# Professions of the future

Define your professional path with graduate study from Monash. Whether you want to change careers or reinforce your knowledge in your current field, there's a course to help you achieve your goal.

Choose from a range of professional entry or expert master's courses – all designed to add to your professional capabilities – as well as research options in more than 150 fields of study.

## Choice and flexibility

Tailor your course to suit your needs – full-time or part-time, on-campus or off-campus, at home or overseas. Monash offer's the flexibility to study when and where you choose, and benefit from working with industry along the way.

## A global reach

At Monash we believe that the educational experience is extended through collaboration, challenging the status quo and traversing uncharted territory.

As a global university with a presence on four continents, you have access to more international exchanges, internships and collaborative research programs.

We have locations in Italy, Malaysia, India and China, and partnerships and alliances with universities in North America, Europe, the UK, Asia and Africa.

## Worldwide recognition

Monash courses are recognised and accredited by Australian and international industry bodies for professional practice in specified fields. Graduate with a qualification that will advance your career in areas such as business, engineering, IT, law, education, architecture, medicine, health or pharmacy.

## Research excellence

Monash is home to advanced equipment and research platforms such as the largest wind tunnel in Australia, which is leading the way for aerodynamic and wind noise research, the unique \$5 million electron microscope (EM) which aims to transform the way we view the human immune system and FishCore which is home to the largest zebrafish facility in the southern hemisphere – leading platforms for learning and testing your ideas.

As a member of the Group of Eight, Monash is a research-intensive university. This research informs our course development which focuses on meeting the needs of industry and society today and tomorrow.

# Flexible course options

We know that when, where, how and what you study is critical to progressing your career, skills and knowledge.

You might be a professional looking to gain expert knowledge in your current field such as engineering, journalism or medicine, or you might be looking for a career change. Whatever your ambition, Monash can help you get there.

### Professional entry master's courses

These courses are specifically designed to prepare you to enter a regulated profession such as law, accounting or teaching. These courses can take two to four years to complete, depending on the discipline.

Some of these areas can also be studied at an undergraduate level; however, a professional-entry master's course is ideal if you make the decision to enter a different field to that of your first course.

### Expert master's courses

These courses allow you to extend expertise gained through your undergraduate degree, or add breadth to your knowledge and skills within a new or complementary field. If you complete a four-year Honours bachelor's degree, you can usually complete an expert master's degree in the same discipline in just one year, meaning you graduate with both a bachelor's and a master's degree in five years.

See page 16 for a full list of coursework courses.

### Double master's courses

A double degree allows you to study for two degrees at the same time. You'll graduate with two master's degrees, giving you more career flexibility and opportunities. It allows you to keep your options open and develop expertise in different yet complementary areas.

### Study modes

We know you have many priorities and commitments. That's why we offer flexible study modes to allow you to build your study around your life.

Most courses are offered in both full-time and part-time study modes. Some units are offered in intensive block mode (usually Thursday to Sunday) allowing you to arrange a short break from work to complete a unit, and some are offered outside business hours. It's whatever works best for you.

### Off-campus (distance learning)

You don't have to be at Monash to study with Monash. Through our online distance learning, you can study with Australia's biggest university without ever having to set foot on-campus. It's the perfect option if you need to balance university with work, family and other personal commitments. You'll study the same units and gain the same qualification as you would if you were on-campus. It includes a combination of print study material and electronic communication.

Please note: Studying off-campus with Monash doesn't entitle you to apply for an Australian student visa.

[study.monash/courses](https://study.monash/courses)

## Gain credit for prior learning

Many of our master's programs offer you block credit on the basis of your education background.

### 1-year programs

I want to undertake a master's program in the same discipline

+

I have a four-year honours qualification

48 credit points

### 1.5-year programs

I want to undertake a master's program in the same discipline

+

I have a three-year undergraduate qualification

72 credit points

### 2-year programs

I want to undertake a master's program in a different discipline

+

I have a three-year undergraduate qualification

96 credit points

# Support services

At Monash, it’s not just about the course. You’re at the centre of everything we do.

We offer you careers counselling, academic support, health and wellbeing services, professional development opportunities and family support. We can even help you find somewhere to live. You can also take advantage of academic support services and modern study facilities designed specifically for graduate students.

## Academic support

During your studies, you can access academic support programs to improve your written and oral expression, reading, listening and note-taking skills. Tutors are available to guide you through research methodology, conference presentation and the best way of submitting academic papers.

[monash.edu/counselling/academic-support](https://monash.edu/counselling/academic-support)

### Monash Connect

Monash Connect can advise you on anything from admissions, enrolment, fees, academic support, language support, graduations and scholarships. Student service centres are located on all Australian campuses.

[monash.edu/connect](https://monash.edu/connect)

### Monash Postgraduate Association (MPA)

As a Monash graduate student you’ll automatically become a member of the Monash Postgraduate Association, which provides services for graduate students including social functions, newsletters and publications, advice, advocacy and mediation, and seminars to help you transition from study to a successful career.

[mpa.monash.edu](https://mpa.monash.edu)

### Dedicated graduate learning spaces

We have two study lounges purpose-built for graduate students. The Graduate Student Hub is designed for all graduate students and is open from 7am until midnight.

### Professional pathways

Offering a 12-week internship and work-readiness training, the Professional Year Program helps you obtain the skills that employers demand (fees apply).

[monashprofessional.edu.au](https://monashprofessional.edu.au)

[monash.edu/study/life](https://monash.edu/study/life)

## Personal support

### Career guidance

Take advantage of our career development programs and individual career counselling.

[monash.edu/careers](https://monash.edu/careers)

### Family support

Monash Family and Childcare supports Monash students with children or families.

[monash.edu/childcare](https://monash.edu/childcare)

### Monash Sport

Monash Sport offers a wide range of group fitness classes, gym memberships, aquatic activities and competitive or social sports.

[monash.edu/sport](https://monash.edu/sport)

### Wellbeing

Each Monash campus features a health, wellbeing and development hub with counsellors, medical practitioners, student advisers and a team of people from different faith communities to support you in all facets of university life – from accommodation and financial aid to life balance issues.

[monash.edu/health-wellbeing](https://monash.edu/health-wellbeing)

### Disability support services

If you have a disability or medical condition that impedes your study, the Equity and Diversity Centre will help you access services such as learning support, assistive software or equipment loans.

[monash.edu/equity-diversity](https://monash.edu/equity-diversity)

Every Monash campus has a security office that is staffed 24 hours a day. Members of the security team are friendly and always ready to provide help and safety advice. They are also happy to escort you anywhere on campus at any time of the day or night.

▶ “The Master of Networks and Security gives me in-depth skills in networks and IT and a competitive edge in getting a job because of the growing demand in cyber security.

“I chose Monash because it is one of best universities in the world. The scholarship opened doors for me to fulfil my passion and I hope to continue building the medical sector of my home country, Ghana, through the skills I learn in my degree.”

**AKUA BOATEMMA OWUSU**  
Master of Networks and Security (Ghana)  
Recipient of Monash International Leadership Scholarship

# Scholarships

Monash University is committed to attracting academic high achievers and producing internationally competitive graduates.

## Monash scholarships

### Monash international leadership scholarship

100% course remission for high-achieving international coursework students. Selection is based on academic achievements, application statement and the student’s potential to be a Monash University ambassador.

[monash.edu/new-scholarships](https://monash.edu/new-scholarships)

### Monash international merit scholarship

A\$10,000 paid per year to high-achieving international coursework students.

### Applications

Once you have received a full offer from Monash you are able to apply for a scholarship. Applications from students from all countries are invited, and countries with strategic priorities for Monash will be given preference.

## External scholarships

### Australia awards (AUSAID)

The Australia Awards (previously known as AusAID) is an initiative of the Australian Government to promote knowledge, education links and enduring ties between Australia and our neighbours through Australia’s extensive scholarship programs.

Monash University offers a range of courses suited to the development needs of Australia Awards and its scholarship holders. Find out more through our guides below or check the Australia Awards website to see your country’s area of priority.

### Other external scholarships include:

- Becas (Chile)
- Colfuturo (Colombia)
- FIDERH and FUNED (Mexico)
- Senescyt (Ecuador)
- Ciência sem Fronteiras (Brazil)

[monash.edu/scholarships](https://monash.edu/scholarships)

▶ “My passion is to promote equality and transparency. The flexibility of my double degree course means I can learn about management and finance while still following my passion in law. Monash courses are not only limited to theories. It is accompanied with an abundance of case studies and practical projects, which will equip me with essential employability skills.”

**TRINH PHAM NGOC NGUYEN**  
Master of Professional Accounting/Master of Business Law (Vietnam)  
Monash International Merit Scholarship

# Our research tradition

Even before we became the global university we are today, our researchers looked beyond traditional boundaries, discovering ways of approaching the fields in which they worked. It's why a Monash education is respected around the world. Things that we now take for granted wouldn't exist without the initial work of Monash researchers:

### First in-vitro fertilisation pregnancy

Professors Alan Trounson and Carl Wood achieved the world's first IVF pregnancy in 1973. The Trounson and Wood team went on to accomplish Australia's first (and the world's fourth) successful IVF birth in 1980.

### Fighting influenza

In 1986, a team from our Faculty of Pharmacy and Pharmaceutical Sciences (formerly the Victorian College of Pharmacy) designed and synthesised the anti-flu drug Relenza, which first became available in Australia in 1999 and is now used globally.

### Nobel Peace Prize

In 2007, eight scientists from Monash University shared in the prestige of the 2007 Nobel Peace Prize, awarded jointly to the Intergovernmental Panel on Climate Change and former US Vice-President Al Gore. We judge our research not only by its academic excellence, but by the impact it has on the communities with which we engage and serve.

# Our research today

Today our ambition and optimism are stronger than ever. We have a clear vision of what we want our research to achieve and how we'll help our researchers make it happen. We partner with government and industry to develop innovative solutions to complex problems.

Although we conduct research across more than 150 fields of study, we focus on a number of specialisations. We call these our leading capabilities. We've grouped these capabilities into four categories:

- Health and wellbeing
- Future technologies
- Sustainable environments
- Resilient cultures and communities.

### Building stronger, lighter planes

Professor Xinhua Wu and her team at the Monash Centre for Additive Manufacturing (MCAM) are creating an aluminium alloy that will make aircraft 30 to 40 per cent lighter, twice as fuel-efficient and still structurally sound. So significant is this project that they're working in close partnership with Microturbo, the European Space Agency and Bombardier.

### Helping the blind to see

The Monash Vision Group (MVG) draws on the capabilities of Monash University, The Alfred hospital, and industry partners MiniFAB and Grey Innovation to develop bionic eye technology that connects to the primary visual cortex. This means that patients unable to make use of current retinal implants because of damaged optic nerves or physical trauma to the actual eyes may now have the opportunity to see again.

### Printable body parts

A partnership between Monash and the CSIRO, Australia's peak scientific organisation, aims to create 3D-printable human body parts. Bioprinters use a scan of an individual's tissue sample and different types of stem cells to produce replacement tissue for damaged organs, new discs for spinal injuries or multilayered skin for burns victims. This technology could also be used to create body parts for cancer or accident victims.

### A sustainable future

Clean water and sanitation are essential parts of the United Nations 2030 Agenda for Sustainable Development. The Monash Sustainability Institute draws together researchers and experts from a wide range of disciplines to investigate how to build water-sensitive cities and better manage our water resources. Initiatives involve high-impact policy development and fieldwork across Australia and the world, often in partnership with industry, government and not-for-profit organisations.

Some of our research is currently focused on empowering Indigenous communities to adapt to climate change, and supporting developing Asian cities to transition to more sustainable, resilient and liveable conditions through the uptake of advanced water technologies, policy development and social practices.

# A global outlook

Shanghai, China.

If you're passionate about tackling global challenges and collaborating with some of the brightest minds in your discipline area, then Monash is the place where your ideas and actions can gain momentum.

Our graduate degrees will give you the edge in the employment market and prepare you for the professions of the future, both in Australia and overseas.

Our industry-relevant courses are embedded with the leadership, entrepreneurial and commercialisation skills that will advance your career.

You can take a semester at the University of Warwick in the UK, undertake master's units at the Monash Centre in Prato,

Italy, or complete a double master's program with one of our international partners.

Globally connected, our alumni network is at the forefront of social and technological progress at many of the world's best companies.

If you aspire to make a positive impact in the world, you'll find Monash learning is all about discovery, creativity, challenge and opportunity.

Prato, Italy.

## Get ready to see the world

### International placements

Choose from a range of **INTERNATIONAL PLACEMENTS** – Asia, Africa, Europe, US.

### Overseas internships

**INTERN** at the United Nations, New York, or Shandong Television in China – just two of many options.

### Monash Malaysia

Our **MONASH MALAYSIA** campus offers students from Australia and Malaysia the opportunity to spend a semester away from their home campus or apply for inter-campus transfer.

### Monash Prato, Italy

Study at the **MONASH PRATO CENTRE** in Italy – offerings include art, design, architecture, Italian and law.

### Connect

Connect with **310,000 ALUMNI** across the globe.

With 70,000 students and 310,000 alumni from more than 170 countries, Monash is Australia's largest university.

Kuala Lumpur, Malaysia.

Prato, Italy.

# Accommodation

Live on campus at Monash for a convenient, focused and supportive environment designed to allow the disciplined study necessary to complete a graduate-level course.

Monash Residential Services offers specific floors dedicated to graduate students. Some buildings have dedicated graduate lounges and other facilities that foster collegiality and recognise the needs of our more mature students.

All of this is situated at the heart of campus life where residents have access to recreational facilities and ease of living with a supermarket,

banks, cafes, restaurants, parks, libraries, sporting facilities and a cinema all close by\*. Monash on-campus accommodation is available at Clayton and Peninsula campuses. We recommend you book early to secure your place.

[mrs.monash.edu](https://mrs.monash.edu)

\* Applies only to Clayton campus.

### DID YOU KNOW?

MRS residents have a consistently higher pass rate than non-residents. The pass rate for MRS residents is 93 per cent compared to 88 per cent for non-residents.

# Budgeting

It's a good idea to plan and prepare a budget before you go to uni, especially if you plan on living out of home.

You can use these tables to help prepare a budget. However, these figures are only estimates; costs will vary depending on your location and your lifestyle. Rent, for example, is more expensive in some areas of Melbourne than others. You may need to add other items to your budget, such as ongoing mobile phone and internet fees. All costs are subject to inflation.

### ON-CAMPUS SINGLE LIVING\*

Costs	Monthly (A\$)	Yearly (A\$)
Building and amenities fee		300
Application fee		50
Halls of residence fees during academic year (40 weeks)		5908
Halls of residence fees during summer vacation (12 weeks)		1772.40
Telephone and internet connection		275
Books, stationery and equipment		1100
Clothing		900
Food (lunch Mon–Fri)	300	3600
Halls of residence meals (optional)	400	4800
Miscellaneous (entertainment, personal items)	330	3960

Total yearly cost **A\$22,665.40**

### RENTING\*

Costs	One-off costs (A\$)	Monthly (A\$)	Yearly (A\$)
Bond (one month's rent)	435		
Telephone/utilities connection	150		
General establishment (furniture/linen)	1000		
Books, stationery and equipment			1100
Clothing			900
Health cover (OSHC) – international students only			349
Average rent		435	5220
Food (lunch Mon–Fri)		300	3600
Household costs (food, power, phone)		400	4800
Travel expenses		250	3000
Miscellaneous (entertainment, personal items)		330	3960

Total yearly costs (including establishment) **A\$24,514**

\* These tables are provided as an approximate guide only and do not include tuition fees, mobile phone charges, internet service fees or motor vehicle expenses. The figures are only estimates, are subject to inflation and will vary depending on location, lifestyle and preferences.

Graduate Student Hub – a dedicated study space for graduate students, Campbell Hall, Clayton campus.

Sample studio room.

### DID YOU KNOW?

Living on campus is less expensive than comparable private rentals. Prices start at \$230 per week. This gets you a fully furnished apartment with all utilities included.

## Off-campus accommodation

Not interested in living on campus? There are plenty of off-campus options.

If you need help deciding or advice on how to get started, give us a call on 1800 666 274 or send us a query online at [ask.monash.edu](https://ask.monash.edu). We will be happy to help you with any queries you have – not just before arriving, but throughout your entire time at Monash.

# Our campuses

Monash University has four Melbourne-based campuses, specialised teaching locations in Melbourne’s CBD, as well as international campuses and study centres.

Each Monash campus has its own personality, but all are friendly, respectful and welcoming communities where you will feel at home.

We also have a campus in Malaysia; a joint graduate school in China; a learning centre in Italy; and a research centre in India. We also deliver awards at other locations with partners such as Laureate International in South Africa.

[monash.edu/campuses](https://monash.edu/campuses)

### DID YOU KNOW?

Studying at Caulfield but want to take some units at Clayton? Most of our Melbourne campuses are connected via a network of free shuttle buses. Many students who study at Caulfield live on the Clayton campus.

[monash.edu/people/transport-parking/inter-campus-shuttle-bus](https://monash.edu/people/transport-parking/inter-campus-shuttle-bus)

### Clayton

Live, study and play at Clayton. Designed to give you everything you need all in one place, Clayton is our largest campus with more than 26,000 students. You will learn alongside students from eight of Monash’s 10 faculties. You could be lunching with linguists or playing football with physicists. Make friends, find study partners, expand your mind.

Beautiful natural features such as the Rainforest Garden or the Lemon-scented Lawn complement on-campus arts spaces, sporting facilities and a variety of food and drink outlets. With every amenity close by, Clayton is a university town.

### Caulfield

Caulfield, our second-largest campus, is a hive of collaboration and creativity for fine arts, design and architecture, business and journalism. Cafés, sporting facilities and a new library surround the newly developed Campus Green and Sound Shell, a focal point for student gatherings.

Next to the campus you’ll find a large supermarket and a variety of restaurants. Caulfield train station, a public transport hub, is just metres away, taking you to the city in less than 20 minutes.

