UNIVERSITY of DEBRECEN
Undergraduate Program Description
for International Students
Why choose the University of Debrecen?

The University of Debrecen in Hungary is one of Central Europe’s top educational and research institutions. It offers a wide range of internationally recognized academic courses in Medical, Engineering, Business, IT, and Agricultural programs among many others to its 27,000 students. Debrecen is a charming and fast-developing school town in the heart of Europe.

We are highly ranked by the most prestigious higher education rankings:

- 30 in QS EECA ranking 2019
- 201-250 in THE Emerging Economies University Rankings 2019
- 201-250 in QS WUR by Subject “Agriculture&Forestry”
- 251-300 in QS WUR by Subject “Medicine”
- U-Multirank: Group 1 - very good regarding foreign language bachelor’s programs.
- 601-650 in QS World University Rankings

University facts:

- 27,000+ students
- 14 Faculties on 7 campuses
- 5,600 international students from over 110 countries
- 16:1 student/academic staff ratio
- 1,524 academic staff
- 189 international academic staff
- 100+ lecture halls
- 363 university buildings
- 500+ research labs
- 530+ practice and seminar rooms
- 135 laboratories and language labs
- 7 libraries
- 15 gyms
- 6,000,000+ library documents

We offer:

- A wide range of academic fields: Medical and Health Sciences, Agriculture, Business, Engineering, Humanities, IT, Law, Music, Natural Sciences
- Sophisticated and student-focused classes
- Research projects: students are encouraged to join ongoing research projects.

We offer you medical programs with worldwide accreditation:

- World Health Organization
- New York State Education Department
- Medical Board of California
- General Medicine Council of Great Britain
- Medical Councils of Israel, Ireland, Iran and Norway

The latest information about our programs including the most up-to-date curricula can be found online at www.edu.unideb.hu. For more information please contact us at info@edu.unideb.hu.
Contents

Foundation Programs

- Basic Medicine Courses (Pre-medical Studies) 6
- Intensive Basic Medicine Courses (Pre-medical Studies) 6
- International Foundation Year 7
- Intensive Foundation Semester 7
- English Language Courses 8
- Preparatory courses for Music 8

Undergraduate programs

Agriculture Program
- Food Engineering, BSc 12

Business Programs
- Business Administration and Management, BA 13
- Commerce and Marketing, BA 14

Engineering Programs
- Biochemical Engineering, BSc 15
- Chemical Engineering, BSc 16
- Civil Engineering, BSc 17
- Electrical Engineering, BSc 18
- Mechanical Engineering, BSc 19
- Mechatronics Engineering, BSc 20
- Professional Pilot, BSc 21

Health Programs
- Physiotherapy, BSc 22
- Public Health, BSc 23

Humanities Program
- English and American Studies, BA 26

IT Programs
- Business Informatics, BSc 27
- Computer Science, BSc 28
- Computer Science Engineering, BSc 29

Music Programs
- Musical Creative Art and Musicology, BA 30
- Classical Performing Arts (Music), BA 31

Science Programs
- Biology, BSc 32
- Chemistry, BSc 33
- Earth Sciences, BSc 34
- Geography, BSc 35
- Mathematics, BSc 36
- Physics, BSc 37

One-tier medical programs

- Dentistry, Full-time Graduate Program 40
- Medicine, Full-time Graduate Program 42
- Pharmacy, Full-time Graduate Program 43
## Basic Medicine Course (Pre-medical Studies)

**Duration:** 2 semesters (September – June)

**Aim of the program:** The one-year pre-medical Basic Medicine Course is recommended for students who do not have sufficient knowledge in biology, physics and chemistry from high school and whose scientific English proficiency is not adequate for these studies at the time of the entrance exam. The requirements in these pre-medical science subjects are rigorous, thus it is recommended that students who need a period of preparation prior to beginning the Medicine, Dentistry or Pharmacy program join the Basic Medicine Course. Students who successfully complete the course are directly admitted to their chosen program.

