# Welcome

King's is one of the world's great universities, balancing an outstanding reputation for world-class research and teaching with a community of staff and students from across the globe.

For almost 200 years King's research has been, and continues to be, world-leading and our graduates are some of the most employable in the world. As a postgraduate student at King's you'll join one of the world's top 25 universities and become part of a diverse, international student body.

Our distinguished teaching staff will help you harness your curiosity and aspiration and turn it into a lasting basis for success, social impact and continuous learning. The transformative, research-led education that you receive will inspire and empower you to follow in the footsteps of our esteemed alumni, including pioneers such as James Clerk Maxwell, Joseph Lister and Rosalind Franklin and Nobel Prize winners including Peter Higgs and Archbishop Desmond Tutu who helped transform the modern world with his staunched opposition to the policies of apartheid.

The King's strategic vision looks forward and shows how we will make the world a better place by focusing on five strategic priorities: educate to inspire and improve; research to inform and innovate; serve to shape and transform: a civic university at the heart of London; and an international community that serves the world. These key priorities will be entwined through everything the university is involved in moving forward. I hope you will join us as we pledge to work together to make the world a better place.

Edward Byrne.

President & Principal,  
Professor Edward Byrne AC

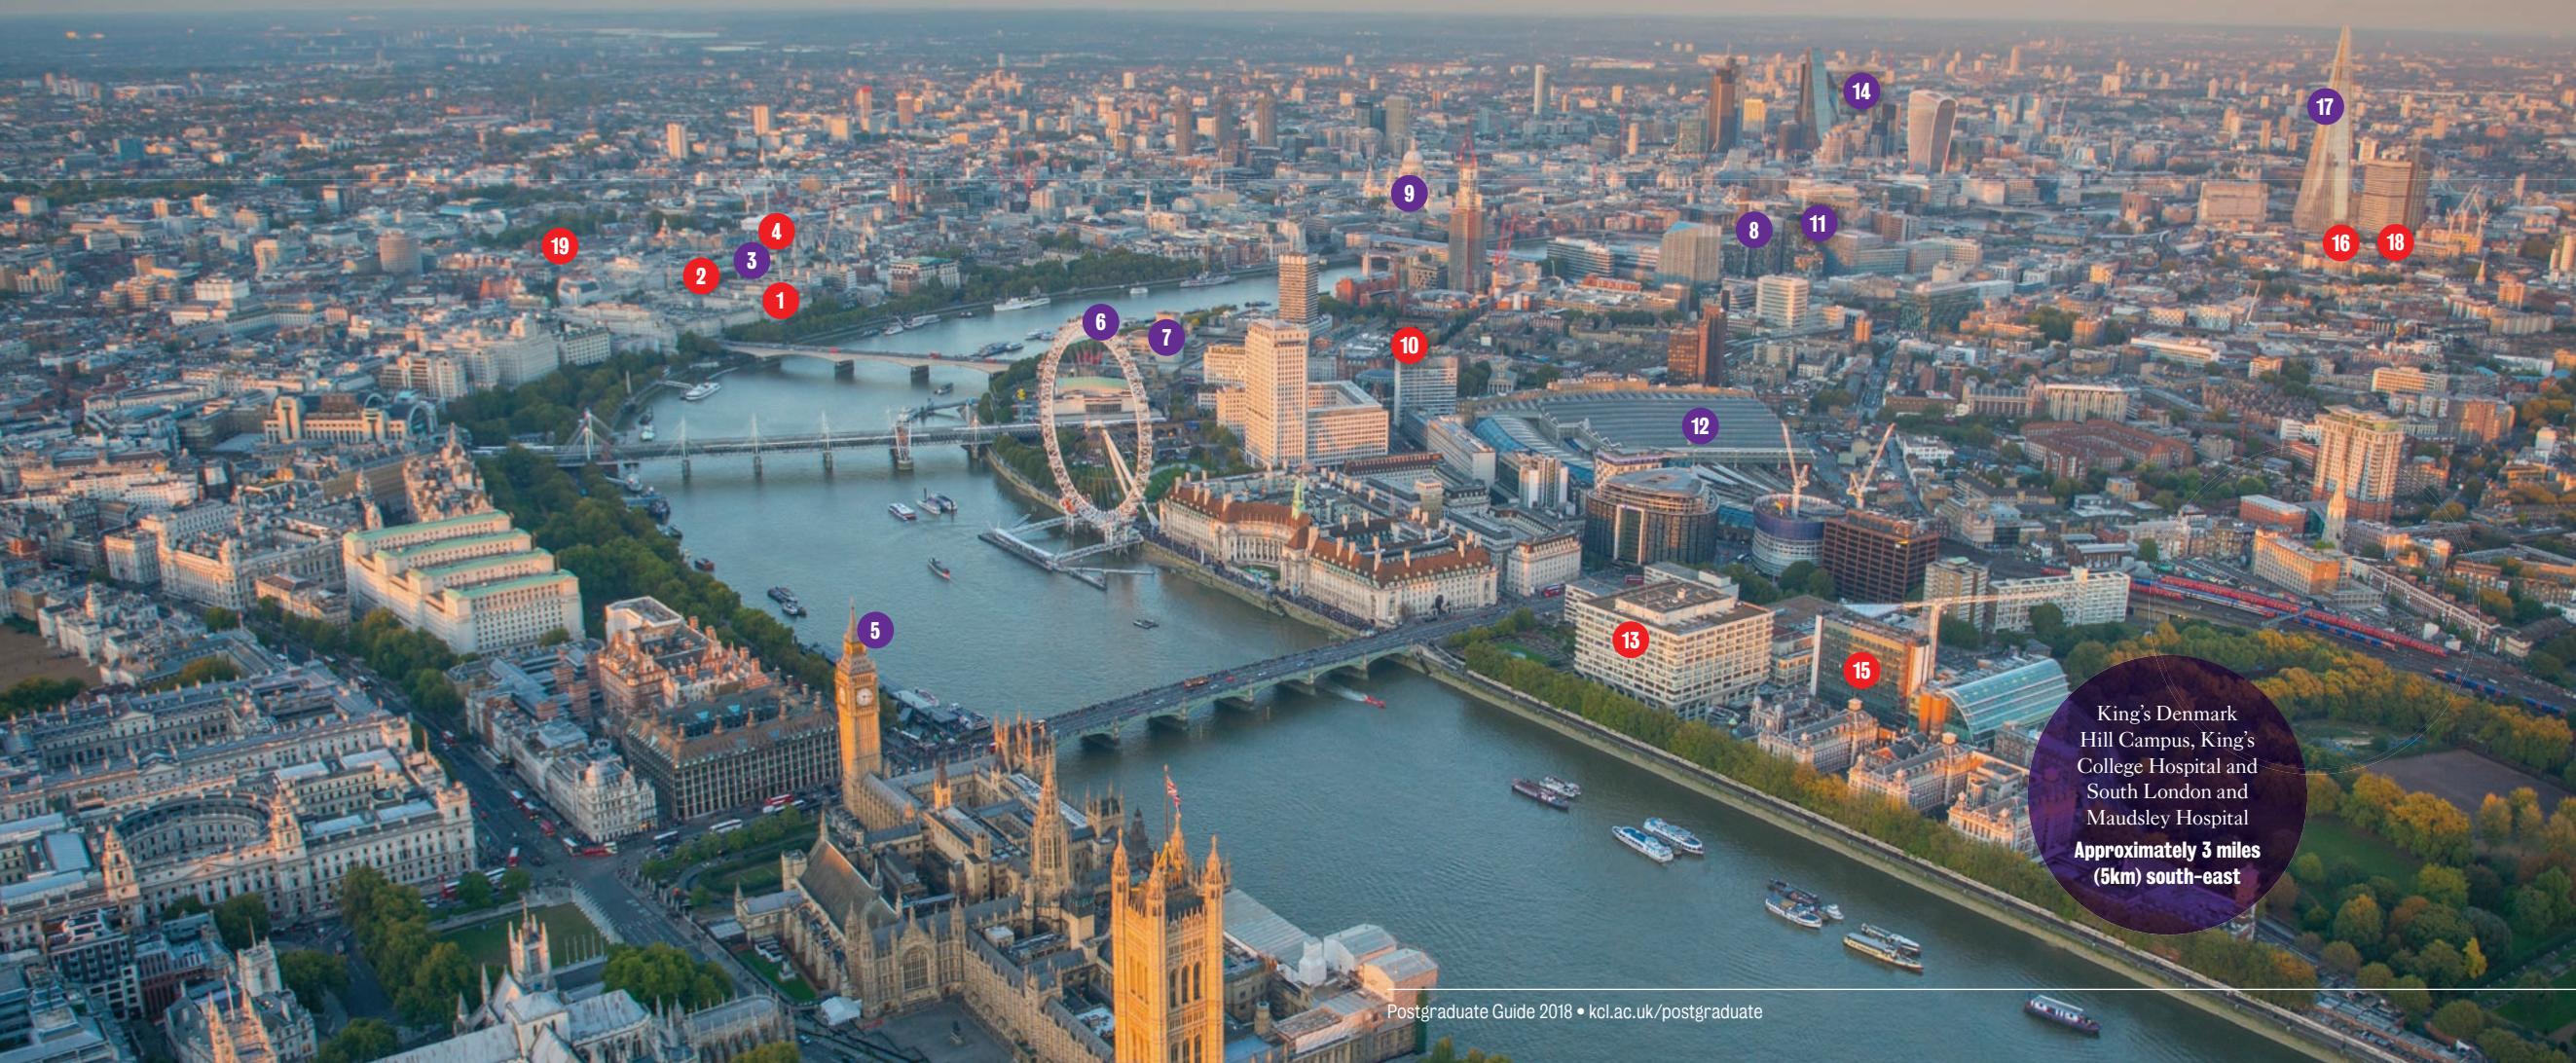

King's is home to one of the most exciting and highly respected research communities in the world. With King's connections in London, this international city will become an extension of your campus and home.

# Choose King's for its central London locations

- 1 King's Strand Campus
- 2 King's Bush House
- 3 Royal Courts of Justice
- 4 Maughan Library
- 5 Palace of Westminster
- 6 London Eye
- 7 Southbank arts complex
- 8 Tate Modern
- 9 St Paul's Cathedral
- 10 King's Waterloo Campus
- 11 Shakespeare's Globe
- 12 Waterloo Station
- 13 St Thomas' Hospital
- 14 City of London financial district
- 15 King's St Thomas' Campus
- 16 King's Guy's Campus
- 17 The Shard
- 18 Guy's Hospital
- 19 Virginia Woolf Building

**KEY**

- King's locations
- London landmarks

# Choose King's to be part of London

- With central London as your campus, you'll have access to world-class resources; libraries, galleries, museums and top research hospitals, as well as exclusive music, theatre, the arts, sporting facilities and events.
- With more than 29,600 students from 150 countries worldwide, King's mirrors London in diversity, offering a truly cosmopolitan experience that connects you to the world.
- BUSH HOUSE: NEW BEGINNINGS**  
Formerly the headquarters of the BBC World Service, this striking London landmark has continued its legacy of global innovation as part of King's since autumn 2017. King's Business School has state-of-the-art facilities.
- Bush House, along with two of its sister buildings, offers outstanding space for world-leading research, teaching and collaboration.
- [kcl.ac.uk/bush-house](http://kcl.ac.uk/bush-house)
- SPECIAL EVENTS**  
King's has powerful, unique links to institutions, organisations and individuals across London and beyond – it is never short of influential speakers for packed programmes of talks and events. From live screenings and exhibitions at the Cultural Institute at King's to political debates or scientific documentaries, there is always something to inspire you and help you raise your game.
- [kcl.ac.uk/events](http://kcl.ac.uk/events)
- EXPERIENCE LONDON AWARD**  
The King's Experience London Award recognises engagement with the community through activities such as voluntary work, or working with local schools in order to encourage widening participation in higher education.
- The award aims to encourage and reward local community engagement, bringing King's expertise and commitment to London in ways that benefit both students and the community.
- [kcl.ac.uk/london-award](http://kcl.ac.uk/london-award)

*'I enjoy everything about London. There's such a rich culture and environment. There are plays, movies, music... there's far too much, but it's wonderful!'*

**Ted**  
History of War MA

# Choose King's to achieve academic excellence

King's academics challenge boundaries, develop pioneering solutions and bring about positive change in the world. At King's, you will be supported to achieve your maximum potential.

