it is also an exciting one. Our international team is dedicated to ensuring your transition from home to studying with us is as smooth as possible.

By joining Ulster University, you will join a vibrant student community where there are new friendships to be made, ideas to be shared, thinking to be challenged and opportunities to be explored.

Whatever your aspirations, Ulster University can deliver the educational experience to help you achieve them.

I look forward to welcoming you.

Professor Paddy Nixon
Vice-Chancellor & President

We are Ulster University.

Great teaching

We strive to deliver an excellent student experience in every way. We are renowned for the quality of our teaching, which is enhanced by world-class research.

Teaching informed by research

Our teaching is inspired by our discoveries. In the 2014 Research Excellence Framework (REF) assessment, Ulster was named as one of the top universities in the UK for world-leading research and number one in Northern Ireland for research into biomedical sciences, law, business and management, architecture and built environment, art and design, social policy, sport, media studies and nursing.

Ulster welcome

The friendliness and support we offer ensures you will feel at home and make an easy transition to living in Northern Ireland and university life. Our campuses provide an inclusive learning environment, welcoming learners from over 100 countries.

Affordable education

Northern Ireland is one of the most affordable UK regions in which to live and study. In addition to low fees, our high-quality student accommodation is some of the best-priced in the UK.

Popularity

As an Ulster student, you will belong to one of the most popular universities in the UK and one of the largest on the island of Ireland. We were ranked 12th in The Sunday Times University Guide 2014 for the number of UCAS applications received, around 35,000 each year.

Providing top facilities

We invest significantly in our estate to ensure our campuses and facilities provide the best learning experience. Our £265 million Belfast campus redevelopment represents a new chapter for Ulster, providing a state-of-the-art teaching and learning facility and a first rate centre for research and innovation in the heart of Belfast city.

We Deliver Excellence.

Leading in sport

Ulster is a leading university for sport in Ireland and the UK. Across our campuses are opportunities to participate in a wide variety of individual and team sports for fun or at a more competitive level. Most sports are represented by one of our clubs and societies.

Career-focused

We are one of the top universities for providing a period of work placement. Our courses are developed with employer and professional body input, ensuring that you graduate 'work-ready' and with the skills and knowledge that employers need.

Social responsibility

We recognise the impact the University has on the environment and strive to reduce our footprint. We received a first class award in the People and Planet Green League (2013) for our actions and attitudes towards green living. We invest in companies whose activities are consistent with our vision and values. Fairtrade produce is widely available across our campuses.

The lecturers at Ulster University are among the best in the world. Their knowledge, passion and unconditional care and support makes me feel emotional - it was so superb.

The whole experience of Ulster and the warmth, generosity and hospitality Northern Irish people have made a lasting impression on my life.

Teaching Inspired by Pioneering Research

Thanks to the modern laboratory, I can perform amazing research that will broaden my knowledge and give me an amazing experience for the future. Thanks to these facilities it is easier for me to acquire knowledge and understand many phenomena.

Paula Smyczek, Poland
FireSERT (Safety, Engineering,
Research & Technology Centre)

Excellence in teaching, underpinned by world leading research, is the foundation upon which every quality university is built.

Ulster University has an outstanding reputation for teaching and a strong track record in research and innovation, addressing real-world issues of both local and global relevance. Ulster is renowned and respected for its world-leading research, as demonstrated in the 2014 Research Excellence Framework (REF).

As an Ulster student, you benefit first hand from our discoveries and advances, working with leading academics to develop the knowledge and skills to transform our economy and society. Each year we spend over £42 million on research. We continue to develop and invest in our capabilities to ensure we stay at the forefront of innovation.

ulster.ac.uk/research

Your Learning Experience

Studying at university is not the same as studying at school. The main difference is that you are expected to study independently – to organise your time to study effectively by deciding which materials to study and how. You will be required to read about your subject (reading lists are generally provided, particularly in the first year), prepare for seminars and complete assignments. You will have a studies adviser to support you, but remember to keep staff informed if you are having any difficulties.

Academic year

The academic year is divided into two semesters for most students (some students, e.g. nursing, have a longer academic year). The first semester runs from September until mid-January and the second from late January to May.

Each semester comprises 12 weeks of teaching followed by an exam period. Full-time students will typically study three modules in each semester (18 modules of study make up a standard three-year degree programme). Most modules are assessed through coursework and/or exams. The first semester exams are in early January and the second semester exams are in May.

Lectures, seminars and tutorials

Teaching is delivered through lectures, seminars and tutorials, and sometimes practicals and fieldwork. Lectures are formal teaching sessions, often with a larger group of students. Seminars, which usually provide a form of follow-up to lectures, take place in smaller groups and are often used to promote group discussion about a specific topic. In tutorials, a small number of students meet with a tutor to discuss work and to raise points of particular interest or difficulty.

Work placement or study abroad

You may have the opportunity to go on work experience or study abroad during your third year. For some medical-related courses, you will be required to undertake block work placements throughout the course.

Investing in Your Future Career

Our learning experience is career-focused and relevant, offering a range of opportunities to enhance your CV and stand out to potential employers. This ensures that you graduate with the knowledge, skills and confidence to make your mark in a competitive job market.

Career planning

Our Career Development Centre team offers friendly and impartial advice to help you plan your career and provides a range of opportunities designed to enhance your employability. You will have access to job vacancies, placement opportunities and vacation or part-time work. We also organise regular fairs and forums where you can meet employers and professional bodies.

Professional accreditation

Most of our degree programmes are developed in collaboration with industry and professional bodies. Many also offer an additional professional qualification or accreditation, something you will find invaluable once you graduate.

Work experience

At Ulster, most full-time undergraduate and integrated Master's degrees include a period of work-based learning. You also have the opportunity to build your international profile through work experience abroad.

If you successfully complete a placement year in employment, you could be awarded a Diploma in Professional Practice (DPP) or a Diploma in Professional Practice - International (DPPI) if your employment is overseas. Alternatively, you could be awarded the Diploma in International Academic Studies (DIAS) if you complete a placement year studying abroad.

Giving you the EDGE

Employers are placing more emphasis on recruiting graduates who not only have a degree, but who are also equipped with key transferable skills. The Ulster EDGE Award provides official recognition for activities undertaken outside of your studies. It is awarded in addition to your degree and gives you the opportunity to engage in a wide range of activities that will boost your career prospects and show commitment to your personal development.

Higher Education Achievement Report

The University provides a Higher Education Achievement Report (HEAR) to all full-time students upon graduation. It is a detailed record of your academic and extra-curricular achievements to supplement your degree. The HEAR allows you to showcase your achievements to employers and postgraduate tutors; hear.ac.uk

A Taste of Northern Ireland.

Welcome to Northern Ireland

No matter where in the world you are from, studying in Northern Ireland will be an unforgettable experience.

International students love our location because it is so convenient to the rest of the UK and Europe.

Belfast is less than one hour from London by air and there are almost 30 daily flights to choose from.

International students also enjoy our green landscape and dramatic coastlines – not to mention our cultural and historic-rich cities.

Belfast is the Most Affordable City in the UK*

Happiest people in the UK*

Lonely Planet's Top Region to visit in 2018

*Office of National Statistics, 2017

Live & Learn in Northern Ireland

Live. Learn.

In association with

 discovernorthernireland.com

Unmissable music

Love Music? Then check out a scene that is vibrant, exciting and cutting edge. Traditional sessions in local pubs, global superstars in concert, the next big thing in a local rock venue or great festivals in wonderful settings – you'll see it all in Northern Ireland. Unearth the rich musical heritage that attracted MTV to stage the EMA here or take a musical bus tour of Belfast and see the city that influenced Van Morrison, Snow Patrol, Ruby Murray and many more.