**Entry requirements:**
- high school certificate
- English language proficiency
- entrance examination in biology and physics/chemistry (written and oral)

**Subjects:** Biology, Chemistry, Physics

**Fees:** Application fee 150 USD, entrance procedure fee 350 USD
Tuition Fee: 7,000 USD/year

## Intensive Basic Medicine Course (Pre-medical Studies)

**Duration:** 1 semester (January - July)

**Aim of the program:** The one-semester pre-medical Basic Medicine Course is recommended for students who do not have sufficient knowledge in biology, physics and chemistry from high school. The requirements in these pre-medical science subjects are rigorous, thus it is recommended that students who need a period of preparation prior to beginning the medicine, dentistry or pharmacy program join the Basic Medicine Course. Students who successfully complete the course are directly admitted to their chosen program. The course is recommended for those students who would like to refresh their high school knowledge before starting their first year studies.

**Entry requirements:**
- high school certificate
- English language proficiency
- entrance examination in biology and physics/chemistry (written and oral)

**Subjects:** Biology, Chemistry, Physics

**Fees:** Application fee 150 USD, entrance procedure fee 350 USD
Tuition Fee: 7,000 USD/year

## International Foundation Year

**Duration:** 2 semesters (September – May)

**Aim of the program:** For students who require additional instruction or review in sciences and in English language we offer foundation year courses to prepare them to study in their chosen degree program. With a range of courses, including intensive English language instruction, the International Foundation Year bridges the gap between students’ current qualifications and background and the knowledge and skills required for honors courses. Students are provided with the necessary skills to proceed with studies in their chosen discipline. Students who are enrolled in the International Foundation Year and achieve a grade point average of at least 3.5 in the first semester and 4.0 in the second semester can enter the first year of their chosen program without taking an entrance exam.

**Language requirements:** Basic English language proficiency

**Subjects:** Basic science subjects – mathematics, biology, physics, chemistry – IT skills, general English, academic English, optional Hungarian as a foreign language

In the frame of the International Foundation Year Program students have to choose one of the following specializations, depending on which major they wish to apply for:
- Information Technology
- Physics-related Engineering
- Chemistry-related Engineering
- Business

**Fees:** Application fee 150 USD, entrance procedure fee 350 USD
Tuition Fee: 5,500 USD

## Intensive Foundation Semester

**Duration:** 5 months (February – June)

**Aim of the program:** The Intensive Foundation Semester (from February till June) is suggested for students who require additional instruction or review in sciences and English. We offer foundation courses to prepare them to study in their chosen degree program. Students who successfully finish the Intensive Foundation Semester program with a grade point average of 4.0 are guaranteed admission into any engineering, IT or business program.

**Language requirements:** Basic English language proficiency

**Subjects:** The preparation of foreign students, to enable them to successfully learn subjects at the University of Debrecen, is carried out according to the curriculum of the foundation year. During this time, several subjects will be taught to students: general English, academic English, optional Hungarian as a foreign language, mathematics, IT skills, and optionally - depending on prospective studies - biology, chemistry, and physics.

**Fees:** Application fee 150 USD, entrance procedure fee 350 USD
Tuition Fee: 3,300 USD
English Language Course

Aim of the program: We offer English Language Courses to students whose knowledge of English is not sufficient to be enrolled in the International Foundation Year or any other program but who are NOT applying for medicine or dentistry. After the completion of the first semester of the language course students can either continue with the second semester of the language course starting in February or start the Intensive Foundation Semester, during which they can study the subjects necessary for the entrance exam of their chosen discipline.

The tuition fee for the Intensive Foundation Semester is 3,300 USD.

Preparatory courses for Music

Aim of the program: The objective of these preparatory courses is to prepare foreign students for the requirements of entry tests to Hungarian higher education institutions of music. Apart from systematizing their thus far acquired music knowledge and experience, they can improve their musical skills and theoretical knowledge and meet the requirements of pursuing their studies in higher education (BA or MA).

Entry requirements:
- High school certificate
- Certificate of musical pre-training
- English language proficiency
- Entrance examination (more information: www.music.unideb.hu)

Starting date: September

Period of training: 2 semesters (September-December and January-April)

Commerce and Marketing, BA

Academic discipline: Economic Sciences
Degree: Bachelor of Arts (BA)
Qualification: Economist in Commerce and Marketing
Duration: 7 semesters
Credits obtained: The bachelor’s degree requires the completion of 180+30 credits.

