At Northumbria University, we embrace tomorrow.

We pursue new thinking, forge new partnerships, create and exchange new knowledge, and find new solutions.

Our inspirational academics, partners and students work together to tackle tomorrow’s challenges head on. We’re ready for the future whatever it may hold.

Confident and creative in everything we do, we offer leadership and direction in this fast-changing world.

Those with courage will transform lives and make a remarkable impact on the world.

Tomorrow. How will you handle it?

Join us today and we can tackle this exciting new world together.

#TakeOnTomorrow
About us
We start by telling you who we are, what you can expect from us and what it means to be a Northumbria graduate. We offer research-rich, inspirational teaching and countless opportunities to build your CV and confidence. Read on to find out how your learning experience will equip you to take on tomorrow, whatever the future holds.

Check out pages 6 to 55.

It’s decision time
Next we talk about all of our subjects and courses. Whatever your passion or career ambitions, now’s the time to get into the detail. This section is a taster of what’s to come. Check out the facts so you can make your decision and if you need more information, please go online.

See pages 56 to 107.

The low-down
What’s it like to live and study in Newcastle? A newbies’ guide to our city and everything it has to offer from student accommodation to all-important nights out.

Flick to pages 108 to 130.
Use your time wisely

You only get one life. So make your time count.

Join a talented, global learning community filled with ambitious, inquisitive people – just like you.

Northumbria is the place to study courses shaped by world-leading research, and created in consultation with students, employers and professional, statutory and regulatory bodies. Here, you’ll learn to question, analyse, challenge, innovate and make an impact.

We’re connected, so you’ll get the chance to work with global companies, study abroad, expand your horizons, stretch your knowledge, and build your CV.

Our inspirational academics will equip you with everything you need to fulfil your potential – professionally and personally. Ready for life beyond graduation – for a future yet to be explored.

“This is your opportunity to develop personally and professionally, transforming who you are, what you do and how you do it, in the best research-rich learning environment.”

Professor Peter Francis
Deputy Vice-Chancellor
At Northumbria University, it’s all about you. Your learning experience is tailor-made. You choose the options and projects to develop, specialise and differentiate yourself.

With the right combination of research and industry experience, our leading academics support and challenge you in equal measure.

Clear expectations and feedback mean you know where you stand and how you can improve. And interactive learning communities – in the classroom and online – mean we all learn from each other.

“Everything we do at Northumbria is designed to help you achieve and be the best you can be. Your academic experience is at the heart of the university.”

Gill Rowe
Associate Pro Vice-Chancellor (Learning and Teaching)
Be a game changer

Working with world-leading researchers changes the way you learn and think.

We engage in game-changing research that makes a remarkable impact on the world around us. More than that, it will have a remarkable impact on you. Working alongside academics who are leaders in their field, and participating in research projects means you’ll learn to become a researcher in your own right.

4th largest increase in quality-driven research funding in the UK

We employ some of the best researchers. And we attract impressive research partners like Unilever, GlaxoSmithKline, Nissan, Kellogg’s and the NHS. We have a track record in securing research funding nationally and internationally. All of which creates an unmistakably rich learning environment.

(REF 2014)

Question everything

“Northumbria’s approach to research-rich learning prepares you to tackle the difficult questions and challenges you’ll encounter in your chosen career.”

Professor George Marston
Pro Vice-Chancellor (Research and Innovation)

As active researchers, our academics explore some of the world’s most urgent and complex problems. Of course, they share their work through their teaching - they also actively encourage you to build your subject knowledge and develop your research skills.

Be prepared to be constantly challenged to ask the right questions, look at problems in fresh ways, bring together different points of view and justify your conclusions.

Above all, be curious, determined, and get involved. Question everything, it’s the only way things change.

“With research-informed teaching we begin as guides, then become travelling companions and then finally watch as our students forge on ahead to discover new knowledge territories on their own.”

Dr Ruth Dalton
Professor of Building Usability and Visualisation

“With research-informed teaching we begin as guides, then become travelling companions and then finally watch as our students forge on ahead to discover new knowledge territories on their own.”

Dr Ruth Dalton
Professor of Building Usability and Visualisation

“I worked with Dr Richard Morton, who won the Royal Astronomical Society’s Winton Capital Award. He was a great mentor, his depth of knowledge and research skills meant that I learnt a great deal from him. It enabled me to go on to a position in computing in CERN’s physics research lab after graduation.”

Iain Steers
BSc (Hons) Computer Science

“Research-informed teaching empowers our students to become researchers in their own right and to co-create knowledge. It enhances their intellectual engagement with their subject and makes them more employable.”

Dr James McConnell
Reader in History
Changing, challenging world.

We’re working to answer some of society’s big challenges. These are just eight key questions we’re asking.

Join us. Be part of discovering answers to tomorrow’s challenges and help transform the future.

- **Digital Living**
  - How do we fight disease in a world where bacteria resist antibiotics?
- **Bioeconomy**
  - How can digital technology make cities more liveable?
- **Future Engineering**
  - What technology will be driving your car and heating your home in 20 years?
- **Institute of Humanities**
  - Who am I and how do I relate to you?
- **Environmental and Global Justice**
  - What comes first: people or planet?
- **Integrated Health and Social Care**
  - How do we support people with long-term conditions?
- **Ideate**
  - How can we innovate in design to envision and explore possible futures?
- **Extreme Environments**
  - What would happen to the Earth if all of the ice melted?
Tomorrow’s coming.
Be ready.

We want you to succeed. That’s a given. Whatever your future career ambitions, we can help you get there.

At Northumbria, we help you build the right skills, get the right experience and make the right contacts. So when you graduate, you’ll be ready for whatever the world throws at you.

We’ve got great connections with a fantastic range of educational and industry partners. We provide opportunities to work with leading brands and organisations through projects and placements.

You can study abroad or build your entrepreneurial skills.

Whatever path you choose, we can help you to get that job, fast-track your career or set up your own business.

Show the world what it’s missing.
Supercharge your CV

Placements are an essential element in most of Northumbria’s courses.* They get you workplace ready, test out your knowledge and skills, and build a CV that’ll stop employers in their tracks.

We have extensive connections locally, nationally, and internationally, ranging from small companies to global brands across a wide range of sectors, and we pass those connections on to you.

Just think, you could leave university with experience at AkzoNobel, CERN, Nike, BAE Systems, Procter & Gamble or Northumbrian Water to name but a few.

*With the exception of courses with compulsory placements, there is a study abroad and/or placement option on the majority of our courses, which can vary in length depending on the course. You apply for your selected course and have the option to apply for study abroad and/or placement during your second year. However, there is a competitive selection process so it’s not guaranteed.

Unbelievable work experience. Tick.

“Through my placement with AkzoNobel, I got brilliant experience and skills using different analytical instruments. And, I developed my knowledge of the industry.”

Sarah Doran
BSc (Hons) Forensic Science

“Working at CERN is phenomenal. This week, I’m hoping to meet some astronauts who are doing a talk on their mission to put CERN equipment on the International Space Station. This placement is full of opportunities for me!”

Liam Dodd
BSc (Hons) Computer Science

“I spent four months at Quirky in Sydney and four months at Karl Lagerfeld in Amsterdam gaining a wealth of experience, knowledge and skills. Both companies have offered me a job opportunity when I graduate which definitely puts me ahead in the recruitment market.”

Sarah Thompson
BA (Hons) Fashion Design and Marketing
Relevant and recognised

We make everything you learn relevant, working with employers and students to constantly evolve and improve our courses.

We create industry-recognised courses, and courses that are accredited by leading professional bodies such as the British Psychological Society and the Institution of Civil Engineers.

We have one of the highest rates in the UK for accredited courses. Northumbria’s Business School was the first in Europe to gain double accreditation in accounting and business (AACSB).

All of this means employers will instantly recognise your professionalism, code of ethics, competencies and expertise. You’ll leave us with the right skills and knowledge to go for it.

More than 400 employers and 64 professional bodies sponsor or accredit our courses.
Keep it real

Another way to build experience is through projects. Working with a real company to answer a real brief. Again, thanks to our extensive connections, we give you opportunities to gain experience at the highest level.

You could find yourself working with companies and organisations like Urban Outfitters, Northumbria Police and the BALTIC Centre for Contemporary Art, or working on live legal cases while you study.

By the time you graduate, you’ll really know what it takes to succeed in the workplace – to respond to a brief, develop innovative solutions, present yourself with confidence and get the job done.

Second year Fashion students were challenged by a team at Urban Outfitters to design and develop a small new range for the retailer – the results were unbelievable.

“At Urban Outfitters we believe it’s vital to invest time and energy into the future of fashion. We were astounded by the level of craftsmanship and creativity showcased by the students.”

Bekki Gregory
Senior Designer, Urban Outfitters and alumni of Northumbria Fashion

Supported by Santander Universities UK, our Business Clinic brings students and businesses together to identify and deliver genuine solutions for business.

“Working on behalf of a real client is a fantastic experience you wouldn’t get from other academic courses. You get to solve real business issues and gain skills which will make you stand out amongst other graduates.”

Aine Connolly
BA (Hons) International Business Management

Law students have the opportunity to work in our award-winning Student Law Office (SLO), working on live cases with real clients, giving legal advice and representation like any other law firm. Since 2008, students have helped to secure more than £1 million of compensation for SLO clients.

“The best thing about studying law is that we get taught how to be a good lawyer, not just a good student. In the Student Law Office, we act for real clients and act on real cases. You can’t get experience like that from a normal law degree and employers love it.”

Emily Wilson
M Law (Exempting)
Worldly-wise

The world’s getting smaller. Life’s become ever more interconnected. Working in a multicultural environment and working across continents is the norm.

At Northumbria, we’re proud of our global community. Bringing together a wide range of people, from diverse backgrounds and cultures, makes incredible things happen.

You learn from each other, discover new perspectives and new ways of living. All of which tests your thinking and outlook on the world and prepares you for life ahead. Thanks to our network of partner education organisations, you can study abroad. It’s a great way to increase international awareness and gain more confidence. You might even get help with the cost of living.*

In 2016-17, students were based in 25 overseas locations including UAE, USA, Canada, New Zealand and Europe. Once you’ve lived abroad, made friends in a new country and studied in another institution, cracking the job market’s a breeze.