### Parkville

Parkville, our specialist pharmacy and pharmaceutical sciences campus, is in the heart of Australia’s top health and biomedical precinct. Our neighbours include major hospitals, the Walter and Eliza Hall Institute, the Howard Florey Institute, CSL Limited, the Ludwig Institute for Cancer Research and CSIRO’s Division of Health Sciences. Surrounded by parks, it’s a short tram ride from central Melbourne and within walking distance of the vibrant inner-city suburbs of Carlton and Brunswick, which have contributed much to Melbourne’s artistic and multicultural soul. It’s also home to our research arms, the Monash Institute of Pharmaceutical Sciences and the Centre for Medicine Use and Safety.

### Melbourne CBD

Study law at the heart of the Melbourne legal precinct. All graduate law courses are taught at the Monash Law Chambers located at 555 Lonsdale Street, within walking distance of the Magistrates’, County and Supreme courts.

The Law Chambers provides independent study spaces specifically designed for working professionals.

### Peninsula

Monash University’s Peninsula campus is part of a vibrant, integrated health and education precinct, providing excellent education to our students and undertaking innovative research with our partners, especially in the areas of allied health and primary care.

Courses are offered by the Faculty of Medicine, Nursing and Health Sciences, the Faculty of Education, and Monash Business School.

# Living in Melbourne

If you're looking for an unforgettable study experience, Melbourne's the place for you – it has an enviable reputation for welcoming international students and providing them with a home away from home.

Named the world's most liveable city for the past six years\*, it's a rich, multicultural melting pot of friendly, cosmopolitan people, with high education, health care, public transport and safety standards, along with excellent employment rates. Melbourne's diverse economy is renowned for its strengths in finance, information communications technology, biotechnology, research, manufacturing, automotive, aviation/aerospace and creative industries. With a population of more than four million, there are vast opportunities for casual work while studying.

\* Economist Intelligence Unit 2011-2016

From beautiful parks and gardens to the edgy arts and music scene, the city has something for all tastes, including international sporting events and a range of cultural festivals. If food is a passion, you'll be superbly catered for in Australia's restaurant capital, with more than 3000 restaurants offering cuisines from around the world.

## DID YOU KNOW?

It is a good idea to plan and prepare a budget before you arrive in Australia. Your tuition and study fees do not include personal costs such as accommodation, food and other things you will need. These costs can add up to approximately A\$27,090.

See page 11 for more information or go to [monash.edu/cost-of-living](https://monash.edu/cost-of-living)

## Architecture

PROFESSIONAL ENTRY MASTER'S

The Master of Architecture is ideal if you have completed undergraduate studies in architecture and want to be equipped to address the growing challenges of the evolving built environment.

You'll be trained as an integrated urban professional with the vision to design progressive architecture that responds to the dynamic needs of contemporary society and speculates about the future of our built environment.

The Master of Architecture meets the academic requirements for registration as an architect in Australia. As a student you'll undertake high-level study in specialised areas of architecture, from housing and urban design to digital practices.

Through project-based design studios you will gain exposure to leading design practices. An integrated program of study will allow you to select from a range of design studios in conjunction with advanced architectural studies – complementary depth units that introduce you to the methods and tactics of architectural design research and engage with the multidisciplinary socio-cultural, political, economic, historical, theoretical and technical dimensions relevant to contemporary architecture and urbanism.

You'll also develop knowledge of architectural practice within the context of multidisciplinary collaborations and evolving construction methods and practices. Your studies will culminate in the final year with a self-directed project. In order to register as an architect, you must also complete two years of professional practice and pass the AACA Architectural Practice Examination. For more details please visit the Architectural Registration Board of Victoria website at [arb.vic.gov.au](http://arb.vic.gov.au)

### Entry requirements

An Australian bachelor's degree (or equivalent) in architecture with a credit average in the final year of the degree.

This qualification must have been completed within five years of the proposed commencement of the master's program. Your application should be accompanied with a folio (four projects, no more than 20 images) of recent, original work, clearly numbered with a corresponding list of details attached and a current academic and professional CV.

The application process will be conducted in two stages, with your folio and CV being reviewed before being shortlisted for an interview. Those who have successfully completed the Bachelor of Architectural Design at Monash University will automatically progress to the Master of Architecture.

🎥 “Standing alongside a client in front of a completed project is incredibly satisfying. When you've spent countless hours obsessing over the minutest of intricate detailing, touching the end product makes it all worth it. To be a part of an industry constantly reimagining and reshaping the urban fabric is immensely motivating.”

ELLA BLUTMAN-JAFFÉ  
Graduate Architect, Harmer Architecture  
Master of Architecture, 2014

# Design

EXPERT MASTER'S

A professionally focused program of advanced study in contemporary design practice, the Master of Design course includes specialisations in interaction design, multimedia design and collaborative design.

You can also take a range of units from across these three to construct an advanced studies in design specialisation. This program is ideal for those keen to enter the expanding fields of professional design engagement, or design practitioners aiming to upgrade their expertise. You'll be trained in advanced design thinking and processes that'll equip you to create design solutions that engage experiential, communication, object and spatial contexts.

### Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit, which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in any field	2
Bachelor's in a related field <sup>3</sup> , OR Bachelor's degree in any field + relevant expertise <sup>4</sup>	1.5
Bachelor's (Hons) in a related field <sup>3</sup>	1

1. Selection is based on previous academic achievement. Applicants applying to do the 1.5 or one-year program are required to provide 10–15 images of recent, original work, clearly numbered with a corresponding list of details attached, and to identify your preferred specialisation.
2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.
3. Related fields may include graphic design, communication design, visual communication, interior design, interior architecture, exhibition design, interaction design, user experience design, multimedia design, motion design, web design, industrial design or product design.
4. For example, by a relevant graduate certificate, graduate diploma or work experience.

### English language requirements

Category A (see page 107)

### Specialisations

#### Advanced studies in design

This pathway allows you to construct, with approval, an individual program of study from across interaction design, multimedia design and collaborative design. This enables you to tailor your unit choices while addressing the fundamental principles of advanced design practice and thinking. It'll inspire you to connect research and practice across the design disciplines, and to become a thoughtful design practitioner. You'll broaden your knowledge of key design constructs, deepen your professional learning in design areas of interest, and advance your capacity as a design professional.

#### Collaborative design

Collaborative design places you conceptually and practically at the intersection of interior, graphic and industrial design practice. The program will set you design challenges involving image, text, products, narratives, systems, services, public and private space, materiality and virtuality. You'll develop independent conceptual and practical design skills alongside an ability to be part of collaborative design processes. You'll expand your awareness across design disciplines; develop multidisciplinary design expertise; and build broader skills in leadership, professional adaptability and complex project planning.

#### Interaction design

The interaction design specialisation develops your skills in the design of contemporary artefacts, products and services that engage with interactive, user-focused technologies and processes. These can include, but aren't limited to, health and medical equipment, 'smart' furniture, educational toys, wearable technologies, information kiosks and transport systems. You'll use a diverse range of interactive processes, including the application of advanced technologies; electronics and programming; physical and virtual interface manipulation; engineering and material fabrication; and rapid prototyping. The specialisation gives you an understanding of the relationship between interactive activities, products and human behaviour.

#### Multimedia design

Multimedia design develops your skills in digital communication environments. This includes designing for the web; motion and animation; and interactive touchscreen devices and surfaces. Emphasising an advanced knowledge of existing and emerging digital design processes and systems, this specialisation embraces projects of varied scale, from hand-held smart devices to large public interactive screens. It develops your ability to build a communication narrative; use multimedia processes to fill community and business needs; and understand the end-user's engagement with projects or products such as websites, apps and other screen-based media.

# Urban Planning and Design

PROFESSIONAL ENTRY MASTER'S

Planners can no longer rely on policy-focused approaches to re-frame contemporary and future cities.

In this project-based urban planning and design course, recognised by the Planning Institute of Australia, you'll work on projects based in real settings, addressing the challenges facing planners in the 21st century.

The Master of Urban Planning and Design course offers an interdisciplinary and collaborative approach, engaging with the urban planning interests in the Department of Architecture as well as other research interests in Monash University, such as the Cooperative Research Centre for Water Sensitive Cities, the Monash Sustainability Institute and the Monash Infrastructure Institute.

The focus of the project studios is on understanding the impacts relating to the growth and transformation of cities – themes include the Compact City, the Ecological City, the Sprawling City and the Inclusive City. The cumulative project work is undertaken in groups and individually in the studio setting, and includes field visits, workshops, seminars and case study research. You'll work with students from a range of disciplines and backgrounds, along with Australian and internationally experienced academics and practitioners committed to multidisciplinary research.

The course is open to applicants from backgrounds as diverse as architecture, landscape architecture, engineering, economics and geography. On graduating you'll be equipped to seek employment in government departments and agencies, and in planning practices in Australia and around the world.

### Entry requirements

An Australian undergraduate degree (or equivalent) with at least a credit average, a CV, and a 250-word statement of purpose outlining your area of interest and the reason why you would like to complete the course.

The application process will be conducted in two stages, with your statement and CV being reviewed before being shortlisted for an interview.

# Applied Linguistics

EXPERT MASTER'S

Applied linguistics is one of the fastest-growing fields of study in the humanities.

As globalisation expands, so does the demand for those with intercultural communication skills to reach wide audiences. The course offers a competitive advantage to language teachers, interpreters, editors and others working with language in increasingly multilingual and multicultural societies. Two specialisations are available – applied linguistics, and teaching world Englishes for international communication.

### Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit, which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in any field	2
Bachelor's in a related field <sup>3</sup>	1.5
Bachelor's (Hons) in a related field <sup>3</sup> , OR Bachelor's degree in any field + relevant expertise <sup>4</sup>	1

1. Selection is based on previous academic achievement.
2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.
3. Related fields include linguistics, applied linguistics, language study or teaching, translation and interpreting, TESOL and speech pathology.
4. For example, by a relevant graduate certificate, graduate diploma or work experience.

### English language requirements

Category A (see page 107)

### Specialisations

#### Applied linguistics

This gives you a strong understanding of language structures and use across a variety of languages. It's ideal for anyone working with language issues in a multilingual and multicultural context. It is suited to a range of professionals such as interpreters, editors and policymakers, and is also recommended for teachers of senior high school English courses, language teachers and generalist teachers.

#### Teaching world Englishes for international communication

This provides a detailed knowledge of the teaching and use of English as an international language. It looks at the spread of English around the world, including socio-cultural, conceptual and ideological considerations. It addresses issues such as the speaker's identity, the teaching of English as an international language, and the use of English as a common language in international professional contexts.

# Bioethics

EXPERT MASTER'S

There’s increasing community concern about ethics in science, especially in the health and biological sciences. The Master of Bioethics is a response to that concern.

Taught through the Monash Bioethics Centre (home to the World Health Organization (WHO) Collaborating Centre for Bioethics – one of only six such centres worldwide), you’ll work with expert staff who are internationally recognised leaders and active, prominent contributors to public and professional discussions about a variety of issues in the field.

You’ll have the opportunity to collaborate with industry and participate in study tours and field schools, both in Australia and overseas.

The Master of Bioethics is particularly well-suited to health care professionals and scientists who face complex ethical issues in their working lives. It also offers skills development for those formulating related public policy and law, as well as for anyone wanting to explore issues of public concern.

Your course takes a broad approach to key issues such as ethical theory, questions of life and death, ethical issues in patient care, human-research ethics, legal and policy issues in bioethics, and ethical issues in professional life. It’s suitable for those with little or no background in ethics or philosophy, and also for philosophy graduates with an interest in further study of bioethics.

### Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit, which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in any field	2
Bachelor's in a related field <sup>3</sup> , OR	1.5
Bachelor's (Hons) in a related field <sup>3</sup> , OR Bachelor's degree in any field + relevant expertise <sup>4</sup>	1

1. Selection is based on previous academic achievement.
2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.
3. Related fields include medicine and other health sciences, life sciences, social sciences, law and humanities.
4. For example, by a relevant graduate certificate, graduate diploma or work experience.

#### DID YOU KNOW?

As a Monash Master of Bioethics student you can apply for an annual fellowship to work as an intern in the Global Health Ethics Unit at the World Health Organization headquarters in Geneva, Switzerland.

# Communications and Media Studies

EXPERT MASTER'S

As the most established program of its type in Australia, the Master of Communications and Media Studies has a long record of success.

The program draws strongly on specialist expertise and focuses on fostering industry-ready graduates.

You’ll be introduced to the latest developments and research in communications and media – including in social and online media – always with a view to real-world application. The course features guest professional speakers in conjunction with industry-focused field trips to media outlets in Sydney, Melbourne and Shanghai.

You’ll have the opportunity of industry internships in Australia and overseas. For example, students in our program have recently completed internships with the United Nations in New York, and with Shandong Television in China.

The course is ideal for those working or seeking employment in communications and media industries – for instance, electronic journalism, media strategy, public relations or brand marketing. The course also has a research option that can be a gateway to a further higher degree such as the PhD.

### Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit, which reduces the duration.

# Cultural and Creative Industries

EXPERT MASTER'S

This exciting course provides you with an overview of the rapidly growing cultural and creative industry sector, and its many employment opportunities.

You will get a detailed understanding of this dynamic sector in close contact with a range of industry professionals and real-world projects from Australia and overseas. Whether exploring creative clusters in Melbourne and Shanghai, assessing festivals in rural Africa or understanding the business models of global digital industries, our agile content will prepare you for an amazing career.

The course is intended for those who want to work in the arts, cultural and creative industries; in the public, independent or commercial sectors; in cultural policy and industry governance; in urban cultural regeneration and branding; or in culture and development projects.

# International Development Practice

EXPERT MASTER'S

Want to improve the wellbeing of millions worldwide?

This course will help you tackle the political, economic, cultural and ecological challenges that lead to extreme poverty, poor health, fragile governance, inequality and environmental vulnerability. All these issues require professionals with the practical skills and analytical capacity to build resilience at national and community levels. Delivered by specialists from the humanities, social sciences, medicine, business, education and law, the course offers a broad approach to sustainable development with four streams: democracy, justice and governance; gender, conflict and security; crisis, change and management; and sustainable resource management.

The course is designed for those working, or planning to work, in areas such as human rights advocacy; aid agencies in government and non-government sectors; non-government organisations; the Fair Trade business sector; community organisations; and international institutions such as the United Nations and the World Bank.

## Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit, which reduces the duration.

# International Relations

EXPERT MASTER'S

Our world is shaped by big questions about global justice, war, peace, social movements and inter-state relations.

The Master of International Relations gives you the skills to deal critically and analytically with such questions, providing a window into the dynamic world of 21st-century politics.

The course explores the security, ethical, legal and economic dimensions of international relations. You'll look at key issues in foreign policy, world order, European studies, crisis management and terrorism, as well as the gender, development, migration and governance aspects of global politics.

Our graduates have gone on to a broad range of occupations at organisations including the United Nations, Australian government departments (DFAT, defence, attorney general), International Red Cross, Australian Federal Police, Australian Trade Commission and ASEAN Ministry of Foreign Affairs.

## Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit, which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in any field	2
Bachelor's in a related field <sup>3</sup> , OR Bachelor's degree in any field + relevant expertise <sup>4</sup>	1.5
Bachelor's (Hons) in a related field <sup>3</sup>	1

1. Selection is based on previous academic achievement.
2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.
3. Related fields include humanities or social sciences.
4. For example, by a relevant graduate certificate or work experience.

## English language requirements

Category A (see page 107)

## Specialisations

### General studies in international relations

Tailor your studies to suit your own interests or needs while addressing the fundamental debates surrounding global politics. By selecting subjects across the range of available specialisations, you'll be able to examine key issues in foreign policy, international and comparative governance, world order and security, human rights, European studies, crisis management, diplomacy and trade, or terrorism.

### Governance and security

This provides you with a comprehensive understanding of how power, authority and participation is managed within and among states, as well as challenges to this domestically and internationally. You'll focus on the practical applications of governance, institutions and the rule of law, and how it works in the global environment.

### International diplomacy and trade

This specialisation is designed for those at the start of their working life, as well as those working in the field who want to further their careers in international public policy, NGOs and government departments such as the Department of Foreign Affairs and Trade. You'll advance your knowledge of international trade, diplomacy and international law.

### Political violence and counter-terrorism

Engage with the ideologies and conditions that give rise to political violence. You'll focus on understanding terrorism and political extremism, the conditions associated with preventing and combating political violence, and the effects of these activities on democratic and civil liberties.

## DOUBLE MASTER'S PROGRAMS

### Double master's with Master of Journalism

If you're looking to enter the field of professional journalism, a Master of Journalism and Master of International Relations double degree provides a comprehensive introduction to the international political system. See page 28 for more information.

### Double master's with Shanghai Jiao Tong University, China

Offering a truly international perspective, this double degree course immerses you in two cultures. It combines the Master of International Relations at Monash with the Master of Arts in Chinese Politics and Economy from Shanghai Jiao Tong University. You'll study one year at Monash University in Australia and one year in Shanghai. On successful completion, you'll not only have the invaluable international insights this experience offers, but you will also be eligible to graduate with degrees from both universities.

# International Relations and Journalism

EXPERT DOUBLE MASTER'S

Keen to further focus your interests and aspirations?  
This double degree course could be for you.

You'll complete one of the specialisations offered within the Master of International Relations for a comprehensive introduction to the international political system and key issues in international relations. You'll also take on the main components of the Master of Journalism, giving you the chance to enter the journalism industry, or, if you're already part of the media, to extend your expertise.

The course's national and international orientation means you'll use a full range of media technologies and gain insights into approaches to international relations. With an overlap or reduction of electives taken, the overall duration of completing the two degrees is reduced.

## Entry requirements

# Interpreting and Translation Studies

PROFESSIONAL ENTRY MASTER'S

The Master of Interpreting and Translation Studies course develops your practical and theoretical skills in translation and interpreting in English and a second language chosen from Chinese, French, German, Indonesian, Italian, Japanese, Korean or Spanish.

Our course is approved at the Professional Interpreter, Professional Translator and Conference Interpreter levels by the National Accreditation Authority for Translators and Interpreters (NAATI).

Monash is also the only university in Australia to be a member of the Conference Internationale d'Instituts Universitaires de Traducteurs et Interpretes (CIUTI), the world's oldest and most prestigious international association of tertiary institutions offering degrees in translation and interpreting. We offer two specialisations: translation, and interpreting and translation.

## Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit, which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in a related field <sup>3</sup> including advanced bilingual proficiency <sup>4</sup> , OR Bachelor's degree in any field and relevant expertise <sup>5</sup> including advanced bilingual proficiency <sup>4</sup>	2

## English language requirements

Category H (see page 107)

## Specialisations

### Translation

This prepares you for work in areas where written translation and writing skills are needed, such as literary and cultural translation, cross-cultural communication, business, law, science and technology, publishing, editing or journalism. You'll work from your second ('B') language into your first ('A') language. You will also develop your research methods, giving you the chance to pursue doctoral studies in translation studies if desired.

### Interpreting and translation

This readies you for work in areas where interpreting (i.e. verbal translation) and cross-cultural skills are required, such as in health care, law, business or education settings, as well as international diplomacy and conferences. Training is bi-directional in the two languages, and you'll need to be able to fluently converse in both.

# International Sustainable Tourism Management

EXPERT MASTER'S

Sustainability is increasingly influencing tourism planning, development, governance and management as the industry expands.

With the growth rate of emerging economies doubling that of advanced economies in the years leading to 2030, sustainable tourism is playing a leading role in the United Nations Millennium Development Goals.

This course meets the growing demand for specialists in tourism planning, marketing and industry management who not only have a deep understanding of global business activity, but also clear insights into the effects of planning and policymaking on the environment, society, culture and the economy.

## Entry requirements

## INTERNATIONAL DOUBLE MASTER'S PROGRAMS

The Master of Interpreting and Translation Studies can also be taken as part of a double degree program with an international partner in France, Italy or Japan.

This international double degree program immerses you in two cultures, with one full year in Australia and another at the partner university.

You'll complete the requirements of the Monash Master of Interpreting and Translation Studies (MITS), as well as a second degree with one of the following universities: Jean Moulin Lyon III (French, specialising in translation); Kobe City University of Foreign Studies (Japanese, specialising in interpreting and translation); Universitas Trieste (Italian and either French, German or Spanish, specialising in translation or in interpreting and translation).

See [future.arts.monash.edu/mits/double-degrees](https://future.arts.monash.edu/mits/double-degrees) for further information.

# Journalism

EXPERT MASTER'S

The journalist of the future will play a crucial role in society by scrutinising and holding to account those in power, shedding light on systemic failings, and finding the truth.

If you want to enter this rapidly changing industry, or you're a part of the media and want to extend your expertise, the Master of Journalism is right for you.

Working with award-winning journalists and academics with outstanding industry links, you'll gain expert skills in research and reporting in print, digital, radio and video, and explore the media's evolving role in society.

## Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit, which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in any field	2
Bachelor's in a related field <sup>3</sup> , OR Bachelor's degree in any field + relevant expertise <sup>4</sup>	1.5
Bachelor's (Hons) in a related field <sup>3</sup>	1
<div><div>1. Selection is based on previous academic achievement.</div><div>2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.</div><div>3. Related fields include humanities or social sciences.</div><div>4. For example, by a relevant graduate certificate or work experience.</div></div>

# Tourism

EXPERT MASTER'S

Global demand is rising for highly skilled professionals in international tourism and related industries.

Our Master of Tourism course, Australia's longest-running and most industry-focused graduate tourism program, prepares you for a career in tourism management, planning, policy and sustainable development.

You'll develop specialised skills in all aspects of the international tourism industry, including key sectors such as tourism marketing and destination management.

You'll gain a global perspective on all forms of tourism, and take part in industry-based workshops or an internship, as well as field trips to local and international destinations.

## Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit, which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in any field	2

## DOUBLE MASTER'S PROGRAMS

### Double master's with Master of International Relations

This double degree program is designed to optimise the contribution you can make as a journalist in the international field, using a full range of media technologies as well as insights into approaches to international relations. You'll graduate with both the Master of Journalism and the Master of International Relations.

### Double master's with the University of Warwick, UK

In this double degree program you'll complete one year of the Master of Journalism at Monash, then undertake the taught component of one of the nine available Politics and International Studies (PAIS) programs in the Master in Arts (MA) degree at Warwick.

You'll conclude your studies with a joint dissertation (to be taken at either Monash or Warwick) with a supervisor from Monash and from Warwick.

Upon successful completion, you'll receive a Master of Journalism from Monash and a Master of Arts in Politics and International Studies from Warwick.

Tourism students on fieldwork arriving at Nacula Island, Northern Uasawa, Fiji.

# Accounting

EXPERT MASTER'S

This course allows you to focus on specific fields of accounting practice and develop the high-level expertise that's in high demand.

Developed for accounting graduates, our forward-thinking curriculum connects research and practice to give you a deep understanding of the latest applications. You'll align your professional learning with your career goals or interests, with specialist studies in financial accounting, forensic accounting, auditing, management accounting, and accounting information systems. By studying this course you may be eligible for exemptions towards Chartered Institute of Management Accountants (CIMA) papers, associate membership and entry to CPA Program of CPA Australia, entry to Chartered Accountants Program of Chartered Accountants Australia and New Zealand, and associate membership of the Institute of Public Accountants.

### Entry requirements

Depending upon your prior qualifications and experience you may be eligible for entry credit, which reduces the duration.

You must prepare a one-page statement of purpose that includes:

- your reasons for applying to the program
- how completion of the program will enhance career aspirations, and
- a personalised statement detailing how you can contribute to the program.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree with a major in accounting	1.5
Bachelor's degree in accounting and a graduate certificate, OR Bachelor's (Hons) in accounting	1
<small>1. Selection is based on previous academic achievement. For further details see study.monash/courses. You will be ranked and selected based on your entire academic record. 2. # Professional Accounting

PROFESSIONAL ENTRY MASTER'S

You'll explore all aspects of business, financial and management accounting in this course, as well as gain the fundamental skills to work in the profession.

The course is well-suited to recent graduates and professionals in the early stages of their careers who have a bachelor's degree in another field and are seeking a complementary professional accounting qualification. You'll develop a strong understanding of key concepts and gain expertise in current business practices. You may also qualify for membership with leading accounting institutions and industry bodies, such as CPA Australia, the Institute of Public Accountants, and the Institute of Chartered Accountants Australia and New Zealand.

### Entry requirements<sup>1</sup>

An Australian bachelor's degree in a non-accounting field with a Weighted Average Mark of 65 (or equivalent). You must prepare a one-page candidate statement that shows you possess the motivation and academic skills required to successfully complete the program.

1. Selection is based on previous academic achievement. For further details see study.monash/courses. You will be ranked and selected based on your entire academic record.

You'll focus on specific fields of accounting practice alongside study of the legal environment and its effect on business practice in corporate governance, financial regulation, compliance and taxation. This course is designed for those who need specialist legal knowledge in their roles, such as those in regulatory, compliance or risk-management positions, and who want to combine this knowledge with an advanced accounting qualification.

An Australian bachelor's degree (or equivalent) in a non-accounting discipline with Weighted Average Mark (WAM) of 65 or an equivalent GPA as determined by the faculty. You'll be ranked and selected based on your entire academic record with due consideration given to relevant employment experience.

You must also submit a one-page candidate statement in which you are required to demonstrate that you possess the motivation and academic skills required to successfully complete the program.

## Category A (see page 107)

EXPERT MASTER'S

You can build your knowledge in one of three specialisations: applied econometrics; applied economics and econometrics; or business economics. With a comprehensive theoretical and practical curriculum across your chosen field, you'll develop expertise in applied economic and econometric tools. You'll also have the opportunity to undertake independent research in your specialisation.

Depending upon your prior qualifications and experience you may be eligible for entry credit, which reduces the duration.

1. Selection is based on previous academic achievement. You will be ranked and selected based on your entire academic record.
2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.
3. Related fields include economics, econometrics and business statistics.
4. For example, by a relevant graduate certificate.

Designed for technical, mathematical and scientific graduates, as well as professionals in the early stages of their careers, you'll broaden your knowledge of key mathematical learning constructs and gain the skills and professional values to become an effective actuary. The course deepens your understanding of specialist areas of actuarial practice and may include exemptions for Parts I and II of subjects of the Institute of Actuaries Australia.

Depending upon your prior qualifications and experience you may be eligible for entry credit, which reduces the duration.

1. Selection is based on previous academic achievement. You will be ranked and selected based on your entire academic record.
2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.
3. Related fields are technical, mathematical or scientific disciplines.
4. For example, by a relevant graduate certificate.

## Category A (see page 107)

## Applied econometrics

This gives you the econometric and statistical analysis tools required in the business, economics and finance sectors. You'll develop skills in econometric techniques across applied econometrics, time series analysis, financial econometrics, macro-econometrics and micro-econometrics. You'll also be able to design and implement applied econometric projects for the government and business sectors.

You'll gain the economics and econometrics skills to address important economic policy questions. You'll learn how to use economic or related theory and econometric models for assessing economic and public policies, and develop the knowledge and research experience to seek jobs in the private, public or institutional sector as an economist.

You'll gain advanced knowledge of the theories explaining and analysing economic policies – focusing on how individuals, households, firms and governments interact and how economies work, with an emphasis on economic regulation and policy. Designed for those who want to develop expertise in applied economic tools as well as undertake independent research, this specialisation extends your knowledge of economic analysis in the global economy. You'll also be able to focus on areas of business strategy, competition policy, economic policy, project evaluation, pricing, and risk and regulation.

# Business

EXPERT MASTER'S

The forward-thinking, industry-focused Master of Business emphasises personal development, ethics, corporate governance and social responsibility.

Your leadership and interpersonal skills will be a focus, transforming the way you operate in professional contexts. Designed for recent graduates, the course will give you the expertise you need to enter the corporate world, and provides you with a broad-ranging master's degree in business. Alternatively, you can specialise in a business field of your choice.

Entry requirements

Depending upon your prior qualifications and experience you may be eligible for entry credit, which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in any field	2
Bachelor's degree in a related field	1.5
Bachelor's (Hons) in any field	1.5
Bachelor's degree in any field + relevant expertise <sup>3</sup> , OR Bachelor's (Hons) degree in a related field	1

- Selection is based on previous academic achievement. You will be ranked and selected based on your entire academic record.
- Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.
- For example, by a relevant graduate certificate, graduate diploma or work experience.

English language requirements

Category A (see page 107)

Specialisations

Business ethics and society

You'll investigate the role of businesses as ethical and social leaders. You'll gain an understanding of the ethical and social issues businesses face, and develop your critical engagement and leadership capabilities. You'll also learn how to manage diversity, inclusiveness, and work/life balance, as well as apply them within managerial roles in the private, public and not-for-profit sectors.

Commercialisation

You'll develop the skills to commercialise scientific and technological projects. Covering venture finance, patenting, innovation and wealth pathways, you're provided with a comprehensive business-focused setting to help you develop business and entrepreneurial acumen. This specialisation is aimed at those with a background in science or technology who are keen to develop their commercialisation expertise.

Information technology

Focusing on current practices and emerging IT strategies in business contexts, you'll be introduced to the management, creation, storage, retrieval and dissemination of business data in organisation-wide frameworks. You'll also gain a high-level understanding of project management.

Law and responsible business

Regulatory issues are important in the business environment. You'll learn how legal and social responsibility considerations affect business decision-making, as well as the legal issues affecting other business functions such as corporate governance, taxation, marketing, corporate social responsibility and human resources.

Managing human capital

This gives you an understanding of the theoretical and practical issues of managing people in labour markets. The units focus on strategic and operational people management issues, as well as the broader international context facing today's managers. Also covered are industrial relations, consulting, public sector management and general people management issues.

Marketing

You'll focus on the central concepts of marketing for business, learning foundation concepts as well as more advanced strategies for buyer behaviour, integrated marketing communication, marketing research, relationship marketing, innovation, planning, and assessing marketing performance.

Project management

Gain the practical skills required by project managers working in global environments. Focusing on modern approaches to project management, study areas include business and project finances, designing business processes, technological tools for project management, and other organisational functions.

Quantitative business analysis

You'll develop the advanced quantitative skills required to carry out statistical analysis in business, economics and finance, and report on the findings of your quantitative analysis.

Risk management

Explore current practices and emerging strategies for applying enterprise-wide risk management (EWRM) in complex business structures, and be introduced to the latest practices that allow the management of risk to be a value driver for business prosperity and survival.

Supply chain management

You'll focus on current practices and emerging strategies to improve supply chain performance. You'll study the strategic management of supply chains, as well as their design and optimisation, while also covering the relevant business processes, managing innovation, and sustainable operations management.

Sustainability

Focusing on current practices and emerging strategies to improve corporate sustainability, you'll gain insights from the perspectives of governance, ethics marketing and management. You'll also develop skills in business and sustainability issues, environmental governance and corporate sustainability management.

Monash Business School is one of the few business schools around the world to have achieved the esteemed 'triple crown' of business school accreditations.

</

# Business Law

EXPERT MASTER'S

This course is designed for non-law graduates and those who need specialist legal knowledge in regulatory, compliance or risk-management positions.

You'll develop a deep understanding of the legal environment and its effects on business practice in corporate governance, financial regulation, Asian and international business, human resources and workplace relations, marketing and taxation. The course offers a distinct business perspective on legal issues and developments, and is ideal if you're looking to advance your legal literacy.

### Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in any field	2
Bachelor's degree in a related field	1.5
Bachelor's (Hons) in any field	1.5
Bachelor's degree in any field + relevant expertise <sup>3</sup> , OR Bachelor's (Hons) degree in a related field	1

1. Selection is based on previous academic achievement. For further details see [study.monash/courses](#). You will be ranked and selected based on your entire academic record.
2. Even if you are eligible for a shorter course duration you may elect to complete the longer duration.
3. For example, by a relevant graduate certificate or work experience.

### English language requirements

Category A (see page 107)

# Human Resource Management

EXPERT MASTER'S

The human resource management field is diverse and complex, requiring both general and specialist skills for roles across many industry sectors.

In this course you'll focus on areas of contemporary HR practice to advance your expertise and career. Our innovative curriculum combines research and the latest thinking to give you highly focused and specialised knowledge. You'll also develop a deep understanding of the core principles of HR, including change and talent management, industrial relations, HR planning, leadership, employee development, recruitment and consulting.

### Entry requirements

Depending upon your prior qualifications and experience you may be eligible for entry credit which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in any field + 2 years relevant employment	1.5
Bachelor's degree in any field + relevant study <sup>3</sup> + 2 years relevant employment, OR Bachelor's (Hons) in a related field, + 2 years relevant employment, OR Bachelor's (Hons) degree in any field + 2 years relevant employment	1

1. Selection is based on previous academic achievement. For further details see [study.monash/courses](#). You will be ranked and selected based on your entire academic record.
2. Even if you are eligible for a shorter course duration you may elect to complete the longer duration.
3. For example, by a relevant graduate certificate.

### English language requirements

Category A (see page 107)

# Human Resource Management

GRADUATE DIPLOMA

In this course you'll address the key areas of contemporary HR practice and increase your capacity to influence change and make logical judgments.

This course is best-suited to those who want to pursue graduate studies in HR, as well as HR professionals keen to formalise their education in the field.

### Entry requirements

An Australian bachelor's degree (or equivalent) with an overall Weighted Average Mark (WAM) of 55 and two years of work experience. You'll be ranked and selected based on your entire academic record.

EXPERT MASTER'S

You'll focus on international politics and global business strategy and communication, further developing your business management knowledge. As part of this course you can choose from a specialisation in international business or diplomacy and trade, as well as select from a wide range of elective units, allowing you to tailor the degree to your interests and career goals.

Depending upon your prior qualifications and experience you may be eligible for entry credit, which reduces the duration.

1. Selection is based on previous academic achievement. For further details see [study.monash/courses](http://study.monash/courses). You will be ranked and selected based on your entire academic record.
2. Even if you are eligible for a shorter course duration you may elect to complete the longer duration.
3. For example, by a relevant graduate certificate.

## Category A (see page 107)

You'll develop skills in communications and negotiations across cultures, and the ability to analyse a firm's internationalisation, international trade and corporate strategy. You'll also gain an appreciation of the multinational firm, the environment in which it operates, and the activities required of the international manager.

The diplomacy and trade stream furthers your knowledge of international trade, diplomacy, economics, international law, international development and international politics. Combining foreign affairs and international trade policy subjects, you'll gain a solid understanding of global issues. You'll also develop skills to evaluate trends in foreign and trade policy, understand the implications of international trade rules, and provide policy advice in the areas of foreign affairs, trade and development, and international business.

EXPERT MASTER'S

You'll grow your knowledge of key management constructs and transform how you lead by exploring dynamic organisational environments. This course is well-suited to experienced professionals from a range of backgrounds, including government, community service and not-for-profit organisations, as well as those with technical backgrounds in engineering and medicine who are keen to move into management.

Depending upon your prior qualifications and experience you may be eligible for entry credit, which reduces the duration.

1. Selection is based on previous academic achievement. For further details see [study.monash/courses](http://study.monash/courses). You will be ranked and selected based on your entire academic record.
2. Even if you are eligible for a shorter course duration you may elect to complete the longer duration.
3. For example, by a relevant graduate certificate.

## Category A (see page 107)

EXPERT MASTER'S

Taught by leading academics and industry experts, with a focus on contemporary concepts and issues, it historically attracts many students from the corporate sector, giving you invaluable networking and knowledge-sharing opportunities.

The units are developed in consultation with our industry advisory board to promote leadership, as well as expertise, in our graduates, and our timetable offers flexible study options to suit your busy work schedules and personal commitments. Some units are offered in intensive five-day blocks, or two-day split blocks, in addition to evening classes and online options. The range of elective units on offer also allows you to customise the course to suit your professional interests and career goals, and includes the opportunity to undertake a corporate project under supervision.

Depending upon your prior qualifications and experience you may be eligible for entry credit, which reduces the duration.

In addition to the requirements below, you must also provide your resume including two referees and a one-page statement of purpose.

1. Selection is based on previous academic achievement. For further details see [study.monash/courses](http://study.monash/courses). You will be ranked and selected based on your entire academic record.
2. Even if you are eligible for a shorter course duration you may elect to complete the longer duration.
3. For example, by a relevant graduate certificate.

Counselling

PROFESSIONAL ENTRY MASTER'S

Providing you with a professional qualification, and offering a combination of theory and professional experience, this course equips you with all you need to start a rewarding career as a counsellor.

It suits those from a range of professions, such as human resources, health, social welfare and education, and is taught by academics with extensive experience working as counsellors and psychologists.