Fabulous food

Northern Ireland is a great destination for lovers of good food and drink. From seafront restaurants along the Causeway Coastal Route to seafood bars at the foot of the Mourne Mountains, contemporary city restaurants, and hearty pub grub in beautiful rural spots. The quality and authenticity of our local produce is undeniable too, with a number of recent worldwide accolades.

Pubs and clubs

Whichever Ulster campus you choose, you will never be far away from renowned pubs and clubs. Some of the most well-known student venues include the Anchor bar in Portstewart, Sugar nightclub in Derry~Londonderry, and The Duke of York and The Spaniard in Belfast – a pub enjoyed by the cast of Game of Thrones.

The big event

Famous annual events to look out for include St. Patrick's Day (celebrated in cities and towns throughout Northern Ireland), the Cathedral Quarter Arts Festival (Belfast), North West 200 (Portrush/Causeway Coast) and the Banks of the Foyle Halloween Carnival (Derry~Londonderry).

Literature and theatre

Northern Ireland is home to Nobel Laureates and award-winning playwrights. Tour Heaney country in Magherafelt and gain an insight into the landscape that inspired world-famous poet Seamus Heaney. Enjoy a new play by local writers including Marie Jones and Owen McCafferty, classic works from internationally acclaimed Brian Friel, or touring productions at world class theatre venues. Maybe even take in one of our excellent literary festivals or summer schools.

The legend of Titanic

Only in Belfast can you follow Titanic's remarkable journey from the drawing board to the slipways, or stand on the vast floor of the dock where she was fitted out – her last footprint on land.

An adventure playground

Paddle along canoe trails, surf or body board on waves coming from the roaring North Atlantic or head to the Mourne Mountains, where you can walk, climb or horse-ride. Fermanagh is perfect for cruising, canoeing and all things water-based. Multi-activity centres are a great way to pack in several activities in a day and try something new – caving, sailing, parachuting or white water kayaking. Less extreme, cycling is one of the best ways to take in idyllic areas such as the Sperrins, with off-road family routes to more challenging mountain bike trails.

Made for golf

Northern Ireland is made for golf and our home-grown talent in Darren Clarke, Graeme McDowell and Rory McIlroy – all of whom are honorary graduates of Ulster – is testament to this. Northern Ireland really is the playground of champions. Perfect your technique on the superb world-class links of Royal Portrush and Royal County Down or hone your skills on a diverse range of parkland and seaside courses. We have over 90 great courses to choose from.

The Giant's Causeway Visitor Centre and the Causeway Coastal Route

The Giant's Causeway is a spectacular natural attraction and Northern Ireland's only UNESCO World Heritage Site. Visit the world-class visitor centre. Are the basaltic columns the work of giant, Finn McCool or Mother Nature? You decide. Complete the experience by driving the Causeway Coastal Route, a road trip recognised as one of the top-5 drives in the world.

Students from across the world have chosen to study at Ulster University and gain a highly valued degree.

The Ulster experience offers you academic excellence and you will also be part of a friendly and welcoming university, committed to providing you with a quality student experience.

Modern facilities for sport, leisure and accommodation combine with our international reputation for excellence in teaching and research to make us a leading UK education provider.

Our international team will provide you with advice on our courses, assistance with your application and information about life at Ulster. They will also continue to support you during your time with us.

To ensure you feel right at home, you will have the opportunity to participate in a wide variety of events organised for international students across all campuses. You will also be encouraged to get to know other Ulster students through engagement with the Students' Union.

We have dedicated teaching staff who provide English language support programmes throughout the year.

Immigration advisers are available to provide visa and immigration advice. Our Student Support staff and the Students' Union are also on hand to help you settle into Ulster life.

Multi-campus. One Great Experience.

Ulster is one university with four distinct campuses across Northern Ireland – Belfast, Coleraine, Jordanstown and Magee. Courses are also delivered at our branch campuses in London and Birmingham.

While each campus differs in size and has its own distinctive atmosphere, wherever you choose to study, you will receive the same first class teaching and supportive learning environment, and experience the unique character that makes Ulster one of the most popular universities in the UK.

Belfast Campus Redevelopment

Ulster University is transforming the higher education landscape with the £265 million landmark development at the Belfast campus.

Located in the heart of the vibrant Cathedral Quarter, the visionary new campus is one of the largest higher education capital builds in Europe. It will provide a progressive learning, teaching and research environment supported by the best innovative technology, allowing us to nurture talent and innovation.

The new campus will transform the student experience as a centre of academic excellence. It will be publicly accessible and a valuable asset for Belfast as a city in which to live, work, study and do business.

Over the next few years, the 75,000m² campus will house up to 15,000 students and staff. By locating our bright, ambitious and creative students in the heart of Northern Ireland's capital, we will form a lively student community and promote a dynamic environment, which will stimulate and inspire.

Campus Life Belfast

Belfast's Cathedral Quarter is the artistic and cultural centre of the city and home to our Belfast campus. If you choose to study here in Northern Ireland's capital, you can take advantage of its wealth of culture and entertainment.

Ulster's art and design heritage dates to the establishment of the School of Art and Design in 1849. Although traditionally associated with art, the campus spans an increasing and exciting range of subjects including architecture, hospitality, Irish language, event management, photography and digital animation.

Facilities include purpose-built design spaces, studios for recording and editing live and off-air television, sound recording, mixing and animation, teaching and exhibition areas as well as a library. Our vibrant campus plays host to frequent fashion and art exhibitions and is an exciting place to study and work.

The Belfast campus is continuing to expand and develop as part of one of Northern Ireland's largest urban developments.

Campus Life Jordanstown

Our bustling Jordanstown campus is the largest of Ulster's campuses and is located just seven miles north of the city on Belfast Lough.

The campus has a strong profile in business, engineering, computing, social sciences, communication and academic disciplines relating to the science and coaching of sport. Sport plays a significant part in the life of the campus.

It is home to the Sports Institute of Northern Ireland (SINI), a partnership between the University and Sport Northern Ireland, and most of Northern Ireland's leading athletes train here at our impressive facilities.

Buildings are structured around a central 'mall' allowing students to walk from one end of the campus to the other without going outside. The mall area is home to banks, restaurants, coffee shops, sandwich bars, a supermarket, the Chaplains' Office and the Students' Union.

The main building is surrounded by lawns and trees and is just a few hundred metres from Loughshore Park. We also have a complex of student accommodation on campus for students choosing to live a little closer.

Campus Life Magee

The friendly village atmosphere of our Magee campus offers an intimate learning environment in the heart of Northern Ireland's second city, Derry~Londonderry. As part of the Magee community you will receive excellent support and enjoy a full social life.

Magee is synonymous with creativity; it is home to Ulster's School of Creative Arts and Technologies and creativity runs through every programme. Teaching strengths include business, creative arts, creative technologies, computing, engineering, nursing, Irish language and literature, social sciences, law, psychology and peace and conflict studies.

The beautiful, leafy campus comprises a mixture of historical and new buildings and is dominated by the main building – known by some students as 'Hogwarts' due to its impressive Gothic architecture. Magee College was opened in 1845 as a centre for arts and theology at the bequest of Martha Magee, the widow of a Presbyterian Minister. This magnificent building was opened in 1865 and remains the hub of the campus.

The famous walled city centre and the River Foyle are a short walk from the campus. Located in the North West of Northern Ireland and a short distance from County Donegal, Derry~Londonderry is ideally situated for exploring some of Ireland's most dramatic landscapes.

Campus Life Coleraine

The feeling of community at our Coleraine campus makes for a warm and welcoming student experience. The relaxed, outdoor atmosphere of the north coast is reflected in the feel of this thriving campus.

A wide range of subjects are available at Coleraine, which makes for an interesting mixture of students and staff. Subject areas include biomedical sciences, environmental science and geography, psychology, business, the humanities and languages, media and journalism, travel and tourism, teacher training and computing.