## PERSONAL TUTORS

As a postgraduate taught student at King's, you will be allocated a personal tutor from within your department or faculty. Postgraduate research students will have a research supervisor.

## ACADEMIC SKILLS SUPPORT

King's provides dedicated support to help you develop your academic potential, from free online (master's) or face-to-face (PhD) development opportunities offered by the Graduate School's Researcher Development programme to the wide range of academic skills workshops provided by King's English Language Centre.

→ [kcl.ac.uk/study/  
graduate-school](http://kcl.ac.uk/study/graduate-school)  
→ [kcl.ac.uk/elc](http://kcl.ac.uk/elc)

## EXPERT ADVICE

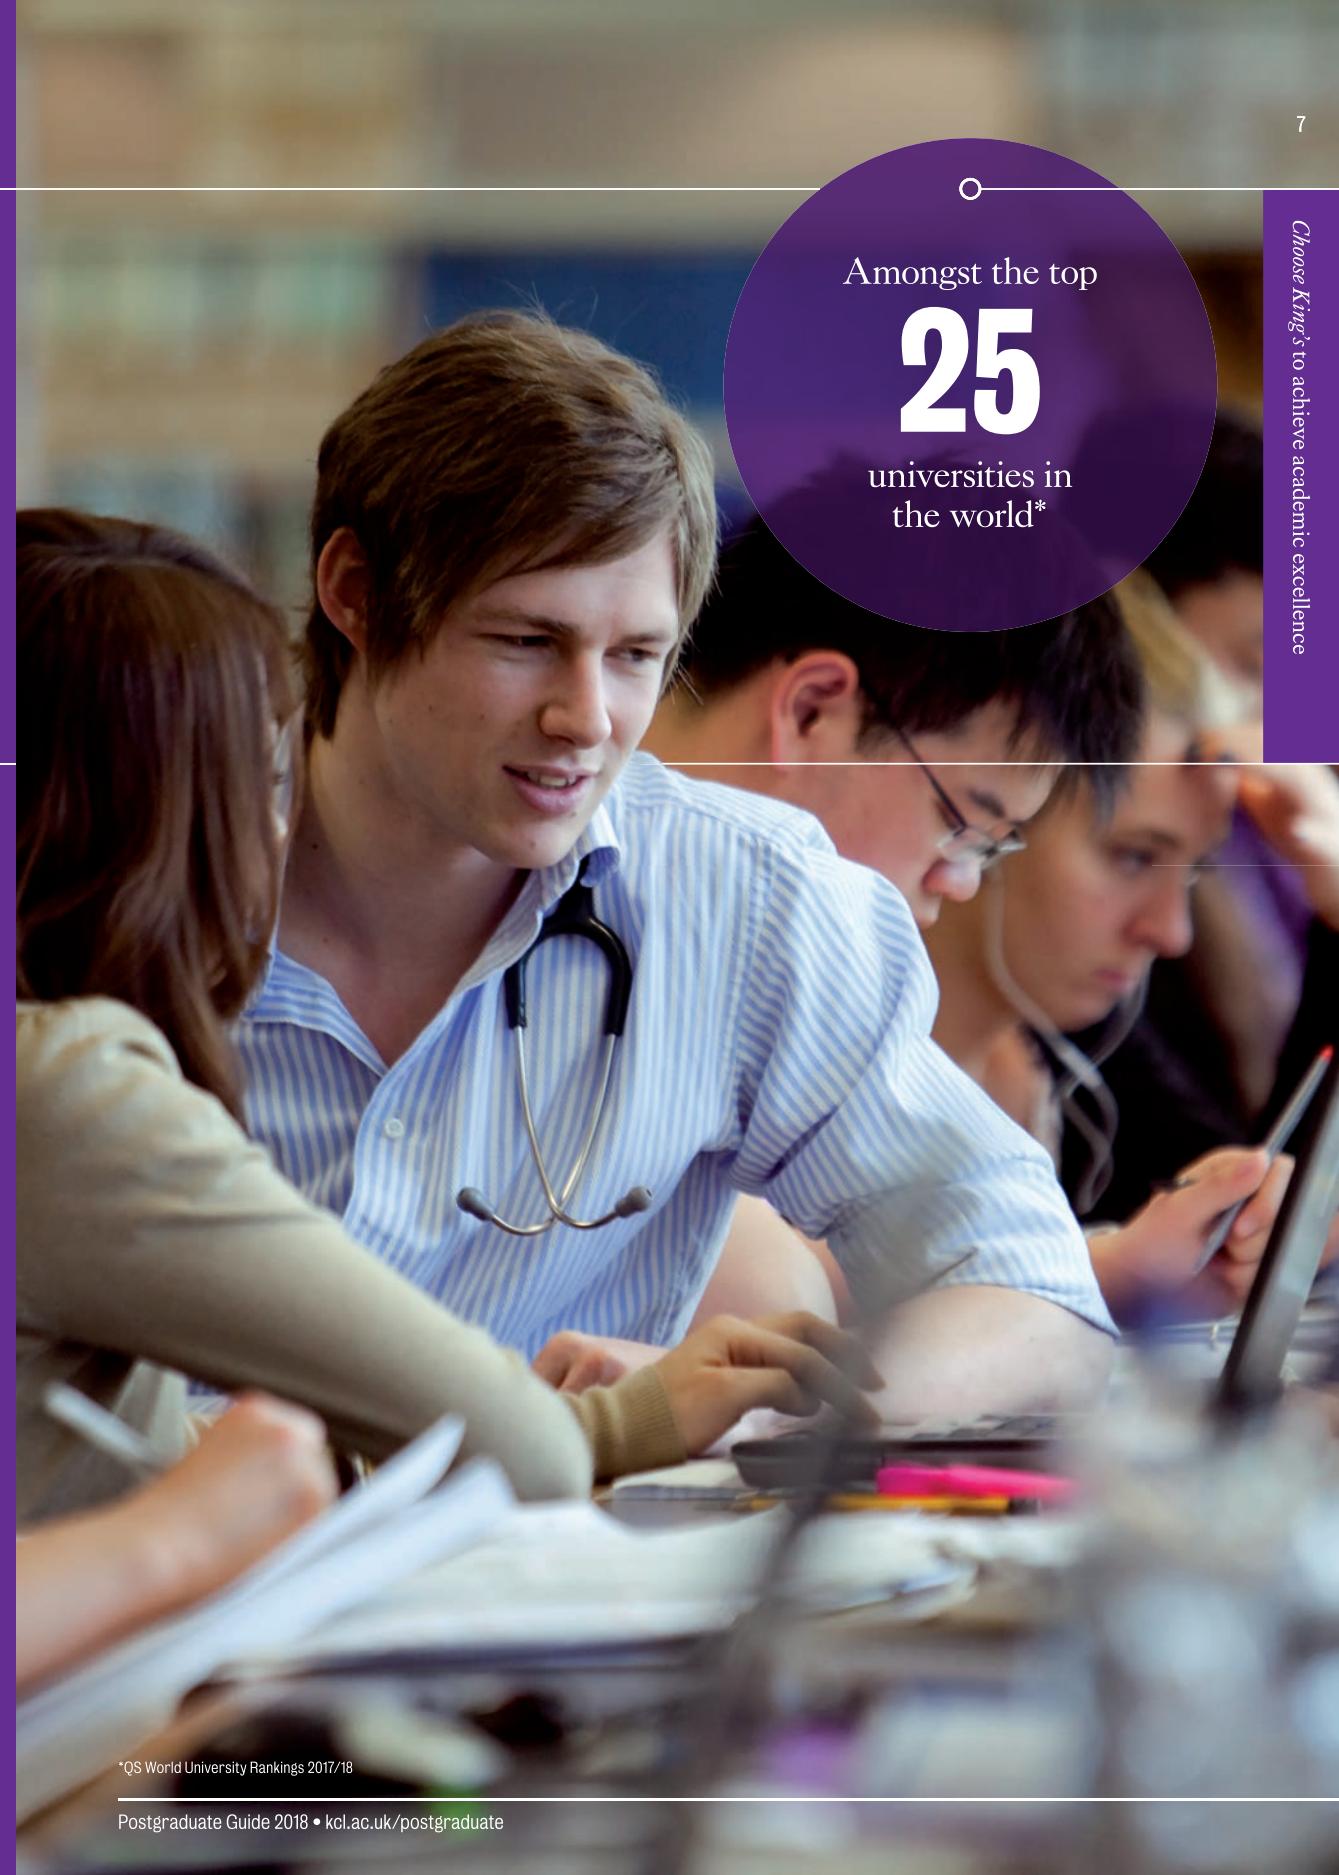

King's provides a Student Advice service for all students through KCLSU. This service will be there to offer help and support should you face any difficulties, or should you want help with King's College London regulations and procedures.

→ [kclsu.org/advice](http://kclsu.org/advice)

## CONSULTANCY, PROFESSIONAL & EXECUTIVE EDUCATION

King's academics serve on influential committees and in government advisory bodies across all sectors and around the globe. King's works with private and public sector organisations to develop and deliver tailor-made training, from one-day workshops to master's-level courses for professionals.

→ [kcl.ac.uk/study/  
executive-education](http://kcl.ac.uk/study/executive-education)

# Choose King's to enhance your career

Listing a postgraduate qualification from a top 25 university in the world on your CV is just the beginning. At King's, you'll also be able to develop professional skills and experience to help you stand out from the crowd.

In partnership with the Graduate School, King's expert Careers & Employability team offers an outstanding range of professional development support, enhanced by strong links with alumni and other professionals in London and around the world. Whether you're looking for networking opportunities or advice on launching your own business, King's can work with you to make it happen.

[kcl.ac.uk/careers](http://kcl.ac.uk/careers)

## INTERNSHIPS

Through dedicated King's internships provision, you can choose to do one of the following:

- Undertake an accredited module that counts towards your degree.
- Secure a paid internship in London.
- Spread your wings in one of 10 locations with the Global Internships Programme and immerse yourself in a new culture.