Aim of the program: The aim of the program is to prepare specialists in economics and business with commerce and marketing competence and skills, who are able to procure and market various products and services, and organize and manage commercial activities of small and medium enterprises.

Entry requirements:
- high school certificate
- English language proficiency (TOEFL 513 / IELTS 5.5/oral examination)
- entrance examination in mathematics and English (written and oral)

Fees:
- Tuition Fee: 6,000 USD/year

Internship, practice: Students should complete a semester long practice at a multinational or local company, or at a non-profit organization.

Career prospects:
- Graduates may go on to a variety of subject-specific careers in advertising, public relations, or account, brand, marketing or sales management.
- The program provides students with the necessary background knowledge to continue with the second (MA) and later the third (PhD) phases of training.

Fees:
- Application fee 150 USD, entrance procedure fee 350 USD
- Tuition Fee: 6,000 USD/year

Main subjects typically include (this list is indicative and may change):

<table>
<thead>
<tr>
<th>Year</th>
<th>Main subjects</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>Enterprise Resource Planning Systems, Economics of Trade, Organizational Behavior, Product and Brand Management, Pricing in Marketing, Services Marketing, Planning and Analysis of Marketing Channels, International Marketing, Advertising and Advertising Planning, Non-profit and SME Marketing</td>
</tr>
<tr>
<td>4</td>
<td>Business Practice, Thesis</td>
</tr>
</tbody>
</table>

Career prospects:
Graduates can choose from a wide range of career opportunities in different areas related to engineering.

Fees:
- Application fee 150 USD, entrance procedure fee 350 USD
- Tuition Fee: 6,000 USD/year

Biochemical Engineering, BSc

Academic discipline: Engineering Science
Degree: Bachelor of Science (BSc)
Qualification: Biochemical Engineer (with Bachelor of Science degree)
Duration: 7 semesters
Credits obtained: The bachelor’s degree requires the completion of 210 credits.

Aim of the program: The aim of the program is to enable students to be competent in all fields of biotechnology by providing them with deep theoretical knowledge and practical skills (engineering and technological). Students will experience laboratory and manufacturing practices for themselves that a biochemical engineer might encounter in everyday work. Students will get acquainted with the equipment and apparatus used in the biotechnological industry and understand their optimal operation.

Entry requirements:
- high school certificate
- English language proficiency (TOEFL 513 / IELTS 5.5/oral examination)
- entrance examination in mathematics and chemistry (written and oral)

Fees:
- Application fee 150 USD, entrance procedure fee 350 USD
- Tuition Fee: 6,000 USD/year

Main subjects typically include (this list is indicative and may change):

<table>
<thead>
<tr>
<th>Year</th>
<th>Main subjects</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Introduction to Economics, EU Studies, Mathematics, Introduction to Physics, General Chemistry, Introduction to Cell Biology, Basic Engineering Management of Value Creating Processes, Civil Law, Mathematics, Organic Chemistry, Biochemistry, General Microbiology and Mycology, Mechanical engineering, Animal Genetics</td>
</tr>
<tr>
<td>2</td>
<td>Macroeconomics, Biochemistry, Organic Chemistry, Microbiology, Methods in Molecular Biology, Informatics for Engineers, Unit operations, Environmental Technology, Visits to Biotech Companies, Microbial Physiology, Genetics, Physical Chemistry, Process control, Biopharmaceuticals, Bioprocess Engineering, Environment Impact Assessment</td>
</tr>
<tr>
<td>3</td>
<td>Marketing, Civil Law, Bioinformatics, Microbial Physiology Practice, Analytical Chemistry, Bioprocess Engineering, Plant Biochemistry and Molecular Biology, Plant Physiology, Genetics, Bio-Physical Chemistry, Colloid and Surface Chemistry, Methods in Spectroscopy, Computer Modeling of Chemical Technology Systems, Process control, Analytical chemistry, Unit operations, Plant Pathology</td>
</tr>
<tr>
<td>4</td>
<td>Introduction to Business, Quality Management, Computer Modeling of Chemical Technology Systems, Unit operations, Safety, Research Techniques in Plant Biology, Thesis</td>
</tr>
</tbody>
</table>

Internship, practice: Students should complete a 6-week practice at a company or research institute related to engineering.