It draws on the latest thinking and approaches to counselling and psychotherapy to develop your understanding of the mental health issues that arise across a lifetime. You'll examine the various forms of professional counselling, including online and distance counselling, child and adolescent counselling, and individual, couples and group counselling. The ethical and professional issues faced by counsellors will be introduced, and creative approaches to counselling will be examined, including play therapy and art therapy. You'll also gain in-depth knowledge of contemporary cognitive-behaviour therapies.

You'll complete 300 hours of professional experience, which includes contact and non-contact hours. Non-contact hours include any counselling-related duties associated with the placement centre that don't involve counselling clients. Contact hours include face-to-face, telephone, group and online counselling.

Master of Counselling graduates work across many fields, including careers counselling, education, child and family services, child protection services, health policy, family counselling, health services management and rehabilitation counselling.

Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit, which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>

EDUCATION PATHWAY

The Graduate Certificate of Education Studies provides a pathway into the Master of Education for those who may not meet the direct entry requirements for admission into the Master of Education.

# Education

EXPERT MASTER'S

Designed to develop your professional expertise and advance your career in education, this course addresses the professional learning needs of educators, educational administrators, managers, policymakers and others interested or involved in learning and education, both locally and internationally.

It looks at learning in schools, workplaces and community, and connects research and practice to make you a stronger thinker, an engaged practitioner and an advanced specialist. You'll broaden your knowledge of key learning constructs and deepen your understanding in specialist areas.

You can graduate with a generic, broadly applicable qualification by choosing general education studies and selecting units to suit your requirements, or choose one of the specialisations and gain a qualification highlighting your particular expertise.

Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit, which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in any field	2
Bachelor's degree in a related field <sup>3</sup> , OR Bachelor's degree in any field + 2 years full-time (or equivalent) relevant professional experience <sup>4</sup>	1.5
Bachelor's (Hons) degree in any field	1.5
Bachelor's degree in a related field <sup>3</sup> + 2 years full-time (or equivalent) relevant professional experience, OR Bachelor's (Hons) degree in any field + 2 years full-time (or equivalent) relevant professional experience, OR Bachelor's (Hons) degree in a related field <sup>3</sup>	1
<div><div>1. Selection is based on previous academic achievement.</div><div>2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.</div><div>3. Related fields include, counselling, education, psychology, social work.</div></div>

Category A (see page 107)

Specialisations

Adult learning

This specialisation focuses on ways to lead and develop learners and their learning – in workplaces, communities and local, global and virtual spaces. You'll be offered ideas and approaches to enable participation and learning, through formal and non-formal means, and to expand practice and skill development in communities. You'll look at contemporary theories, approaches and concepts around lifelong learning and participation. You'll identify local and global trends and practices in adult education, and develop strategies to design engaging learning activities for adults. As a graduate you'll be well-positioned to manage, deliver and administer learning in workplaces, communities, tertiary and vocational education.

Applied behaviour analysis

This specialisation is for those interested in the principles and practice of applied behaviour analysis in clinical, school and work settings, as well as those aiming to become Board Certified Behaviour Analysts (BCBA). You will gain knowledge and expertise in the principles of behaviour modification and their application, the identification and assessment of behaviours, evidence-based practices for behaviour analysts, experimental design for research into behaviour analysis, and professional ethics in behaviour analysis. The units in this specialisation have theoretical and practical relevance to professionals in a range of contexts, including inclusive and special education, and the disability sector.

Note: This specialisation has a semester 1 intake only.

Digital learning

This specialisation focuses on the issues regarding digital technology in education, and applying technology practices for learning. Aimed at professionals in school, tertiary, workplace or community settings, you'll learn how best to design, facilitate and assess the use of digital technologies in teaching and learning.

Early childhood education

This specialisation addresses the emerging worldwide need to build the expertise of professionals in the early childhood sector. Your ability to lead educational work, innovative curriculum, teaching and policy, and professional learning in early childhood contexts will grow through your studies, and you'll be ready to pursue senior roles in early childhood education, policy, leadership and management.

Educational leadership and policy

In this specialisation you'll focus on leadership practices and policy development in educational contexts. It's suited to those interested in leading educational initiatives and institutions, and expanding their knowledge of how to lead educational organisations. You'll evaluate the factors that contribute to maintaining and sustaining such organisations, including human intellect, knowledge, values, emotion, learning, and organisational culture and climate. On graduating you'll have developed your capability to improve organisations' problem-solving and decision-making processes.

Expert teaching practice

Deepen your knowledge and practice of teaching and learning in various areas of your interest. It's suited to professionals from schools, tertiary education, workplaces or community organisations and groups. The latest thinking about teaching practices and developments around curriculum assessment will be looked at, and you have the choice to focus your studies in these areas:

- adult education
- educational technologies
- gifted education
- information and communication technologies
- language and literacy
- mathematics and science
- music.

General education studies

This general stream allows you to further your professional interests by choosing from a wide variety of subjects in the education field. You can select your preferred units from across all the specialisations, building a generalist course to satisfy your specific professional and personal interests. You'll explore relationships between research and practice in the context of your choice, such as school, vocational, tertiary, workplace and community. As a graduate, you'll be well-placed to pursue senior leadership and management roles in various educational settings.

Inclusive and special education

In this specialisation you'll focus on building inclusive learning environments. You'll study theories of, and approaches to, inclusion of diverse learners with particular cultural, social, cognitive and behavioural needs. You'll discover ways that education can be transformed to include all learners, regardless of their age, sexuality, gender, class, ethnicity and disability. After graduating, you'll be able to develop effective ways to promote learners with diverse needs in a range of learning situations.

Master of Educational and Developmental Psychology

Fees are per 48 credit points, which represents a standard full-time course load for a year.

COURSE CODE: D6007  
CRICOS CODE: 038585A

# Educational and Developmental Psychology

PROFESSIONAL ENTRY MASTER'S

Educational and developmental psychologists focus on how people develop and learn throughout their lifetime.

They work with individuals, families, groups and organisations, and have varying roles such as school psychologist, guidance officer, and child and adolescent counsellor. They conduct psychological and educational assessments and instructional planning for exceptional children, adolescents and adults.

The Master of Educational and Developmental Psychology, accredited by the Australian Psychology Accreditation Council, is a fifth and sixth-year sequence in psychology that prepares you to practise as an educational and developmental psychologist in settings including schools, health and welfare services, care facilities and business.

You'll develop an advanced understanding of, and the skills associated with:

- human developmental stages and processes throughout the lifetime
- psycho-educational assessment and treatment approaches for problematic or atypical development
- advanced therapeutic counselling processes and the cycle of effective intervention and change contemporary models of exceptionality and inclusion
- evidence-based intervention and treatment programs for psychological problems and psychopathology across the lifetime
- contemporary research and theories of abilities, personality and psychopathology
- ethical, cultural and professional issues
- administering and reporting a range of essential psycho-educational assessment instruments for assessing abilities, personality and adjustment of children through to adults.

You'll apply theory to practice with 1000 hours of supervised professional experience in a range of settings. In a research thesis, you'll develop an evidence-based approach to psychology, carrying out reviews and scientific investigations relevant to the theory and practice of educational and developmental psychology.

As a graduate, you'll be qualified to register as a psychologist with the Psychology Board of Australia (PBA). You'll also meet most requirements for membership of the College of Educational and Developmental Psychologists of the Australian Psychological Society.

**Entry requirements**

A fourth year of psychology study from any course accredited by the Australian Psychology Accreditation Council (APAC), which may be a graduate diploma or bachelor's honours degree (or equivalent), with at least a distinction average in fourth-year psychology. These qualifications must have been completed within the past 10 years. Those with international qualifications will need to have their qualifications assessed by the Australian Psychological Society (APS).

In addition, you must provide evidence of demonstrated suitability for work as a professional psychologist determined by completion of a supplementary form and satisfactory referee reports (one academic and one professional), relevant voluntary or paid work experience, and an interview.

Applicant checks:

- a Working with Children Check (before placement)
- provisional registration with the Psychology Board of Australia (before commencing study, and maintain such registration throughout the period of enrolment).

You must also meet the English language requirements of Monash and of the Psychology Board of Australia (PBA).

Consult the PBA website to ensure you meet these requirements: [psychologyboard.gov.au](http://psychologyboard.gov.au)

**English language requirements**

Category F (see page 107)

**Professional recognition**

Our psychology courses are accredited by the Australian Psychology Accreditation Council (APAC). Professional accreditation ensures those graduating from the courses hold degrees recognised by employers, and adhere to state and national accreditation standards.

# Educational Research

GRADUATE CERTIFICATE

This course is aimed at high achievers wanting to take on a graduate research degree such as a research master's degree or a PhD, but who don't meet the eligibility requirements of previous research experience or feel they don't have sufficient previous research experience.

It's designed as a pathway course to prepare you to undertake research at a graduate level. You'll learn about research methodology, research design and research ethics as you plan and conduct a research study that can lead to a graduate research course.

Completion of this course to a high standard positions you to start a PhD or master's by research in the field of education.

**Entry requirements**

A four-year Australian bachelor's degree (or equivalent qualification from a recognised tertiary institution) in an education discipline or a relevant area with a high credit average.

**English language requirements**

Category A (see page 107)

**Additional requirements**

A 100 to 200-word research proposal and a detailed CV listing qualifications, work experience and details of two recent referees.

# Education Studies

GRADUATE CERTIFICATE

Designed to introduce you to the field of education at a graduate level, this course is suited to those with a first qualification in a discipline other than education.

It's also a pathway for students who don't meet the entry requirements for the Master of Education. It gives you an understanding of concepts and issues in education, locally and globally, and you'll build your knowledge of major theoretical and professional debates in specialist areas.

Through your studies you'll:

- learn the foundational concepts and traditions in education
- gain an understanding of recent issues and debates in policy and practice
- apply critical perspectives in your evaluation of substantive and contemporary issues and ideas
- show analytical skills in evaluating, synthesising and communicating academic concepts
- build confidence in academic practice at an advanced level.

Course completion allows you to pursue education-related careers and/or further study in education. Credit will be granted for equivalent units in the Master of Education (D6002).

**Entry requirements**

An Australian bachelor's degree (or equivalent) with a pass average. Alternatively, those with five years' relevant full-time informal learning, with a recommendation letter (such as a reference from an employer), will be considered on a case-by-case basis.

**English language requirements**

# Leadership

EXPERT MASTER'S

Whether you work in industry, the public or community sector, or in formal education, if you're looking to take the next step in your career, this course is for you.

Your leadership potential will be developed through a blend of formal and informal approaches that promote knowledge and transformation.

The course focuses on the latest theories of leadership and specialised study. You'll study two common units – an interprofessional unit called leadership studies, and a leadership challenge project relevant to your specialist interests. In addition, you'll choose two units from one of three available specialisations.

An Australian bachelor's degree (or equivalent) in a related field with a credit average and a minimum of two years of full-time relevant professional experience.

# Professional Psychology

GRADUATE DIPLOMA

This course, an Australian Psychology Accreditation Council-accredited fourth-year qualification, is suited to those who have completed a bachelor's degree with a major in psychology from any course accredited by APAC, and who want to pursue advanced graduate study in psychology at master's or doctoral level, or alternatively to undertake supervised psychological practice.

📍 Clayton

🕒 1 year

➡ February and July

💰 A\$32,400

📋 Graduate Diploma of Professional Psychology

Fees are per 48 credit points, which represents a standard full-time course load for a year.

**COURSE CODE: D5002**  
**CRICOS CODE: 084063A**

You're offered advanced study of psychology, research training, and an introduction to psychological practice. By engaging with contemporary research and literature in developmental psychology, you'll:

- understand human development across the lifetime, including biological, perceptual, cognitive, personality, social and emotional changes from infancy to adulthood
- examine legislation relating to the practice of psychology, and how to comply with it
- appreciate the role of ethics in maintaining the integrity of the profession
- learn about individual differences and how these may be assessed using different tools
- undertake an independent research project and develop an appreciation of the role of scientific research in the field of psychology.

You'll be able to choose one elective. Topics include developmental psychology and wellbeing, or behaviour change interventions for practitioners.

After graduating you can undertake further training and study needed for professional registration in psychology.

## Entry requirements

An Australian bachelor's degree with a major in psychology from any course accredited by the Australian Psychology Accreditation Council (APAC) with a distinction average in third-year psychology (or equivalent). These qualifications must have been completed within the past 10 years. Those with international qualifications will need to have their qualifications assessed by the Australian Psychological Society (APS).

# STEM Education

GRADUATE CERTIFICATE

The course is intended for educators keen to practise or extend their capacity as a STEM educator.

It will build your capacity to lead and support quality STEM education and inspire your students' engagement with STEM disciplines. You'll develop a sound understanding of concepts and contemporary issues in STEM education, contexts and systems, locally and globally, and of the major theoretical and professional debates in STEM education as located within contemporary research.

This will include content knowledge, pedagogical knowledge and pedagogical content knowledge, in addition to the leadership skills and research skills that inform and enhance the learning of STEM. Through educational research and practice, you will focus on building STEM capabilities to meet future workforce demands.

## Entry requirements

An Australian bachelor's degree in Education (or equivalent) with a pass average. Alternatively, applicants with five years' relevant full-time informal learning, with a recommendation letter or reference from an employer, will be considered on a case-by-case basis.

# Teaching

PROFESSIONAL ENTRY MASTER'S

Do you have an undergraduate degree in any discipline, and want a career as a global educator and teacher?

Our curriculum combines theory and professional experience, giving you the skills and professional values to become an effective educator. You can choose to specialise in early years, primary or secondary education – or a combination of these.

Through engagement with the latest thinking and practices, you'll be able to effectively foster the learning of students of various ages and needs. You'll design learning experiences to ensure your future students progress in areas such as the arts and music, English, mathematics, physical education, health and wellbeing, science and humanities. You'll engage with education priorities and policies, and learn how to apply these in practice to develop professional values that'll position you as a research-informed future education leader.

You'll gain professional experience by completing a minimum of 60 days of teaching practice throughout the course in urban, rural, remote or international settings and schools. This includes locations such as China, Cook Islands, Hong Kong, India, Israel, Italy, Malaysia, Nepal, South Africa, Switzerland and United Arab Emirates.

An education degree is an excellent basis for diverse careers in the classroom, government or private enterprise. As a Master of Teaching graduate, you'll be ready to transform the lives of others through learning.

Entry requirements

An Australian bachelor's degree (or equivalent) with a pass average.

If you're applying for the specialisation in secondary education, you must also have appropriate discipline studies to qualify for two specialist teaching areas or one double teaching specialist area.

If you're applying for the specialisation in primary and secondary education, you need to have appropriate discipline studies to qualify for one specialist teaching area.

To view the secondary teaching specialisations available at Monash, visit: **monash.edu/education/future-students/courses/teacher-education/master-of-teaching/secondary-specialisms**

English language requirements

Category E (see page 107)

Enrolment considerations

- You'll also be required to undergo a Working With Children Check before being able to carry out professional experience placements.
- From 1 July 2016, the Australian Institute for Teaching and School Leadership requires all students of initial teacher education courses to "achieve the standard" in the National Literacy and Numeracy test prior to graduation.
- **CASPer™**: All applicants are required to complete a mandatory online 90-minute computer-based test (CASPer™). To see an example of the test structure, schedule your test or take CASPer™ on your chosen test date, please visit **takeCASPer.com**

Specialisations on next page

▶ “I plan to support women in science – in my course I’m supported by people who encourage me to get excited and nerd out about teaching science! How good is that?”

ALEKSANDRA SEMJONOV  
Master of Teaching in Secondary Education, 2016

Specialisations

Early years education  
(Clayton campus)

This specialisation covers the education of children from birth to eight years of age. You'll be qualified to teach infants and children from birth to five years of age in childcare, kindergarten and preschool settings, and to support their transition to school. You'll gain professional experience through 60 days of supervised teaching placements in early-years settings. As a graduate of this specialisation you'll be prepared for leadership in early-years educational environments.

Early years and primary education  
(Clayton campus)

This specialisation will qualify you to teach infants and children from birth to 12 years of age in childcare, kindergartens, preschools and primary schools. You'll learn the fundamentals of early-years education, how to support children's transition to school, and their progress through the primary years. You'll gain professional experience through 85 days of supervised teaching placements in early-years and primary education settings, and be prepared for leadership roles in both early-years and primary educational environments.

Primary education  
(Peninsula, off-campus)

You'll be qualified to teach children aged five to 12 years in primary schools. You'll gain practical professional experience through 60 days of supervised teaching placements in primary schools, and emerge ready to become an effective and proactive leader and educator in primary education settings.

Primary and secondary education  
(Clayton campus)

Also available in accelerated mode~

As a graduate you'll be qualified to teach children and adolescents aged five to 18 years in primary and secondary schools from foundation to Year 12. Building on the content knowledge developed in your undergraduate degree, you'll be able to teach in one secondary specialist teaching area. You'll also study the key elements of the primary curriculum, including English and literacies, mathematics, arts, humanities and social education, science, and health and physical education. You'll gain professional experience through 60 days of supervised teaching practice in primary and secondary settings.

At the course's completion you'll have career options across primary and secondary schools, as well as in community contexts.

Secondary education  
(Clayton campus)

Also available in accelerated mode~

This specialisation qualifies you to teach adolescents aged 12 to 18 years in secondary schools in two specialist teaching areas (or one double specialist teaching area). You'll gain professional experience through 60 days of supervised teaching practice in secondary environments. As a graduate of this specialisation you'll be set for a future as an innovative specialist teacher in secondary school settings.

~ This can be studied as an accelerated course where you'll be required to undertake more than the standard annual load of 48 credit points in year one in order to complete the course in 1.5 calendar years. The fee quoted is based on 48 credit points of study for one standard year. Therefore you will be required to pay a higher fee in year one where more than the 48 credit points is required.

▶ “The professional placements eased me into the field by allowing me to practise psychology with ‘safety nets’. I’ve been able to build my professional contacts, and my passion has been confirmed because I’ve been able to get out there and practise.”

PEI LING LEE  
Master of Psychology  
(Educational and Developmental), 2016  
(now the Master of Educational and  
Developmental Psychology)

# TESOL

EXPERT MASTER’S

This course suits a range of professionals, educators or prospective educators working in English language teaching locally or internationally, and leads to a graduate qualification in TESOL (Teaching English to Speakers of Other Languages).

