THE CHINESE UNIVERSITY OF HONG KONG

CUHK
GraduateSchool
香港中文大學研究院

INTRODUCTION

The Chinese University of Hong Kong (CUHK) is a bilingual (Chinese and English) and multicultural institution of higher learning founded in 1963. As a first-class comprehensive research university with both a local and an international outlook, we aim at cultivating higher degree graduates to serve the increasingly sophisticated needs of the society and making contributions to the pool of human knowledge through top quality research. Our current enrolment of postgraduate students exceeds 12,600 and includes a substantial portion of non-local students from around the world.

The University's stunning campus commands panoramic views of the Tolo Harbour and the mountain ranges nearby. With a size of 137.3 hectare it is the largest university campus in Hong Kong. Nestled in the mountains greenery our University buildings feature an innovative mix of Chinese and Western architectural styles.

RESEARCH AT CUHK

CUHK strives to be a world-class university recognized as a centre of excellence for developing cutting-edge research and emerging interdisciplinary strengths that have global impact and make significant contributions to society.

CUHK offers a wide range of research programmes in different subject areas. CUHK encourages all academic staff to undertake consultancy and collaborative projects with the industry. Research activities at CUHK address core issues of global innovation, they integrate staff research with teaching, and they range from upstream research to midstream development.

Four Major Research Areas

The CUHK Strategic Plan 2016 identified four major areas for strategic research and substantial resources are being devoted to these areas. The four major areas are:

- China Studies
- Translational Biomedicine
- Information and Automation Technology
- Environment and Sustainability

Research Excellence

CUHK is committed to research excellence. Our academic staff members are research-active and benchmark their research against international standards. CUHK has four faculty members who are Nobel Laureates: Professor Sir Charles Kao, Nobel Laureate in Physics who is also one of the University's former Vice-Chancellors, Professor Yang Chen Ning, Nobel Laureate in Physics, Professor Sir James Mirrlees and Professor Robert Mundell, both Nobel Laureates in Economics.

HONG KONG PHD FELLOWSHIP SCHEME

The Hong Kong PhD Fellowship Scheme (HKPFS), established by the Hong Kong Research Grants Council in 2009, aims at attracting the best and brightest students from all over the world to pursue their PhD studies in Hong Kong. The Fellowship comes with a monthly stipend of HK\$20,000 (approx. US\$2,565) and a conference travel allowance of HK\$10,000 (approx. US\$1,280) per year for a maximum period of three years. More than 200 Fellowships will be awarded each year. Top students with demonstrated academic excellence and outstanding research potential are encouraged to seek admission to a CUHK PhD programme through the prestigious HKPFS Scheme. Please visit the following website for further details: www.gs.cuhk.edu.hk/page/HongKongPhDFellowshipScheme.

Postgraduate Studentships / Scholarships

Postgraduate studentships are offered to all students admitted to full-time research postgraduate programmes (incl. MPhil, PhD). The postgraduate studentship for 2016-17 is HK\$15,600 to 16,140 (approx. US\$2,000 to 2,070) per month. A number of exchange scholarships is available for students to conduct overseas academic activities such as presenting papers at international conferences, to conduct field trips and data collection projects.

Accommodation

The Postgraduate Hall (PGH) consists of six buildings offering about 1,100 hostel places on-campus for non-local research postgraduate students at very affordable rates. Please visit the PGH website at www.pgh.cuhk.edu.hk for up-to-date information.