Career prospects:
Graduates can choose from a wide range of career opportunities in different areas of biotechnology according to their field of interest. They can choose to work either in theoretical or practical areas. They will also have the opportunity to work in the field of research and development.

Fees:
- Application fee 150 USD, entrance procedure fee 350 USD
- Tuition Fee: 6,000 USD/year
Chemical Engineering, BSc

**Academic discipline:** Engineering Science  
**Degree:** Bachelor of Science (BSc)  
**Qualification:** Chemical Engineer  
**Duration:** 7 semesters  
**Credits obtained:** The bachelor’s degree requires the completion of 210 credits.  
**Aim of the program:** The objective of the program is to train professionals who possess the foundational knowledge and technical skills that comprise the natural, social and chemical engineering sciences. Students acquire the most essential skills in technology and safety, environmental protection, management, and social sciences. Concrete practical methods as well as the capability to apply acquired skills will help them to get accustomed to the professional requirements and standards of their future workplace. They will be capable of understanding and controlling production processes, providing quality assurance and technical services, and solving tasks regarding planning and development.  
**Entry requirements:**  
- high school certificate  
- English language proficiency (TOEFL 513 / IELTS 5.5/oral examination)  
- entrance examination in mathematics and chemistry (written and oral)  

**Lecture, Seminar:** 53%  
**Practice:** 47%  

**Main subjects typically include (this list is indicative and may change):**

<table>
<thead>
<tr>
<th>Year</th>
<th>Main subjects</th>
</tr>
</thead>
<tbody>
<tr>
<td>2</td>
<td>Organic Chemistry, Physical Chemistry, Informatics for Engineers, Mechanics for Chemical Engineers, Unit Operations, Macromolecular Chemistry, Colloid Chemistry, Biochemistry, Process Control, Chemical Technology</td>

<td>Qualitative and Quantitative Analysis, Materials of Construction, Process Control, Mechanics for Chemical Engineers, Unit Operations, Chemical Technology, Business and Investment Organization, Instrumental Methods of Analysis, Plastics and Processing, Computer Modeling of Chemical Technology Systems, Environmental Technology, Pilot Plant Work</td>
</tr>
<tr>
<td>4</td>
<td>Computer Modeling of Chemical Technology Systems, Safety, Thesis</td>
</tr>
</tbody>
</table>

**Internship, practice:** Students should complete a 6-week practice at a company or research institute.  
**Career prospects:** Graduate study opportunities:  
- MSc programs in development: chemistry, chemical engineering, MSc in materials engineering, MSc in materials science, environmental engineering, environmental science, bioengineering  
- PhD in chemistry  
**Fees:** Application fee 150 USD, entrance procedure fee 350 USD  
Tuition Fee: 6,000 USD/year

Civil Engineering, BSc

**Academic discipline:** Engineering Science  
**Degree:** Bachelor of Science (BSc)  
**Qualification:** Civil Engineer  
**Duration:** 8 semesters  
**Credits obtained:** The bachelor’s degree requires the completion of 240 credits.  
**Aim of the program:** The objective of the Civil Engineering BSc program is to train civil engineers who are capable of solving complex plan, design, management, operational and construction problems related to civil engineering in the public sector and private industry. Graduates will possess a potential for leadership, an ability to communicate effectively and a capacity to work in a team.  
**Entry requirements:**  
- high school certificate  
- English language proficiency (TOEFL 513 / IELTS 5.5/oral examination)  
- entrance examination in mathematics and physics (written and oral)  

**Lecture, Seminar:** 49%  
**Practice:** 51%  

**Main subjects typically include (this list is indicative and may change):**

<table>
<thead>
<tr>
<th>Year</th>
<th>Main subjects</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>Bridges &amp; Structures, Geotechnics, Thesis</td>
</tr>
</tbody>
</table>