*Erasmus+ scheme supported by the European Commission and the British Council. Please note that as of January 2018, EU funding for 2019 entry has not yet been confirmed.
Wake up.
Be the boss.

If you think setting up your own business is in your future, Northumbria is the right place to come.

We offer a free bespoke start-up service for students and graduates. So, it’s no coincidence that more than 153 companies have been started by Northumbria students and graduates since 2011, employing over 1,000 staff, with a combined turnover of £69.2 million.*

Get things moving. Make your vision a reality. Join Northumbria today.

We’re number 1 in the UK for graduate start-ups

“The fact so many of our start-ups are not only surviving but continuing to prosper beyond the crucial first three years is testament to the quality of our support.”

Lucy Winskell OBE
Pro Vice-Chancellor for Employability and Partnerships

*Based on estimated turnover and number of jobs created (HEBCIS 2015/16)
What we live by

Whether you’re a member of staff, a student, graduate or partner, at Northumbria there are certain traits that unite us.

We know that when we work together, we can achieve more. We celebrate original thinking, continuously searching for new and better ways of reasoning and doing. We take a lead and set new directions. We have the drive to make an impact, leave a legacy, make a positive difference.

Three core traits define Northumbria people:

Collaboration
Innovation
Leadership

They unite us, inspire us and make us who we are.
Work together

Two minds are better than one. Whether we’re working in partnership with leading household names, co-creating with our students or driving new knowledge with our partners, we’re all about collaboration.

In fact, we’re so good at collaborating that our partnership with Ryder Architects has been recognised in the Times Higher Education Awards. Together, we formed the BIM academy, providing consultancy, research and education activities on Building Information Modelling to global clients in the construction industry.

Building excellence

Most innovative contribution to business – university collaboration

Times Higher Education Awards 2017

Visit us at northumbria.ac.uk
We never accept the status quo. We question everything. Break stuff. Re-make stuff. Continuously reinvent and reshape to make the impossible possible.

Northumbria has a proud history of producing outstanding innovators, including Sir Jonathan Ive (Senior Vice-President, Apple), Rob Law MBE (Founder, Trunki), and Tim Brown (Chief Executive, IDEO, one of the world’s leading design consultancies).

If you look at the world in a different way – then Northumbria is the place for you.

We don’t just think outside the box, we’ve never even been in it.
We create confident leaders, with the stamina, determination, talent and commitment to inspire and get results. Fit for the 21st century and beyond, our students, staff and alumni do amazing things. Here’s just a handful of examples:

Karl Wharton MBE
Recognised by the Queen
Our Senior Lecturer in Sports Coaching has received an MBE for his leading work in gymnastics.

Juliet de Baubigny
Investing in a high-risk career
An International Business Administration graduate (2000), this inspiring woman is a leading venture capitalist in Silicon Valley.

Our swimmers jumped in and took glory
Northumbria students brought home six medals from the Paralympic Games in Rio 2016, including gold in what proved to be Great Britain’s most prosperous Games since 1968.

Dr Arnab Basu
A CEO who’s inspiring us all
This Engineering graduate is now Chief Executive Officer for Kromek Materials, a company named as one of the “1000 Companies to Inspire Britain 2017” in a report by the London Stock Exchange Group.

Unstoppable
Our High Performance Sport programme is called Team Northumbria. It’s one of the most successful in the country. We’re currently ranked 8th in the BUCS National League table and have won our varsity contest against Newcastle University, the Stan Calvert Memorial Cup, for five consecutive years.
We don’t sit on the sidelines

At Northumbria, we get involved. We’re not afraid to get our hands dirty. We fix things. And we solve problems. We make a remarkable impact.

Our staff and students want to make a positive contribution to society. Whether it’s through research, a volunteering project or their education – we help transform the world around us, and the community we live in. And we’ll help you to do this too.

Visit us at northumbria.ac.uk
Empowering young people in Zambia

Sport can have a hugely positive impact on impoverished communities. It can be used as a tool to empower young people and educate them around issues like HIV and AIDS. Over the last decade, Northumbria students have been heavily involved with the Zambia IDEALS (International Development Through Excellence and Leadership in Sport) project.

Funded by UK Sport, this initiative creates high-quality sports leadership exchange opportunities through short-term volunteer placements with local grass roots sports organisations.

Result.

A faster and safer way to diagnose Ebola

Research led and carried out by Dr Sterghios Moschos at Northumbria has made a breakthrough in rapid, mass screening for Ebola. Patients can be treated much sooner, helping to reduce the spread of the disease and risk to others.

The technology can also be used to diagnose other high-risk viruses such as Zika, MERS, SARS, flu, meningitis and malaria.

That’s a significant influence on mankind.
We're reaching for the stars. A prototype engine based on solid-to-vapour transformation could be used for harvesting energy on the surface of Mars. The engine is a collaboration between our Department of Mathematics, Physics and Electrical Engineering, and the University of Edinburgh – it’ll make long-term space exploration possible, and future missions might not need to be ‘one way’.

Let the countdown begin.

Making tomorrow’s packaging more sustainable

We’ve been working with Unilever for over a decade, collaborating on countless exciting projects. Recently, our design students and academics worked with them to find new ways to meet sustainability targets. Packaging, water use, energy – we’ve examined every aspect of their production.

With more than two billion customers around the world, this is the kind of project that could make a significant difference.

The complete package.
Accelerating young minds

Our Department of Psychology was instrumental in setting up breakfast clubs that have increased school attendance, attainment and quality of life for kids.

Professor Greta Defeyter was awarded a Fellowship of the British Psychological Society for the impact of her work. She’s making a real difference to children, families and communities.

Spoonful of thinking power anyone?

Establishing a major transplant programme in India

Stephen Clark, Professor of Cardiothoracic Surgery and Cardiopulmonary Transplantation in our Department of Applied Sciences is playing the lead role in bringing heart and lung transplants to state-run hospitals across India.

Before the programme was established, few heart transplants took place in India and anyone needing a transplant had to travel long distances and pay high costs in private hospitals.

Heart-pumping stuff.
That’s a given. And naturally, you want to be ready to take the job market by storm. At Northumbria, we offer that and so much more.

Whether you love sport or culture and creativity, want to make a difference or be part of a global community, this is where you belong.

You come to university to learn.

Through societies, volunteering, team sports and our alumni society, there’s your chance to challenge yourself, build your confidence, try new things and meet new people with different ideas and viewpoints.

You’ll find out what makes you tick and leave with much more than just a degree.
Join in

It’s not all work and no play. Far from it. You’re in a city renowned for its friendliness, so why not get involved in one of the many societies we’ve got going on? It’s a sure fire way to make friends.

With over 100 societies to join, from Surf and Snow Sports to Dr Who and the DJ Society, you’ll meet people with common interests. Or try something completely new.

Great things don’t come from comfort zones.

Up your game

It doesn’t matter if sport is your world or if you’re taking your first steps towards getting your mind and body on track, Northumbria Sport is the place to get fit, have fun or punch above your weight.

We’ve got something for everyone – exciting challenges, clubs and leagues or just good-old gym and group exercise classes. Whatever you choose, you’ll be welcomed with open arms. Dig deep.

Show us what you’ve got.

Ranked 8th in the BUCS league for four years running

In the 13/14, 14/15, 15/16 and 16/17 academic years.

“I’ve loved every minute, from playing for Team Northumbria, being a volunteer and intern, and spending a summer coaching in Zambia to winning the Stan Calvert Cup as Student Sport President.”

Brogan O’Connor
BSc (hons) Applied Sport and Exercise Science
Get involved

If you want to make a difference or there’s a cause close to your heart, there are lots of opportunities to become part of our community of volunteers.

At Northumbria, we roll up our sleeves. Students and staff alike get involved in a wide range of volunteer projects. Choose from things like sports, animals and teaching IT, hospital arts or helping the elderly. And with our own magazine, TV and radio stations, you can get your name out there.

Volunteering helps you stand out. But don’t just take our word for it. 70% of employers say they prefer candidates with a degree, plus experience. So you won’t just be helping others. You’ll be helping yourself.

500+ students contribute more than 8,000 hours of volunteering

Visit us at northumbria.ac.uk
Apart from Antarctica, we have alumni on every continent in the world. All of these graduates are a resource to help you, no matter where you go and what you achieve.

They volunteer to give advice on how to get into a certain career, fund scholarships and facilities for you to use, and they initiate work placements in their organisations.

That’s the thing about studying here – you never really leave.

You’ll always be part of Northumbria.

Join Northumbria, join a global family.

Everything you need to know about our courses.
Find out about our subjects and department areas.
What you need to do to get a place.
What it’s like to be a student at Northumbria and live in our city.
Let’s do this.
Our courses

Northumbria is a new kind of excellent university, with ambitious plans for the future. If you’re a dedicated student with ambitious plans for your future, we think you’ll fit in here.

Interested?
Read on to find out why you should come to Northumbria to study the subject of your choice, what makes our departments so special and what courses we have to offer. Visit our website and use our course search to find out all you need to know about your course – from modules, staff and student profiles to graduate careers.

Once you know which course you’re interested in, how do you know what you need to achieve to get here? On every course page we’ve highlighted the entry points we would typically ask for. These requirements are provided as a guide to our standard offer levels and will take into account alternative equivalent qualifications. If you want to find out what points are awarded to the grades for your qualifications, then go to ucas.com and search for their Tariff Calculator.

Questions you may have

What’s an Integrated Master’s degree?
An Integrated Master’s (MEng, MPhys, MMath, MGeog) is a fully fundable undergraduate degree with the opportunity to undertake a whole year of study at Master’s level. An Integrated Master’s lasts longer than a standard three or four year undergraduate degree but gives you the added advantage of graduating with a qualification at Master’s level. Please visit northumbria.ac.uk/IntegratedMasters to see a list of these courses.

What is a top-up course?
A top-up course is for you if you have previously studied a related course of Higher Education such as a Higher National Diploma (HND) or a Foundation Degree (FD). A top-up course allows you to ‘top-up’ your HND or FD and achieve a full degree after only one extra year of study. The course provides an extra year of study for you to get the subject knowledge you need, and as long as you pass the foundation year you will automatically progress to the first year of a named degree which is part of the scheme.