[kcl.ac.uk/internships](http://kcl.ac.uk/internships)

## THINK LIKE YOUR FUTURE EMPLOYERS

Employers love King's postgraduates for their passion and knowledge in their field. However, to land your dream job you need to go further. Explore careers fairs, skills workshops, networking nights and the hundreds of annual events listed on King's CareerConnect portal to discover what employers really look for and gain lifelong skills.

[kcl.ac.uk/careers/events](http://kcl.ac.uk/careers/events)  
[kcl.ac.uk/careerconnect](http://kcl.ac.uk/careerconnect)

## BE YOUR OWN BOSS

If you have a great business idea, the King's Entrepreneurship Institute can help. Meet inspiring people, develop your entrepreneurial skills and gain expert advice for your start-up journey. You can also apply for initiatives like the King's20 accelerator, a one-year programme offering office space and guidance (worth an estimated £30,000) to early-stage ventures.

[kcl.ac.uk/entrepreneurship-institute](http://kcl.ac.uk/entrepreneurship-institute)

*'King's Careers & Employability helped me get an internship at a London-based firm where I could network with professionals in my field. As a King's graduate you're more competitive compared with students from different universities, and King's helped me to do better in my job applications and future career plan.'*

Dan

Accounting, Accountability & Financial Management MSc

# Choose King's to join a vibrant community

At King's, you'll become part of a diverse and active student community. There are countless ways to get involved in various activities, meet like-minded people and develop new skills to enhance your future.

## KCLSU (KING'S COLLEGE LONDON STUDENTS' UNION)

Every student at King's is automatically a member of KCLSU. Together with its members, it is a union of students where individuals connect, have fun, build communities, share experiences, and make change.

KCLSU is run by students, for students. Decisions, policies and what the union does is decided by over 29,000 student members. As a democratic charity and membership organisation, students lead King's at every level to achieve our priorities.

[kclsu.org](http://kclsu.org)

[/KCLSUPage](http://KCLSUPage)

[@KCLSU](http://@KCLSU)

## KING'S SPORT #TEAMKINGS

Whether you're a first-time participant, an elite performer or something in between, King's Sport and KCLSU have something on offer for everyone:

- Join one of over 75 sports clubs.
- Enjoy 27 recreational sports with the BeActive programme.
- Keep fit with one of King's Sport's Health & Fitness gyms located around London.

## ASSOCIATESHIP OF KING'S COLLEGE

The Associateship of King's College (AKC) offers an inclusive, research-led programme of lectures that gives King's students an opportunity to engage with current issues alongside their main programmes of study.

Lectures will broaden your perspective and tackle life's big questions, reflecting on theology, philosophy and ethics in relation to today.

[kcl.ac.uk/akc](http://kcl.ac.uk/akc)

## GET INVOLVED, GET PAID

Whether it's helping at an open evening or providing support at one of many live screenings, exhibitions or talks, there are regular opportunities to get involved at King's and earn money. Find a short-term contract or a part-time job with your faculty or central services and get paid the London Living Wage.

[kingstalentbank.com](http://kingstalentbank.com)

**300+**

societies, activity groups and sports clubs

*While at King's, I got involved in King's Think Tank – a student-led society. I'm interested in working with public policy and this helped me to get involved with students from different backgrounds and was really enriching for my academic experience.'*

**Juliana**  
International Tax LLM

# Choose King's to connect to arts & sciences

King's is connected with leading cultural, arts and science organisations that inspire new approaches to teaching, research and learning via internships, research funding opportunities and competitions, as well as events and seminars.

*Having the Cultural Institute based at King's is fantastic because it's an opportunity to get a sense of what arts organisations do, how they run and how to apply the knowledge you're learning in your degree.*

**Lauren**  
Arts & Cultural Management MA

## CULTURE AT KING'S

Across King's College London, arts and culture offer distinctive opportunities to students and academics, helping to deliver world-class education and research that drives innovation, creates impact and engages beyond the university.

From uniquely tailored teaching, training and internship programmes, through collaborative research projects and enquiries, to exhibitions and public events, arts and culture are helping to generate new approaches, new insights and new networks.

[kcl.ac.uk/culture](http://kcl.ac.uk/culture)

## POLICY INSTITUTE AT KING'S

The Policy Institute links insightful research with rapid, relevant policy analysis to stimulate debate and shape future policy agendas. This enables the translation of academic research into policy and practice through engagement between academic, business and policy communities around policy needs in the UK and globally.

## SCIENCE GALLERY LONDON

Opening in 2018 on Guy's Campus, Science Gallery London is a flagship project where art and science collide, bringing together researchers, students, local communities and artists in surprising and innovative ways through themed exhibitions, events and experiences.

[london.sciencegallery.com](http://london.sciencegallery.com)

## PARTNERSHIPS

As a postgraduate student at King's, you will benefit from outstanding connections with organisations and institutions in London and across the world.

Cultural partnerships:  
National Gallery, Royal Opera House, Southbank Centre, Shakespeare's Globe.

Business links:  
Credit Suisse the Shadow Robot Company, Fios Genomics.  
Governance and legal London:  
the National Audit Office, 10 Downing Street, PwC Legal.

Science partnerships:  
Transport for London (TfL),  
Ericsson, Bloomberg.

[kcl.ac.uk/study/postgraduate/community](http://kcl.ac.uk/study/postgraduate/community)

# 301

organisations work with King's

# Choose King's to connect to the best health opportunities

Interdisciplinary research, collaborations with other institutions and links with major funding organisations provide you with world-class health sponsorship, guest lecturers, leadership programmes, internship opportunities and more.

## KING'S CENTRE FOR GLOBAL HEALTH

The King's Centre for Global Health is a joint centre for King's College London and King's Health Partners, bringing together people working and studying at King's and the Guy's and St Thomas', King's College Hospital and South London and Maudsley NHS Foundation Trusts.

## KING'S PARTNERS INCLUDE:

- Connaught Hospital, Ministry of Health and Sanitation, and the College of Medicine and Allied Health Sciences in Sierra Leone.

- Tropical Health & Education Trust in Somaliland.
- Ndola Central Hospital and the Arthur Davison Children's Hospital in Zambia.
- Ongoing projects cover maternity, paediatrics, biomedical engineering, patient safety and more.

→ [kcl.ac.uk/globalhealth](http://kcl.ac.uk/globalhealth)

## FRANCIS CRICK INSTITUTE

The Francis Crick Institute is a unique partnership between King's College London, Cancer Research UK, the Medical Research Council, Wellcome Trust, UCL and Imperial College London. This collaborative and cross-disciplinary research is helping us to understand why disease develops and to find new ways to treat, diagnose and prevent illnesses like cancer, heart disease, stroke, infections and neurodegenerative diseases.

→ [kcl.ac.uk/crick](http://kcl.ac.uk/crick)

## KING'S HEALTH PARTNERS & HEALTH ORGANISATIONS

**KING'S HEALTH PARTNERS**  
Bringing together King's College London, a world-leading, research-led university, and three successful NHS Foundation Trusts:

- Guy's and St Thomas' NHS Foundation Trust
- King's College Hospital NHS Foundation Trust
- South London and Maudsley NHS Foundation Trust.

## HEALTH ORGANISATIONS

King's has outstanding partnerships in the health sector, including:

- British Heart Foundation
- British Psychological Society
- Cancer Research UK
- Medical Research Council
- National Institute for Health Research
- GlaxoSmithKline (GSK)
- Health Education England
- International Association for Dental Research
- Public Health England
- Royal College of Psychiatrists
- Royal College of Surgeons of Edinburgh
- World Health Organization (WHO).

3

partner NHS  
foundation trusts

# Choose King's to connect to the world

From the official links created through King's partner universities, international internships and exchanges to the informal natural friendships that grow out of King's diverse student community, you'll have many opportunities to gain international experience during your time at King's.

**EXPAND YOUR HORIZONS**  
King's offers a number of courses that allow you to study both at King's and at a renowned international partner university, where you will be supervised by academics in both institutions throughout your studies, receiving two sets of complementary academic expertise.

Spending up to half of your course in another university gives you unrivalled access to new cultures, perspectives and resources, as well as a distinct advantage in an increasingly globalised labour market.

## INTERNATIONAL PARTNERS FOR PHD AND MASTER'S COURSES:

- University of Hong Kong (HKU)
- National University of Singapore (NUS)
- Humboldt University of Berlin, Germany
- Sciences Po, Paris, France
- University of Stuttgart, Germany
- University of São Paulo, Brazil
- University of Malta
- Virginia Commonwealth University, USA
- University of Adelaide, Australia.

[kcl.ac.uk/jointdegrees](http://kcl.ac.uk/jointdegrees)

## INTERNATIONAL EXCHANGES

The Study Abroad office can facilitate international exchanges that enable:

- Master's students to spend part of their dissertation semester at a partner institution.
- Research students to visit a partner institution to undertake doctoral research.

[kcl.ac.uk/studyabroad](http://kcl.ac.uk/studyabroad)

## LEARN A LANGUAGE

The Modern Language Centre offers free language modules for postgraduate students. There are 26 languages available to learn through our evening courses, which cater to all levels and take place across four central London campuses.

[kcl.ac.uk/mlc](http://kcl.ac.uk/mlc)

## INTERCULTURAL EXPERIENCE

International work experience and multicultural awareness are invaluable assets in today's globalised world. King's Global Internships Programme gives postgraduate students the opportunity to apply for a variety of international internships in a range of locations around the world.

[kcl.ac.uk/global-internships](http://kcl.ac.uk/global-internships)

For further information about studying as an international student at King's, head to page 88.

# Choose King's to build skills & networks

Whether you're attending a skills development workshop, or networking with current students and staff or the thriving alumni network, you'll find many opportunities to enhance your professional or academic profile and build valuable contacts for your future career.

**JOIN KING'S GLOBAL COMMUNITY**  
Once you become a graduate of King's, you will automatically become a member of a 210,500-strong global alumni network. Membership is free and lasts a lifetime.

You'll have many opportunities to network with King's alumni during your time at King's, through careers mentoring, insider tips and professional development events.

[alumni.kcl.ac.uk](http://alumni.kcl.ac.uk)

## STRONG RESEARCH NETWORKS

If you are applying to King's as a research student, you'll also have access to many skills development opportunities through the Graduate School, as well as social events and facilities to allow postgraduates from different disciplines and faculties to meet each other and collaborate.

[kcl.ac.uk/study/  
graduate-school](http://kcl.ac.uk/study/graduate-school)

## ENTREPRENEURIAL SKILLS

King's provides a wide range of training and support to entrepreneurs to help develop their business vision. You will have access to a specialist business and innovation team that fosters commercialisation and enterprise activities and looks at ways to best use intellectual property.

[kcl.ac.uk/commercialisation](http://kcl.ac.uk/commercialisation)  
[kcl.ac.uk/  
entrepreneurship-institute](http://kcl.ac.uk/entrepreneurship-institute)

## ONLINE DEVELOPMENT

For those looking for a taste of the great variety of online and in-person King's courses, or for those without the time or inclination to study for a full degree, King's offers a wide-ranging selection of Massive Open Online Courses (MOOCs). These short courses – many of which are available free of charge – are hosted on FutureLearn and enable the expertise of King's renowned academics to be shared with the wider world.