You’ll develop expertise in the core principles of language teaching and learning, with an optional field observation program that allows you to observe Australian English and foreign language teaching practices and school structures.

You’ll also micro-teach in a supportive environment with focused feedback to develop reflective skills and formative self-assessment – the keys to quality teaching. You’ll look at the latest theories and practices for language acquisition, and gain an advanced understanding of the skills associated with:

- the role of social and cultural contexts in language learning
- a range of communicative approaches to teaching, learning and assessment and planning for teaching in various TESOL contexts
- the evaluation, analysis and design of assessment tasks
- the development and maintenance of bilingualism and bi-literacy in formal learning environments
- English language education in local and global contexts
- transcultural and intercultural learning, communication and mobility, including in online learning settings
- the use of digital technologies to support learning.

As a graduate you’ll be a skilled language teacher who can operate with confidence in a changing and increasingly internationalised world.

NOTE: This course doesn’t provide a recognised initial teaching qualification. Students seeking an initial teaching qualification should refer to the Master of Teaching course.

## Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit, which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor’s degree in any field	2
Bachelor’s degree in a related field <sup>3</sup> , OR Bachelor’s degree in any field + 2 years full-time (or equivalent) relevant professional experience	1.5
Bachelor’s (Hons) degree in any field	1.5
Bachelor’s degree in a related field <sup>3</sup> + 2 years full-time (or equivalent) relevant professional experience, OR Bachelor’s (Hons) degree in any field + 2 years full-time (or equivalent) relevant professional experience, OR Bachelor’s (Hons) degree in a related field <sup>3</sup>	1

1. Selection is based on previous academic achievement.
2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.
3. Related fields include counselling, education and social work.

Advanced Engineering

EXPERT MASTER'S

The Master of Advanced Engineering offers flexibility to complete your master's degree in just one year, or you can choose a two-year option.

It is the key transitional stage in your career, transforming you into a global leader. Gain a depth of knowledge, mastering the crucial skills to become a leading contributor in your field.

It's designed to extend your knowledge in your chosen specialisation in chemical, civil (infrastructure systems, transport or water), energy and sustainability, electrical, materials, mechanical, medical, or renewable and sustainable energy engineering, and advance your leadership and complex problem-solving skills in a cross-cultural environment.

The two-year program retains all the features of the one-year program, but the additional year allows you to further deepen your skills in the engineering field.

Entry requirements

Depending upon your prior qualifications and experience you may be eligible for entry credit, which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor of Engineering <sup>4</sup> with a high credit average	2
Bachelor of Engineering <sup>4</sup> with a distinction average, OR Bachelor of Engineering <sup>4</sup> with a high credit average + 3 years of relevant work experience <sup>3</sup>	1

1. Selection is based on previous academic achievement.  
2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.  
3. A CV and 300 word statement is also required as part of your application. A phone interview may be requested.  
4. In the relevant discipline.

Specialisations

Chemical engineering

Ranked top 30 in the world, QS World University Rankings by subject 2017.

The Master of Advanced Chemical Engineering course includes study areas such as advanced reaction engineering, process design and optimisation, conversion of bioresources into fuel, materials and specialty chemicals, and nanostructured membranes for sustainable separations and energy production, with an emphasis on the latest developments.

You'll develop skills vital for chemical engineers in industry and research.

Civil engineering (infrastructure systems)

Ranked top 30 in the world, QS World University Rankings by subject 2017.

As a Master of Advanced Civil Engineering (Infrastructure Systems) graduate you'll be ready to work in the area of infrastructure engineering and management. The course will run on both structural and geotechnical designs for infrastructure systems. You'll be equipped with the advanced skills necessary for managing the challenges posed by ageing infrastructure, and leading designs of complex infrastructure systems. The course suits new graduates, professionals and managers who are keen to upgrade their existing design and management skills, as well as to develop theoretical and applied knowledge in infrastructure engineering and management.

COURSE CODE: E6001  
CRICOS CODE: 088686D

**Civil engineering (transport)**

Ranked top 30 in the world, QS World University Rankings by subject 2017.

The Master of Advanced Civil Engineering (Transport) program addresses transport engineering and management, traffic engineering, intelligent transport systems and transport planning, and responds to the growing need for engineers with awareness of the characteristics of transport, including its technological, economic and social impact.

You'll also look at state-of-the art transport engineering, and how it can solve problems in the planning, design, management and operation of transport facilities.

The course is suitable for new graduates, professionals and managers who are keen to upgrade their existing design and management skills, as well as to develop theoretical and applied knowledge in transport engineering and management.

**Civil engineering (water)**

Ranked top 30 in the world, QS World University Rankings by subject 2017.

The Master of Advanced Civil Engineering (Water) allows you to focus on water resources engineering and management. This program deals with surface and ground water flow, stormwater management, water quality, flood forecasting and mitigation.

It's designed to give you skills to meet the challenges posed by changing climatic conditions on water resource management. It's suited to new graduates, professionals and managers who are keen to upgrade their existing design and management skills, as well as to develop theoretical and applied knowledge in water resources engineering and management.

**Electrical engineering**

The Master of Advanced Electrical Engineering gives you a broad introduction to advanced techniques in signal processing, communications, digital systems and electronics. The units have been chosen around the common theme of embedded systems – special-purpose computing systems designed for specific applications.

They're found just about everywhere, including in consumer electronics, transportation systems, medical equipment and sensor networks. The course will mix theory and practice, and includes hands-on learning in laboratories and team-based design projects.

**Energy and sustainability engineering (Malaysia only)**

If you're a qualified engineer keen to deepen your knowledge in the energy and sustainability area, the Master of Advanced Engineering (Energy and Sustainability) is for you. The course builds foundations in general engineering through engineering analysis and entrepreneurship units.

You can major in this program by examining the energy and sustainability area from a multidisciplinary perspective. You can also choose elective units such as environment and air pollution control and smart grids to further enhance your knowledge, or undertake a minor research work to pursue a topic of related interest.

**Materials engineering**

The Master of Advanced Materials Engineering program takes in practical aspects of the main classes of materials, such as metals, polymers, biomaterials, nanomaterials and energy-related materials.

This course focuses on the most up-to-date aspects of the field, along with the use of materials and their electronic, chemical and mechanical properties. It'll prepare you to appreciate and exploit the role of materials in tackling the technical, economic and environmental problems in the design and construction of engineering structures, processes and devices.

It's ideally suited to new graduates, as well as professional engineers, who are eager to further their applied knowledge in materials engineering.

**Mechanical engineering**

Most modern engineering projects are multidisciplinary in nature and require a range of skills and perspectives to accomplish the task. The Master of Advanced Mechanical Engineering course takes a systems approach to the design, monitoring and performance of complex mechanical engineering systems in the fields of renewable energy, aerospace, buildings, transportation, and biomedical devices. The systems approach also informs the course – four discipline-based core units are vertically integrated so that common problems are examined from different perspectives, culminating in a sustainable systems unit.

**Medical engineering**

The Master of Advanced Medical Engineering allows you to focus on engineering design and the development of medical technologies. The specialisation encompasses recent advances in biomaterials, bioengineering and medical devices and instrumentation.

You'll develop a knowledge of the human body and its workings, as well as of the fundamentals of regulation, clinical practice and clinical trials of medical technologies. This specialisation addresses the growing needs of the medical technology industry by graduating engineers with an expertise in this field, along with a broad awareness of their clinical needs.

It's suitable for new graduates, professionals and managers who are keen to upgrade their existing design and management skills, as well as to develop advanced theoretical and applied knowledge in the area of medical engineering.

**Renewable and sustainable energy engineering**

This specialisation allows you to focus on sustainable energy technologies to address concerns about existing energy production. You'll learn about the operation, benefits and limitations surrounding each of the major renewable energy technologies that play a key role in the growth of the emerging energy sector. You'll develop an understanding of how such technologies modify existing electricity networks and the markets in which they operate.

The specialisation is suitable for new graduates, professionals and managers who are keen to upgrade their existing design and management skills, as well as to develop advanced theoretical and applied knowledge in the area of renewable and sustainable energy engineering.

▶ “As I've been working in the oil and gas industry, I would like to use my knowledge and my experience to contribute to making the industry become sustainable, more economical to explore and operate, safer and more environmentally friendly.”

# Business Information Systems

EXPERT MASTER'S

The Master of Business Information Systems course prepares you for a career in business-focused IT areas such as IT management, project management, business information systems, information systems, information management or knowledge management.

The program covers the IT business spectrum, from supporting business operations through to supporting managers' decision-making. It'll get you ready for roles such as business analyst, systems analyst or project leader, or as an information manager, archivist or librarian. The course features core studies in IT project management and offers specialist units in business information systems and a wide range of elective choices. You can either complete a specialisation, or finish the general form of the degree without a specialisation.

In your final semesters you can choose to complete an industry experience project or research thesis. You can also take units at Monash's Prato Centre in Italy, and apply for a scholarship place over summer in the highly regarded Monash Industry Team Initiative (MITI).

### Entry requirements

Depending upon your prior qualifications and experience you may be eligible for entry credit, which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in any field	2
Bachelor's degree in a related field <sup>3</sup>	1.5

1. Selection is based on previous academic achievement.  
2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.  
3. Related fields include information systems or with an information systems major, with completed studies in: basic programming, basic database theory, systems analysis and design, plus an understanding of the major enterprise IT applications and their architectures, including enterprise/transaction processing systems and analytical/ business intelligence systems.

### English language requirements

Category A (see page 107)

### Specialisations

#### Archives and recordkeeping

Records managers and archivists ensure vital records of social and organisational activity are created, managed and made available to business for accountability, corporate memory, enterprise knowledge and cultural purposes. Work settings include most major private and public sector organisations, and archival institutions. As a knowledge manager you'll develop strategies and processes to manage organisational knowledge and information flows to improve performance.

#### Archives and recordkeeping/Library and information science

Depending on unit selection, students may satisfy the requirements for both of these specialisations – refer to details for the single specialisations. Students who opt for the combined specialisation won't be able to take the minor-thesis research pathway in the course.

#### Business information systems

The general form of the course gives you the skills to solve organisational information problems. It caters for students who'd like to be business analysts, information systems consultants and IT managers. You'll learn about IT principles, systems analysis and design, enterprise architecture and systems, IT management and governance, and project management. You can choose from a range of business information systems units to focus your studies in areas of interest, including business intelligence, user experience design and business process modelling.

#### Library and information science

Librarians and information specialists manage information in a range of contexts. They analyse needs, evaluate information sources, and organise and synthesise information into targeted products, as well as train clients in the use of products, services and systems. You'll find work opportunities in commercial, government and community sector organisations, for information consultancies, and as independent information brokers.

Networks and Security

EXPERT MASTER'S

This degree readies you for a career in network administration, network management, or as a systems analyst, systems designer, data communications specialist, or network security engineer, administrator or cybersecurity specialist.

You'll take advanced studies in networks and security, including network structures, network protocols, information security, software security, network security, quality of service and network design. As a network and security professional, your skills will always be in high demand. In your final semesters you can choose to complete an industry experience project or research thesis. Additionally, you can also apply for a scholarship place over summer in the highly regarded Monash Industry Team Initiative (MITI).

Accredited by:

Monash Business School is one of the few business schools around the world to have achieved the esteemed 'triple crown' of business school accreditations.

Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in any field	2

# Commercial Law

EXPERT MASTER'S | FOR NON-LAW GRADUATES

Are you ready to take your career in the world of commercial law to the next level?

The Master of Commercial Law is for those working in roles requiring a sound grasp of commercial law issues. Focusing on areas that include corporate and competition law, banking and finance law, and tax law, it allows you to choose from an extensive range of domestic and international commercial law units; our offering caters to a variety of career aspirations and interests.

You'll investigate contemporary law issues, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives.

## English language requirements

Category A  
(see page 107)

## Entry requirements (in equivalent Australian qualification terms)<sup>1</sup>

You must satisfy one of the following:

<b>A</b>	<b>A bachelor's (Hons) degree in a relevant discipline</b> including business, economics, commerce or another relevant discipline, as determined by the faculty, with a credit average.		
<b>B</b>	<b>A bachelor's degree</b>	<b>+</b>	<b>A graduate diploma</b> in law or a related discipline, including business, economics, commerce or another relevant discipline.
		<b>OR</b>	<b>A graduate certificate</b> in law or a related discipline, including business, economics, commerce or another relevant discipline as determined by the faculty.
<b>C</b>	<b>A bachelor's degree in a relevant discipline</b> including business, economics, commerce or another relevant discipline.	<b>+</b>	<b>Sufficient relevant work-based experience or professional learning</b> to provide the equivalent of a bachelor's honours degree in one of those disciplines, as determined by the faculty.

# Dispute Resolution

EXPERT MASTER'S | FOR NON-LAW GRADUATES

If you're interested in dispute resolution, this course will help advance your career in this developing area of expertise.

It's a course suited to those working, or who want to work, as a dispute resolution practitioner, including as an arbitrator or mediator. You'll receive a thorough theoretical and practical grounding in law and the advanced skills required to work in this field.

You will gain in-depth knowledge in areas of dispute resolution in the courts and alternative dispute resolution methods. You'll also explore contemporary law issues, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives.

## English language requirements

Category A  
(see page 107)

## Entry requirements (in equivalent Australian qualification terms)<sup>1</sup>

You must satisfy one of the following:

<b>A</b>	<b>A bachelor's (Hons) degree in a relevant discipline</b> including education, management, psychology, human resources, business administration, industrial relations, communications or another relevant discipline, as determined by the faculty, with a credit average.		
<b>B</b>	<b>A bachelor's degree</b>	<b>+</b>	<b>A graduate diploma</b> in law or a related discipline, including education, management, psychology, human resources, business administration, industrial relations, communications or another relevant discipline.
		<b>OR</b>	<b>A graduate certificate</b> in law or a related discipline, including education, management, psychology, human resources, business administration, industrial relations, communications or another relevant discipline as determined by the faculty.
<b>C</b>	<b>A bachelor's degree in a relevant discipline</b> including education, management, psychology, human resources, business administration, industrial relations, communications or another relevant discipline.	<b>+</b>	<b>Sufficient relevant work-based experience or professional learning</b> to provide the equivalent of a bachelor's honours degree in one of those disciplines, as determined by the faculty.

1. You'll be assessed on your entire academic record, with an Australian credit average (or equivalent) in each qualification. As a general rule, those who don't have an Australian credit average (or equivalent) or are relying on relevant work experience to satisfy entry requirements will need to have worked for at least two years, although the required period may be shorter where the work experience has been supplemented by other relevant learning.

# Laws (LLM)

EXPERT MASTER'S | FOR LAW GRADUATES

The Monash LLM is ideal for law graduates wanting to develop in-depth knowledge of a particular legal area, or those wanting to advance their professional expertise in an area of practice.

You'll gain advanced skills and knowledge of law developments, practice and scholarship of one or more areas of law.

### Entry requirements (in equivalent Australian qualification terms)<sup>1</sup>

You must satisfy one of the following:

<b>A</b>	<b>A juris doctor or a bachelor's honours degree in law, or an equivalent qualification</b>			
<b>B</b>	<b>A bachelor's degree in law</b>	<b>+</b>	<b>A graduate diploma in law</b>	<b>OR</b> <b>A graduate certificate in law</b> <b>OR</b> <b>An equivalent graduate qualification</b>
<b>C</b>	<b>A bachelor's degree in law</b>	<b>+</b>	<b>Sufficient relevant work-based experience or professional learning</b> that together constitute the equivalent of one of the above qualifications. <sup>2</sup>	
<b>D</b>	<b>A bachelor's degree in law</b>	<b>+</b>	<b>Admission to practise as an Australian lawyer</b>	

1. You'll be assessed on your entire academic record, with an Australian credit average (or equivalent) in each qualification. As a general rule, those who don't have an Australian credit average (or equivalent) or are relying on relevant work experience to satisfy entry requirements will need to have worked for at least two years, although the required period may be shorter where the work experience has been supplemented by other relevant learning.  
^ For the purposes of satisfying these requirements, other learning may include, but is not confined to, learning in the context of other non-law degrees.

### English language requirements

Category A (see page 107)

### Specialisations

#### Commercial law

You'll receive a thorough theoretical and practical grounding in commercial law and develop the advanced skills you'll need to work in the commercial field. You can choose from an extensive range of commercial law units, including those in corporate law, competition law, banking and finance law, and tax law.

This specialisation suits graduates keen to develop or enhance specialist careers in professions and occupations requiring a sound grasp of commercial law issues, including as accountants, company administrators and business managers.

You'll investigate contemporary issues in law, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives. You'll grow your capacity to take on independent research, and have the option of a pathway to doctoral studies.

#### Dispute resolution

You'll receive a thorough theoretical and practical grounding in dispute resolution and develop the advanced skills needed to work as a dispute resolution practitioner, including as an arbitrator or mediator.

You'll explore contemporary issues in law, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives. You'll grow your capacity to take on independent research, and have the option of a pathway to doctoral studies.

#### Government law and regulatory practice

You'll receive a thorough theoretical and practical grounding in government law and regulatory practice, and develop the advanced skills to work with or within government and regulatory bodies.

It's best suited to those interested in developing or enhancing specialist careers in the federal, state or local government sectors, or in occupations requiring a high level of interaction with government and regulatory bodies.

You'll examine contemporary issues in law, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives. The course lifts your capacity to undertake independent research, and includes options for a pathway to doctoral studies.

#### Human rights

You'll get a thorough theoretical and practical grounding in the laws governing international and domestic human rights, and develop the advanced skills needed to work in this diverse field.

The extensive range of units allows you to develop your knowledge across the breadth of human rights law. The course suits those interested in developing or enhancing specialist careers within the government sector, or in development agencies and other local and international human rights-related organisations.

You explore contemporary issues in law, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives. The course lifts your capacity to undertake independent research, and includes options for a pathway to doctoral studies.

#### Intellectual property and communications law

You'll gain a thorough theoretical and practical grounding in the laws regulating intellectual property regimes and the broader fields of communications and technology, and develop the advanced skills needed to work in this complex, dynamic field.

It's suitable for those keen to develop or enhance their specialist careers in intellectual property, communications and technology, including careers within media organisations and the public sector.

You'll investigate contemporary issues in law, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives. The course increases your capacity to undertake independent research, and includes options for a pathway to doctoral studies.