What’s a completion award?
You can follow a completion pathway if you’ve started a course in a similar subject at one of Northumbria’s partner institutions, and you wish to transfer to Northumbria to complete your degree. You can also qualify for a completion award with an HND or FD.

Is there a study abroad or placement option on my course?
With the exception of courses with compulsory placements, there’s a study abroad and/or placement option on the majority of our courses, which can vary in length depending on the course. You apply for your selected course and have the option to apply for study abroad and/or a placement after your first year. There is a competitive selection process. Our dedicated Student Placement team and Careers and Employment service are available at Student Central to support and help you.

Please visit northumbria.ac.uk/studyabroad and northumbria.ac.uk/placementoptions to find out more information.

What’s a foundation year?
A foundation year is an additional year of study at the start of your degree, which means your undergraduate degree will be 4 or 5 years in duration. Foundation years can also be referred to as an extended degree. A foundation year is designed for those students who may not have achieved the entry requirements for their chosen degree course, or whose qualifications may be in a different subject area and who want to explore taking a degree in something completely new. This course provides an extra year of study for you to get the subject knowledge you need, and as long as you pass the foundation year you will automatically progress to the first year of a named degree which is part of the scheme.

Please visit northumbria.ac.uk/foundationyear to find out more information on these courses.

Will there be any optional modules on my course?
Many of our undergraduate courses offer optional choices in Years 2 and 3. You may be asked to indicate your preferences well in advance of the options running. To find out more information on module options visit northumbria.ac.uk/courses and search for the course that you’re interested in.

What’s a degree apprenticeship?
Northumbria was one of the first UK universities to offer government-supported degree apprenticeships. These specialist courses are co-designed with employers to ensure they’re providing the skills that industry is looking for. Students enrolled on degree apprenticeships are employed and divide their time between the workplace and flexible university study. Please note, we do not publish our degree apprenticeships in our prospectus. For further information please visit northumbria.ac.uk/degreeapprenticeshipsforgo
Why study Applied Sciences at Northumbria?

At Northumbria we want you to realise your potential and secure that rewarding career in science. That’s why our courses are designed in consultation with leading employers, so you’ll graduate with the knowledge and practical skills needed to drive your career as a professional scientist. You’ll study in an environment that’s inspiring, innovative and relevant.

• Many of our courses are officially accredited by professional bodies, such as the Royal Society of Chemistry, the Institute of Biomedical Science, the Association for Nutrition and the Chartered Society of Forensic Sciences, providing independent recognition for delivering the theory and practical skills relevant to employers.

• Northumbria University’s Health and Life Sciences courses now rank top 100 in the world, according to the Times Higher Education’s World University Rankings 2018.

• Our Forensic Science course is ranked 10th and our Food Science course is ranked 20th in the Complete University Guide 2018.

• Our academics are experts in their professions, with many actively involved in changing practices and policies, leading to relevant and innovative teaching underpinned by authentic experiences.

• We’ve developed new materials and processes with multinationals and SMEs alike in the chemical, pharmaceutical, diagnostics and food sectors.

• All of our undergraduate courses offer the opportunity for a year in industry, enhancing your future job prospects and providing insight into industrial and commercial applications of science. This is a great way to build your confidence in essential skills and gain valuable first-hand experience in the workplace. Undertaking a work placement year can help you stand out to graduate recruiters.

• Hands-on laboratory work is a significant component of all courses, providing you with the opportunity to develop your skills in state-of-the-art facilities incorporating modern industry standard laboratories, IT suites, a sensory evaluation suite, a replica law court and crime scene house.

• All final year students have the opportunity to undertake an individual laboratory based project, offering further specialisation in a relevant topic.

* Upon successful completion of our foundation year you will automatically progress on to one of our full-time science degrees, except Medical Sciences (Doctor of Medicine Pathway).

We continually review and improve our course content, so to ensure you’re kept up-to-date with any enhancements, make sure you visit northumbria.ac.uk/yourlearning. 

It’s really exciting being a student at Northumbria as the quality of teaching is excellent and you’ll spend a lot of time in the laboratory actually doing what you’re going to be doing in your chosen career. Academics are leaders in their field and some have done groundbreaking research which is transferred through their teaching.

Edward Scinders, MChem Chemistry
Why study Architecture and Built Environment at Northumbria?

Studying with us shows the world you mean business. Our graduates are currently influencing the built environment around the globe, and our courses have been designed to ensure that you can join them. Develop the skills that employers are looking for through field trips, placement years, live projects and employer-led CV workshops. Get ready to make your mark on the world.

• Our Architecture and Built Environment courses are ranked amongst the Top 20 in the Complete University Guide 2019.
• We have extensive links with professional accrediting bodies; CIAT, CIH, RIBA, RICS, ICES*.

This means that Northumbria University graduates have the necessary skills that are always strongly in demand.
• We are the highest ranking university in the North East for both male and female earnings in Architecture, Building and Planning 1 year, 3 years and 5 years after graduation. (Longitudinal Education Outcomes (LEO) 2017).
• Undertaking a work placement year can help you to stand out to graduate recruiters. The vast majority of our courses offer this opportunity.
• Our courses offer study abroad opportunities; a fantastic way to broaden your cultural awareness, gain experience of a different academic environment, and develop a range of skills which enhance your employability.
• Opportunities are available to work collaboratively with industry on live projects including the recent Land of Iron and North Vickers Centres in Gateshead.
• Our Architecture and Interior Architecture graduates showcase their creative talent at Northumbria’s annual exhibition, REVEAL.
• Opportunities are available to work collaboratively with industry on live projects including the recent Land of Iron and North Vickers Centres in Gateshead.
• An extension of Northumbria’s historic 18th century Sutherland Building is home to the new state-of-the-art architecture studios.

Why study Arts at Northumbria?

Arts offers a stimulating and dynamic learning environment with excellent facilities in which to study flexible, student-orientated courses. Our staff include highly experienced, award-winning and globally-renowned experts in creative practice and critical scholarship.

- Our Art and Design subjects are ranked 18th in the Complete University Guide 2018.
- We work in partnership to provide industry exposure and live project opportunities with high profile cultural and industrial companies, including BALTIC Centre for Contemporary Art, D&AD, Live Theatre, Northern Stage, Tyne & Wear Archives and Museums, Tyneside Cinema and The National Trust.
- You can extend your degree with a work placement or study abroad where you can gain valuable first-hand experience or broaden your cultural awareness to ensure that you stand out to graduate recruiters.
- Graduate Studio Northumbria (GSN) is a dynamic space that supports the development of our graduates’ professional practice in the Arts.
- Our Fine Art course is taught by leading artists, writers and curators and allows you to immerse yourself in contemporary art practice supported by specialist artist technicians.
- Animation, Film and Television Production courses provide opportunities to learn technical and analytical skills using excellent resources including a green screen studio, editing suites, state-of-the-art camera equipment and an animation render farm.
- The Drama degree delivers professionally engaged training with a dedicated team of theatre technicians and practice-led academics. Pathway specialisms are aligned to the demands of contemporary industries.
- The Film and Television Studies programme combines the study of theoretical and practical aspects of these media. You will learn from academic staff with international esteem for their research, and also gain expertise from industry professionals.

Why study Business at Newcastle Business School?

Newcastle Business School has a global reputation for delivering some of the best business management education in the UK. We’ll equip you with the in-depth understanding, skills and experience you need to succeed in business.

- Northumbria ranks 1st in the sector and the North East for sustained employment of Business and Admin Studies graduates 5 years after graduation (Longitudinal Education Outcomes (LEO) 2017).
- This ensures every student with a work placement or study abroad allowing you to gain valuable first-hand experience or broaden your cultural awareness and ensure that you stand out to graduate recruiters.
- Our Business Clinic provides the opportunity for our business students to work on live business consultancy projects with one of our many business clients. You’ll gain skills informed by cutting-edge business research and improve your chance of securing a highly-desirable job.
- We won the Small Business Charter award for supporting start-ups and their contribution to local economic growth.
- We were the first university in Europe to gain double accreditation from AACSB which means we’re internationally recognised for meeting AACSB’s global standards of excellence.
- Our degrees are recognised for their quality by many professional bodies including IDM, CIM, CIPD, CIPS, CIPR, CIMA, CIPFA, AIA, CILT, AAT, ICAEW and ITT.*
- Students are required to undertake a work placement or study abroad as part of their 4-year course.†
- Students are required to undertake a work placement or study abroad as part of their 4-year course.†

Why study Design at Northumbria?

Northumbria School of Design covers an exciting range of industrial, fashion, communication and innovation design. We are an award-winning creative community; we encourage collaborations and idea sharing between our design courses so that our students get the best possible learning experience and who are graduate ready.

• We have an established reputation at Graduate Fashion Week with our students winning over 40 awards in the last five years.
• The School of Design was ranked 9th in the Guardian University Guide 2018 for Design and Crafts.
• Our partners include household names such as Urban Outfitters, Microsoft, Marie-Durand, Mulberry, H&M, Samsung, Unilever, Philips, Nike and Intel.
• A work placement is a great way to build your confidence in essential skills and gain valuable experience in the workplace.
• We offer study abroad opportunities at many of our partner universities around the world.

• Northumbria boasts an illustrious design alumni including Sir Jonathan Ive (Senior Vice-President, Apple), Rohan Law MBE (Founder, Trunki), Nicola Morgan (Designer, Tiffany, Adidas, Paper), Tim Brown (Chief Executive, IDEO) and Vaughan Oliver (Graphic Designer and Typographer, V23).
• Our Art and Design graduates showcase their creative talent at Northumbria’s annual exhibition, REVEAL.
• Our state-of-the-art facilities complement our traditional technologies including dedicated show spaces, digital photography studios, CAD suites, traditional letterpress and screen-printing, 3D prototyping workshops, plus interaction and motion tracking studios.
• We offer study abroad opportunities at many of our partner universities around the world.

• A bike Channel brand project, Harry Parvin

My time at Northumbria has been challenging and rewarding. I’ve had three amazing placement opportunities in France, Amsterdam and San Francisco.

Sean Barbour, BA (Hons) Fashion

**Why study Education at Northumbria?**

Education is one of the essential building blocks of society and is a fundamental right of everyone. That’s why we aim to create excellent educators. Northumbria provides you with the opportunity to work with a team who are recognised for the high quality of their work. We’re an ‘Outstanding’ university provider of both secondary and primary Initial Teacher Education, as classified by the Department of Education from Ofsted inspections.