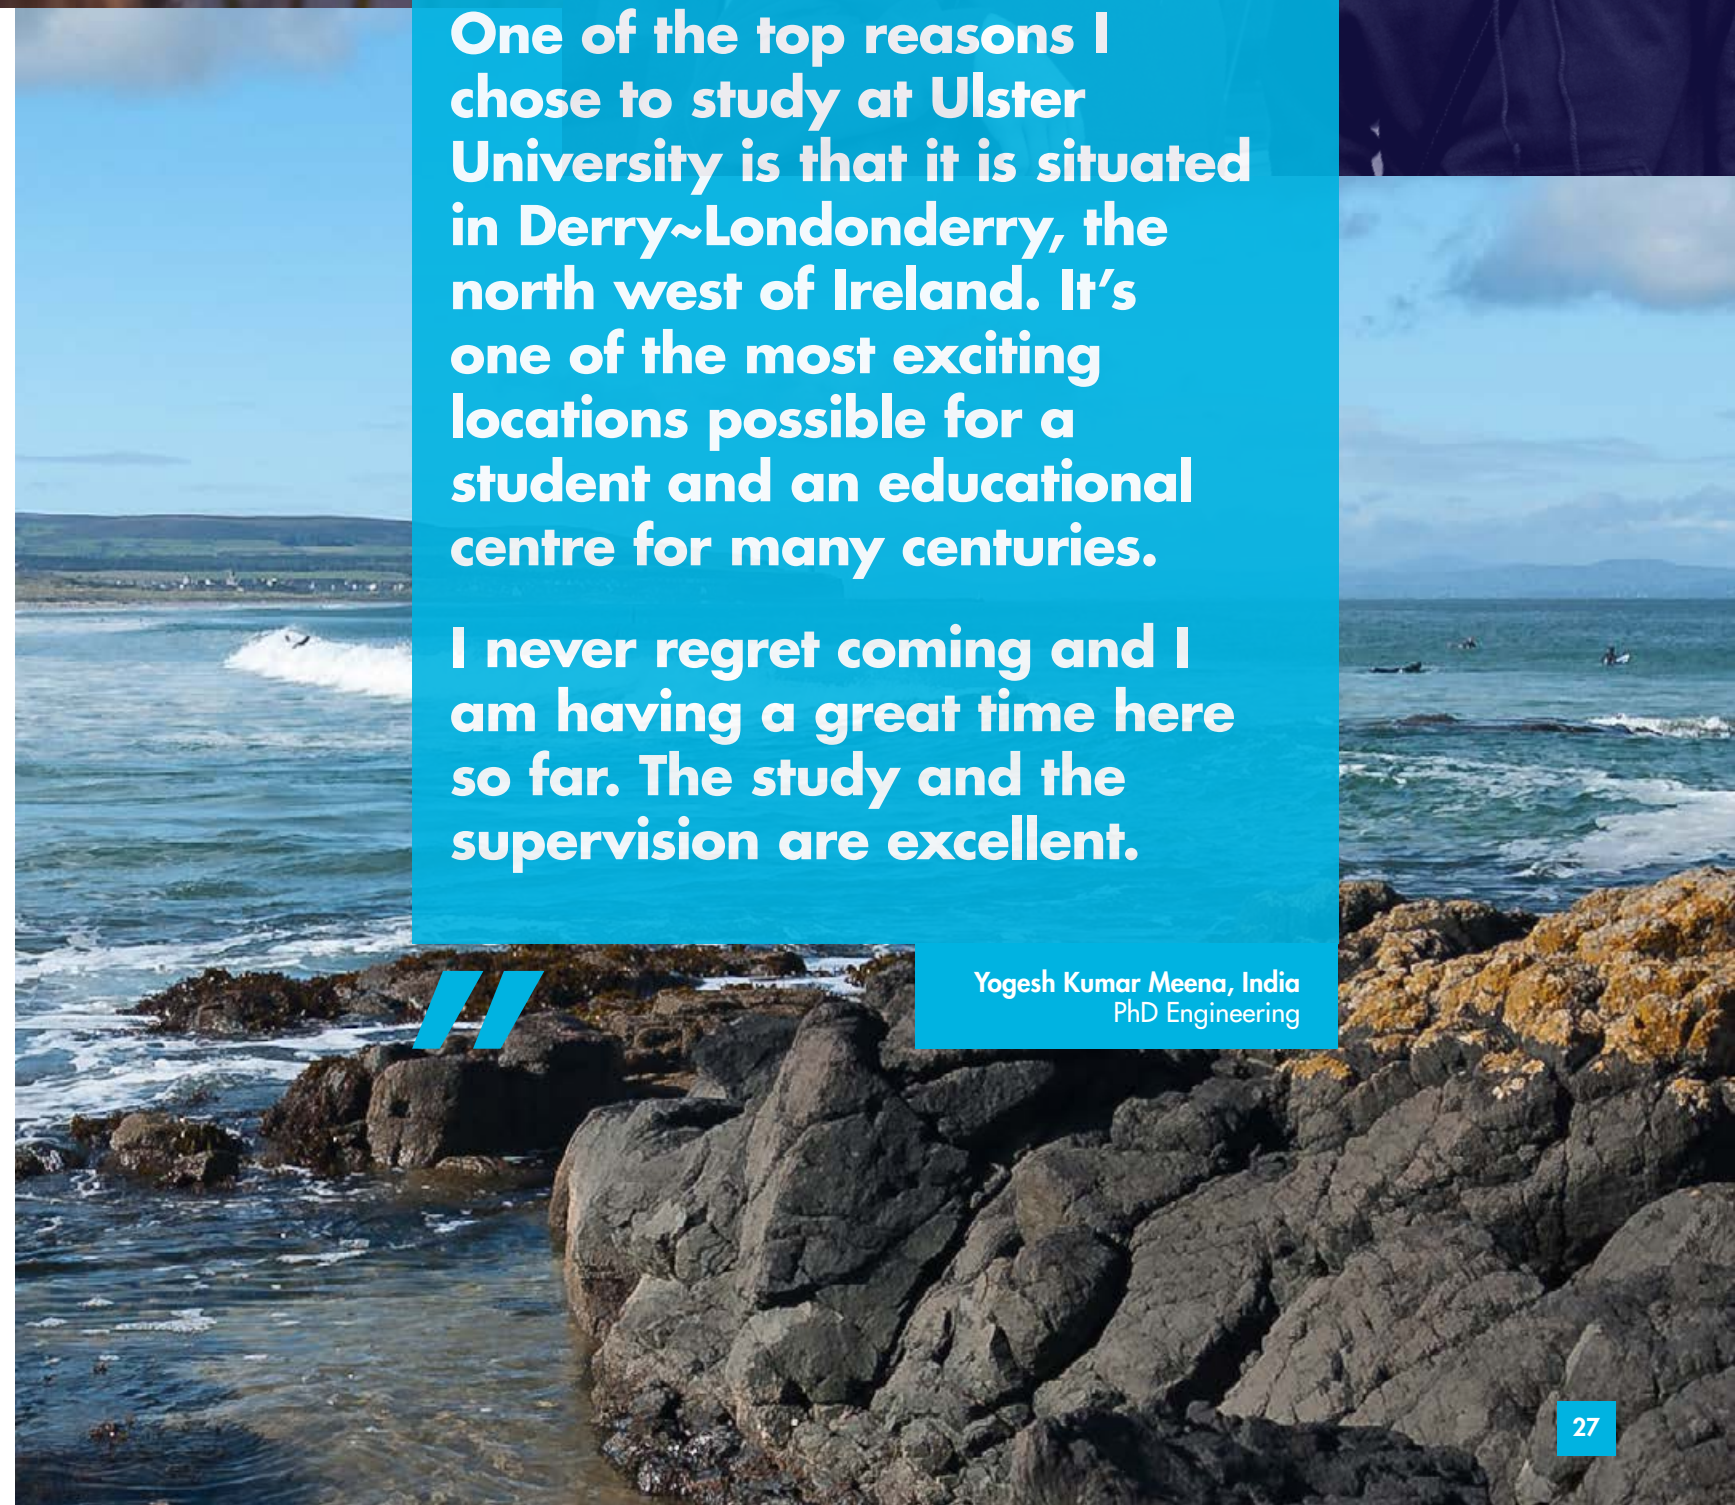

The campus sits on the banks of the River Bann, less than a mile from the town centre. Coleraine town is the largest and busiest on the Causeway coast. Together with the nearby seaside towns of Portrush and Portstewart and the Giant's Causeway World Heritage Site, this area is a major international tourist destination and has an excellent selection of bars, clubs and award-winning restaurants. For those interested in outdoor activities, the local beaches, coastline and hills provide great opportunities to get outside and explore.