[kcl.ac.uk/moocs](http://kcl.ac.uk/moocs)

*I've made great friends from all over the world. We get to try out ideas, compare experiences, and understand mindsets which are so different from our own. That's another part of education.'*

**Yong**  
Chemistry PhD

With world-leading academics from across the spectrum of disciplines, our academic faculties bring together experts in their fields. With nine faculties, institutes and schools of study and five Medical Research Council centres, research-enriched teaching is at the heart of our courses.

# Choose King's to discover our faculties

## FACULTY OF ARTS & HUMANITIES

**One of the top 15 faculties in the world**  
Times Higher Education World University Rankings 2016

King's is one of the world's leading centres of research in arts and humanities, with strengths across all disciplines, including new fields such as culture, media and creative industries, and digital humanities. 99 per cent of the research conducted in the faculty has been judged as having an outstanding or very significant impact in the wider world (Research Excellence Framework 2014).

Home to one of the largest populations of postgraduate research students in the country, this diverse faculty gives students a rich and stimulating environment for study and research, engaging with questions of fundamental importance to understanding the past, present and future.

[kcl.ac.uk/artshums](http://kcl.ac.uk/artshums)

## DENTAL INSTITUTE

**1st in Europe and 4th globally for dentistry**  
QS World University Rankings 2017

The Dental Institute is one of the top five centres of excellence for dental education, scientific research and oral healthcare provision in the world. Our international reputation attracts students and renowned academic staff from across the globe.

In collaboration with associate London teaching hospitals – Guy's, King's College and St Thomas' – we train dental professionals at all levels, and undertake and actively promote world-class basic, clinical and translational research within 30+ research-active laboratories and areas over four divisions:

- Craniofacial Development & Stem Cell Biology
- Mucosal & Salivary Biology
- Tissue Engineering & Biophotonics
- Population & Patient Health.

9

faculties, institutes  
and schools of study

Maughan Library

## THE DICKSON POON SCHOOL OF LAW

**One of the top 20 law schools in the world**  
QS World University Rankings 2017

Established in 1831, The Dickson Poon School of Law at King's College London is one of the oldest law schools in England and is recognised as one of the best law schools in the world. With a dedicated team of legal academics and professionals with diverse backgrounds, and many international partnerships, King's brings a global perspective to law. Located in the heart of legal London and surrounded by major law firms, the School offers a suite of innovative courses and exciting opportunities to establish links with peers and researchers, and build a wider network of professional colleagues.

[kcl.ac.uk/law](http://kcl.ac.uk/law)

## FLORENCE NIGHTINGALE FACULTY OF NURSING, MIDWIFERY & PALLIATIVE CARE

**1st nursing school in the UK and 3rd in the world**  
QS World University Rankings 2017

Developing the leading-edge nurses, midwives and palliative care specialists of tomorrow – practitioners, partners, and leaders in their field. The faculty provides world-class teaching, clinical practice and research all under one roof, achieving high scores in research and teaching quality assessments. It is also home to the Cicely Saunders Institute which contributes to world-leading research, education and multiprofessional palliative care.

King's College London collaborates with three of the UK's leading NHS trusts forming the King's Health Partners Academic Health Science Centre.

[kcl.ac.uk/nursing](http://kcl.ac.uk/nursing)  
[kcl.ac.uk/midwifery](http://kcl.ac.uk/midwifery)

## INSTITUTE OF PSYCHIATRY, PSYCHOLOGY & NEUROSCIENCE

**Ranked 2nd in the world for psychology and psychiatry**  
US News Best Global Universities

The Institute of Psychiatry, Psychology & Neuroscience (IoPPN) is Europe's largest centre for research and education in these subject areas. Whether through conducting groundbreaking research, enhancing patient care, influencing policy change or raising awareness of conditions affecting the brain, the principal aim is to understand how the mind and brain work and how to help prevent and treat mental and neurological disorders.

Students benefit from working alongside world-leading scientists and clinicians and have unrivalled access to outstanding placement, career and networking opportunities.

**FACULTY OF LIFE SCIENCES & MEDICINE****16th in the world for medicine***QS World University Rankings 2017*

The Faculty of Life Sciences & Medicine is one of the largest and most successful centres for research and education in the UK. We bring together academics and clinicians who are committed to ensuring faster translation and adoption of research innovation into clinical practice. Our research is organised across seven schools, bringing an integrated and cohesive approach to education in the life sciences. 91.8 per cent of the faculty's REF 2014 submission was rated four star or three star.

[kcl.ac.uk/lsm](http://kcl.ac.uk/lsm)

**KING'S BUSINESS SCHOOL****Top 10 for business and management studies***The Complete University Guide 2018*

King's Business School continues to shape an innovative model of business education, developing leaders equipped to tackle the business and societal challenges of the future.

Located in the iconic Bush House building, the School is a hub for engagement with business, the city, government and NGOs. With London's Square Mile – a global centre for commerce and finance – on their doorstep, students will find networking and employment opportunities plentiful. With students from over 80 countries, the School's international student population brings diverse ideas and perspectives to an exciting learning environment.

[kcl.ac.uk/business](http://kcl.ac.uk/business)

**FACULTY OF NATURAL & MATHEMATICAL SCIENCES**

**6 Nobel Prize winners have worked and studied in this faculty – including Professors Maurice Wilkins, Peter Higgs and Michael Levitt**

This innovative, vibrant faculty has a long tradition of world-leading research and teaching in physics, mathematics, chemistry, computer science and engineering. Studying at King's enables students to work with, and learn from, world-leading academics who are tackling global challenges and answering fundamental questions about the universe.

The faculty's ambition is to inspire, educate and innovate, fostering the next generation of scientists and future leaders, and it is committed to supporting women working in science, technology, engineering and mathematics.

[kcl.ac.uk/nms](http://kcl.ac.uk/nms)

**FACULTY OF SOCIAL SCIENCE & PUBLIC POLICY****21st in the world for social science***Times Higher Education World University Rankings 2017*

The Faculty of Social Science & Public Policy is committed to advancing social science scholarship to help tackle some of the most important social, political and ethical issues of our time.

World societies and economies are transforming. The faculty seeks to understand that change, and make a positive contribution to human welfare, security and sustainability. King's position at the heart of one of the world's truly global cities, combined with the faculty's interdisciplinary approach, provides a unique perspective on issues like the changing nature of war, climate change, ageing, the ethics of biomedical innovation and social cohesion.

# Academic preparation courses

27+

different nationalities in the 2016 student cohort of the Pre-sessional and International Pre-master's courses

At King's, we understand the challenges students may face when moving to another country for their postgraduate studies. That's why we have a range of academic preparation courses designed and delivered by the King's English Language Centre, to help ambitious international students get ready for their postgraduate course.

## OVERVIEW OF COURSES

Our Pre-sessional course aims to help students reach the required language and academic skill level for entry onto their chosen postgraduate course.

Our International Pre-master's course aims to help students improve their academic English and knowledge of their chosen academic subject.

King's students benefit from being part of a vibrant, multicultural student community located in the heart of London. Students will have full access to all of the university's state-of-the-art facilities and support services from their very first day.

*'I feel I have improved tremendously; I feel very confident about my academic English, especially my writing. I'm ready to apply for my master's.'*

**Juliane**  
International Pre-master's

The King's English Language Centre is accredited by the British Council and named as a Centre of Excellence by the EL Gazette in 2014.

Accredited by the

for the teaching of English in the UK

# Computer science

Be a part of a global university and study right in the heart of one of the world's most innovative cities, surrounded by breakthrough technology.

## OVERVIEW OF COURSES

The computer science programmes offered by the Department of Informatics are diverse and range from theoretical computer science and artificial intelligence to computational finance and data science. Studying in central London means you are only minutes away from the worlds of technology and finance, alongside London Tech City, the City of London and global players such as Facebook and Google.

Informatics is a department that is truly connected to industry. You may even have the chance to take part in joint projects with industrial partners, helping to improve employability after university. King's also has one of the most active tech societies in the UK, with events such as hackathons to help build students' skills and professional profiles.

*'There's always a networking event to make connections in the industry, a workshop to attend to gain new skills, or a group of students set to make King's a better place. Studying here has opened many doors for me.'*

# Dental training & science

The Dental Institute at King's offers high-intensity postgraduate programmes designed to take students to the forefront of their chosen field, whether they are undertaking specialist training, enhancing skills or pursuing research interests.

## OVERVIEW OF COURSES

With the largest range of postgraduate dentistry programmes in Europe, students benefit from a breadth of expertise, skills and personalities of staff and peers, as well as experiencing a variety of oral health conditions in patients.

The university is part of King's Health Partners Academic Health Science Centre, which provides students with unrivalled clinical experience through access to the vast and diverse patient populations of Guy's, St Thomas' and King's College hospitals.

In addition to on-campus study, we deliver dental education and training to students from over 50 countries via six distance learning master's programmes. These are designed to meet the professional development needs of practitioners with minimal disruption to family and work commitments.

Our world-class teachers, clinicians and researchers will give you the support and skills you need to go on and develop your career in specialist clinical practice, research or academia.

# 1st

in London for the  
quality of our research  
REF 2014

## OVERVIEW OF COURSES

We provide high-quality, career-long training for those working in education and the cultural sector, and those working with and on behalf of children and young people.

Our courses benefit from links with policy-makers and cultural organisations across London, including Southbank Centre, International House, and hundreds of schools. Some of our courses offer internships with a range of prominent institutions.

Our teacher training courses, rated outstanding by Ofsted, offer a tried-and-tested foundation to those who wish to enter the teaching profession. For those who are already qualified teachers or who wish to work with children, young people or in the education sector more broadly, we have a range of innovative MA courses to further your learning. Our reputation for combining theory with the relevant practice you need gives students an edge in the job market and enables them to make a real impact on policy.

*'Having just finished the first year of my MA, I realise that the options for my career ahead are multiplied. Studying in one of the most culturally diverse cities in the world, King's has broadened my horizons and encouraged me to always aim higher.'*

# Engineering

What does it really mean to be a part of a global university in the heart of one of the world's most innovative cities? It means being at the core of new technology and surrounded by breakthrough businesses changing the world.

## OVERVIEW OF COURSES

The engineering courses offered by the Department of Informatics are diverse and cover a range of topics, from 5G telecommunications to devices for surgical robotics. It is a department that has strong partnerships in place with London Tech City, the City of London and global players such as Facebook and Google.

Informatics is a department that is truly connected to industry, with opportunities for students to take part in joint projects with industrial partners. Students are encouraged to think creatively in relation to engineering design, while gaining insight into how electronic engineering translates into everyday life through mobile and personal communication, as well as the importance of security.

*'I had a great time at King's, and I benefited a lot from the Engineering with Management programme. The programme provides a high-quality education from renowned teachers. It also introduced me to cutting-edge technology and broadened my horizons.'*

# Geography & the environment

## Top 20

Our geography department is ranked in the global top 20

*QS World University Rankings 2017*

Studying at King's is your chance to work with world-leading experts on some of humanity's biggest challenges for this generation and the next.

## OVERVIEW OF COURSES

Geography at King's unites science, society and the environment, allowing you to learn more about key issues the world is facing today, including climate change, how development affects the environment, risk and disasters, sustainability, and territorial security.