- Our education courses are ranked 21st in the Complete University Guide 2018.
- Northumbria is rated ‘Outstanding’ by Ofsted.
- In the Good Teacher Training Guide 2017, Northumbria is ranked 6th best undergraduate teacher training provider.
- All of our courses offer the opportunity for experience in educational settings, through our extensive and high-quality partnerships with schools and colleges. The quality of placements reflects the strong relationships we have developed.
- You will benefit from the enthusiasm and knowledge of tutors and visiting experts.
- The degree is designed to meet government regulations for initial teacher training and Qualified Teacher Status (QTS).
- We work with over 700 schools in the North East and nationwide. We have links with all regional colleges and research and teaching partnerships with local authorities, teaching school alliances and academy trusts.
- Our teaching is informed by world-class research into areas such as school to school collaboration, educational leadership, and educational interventions focused on supporting marginalised and vulnerable groups, enabling you to base your work on up-to-date findings.

Why study Foundation and English Language courses at Northumbria?

• Northumbria provides a range of pre-sessional and international English language courses for international students.
• The full-time course is ideal if your academic qualifications meet the requirements for your chosen course but your English language level falls below the entry requirements of the academic course you wish to join.
• It helps you to participate fully in lectures, seminars and project work and develop your independence.
• Intercultural skills are an important employment tool that will be useful for you in the future.
• You will develop these skills in a content-based approach to learning involving critical thinking, questioning, discussion, reflection and analysis.
• You will develop the ideas and concepts necessary to participate in the global academic community. In addition, you will also cover key aspects of applied mathematics and ICT to enable you to perform at the level expected at undergraduate study.

Applying

When applying you will need to choose your degree course and state this on the application form. If you are accepted you will receive one offer letter for the English Language/International Foundation Programme and achieved the required grades*, you can gain direct admission to your chosen undergraduate course. If you do not meet the entry requirements for your chosen undergraduate course but your English language level falls below the entry requirements of the course you want to join. By the end of the course you should be able to attend lectures, seminars and tutorials and produce academic assignments.

Summer school pre-sessional courses

The summer school English and Study Skills course is similar in content to our year-round provision. Depending on your requirements you can attend either the full 11-week course beginning in June or a six-week course beginning in July. Please note that if you start the course in June you must enrol for 11 weeks. There is no mid-point assessment. Pre-sessional English is also offered at our London Campus.

Pre-sessional courses

The English and Study Skills course helps you improve your English language level so that you can meet the entry requirements of the course you wish to join. By the end of the course you should be able to attend lectures, seminars and tutorials and produce academic assignments.

International Foundation Programme (IFP)

The International Foundation Programme is ideal if your qualifications and English language skills fall below the entry requirements for your chosen undergraduate course, but you have English language and study skills. The course is multidisciplinary and provides progression to a wide range of degree courses at Northumbria University. The main focus of this course is that you can adapt to and therefore succeed within a Higher Education institution. In the UK. Upon successful completion you will be awarded a Foundation Diploma in International English for Academic Communication.

Start dates and entry requirements

English and Study Skills start in September and January. Our International Foundation Programme starts September and January. The summer school starts in June and July. Further information for international applicants, including details on how your qualifications may compare, can be found at www.northumbria.ac.uk/international/international-admissions

Why study Geography and Environment at Northumbria?

We’re all about the future of our planet, the people who live on it, and your role in shaping it. That’s why our courses are real-world focused, with field trips, studying abroad and work placements. We will help prepare you for a career that interests and challenges you every day.

• Our Geography courses are amongst the first in the country to be accredited by the RGS-IBG†.
• Our extensive professional accreditations include CIEEM, CIEH, CIH, IEMA, *RGI‡•Our courses have been designed to meet the changes and developments across employment sectors to ensure you graduate with all the relevant and in-demand skills.
• We undertake field trips and research in more than 30 countries. You can develop skills in gathering, collating and analysing data that can be developed in extensive projects. Final year dissertation projects can be completed overseas at locations including the Alps and Greek Islands.
• You can extend your degree with a work placement or study abroad where you can gain valuable first-hand experience or broaden your cultural awareness and ensure that you stand out to graduate recruiters.
• Our courses achieved 97% overall in the 2017 National Student Survey (NSS), including 100% student satisfaction on the BA Geography programme.
• We have advanced laboratory equipment including a microscope room and high-power computing suite for terrain analysis and visualisation. We have a new state-of-the-art Geography and Environmental Sciences Analytical Laboratory and Qualitative Research suite for students to undertake qualitative research including interviews, focus groups and small group workshops for teaching and dissertation projects.

*Royal Geographical Society (with the Institute of British Geographers)
†Chartered Institute of Ecology and Environmental Management, Chartered Institute of Environmental Health, Chartered Institute of Housing, Chartered Institute of Environmental Management and Assessment, and Institute of Occupational Safety and Health.

Why study History, English Language & Literature and Creative Writing?

Our courses are intellectually stimulating and culturally rich, expanding your horizons and helping you to navigate the human world with skill and confidence. You will be taught by internationally-renowned academics who bring their research expertise into seminars, lectures and workshops. We take pride in our commitment to supporting students through different means, including our guidance tutor system, one-to-one essay tutorials and dissertation supervision meetings.

- Our courses cover a great variety of historical, literary and language contexts while making exciting use of different media, including music, film, blogs, experiment design software and language corpora.
- History courses offer a tailor-made module that combines work experience with practical workshops and careers lectures.
- English courses include opportunities to gain varied teaching experience through placements in schools and our English Language TESOL modules.
- We regularly collaborate with external partners, including the LCE Theatre, New Writing North, National Museum of Scotland, Tyneside Cinema, embassies and local authorities.

- All our courses offer you the opportunity to expand your horizons by spending a semester overseas, with a range of partners in the US and continental Europe. Studying abroad is a fantastic way to broaden your cultural awareness, gain experience of a different academic environment, and develop a range of skills which enhance your employability.
- The research expertise of our staff was acknowledged in a UK-wide evaluation, the Research Excellence Framework (REF 2014), which rated over 75% of our publications in English and History as world-leading or internationally excellent.
- My lecturers are amazing! Not only are they very supportive but they have a lot of knowledge and experience through their own research which they are passionate about.

Lucy Purkins, BA (Hons) English Language and Literature

Why study Law at Northumbria Law School?

Our award-winning Law School is one of the largest in the UK, with a national and international reputation for excellence in legal education. Our specialist degrees are designed to equip you with the legal knowledge and practical skills needed to enter a range of professional careers.

- Northumbria is ranked 1st in the sector for sustained employment for Law graduates one year after graduation and remains in the top 10 for the last 5 years after graduation (Longitudinal Education Outcomes 6.00) 2017.
- Our Student Law Office allows students to act on behalf of clients as part of their studies. It’s the largest of its kind in the UK and has managed more than 5,000 enquiries, represented more than 3,300 clients and secured more than £1 million on their behalf since 2008.
- In 2013, we were awarded The Queen’s Anniversary Prize for higher and further education for the outstanding community work of our Student Law Office.
- You’ll learn in authentic civil and criminal courtroom facilities, allowing real-life experience.
- Northumbria Law School is one of just six institutions in the UK to be recognised by The Higher Education Academy with a Collaborative Award for Teaching Excellence (CATE) based on the work of the Student Law Office.
- You can extend your degree with a work placement or study abroad where you can gain valuable first-hand experience or broaden your cultural awareness and ensure that you stand out to graduate recruiters.
- Our innovative and practical M Law courses combine undergraduate and postgraduate study to equip you with a Master’s level qualification and will develop your skills to succeed as a solicitor or barrister.
- The expertise of our staff is sought after globally. Our academics are qualified as solicitors or barristers, with considerable experience of practice and many of them are currently practising in the field.
- Our award-winning Law School is one of the largest in the UK, with a national and international reputation for excellence in legal education. Our specialist degrees are designed to equip you with the legal knowledge and practical skills needed to enter a range of professional careers.

The best thing about my course is the choice. If you want to gain practical professional skills the opportunities are there to help find employment after graduation. Equally, if you’re more academic, there are lots of chances to do research and build your portfolio that way.

Cameron Giles, M Law Exempting
Why study Mathematics at Northumbria?

Mathematics underpins our technological society and is the language of the modern knowledge economy. Mathematics graduates understand the world in a special way, and their skills are in high demand. According to a report by the Council for Mathematical Sciences, demand is still rising, giving graduates access to a wide range of interesting and rewarding careers boasting excellent salaries.

- We have benefited from a £6.7m investment in STEM facilities (co-funded by HEFCE teaching capital award 2014–2016) including a mathematical modeling laboratory and an MMath suite.
- Our Mathematics degrees build your analytical and quantitative skills, as well as developing you into a problem solver and a flexible thinker. You will be trained in the application of pure mathematics, apply your theories, use computers to solve mathematical equations and cultivate a strong modeling instinct to translate everyday problems into mathematics.
- Our Mathematics graduates have gone on to work at Intel, NHS, the financial industry (including Accenture, EY, Procter & Gamble) and many more.
- We have an Employer Advisory Board to ensure our course content is 100% relevant. Members include BAE Systems and Siemens.

You can extend your degree with a work placement or study abroad where you can gain valuable hands-on experience or broaden your cultural awareness and ensure that you stand out to graduate recruiters. Our students have taken up placements with BAE Systems, Siemens, Lloyds Bank plc and IBM among others.

- We support the London Mathematical Society (LMS) Good Practice Scheme aimed at advancing women’s careers by embedding equal opportunities for women within their working practice.

Why study Nursing, Midwifery and Health at Northumbria?

Our Nursing, Midwifery and Health courses have been developed with input from experienced clinical experts and created in partnership with the NHS. This allows you to gain up-to-date knowledge and hands-on expertise to prepare you for a caring career as a health professional.

