# GREETINGS FROM UNIVERSITAS AIRLANGGA

---

I wish that the programs could be a medium where the international students and local students learn to be global citizen through a lot of cultural and educational activities.

## **Prof. Dr. Ni Nyoman Tri Puspaningsih, Dra., M.Si.**

---

Vice Rector for Academic, Student and International Affairs  
Universitas Airlangga

Universitas Airlangga prepares its students for an integrated hard skills and soft skills learning process of intra-, extra-, and co-curricular elements. Facing many global challenges, Universitas Airlangga encourages the students to be more exposed to the international environment by inviting more international students to participate in programs that are designed for academic and cultural purposes.

This catalogue is designed to meet the demands on information availability regarding the international programs in Universitas Airlangga. It is specially dedicated to any international students who wish to expand their experience for a study outside their university. There are various programs which the international students can select.

I hope that the more international students come to Universitas Airlangga, the more they will know Indonesia, especially through Universitas Airlangga, along with its local characteristics. Besides, they can bring such an international environment to the students of Universitas Airlangga. Finally, as my foreword, I wish that the programs could be a medium where the international students and local students learn to be global citizen through a lot of cultural and educational activities.