At King's, you will explore groundbreaking approaches to environmental, urban and social issues and you will engage with policy development on global, national and local scales. The diverse suite of postgraduate courses offered by the Department of Geography is one of the largest in the UK. Benefiting from our multidisciplinary expertise, you can select from social and natural science modules that provide complementary perspectives on a wide range of topics and offer you the opportunity to specialise in areas of particular interest.

Our teaching is international in its outlook, and with wide-reaching external partnerships and one of the most extensive internship programmes in the country, you will gain a qualification that will be valued across a broad spectrum of employers.

# History & classics

It's hard to think of many places where the past feels more alive and more relevant than right here in central London.

## OVERVIEW OF COURSES

At King's Department of History, you will find an incredible range of people with knowledge that spans centuries. King's covers British and European history from the early medieval period onwards, and the modern history of all regions of the world. So, whatever your passion – whether it's the Vikings, medieval agriculture or the Magna Carta; Britain under Margaret Thatcher; or the recent history of China, Nigeria or Iran – you will discover experts who share your enthusiasm.

Studying classics at King's includes the study of ancient literature, history, philosophy, art and archaeology, as well as Byzantine culture, neo-Latin and modern Greek literature, and the reception of classical antiquity. Classics at King's has a fantastic global reputation – King's partnership with the Institute of Classical Studies gives you access to the best classics research library and the richest programme of seminars and conferences in the UK.

*'There is a huge variety of modules available – you do not feel confined by your degree title in any way. In fact, it persuades you to delve into other unfamiliar and exciting areas of research.'*

**Elizabeth**

REF 2014

# Imaging sciences

Medical imaging is transforming the diagnosis and delivery of clinical care across a spectrum of medical fields – from trauma to cancer and degenerative diseases, the field is constantly evolving.

## OVERVIEW OF COURSES

These courses offer advanced training and research opportunities to develop your ability to harness technological advances for the benefit of patients and wider scientific understanding.

We are one of only four Wellcome Trust and EPSRC Centres of Excellence in Medical Engineering with a focus on the development of medical imaging technology such as ultrasound.

Much of our research work has been translated into clinical best practice in real clinical settings thanks to our relationships with our King's Health Partners: the Guy's and St Thomas', King's College Hospital, and South London and Maudsley NHS Foundation Trusts.

# International affairs & development

How has globalisation affected different parts of the world?  
What are the successes and development challenges for emerging economies? How are health and social problems in one country tackled in another?

## OVERVIEW OF COURSES

These courses explore the multipolar world and the dynamics of the most important phenomena shaping today's societies and economies, such as urbanisation, industrialisation, poverty and inequality. The broad range of options allows you to focus on countries with growing influence such as China and India, key regions such as Latin America, or important themes such as inclusive development in the new emerging economies.

Teaching is by experts across politics, history, sociology, economics, anthropology, management and geography. Many courses offer options for practitioner-led modules and skills for networking and employability.

## PARTNERSHIPS

King's collaborates with researchers and think tanks in the emerging economies, UN Women, the UNDP, the World Bank, Ashoka, the UK Government's Department for International Development (DFID) and more.

# Languages & literature

With over 250 languages spoken every day in London, it's the cultural diversity of this wonderful city and its world-class libraries, museums, archives, theatres and cultural institutions that help to make studying a course in languages and literature with King's such a rewarding experience.

## OVERVIEW OF COURSES

If your passion is for English literature then there really is no better place to find people who share it – some of our MAs are taught together with experts from the British Museum, the British Library and Shakespeare's Globe.

Our comparative literature courses help you to explore literature and culture spanning a variety of languages, from six different continents, over 2,500 years.

With one of the broadest-ranging and most highly-rated modern language departments in the country, you will have the chance to study everything from Portuguese and French to German and Spanish, and immerse yourself in the Francophone, Lusophone and Hispanic cultures of Africa and Latin America. Our English language teacher training is delivered with leading experts at International House.

# Management, business, finance & entrepreneurship

King's Business School is the new hub in London for engaging with business, finance and government – where game-changing research informs a contemporary approach to business education, creating socially responsible leaders of the future.

## OVERVIEW OF COURSES

Across all courses, students will find a learning environment driven by passionate experts who adopt an interdisciplinary approach to tackling business challenges. Through a combination of intellectual rigour and practical application, King's Business School fosters an entrepreneurial mindset in students who want to become specialists in their chosen field of study.

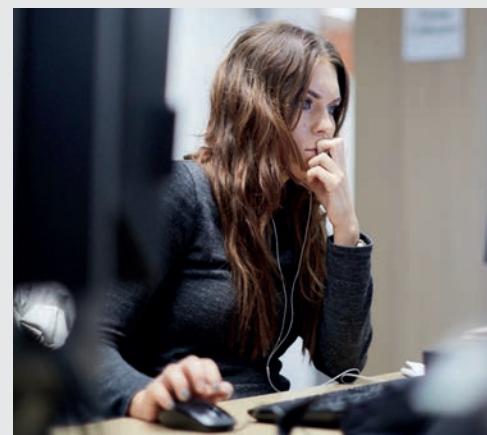

Located in the iconic Bush House in central London, King's Business School brings students close to one of the world's great financial centres, clusters of entrepreneurial firms, and thousands of small- and medium-sized enterprises. The School's close links with cutting-edge businesses that are relevant to the courses, the proximity of many multinational headquarters, and having access to a range of practitioners and professionals means that you will have a head start in the job market.

# Mathematics

Mathematics is all around us, and is intertwined with our everyday lives through technology. It has never been more important to study this discipline, which covers a spectrum of topics ranging from the abstract to the applied.

## OVERVIEW OF COURSES

The study of postgraduate mathematics at King's allows students to further their knowledge, skills and research within a renowned centre of research and teaching in the UK. Master's students can access a wide range of optional modules taught by members of the following research groups: analysis, geometry and number theory (on the pure side), and disordered systems, financial mathematics, statistics and theoretical physics (with an emphasis on applications). The lecturing is therefore influenced by the research interests of worldwide experts in their fields. These same groups organise PhD supervision that aims to enable students to make their own discoveries within a discipline that is as relevant today as ever.

*'I chose to return to King's for my PhD since the Mathematics Department here is not only world-class, but also friendly and supportive. The academic staff are approachable and always keen to engage with students.'*

# Modern Language Centre

Our Modern Language Centre provides you with the opportunity to take a free language module as part of, or outside, your degree.

## LANGUAGE OFFERING

If free modules are not available to you due to a timetable clash or ineligibility, you can take an evening or Saturday Language Course that is CPD accredited.

King's offers 26 languages from beginner to advanced level, with King's students receiving 45% discount on fees.

Start or continue your language learning at King's. Our expert teachers provide language and cultural tuition that aids your professional development to give you a competitive advantage in the job market.

Postgraduate students can take assessed and non-assessed modules for free. Assessed modules focus on speaking, listening, reading, writing and grammar, are available in 14 languages, and have an exam. Non-assessed modules focus on speaking and reading, are available in seven different languages, and have no exam.

*'This is my third year studying Spanish at the Modern Language Centre, and all three years the teaching has been excellent. The staff are very friendly, helpful and provide constructive feedback. I use the free speaking practice service and talk 30 minutes a week with a native speaker to practise my language skills.'*

**Michael**  
Spanish  
Level 5

## HIGHLIGHTS:

- Choose from 26 modern languages, all available from beginner level.
- Our courses are taught at the Guy's, Strand, Denmark Hill and Waterloo campuses.
- FREE speaking practice to continue your language learning is available weekly in the Language Resources Centre.

# Nursing & midwifery

At King's, we develop tomorrow's leading nurses, midwives and palliative care specialists. Our faculty is regarded as a centre of excellence in its field, achieving high scores in research and teaching quality assessments.

## 1st

Our nursing school is ranked 1st in the UK and 3rd in the world

*QS World University Rankings 2017*

### OVERVIEW OF COURSES

As the first professional nursing and midwifery school in the world, the Florence Nightingale Faculty of Nursing, Midwifery & Palliative Care is proud of its history and traditions, but no world-class school can afford to rest on its laurels. Continually striving for teaching and research excellence, the faculty aims to contribute to the evidence base of professional nursing, midwifery and palliative care practice and policy, and is proud to be home to the Cicely Saunders Institute.

Strong postgraduate programmes meet the needs of a wide range of healthcare professionals seeking continuing professional development and access to an unrivalled range of hospitals, specialist units and learning resources. King's close relationship with King's Health Partners – including the Guy's and St Thomas', King's College Hospital, and South London and Maudsley NHS Foundation Trusts – helps provide students with the full range of medical and healthcare services, from acute and specialist medical care to mental health care.

# Philosophy & religion

The philosophy and religion courses at King's provide a wide range of routes into exploring human thought and how it drives behaviour.

## 3rd

Both our theology and philosophy departments came 3rd in the UK for research power

REF 2014

### OVERVIEW OF COURSES

From examining how ideas of humanity and obligation play out in times of war to understanding the origins and impact of religious fundamentalism, the philosophy and religion courses at King's explore both timeless and contemporary questions to develop an understanding of the world as it is today.

London's religious and cultural diversity gives contemporary relevance to the study of religions, and King's has one of the largest theology and religious studies departments in the UK. King's focuses on Judaism, Christianity and Islam, but also does exciting work in Buddhist studies.

King's Department of Philosophy teaches the whole history of western philosophy, with no gaps from pre-Socrates to the present day – it even branches out into Indian philosophy. There is also significant expertise in contemporary philosophy, such as philosophy of mind and the theory of knowledge.

*'My MA course not only allowed me to progress intellectually but, furthermore, the connections I was able to build, both professionally and personally, allowed me the opportunity to continue in my field. I consider my time at King's to have been a truly enriching experience.'*

# Physics

The study of physics seeks answers to some of the most fundamental scientific questions, while at the same time developing and underpinning technology that deals with the challenges of modern society.

## 6

Nobel Prize winners in all areas of science, with the most recent being for physics in 2015

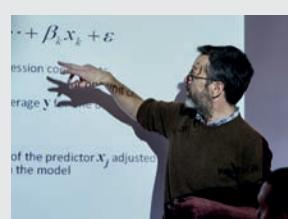

### OVERVIEW OF COURSES

There is something special about studying physics at King's, with Nobel Prize winners such as Maurice Wilkins, who helped discover the structure of DNA, and Peter Higgs, who discovered the Higgs Boson having been inspired by their time here.

We have experts on topics concerning the origin of the universe through to the physics of biological systems. You could be working with new data from the Large Hadron Collider or developing techniques to improve the treatment of disease.

We collaborate with institutions around the world and have strong links with companies such as Rolls-Royce and ThyssenKrupp. Join us in building upon our historical legacy and be part of our exciting future.

# Policy & society

Our policy and society courses provide an opportunity to explore diverse questions, conduct research and gain insights that will help to steer governments, policy-makers, NGOs and other bodies in determining how to confront some of the major issues in the UK and abroad.

## OVERVIEW OF COURSES

Vast financial, technological and health inequality mean that societies and their leaders have to decide how to navigate the changes and challenges of the 21st century, such as the ageing populations of the western world and the high infant mortality rates in developing countries due to factors such as a lack of access to clean drinking water and lack of global security.