- Nursing ranked 17th in the Complete University Guide 2018.
- Both the Clinical, Pre-Clinical and Health subject ranking and the Life Sciences subject ranking features in the top 50 in the 2018 Times Higher Education.
- Northumbria is ranked 3rd in the sector nationally for the sustained employment of Subjects Allied to Medicine graduates 5 years after graduation. (Longitudinal Education Outcomes, LEO 2017)
- Our innovative suite of health courses have been created in partnership with the NHS, GP practices and private and voluntary providers to enable all students to experience a wide range of placements in exciting healthcare settings.
- We have one of the most advanced skills environments for teaching and learning nationally, with adaptable, simulation-based education that allows us to ensure your learning evolves in line with the latest developments in the industry.
- You will join a multidisciplinary community of professionals who are clinical experts in their own field and still bring real-life experiences to the classroom.
- A coaching approach is used to help you develop a caring, compassionate approach to practice in a supportive, collaborative learning environment, enabling you to develop your skills and experience and to support your ongoing development.
- We have study abroad opportunities via the ERASMUS scheme. The department currently has ten active education partnerships in Portugal, Spain, Finland, Malta, Denmark, France, Germany and Italy.
- Nursing, Midwifery and Health courses

Whilst on placement you have lots of different areas you can gain work experience in. You could be based in a hospital or in the community. It really helps you find out what you want to do after graduation.

Why study Physics and Electrical Engineering at Northumbria?

Physics and Electrical Engineering at Northumbria is hands-on and informed by world-class research. We have state-of-the-art facilities, expert staff and courses that are accredited by all the relevant professional bodies to equip you in your chosen career.

- Our Physics and Electrical and Electronic Engineering courses are ranked within the Top 20 in the Guardian University Guide 2018.
- We are an international pioneer in photovoltaic (PV) research and have been a world leader in this field for more than 20 years.
- Our Astrophysics is part of the Science & Technologies Facilities Council (STFC) funded UK Partnership in the $300M Daniel K. Inouye Solar Telescope (DKIST) with the US National Science Foundation (NSF), National Solar Observatory (NSO), NASA and Lockheed Martin.
- Northumbria was awarded £1.2m by the Higher Education Funding Council for England (HEFCE) for the ‘Think Physics’ project addressing progression into Higher Education by under-represented groups, particularly females.
- Our course have subject specific entry requirements. For more information visit northumbria.ac.uk/courses and search the course you’re interested in.

Our graduates have the necessary skills that are always strongly in demand.

Why study Psychology at Northumbria?

If you want an in-demand career that lets you make a real difference in the world, there’s never been a better time to study psychology. You will learn from inspirational, approachable staff with a wealth of practical experience, so when you graduate you’ll be well on your way to developing an impactful career.

• Our courses are accredited by the British Psychological Society to provide Graduate Basis for Chartered Membership (GBC). Our courses reflect the latest industry standards meaning our graduates have the latest skills that are always strongly in demand.
• Our courses offer study abroad opportunities; a fantastic way to broaden your cultural awareness, gain experience of a different academic environment, and develop a range of skills which will enhance your employability.
• The Department of Psychology has an overarching theme of ‘Psychology of Health and Wellbeing’ that defines its research strategy.
• Our range of laboratory facilities include the Brain, Performance and Nutrition Research Centre and the UK’s only ecologically valid sleep laboratory which is part of Northumbria’s Centre for Sleep Research.
• You will be taught through lectures, seminars, laboratory and practical work to give you a comprehensive understanding of the scope, methods and applications of psychology.
• Our graduates go on to careers in educational, clinical, occupational and forensic psychology, or related careers such as counselling, occupational therapy, nursing, the probation service, social work, special needs education, market research and teaching.

Why study Psychology at Northumbria? If you want an in-demand career that lets you make a real difference in the world, there’s never been a better time to study psychology. You will learn from inspirational, approachable staff with a wealth of practical experience, so when you graduate you’ll be well on your way to developing an impactful career.

• Our courses are accredited by the British Psychological Society to provide Graduate Basis for Chartered Membership (GBC). Our courses reflect the latest industry standards meaning our graduates have the latest skills that are always strongly in demand.
• Our courses offer study abroad opportunities; a fantastic way to broaden your cultural awareness, gain experience of a different academic environment, and develop a range of skills which will enhance your employability.
• The Department of Psychology has an overarching theme of ‘Psychology of Health and Wellbeing’ that defines its research strategy.
• Our range of laboratory facilities include the Brain, Performance and Nutrition Research Centre and the UK’s only ecologically valid sleep laboratory which is part of Northumbria’s Centre for Sleep Research.
• You will be taught through lectures, seminars, laboratory and practical work to give you a comprehensive understanding of the scope, methods and applications of psychology.
• Our graduates go on to careers in educational, clinical, occupational and forensic psychology, or related careers such as counselling, occupational therapy, nursing, the probation service, social work, special needs education, market research and teaching.

Why study Social Sciences at Northumbria?

Social Sciences offers an extensive range of undergraduate courses in Criminology, Sociology, International Relations and Politics, Media and Mass Communications. Our award-winning research and partnerships feed into our teaching, giving you the perfect start to your graduate career.

- Our staff are leaders in their field and have strong reputations for excellence in teaching and learning, receiving the British Sociological Society and Higher Education Academy National Award for Excellence in Teaching Sociology in 2014.
- Staff from our media and journalism courses are internationally recognised for their work in media and cultural studies in cultural and commercial organisations including Tyneside Cinema, BBC, Tyne Tees TV and high-profile creative agencies.
- Our academics were behind the formation of the North East Homeless Think Tank - a regional agency bringing together academics, researchers and policy officers to inform and influence policies affecting homeless groups.
- We have collaborative partnerships with local partners such as Northumbria Police and Newcastle City Council, but also international partners, including the International Red Cross and Transparency International.
- Our students undertake placements which have real impact on local and national organisations, including YouthJustice, policing, the prison environment, third sector organisations, the BBC, ITN, Barbour, Newcastle Gatehead Initiative, Newcastle NHS Trust, Press Association, and many more. A work placement year can help you to stand out to graduate recruiters.

Why study Social Work and Community Wellbeing at Northumbria?

In Social Work and Community Wellbeing we have particular strengths in working with children and their families, mental health and wellbeing. Our expert teaching team, drawn from a range of professional and research backgrounds, works with our students to help them reach their full potential and equip them to enter a range of professional roles focused on children, adults, families and communities.

- Successful completion of the BA (Hons) Social Work (including 170 days assessed practice placements in social work-related settings) will enable you to apply for the Health and Care Professions Council (HCPC) for registration as a social worker.
- BA (Hons) Childhood and Early Years Studies offers a unique and exciting opportunity to explore a range of issues relating to childhood, children, young people and society.
- Successful completion of BA (Hons) Guidance and Counselling gives you the added benefit of a recognised career development qualification as it is approved by the Career Development Institute, the professional organisation for career guidance professionals in the UK.
- The Integrated Health and Social Care degree will support you to review, debate and evaluate different health and social care systems, and provide opportunities to develop workplace skills and enhance your academic learning.
- We offer work placements; a great way to build your confidence in essential skills and gain valuable first-hand experience in the workplace, helping you to stand out to graduate recruiters.
- We offer study abroad which is a fantastic way to broaden your cultural awareness, gain experience of a different academic environment, and develop a range of skills which enhance your employability.
- Thanks to a significant investment in research-active staff, Northumbria is now ranked in the UK top 20 for research power in Social Work and Social Policy (REF 2014).

My placements have been great, interesting, enjoyable and challenging at times. I’ve learnt so much about the service user group, social work practice and myself. The experience has improved my confidence and skills which I’ve carried forward to my second year.

Alison Wood, BSc (Hons) Social Work
Why study Sport, Exercise and Rehabilitation at Northumbria?

We have some of the best facilities in the country, expert staff who come from diverse professional backgrounds and courses that are accredited and endorsed by professional and national governing bodies. This ensures that we provide you with the opportunity to develop the attributes and experience you need to succeed in the profession of your choice when you graduate.

- Learning in practice is an integral part of our Physiotherapy course with 6 Clinical Practice Placements.
- We have been delivering sport courses for nearly 40 years and are one of the original providers in UK Higher Education.
- Our extensive professional accreditation by professional and national governing bodies include BASES, CSP and SENr.*
- Academics conduct world-class research with small, medium and multinational organisations, the NHS, charities and the private sector.
- Academics conduct world-class research with small, medium and multinational organisations, the NHS, charities and the private sector.
- A work placement year can help you to stand out to graduate recruiters.
- Our state-of-the-art facilities include laboratories for physiology, biomechanics and nutrition. We also have a strength and conditioning suite, an indoor sprint track and performance analysis facilities.
- Graduates from our Sport courses have included successful medal winning athletes such as Victoria Pendleton (Olympic cyclist), Steve Cram (track and field athlete), Jamie Noon (Rugby Union), Martin Corry (Rugby International), and Chris Cook (Olympic swimmer).

* The British Association of Sport and Exercise Sciences, Chartered Society of Physiotherapy, and Sport and Exercise Nutrition Register.

I’m looking forward to my internship at the European Astronaut Centre. I’ll spend time doing rehabilitation, learning new skills and knowledge that will help me when I apply for my Master’s degree.

Harriet Hunter-Purvis, BSc (Hons) Applied Sport and Exercise Science
Applications and Admissions

Your choice of university is an important one and we view selection as a two-way process. You select your university as much as the university selects you.

Northumbria University welcomes all applicants who are likely to benefit from and contribute to our challenging and stimulating learning environment. We welcome applications from candidates of all social and ethnic backgrounds, and each individual will be considered solely on the basis of their individual merits.

Entrance Requirements

You can find out what the entry requirements are for the course you’re interested in by looking at the table on your course subject page. If you want to find out what points are awarded to the grades for your qualification, then go toucas.com and search for their Tariff Calculator.

Selection Process

For most courses, a decision will be made based on what you tell us about yourself in your UCAS application, so we’ll look at your academic qualifications, potential achievement, work and life experience, and personal skills and qualities. For some courses, you may need to attend an interview before we can make you an offer. Interviews are compulsory for Interior Architecture, courses in Art and Design and courses in Health, Social Work and Teaching. For further information on the selection process for your course, please see northumbria.ac.uk/courses

Advice and Information

If you require additional information about any of our courses, or need advice on the application process, then please contact our Admissions Office on +44 (0) 191 406 09001 or email er.admissions@northumbria.ac.uk and a member of our dedicated team will be happy to help.

