THE INFORMATION

you need to get settled

RUSSIA

Russia is one of the most magnificent and diverse countries. It has inspired renowned artists and writers through centuries. Its unique nature has been glorified in such literature masterpieces like "War and Peace", "Evgeny Onegin", "A Hero of Our Time", the immortal poems by Sergei Yesenin and other.

There are a lot of prejudices about the Russian culture; some of the most popular are:

Polar bears walk down the street

It's always extremely cold in Russia

Russians drink too much alcohol

Russians don't speak any language but their own

Every Russian can play the accordion and balalaika

The Russian mafia is out there

These and many other stereotypes make Russia seem rather hostile but they are only partly true. Yes, Russians drink alcohol but only occasionally; it is cold but only in winter; most Russians do speak only Russian but they do their best to make foreigners understand them; Polar bears do walk but in the Arctic region not downtown St. Petersburg; Russians are very talented but not everyone can play the balalaika; the Russian mafia...well, it's tales of the past.

WEATHER AND CLIMATE

All four seasons are visible in the North-West of Russia. Winter is cold and dark, spring is short but beautiful, summer is warm and lively and fall can boast of its amazing colors.

SPRING (March – April/May) – Days get longer and warmer really fast. Nature wakes up and plants grow fast. St. Petersburg is marvelous this time of year.

SUMMER (May – mid-September) – Average day temperature is +20°C. The warmest month is July, temperature is often over +20°C but sometimes can be over +30°C. As summer is short it is very much enjoyed, Russians are outside a lot. Summer days are long in the North-West part of Russia and during midsummer a day can be 19 hours long.

FALL (mid-September – November/December) – Weather gets colder and it rains rather often. Average day temperature is about -4°C.

WINTER (November/December – February) – The coldest month is February, in the North-West of Russia temperature varies between 0°C and -20°C. Temperature can be closer to -30°C. Usually there is snow from December till March. Our advice for winter time – wrap up!

ST. PETERSBURG

Emergence of St. Petersburg is connected with an ambition of the Russian tsar Peter I to fortify his positions in the strategically important region on the Baltic seashore. The city was founded in 1703, and in 1712 here, on the Neva bank, the capital of the state was proclaimed. St. Petersburg is called the northern capital of Russia, the heart of Russia and the gates to Europe. The city ranges among the most beautiful and integral in respect of art. Its layout is notable for logic nature of the spatial composition, including numerous channels, bridges, embankments, gardens and parks.

It is rich in outstanding monuments, palace and church architecture, monumental statues that in most cases represent unique architectural ensembles. The city is mostly amazing in summer when locals and tourists can observe the bridges being raised. Historic Center of St. Petersburg and Related Groups of Monuments are now protected by UNESCO as part of several museum-reserves, or have a status of ancient and cultural monuments.

ART AND CULTURE

Without a shadow of a doubt St. Petersburg's culture is one of the richest in the whole world. There are numerous landmarks, some of which are held under the auspices of UNESCO. It may take a while to enjoy all of them.

SOME OF THE MOST FAMOUS ARE:

The Hermitage Museum

The Hermitage Museum offers tourists a balanced mixture of art and culture. It is known as one of the oldest museums in the entire world as it was founded in 1764. Along with having a history all its own the museum is also one of the largest of its kind in the world boasting 11 different collections ranging from Egyptian Antiques to the Swiss fine art. The collections cannot all be seen in one day so it would be wise to have a plan if you have your sights set on visiting this massive museum.

Peter and Paul Fortress

This has to be the most noticeable building in the city whether from land, sea, or air. Originally built by Peter the Great around the year 1703 it has served a multitude of purposes over the years from fortress, to citadel, prison, museum, and tourist attraction. People come from all over to get a first-hand look at the prisons that once housed famous historical figures.

As the main building of ITMO University is located right across the Fortress you are lucky to enjoy the attraction as much as you like.

Peterhof

Peterhof, sometimes spelled Petergof, is actually a small town and not just a regular tourist site. This town acts as a municipality of the larger city of St Petersburg and has seen a lot of changes to its identity throughout history. Areas of interest would be the grand palace that sits just above the shoreline almost fifty feet above sea level. There is also a variety of gardens and fountains to take in while walking through the streets of St Petersburg's Peterhof municipality.

St. Isaac's Cathedral

The Russian Orthodox Cathedral was built over a 40 year period ending in 1858 and was not the first to be build on the same site. This was the fourth of such cathedrals. It may be familiar to many people because of the massive dome on top at the larger than life pillars adorning the front entrance.

Church of Our Savior on the Spilt Blood

It is best known for having an architectural style that stands uniquely among all of the other Russian churches. The church was reopened in 1997 after the restoration and currently acts mainly as an art museum and welcomes thousands of visitors every year.

Mariinsky Theatre

For opera and ballet lovers the Mariinsky Theatre is a must-see in St. Petersburg. It was originally founded in 1860 but the history of opera and ballet in the city dates back much further. The theatre still holds events and has contributed a lot to the careers of numerous world known opera singers and ballet dancers.

FREE TIME ACTIVITIES

SPORT FACILITIES:

There are numerous gyms and sport centers for those interested in keeping healthy lifestyle and wishing to stay fit. ITMO University has its own sport facilities available for all students.

SHOPPING:

St. Petersburg comprises a large number of shopping malls around the city.

The most popular are:

Galeria St. Petersburg

galeria-spb.ru/en

PARKS AND GARDENS:

St. Petersburg is the greenest of Russia's major cities. There are over 200 parks and gardens, plus over a thousand tree-lined streets and more than 700 leafy squares.

The most famous and marvelous parks are the Botanical Garden, the Summer Garden, the Field of Mars, The Catherine Garden etc. A lot of people ride bicycles, jog, roller-blade and just go for a picnic to the parks. There are bicycle rentals by each Metro station.

NIGHT LIFE:

What happens in St. Petersburg stays in St. Petersburg!

Museums and ballet aside, St. Petersburg is undoubtedly famous for its nightlife. People here love a good bar crawl – either under the gleaming pink sky during summer white nights, or in the heart of a blizzard. You can find a lot of bars downtown. Some of them may charge an entrance fee (5-7 €).

Some of the popular places are:

PMI bar, XXXX (it's a chain; there are several clubs in different parts of the city), A2 and other hotspots.

The city is truly amazing during summer white nights. Therefore it's the best time to enjoy St. Petersburg nightlife. During this period (May-June) there are numerous summer terraces offering all kinds of entertainment 24/7.