King's is home to one of the largest university communities for social research and education in the UK, with courses delivered by academics who are acknowledged leaders in their fields.

*I loved studying alongside peers from all different backgrounds. The vast range of experience brought lively and well-informed discussion that added value and breadth to my studies. In addition, there were opportunities to network at industry events around London and to attend conferences like the Institute of Medical Ethics Annual Conference.*

**Paige**  
Bioethics & Society

## Top 20

The faculty was ranked in the top 20 in the world for social science

*Times Higher Education World University Rankings 2015/16*

# Politics & economics

Whether you are interested in making a difference at a local, national, regional or global level, at King's your learning will be supported across our broad range of politics and international studies.

## OVERVIEW OF COURSES

King's has the largest concentration of scholars, postgraduate researchers and taught courses devoted to this field in Europe – including over 150 academics and more than 30 courses – with particular strengths in security studies, international relations, political economy, public policy and regional studies.

Located in the centre of the UK's capital, King's has built strong links with current and former members of government, which means that you will have access to the world of politics, economics and public policy institutes – giving you the chance to learn at the heart of current debates.

*'King's has given me the opportunity to hear from a number of high-profile figures: David Cameron, Alastair Campbell, Ed Balls, and many others. I'm unaware of such a student experience being offered anywhere else.'*

# Psychiatry, psychology & neuroscience

Studying psychiatry, psychology and neuroscience at King's means joining Europe's largest centre for research and postgraduate education in these subject areas.

## OVERVIEW OF COURSES

King's offers a world-class, research-led learning environment that attracts the best students from around the world. The unique relationship with King's Health Partners means our students have access to an enormously varied clinical population and exposure to specialist services and expertise.

Studying at King's gives you the skills and knowledge needed to succeed in your chosen career. Whether that's pursuing PhD research or the Doctorate in Clinical Psychology; taking on a clinical role; moving into policy-making, scientific publishing, occupational health, management consultancy; or by continuing your professional development.

*I was attracted to the Addiction Studies MSc because of its excellent reputation. The International Policies in Addictions module was particularly interesting as it highlighted how addiction as an illness is tackled globally. I now feel more confident practising in the field and have since given public talks on the subject. I have also started a new service to help patients with addictions in Singapore.'*

*'This course has been a fantastic opportunity to study in an exciting multidisciplinary environment and learn from experts in clinical and academic palliative care. Having the modular approach to teaching has also made the course more feasible, as it allowed me to fit my studies around my current job. Overall, the MSc has equipped me with the skills needed to critically appraise palliative care research, as well as conduct my own unique project.'*

MSc

# Specialist training for medical professionals

With world-renowned strength in medicine and healthcare training and research, King's offers a wide range of outstanding professional development courses to clinical scientists, clinicians, general practitioners, allied health professionals and healthcare leaders.

## OVERVIEW OF COURSES

Healthcare and clinical treatment is evolving at unprecedented speed and King's is at the forefront of this innovation. Our range of postgraduate courses combines teaching excellence and practical exposure with the opportunity to carry out an original project within a leading research laboratory or clinical setting.

By studying at King's, you will be working with experts who have extensive clinical experience. Many of our staff and researchers work clinically in different specialties, including cardiovascular care, diabetes, women's health and paediatrics. Our courses will assist you in applying theory to practice and improving patient care, and, ultimately, having a direct and profound effect on the future of healthcare.

*'The Physiotherapy MSc at King's has given me a fantastic variety of placements in some of the world's most renowned hospitals and experience second to none.'*

# Summer programmes

Coming to London to study is an important decision, so why not make the most of your summer and sample what learning at one of the world's leading universities is like?

7

subject areas to choose from:  
business, law, health & science,  
maths & engineering,  
culture, governance and  
ancient languages

## OVERVIEW OF COURSES

Each summer, King's welcomes students from across the world to its classrooms. The summer programmes provide a unique and fantastic opportunity to experience life at King's.

The King's Undergraduate Summer School is the UK's second-largest undergraduate summer school, with over 1,300 students joining us in 2017. Offering lectures, seminars, group discussions, off-campus excursions and guest speakers, we utilise King's faculties and staff to ensure you experience our globally renowned, research-led teaching.

*'The module introduced me to topics of research in modern healthcare that I would not have easily been introduced to otherwise.'*

**Clark**  
Biosciences:  
From Bench to Bedside

*'The experience amplified my interest in English Law. I hope to pursue my academic ambitions at King's.'*

**Aishwarya**  
English Legal System

*'My experience at King's Undergraduate Summer School exceeded all of my expectations. Beyond taking a three-week class, I was able to truly live in London and immerse myself in the culture as a King's student.'*

# Teaching

The teaching profession is a respected and prestigious employment option for high-calibre graduates. Our teacher training courses, rated outstanding by Ofsted, offer a tried-and-tested foundation for those who wish to enter the teaching profession.

## OVERVIEW OF COURSES

Throughout its long history, King's has established strong partnerships with hundreds of schools across London, meaning that you will have the opportunity to teach pupils in diverse locations while being supported by our experienced academics. Completing two teaching placements in London schools makes King's graduates highly sought after in the job market.

Our centrally located campus also means that we are able to harness the resources of leading arts, cultural and science institutions, including the Science Museum, Shakespeare's Globe, the National Theatre, the National Gallery and the British Museum. Visits to such organisations can enhance the experience of your own students in schools.

King's courses will train you in how to teach and manage classroom behaviour, and will give you time to study theory and pedagogy so that you will arrive in school with a rounded and critical understanding of your role and a portfolio of strategies to support learning. You will also be provided with an opportunity to carry out research and develop your voice as a teacher.

*'The school placements were well chosen, allowing me to gradually build my confidence from observation to taking responsibility for teaching more classes as the year progressed.'*

# *What you need to know*

## Steps to King's

To enable you to start preparing your application in good time follow our key information planner. For general guidance, dates that relate to September entry are included.\*

## TEACHER TRAINING

Applicants to PGCE courses must follow the process and deadlines set out by the UCAS Teacher Training application system:

[ucas.com/ucas-teacher-training](http://ucas.com/ucas-teacher-training)

## NURSING OR MIDWIFERY PG DIP

Applicants to a PG Dip in nursing or midwifery (with registration) should use the main UCAS scheme.

ucas.com/apply

## CAMPUS TOURS

Join us on one of King's monthly tours to discover more about the campus where you will be studying.

 [kcl.ac.uk/campus-tours](http://kcl.ac.uk/campus-tours)

## KEY INFORMATION PLANNER

\*Other start dates may be available. Check the King's website for more information. Deadlines vary. Check [kcl.ac.uk/postgraduate](http://kcl.ac.uk/postgraduate) for your course's application deadline. You will be advised through King's Apply whether you are required to pay a £50 application fee to submit your application. \*\*Taught courses only.

# What you need to know

## Entry requirements

King's seeks to admit the brightest and the best students with the potential to make the most of King's world-class facilities and academic staff. In this section, find out about the different routes for applying to King's and what to expect during this process.

Check your course details online for complete application information, deadlines and procedures regarding funding for your course.

### ENTRY REQUIREMENTS

- For the majority of postgraduate taught courses, a 2:1 honours degree or international equivalent is required.
- Many postgraduate research degrees will also require a master's degree or international equivalent for entry.

For course-specific entry requirements, please check your course details online before you apply to ensure you meet the full entry requirements.

[kcl.ac.uk/postgraduate](http://kcl.ac.uk/postgraduate)

Please also note that there may be additional non-academic entry requirements, or applying which are also detailed online. For example:

- occupational health clearance
- Disclosure and Barring Service check
- Academic Technology Approval Scheme (ATAS) clearance, which applies to non-EEA/Swiss students who are intending to undertake study in certain science, engineering or technology subjects.

### APPLY ONLINE

The King's online portal, King's Apply, provides an easy and secure way to submit your application, references and required documents. It allows you to:

- track the status of your application
- communicate with our Admissions Office
- pay your application fee and deposit (if required)
- respond to your offer.

To access King's Apply, follow the instructions for applying to your course online.

Please be aware that some courses require a non-refundable application fee of £50. This will be clearly stated when you commence your application through King's Apply. Many courses require a deposit payment to accept your offer. Deposit amounts and terms and conditions will be clearly stated when you receive your offer.

### ENGLISH LANGUAGE REQUIREMENTS

To study at King's, it is essential to be able to communicate effectively in English in an academic environment. Each postgraduate course has a minimum

level of English language that students are required to meet. Each postgraduate course sits within a band, and every band has a different English language requirement. Please refer to the table below.

Proficiency test	Band A	Band B	Band C	Band D	Band E
<b>King's International Pre-master's</b>	Overall B+ minimum in the course	Overall B+ minimum in the course	Overall B+ minimum in the course	Overall B+ minimum in the course	Overall B minimum in the course
<b>King's Pre-sessional</b>	Pass with Band 7	Pass with Band 7	Pass with Band 7	Pass with Band 6.5	Pass with Band 6
<b>Cambridge Advanced Certificate (CAE)</b>	191 overall with a minimum of 185 in all skills	185 overall with a minimum of 176 in all skills	185 overall with a minimum of 176 in reading & writing and 169 in listening & speaking	176 overall with a minimum of 169 in all skills	169 overall with a minimum of 160 in all skills
<b>Cambridge Certificate of Proficiency in English (CPE)</b>	191 overall with a minimum of 185 in all skills	185 overall with a minimum of 176 in all skills	185 overall with a minimum of 176 in reading & writing and 169 in listening & speaking	176 overall with a minimum of 169 in all skills	169 overall with a minimum of 160 in each skill
<b>IELTS (Academic)</b>	7.5 overall with a minimum of 7.0 in each skill	7.0 overall with a minimum of 6.5 in each skill	7.0 overall with a minimum of 6.5 in reading & writing and 6.0 in listening & speaking	6.5 overall with a minimum of 6.0 in each skill	6.0 overall with a minimum of 5.5 in each skill
<b>Pearson Test of English (Academic)</b>	75 overall with a minimum of 69 in each skill	69 overall with a minimum of 62 in each skill	69 overall with a minimum of 62 in reading & writing and 59 in listening & speaking	62 overall with a minimum of 59 in each skill	59 overall with a minimum of 54 in each skill
<b>TOEFL iBT Institution code: 0394</b>	109 overall with 27 in writing and a minimum of 25 in each of the other skills	100 overall with a minimum of 25 in writing and 23 in each of the other skills	100 overall with a minimum of 25 in writing, 23 in reading and 20 in each of the other skills	92 overall with a minimum of 23 in writing and 20 in each of the other skills	80 overall with a minimum of 20 in each skill

# What you need to know Fees & living costs

This overview is your starting point for understanding the costs involved in studying at King's and living in London, and for getting advice on how to fund your studies. Please check our website for fees for 2018 entry.

## FULL-TIME FEE

For details of course fees for 2018, please check our webpages.

[kcl.ac.uk/postgraduate](http://kcl.ac.uk/postgraduate)

## PART-TIME FEE

Where courses are offered on a part-time basis, fees are usually half the annual cost of the full-time fee.

Full details are listed on our webpages.

[kcl.ac.uk/postgraduate](http://kcl.ac.uk/postgraduate)

## BENCH FEE

Some research students are also charged a 'bench fee' in addition to the tuition fee to cover the cost of consumables and equipment used during research. Check with your faculty whether this is applicable to you before applying.