Your Personal Statement

Personal statements are all about you – this is your chance to really sell yourself and tell the universities you apply for why they should choose you. You can only write one personal statement for all your choices which can’t be changed once you’ve submitted your form – so you’ve got to make sure that it’s the best it possibly can be.

Visit our website for a full guide to writing personal statements, plus interview tips and advice on portfolio preparation at northumbria.ac.uk/ugapplicationguide

Entry Requirements

If you’re looking for the academic entry requirements for a specific course, you’ll find these listed on our course pages. The University accepts a wide variety of academic and vocational qualifications for entry, including:

- GCE and IGC A and AS Levels
- Edexcel/BTEC QCF-QCF, and RQF Qualifications
- Edexcel/BTEC Higher National Certificates and Diplomas
- OCR Cambridge Technicals
- CACHE Diploma
- Diploma in Foundation Studies (Art and Design)
- Scottish Highers/Advanced Highers
- Irish Highers
- Welsh Baccalaureate
- Access courses approved by the national recognition scheme
- Foundation Courses
- Foundation Degrees
- Cambridge Pre-U
- International Baccalaureate
- European and overseas qualifications

We also usually require five GCSEs at grade C (or grade 4) or above, preferably including English Language and Mathematics. Some courses may require additional subjects at GCSE level and you should check the detailed information on entry requirements for each course. This information can be found on our website at northumbria.ac.uk/courses

If you require any additional information about any of our courses, or need advice on entrance requirements or the application process, then please contact our Admissions Office on +44 (0)191 406 0901 or email er.admissions@northumbria.ac.uk

Visit us at northumbria.ac.uk
If you meet your offer conditions… you are in!

Selection
Now you need to wait to hear from universities. You may be asked to provide further information or to go for an interview for your course. Selection processes vary for different courses.

Decisions
Hopefully you’ll receive offers from all of your chosen courses, which will either be unconditional if you meet all the criteria or conditional if you’ve still got exams to sit or have non-academic conditions. If you’re unsuccessful in any of your choices, don’t forget you may still be able to use UCAS Extra to make other choices.

Exams
If your offers are still conditional then you need to make sure you put your very best efforts into studying hard and getting the best grades you can.

Got your results? Now what?

Choose your firm and insurance choices
Once you’ve received all of your decisions you need to take one as your first, or firm choice and one as your second, or insurance choice. Your first choice is the place you really want to go to – and we really hope that’s Northumbria.

Got your results?

Finish
If you meet your offer conditions, you’re in.

We can’t wait to welcome you to Northumbria in September.

If you miss your offer at Northumbria
Then you will go to your insurance choice if you meet their conditions.

If you miss your insurance choice too
You could go into clearing to find a place at university or you could take a gap year or re-sit your exams and apply again next year.

UK APPLICANTS
Your Application Journey
Starts Here

HOW TO APPLY
The Universities and Colleges Admissions Service (UCAS) processes applications for all undergraduate courses. The UCAS institution code for Northumbria University is NORTH N77.

Applications are made using the secure, web-based application system UCAS APPLY at: ucas.com

You may apply for up to five courses and your choices should be listed in alphabetical order. All applications are treated equally and admissions selectors will not be able to see which other institutions you have applied to, so you should not express any order of preference when you apply.

You can apply from 1 September 2018, and applications should normally be received by 15 January 2019.

Research
Start exploring your options for university. Look online, go to UCAS fairs, speak to friends and family and do some research at school/college.

Exams
If your offers are still conditional then you need to make sure you put your very best efforts into studying hard and getting the best grades you can.

Choose your firm and insurance choices
Once you’ve received all of your decisions you need to take one as your first, or firm choice and one as your second, or insurance choice. Your first choice is the place you really want to go to – and we really hope that’s Northumbria.

Finish
If you meet your offer conditions, you’re in.

We can’t wait to welcome you to Northumbria in September.

If you miss your offer at Northumbria
Then you will go to your insurance choice if you meet their conditions.

If you miss your insurance choice too
You could go into clearing to find a place at university or you could take a gap year or re-sit your exams and apply again next year.

Got your results?

Now what?
INTERNATIONAL APPLICANTS
Your Application Journey
Starts Here

HOW TO APPLY
This is our guide to the undergraduate admissions process for international applicants. Remember to allow plenty of time to apply and take note of our application deadlines.

Applications can be made to most of our courses by using the Apply Online function on the individual course listing. Applicants can also apply for undergraduate courses via the Universities and Colleges Admissions Service (UCAS) – visit ucas.com

For details of the English language entry requirements for our courses visit northumbria.ac.uk/englishlanguagerequirements

For further information on how to apply and international entry requirements, please visit northumbria.ac.uk/internationaladmissions

As well as a team of dedicated staff in the UK, we also have regional offices in China, Malaysia, India and Thailand and a permanent representative in West Africa.

Financial considerations
For information on fees visit northumbria.ac.uk/coursesearch – select a course, then click on the fees tab to access our fees calculator.

The calculator will provide an estimate of the fees you will pay, including any discounts you may be entitled to. All courses are priced in UK pounds. However, we have added a currency converter to help you get an approximate idea of cost in your own currency.

Visit northumbria.ac.uk/internationaldiscounts for further details on:
• Early payment discounts
• Academic scholarships for high-achieving students
• The range of extras covered by your fees, including an International Induction Programme to help you settle in and free English language tuition during your degree course, should you need it.

Meet your conditions
If your offer was conditional, it is important for you to provide us with your results as soon as possible.

If you don’t meet your conditions, don’t worry we may be able to offer you an alternative programme so it is important to still send us your results.

Visa
Once you have completed all the previous steps, the university will issue you a CAS to apply for your visa if you require one. It is important to prepare your visa application in good time so you can arrive in time for inductions.

Welcome to Northumbria
Once you have accepted your offer and enrolled at the university, you will need to attend a campus enrolment session. Our induction and welcome events will help you find out more about life at Northumbria and make new friends from around the world.

FINISH
If you meet your offer conditions, you’re in.

Visit us at northumbria.ac.uk
Location

Whether travelling by air, sea, rail or road, Northumbria University is easily accessible.

Air
Newcastle has its own international airport operating both domestic and international flights to cities including London, Birmingham, Bristol, Cardiff, Aberdeen, Dublin, Belfast, Southampton, Amsterdam, Paris, Barcelona, Prague, Dublin and Copenhagen.

Newcastle International Airport
Tel: +44 (0)871 882 1121
newcastleairport.com

Rail
Rail services operate from many cities. Approximate travelling times are:
- Birmingham: 3 hours
- Edinburgh: 1½ hours
- Glasgow: 3 hours
- London: 3 hours
- Manchester: 2½ hours

Rail Enquiries
Tel: +44 (0)8457 484 950
nationalrail.co.uk

Coach
National Express operates good services. Approximate travelling times are:
- Birmingham: 5 hours
- Edinburgh: 3 hours
- Glasgow: 4 hours
- London: 6 hours
- Manchester: 4 hours
- Sheffield: 3 hours

National Express
Tel: +44 (0)871 781 8178
nationalexpress.com

Sea
Car ferry and passenger services operate to Tyneside from Holland. The North Shields International Ferry Terminal at Royal Quays (Tyne-Commission Quay) is seven miles east of Newcastle. Bus services run from the terminal building to the city centre.

DFDS Seaways
Tel: +44 (0)1671 522 9955
dfdseaways.co.uk

Travelling around Newcastle
Newcastle is a very compact city so getting around is easy. It has one of the best integrated transport systems in the country, centred upon the Metro system, and the extensive bus networks. Excellent bus and Metro services run between our two Newcastle campuses.

A unique student experience
Our City Campus is in the heart of Newcastle upon Tyne, so you can study and live right in the city centre. You are just a couple of streets from the main shopping and cultural areas – all within walking distance of the campus.

Visit us at northumbria.ac.uk
Terms and Conditions

The contract between the student and Northumbria University, which is formed on acceptance of the offer of a place on an academic programme, is subject to the conditions outlined in an offer letter and subject to terms set out in the Handbook of Student Regulations. Your attention is particularly drawn to the Student Enrolment Conditions in Section 2 of northumbria.ac.uk/handbook.

Our courses

This prospectus describes the courses offered by Northumbria University ("the University"). Further documents describing the teaching, examination, assessment and other educational services ("educational services") offered by the University are made accessible to all students.

The information in this prospectus was correct at the time of publication (February 2018), but is subject to change. For example, to ensure that all of our courses remain current and relevant, our leading academics continuously review and improve course content in consultation with students and employers. So to ensure that you are kept up-to-date with any enhancements, consult our Handbook of Student Regulations. Your attention is particularly drawn to the Student Enrolment Conditions in Section 2 on northumbria.ac.uk/handbook.

Admissions policy

Where entry requirements for an undergraduate degree programme are expressed as a range of grades (e.g. ABB or 120-128 tariff points), each offer will be determined on an individual basis, taking account of an applicant’s profile. It is not possible therefore to advise prospective students whether they will receive an offer, or of the conditions attached to an offer, before their application has been considered. Subjects and qualifications being taken, predicted grades, contextual data, and information in the personal statement and reference all contribute to an individual profile. Our published entrance requirements are typical of a standard offer and are intended as a guide for applicants to consider when assessing their suitability for the course. There are no guarantees that an offer will or will not be made, or the level at which the offer will be made. In any given admissions cycle, the terms of conditional offers made to applicants will not normally differ significantly from the entry requirements published in advance in respect of the admissions cycle concerned. Any necessary amendments to typical entry requirements which take place during the admissions cycle will be published on the University’s website.

Finance information

The financial information in this prospectus is as of January 2018. For updated information on the costs of the educational services ('educational services') offered by the University reserves the right to make variations to the contents or methods of delivery of courses, to discontinue courses and to merge or combine courses without notice. It is not to be taken as imposing upon the University any obligation to provide or continue to provide, any course or amenity described herein. The information given in this prospectus is for guidance only and is subject to change. In compiling it, the University has taken every care to ensure that it is as accurate as possible, but the prospectus must be read as subject to change in the light of without notice. It is not to be taken as imposing upon the institution any obligation to provide or continue to provide, any course or amenity described herein. The University reserves the right to make variations to the contents or methods of delivery of courses, to discontinue courses and to merge or combine courses without notice.