One of the top reasons I chose to study at Ulster University is that it is situated in Derry~Londonderry, the north west of Ireland. It's one of the most exciting locations possible for a student and an educational centre for many centuries.

I never regret coming and I am having a great time here so far. The study and the supervision are excellent.

Yogesh Kumar Meena, India
PhD Engineering

London & Birmingham

Branch Campuses

Birmingham

With a student population of more than 65,000, Birmingham has an eclectic social scene, making it one of the best places to study in the UK.

Our Birmingham branch campus has a great location in the heart of the city centre, close to the recently refurbished New Street rail station. Excellent teaching facilities and faculty staff complement a cosy campus geared towards your learning and employability.

With more businesses moving to Birmingham than ever before, it is a truly exciting time to study here as you'll be in a city with one of the fastest growing entrepreneurial communities in the country.

London

London is a lively and cosmopolitan city with a diverse social scene, exciting nightlife, vibrant culture, fantastic shopping and a wealth of sightseeing opportunities.

Our branch campus is located in historic Holborn, in central London, with plenty of transport links offering convenient travel options to the campus.

Situated between the city's financial centre and the cultural district, access to London's resources could not be easier.

Our location means that you'll be perfectly placed to take advantage of all that London has to offer, from its thriving international community to the continually growing professional community.

Distance Learning

Ulster University's eLearning programme is well established and we offer one of the most comprehensive distance learning provisions in the UK across undergraduate, postgraduate and part-time courses.

More than 4,000 students from over 50 countries have successfully completed our distance learning programmes to date.

Our eLearning students are very much considered part of the Ulster University family and have access to the same facilities and services available to all students.

We constantly evolve our curricula in this area and introduce new courses, such as the first postgraduate degree in health psychology to be offered by distance learning of any university in the UK or Ireland.

At the start I was really worried being thousands of miles away from the university but the orientation made it really easy. The way that Ulster delivers distance learning really made me feel part of the classroom. The lecturers were really helpful and I have gained so much from my experience that is going to be really helpful in my professional career.

Arslan Khan, Kuwait
MSc International Business (eLearning)

Accommodation

To help you settle into university life, international students are guaranteed university accommodation if your application is submitted before the end of July. In fact, some of our students like our accommodation so much they live with us for their entire programme of study.

University-managed accommodation is reasonably priced, clean, comfortable and modern. We offer 2,400 places across, and in the vicinity of, our four campuses. There is also an exciting range of social events organised throughout the year to encourage students to get to know one another and develop a strong sense of community.

You can browse through the range of accommodation, take a virtual tour and see price lists on our accommodation website:

ulster.ac.uk/accommodation

Ulster University, Belfast

If you are studying at the Belfast campus you can apply to live in university accommodation at the Jordanstown campus. There are excellent rail, bus and taxi links between these campuses. Alternatively, you may consider private accommodation.

Ulster University, Jordanstown

Most of the accommodation in our on-campus student village comprises five-bedroom, en-suite apartments with high-speed broadband and WiFi connections with shared kitchen/dining facilities. If you require a bigger space you can rent self-contained apartments on-campus.

We provide adapted accessible accommodation for students with disabilities. There are a few houses and apartments available on-campus which have a shared bathroom facility and kitchen/living/dining areas between five or six residents.

Ulster University, Magee

We offer accommodation for over 630 students in our student village and our halls of residence, Coppin House, both less than five minutes' walk from the campus. All accommodation has access to high-speed broadband with WiFi throughout. There are self-contained units available for students who require additional space, privacy and independence. Adapted accessible accommodation is available for students with a disability.

Ulster University, Coleraine

Our student village offers fantastic on-campus accommodation. Most rooms have en-suite facilities and all have a broadband connection and access to the internet with WiFi throughout. There are some suites available for students with special or mobility needs. Students seeking more independence may choose to live in leased accommodation in the nearby seaside town of Portstewart. The University allocates and manages this accommodation.

Your Home. From Home.

With really good infrastructure, the accommodation in the University is a place that you can call home.

Living with your friends or new people from different parts of the world and at the same time really close to the main buildings where you study. It is a pleasant and unique experience.

Andressa Roeder, Brazil
BSc Food & Nutrition

Making the Most of it

CampusConnect.

CampusConnect app

We recognise that relocating to another country, away from family and friends can be a daunting experience but it is also an exciting one and that's where CampusConnect can help.

With CampusConnect you can start planning your university adventure before you arrive. It's all about giving you a head start, helping you navigate those first steps on campus.

With CampusConnect you can become part of the university network, and get access to all the best resources on orientation, getting around, important dates for your calendar, interactive maps, and more. You can make new friends, and get brilliant advice on university living from Ulster University students before you leave home.

CampusConnect is a native mobile app service that you can download as soon as you have received an offer from Ulster University.

It will help you prepare and plan for university through personalised content and information during your under-offer pre-registration phase.

You will have access to a network of fellow prospects, current students and nominated university staff.

A team of student ambassadors are in place to respond to your questions and provide you with insight and information in-app.

The best way to connect with other students and discover everything you need to know about Ulster University.

ulster.ac.uk/global/pre-arrival/campus-connect

We Support You.

We support you

The international team at Ulster is available to support you during each stage of your journey with us. From application through to graduation, our specialist staff are here to help.

Our services include providing support with your application, guidance on visa and immigration requirements, pre-arrival information, delivering a welcome programme designed specifically for international students and a range of social and cultural events throughout your time with us.

Further information on our services can be found opposite.

Immigration advice

Our Compliance Team offers free and confidential advice and assistance on visa and immigration requirements before and during your studies with us. Services include supporting you in your application for a Tier 4 student visa and extending your visa. For further details on support available please visit ulster.ac.uk/global/visa-immigration

Study abroad

Our Study Abroad Team supports international students who wish to spend part of their degree at Ulster University. We welcome students from a network of over 200 international institutions worldwide. International students can study with us for one or two semesters, or as part of your summer vacation. To find out more please visit ulster.ac.uk/global/study-abroad

Welcome Week

Welcome Week kicks off with a pick-up service for international students from local airports. Our Welcome Week provides an opportunity for you to get to know your campus, meet academic and support staff and other students. It includes a range of information sessions and social events designed to help you settle into university life and living in Northern Ireland. Further information can be found at ulster.ac.uk/global/pre-arrival

Find out more:

ulster.ac.uk/global

The international team at Ulster is one of the best I have ever seen. The office offers and provides me with support whenever I need it.

They supported me from arrival, settling, registering with medical practice, providing information about accommodation, supermarkets, places to see. I will definitely recommend this university to others!

Purna Prasad Sita, India
MSc Management

Students' Union and Sports

Get involved

Once you register to study at Ulster, you automatically become a member of the Students' Union (UUSU), one of the largest in Ireland. The Union looks after the interests of Ulster students and is represented on each of our four campuses. The Union is the focus of entertainment on each campus and organises social events, trips and activities to ensure you have an unforgettable experience at Ulster.

Student voice

The Union represents the student population on every university committee, ensuring the student voice is always heard – an important way for us to get feedback on our teaching and facilities.