#### International and comparative law

You'll gain advanced legal knowledge across a spectrum of legal issues with international significance.

These include public international law, international human rights and humanitarian law, international criminal law and justice, international commercial and comparative law, international trade and finance law, and the impact of international legal frameworks.

Your in-depth studies will allow you to work in non-government organisations (NGOs), government and industry (domestically or internationally) in positions that call for understanding of international legal frameworks.

#### Law and international development

You'll receive a thorough theoretical and practical grounding in the laws and regulatory frameworks governing the ways in which the international community provides assistance to developing countries to improve their peoples' quality of life.

You'll also develop the advanced skills needed to work as a professional in this field. It's ideally suited to those interested in developing or enhancing specialist careers in international development within government, non-government or not-for profit sectors.

You'll explore contemporary issues in law, practice and scholarship, and evaluate complex issues relevant to the field from theoretical, international and interdisciplinary perspectives. The course increases your capacity to take on independent research, and includes options for a pathway to doctoral studies.

#### Law studies

You'll develop advanced knowledge of developments in the law, practice and scholarship of one or more areas of law. You can select from a broad range of electives for professional practice. The course enhances your capacity to undertake independent research, and provides options for a pathway to doctoral studies.

#### Workplace and employment law

You'll be provided with a thorough grounding in workplace and employment law, and develop the skills required to work in workplace and employment relations, including in the public sector, corporate management, trade unions and employer associations.

It's suited to those interested in developing or enhancing specialist careers in human resources and the management of workplace and employment relations. The course includes options for a pathway to doctoral studies.

# Law and International Development

EXPERT MASTER'S | FOR NON-LAW GRADUATES

Develop advanced skills and suits those keen for a career in international development.

## Biomedical and Health Science

EXPERT MASTER'S

Your initial year in the Master of Biomedical and Health Science course will focus on intensive training in how to conduct research through coursework units in teaching methods and research skills training, and engaging in specialist research in theory units, followed by a second year of a full-time research project and internship under the supervision of an academic staff member.

### Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in a related field <sup>3</sup> with a credit average	2
Bachelor's degree in a related field <sup>3</sup> with a distinction average	1.5
Bachelor's (Hons) degree in any field with a credit average + certificate or diploma in a related field <sup>3</sup>	1.5
Bachelor's (Hons) degree in a related field <sup>3</sup> with a distinction average	1

1. Selection is based on previous academic achievement.
2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.
3. Related fields include biomedical science or science discipline.

### English language requirements

Category B (see page 107)

### Specialisations

#### Cardiovascular diseases

You'll be provided with the skills to formulate a research question on the role of the cardiovascular system in health and disease, and in the second year conduct research to address that question. With an emphasis on dysfunctions of the cardiovascular system in disease, or how disease affects the cardiovascular system, you'll use a variety of research techniques and methods, from the cellular level through to integrative physiology and pharmacology – including the whole animal – to address this question.

#### Infectious diseases and population health

You'll gain the skills to formulate a research question on the most important, prevalent, emerging or neglected diseases affecting humans, and in the second year conduct research to address that question. The emphasis is on diseases affecting resource-poor or low and middle-income countries, and you'll use a variety of research methods.

#### Neuroscience

You'll harness the skills to formulate a research question on the relationships between brain processes and behaviour, and in the second year conduct research to address that question. The emphasis is on the relationship between brain and behaviour, in health and/or disease, and you'll use a variety of research methods.

#### Regenerative medicine and stems cells

This specialisation gives you the skills to formulate a research question on the repair or replacement of damaged human tissues and organs in health and disease, and in the second year conduct research to address that question. The emphasis is on the cells, factors, other biological building blocks, and bioengineered materials and technologies that assist the body's regenerative capacity, and you'll use a variety of research techniques and methods to address this question.

# Clinical Embryology

EXPERT MASTER'S

This course gives you the essential skills necessary to contribute to human infertility clinical services.

Theoretical and practical skills are presented in the broad context of the regulations and the ethical considerations that apply to human IVF, both nationally and internationally, along with the quality control procedures required for maximum success for IVF patients.

The guidelines, protocols and regulations that steer and control human infertility services are also presented. Along with attending lectures and self-directed study, you'll have continual practical skills training, and also take on a minor research project.

You'll not only get the practical skills to work in an IVF laboratory, but also gain a greater understanding of research applications in the field of reproductive or developmental biology. Research-related tasks form part of the overall assessment for specific coursework units.

## Entry requirements

You must satisfy one of the following:

An Australian bachelor's degree in a related field such as medicine or veterinary science (or equivalent) with a pass average (or equivalent)

OR

An Australian Bachelor of Science (Honours) (or equivalent) with a high credit average (or equivalent)

OR

An Australian bachelor's degree (or equivalent) and a Graduate Diploma in Reproductive Sciences from Monash University with a 70 per cent average

OR

An Australian bachelor's degree (or equivalent) and a graduate diploma deemed equivalent to the Monash University Graduate Diploma in Reproductive Sciences with a distinction average

OR

An Australian bachelor's degree (or equivalent) in any field with a pass average and at least one year (full-time equivalent) of professional experience in embryology or reproductive biology.

## English language requirements

Category A (see page 107)

## Additional requirements

- All applications are assessed on academic merit and relevant experience
- A CV: this must include work experience and two referees and/or work references, where applicable
- A statement of purpose (under 200 words) outlining why you wish to join this course

Note: The Master of Clinical Embryology is a high-demand course. There is a quota on the number of successful applicants. Applicants meeting the minimum academic requirements are not guaranteed entry.

# Clinical Research Methods

EXPERT MASTER'S

The only course of its kind in Victoria, our Master of Clinical Research Methods facilitates the development of a range of analytical and communication skills necessary to work in the broad domain of clinical research and practice.

- Statement of Purpose (250 words) outlining your area of interest and the reason why you would like to complete the course

## Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in a related field <sup>3</sup> , a credit average + 2 years of relevant work experience, OR Bachelor's (Hons) degree in a related field <sup>3</sup> with a credit average	1.5
Bachelor's degree in a related field <sup>3</sup> + Part 1 of a specialist medical training program or current fellowship of a specialist medical college recognised by the Medical Board of Australia and current registration with AHPRA plus two years of relevant work experience or a satisfactory substitute that the faculty considers to be equivalent, OR Master of Philosophy or PhD or doctoral degree (or equivalent) in a related discipline and a minimum of two years of relevant work experience.	1
<div><div>1. Selection is based on previous academic achievement.</div><div>2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.</div><div>3. Related fields includes public health science, medicine.</div></div>

# Advanced Health Care Practice

EXPERT MASTER'S

Are you a medical practitioner, nurse, midwife, occupational therapist, physiotherapist, radiographer, radiation therapist, a primary health care practitioner or manager?

The Master of Advanced Health Care Practice is a pathway for professionals like you to gain a master's-level qualification that enhances your undergraduate degree – and provides the widest range of options for the future. This course is inter-professional, and you'll complete a common module – essentials of advanced health care practice and research. This reflects the collaboration required in practice to deliver the highest-quality health care.

### English language requirements

Category A (see page 107)

### Specialisations

#### Clinical midwifery

This is designed to prepare experienced registered (in their country of origin) midwives for senior management, education, and professional and specialist leadership roles in a range of midwifery settings.

### Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in a related field with a credit average + registration with Australian Health Practitioner Regulation Agency or equivalent accredited professional registration body + a minimum of 2 years' equivalent full-time experience in the related discipline and evidence of current engagement in clinical practice in the area of specialisation	1.5
Four-year bachelor's degree with honours in a related field with a credit average, OR A three-year Australian bachelor degree and a graduate diploma or master's qualifying degree in a related discipline, with a credit average in all qualifications + registration with Australian Health Practitioner Regulation Agency or equivalent accredited professional registration body + a minimum of 2 years' equivalent full-time experience in the related discipline and evidence of current engagement in clinical practice in area of specialisation	1

1. Selection is based on previous academic achievement. There are specific requirements for each specialisation – for further details see [study.monash/courses](#).
2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration. Not all specialisations are available for study as a 1.5-year duration.

# Health and Science Research

GRADUATE DIPLOMA

This course consists of a combination of coursework and research in health and science disciplines for students who have completed a relevant undergraduate degree.

You will further advance your knowledge in your chosen discipline area. You will also undertake research methodology training and carry out an independent research project in your selected discipline, working closely with a supervisor who will provide you with guidance and academic counselling. The course offers a pathway to higher-degree research.

### Entry requirements

An Australian undergraduate degree (or equivalent) with a distinction average in a relevant discipline, as well as a distinction average in at least 24 point at level 3 or above in the discipline, or qualification/ experience or satisfactory substitute that the faculty considers to be equivalent.

### English language requirements

# Health Services Management

EXPERT MASTER'S

If you're working or planning to work in middle or senior management roles in health care, this is for you.

Your core units cover law for health systems, clinical leadership and management, improving health care quality, financial issues in health care management, foundations health policy, epidemiology and biostatistics, reform and development of health services, and a health services management case study.

You can choose your electives from units offered in our Master of Public Health or other approved master-level management units. You can also exit the course early with a Graduate Certificate in Health Services Management (course code M4006) or a Graduate Diploma in Health Services Management (course code M5007), if you meet the requirements.

### Entry requirements

An Australian undergraduate degree (or equivalent) in an appropriate discipline with a pass average, and relevant professional experience or qualification/ experience or satisfactory substitute that the faculty considers to be equivalent.

### English language requirements

Category A (see page 107)

### Additional requirements

- A CV showing relevant industry experience
- A statement of purpose (250 words) outlining reasons for undertaking the course and your area(s) of interest

# Medical Science and Doctor of Medicine

BACHELOR'S AND MASTER'S

Monash is the only Victorian university to offer both direct-from-school entry and graduate entry to the same medical degree.

You'll see the discoveries of our renowned researchers put into clinical practice and benefit from our links with the largest health care provider network in Australia, which includes the Monash Medical Centre and The Alfred (Melbourne's major casualty hospital), Eastern Health, and Victorian health services in rural, regional and outer metropolitan Melbourne. The course is designed as an integrated curriculum, with units taught in an interdisciplinary fashion by staff from across the faculty and in a wide range of learning environments at both on-campus and at clinical sites.

### Entry requirements

To be eligible for consideration you must have (or be in the final year of completing) a degree with significant and broad biomedical science content from an internationally recognised university with a minimum Grade Point Average (GPA) of 6.0 out of 7.0.

The best option for gaining access to our graduate entry medical program is by undertaking Monash University's Bachelor of Biomedical Science.

Further information is available online at: [med.monash.edu.au/medicine/admissions/grad-entry/index.html](https://med.monash.edu.au/medicine/admissions/grad-entry/index.html)

Shortlisted applicants are required to attend a multiple mini interview (MMI) and complete a situational judgement test (SJT) to be considered for an offer.

### English language requirements

Category C (see page 107)

### Special requirements

You must:

- satisfy the immunisation requirements specified by the faculty
- complete a National Police Records Check each year before undertaking clinical placements
- hold a valid Working with Children Check.

You should complete a "Provide First Aid" certificate prior to commencing clinical placements.

# Advanced Nursing

EXPERT MASTER'S

The Master of Advanced Nursing, offered by the School of Nursing and Midwifery, prepares you for leadership roles in clinical nursing, management and education.

Clinical specialisations include emergency nursing, intensive care nursing, mental health nursing and nurse practitioner.

Clinical specialties require that you have concurrent employment as a registered nurse in the area. The course enables you to develop advanced-practice knowledge and leadership in specialist practice, including skills to plan, implement, coordinate and evaluate health care, as well as the ability to formulate policy for a diverse and multicultural society. Specialisations include:

- General studies in advanced nursing
- Nursing education
- Nursing leadership and management

You can also exit the course early, if you meet the requirements, with a Graduate Certificate in Advanced Nursing or a Graduate Diploma in Advanced Nursing. As a graduate you can work in a wide range of general and specialist clinical, educational and health care environments in senior positions, and contribute to the health of individuals, families and communities.

**Entry requirements**

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in nursing with a credit average	1.5
Bachelor's (Hons) degree in nursing with a credit average	1

- Selection is based on previous academic achievement.
- Even if you are eligible for entry credit you do not need to take it.  
You may apply for and complete the longer duration.

**English language requirements**

Category B (see page 107)

**Additional requirements**

- Application letter advising specialisation
- Certified evidence of current nursing registration
- Letter of support from employer (where applicable)

**Specialisations**

**General studies in advanced nursing (Clayton and Peninsula)**

This enables you to tailor your unit choices to suit your interests or needs while maintaining a strong focus on leadership. You will liaise with your course coordinator to choose the units that will best suit your needs.

**Nursing education (Peninsula)**

You'll be provided with leadership skills in a variety of nursing education contexts, including curriculum development. It's designed using flexible teaching delivery options and offers a range of individual career pathways, including nursing or management positions within industry, government or independent professional practice. The specialisation can be taken by coursework, or a combination of coursework and research.

**Nursing leadership and management (Clayton)**

You'll gain leadership and management skills in a variety of nursing service contexts. With flexible teaching delivery options, you're offered a range of individual career pathways, including nursing, education or management positions within industry, government or independent professional practice. The specialisation can be taken by coursework, or a combination of coursework and research.

# Nursing Practice

PROFESSIONAL ENTRY MASTER'S

The Master of Nursing Practice provides a professional nursing qualification for those who have gained an Australian bachelor's degree (or equivalent) from a recognised university.

This intensive program gives graduates with non-nursing degrees the opportunity to switch careers and reap the rewards of becoming a highly skilled health professional.

**Entry requirements**

An Australian bachelor's degree (or equivalent, excluding a Bachelor of Nursing qualification obtained in Australia) with a credit average.

You'll also need to provide evidence of previous tertiary-level study of a minimum of one six-credit point unit in human biology (or a related area) from any recognised tertiary institution or the Monash human biology short course, which has been assessed as equivalent to this requirement.

**English language requirements**

Category I (see page 107)

**Additional requirements**

A current CV is required as well as a statement of purpose (250 words) outlining reasons for undertaking the course and why you would like to become a nurse. You'll also be required to undergo police and Working With Children checks, and provide proof of relevant vaccinations before being able to carry out fieldwork placements.

# Occupational and Environmental Health

EXPERT MASTER'S

The Master of Occupational and Environmental Health gives you the skills in quality-level occupational health and safety services to identify, prevent and manage occupational and environmental health risks, and related health problems.

You'll learn to systematically control related hazards and exposures within a broad range of workplace and community environments. You'll be equipped to take responsibility for high-level independent judgements, and initiate, implement and evaluate risk management interventions within varied occupational and environmental contexts. It's particularly suited to medical practitioners, nurses, allied health personnel, scientists and occupational health and safety managers. The course is offered by off-campus learning; however, compulsory block attendance is required each semester.

### Entry requirements

An Australian undergraduate degree (or equivalent) in a related discipline with a pass average, or qualification or experience or satisfactory substitute that the faculty considers to be equivalent.

### English language requirements

# Occupational Therapy Practice

PROFESSIONAL ENTRY MASTER'S

If you have a first degree other than occupational therapy, but in a related field, this two-year, accelerated learning program allows you to gain a professional entry-level qualification to practise as an occupational therapist.

It requires full-time enrolment over two years from July to May (mid-year intake), and operates over 72 weeks.

This includes 1000 hours of fieldwork education to meet the World Federation of Occupational Therapists' minimum standards for the education of occupational therapists.

The course is an integrated curriculum focused on scenario-based learning. The two years of the SBL curriculum are organised into the following units:

- foundations of occupational therapy
- humans as occupational beings
- occupational performance
- enabling change in human occupation
- transition to practice, and
- advanced professional practice.

You'll also complete an extensive practice-based project.

### Entry requirements

An Australian bachelor's degree (or equivalent) with a high credit average, AND have completed either:

A minimum of at least one six-credit-point unit of study in human anatomy/physiology or a related area from any recognised tertiary institution

OR

A Monash human biology short course. See [med.monash.edu.au/nursing/professionaldevelopment/humanbiology.html](http://med.monash.edu.au/nursing/professionaldevelopment/humanbiology.html)

OR

BMA1901 human structure and function as a single-unit enrolment at Monash.

Applicants who are already registered occupational therapists in Australia or overseas are not eligible to be considered for this course.

### English language requirements

Category I (see page 107)

### Additional requirements

You'll also be required to undergo police and Working With Children checks, and provide proof of relevant vaccinations before being able to carry out fieldwork placements.

# Public Health

EXPERT MASTER'S

You'll be equipped with the full range of quantitative, analytical and communication skills to work in public health.

You'll also learn the quantitative methods of the population-based health sciences and their problem-solving application for primary care provision in Australia and developing countries. This course offers a greater number of units for those keen to tailor a stream to meet their specialist needs. Health specialisation streams are offered in clinical research methods, health economics, disease prevention and health promotion, health services management, international health, occupational and environmental health, and research.

### Entry requirements

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in any field with a credit average	2
Bachelor's degree (or equivalent) in a public health or health-related discipline with a research Honours, OR A medical degree, OR Bachelor of Public Health Science from Monash University; with at least 60 weighted average mark (WAM), OR Bachelor's degree (or equivalent) in a relevant discipline <sup>3</sup> with a credit average + 2 years of relevant work experience <sup>4</sup>	1.5
Bachelor's degree in a related field + 2 years of relevant work experience + Part 1 of a specialist medical training program or current fellowship of a specialist medical college recognised by the Medical Board of Australia and current registration with AHPRA or a satisfactory substitute that the faculty considers to be equivalent, OR An Australian Master of Philosophy or PhD or doctoral degree or AQF level 9 qualifications (or equivalent) in a related discipline + 2 years of relevant work experience	1

1.

Selection is based on previous academic achievement.

2.

Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.

3.

Bachelor's degree (or equivalent) in a relevant discipline includes – medical, nursing, allied health, other health-related degree, e.g. chiropractic, psychology, public health, environmental health, paramedic, imaging (radiology, nuclear medicine), biomedical engineering, dietetics/nutrition, pharmacy, social work, medical science/biomedical science/immunology, health science, laboratory science, science, and health economics; or in a non-related discipline, e.g. education, law, media, IT, journalism, communications, arts.

4.