## EQUIVALENT OR LOWER QUALIFICATION (ELQ) FEE

If you are a home or EU student seeking to obtain an ELQ (other than teacher training qualifications), please contact Admissions for advice on whether this will affect your tuition fees.

## DEPOSIT & APPLICATION FEE

You will be advised through King's Apply whether you are required to pay an application fee of £50 to submit your application. Some courses have a fee deposit scheme. When you receive your offer, you will be advised whether a deposit is required (usually 10 per cent of the tuition fee).

## LIVING EXPENSES

King's provides detailed guidance costs and help with planning your finances during the application process. Guidance is also available at:

[kcl.ac.uk/postgraduate](http://kcl.ac.uk/postgraduate)

If you are an international student, visit the 'Life in the UK' section at:

[kcl.ac.uk/postgraduate](http://kcl.ac.uk/postgraduate)

Find out more at:

[kcl.ac.uk/study/postgraduate/fees-and-funding](http://kcl.ac.uk/study/postgraduate/fees-and-funding)

## RESEARCH COUNCILS UK

The principal sources of funding (available to UK/EU students only) are:

[kcl.ac.uk/gradfunding](http://kcl.ac.uk/gradfunding)  
[ahrc.ac.uk](http://ahrc.ac.uk)  
[bbsrc.ac.uk](http://bbsrc.ac.uk)  
[esrc.ac.uk](http://esrc.ac.uk)  
[mrc.ac.uk](http://mrc.ac.uk)  
[nerc.ac.uk](http://nerc.ac.uk)  
[stfc.ac.uk](http://stfc.ac.uk)

You can usually apply through King's. For more information, visit:

[kcl.ac.uk/gradfunding](http://kcl.ac.uk/gradfunding)

## STUDENT VISA FINANCE CONDITIONS

If you require a student visa to study in the UK, you must have sufficient funds to cover both fees and maintenance (for yourself and any dependants in the UK). UK Visas and Immigration (UKVI) requires you to demonstrate that you have access to a minimum amount of money to cover living costs.

The amount changes regularly, so always check the UKVI website for the most up-to-date information. If you have dependants you will have to show that more funds are available.

We would also recommend that you have access to more funds than this in order to cover all costs and any emergencies that may arise.

More information is available from King's Student Advice Service.

[kcl.ac.uk/advice](http://kcl.ac.uk/advice)

## What you need to know

# Funding

King's aims to support you in many different ways and we understand that the rising cost of education may be a concern. Our range of funding options is designed to help you achieve your potential, whatever your financial circumstances.

### FUNDING

King's Graduate School's funding packages are due to be launched from autumn 2017. For details, visit:

[kcl.ac.uk/funding](http://kcl.ac.uk/funding)

### FUNDING DATABASE

Our online funding database lists scholarship funds as they become available, and includes:

- eligibility
- application details
- procedures closing dates

[kcl.ac.uk/funding](http://kcl.ac.uk/funding)

### KING'S CO-FUNDED SCHOLARSHIPS

Awarded on merit in open competitions, King's invests heavily in scholarships that are designed to attract the best students from around the world. Our reputation attracts external funders who frequently approach us about co-funding scholarships for students who are resident in particular countries or parts of the world.

### PAID WORK

Unless your visa specifically prohibits you from working, generally you may be permitted to work up to 20 hours per week during term time to supplement your income and gain work experience. King's Student Advice Service provides detailed information at:

[kcl.ac.uk/advice](http://kcl.ac.uk/advice)

### POSTGRADUATE STUDENT LOANS

If you are a UK national (or an individual with settled status in the UK) who has been ordinarily resident in the UK and its islands for three years on the first day of the first academic year of your course, you may be eligible to apply for a loan of up to £10,280 from Student Finance England. Find out more at:

[kcl.ac.uk/postgraduate-student-loans](http://kcl.ac.uk/postgraduate-student-loans)

### OVERSEAS STUDENT FUNDING OPTIONS

In addition to King's co-funded scholarships and the funding available through King's Graduate School, sources of funding may include:

- sponsorship by your employer
- the UK Government
- your government
- scholarships and bursaries offered by private agencies and charities.

Please note the student visa conditions (on page 91) when taking into consideration the cost of studying in the UK.

You may also wish to contact your nearest British Council office or education department for advice.

King's funding packages are launched from autumn 2017 for courses starting in 2018–19. For details, please visit:

**[kcl.ac.uk/  
postgraduate-funding](http://kcl.ac.uk/postgraduate-funding)**

# What you need to know International applicants

King's welcomes students with a wide range of qualifications from all over the world. King's Admissions Office will consider your application on its individual merits and provide you with a decision on a timely basis.

King's welcome some 11,000 international students each year from over 150 countries across the globe. Our dedicated webpages for international students explain everything you need to know about applying and studying at King's, as well as about living in London.

Visit King's international webpages for:

- dates when King's may be visiting your country
- advice on visas and immigration, working in the UK, and other key issues and where to find the answers to them
- information about welcome and orientation programmes
- King's international student blogs and videos.

You can also find country- and region-specific information, as well as pre-departure and arrival checklists, to help you prepare for life at King's.

[kcl.ac.uk/international](http://kcl.ac.uk/international)

## INTERNATIONAL ENTRY REQUIREMENTS

International equivalencies by country of King's postgraduate entry requirements can be found on King's website:

[kcl.ac.uk/intlpgreqs](http://kcl.ac.uk/intlpgreqs)

## ENGLISH LANGUAGE REQUIREMENTS

To follow King's courses successfully and fulfil the student visa requirements, you must have a strong command of English and be able to apply this in an academic environment. As an international student, and if your first language is not English, you will be required to provide certificated proof of your competence in English before starting your studies.

Faculty-specific English language entry requirements are available online:

[kcl.ac.uk/postgraduate](http://kcl.ac.uk/postgraduate)

Or alternatively at:

[kcl.ac.uk/pg-elr](http://kcl.ac.uk/pg-elr)

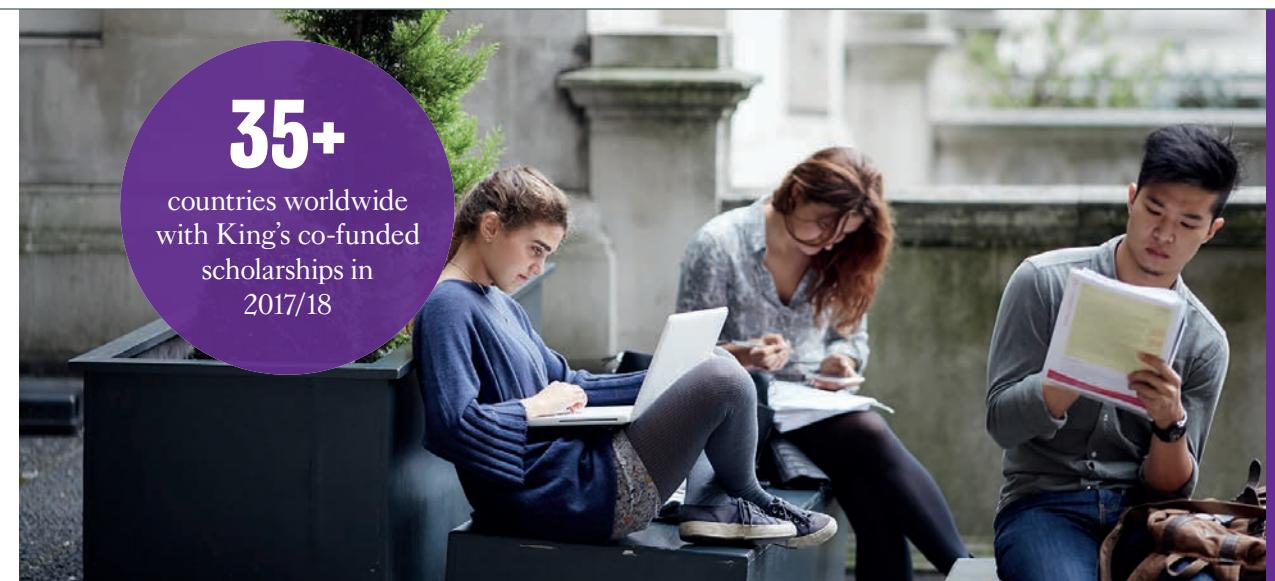

Please check King's website for full details of the tests and qualifications King's accepts as proof of English language proficiency.

Or please see page 83.

scholarships in  
2017/18

## IN-SESSIONAL ENGLISH & STUDY SKILLS SUPPORT

Once you start your main postgraduate degree at King's, you will have the chance to sign up for a number of short courses and one-off sessions that will help you to develop your academic English and study skills.

The classes are free and, in addition to vocabulary and grammar, focus on improving a wide range of skills required at the higher education level, including presentation training, using sources and writing effective essays.

## GUARANTEED ACCOMMODATION

We guarantee accommodation to all international postgraduate students for their first year of study (this includes Pre-sessional and International Pre-master's students, but excludes those from the UK and EU). You will be invited to make an application once you've accepted your offer to study at King's.

*'Coming from a different country and a very different academic background, I was quite daunted [at the prospect of] leaving home, family and friends behind for one whole year. King's has, however, repaid in full all my wishes and expectations.'*

### Gladio

#### JOB OPPORTUNITIES

As an international student, you may be permitted to work up to 20 hours per week during term time to supplement your income and develop your prospects. The Careers Service can help you in choosing a path to employment. They advertise vacancies via their online database JobOnline, which has over 2,000 part-time jobs listed at any given time.

[kcl.ac.uk/careers](http://kcl.ac.uk/careers)

#### INTERNSHIPS

Completing an internship is an excellent way to practically apply the knowledge gained from the classroom, while enabling you to develop your professional contacts. The Careers Service offers students the opportunity to complete internships both in the UK and internationally. Our flagship Global Internships Programme, which is one of a kind within the UK, is an incredible opportunity for students who wish to pursue a global career, since it provides summer internships in seven dynamic countries, including China and the USA.

[kcl.ac.uk/careers](http://kcl.ac.uk/careers)

#### HEALTH SERVICE

The King's College NHS Health Centre located on campus provides accessible confidential healthcare for all students. For detailed information regarding the entitlement of international students to free NHS care, please visit our website:

[kclnhshealthcentre.com/](http://kclnhshealthcentre.com/)

#### RELIGIOUS PROVISION & PASTORAL CARE

The university has separate male and female Muslim prayer rooms on all campuses, as well as chapels at both the Strand and Guy's campuses. A full-time Anglican chaplain heads the university chaplaincy, which includes Roman Catholic, Orthodox and Free Churches chaplains. The rabbi to Jewish students in London visits King's and works as an associate of the chaplaincy.

#### STUDENT VISA FINANCE CONDITIONS

To gain permission to enter the UK as a student from outside the European Economic Area, it is likely that you will need to apply for a Tier 4 visa. You will not be able to apply for your visa until you hold an unconditional offer from King's. Once your offer is unconditional, King's will provide you with a Confirmation of Acceptance for Studies (CAS) number, which you need in order to apply for your Tier 4 student visa.