UUSU
ULSTER UNIVERSITY
STUDENTS' UNION

Supporting you

The Students' Union is also an important part of our student support network. You can receive free, confidential advice and information on any issue or aspect of student life at Ulster. Site Vice-Presidents can advise you on issues such as study, accommodation, how to deal with stress or anything else that affects your ability to make the most of your international student experience.

Clubs and societies

Open to all Ulster students, clubs and societies are an integral part of the Students' Union. There is a wide range of activities to become involved with where you can meet new people, have fun and try something new, all at the same time. Clubs and societies are also a great way to get valuable experience and skills to enhance your CV. So whether you are interested in athletics, comic books, debating, politics or surfing (and everything in between), get involved.

Volunteer

The UUSU Volunteering Centre supports students who want to lend a helping hand, whether you are seeking to enhance your CV with valuable experience or just want to make new friends and have fun. You can also gain accreditation for your volunteering through the Ulster EDGE Award and Millennium Volunteers.

Top 10 Belfast.

01 Uncover the myths and legends surrounding The Titanic:

Titanic Belfast is the largest museum in the world dedicated to the infamous liner. Situated on the Harland and Wolff shipyard where the doomed vessel was built, the museum consists of nine interactive spaces and includes original Titanic artefacts and a replica of the ship.

02 Take a “paranormal” tour of the Crumlin Road Gaol:

Crumlin Road Gaol first opened its doors to Belfast’s mad, bad and dangerous in 1846 and served as a working prison until 1996. Daytime, evening, Victorian and even “paranormal” tours now take place at the gaol, which has seen 17 men executed during its 150-year working history.

03 Wander through the Botanic Gardens:

Established in 1828, the city’s Botanic Gardens are the perfect spot to get away from the hustle and bustle of city life. With a number of walking routes, a Palm House, tropical ravine and rose garden, this is the perfect spot to laze around in when the sun comes out.

04 Eat, drink and dance in the Cathedral Quarter:

Belfast is comprised of several “quarters” of which the Cathedral Quarter is probably the liveliest. It’s packed full of bars and some quality eating spots and on a weekend, the pubs are usually full by lunchtime, so you’ll need a strong constitution if you want to keep up with the locals.

05 Treat your taste buds and expand your culinary horizons:

One of the greatest adventures of studying abroad is exploring new food and flavours and there is nowhere better to treat your taste buds than St George’s Market, one of the best markets in the UK and Ireland. With 250 traders there’s something for everyone with arts and crafts, vintage artefacts, unique gifts and tasty food and beverages too. The market is open every weekend and hosts a range of events throughout the year.

06 Enjoy a gin in one of the mightiest Victorian gin palaces in Ireland:

Dating back to the 1880s, The Crown is a gem of the Victorian era. Formerly known as The Liquor Saloon in Great Victoria Street, Belfast this ageless and priceless pub was one of the mightiest Victorian gin palaces in the city, and still boasts many of its original features, including gas lighting.

07 Savour a Guinness:

Ireland is famous for its Guinness and all over the world people often speak wistfully of the increased quality of the black stuff once you hit the Emerald Isle – and it’s absolutely true. Ireland’s national drink is served pretty much everywhere and it’s a delight.

08 The Troubles:

You can’t escape the fact that Belfast is a divided city. There are peace walls and security gates dividing staunch Catholic and Protestant areas with political murals across the most loyally defended parts of the city. There is nothing quite like this anywhere else in Europe and taking a bus or walking tour to see and hear about the background to the artworks is an absolute must.

09 Ulster Museum:

Located in the Botanic Gardens, this museum hosts an eclectic mix of exhibits and galleries, many of which you can interact with. As well as a decent collection of Irish art, you’ll come across everything from dinosaurs to treasures recovered from an old Spanish galleon.

10 Listen to some live music:

The birth place of musicians like The Undertones, Ruby Murray and Van Morrison Belfast’s vibrant pub culture thrives on live traditional music. There’s never a shortage of musicians playing a range of Irish and folk music, original work and covers of traditional songs. The city literally hums with live music 7 nights a week. Some of our favourite spots include The Dirty Onion, Fibber Magee’s and The John Hewitt.

Top 10 Derry~Londonderry.

01 Wander the walls

You should linger around Derry's city walls – the only completely intact city walls in Ireland, they stand 26 feet high and 30 feet wide. Your walk will take in all the main sights, including four sets of original gates and 24 original cannon. Don't miss the famed 'Roaring Meg'.

02 Visit The Guildhall

The Guildhall is a striking building located in the heart of the city. Fashioned in neo-gothic style, it was originally built in 1887 by The Honourable The Irish Society. The red sandstone building is of neo-gothic architecture, with Tudor overtones. The Guildhall contains stunning examples of stained glass windows and visitors will be intrigued by its unique history and appeal. The staircase, main hall organ and corridors give a fascinating insight into this distinctive building.

03 Step into Heaney's HomePlace

Immerse yourself in the world of the most widely published poet in the English language. Go on a journey through the Nobel Laureate's life, his experiences, and the people that inspired his poetry. County Londonderry was a major inspiration to the late Seamus Heaney, and now the Heaney HomePlace is a must-go for literary fans and the curious alike.

04 Join in the Carnival at the best Halloween destination in the world

Halloween's origins date back over 2,000 years to the ancient Celtic festival of Samhain (sow-in), when, according to tradition, the ghosts of the dead returned to walk the earth before a new year began for the Celts on 1 November. At Derry's Halloween carnival you can expect fireworks and Jack-o'-lantern competitions and thousands and thousands of people in fancy dress.

05 Take to the Tower

The Tower Museum is spread over five floors and its uppermost level gives stunning panoramic views of the Walled City and River Foyle. Immerse yourself in the city's past with the Story of Derry Exhibition and An Armada Shipwreck – La Trinidad Valencera, the story of the Spanish Galleon that sank off the Donegal Coast in 1588.

06 Instagram Free Derry Corner

Delve into Londonderry's rich and complex history with great Instagram moments at the iconic Free Derry Corner gable wall and the city's famous walls. Take a guided tour and hear all about the famous 105-day siege of 1688. Explore the histories of the time at the Siege Museum and Museum of Free Derry.

07 Millennium Forum

One of Northern Ireland's premier theatres and conference centres and is one of the largest purpose-built theatres in Ireland. They have a vibrant range of arts and entertainment events on offer throughout the year. With its stunning entrance and marble floored Italian-style Piazza, it promises a wonderful night's entertainment in sumptuous surroundings in the historic Walled City.

08 The Nerve Centre

A focal point for youth culture in Derry, the Nerve Centre brings popular music, film, video, animation and interactive multimedia together under one roof.

09 Peadar O'Donnell's

Done up as a typical Irish pub/grocery (with shelves of household items, shopkeeper's scales on the counter and a museum's-worth of old bric-a-brac), Peadar's has rowdy traditional-music sessions every night and often on weekend afternoons as well.

10 The Peace Bridge

Opened in 2011 the Peace Bridge, is a walkway & cycle bridge across the River Foyle. It crosses the river from behind the Guildhall to the former Parade Ground at Ebrington Barracks – linking the Walled City to the new developments at Ebrington and St. Columb's Park. Illuminated at night the Peace Bridge is a major landmark in the city.

Top 10 Causeway Coast.

01 Marvel at the Giant's Causeway

Catch the beautiful narrow-gauge heritage train on the Giant's Causeway & Bushmills Railway route and arrive in style at the iconic hexagonal stones. Take in the amazing visitor centre and experience the power of the mighty Mr Finn McCool. Clues of his existence including the Giant's Boot and Wishing Chair – lie all around.

02 Get on the Game of Thrones trail

Re-live scenes or stand in the spots where the blockbuster TV series was filmed. Be sure to see the mysterious Dark Hedges, the foreboding Cushendun Caves and picturesque Ballintoy Harbour. For gossip and behind-the-scenes tales, talk to the locals or book a tour.