Relevant work experience includes work experience relevant to the person's undergraduate or higher degree, in professional practice, in a related field, or that demonstrates application / work experience gained in a relevant field even if the bachelor's degree was not in a related discipline. Relevant work experience includes in the health industry (e.g. government, policy, provider, e.g. hospital, clinic), non-government organisation (NGO), academic or research institution, consulting, pharmaceutical company etc. The statement of purpose can also explain career progression and interests.

### English language requirements

Category A (see page 107)

### Additional requirements

- A CV showing relevant industry experience
- Work reference letters
- A statement of purpose (250 words) outlining reasons for undertaking the course and your area(s) of interest

“The research skills and data management experience I gained during my master’s and PhD enabled me to gain these significant roles, and also taught me how to be adaptable with my skills. I’ve since worked for the federal government in both the National Health and Medical Research Council [NHMRC] and the Australian Research Council [ARC] in senior roles managing data and analytics teams.”

MARCUS NICHOL  
Master of Public Health graduate

92 | International Graduate Courses 2018

International Graduate Courses 2018 | 93

# Reproductive Sciences

GRADUATE DIPLOMA

You'll gain broad knowledge and receive practical training in the applications of reproductive biology in animals and humans, and explore the social and ethical issues these raise.

On completion of the course, you'll be able to show a thorough theoretical understanding of human and animal reproductive sciences, and demonstrate practical techniques in human clinical and veterinary reproductive sciences. If you pass all units for this course and achieve an overall grade average of distinction (70 per cent) or above, you may qualify for admission into the Master of Clinical Embryology or into higher degrees by research.

### Entry requirements

An Australian bachelor's degree in nursing or biological, medical, agricultural or veterinary sciences with a pass average, or equivalent qualifications or experience in the reproductive sciences gained after completing a pass degree in another field (BSc should include a major field of study in anatomy, biology, biochemistry, genetics, pharmacology, physiology, microbiology, immunology or zoology).

### English language requirements

Category A (see page 107)

Fees are per 48 credit points, which represents a standard full-time course load for a year.

COURSE CODE: M5010  
CRICOS CODE: 019066D

# Social Work

PROFESSIONAL ENTRY MASTER'S

This course prepares you for a career as a professionally qualified social worker.

It includes studies in theory, skills development and supervised professional practice, and opportunities for group-based learning, community engagement, practice research and integration of social work theory and practice. The theoretical content builds on knowledge graduates have acquired in previous higher education, while the social work skills components and professional practice introduce you to contemporary social work practice. The course is accredited by the Australian Association of Social Workers (AASW), and includes 1000 hours of supervised professional practice.

### Entry requirements

An Australian bachelor's degree (or equivalent) with a credit average, including two full-semester units in the study of society (as required by the Australian Association of Social Workers). Units fulfilling the prerequisite studies of society are broadly assessed and include sociology, social science, social psychology, human development, anthropology, philosophy, history, gender, law, politics, media, the arts, technology and multicultural society. Your past academic standing is also a significant factor in selection. Your potential selection is based on academic merit and the completion of two broad studies of society.

### English language requirements

Category B (see page 107)

### Additional requirements

You must:

- satisfy the immunisation requirements specified by the faculty's prerequisite studies
- complete a National Police Records Check each year before undertaking clinical placements
- hold a valid Working with Children Check.

# Translational Research

GRADUATE CERTIFICATE

In this course you'll gain an understanding of the processes involved in developing a basic science finding through to clinical trials.

The course modules give you the basic foundations of discipline-specific laboratory research questions and how these can be applied to broader clinical applications. Your main focus is to form an appreciation that fundamental scientific questions may have multidisciplinary clinical answers.

### Entry requirements

An Australian bachelor's degree (or equivalent) in a health science/basic science discipline with a pass average; or an Australian bachelor's degree (or equivalent) with a pass average and industry experience in research and development (for example, CSIRO, CSL, the biopharmaceutical industry or in clinical trials) that the faculty considers to be equivalent or a satisfactory substitute.

CRICOS CODE: 085347C

Financial Mathematics

EXPERT MASTER’S

Do you have an aptitude and passion for mathematics and statistics, a keen interest in finance and insurance, and want to work for a major financial organisation in finance, insurance or the money market?

This course gives you a deep understanding of the finance world, and the ability to speak its language. Combining theory with hands-on practical skills via an industry placement or research project, the program ensures you'll graduate with the skills increasingly sought-after by banks and other financial institutions.

It offers advanced training in the core areas of stochastic, financial and insurance modelling, statistical analysis and computational methodology, as well as in a range of elective topics from economics, econometrics, finance, mathematics and probability.

As a graduate of this course you'll be able to pursue specialist careers in research departments within banks, insurance and consultancy firms, or derivatives of valuation and portfolio management within investment houses.

Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit, which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in any field including a strong mathematical content <sup>3</sup>	2
Bachelor's degree in mathematics <sup>3</sup> , OR Graduate certificate or graduate diploma including a strong mathematical content <sup>3</sup>	1.5
Bachelor's (Hons) degree in mathematics <sup>3</sup>	1

- 1. Selection is based on previous academic achievement.
- 2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.
- 3. Completion of units of mathematics with an emphasis on multivariable calculus, linear algebra, probability, statistics and differential equations.

English language requirements

Category A (see page 107)

“Financial mathematics is one of the few fields of study where mathematics is applied at such a senior industry level. By choosing the Master of Financial Mathematics you’ll access jobs in the financial industry that combine the best of both worlds – the interest and challenge of working in the financial markets, while remaining in close contact with cutting-edge mathematical knowledge.”

# Project Management

EXPERT MASTER'S

The Master of Project Management is a forward-thinking, interdisciplinary course that integrates the knowledge needed to manage projects and programs across multiple sectors.

The course focuses on developing specialist expertise in organising the project function utilising a diverse vocational skill set.

It encourages an evidentiary and interdisciplinary approach to critical thinking and problem-solving, strengthened by a capacity to undertake research.

You'll choose from a range of discipline-specific electives (covering IT, business, engineering and law) and have the opportunity to work on real-life projects where theory and practice are applied to problems in local and international, corporate, government and social contexts.

As a graduate you'll be strongly placed to provide strategic project leadership in a wide range of settings, such as business delivery, IT developments and engineering solutions, in both the corporate and government sectors.

## Entry requirements

Depending upon your prior qualifications and experience you may be eligible for entry credit which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor degree in any field + 6 months professional experience	2
Bachelor degree in project management + 6 months professional experience, OR Bachelor degree in any field + a graduate certificate/diploma in project management + 6 months professional experience	1.5
Bachelor (Hons) degree in any field + 6 months professional experience	1.5
Bachelor (Hons) degree in project management + 6 months professional experience	1

1. Selection is based on previous academic achievement.  
2. Even if you are eligible for entry credit you do not need to take it.  
You may apply for and complete the longer duration.

▶ “I am future-conscious and always keen to learn about sustainable solutions. Although I already had the Master of Economics from Dhaka University, I chose to enrol in the Monash Master of Environment and Sustainability so that I could learn how to evaluate, analyse and collaborate across sectors to influence, motivate and effect positive, sustainable change.”

KIZZY TAHNIN  
Culture Program Officer at UNESCO Bangladesh  
Master of Environment and Sustainability, 2010

Environment and Sustainability

EXPERT MASTER'S

Our future hangs in the balance. Humanity is developing at a speed causing widespread environmental, economic and social challenges for sustaining life on Earth. It's vital for us to change and adapt in all aspects of how we work and live.

If you're future-conscious and want to transform society through sustainable solutions, this is your chance to learn the skills you'll need. It'll give you the training, language and tools to be a leader in a rapidly growing field. You'll explore the trends, issues and science underlying global sustainability problems, and learn how to evaluate, analyse and collaborate across sectors to influence, motivate and effect positive, sustainable change.

Get hands-on, real-world experience through an internship, interdisciplinary or research project to help drive innovation, and be taught by global and professional experts from multiple disciplines and sectors, who are leading the environment and sustainability agenda in Australia and internationally.

Combine your industry experience or previous study with a strong foundation in understanding sustainability challenges, and use it to advance sustainability solutions in your sector.

You'll have the skills to provide strategic leadership in policy formulation, governance and regulatory advice, management and capacity-building in sectors as diverse as business, government and not-for-profits.

Entry requirements

Depending upon your prior qualifications and experience you will be eligible for entry credit, which reduces the duration.

Eligibility (in equivalent Australian qualification terms) <sup>1</sup>	Duration (years) <sup>2</sup>
Bachelor's degree in any field	2
Bachelor's degree in a related field <sup>3</sup> , OR Bachelor's degree in any field and relevant expertise <sup>4</sup>	1.5
Bachelor's (Hons) degree in a related field <sup>3</sup>	1

1. Selection is based on previous academic achievement.  
2. Even if you are eligible for entry credit you do not need to take it. You may apply for and complete the longer duration.  
3. Related fields include business, environmental science, humanities, science or social sciences.  
4. For example, by relevant further studies or work experience.

Category A (see page 107)

Specialisations

Corporate environmental and sustainability management

This specialisation explores the complex mix of social, ecological and economic sustainability challenges faced by organisations. It equips you with the skills to implement strategies and initiatives to address these challenges.

Environment and governance

You'll gain the skills to understand governance to enable societal and governmental change, and responsible action to support sustainability. Enriched with the knowledge of world leaders from environmental and social sciences, and through case studies, you'll explore the dynamic processes of environmental governance and implementation.

Environmental security

You'll gain an understanding of the scientific knowledge needed to guide the sustainable use, management and protection of the natural environment. You'll also develop the literacy needed to interpret and translate scientific evidence about environmental security for a range of stakeholders.

International development and environment

Examine how environmental change, economic transformations and institutional practices interact to reshape social and ecological vulnerability, resilience and sustainability. You'll develop the skills to analyse the causes of poverty, disadvantage and environmental change, and to plan and implement international development projects and programs.

Leadership for sustainable development

You'll gain the theoretical insights, analytical skills and practical capacities to guide, influence and lead processes that result in positive social, environmental and economic outcomes. You'll develop the literacy and core skills to analyse complex situations, identify effective intervention points, create novel solutions and collaboratively design processes of influence to enable change.

LEADING THE REGIONAL RESPONSE TO THE UNITED NATIONS' SUSTAINABLE DEVELOPMENT GOALS

The Monash Sustainable Development Institute supports Australian and regional leadership in the implementation of the UN's Sustainable Development Goals (SDGs).

Working with a range of national and international stakeholders, it creates insights into how the SDGs can be made more scientifically and locally meaningful, with a focus on Australasia-appropriate solutions.

It coordinates the Australia-Pacific regional network of the Sustainable Development Solutions Network (SDSN), a rapidly growing and influential global network of universities and other organisations that aims to mobilise scientific and technical expertise in support of sustainable development problem-solving.

# Fees

All graduate coursework programs are offered as full-fee places. You'll need to pay the full tuition fee for the course and must make the payment upfront at the beginning of the teaching period.

Fees and durations quoted are for study at Australian campuses only. Fees are quoted in Australian dollars, and is the fee per 48 credit points of study in each course for 2017. Fees are adjusted annually. Please see [monash.edu/fees](http://monash.edu/fees) for updates.

[monash.edu/fees](http://monash.edu/fees)  
[study.monash/fees-scholarships/fees](http://study.monash/fees-scholarships/fees)

# Application process for international students

## Before you apply

### Use [study.monash/courses](#) to check:

- the international entry requirements
- extra documentation required, for example, details of relevant work experience
- fees
- closing dates
- when courses start

### When should you apply?

Apply as early as possible. Some courses have application closing dates two to four months before the start of the course, while others have quotas. Aim to have your application received by Central Admissions at least two to four months before the course start date. This allows time for your application to be processed and can help to ensure that you secure a place if your preferred course has limited places. Applying early also gives you time to get your student visa, which can take up to six months for some nationalities and countries.

### Defer your studies

If you decide to delay your course commencement date, you have the option to apply to defer your studies. You will need to complete the following form and return it to Central Admissions for approval: [study.monash/\\_\\_\\_data/assets/pdf\\_file/0003/88005/change-of-preference-form.pdf](#)

## How to apply?

## Step 1

### Apply

To apply online please refer to the following website for a step-by-step guide: [study.monash/how-to-apply](#)

To submit a hard copy application to Monash University Australia, complete the International Application Form located at the back of this guide, ensuring that all sections are completed and the declaration is signed and dated before you send the application. You may wish to apply though a Monash registered agent. Some agents may charge a fee for additional services so please ask what these costs are before you make an appointment.

To find a Monash registered agent near you please visit: [register.monash.edu/agents-database](#)

International students applying for graduate degrees by coursework offered by the Faculty of Pharmacy and Pharmaceutical Sciences are required to apply online. Hard copy applications are not accepted.

## Step 2

### Your application is assessed

When your application is received, Monash University will assess your application according to university entry requirements. To comply with Australian law your application will be assessed to check that you are genuinely seeking temporary entry to Australia to study. If your application is successful, you will receive an offer in the form of an International Student Course Agreement (ISCA). This will be emailed to you and your Monash registered agent (if you have one). Instructions will be supplied on how to accept your offer, including the fees and Overseas Student Health Cover (OSHC) you need to pay.

If we are not able to make you a full offer immediately, you may receive a conditional offer. A conditional offer means you must submit more information and meet the requirements specified in the ISCA. Usually, the information we need is documentation (for example official final transcript, graduation certificate or an English proficiency test) to see if you meet the specific entry requirements for the course you have applied for. We will explain what is needed in the ISCA. Please submit the documentation to us as soon as possible or contact us if you need any help. If you are not successful for your first preference your application will be considered for your next preference.

## Step 3

### Accepting your offer

To accept your offer, follow the instructions in your ISCA. You must complete, sign and return Part B of your ISCA along with payment and a photocopy of the personal details page of your passport before the offer lapse date. Your payment should include OSHC for the duration of your visa for yourself and any family members accompanying you to Australia.

When making payment it should be noted that:

- Monash University does not accept cash
- dishonoured bank drafts may incur additional bank fees
- you may need to notify your bank of large deductions.

Bank drafts will need to be mailed to Central Admissions. Please ensure you include your full name and Monash Student ID on the back of the bank draft.

## Step 4

### We send you an electronic confirmation of enrolment (eCOE) and enrolment package

An eCOE will be emailed to you or your Monash registered agent when you have accepted your full ISCA or packaged ISCA (with no academic conditions specified). You will need the eCOE to apply for a student visa.

After you have received your eCOE, you will receive an enrolment package that includes:

- your welcome letter
- a passport to Monash – your complete guide to living in Australia and studying at Monash University.

## Step 5

### Arrange your student visa

The Department of Immigration and Border Protection (DIBP) is responsible for issuing visas for entry to Australia. Students who are planning to study a Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) registered course are required to obtain a student visa.

Applicants are advised not to commence the visa application process until they have been issued with their electronic confirmation of enrolment (eCoE).

Applicants must keep in mind that their student visa application may take up to six months or more, depending on their nationality and country of residence.

All students, regardless of the financial capacity and English language proficiency documentation that may be required, will have to meet all other core visa criteria, such as the Genuine Temporary Entrant requirement and health and character criteria.

Additional visa information and application forms can be obtained from the Monash University website: [study.monash/how-to-apply/international-student-applications/visa-requirements](#)

## Step 6

### Plan your arrival

Make your own travel arrangements, aiming to arrive in Melbourne at least two weeks before enrolment. This will make it easier for you to settle in and prepare for the start of classes.

If you wish to use our airport reception service you need to complete and return the request form available at: [study.monash/how-to-apply/international-student-applications/preparing-to-arrive/book-your-airport-reception](#)

If you require help with arranging accommodation visit: [study.monash/student-life/accommodation](#)

## Step 7

### Enrolment and orientation

Once you have accepted and paid for your offer, Student Recruitment will email you an official Authority to Enrol letter two to three weeks before your enrolment date. The Authority to Enrol lists enrolment tasks that you must complete before enrolment.

Enrolment is the main step in starting your Monash studies. At enrolment you can meet a faculty course adviser, ask questions and discuss your unit selection and course structure. Enrolment takes place two weeks before the start of teaching, and students must arrive at the University in time for enrolment. Some courses do not accept late enrolments after the designated enrolment date.

On arrival at Monash University, you will be assisted through the process of enrolment. Further details are available at: [study.monash/student-life/getting-started](#)

Orientation (also called O Week) is a program of information sessions, tours and events designed to help you get to know Monash University, your fellow students and your campus. Use the orientation ePlanner to see what activities are on and to create your own personal schedule: [orientation.monash](#)

### Apply for coursework course: [monash.edu/study/apply](#)

# Entry requirements

When you apply to Monash University for a Graduate Degree by Coursework you must satisfy the following:

1. Minimum age requirements

You must be at least 17 years of age to enrol in a Monash University course. Some exemptions may apply. For further information, visit: [study.monash/how-to-apply/international-student-applications/students-under-18](#)
2. Academic and additional entry requirements

To view international Graduate Degrees by Coursework academic and additional entry requirements refer to the Monash Find a Course at: [study.monash/courses/find-a-course](#)
3. English entry requirements

All students who apply for a Monash University course must satisfy English entry requirements. Different English entry levels apply to Monash courses. If a student has completed several measures of English proficiency over a period of time, only the most recent demonstration of English is considered. For more information regarding English entry requirements refer to the Admission to Coursework Courses and Units of Study

Procedures available at: [monash.edu/policy-bank/academic/education/admissions-and-completions/admission-to-coursework-courses-and-units-of-study-procedures](#)

Monash University reserves the right to ask students to undertake an approved English proficiency test to meet English course requirements.

**English is the language of instruction**

Students can meet the English language requirement if they have undertaken the following studies at an institution where English is the language of instruction, communication and assessment for all aspects of study for the whole of the educational institution by satisfactorily completing the equivalent to at least 48 Monash credit points (one year of full-time study) at Australian VET diploma level or higher, or at undergraduate award level, or higher, which must be taken within 2 years prior to the Monash course commencement date.

Documentary evidence in the form of an official letter is required from the institution at which the study was undertaken. This document must be written and signed by the institution’s registrar (or other authorised person) of the education institution to the satisfaction of the Academic Board.