Newcastle is one of the greatest cities in the UK. No matter what your interests, there’s something for you. From outstanding restaurants to amazing culture, there’s literally so much choice. That’s why we’ve been voted best student city six times in the last nine years.*

Newcastle city centre is packed with bars, restaurants, pubs and clubs – it’s easy to see why Northumbria was rated amongst the best universities for nightlife in the UK by Which? University 2017. Enjoy films, special events and great food and drink at the independent Tyneside Cinema, challenge your course mates to a night of bowling or mini golf at hipster bowling alley Lane 7, and experience Newcastle’s eclectic mix of music at venues such as the Metro Arena, the O2 Academy, and the Sage Gateshead. Enjoy films, special events and great food and drink at the independent Tyneside Cinema, challenge your course mates to a night of bowling or mini golf at hipster bowling alley Lane 7, and experience Newcastle’s eclectic mix of music at venues such as the Metro Arena, the O2 Academy, and the Sage Gateshead.

Visit the Quayside to admire its landmark buildings and seven bridges that span over the Tyne, including the Tyne Bridge and famous tilting Millennium Bridge. Embrace visual art and visit the BALTIC Centre for Contemporary Art.

Delve into the city’s sporting culture with visits to Newcastle United’s St James’ Park, Newcastle Falcons’ Rugby Club and our own Sport Central, home of the Eagles basketball team.

Newcastle is a very compact city so getting around is easy. If you ever need a break from city life, there’s always plenty of things to do outside of the city: Take a short Metro ride to our beautiful coast for a day trip, or if you fancy a night away, get a train from Central Station to a number of destinations.

** There’s so much to do. I love the shops, restaurants and the diverse cultural food on offer. My favourite thing to do is eat out and try new foods.**

Lynne Curran, BSc (Hons) Occupational Therapy

** Having a Chinatown in the city is amazing! Especially with there being so few in the UK. The restaurants are really good.**

Lisa Shannon, BSc (Hons) Marketing Management

** I love that there’s so much opportunity for part-time work and volunteering and also a wide variety of things to do in both the city centre and out of town.**

Beth Fountain, BA (Hons) Business with International Management

Campus Life – Join In

Our City Campus is right in the heart of a cosmopolitan city, so you’ll get the benefit of great student facilities and all that this location offers.

You’ll make the most of your time at City Campus, which has a range of restaurants, cafés and a full-stocked campus shop with an in-store bakery to cater for all your needs. We’ve invested £30 million in our student sport experience and we are extremely proud that our university facilities rank 7th in the UK.*

Award-winning Northumbria Students’ Union (NSU) offers everyday good value on food and drink, entertainment, and opportunities to get involved in just about anything. Take advantage of Freshers’ Week to check out the hundreds of societies available to join, or volunteer for one of the many student-led community projects.

Newcastle has excellent transport links; you can get from the city centre to beaches or countryside within 30 minutes.

Our Coach Lane Campus is a 15-minute free bus journey from the City Campus, home to education, nursing, healthcare and social work students. As well as its excellent facilities and exceptional Clinical Skills Centre, the campus has a library, restaurant, café and Students’ Union.

It’s not just about pushing the latest technology into the classroom, it’s about designing this into your course, so that it encourages your learning.

Digital Learning

Technology is built in to all our courses to help you connect and enjoy learning.

• Online assessment management – submit your work and receive and share feedback online.
• Lecture recording – allowing you to interact and discuss during lectures, rather than just taking notes.
• Virtual learning platforms – access course materials, engage with your learning community.
• Online reading lists – constant access to everything you need to read for your studies.
• Student portal – My Northumbria gives you online access to all the support you need.

It’s not just about pushing the latest technology into the classroom, it’s about designing this into your course, so that it encourages your learning.

Jonny Hall, Faculty Associate Pro-Vice Chancellor (Learning and Teaching), Business and Law

A lot of the reading material that we use is now available online so students are able to access it from anywhere.

Sara Lombay, Programme Leader for Guidance and Counselling.

One of the Best Academic Libraries in the UK

Northumbria University Library is one of the best academic libraries in the UK, achieving some of the highest levels of student satisfaction, and has achieved Customer Service Excellence (CSE) accreditation since 2010.

- Over half a million print books
- Nearly 843,000 electronic books available online
- 111,000 electronic journals
- Over 300 databases

The City Campus Library is open and staffed 24/7 in term time, while Coach Lane Library and the Law Practice Library also offer extensive opening hours.

Students can now enjoy a new technology-rich reading room, providing a mix of individual and collaborative learning spaces and breakout areas.

The University Library ensures students receive the right support they need from enrolment to graduation by providing a comprehensive range of physical, digital services and resources, enabling greater access to knowledge and professional support for the development of crucial information, literacy and study skills.

Professor Jane Core, Director of Student and Library Services

At Northumbria, our library’s been rated as amongst the best in the country. We’ve invested in the resources that you get access to, in particular electronic sources so that you’re getting the very latest research and scholarship.

David Stewart, Senior Lecturer in English Literature

Northumbria University Library is every student’s second home. It’s open 24/7 and staff are always available to support you in your work. You’ll find all the knowledge and support you need, all in one place.

Reema Shah, BSc (Hons) Biomedical Science

We have invested in creating a student support network that responds to your needs.

- Student Central, located at City Campus East and in the University Library at City Campus and Coach Lane, provides a focal point for students in the heart of our campus.
- Ask4Help and our professional advisers in Student Central, together with our new and intuitive online student portal, ensure seamless support is available to students face-to-face and online 24/7.

Ask4Help and professional advisers in Student Central can provide support on:
- Accommodation
- Applying for jobs
- Assessments
- Change of student status
- Choosing a course
- Counselling
- Course information
- Disability
- Learning skills
- Money and finance
- Placements
- Starting your own business
- Study abroad
- Using the library
- Visas and welfare

Students previously had to navigate their way into support across 18 different locations or offices in nine buildings. Over the last year and a half, we’ve introduced more consistent and seamless approaches to students accessing services by creating new teams, investing in technology, and so shaping new ways of working which puts students at the heart of what we do.

Your Home from Home

Starting university and moving into a new city is an exciting and important decision. At Northumbria, we make things easier and help you feel at home by offering a wide range of accommodation that will suit all tastes and budgets.

Discover a wide range of traditional halls of residences, as well as contemporary accommodation, all designed with the students' needs in mind. As a global university, there’s no doubt that your student accommodation will be the best place to meet new people and make lifelong friendships.

- Guaranteed en-suite accommodation to all first-year students.
- Free 100MB broadband included in all Northumbria University accommodation.
- All within walking distance of campus or with convenient transport links.
- Self-select the exact room, floor and residence online based on real-time availability, and complete all your contracts online too.
- View flat occupancy before you arrive and learn about your future flatmates, such as age, gender, level of study and nationality, and use social media to connect with them.

"From day one I knew I’d made the right choice coming to Northumbria. I got on straight away with my flatmates."
Joanne Atkinson, BSc (Hons) Biomedical Sciences

"The location is prime. It’s only six minutes to walk into town and five minutes to catch the free bus to the Coach Lane Campus. It’s equipped with everything you need and the sizes of the rooms are generous!"
Alice Leman, BA (Hons) Primary Education

"Winn Studios is so close to everything and even has a Tesco over the road. The freshers’ team were so helpful with moving in and the security on campus is brilliant."
Jasmin Watkin-Jones, BSc (Hons) Occupational Therapy

*National Student Housing Survey 2017

Students’ Union

Imagine a building where you can learn to breakdance and make cocktails, go clubbing, record your own radio show and help to make the world a better place. Sounds good doesn’t it? You can do all of that and so much more at your Students’ Union, where the mission is to have a positive impact on the lives of all our students.

Join us for our weekly quiz nights and karaoke nights, or relax and watch live sporting events. We also host huge events like St Paddy’s Day and Northumbria’s Got Talent in our award-winning Students’ Union. Northumbria Students’ Union won the national NUS ‘Student Opportunities’ Award 2016, and was also runner-up in the ‘Education’ and ‘Diversity’ categories.

There are so many exciting ways to volunteer and become employable. You can fund-raise for charities, climb Kilimanjaro, take part in colour runs, city raids and much more. Then log your hours to gain a HEAR* award and stand out to future employers.

Your SABB team will work hard to represent your views and create change to ensure that your university experience is the best that it could be. They meet with course reps and university staff and ensure that you’re aware of everything that’s going on in the University and what help and support is available to you. They make sure that the diversity of students does not affect their ability to achieve a good degree by working with equality reps to address any issues that arise. They help you gain the important skills that go side by side with your degree to make you a highly employable graduate by overseeing over 100 student societies and volunteering activities.

Nightline is a student lead anonymous service that provides night-time support over the phone or via instant message for students that want to talk through anything from university stress to personal problems.

* Higher Education Achievement Report
Getting involved with sport is one of the best ways to make the most of your time at Northumbria University. Whether you love sport already, want to try something new, want to keep fit and meet new friends or you’re training for the next Olympics, we have something for you. We are proud about our sporting offer and are proud to have over 60 nationalities represented within our sport programmes.

Sport Central is in the middle of campus, just a short walk from the Students’ Union, Library and accommodation. Sport Central houses a gym with a swimming pool, sauna & steam room, squash courts, climbing wall and sports halls as well as our 3000 seat arena all under one roof.

The NORTH Fitness gym environment boasts over 150 stations, functional Queenax rig and personal training area. We run over 70 group exercise classes every week from Abs Blast to Zumba.

If you already compete within a sport and want to represent the University, our performance sport programme, Team Northumbria can ensure you receive access to training, competitions and support to make sure you develop as a student athlete alongside your academic studies. Northumbria is proud to have established a Top 10 ranking within British Universities and College Sport (BUCS). Our combination of world-class facilities, high-quality performance coaching, and student athlete focused delivery makes us the strongest option for those looking to pursue a robust academic pathway whilst continuing to achieve their sporting goals.