03 Surf Atlantic waves

The quintessential County Antrim water-sport experience is to surf the waves on a ride towards the beautiful white chalk cliffs of Whiterocks Beach. Powerful waves are around much of the year at this exposed beach break, within walking distance of Portrush which is only one stop on the train from our Coleraine Campus.

04 Walk Carrick-a-Rede Rope Bridge

Once you dare to walk the Carrick-a-Rede Rope Bridge, remember there's only one way back to collect your National Trust certificate. Yes, you'll have to do it again. But it's so worth it. You will be hard pushed to find better scenery and natural beauty on the island, an old salmon fishery that you cross to.

05 Sail away to Rathlin Island

Escape to another world on Rathlin Island via the ferry from Ballycastle across the Sea of Moyle. Take a tour of the upside down lighthouse built into a cliff face, and enjoy isolated walks, tranquil nature and one of the largest seabird colonies in the UK. You might even spot some seals.

06 See the sunset at Dunluce Castle

When the sun's rays are low over Dunluce Castle, your iconic snap of the Antrim coastline is waiting to happen. This evocative castle lost its kitchen when it fell into the sea one stormy night. Its stories, together with those of the nearby abandoned village of Dunluce, still being uncovered by archaeologists, are well worth exploring.

07 Taste the finest Irish whiskey

Bushmills was one of the first distillery's in the world to make both single malts and blended whiskeys. Tours run daily allowing you to enjoy the heat and the smells as you take a guided tour through the still actively working Old Bushmills Distillery on the banks of the River Bush. They will leave you ready for a great tasting experience at the end.

08 Drive the iconic Causeway Coastal Route

You need a day or two or a long weekend to really delve deep into the iconic Causeway Coastal Route by car. It runs through unrivalled scenery and links ancient castles, amazing geological formations, golden beaches and picturesque seaside towns and villages. Cycling it brings amazing sights and challenges too, such as the dreaded steep ascent of Torr Head.

09 Explore Carrickfergus Castle

You can't run out of adventure and stories at the impressive Carrickfergus Castle – there's 800 years of history to absorb in what is one of the most important and best documented medieval castles in the whole of Ireland. It's well worth seeing the keep, the banqueting hall, medieval life exhibits and the collection of cannons that once formed part of the defences.

10 Get lost in the Glens of Antrim

Escaping to the Glens of Antrim brings nine opportunities to get lost amid unspoilt, unexploited picture-perfect landscapes. Famed in legend and lauded song, the glens' wild beauty, myth and magic offers something unique to those willing to explore them.

Opportunities to Study, Work or Volunteer Abroad

Studying abroad at Ulster University is about variety, flexibility and trying new things. With over 2,500 modules at undergraduate level we're confident that you can easily find modules that match your academic interests and fulfil the requirements of your home institution. We welcome students from a network of over 200 international institutions worldwide. You can study with us for one or two semesters, or as part of your summer vacation.

How do I apply?

If you are applying through a partner institution, your home institution must nominate you. Nominations should be emailed to the Study Abroad Team, studyabroad@ulster.ac.uk. If you are applying independently, as an occasional student, please also contact the Study Abroad Team for further details. If you are applying through a study abroad provider you should use their application form and follow their procedures.

What are the entry requirements?

You must be enrolled at an overseas university and have completed at least one year of study at your home institution. You must also have a GPA of 3.0 (on a scale of 4.0) or equivalent to apply. If English is not your first language please ensure that you meet our English language requirements.

Is there a deadline for applications?

Key dates are provided below. Applications are considered on a rolling basis until the application deadline.

Semester 1 (Fall) or full academic year

Nomination Deadline: 31 May

Application Deadline: 30 June

Semester 2 (Spring)

Nomination Deadline: 31 October

Application Deadline: 30 November

When will I hear from you?

You may normally expect to hear from us within two weeks of submitting a completed application.

Will I gain credit?

Credit is given at the discretion of your home institution. If you wish to gain credit please discuss this with your academic advisor or a member of the Study Abroad Team.

How do I choose modules?

We have more than 2,500 modules at undergraduate level for you to choose from. For more information and modules visit ulster.ac.uk/global/study-abroad/modules

Do you offer summer schools?

At Ulster University we offer a range of summer programmes of various duration from one to six weeks covering a range of subject areas including, Irish Studies, Peace & Conflict, Pre-health and Transitional Justice. Our website has further information.

ulster.ac.uk/global/study-abroad

Global Outreach Ambassadors

Being a student ambassador is really rewarding. I get to share my passion for Ulster University with prospective students. I enjoyed my university experience so much, I wanted to share it with others. When I was deciding which university to go to, the team at Ulster made me feel so welcome and safe that I want to be able to do the same for others.

Berin Devadoss, India
BSc Business Studies

Ulster University has a team of international student ambassadors who have been chosen to represent the university to support students from their home country and region.

This scheme gives current students the opportunity to be the 'international face' of the university. Our International Student Ambassadors have been studying at Ulster University for at least one year and they support our students during the application process, via our CampusConnect App and right up to their graduation day.

They assist with the marketing of the University to prospective overseas students and help the International Student Support Team in welcoming new students once they arrive.

Becoming an International Student Ambassador is an excellent opportunity to play a part in helping new international students to settle in to life at Ulster University. It's also adds value to your CV.

Preparing You for a Successful Career

Your time at university will pass quickly. And we mean quickly! So, it's vital that you make the most of the opportunities coming your way. Throughout your studies at Ulster University we will help you to develop your career skills and enhance your employment prospects.

Recruitment for most graduate schemes and postgraduate courses starts in the autumn of your final year, so making time during your studies to get a career focus is essential and will enable you to make targeted applications for jobs and courses before graduation.

Our courses are designed with your career in mind, with most developed in partnership with employers to ensure the skills, knowledge and experience you gain match the needs of your chosen profession.

Professional accreditation

Many of our courses provide additional professional recognition or exemptions.

Work, study or volunteer abroad

A period of work placement, volunteering or study abroad is available with most of our courses. This provides the opportunity for you to gain valuable real-world experience and to build contacts in the industry.

Career Development Centre

An extensive range of support services is available to help you get ready for work and to find employment. Our award winning Career Development Centre (CDC), located on each campus, offers friendly and impartial support with career planning and provides advice on developing your employability skills.

Higher Education Achievement Report (HEAR)

We provide a Higher Education Achievement Report (HEAR) to all graduates – a detailed record of your academic and extra-curricular achievements to supplement the traditional degree award.

The HEAR allows you to showcase your achievements to employers or postgraduate tutors and helps your development during your time in higher education. Read more at: hear.ac.uk

Ulster EDGE Award

The Ulster EDGE Award provides official recognition and evidence of your relevant interests outside of university. It is awarded in addition to your degree and gives you the opportunity to engage in a wide range of activities that will boost your career prospects and show commitment to your personal development.

Careers support for Ulster graduates

The Career Development Centre offers careers support to graduates up to 3 years post-graduation. Graduates can access 1-1 careers consultations as well as access to our vacancy systems and events:

ulster.ac.uk/ulster-life/careers

Ulster's Alumni Community

Your journey with Ulster begins at application, continues through your time as a student but doesn't end once you have graduated. At that point you will join our dynamic and ever-increasing family of more than 160,000 alumni worldwide.

Becoming a graduate of Ulster, and a member of this significant alumni community, will offer many opportunities to help you progress your career.

We are proud of our alumni; they have achieved distinction in many fields across the world and continue to engage and support the University community in a variety of ways.

At Ulster, we develop lifelong, mutually beneficial relationships with our alumni. Ulster's alumni play an extremely valuable role in the University, providing support to current and former students by getting involved in activities such as mentoring, internships, sponsorship and donations. All of this enhances the experience students have during their time here.

