BOODSKAP VAN DIE VISEKANSELIER EN REKTOR

Jou skooldae is amper verby. Die keuses wat jy maak, die deure wat jy besluit om oop te maak, nou en in die volgende paar kort jare, sal 'n diepgaande invloed hê op die rigting wat jy in jou volwasse lewe inslaan. Die besluit om 'n universiteitskwalifikasie te verwerf en die besluit oor watter kwalifikasie om te verwerf uit die baie wat aangebied word, is op sigself gewigtige besluite, maar die belangrikste besluit is watter universiteit jy kies om jou tuiste, jou gids, jou ondersteuning, jou inspirasie te maak. Die versnelde tempo van verandering en vooruitgang vereis uiters kundige gegradueerdes om Suid-Afrika na 'n inklusiewe, welvarende en vreedsame toekoms, een wat die beste vir almal is, te lei.

Aan die Universiteit van Johannesburg (UJ) het ons een passie: die voorsiening van elke moontlike hulpbron en geleentheid om gegradueerdes te vorm wat alle reg het om selfversekerd te wees, omdat hulle goed ingelig, onafhanklik-denkend en in wese innoverend is. Minstens 93% van ons studente word binne 12 maande na graduering in diens geneem, en in die 12 kort jare van UJ se bestaan, behaal ons gegradueerdes by die duisende welslae in alle aspekte van die Suid-Afrikaanse lewe en verder.

Ons Eerstejaarservaringprogram verskaf 'n aantal ondersteunings- en ontwikkelingsgeleenthede om te help met die oorgang van skool na universiteit, en om te help om jou energie en vermoë te fokus. Ons Seniorjaarervaringsprogram sal jou ondersteun in jou finale jaar en laat vorder tot graduering en verder, óf na 'n nagraadse graad óf die beroepslewe. Kom ervaar ons tegnologieryke benadering tot onderrig en leer, vergelykbaar wat hul vooruitgang en stimulasie betref met die beste universiteite in die wêreld. Jy sal baat by die aansienlike hulpbronne wat jou akademiese lewe om elke hoek en draai ondersteun, vanaf ons uitgebreide tutorstelsel tot die skryfsentra, die akademiese ontwikkelings- en voorligtingseenhede, en die voortdurende moeite wat ons doen om jou ervaring te maksimeer.

Ons geïnspireerde onderrigpraktyke hou nou verband met ons bewese leierskap wat navorsing betref. Ons uitsette het die afgelope dekade verdubbel, selfs verdrievoudig. Ons werf en stel die beste akademici in die wêreld aan deur middel van ons Vooraanstaande Professor-program, en ons koester navorsers en hul projekte op alle vlakke.

Volgens die QS-wêreldgraderingstelsel word UJ in die top-4% van universiteite wêreldwyd geplaas. Ons beklee ook die sesde plek in Afrika volgens Thomas Reuters. Hierbenewens is UJ die enigste Afrika-universiteit wat die eerbewys van lidmaatskap van Universitas21 ontvang het, 'n elitekonsortium van 26 wêreldwye universiteite van elke vasteland, waarvan die meeste in die top-100 in die wêreld is. Hierdie lidmaatskap verbind ons met die allerbeste in hoër onderwys wêreldwyd.

NATIONAL BENCHMARK TEST

The University of Johannesburg requires all first year applicants to write the National Benchmark Test (NBT) by 15 December 2017. The NBT does not replace or duplicate information obtained from secondary school academic performance. NBT results may be considered when determining the need for academic support.

The NBTs may be written countrywide during the second half of 2017. Information as to dates, venues, tests, registration and costs is available from the NBT national website at www.nbt.ac.za or from the NBT Call Centre at 021 650 3523. There are two benchmark tests: the test in Academic and Quantitative Literacy (AQL), which all entrants will write; and the Mathematics (MAT) test, which is only required for applicants applying for certain programmes. Please only write the Mathematics test if you have included Mathematics in your NSC subjects. Do not write Mathematics if you have studied Mathematical Literacy. See **www.uj.ac.za/nbt** to ascertain whether you will need to write only the MAT test.

The Faculty of Art, Design and Architecture (FADA) is committed to fostering creative and professional excellence in art and design education.

The Faculty is home to approximately 1 300 students who study and work in the custom-built FADA Building on the Bunting Road Campus. Conveniently situated in the building are a number of specialised workshops, studios, computer laboratories, common lecture venues, an auditorium, a gallery and a library.

Many of our graduates are employed in South Africa or internationally in diverse areas of industry, or work as freelance designers, architectural technologists or independent artists. Whatever their preference, they have been thoroughly prepared as professionals through creative and entrepreneurial development, which are key elements in the programmes offered.

The Faculty works closely with industry to ensure that its programmes remain relevant and to keep students constantly exposed to changes occurring in the practising worlds of art and design. In the course of the year, recognised national and international artists, designers and academics are invited to address students. The FADA Gallery hosts a series of cutting-edge exhibitions throughout the year and the annual student exhibitions showcase the best student work for public viewing.

The Faculty offers various undergraduate and postgraduate programmes in the field of art, design and architecture.

Placement in the programmes is limited, and there are additional requirements such as entrance assessments and prescribed portfolios. Prospective students are therefore encouraged to apply as early as possible.

Disclaimer: Due to limited space, fulfilling all the minimum entry requirements does not guarantee acceptance into a programme.

The Faculty of Engineering and the Built Environment (FEBE) is one of nine faculties at the University of Johannesburg, home to five schools, 12 departments and two technology stations. It offers both Engineering Technology and Engineering Science undergraduate and postgraduate programmes. In keeping with the University's comprehensive status, the Faculty is the first in South Africa to offer global education to a full range of professional engineering qualifications.

FEBE remains a leading provider of well-qualified and accredited engineers, technologists and technicians. Over the years, the Faculty has established strategic partnerships within the international higher education landscape and with key industry stakeholders. Operating within the dynamic and competitive higher education landscape, FEBE is innovative in its approach to teaching, learning, collaborative research, community engagement, international partnerships and remains at the cutting edge of technology. It is focused on the promotion of reflective and critical thinking, novel ways of problem-solving and believes in environmentally sustainable solutions.

Engineering broadly focuses on the creative application of scientific and technical knowledge to design, analyse, develop structures, machines, manufacturing processes, construction of works/systems for practical purposes or maximizing operations. An Engineer is one that analyses and innovates, while the Technologist will implement and develop and the Technician will install, commission, maintain and operate. Courses within the Faculty are best suited for learners who are creative thinkers, possess an inventive imagination with an aptitude for mathematics, science and technology, learners who enjoy discovering how things work and solving problems with logic and reason.

The Faculty of Engineering and the Built Environment is supported by the following Accreditation Bodies:

- Engineering and Engineering Technology Programmes the Engineering Council of South Africa (ECSA)
- Town and Regional Planning: South African Council for Planners (SACPLAN)
- Mine Surveying: South African Council for Professional and Technical Surveyors
 (PLATO)
- Construction Management: South African Council for Project and Construction Management Professions (SACPCMP) & South African Council for the Quantity Surveying Profession (SACQSP)
- Quality and Operations Management Programmes are not subject to accreditation by professional bodies.

Accreditation agencies generally align to international accords and in this way programmes listed by FEBE receive recognition internationally. ECSA is a signatory of the Dublin, Sydney and Washington Accord which provides international recognition for the Faculty's BEng and BEng Tech. Curricula are specifically designed, taking into consideration the National Skills Development Plan, industry needs, surrounding communities, government, economy and international bodies. Programmes are subject to accreditation visits and quality assurance.