Our Sport Scholarship Scheme helps the most talented Student Athletes achieve their academic and athletic ambitions through a nationally leading programme of athlete support services and a number of part-funded tuition fee scholarships. For more information visit northumbriasport.com/team-northumbria/scholarships

Sport Central

• 6000+ students engage with Northumbria Sport through health & fitness, performance, participation and volunteering programmes.
• Ranked 8th in the BUCS league for four years running in the 13/14, 14/15, 15/16 and 16/17 academic years.
• Our sport development is rated in the top category ‘Excellent’ – Quest 2017.
• Industry-focused agreements with Newcastle United, Newcastle Falcons and Newcastle Eagles.
• Current partnership with Adidas.
• NEW High Performance Centre dedicated to achieving elite sporting performance.
• Sport Scholarship Scheme.

While playing for Team Northumbria, I’ve learnt great transferable skills both through sport and my volunteering opportunities. I was also fortunate enough to be involved in the Zambia project which helped me to progress as a coach and a person.

Ellen Duke, BSc (Hons) Sport, Exercise and Nutrition

Here at Northumbria, we can help you follow your dreams, harness your ambitions and achieve your career goals. But what if you don’t know what your ambitions are? What if you haven’t decided on your career yet? That’s absolutely fine. Many of the world’s most successful people had no idea what they were going to do with their lives when they left school. And Northumbria is the perfect place to start working it out.

The Careers and Employment Service

From first year through to final year and beyond graduation, our Careers and Employment Service is here to help. We’ll support you at every step of the journey, helping you to identify goals and plan your way to achieving them. We help students find jobs they love. And we’re good at it.

The Careers and Employment Service is the perfect place to start working it out. It provides confidential one-to-one advice. We help with planning, job applications or just figuring out what sort of role would suit you.

Meet employers on campus. Introduce yourself to potential employers, and find out more about different career paths at one of the many employer visits or fairs held throughout the year.

Get ahead with tools for success.

The Careers and Employment Service has a wide range of interactive resources to help you explore your career options, research employers and write clear and concise applications and CVs. You’ll have exclusive access to these alongside volunteering and work experience opportunities and receive email alerts direct to your inbox.

How we do it

Get one-to-one support. Wherever you are in your course, and whether you know what you want to do or not, you can meet our advisers for confidential one-to-one advice. We help with planning, job applications or just figuring out what sort of role would suit you.

Meet employers on campus. Introduce yourself to potential employers, and find out more about different career paths at one of the many employer visits or fairs held throughout the year.

Get ahead with tools for success.

From first year through to final year and beyond graduation, our Careers and Employment Service is here to help. We’ll support you at every step of the journey, helping you to identify goals and plan your way to achieving them. We help students find jobs they love. And we’re good at it.

The Careers and Employment Service staff were brilliant in helping me update my CV. They helped me see it from a completely different perspective and made it much more appealing to potential employers. I’ve gained more interviews, positive feedback from employers about my CV and I’m a lot more confident in my application skills.

Lisa Shannon, BA (Hons) Marketing Management

The support I received from Student Support and Wellbeing throughout my time at Northumbria has had a very positive impact on the way I approach my studies. I consider it one of the most valuable things I’ve done throughout my time at University, and will take this approach with me through the rest of my life.

Support for Students

• Welfare and health support
• Financial support
• International student support
• International student support
• Counselling and mental health support
• Chaplaincy and faith advice
• Change of circumstances

The support I received from Student Support and Wellbeing throughout my time at Northumbria has had a very positive impact on the way I approach my studies. I consider it one of the most valuable things I’ve done throughout my time at University, and will take this approach with me through the rest of my life.

Visit us at northumbria.ac.uk/ssw

Student Support and Wellbeing is here to help you make decisions if your circumstances change while at university.

We organise ‘Fast Friends’ together with the Students’ Union – an exciting programme of social events and activities. There’s also spiritual and pastoral support across many faiths and beliefs, as well as discussion groups focusing on different issues, such as offering practical advice on personal safety, budget planning, financial matters and healthcare costs.

Before you apply, our specialist advisers are here to explain your funding options, including information on scholarships, loans and grants. They can also advise you on how to apply for childcare support.

If you have a disability, we can explain how you can be assessed for disability support near your home, so that the support you receive can be as in place as possible. This support will continue throughout your studies and we can provide you with tailored advice on any disability or specific learning difficulties, such as dyslexia.

If you’re an international student, we offer immigration and visa advice together with information on working in the UK. Those flying into Newcastle Airport can register with our ‘Meet and Greet’ service which means someone will meet you to help you reach your accommodation.

When you’re studying, we can advise on many different areas, such as offering practical advice on personal safety, budget planning, financial matters and healthcare costs.

We have a free confidential counselling and mental health support service for students with personal, emotional or mental health issues. Student Support and Wellbeing can also help you make decisions if your circumstances change while at university.

We organise ‘Fast Friends’ together with the Students’ Union – an exciting programme of social events and activities. There’s also spiritual and pastoral support across many faiths and beliefs, as well as discussion groups focusing on different issues, such as offering practical advice on personal safety, budget planning, financial matters and healthcare costs.
At Northumbria, we’re lucky to be situated in a very student-friendly city, with many retailers and services offering discounts for students. In fact, we’re one of the most cost-effective cities to live in. Many students decide to work part-time and can sign up to JobsOnline, a national recruitment website, to access part-time vacancies.

What is a scholarship?
Northumbria University scholarships aim to reward academic achievement. If you do well in your exams before you join us, you could be on target for a non-repayable scholarship to help you with your finances.

To keep up-to-date with our 2019 scholarship scheme, please visit our website.

Help with living costs
The University’s Student Support and Wellbeing service has a hardship fund which can help you if you’re a UK student who’s experiencing financial hardship, providing you meet certain eligibility criteria. You can also speak to one of the University’s Funding Advisers. Information on how to contact an Adviser can be found at northumbria.ac.uk/financialsupport.

Understanding the way funding and finances work can be quite challenging, so we’ve simplified the different types of support available. This guide should ease any concerns you or your parents/guardians may have about the cost of university, and we’re always here if you want to discuss your options further.

This information is for UK students only* If you are an international student go to: www.northumbria.ac.uk/feefunding

Maintenance loan
There are also other ways in which you may be able to access financial help towards the costs of living: for example, a maintenance loan (repayable) from Student Finance England or other funding bodies. If you’re a resident in the UK and are applying for a full-time course, then you may qualify for a loan. Please see www.gov.uk/student-finance for more information.

*Please note that as of January 2018, EU funding for 2019/2020 entry has not yet been confirmed. As soon as this information is available we will update the website: northumbria.ac.uk/feefunding.

The Education Minister has proposed moving the repayment threshold to £25k All financial information and prices are correct as of January 2018. Please check our website for updates.
London Campus

Our London Campus is based in the heart of the city, a world-recognised centre of enterprise and international commerce.

By choosing one of our London-based courses you can look forward to a fantastic experience as a student, combining teaching excellence with industry-focused courses and the opportunity to study in the UK’s capital.

Ranked #3 in the latest QS Best Student Cities 2017, London is one of the top student cities in any country and is home to 400,000 students in any one year.

Our campus is located in a well-known student hub near to several other university campuses, situated just minutes away from Liverpool Street station, where the financial district meets the home of the tech start-up.

Unlike many other London universities, our relatively small learning community enables us to offer a friendly and welcoming study environment.

We have a wealth of experience in catering to the needs of international students and know how to make you feel welcome in your new surroundings.

“The London Campus has a really friendly atmosphere because of its small size. Its location near Liverpool Street tube is ideal for easily getting to and from the campus.”

Ebenezer Amedieme, BA (Hons) Business (Top-up)

Open Days

Choosing a university is an important decision. One of the best ways to help you decide is to visit Northumbria and experience first-hand our vibrant city centre campus and meet our friendly staff and students. Open Days show you what’s on offer, and can usually tell you more about a university than you’ll learn from a prospectus.

Can’t make it?

If you can’t make an Open Day, take an interactive virtual tour of our campuses. Immerse yourself in Northumbria and get a feel for what it’s like to study here.

Visit northumbria.ac.uk/virtualtour

• Take a tour around our accommodation.

Visit northumbria.ac.uk/accommodation

• Get a better understanding of what it’s like to be a student at Northumbria with The Hub. The Hub is written by students for students.

Visit northumbria.ac.uk/TheHub

Friday 29 June 2018
Saturday 30 June 2018
Saturday 29 September 2018
Saturday 27 October 2018
Saturday 24 November 2018

On the day:

• Attend full-time undergraduate course sessions.

• Speak to our expert staff and current students.

• Take a tour around our award-winning campus, facilities and accommodation.

For up-to-date event information on all of our Open Days, please visit our website.

Visit us at northumbria.ac.uk/opendays

NU Experience Days

Once you’ve been made an offer, you can come and visit us, to learn about your course in more detail. Our NU Experience Days take place between January and April.

Interviews

If your course requires an interview as part of the selection process these will take place between November and April. We will contact you to arrange a suitable date.

Visit us at northumbria.ac.uk/opendays

Hello

The Hub is written by students for students – get a better understanding of what it is like to be a student at Northumbria University. Our Hubstars create articles and produce videos showing you what’s happening on campus and in the city, and share their own personal experience of university life.

Meet our undergraduate Hubstars who will guide you through your university journey.

To hear more from us visit The Hub at northumbria.ac.uk/thehub

HELLO, MY NAME’S VEE AND I’M A 2ND YEAR FINANCE AND INVESTMENT MANAGEMENT STUDENT FROM BELARUS. I’m a passionate entrepreneur, web developer and stock trader. In my spare time I always learn something new – website development, SEO and digital marketing.

HEY! I’M AMANDA, A 2ND YEAR FASHION COMMUNICATION STUDENT FROM MALAYSIA. If you love food, we can be the best of friends. I’m also the most clumsy person you’ll ever meet, tripping over my own two feet has become the norm.

HI, MY NAME’S CAMERON, I’M A FINAL YEAR BUSINESS WITH INTERNATIONAL MANAGEMENT STUDENT FROM ESSEX. I’m a big football fan so I’m usually playing or watching it. Aside from football, I keep pretty busy socialising with family and friends, and exploring what Newcastle has to offer.

HI, I’M ROB, A 1ST YEAR MEDIA AND JOURNALISM STUDENT FROM SHEFFIELD. My favourite book is The Catcher in the Rye and my favourite film is Annie Hall. I love listening to podcasts and watching the same sitcoms over and over again.