You are automatically enrolled as a member of the alumni association when you graduate and have immediate access to a range of benefits including:

- Further careers support
- Invitations to exclusive networking events
- Access to University resources and information (including the library and sports facilities)

You may have been an Ulster undergraduate student and are continuing your postgraduate studies with us, or you may be joining us as a new student who will be studying on-campus or by eLearning.

Whatever your background you can be sure of a warm welcome when you choose Ulster. You will become part of an extensive 'family' who are here to develop and support you through your university journey and beyond.

ulster.ac.uk/alumniandsupporters

Undergraduate Degrees

We Develop You.

At Ulster we don't just provide you with an internationally recognised qualification, we also develop you into a confident global citizen.

We strive to deliver a learning experience that is career-focused and relevant, offering you a range of opportunities to enhance your CV and make you more attractive to potential employers.

We are proud to be one of the top UK universities for work placement, the perfect way to gain practical experience in your chosen industry while you complete your studies. Our placement opportunities equip you with a range of transferable skills and enhanced confidence to set you apart in today's challenging and competitive job market.

As an undergraduate student you can also work towards the Ulster EDGE Award, which provides official recognition and evidence of activities outside of your studies. It is awarded in addition to your degree and gives you the opportunity to engage in a wide range of activities that will boost your career prospects and show commitment to your personal development.

How do I apply?

You can apply directly to us using our online application system, ulster.ac.uk/applyonline

You can also apply via UCAS. You can apply for up to five courses, which can be made to one institution or up to five different institutions. The one application form is sent to all and the same information is used to consider each course applied to. The UCAS code for Ulster University is U20.

How should I write my personal statement?

Your personal statement is an opportunity for you to 'sell' yourself and a vital part of your application. We want you to clearly demonstrate your interest in the subject area that you are applying to. Here are some things that you should include:

Past achievements and interests and how these relate to your application.

Any relevant work experience (including voluntary).

Key skills and abilities you have which you can use and develop as part of your studies.

Your career aspirations and how your studies will contribute to this.

Do I meet Ulster University's entrance requirements?

The general entrance requirements to study at university level are listed on our website:

ulster.ac.uk/global/apply/entry-requirements

For entrance requirements specific to your country please visit:

ulster.ac.uk/global/apply/your-country

Is there an English language requirement?

If English is not your first language, to study with us you must be able to demonstrate that your English language competency is of a standard suitable for succeeding in your chosen course of study. As part of your application, you will be required to provide an English language proficiency test, which must be no more than two years old by the time of commencing your studies. Most of our courses require you to have a minimum of IELTS 6.0 (with no contributing band less than 5.5).

If your English language proficiency does not meet our requirements, our Centre for English language Teaching offers a range of English language courses, which are designed to prepare international students with the necessary language skills for academic study at Ulster University. For further information on English language support visit:

ulster.ac.uk/global/apply/entry-requirements

When will I hear from you?

Upon receipt of a completed application and all relevant supporting documentation, our international admissions team will be in touch within a few days with an update on your application.

Is there financial assistance available?

Ulster University automatically applies a scholarship discount of £2,000 off the tuition fee of every overseas student offer-holder commencing their studies in September 2019. Further details are available at:

ulster.ac.uk/global/apply/how/scholarships

I like the teaching style at Ulster University very much. Compared with Hong Kong the teaching style is more independent, open minded and comfortable. The learning environment persuades me to learn more enthusiastically.

In short, I love the teaching style of Ulster University!

Candy Chan, Hong Kong

T

Inspired by
Discovery.

Postgraduate Taught Degrees

As a postgraduate student at Ulster, you will belong to one of the most popular universities in the UK, known as a friendly place to study with approachable and helpful staff. You will benefit first-hand from the research we undertake. Our teaching is inspired by our discoveries. You will be taught by some of the best academics who are leaders in their fields.

In 2016/17 we spent £41.7 million on research & impact. In the 2014 Research Excellence Framework (REF) assessment, Ulster was named as one of the top universities in the UK for world-leading research and number one in Northern Ireland for research into biomedical sciences, law, business and management, architecture and built environment, art and design, social policy, sport, media studies and nursing.

All taught Master's courses contain a dissertation, or other piece of extended work, that you choose, research and write under individual supervision from your tutor. You will receive first class teaching in an inclusive learning environment, with ongoing support and encouragement to help you realise your ambitions. Master's courses take one year to complete.

How do I apply?

All applications for postgraduate taught degrees are made directly to Ulster University ulster.ac.uk/applyonline. As part of your online application you will be required to upload key documentation to support your application including transcripts from your university-level study and a personal statement. We do not charge an application fee and will acknowledge receipt of all applications.

Do I meet Ulster University's entrance requirements?

The general entrance requirements to study at university level are listed on our website:

ulster.ac.uk/global/apply/entry-requirements

For entrance requirements specific to your country please visit:

ulster.ac.uk/global/apply/your-country

Is there an English language requirement?

If English is not your first language, to study with us you must be able to demonstrate that your English language competency is of a standard suitable for succeeding in your chosen course of study. As part of your application, you will be required to provide an English language proficiency test, which must be no more than two years old by the time of commencing your studies. Most of our courses require you to have a minimum of IELTS 6.0 (with no contributing band less than 5.5).

If your English language proficiency does not meet our requirements, our Centre for English language Teaching offers a range of English language courses, which are designed to prepare international students with the necessary language skills for academic study at Ulster University. For further information on English language support visit:

ulster.ac.uk/global/apply/entry-requirements

When will I hear from you?

Upon receipt of a completed application and all relevant supporting documentation, our international admissions team will be in touch within a few days with an update on your application.

Is there financial assistance available?

We offer an attractive scholarship and support package for all qualified international students. Further details are available at:

ulster.ac.uk/global/apply/how/scholarships

Postgraduate Research Degrees

As a research student at Ulster, we hope that you will be inspired by our track record in producing graduates who have demonstrated outstanding achievements in advancing knowledge and making breakthroughs of relevance to the economic, social and cultural development of society, both in Northern Ireland and on a global scale.

The Research Excellence Framework (REF) 2014 confirmed Ulster's position as a centre of excellence, assessing it as having world-leading research in all areas of the submitted for assessment. The framework ranked Ulster joint first in the UK for world leading impact in education research and second in the UK for Celtic studies research.

The REF evaluation identified Ulster University as ranked in the top five universities in the UK for world-leading research in law, biomedical sciences, nursing and art and design and in the top 10 UK-wide for built environment, biomedical sciences, law, art and design and nursing research.

These results demonstrate our influence, the relevance of our research-informed teaching and our impact in areas as diverse as health, the economy, the creative industries and social policy. Ulster University has been assessed as being one of only six universities in the UK with 100% of its research environment rated as world leading. This entirely reflects the quality, commitment and leadership of our research staff and students,

our investment in research, the strength of our partnerships and collaborations and our worldwide contribution.

Our research students play a key part in the University's success and are supported by supervisory teams consisting of research active academic staff who will guide you through the process of writing up your thesis. You will also receive training in research that is among the best available. We will ensure that you are integrated into our research community and we will give you the best possible support to ensure success in your chosen research degree programme. We will provide you with development opportunities which will not only help you in your future careers but enable you to integrate fully into our research culture and environment. You will also be attached to one of our six faculties and our dedicated Research Graduate Schools (RGS) will support you with day to day matters relating to your research.

What research opportunities are available at Ulster?

At Ulster we offer various flexible options for studying towards a research degree for international students. We offer full-time PhD opportunities with a fully funded scholarship (3-year programme) under our Vice Chancellor's Research Scholarship scheme (VCRS awards) or part-time PhDs (6 year programme), which may be undertaken via our Distance Research Study Framework if you wish to remain in your home country.

