UBC's Vancouver campus is located on the traditional, ancestral, and unceded territory of the Musqueam people. For generations, this territory has been a place of teaching and learning for Musqueam people—a tradition that continues to this day.

Surrounded by temperate rainforest, majestic coastal mountains, and the Pacific Ocean, UBC’s Vancouver campus is just 20 minutes from Vancouver’s city centre. That means you can bike in one of the largest urban parks in North America, wander through galleries and museums, and sample international cuisine—all in the same day, without leaving the city. Given Vancouver’s vibrant culture, dynamic economy, and favourable climate, it’s easy to see why this Olympic city is consistently rated one of the best places to live in the world.*

Beyond UBC

FIND YOUR PATH

A UBC education will introduce you to people and ideas from around the world, open doors to new opportunities, and take you places you never imagined. Your graduate education is a great chance to further explore your interests while building a network of connections that will last a lifetime.

The following is an example of a Personal Profile. It’s your chance to talk about what you love, what you are passionate about, and what makes you special. This is your opportunity to express yourself – tell UBC about the person you are, and the world you want to change.

MY ADVICE?

Don’t underestimate the impact that one lecture, one contact, or one conversation can have. My research is in high-impact applications, but I have learned that it is important to evolve with your career over time. My advice is to be open to opportunities that present themselves, whether you think they will lead to your next job or not.

Taking on self-directed projects as an undergraduate student at UBC has been a huge influence on my work – and take a business elective or two. I could not have done it without the support of my professors, the school, and the people around me. A good example is the project I worked on at Shell in Calgary. It was an environmental internship, but it taught me so much about the industry and the world around us. It’s your chance to show the University what you are most proud of, what is most important to you, and what you have learned from your experiences inside and outside the classroom. It’s UBC’s chance to determine who receives scholarships and identify who will truly flourish here.

Every person I meet at UBC seems to have a story to tell. The admissions process at UBC is competitive. Meeting the minimum requirements does not guarantee you will receive an offer. Instead of simply listing your accomplishments, tell UBC what each experience taught you. 50 to 350 words.

Be true to who you are and be authentic. Be specific on your answers. Use details to substantiate and elaborate. Brainstorm ideas in advance.

The same goes for you. Use your Personal Profile to tell UBC what makes you and your experiences shape how you see yourself and the world around you. Where you’re from, the communities you’re part of, the academic strides you’ve made, and the different ways you get involved are all important parts of your personal story.

Your UBC application will be evaluated on a combination of your academic achievements and your personal experiences. That’s where the Personal Profile section of the online application comes in.