- English proficiency tests**
- The following English proficiency tests are accepted by Monash University:
- Academic IELTS (International English Language Testing System). For more information visit [ielts.org](#)
  - Internet/Paper Based TOEFL (American Test of English as a Foreign Language). For more information visit [ets.org](#)
  - Pearson Test of English (Academic). For more information visit [pearsonpte.com](#)
  - Cambridge Certificate in Advanced English (CAE) and Cambridge Certificate of Proficiency in English (CPE). For more information visit: [cambridgeenglish.org](#)

Monash University reserves the right to ask students to undertake an approved English proficiency test to meet English course requirements, and will only accept English proficiency tests taken within 24 months prior to the Monash course commencement date.

Please note that all entry requirements for Monash University are subject to change.

# Graduate Degrees by Coursework English Categories

Graduate Degrees by Coursework English Categories for Academic IELTS, Internet based TOEFL and Pearson Test of English (Academic) are detailed in the below table.

	Overall band score	Listening	Reading	Speaking	Writing	Total score	Listening	Reading	Speaking	Writing	Total score	Listening	Reading	Speaking	Writing
	Academic IELTS					Internet-based TOEFL					Pearson Test of English (Academic)				
COURSEWORK															
A	6.5	6.0	6.0	6.0	6.0	79	12	13	18	21	58	50	50	50	50
B	6.5	6.5	6.5	6.0	6.0	79	20	19	18	21	58	58	58	50	50
C	7.0	6.5	6.5	6.5	6.5	94	20	19	20	24	65	58	58	58	58
D	7.0	6.5	6.5	7.0	7.0	94	20	19	23	27	65	58	58	65	65
E	7.5	8.0	7.0	8.0	7.0	102	28	24	26	27	73	79	65	79	65
F*	7.0	7.0	7.0	7.0	7.0	94	24	24	23	27	65	65	65	65	65
G	7.0	7.0	7.0	7.0	7.0	94	24	24	23	27	65	65	65	65	65
H	7.0	6.5	6.5	6.5	7.0	94	20	19	20	27	65	58	58	58	65
I	6.5	6.5	6.5	7.0	6.5	79	20	19	23	24	58	58	58	65	58
J	7.0	6.0	6.0	6.0	7.0	94	12	13	18	27	65	50	50	60	65

\* Note: Category F English language requirements can only be satisfied with submission of an Academic IELTS, Internet Based TOEFL or Pearson Test of English (Academic).

## Monash English Bridging (MEB) – for Graduate Degrees by Coursework

Monash University English Language Centre offer MEB for students who do not meet Graduate Degrees by Coursework English requirements. Upon successful completion of MEB, students will have met the Monash University English language requirements. However some Monash University Graduate Degrees by Coursework courses do not accept MEB. MEB entry requirements are as follows:

Graduate Degree by Coursework English language category	Weeks	Academic IELTS	Internet Based TOEFL	Pearson Test of English (Academic)
STANDARD				
Graduate Degree by Coursework English Category A	20 weeks	5.5 (no band less than 5.0)	52 (W15, S14, L5 & R5)	42 (W36, S36, L36 & R36)
	15 weeks	6.0 (no band less than 5.0)	69 (W15, S14, L5 & R5)	50 (W36, S36, L36 & R36)
	10 weeks	6.0 (no band less than 5, Writing 6.0)	69 (W21, S14, L5 & R5)	50 (W50, S36, L36 & R36)
ADVANCED				
Graduate Degree by Coursework English Category B, C, D, G, H and I	20 weeks	6.0 (no band less than 6.0)	69 (W21, S18, L12 & R13)	50 (W50, S50, L50 & R50)
	15 weeks	6.5 (no band less than 6.0)	79 (W21, S18, L12 & R13)	58 (W50, S50, L50 & R50)
	10 weeks	6.5 (no band less than 6.5)	79 (W24, S20, L20 & R19)	58 (W58, S58, L58 & R58)
ADVANCED PLUS				
Graduate Degree by Coursework English Category E	20 weeks	6.5 (7.0 in Listening and Speaking, 6.0 in Reading and Writing)	79 (W21, S23, L24 & R13)	58 (W50, S65, L65 & R50)
	10 weeks	7.0 (7.5 in Listening and Speaking, 6.5 in Reading and Writing)	94 (W24, S24, L27 & R19)	65 (W58, S73, L73 & R58)

W – writing    S – speaking    L – listening    R – reading

6. Have you breached any visa conditions in any country: ☐ Yes ☐ No If yes, please attach evidence. Translated into English (if required) and certified.

7. Do you have any medical or health issues that may prevent you from obtaining your visa?

☐ Yes ☐ No If yes, please explain or attach relevant documentation. Translated into English (if required) and certified.

In answering this question go to [www.border.gov.au/Trav/Visa/Heal](http://www.border.gov.au/Trav/Visa/Heal) that lists medical and health conditions of concern to the Australian Government. Also note that health insurance in Australia will not extend to a pre-existing medical condition.

8. Do you have any physical or mental health condition or other issue which may prevent you to undertake full-time study? ☐ Yes ☐ No

9. Have you been issued a protection visa in any country to date? ☐ Yes ☐ No If yes, please attach evidence. Translated into English (if required) and certified.

10. Have you been convicted of any crime or offence in any country? ☐ Yes ☐ No If yes, please provide ALL relevant details. Translated into English (if required) and certified.

Section D: Course preferences

Choose up to three courses you would like to study and list them in order of preference. Check the entry requirements and prerequisite subjects for each to see if you qualify. If you meet the requirements of your first choice, you will not be assessed for your second and third choices. If you do not meet the entry requirements of any of your preferences your application will be automatically assessed for alternative or pathway courses within the relevant study discipline. Use [study.monash/courses/find-a-course](http://study.monash/courses/find-a-course) to assist in your selection.

	Course name	Specialisation	Course code	Commencement year	Semester	Campus
1.						
2.						
3.						

Campus codes: Caulfield **CA**, City **CI**, Clayton **CL**, Parkville **PA**, Peninsula **PE**

Section E: Students with disabilities

1. Do you have a disability, mental health or ongoing medical condition that may affect your studies? ☐ Yes ☐ No

If yes, Monash will require further information from a relevant health professional outlining the potential impact of your condition on your intended study program. Disability Support Services can provide a range of study supports for students with disability. For more information, visit: [monash.edu/disability](http://monash.edu/disability).

2. Have you previously registered for disability services at your previous/current Australian education provider? ☐ Yes ☐ No

Section F: English language proficiency

You must provide proof of your English proficiency to the required standard of your chosen course. There are a number of ways to satisfy these requirements. For details, visit: [policy.monash.edu/policy-bank/academic/education/admissions/admissions-coursework-courses-units-of-study-procedures.html](http://policy.monash.edu/policy-bank/academic/education/admissions/admissions-coursework-courses-units-of-study-procedures.html). Some of the main pathways are:

English as the language of instruction

You have studied in an institution where English is the language of instruction, communication and assessment for all aspects of study for the whole of the educational institution. Applicants are required to provide evidence from the institution on official letterhead and signed by the registrar (or other authorised person) of the educational institution to the satisfaction of the Academic Board.

Academic IELTS/TOEFL/PEARSON TEST OF ENGLISH (Academic)

**Attach original results or documents (or request results to be sent to Monash University by testing centres).** Please note that only results achieved within two years prior to the course commencement date will be considered. If you have not yet sat an ACADEMIC IELTS/TOEFL/PEARSON TEST OF ENGLISH (ACADEMIC) exam please indicate when you will sit one below.

Please note: The Australian Government sometimes requires proof of English proficiency for visa applications. You should ensure that any test you take meets those requirements also. Visit: [www.border.gov.au/Trav/Stud/More/Student-Visa-English-Language-Requirements](http://www.border.gov.au/Trav/Stud/More/Student-Visa-English-Language-Requirements).

**OR** ☐ I will apply for a Monash English Language Centre course in Section G.

If you narrowly missed the course English requirements, you may be eligible for Monash English Bridging packaged with a direct entry into your desired course. If so, Monash will indicate this in your letter of offer.

Section G: Application for additional English studies and university preparation

Monash English Placement Test (MEPT)

The Monash English Placement Test is ideal for students who do not have an IELTS or approved international test score. The test provides an indicative calculation of the number of weeks of Monash English you will need to meet the requirements of your Monash destination course. The MEPT must be accompanied by a Monash University or Monash College application form. The MEPT is available from registered MEPT approved Monash agents: [register.monash.edu/agents-database](http://register.monash.edu/agents-database).

Additional tuition fees apply for Monash University English Language Centre courses. For details of fees, courses and start dates, visit: [monashcollege.edu.au/english-language-services](http://monashcollege.edu.au/english-language-services).

Section H: Academic qualifications

Check the academic/English entry requirements, prerequisites and additional requirements for the courses for which you are applying. Additional requirements include submission of a statement of purpose, curriculum vitae, work reference letters, folio, supplementary forms, additional faculty application forms, interviews and auditions. For undergraduate entry requirements refer to the admissions tables in the Monash University International Undergraduate Course Guide or the Monash Find a Course. For postgraduate entry requirements refer to the Monash Find a Course: [study.monash/courses/find-a-course](http://study.monash/courses/find-a-course). Include details of your previous academic qualifications in the relevant sections below. Please ensure commencement and completion dates are specified, or if you are yet to complete your studies, please include your intended completion date. You are also required to supply supporting translated and certified documents to verify your academic qualifications.

Are you transferring within the first six months of your principal course in Australia? ☐ Yes ☐ No

Your principal course is the main course of study to be undertaken where you have been issued a student visa for multiple courses of study. The principal course would normally be the final course of study. If yes, please attach a release letter from your current provider.

If your final year of study was completed more than six months ago, please attach separately a detailed account of activities/work experience undertaken since then.

Section I: Required documentation

Certified copies of academic qualifications **must** be attached to this application, including academic transcripts, graduation certificates and grading systems. If the qualifications are in a language other than English, please also supply certified translated copies. Monash prefers NAATI qualified translators.\* For more information on NAATI translators, please see: [www.naati.com.au](http://www.naati.com.au).

If the course you have applied for requires work experience please provide a translated and certified copy of your curriculum vitae along with work reference letters issued by your previous employer on original company letterhead stating your job title, the basis of employment (full-time/part-time), a precise description of duties performed, duration of your employment (including dates) and the full name, title and signature of the writer.

Monash University only accepts faxed or emailed certified documents sent via Monash Registered Agents. If you are a direct applicant (and did not apply through a Monash Registered Agent), you will be required to send your original certified documents by mail. All documents submitted with your application remain the property of Monash University.

Certification of documents

All documents submitted **for assessment** must be properly certified on every page.

Who can certify documents?

**Documents submitted within Australia:** Solicitor, pharmacist, justice of the peace, member of the police force, doctor, school principal, bank manager, chartered accountant. **Documents submitted outside Australia:** Monash University registered agent, Monash staff member, solicitor, commissioner for declarations, government official, public notary, university staff (head of department, dean or registrar or other authorised person).

Applicants have the option to ask their current or previous education institution to send copies of their academic transcripts, graduation certificate and grading systems direct to Central Admissions, Monash University in a sealed envelope sent directly from the institution.

**What does the certifier need to do?** Approved certifier (from list above) must sight the applicant’s original academic transcripts, graduation certificates and grading systems etc. and check that the copies are true and unchanged copies of the original documents.

The certifier must then certify **every page** of the documentation as follows:

1. Certifier must write a statement acknowledging or apply a stamp that shows they have sighted the original documents using words such as “certified true copy of the original” OR “original sighted”.

2. Certifier must sign the document.

3. Certifier must write their full name.
4. Certifier must apply the agent/organisation stamp.

5. If the certifier is not a Monash Registered Agent, the position title of the certifier must be indicated.

6. Certifier must date the document.

If you have a Chinese qualification, documents submitted for assessment must be:

- Certified by the Notary Public Office. Notary certification must include a certificate stating that translations of all documents in to English are authentic and in conformity with the original in Chinese; OR
- Your transcript/s, degree certificate and graduation certificate/s can be sent to Central Admissions, Monash University in a sealed envelope directly from your university; OR
- Photocopies of original notarised documents can be submitted by a registered agent. Documents must be certified by the agent. Information regarding registered agents can be viewed at: [register.monash.edu/agents-database](http://register.monash.edu/agents-database).

Monash University reserves the right to refuse documentation on the grounds of incorrect certification and translation.

Section J: Credit transfer

Do you wish to apply for credit transfer from your previous studies? ☐ Yes ☐ No

If you have ticked yes, please provide the following:

- 1. Complete the Credit Transfer Application Form available at: [monash.edu/service-centre/assets/docs/forms/credit.pdf](http://monash.edu/service-centre/assets/docs/forms/credit.pdf).
- 2. Submit detailed course syllabus/unit outlines/curriculum for the units you are seeking credit transfer for.

Further information may be requested from you if your previous course/institution has not been previously assessed by Monash University for credit evaluation assessment.

Section K: Scholarship/sponsorship information

Have you applied for a scholarship/sponsorship from an organisation external to Monash University to support your studies? ☐ Yes ☐ No

Please state the name of the external scholarship/sponsorship:

What is the status of your external scholarship/sponsorship application? ☐ Approved ☐ Pending ☐ Not approved

If the external scholarship/sponsorship has been approved please provide a copy of the official letter with this application.

Section L: Application fee payment

You can pay the A\$100 application fee by credit card, money order or bank draft payable to Monash University.

Bank drafts/money orders will need to be mailed or delivered in person to Central Admissions, Monash University. Please ensure you include your full name and date of birth on the back of the bank draft/money order.

Credit card payments can be made at the following link: [monash.edu.au/fees/payment/payment-options.html](http://monash.edu.au/fees/payment/payment-options.html).

If you have made payment using the online credit card service (from the above link), please print a copy of the payment confirmation email and attach to this application form upon submission.

If your A\$100 application fee has been waived by Monash recruitment staff please insert the valid fee waiver promotion code or obtain the recruitment staff signature here:

Staff signature:  Waiver promotion code:

Section M: Privacy and student declaration

General privacy statement

The information collected on this form is used to assess your application for admission to a Monash University course and to manage any subsequent enrolment as a student. It is also used to create an enrolment record on the student database, to prepare statistical analysis and to inform you about your course and other university courses/events. If you do not complete all the questions on this form, it may not be possible to process your application. Personal information may be collected from or disclosed to relevant bodies for the verification of your previous qualifications, and it may be disclosed to government agencies (e.g. DIBP), as required by legislation or pursuant to obligations under ESOS Act 2000 and the 2007 National Code of Practice or for your visa application. Information may be shared with the registered agent you appoint to assist with your application for entry or visa processing. You have the right to access persona information that Monash University holds about you, subject to legislation, by contacting the Monash University privacy officer at [privacyofficer@monash.edu](mailto:privacyofficer@monash.edu).

Due to privacy regulations we are unable to disclose information to any other third parties such as friends, relatives and parents. All documents provided to Monash University become the property of the University and will not be returned to you.

Declaration

I warrant that the information on this form, or provided in support of my application, is correct, complete and up-to-date in every detail. I acknowledge that the provision of incorrect information or the withholding of relevant information relating to my application, including academic transcript/s, might invalidate my application and that the University may refuse to assess my application, withdraw an offer of a place or cancel my enrolment in consequence. Should the University determine that I have submitted a false document, I consent to the University disclosing this information to other relevant tertiary institutions.

I consent to any educational institution at which I have previously been a student and/or my current or any past employer providing Monash University with information which that institution or employer holds about me for the purpose of Monash verifying my grades and/or qualifications, experience and suitability for admission.

I declare that I am a Genuine Student and a Genuine Temporary Entrant (GTE) and that I have read and understood the conditions in relation to these requirements as defined on the following website: [www.border.gov.au/Trav/Stud/More/Genuine-Temporary-Entrant](http://www.border.gov.au/Trav/Stud/More/Genuine-Temporary-Entrant). I understand that if the University forms the opinion that I am not a Genuine Temporary Entrant or a Genuine Student it may refuse to assess my application, withdraw an offer of a place or cancel my enrolment.

I am aware of the estimated total course fees at Monash University and living costs for my stay in Australia. I understand that the total course fees do not cover the cost of books, materials, field trips or any additional cost related to my course, unless otherwise specified.

I declare to have sufficient funds to support myself and my family unit members (if applicable) for the TOTAL period of my stay in Australia, including proposed course fees for myself and any school-aged family members, Overseas Students Health Cover, living costs and travel costs, regardless of whether my dependents intend to accompany me in Australia.

I agree to abide by the statutes, regulations, policies and procedures of Monash University.

I have read and understood the above conditions and accept them in full.

Student signature:  Date:

This document must be signed by original hand – electronic signatures will not be accepted by Monash University.

If you are under 18 years of age at the time of submitting this application you must have a parent or guardian sign this declaration on your behalf.

\*If you do not yet hold a valid passport please ensure that your signature matches the signature on the passport you are issued.

Parent or guardian contact details

Name of parent/guardian: (circle as applicable):

Parent/guardian's business telephone:   Parent/guardian's fax:

Parent/guardian's email:

Parent/guardian's signature:  Date:

Please complete the following checklist before submitting: ☒

Note: Incomplete applications will cause delays in processing. Please ensure all relevant documents are translated and certified (where required).

- ☐ All sections of the application form are completed
- ☐ A\$100.00 application fee (non-refundable)
- ☐ Certified proof of English proficiency
- ☐ Certified and translated copies of academic records/transcripts/grading scales
- ☐ Additional information (check your course(s) in the admissions table for international students or at: [study.monash/courses/find-a-course](http://study.monash/courses/find-a-course))
- ☐ Signed declaration by student (or parent if the student is under 18)
- ☐ Copy of official scholarship/sponsorship offer letter if applicable
- ☐ Copy of the personal details page of the student's passport or a copy of birth certificate

Send your application to:

Australian campuses

Applicants for courses at Australian campuses should forward this application form to:

Central Admissions,  
Monash Connect, Clayton Campus  
21 Chancellors Walk, Campus Centre,  
Monash University,  
VIC 3800, Australia

Email: [mu.documents@monash.edu](mailto:mu.documents@monash.edu)

Malaysia campus

Applicants for courses at the Sunway campus must apply to the address below using the application form located at: [www.monash.edu.my/study/apply](http://www.monash.edu.my/study/apply)

Admissions Office  
Monash University Malaysia  
Building 2, Level 1  
Jalan Lagoon Selatan  
47500 Bandar Sunway  
Selangor Darul Ehsan, Malaysia