We can support PhD applications across the full range of subject areas offered at Ulster and funded projects will be advertised via our website, with a closing date for our annual competition usually around February or March each year. Part-time applicants may submit an application at any point throughout the year. Full details of the subject areas may be obtained by viewing our Research Prospectus:

ulster.ac.uk/research

How do I apply?

Once you have selected your chosen project area, you are advised to make contact with the named supervisor on the project as they will be able to guide you in writing your research proposal. You should then apply using our online application system:

ulster.ac.uk/applyonline

Do I meet Ulster University's entrance requirements?

You will need to have a First or Upper Second Class Honours degree (or equivalent) in an area relevant to your chosen project to be able to apply for our research degree programmes. For entrance requirements specific to your country please visit:

ulster.ac.uk/global/apply/entry-requirements

Is there an English Language requirement?

If English is not your first language, to study with us you must be able to demonstrate that your English language competency is of a standard suitable for succeeding in your chosen project. As part of your application, you will be required to provide an English language proficiency test, which must be no more than two years old by the time of commencing your postgraduate research degree. For further details on English language requirements please visit:

Student Reviews.

ulster.ac.uk/global/student-reviews

"I am amazed by the efforts spent to link theories with real life business to transfer a practical knowledge to students. Many thanks to all the tutors in the course and a special greeting to the course director who was extremely supportive and always available to help."

Muna Bughaith, Kuwait

MSc Business Development & Innovation

"Ulster University in Coleraine is located in a friendly environment and the accommodation is good. The fees are a lot cheaper than London universities and the labs are really well equipped. I felt welcome before I even started my studies as the University kept in touch with emails."

Happiness Uche Emeka, Nigeria

BSc Hons Biomedical Sciences

"The teaching quality is excellent because it associates the theoretical knowledge with practical application in the laboratory – making it effective learning for the labour market."

Guilherme Yudi Sunaga, Brazil

BEng Mechatronic Engineering

"I have found at Ulster University the people are loving, helpful and approachable. I would advise to not miss orientation as this helps minimise challenges of adjusting to the new education system."

Diana Nakaweesa, Uganda

LLM Gender Conflict and Human Rights

"I am studying at Ulster University because I found the fees are low compared to other the UK Universities and they also offer an English Language teaching class for international students which I found really useful."

Cho King Ng (Miffy) Student, Hong Kong

MSc Biotechnology Research

I chose to study at Ulster University to learn from those working to build peace in their society. The course brought together academics and practitioners from all around the world which was invaluable.

Andrew Ulasich, United States
MSc Peace and Conflict Studies

"Northern Ireland is a lovely place; it is so peaceful, full of nature and people are really friendly. I've made friends here that I want to keep for my entire life."

Monica Lopes Tonello, Brazil

Pharmacy

Studying at Ulster University enriched my life. If you want to experience overseas teaching, want different experiences and want to meet new people and make new friends then go to Ulster University.

Yefan Li, China
Junior Year Abroad Business and Management

"Tuition fees and cost of living in Northern Ireland in general are very affordable for students."

Luz Gomez, Colombia

MSc Peace and Conflict Studies

"Ulster University is a very special place to me and a very good place to study. It is much cheaper for tuition fees compared to courses in England and Scotland."

David Lo, China

PhD Diabetes

Entry Requirements

Undergraduate entry requirements

The minimum required to be considered for entry to our undergraduate programmes is the equivalent of three A-levels at CCC. However, some programmes will require higher grades and particular subjects.

Competence in written and spoken English is a General Entrance Requirement for entry to all courses, with some courses also requiring specific grades for mathematics.

Each programme will have slightly different requirements, both in terms of overall points and certain subjects, so it is always best to check the relevant subject in the undergraduate on-line prospectus at ulster.ac.uk/courses

Postgraduate entry requirements

Typically, we require applicants for taught programmes to hold the equivalent of a UK first degree (usually in a relevant subject area). Please refer to the specific entry requirements for your chosen course of study as outlined in the online prospectus; ulster.ac.uk/courses

Normally the minimum English language entry requirement is IELTS (academic) of 6.0 (with no band score of less than 5.5).

Postgraduate research/PhD entry requirements

You will need to have a First or Upper Second Class Honours degree (or equivalent) in an area relevant to your chosen project to be able to apply for our research degree programmes.

Normally the minimum English language entry requirement is IELTS (academic) of 6.0 (with no band score of less than 5.5).

For entrance requirements specific to your country please visit:

ulster.ac.uk/global/apply/entry-requirements

English Language Support

What if I don't meet the English language requirements?

The Centre for English Language Teaching (CELT) at Ulster University offers a range of English language programmes designed for international students to improve your understanding and knowledge of the language. **The programmes combine academic study, intensive English language preparation, study skills and cultural orientation.**

Pre-sessional English Language Courses

Ulster University offers a range of Pre-sessional English language courses designed to enable you to reach the entry level of your chosen degree.

The Pre-sessional English language programmes are designed to develop your study skills in English language and prepare you for further study with us.

Depending on your English language ability there are two programmes to choose from, Pre-sessional PLUS or Pre-sessional Standard.

Pre-sessional courses are designed for international students who have a conditional offer for an undergraduate or postgraduate degree from us but who have not yet met our standard English language entry requirement of an overall IELTS score of 6.0 or equivalent. The programmes, which are delivered by staff with considerable experience and expertise, will teach you to learn the necessary skills for university study, improve your English language ability and academic presentation techniques.

Key facts

Pre-sessional English is offered at:

Course	Start Date	Duration	Entry Requirements
Pre-sessional PLUS	June 2019	11 weeks	*IELTS 5.0 or equivalent with only one band acceptable below this (minimum 4.5).
Pre-sessional Standard	July 2019	7 weeks	*IELTS 5.5 or equivalent with no individual band score less than IELTS 5.0 or equivalent.

*If you do not have the above qualification we also accept other Secure English Language Tests (SELTs).

Improve your English for free while you pursue your course.

In-sessional English language courses

During your studies at Ulster University there will be opportunities for you to further enhance your understanding of the English language and develop key skills in writing academically. You can choose from a wide range of modules including; Academic Writing Skills; Accuracy in Writing; Cultural Awareness; and English for Everyday Life.

In-sessional modules are free of charge, are available on all four campuses and can be taken during semesters one and two.

How to apply.

To apply to study at Ulster University please visit our website for international students:

ulster.ac.uk/global/apply

Need help?

Refer to our guidance notes at:
ulster.ac.uk/global/apply

Talk to our Regional Manager for your country:
ulster.ac.uk/global/apply/your-country

*except for American Express and Laser.

Fees, Funding and Finance

Funding a place at university is one of the most important considerations for all students. In addition to Northern Ireland being one of the most affordable regions in the UK to live and study, we also offer highly competitive tuition fees.

Flexible payment

To help spread the cost of your studies, tuition fees can be paid back in five monthly instalments while you learn.

Payment options

Tuition Fees are payable in pounds sterling (£GBP). We accept payment by Banker's Draft, Direct Bank Transfer and also accept all major credit/debit cards except for American Express and Laser.

International deposit

International students who require a Tier 4 Student Visa are required to pay a £2,000 deposit.

Our current tuition fees can be found on our website at:

ulster.ac.uk/global/apply/fees-and-finance

Additional costs

Some courses may have additional costs which are not included in your tuition fee. These are detailed within the individual programme specification as they may vary from course to course.

Where a course has additional mandatory expenses we make every effort to highlight them. These may include

- residential visits
- field trips
- materials (e.g. art, design, engineering)
- inoculations
- security checks
- computer equipment
- uniforms
- professional memberships etc.

International Scholarships & Discounts

To help you with the cost of your studies, **Ulster University** offers an attractive scholarship and support package to all qualified international students.

How to apply

You don't need to apply for all our scholarships - some discounts are awarded automatically if you are eligible. See opposite for details.

Other scholarships

There are a number of other scholarships available to international students and you can find details of them on our website.