When applying for a visa, you are required to show that you have a minimum amount of money to cover tuition fees and living costs for both you and any dependants, and this must remain in your bank account (or your parents' account, but additional documents may be required in this case) for a minimum of 28 days prior to the date of your visa application. This amount of money cannot drop at any point during this period.

In addition to this, we would recommend that you have access to additional funds in order to cover all costs and any emergencies that may arise.

More information is available from the King's Student Advice Service:

[kcl.ac.uk/advice](http://kcl.ac.uk/advice)

#### INTERNATIONAL STUDENT WELCOME & ORIENTATION

King's offers an in-depth orientation programme free of charge for international students, consisting of welcome and orientation events during your first few weeks. Covering topics such as working in the UK, opening a bank account, registering with a doctor, budgeting, safety and much more, orientation aims to help you settle into London and life at King's seamlessly.

# What you need to know

## Your accommodation

As a new postgraduate student, you have the opportunity to apply for accommodation with King's Residences. King's College London guarantees a place in residence to all international postgraduate applicants (ie students from outside the UK or Europe) who apply by the published deadline.

### KING'S RESIDENCES

Within close proximity to all King's College London campuses, as well as all the attractions London has to offer, King's residences are the perfect place for you to live during your time at King's. For information on the accommodation options available, please visit:

[kcl.ac.uk/accomm](http://kcl.ac.uk/accomm)

### INCLUSIVE LIVING

King's has a number of inclusive practices within King's Residences:

### SINGLE-GENDER FLATS

All King's residences are mixed gender; however, if for any reason you require single-gender accommodation (eg for religious/cultural reasons), King's will seek to accommodate your request.

### ACCESSIBLE ROOMS

King's Residences endeavours to make reasonable adjustments to support individuals who, due to long-term medical conditions, disability, mental health or sensory/physical impairment, require adapted accommodation.

### MATURE STUDENTS

Postgraduate students are generally allocated to a postgraduate area or building and those over 30 are also normally grouped together.

### COUPLES ACCOMMODATION

We have a limited number of rooms allocated for couples.

### PRIVATE-RENTED ACCOMMODATION

London offers an enormous range of privately-rented accommodation, including both house and flat shares. You may also consider renting a room in someone's home.

King's Student Advice Service realises how daunting moving to a new city can be and can advise you on your options. The 'Housing' pages provide a guide to options in the private sector and links to more information and suppliers. King's also hosts a Flatmate Finder group for current and firm accepted offer holders to advertise for potential housemates.

[kcl.ac.uk/housing](http://kcl.ac.uk/housing)

You may also want to check the University of London Housing Services database of:

- private-rented accommodation
- private halls
- independent hostels
- lists of students in London who wish to share with other students.

[housing.london.ac.uk/  
find-accommodation](http://housing.london.ac.uk/find-accommodation)

### TEMPORARY SUMMER AND INTERVIEW ACCOMMODATION

Short-let places in university residences are normally available from the beginning of July to September. These can be booked through King's Venues.

Search [kcl.ac.uk](http://kcl.ac.uk) for:

- advice
- King's Venues
- University of London Housing Services.

# What you need to know King's Residences

The team at King's Residences provides more than just accommodation; they provide an all-inclusive student experience, including welfare support, a community building and a programme solely dedicated to enhancing life skills. All of King's residences offer quality accommodation, with facilities and services to suit all budgets and lifestyles.

King's Residences offers self-catered accommodation comprising non-ensuite, ensuite and studios. King's also has a number of residences dedicated specifically to postgraduate students. Please see the adjacent table for further information. In combined undergraduate and postgraduate residences, King's will endeavour to place all postgraduate students in areas together. All postgraduate students will be required to sign a 51-week contract.

Terms and conditions 2018/19:  
1. Rates are stated in GBP (£) and are given per person, per week.

2. The figures quoted above are inclusive of Endsleigh Possessions Block Insurance. For more details, visit our website:

# What you need to know Support & wellbeing

King's Student Services provides support, advice and guidance to all prospective and current students at King's. This includes counselling, support and wellbeing an NHS Health Centre, a Disability Advisory Service and a Student Advice Service, as well as coordinated support in residences and alongside KCLSU.

## DISABLED STUDENTS

King's welcomes and encourages applications from disabled students. Disclosing a disability, long-term medical or mental health condition or specific learning difficulty does not affect the academic assessment of any application. It is helpful to know about the nature of any disability at the earliest possible opportunity so King's can address specific needs and ascertain whether facilities to support you are in place. Please complete the relevant sections of the application form or, if you would prefer to seek advice first, contact the Disability Advisory Service or the relevant faculty's disability liaison prior to applying. If you have particular access requirements, an information visit would be advisable.

For more information on support initiatives and specific funding for support to engage you with your studies, contact the Disability Advisory Service at [disability@kcl.ac.uk](mailto:disability@kcl.ac.uk) or call +44 (0)20 7848 7018.

King's disability webpage provides a range of useful information for you to consider:

[kcl.ac.uk/disability](http://kcl.ac.uk/disability)

## DISABILITY ADVISORY SERVICE

A wide range of support is available for disabled students, including those with long-term medical and mental health conditions or specific learning difficulties such as dyslexia.

King's encourages you to disclose any condition that may impact on your engagement with your studies at the earliest possible opportunity, so that King's can discuss potential support strategies. More information about the service and possible support options can be found on the Disability Advisory Service webpages. All enquiries are dealt with sensitively and in confidence.

[kcl.ac.uk/disability](http://kcl.ac.uk/disability)

## DISABLEDGO

DisabledGo enables you to assess King's campus accessibility so that you can decide whether the university provides you with a suitable study environment or whether you would need to request reasonable adjustments.

[disabledgo.com](http://disabledgo.com)

## HEALTH SERVICE

King's College NHS Health Centre located on campus provides accessible confidential health care for all students. For detailed information regarding the entitlement of international students to free NHS care, please visit our website:

[kclnhshealthcentre.com/](http://kclnhshealthcentre.com/)

## STUDENT COACHING

King's Wellbeing strives to build a happy, healthy community. It offers coaching sessions for students seeking new and innovative ways of enhancing their performance, fulfilling their potential and effectively meeting the demands of work-life balance. Coaching is a positive and future-focused process that is carried out in partnership between the coach and client.

King's Wellbeing coaches are all ILM or ICF trained. Common areas that students wish to focus on include improving self-confidence, work-life balance, relationships, time management, positive thinking and improving mental wellbeing.

[kcl.ac.uk/wellbeing](http://kcl.ac.uk/wellbeing)

## STUDENT COUNSELLING

The Student Counselling Service offers a free and confidential service to help students cope with any difficulties related to their studies or those of a more personal or emotional nature. King's, counsellors are all experienced and fully accredited, with a range of specialisms – such as psychodynamic therapy and cognitive behavioural therapy.

[kcl.ac.uk/counselling](http://kcl.ac.uk/counselling)

## COURSES & WORKSHOPS

King's Wellbeing works with the King's Way to Wellbeing, a holistic framework for looking at wellbeing. Courses and workshops are available across all campuses and focus on diverse aspects of wellbeing. Popular workshops have included Confidence in Public Speaking, Mindfulness, Managing Relationships and Embracing Change. Information on future workshops can be found at:

IT support  
throughout the year

## IT

King's IT provides services for students, staff and researchers at the university. Central and campus teams focus on delivering innovative IT systems, including data storage, networks, audiovisual, applications and student computing.

King's IT provide free Microsoft Office 365 for everyone at King's and 24/7 IT support every day of the year. Further details can be found on the help and support webpage.

[it.kcl.ac.uk](http://it.kcl.ac.uk)

## WI-FI

You can access the internet on campus with any wireless-enabled device. It is also available at many other UK universities, NHS hospitals, some city centres and abroad, so it is a fantastic resource.

Free guest Wi-Fi is available at King's via The Cloud.

## OUR APP

We also offer the King's RemoteApp, which gives you access to Windows applications and your files any time, anywhere if you have internet connectivity.

# Important information & policy

## DIVERSITY AND INCLUSION

### KEY PRINCIPLES

King's College London is a thriving and diverse community of over 29,600 students from some 150 countries completing a wide variety of courses, from undergraduate and postgraduate degrees to executive education courses for professional audiences.

The university welcomes students from all over the world based solely on their academic ability and potential, from all social, cultural and economic backgrounds. All applications are considered on their individual merits and treated in a fair and equal way based on the information provided to the university through the application process.

King's College London is committed to embedding best practice into all of its activities to ensure that the university becomes a more supportive, inclusive and inspiring place to work and study, to enable everyone to reach their full potential.

The Diversity & Inclusion team manages a wide range of projects for both staff and students – from ensuring that the university is compliant with key legislation to developing new initiatives to enrich university life. To find out more about our work, please visit our webpages or contact the team:

## CHANGES TO COURSES AND GUIDE INFORMATION

The following message contains some very important information. Please read it before you use this guide. This guide was printed in the autumn of 2017. It contains information on the courses that King's College London ('King's') intends to run for students who are planning to start at King's in the autumn of 2018.

King's has made every effort to ensure that the information provided is both helpful and accurate, but some changes – for example, to courses, facilities or fees – may become necessary due to legitimate staffing, financial, regulatory or academic reasons.

King's will endeavour to keep changes to a minimum, and to keep applicants informed appropriately. For this reason, it is important that you regularly check the website for updates or contact King's using the contact details contained within this document.

[kcl.ac.uk/postgraduate](http://kcl.ac.uk/postgraduate)

## NO LIABILITY TO PARENTS, SPONSORS OR OTHER THIRD PARTIES

King's dealings and contracts with students and prospective students do not create a contract or other legally binding relationship between King's and anyone else – for example, parents, guardians or sponsors.

## DEGREE-AWARDING POWERS

In July 2006, the Privy Council granted King's degree-awarding powers in its own right. King's exercises these powers while remaining a constituent college of the University of London. Therefore, all students who start a course in 2018 will study for a King's College London degree. Degree certificates will record that degrees are awarded by King's and that King's is a member of the University of London.

## QUALIFICATIONS AT KING'S

Undergraduate-level courses (equivalent to final-year undergraduate study) Grad Cert, Grad Dip: Graduate Certificates and Diplomas.

## VISIT KING'S

Get an insight into what it's like to study at King's by attending one of our postgraduate open evenings. Meet current and other prospective students and attend a variety of presentations and tours.

## STRAND CAMPUS OPEN EVENING

For Arts & Humanities, Law, Natural & Mathematical Sciences, and Social Sciences & Public Policy:

- 23 June 2018
- 8 September 2018.

[kcl.ac.uk/pgopen evenings](http://kcl.ac.uk/pgopen evenings)

## GUY'S CAMPUS OPEN EVENING

For Biomedical Sciences, Medicine, Dental & Oral Sciences, Nursing & Midwifery, and Psychiatry, Psychology & Neuroscience:

- 9 June 2018
- 7 July 2018.

More dates will be available in early 2018. To find out more and to register online, visit:

[kcl.ac.uk/pgopen evenings](http://kcl.ac.uk/pgopen evenings)

## TAKE A CAMPUS TOUR

If you can't attend one of our open evenings, King's also organises daily campus tours, including monthly tours aimed at postgraduate students. Our student ambassadors will be your guide and introduce you to life on campus. Register online.