**Internship, practice:** Students should complete at least a 6-week practice at a company.  
**Career prospects:** A civil engineering degree prepares you for work in the construction industry as well as in the business, management and financial sectors. Jobs directly related to the degree include: building control surveyor, consulting civil engineer, contracting civil engineer, design engineer, structural engineer, building services engineer, construction manager.  
**Fees:** Application fee 150 USD, entrance procedure fee 350 USD  
Tuition Fee: 6,500 USD/year
### Electrical Engineering, BSc

<table>
<thead>
<tr>

<td>Information Technology specialization, Automation specialization.</td>
</tr>
<tr>
<td>Duration:</td>
<td>7 semesters</td>
</tr>
<tr>
<td>Credits obtained:</td>
<td>The bachelor's degree requires the completion of 210 credits.</td>
</tr>
<tr>
<td>Aim of the program:</td>
<td>The program provides a comprehensive education that prepares students for a successful engineering practice and/or advanced studies. Students learn about the basic physical laws governing our environment, about material science and technology at the micro- and nanometer level, as well as mathematics and informatics. They acquire practical knowledge in computer engineering and electronic technology, microelectronics and energy systems, optical materials and automation. Apart from basic and applied knowledge, students will be trained in e-commerce, planning, and solving and managing problems efficiently.</td>
</tr>
</tbody>
</table>
| Entry requirements: | - high school certificate  
- English language proficiency (TOEFL 513 / IELTS 5.5/oral examination)  
- entrance examination in mathematics and physics (written and oral) |
| Lecture, Seminar: Practice: | 52%  
48% |

**Main subjects typically include (this list is indicative and may change):**

<table>
<thead>
<tr>

<td>Mathematics, Physics, Materials Science for Electrical Engineering, Informatics, Programming, Electricity, Introduction to Measurements and Instrumentation, Electronics</td>
</tr>
<tr>
<td>4</td>
<td>Economics of Enterprises, Thesis</td>
</tr>
</tbody>
</table>

**Internship, practice:** The summer practice should be carried out at an external professional institution.

**Career prospects:** An electrical engineer designs, develops and maintains electrical control systems and components according to required specifications. Graduates can occupy a variety of roles in engineering consultancies, manufacturing, automotive and railway engineering, steel manufacturing, or water companies. Most electrical engineers work in multidisciplinary project teams, which are likely to include engineers from other specialist areas as well as architects, marketing and sales staff, manufacturers, technicians and customer service personnel.

**Fees:** Application fee 150 USD, entrance procedure fee 350 USD

**Tuition Fee:** 6,000 USD/year

### Mechanical Engineering, BSc

<table>
<thead>

**Internship, practice:** Students should complete a 6-week practice at a production company.

**Career prospects:** Mechanical engineering graduates are sought by employers in almost all sectors of the engineering industry including the automotive industry, chemicals industry, construction industry, materials and metals industry, oil and gas industry, power generation industry, rail industry, and utilities industry.

**Fees:** Application fee 150 USD, entrance procedure fee 350 USD

**Tuition Fee:** 6,500 USD/year
### Mechatronics Engineering, BSc

**Academic discipline:** Engineering Science  
**Degree:** Bachelor of Science (BSc)  
**Qualification:** Mechatronics Engineer  
**Specialization:** Specialization in Mechatronic Systems  
**Duration:** 7 semesters  
**Credits obtained:** The bachelor's degree requires the completion of 210 credits.  
**Aim of the program:** The objective of the program is to train mechatronics engineers who have the competence to combine engineering with electronics, electrotechnics, and computer control in a synergetic way. Students will able to complete routine design, operation, and maintenance of mechatronic equipment and processes, to introduce and apply mechatronic technologies, to organize energy-efficient and environmental process production and management, and to complete average tasks in engineering development and design considering the needs of the international labour market.  
**Entry requirements:**  
- high school certificate  
- English language proficiency (TOEFL 513 / IELTS 5.5/oral examination)  
- entrance examination in mathematics and physics (written and oral)  
**Lecture, Seminar:**  
- English language proficiency  
- entrance examination in mathematics and physics  
**Practice:**  
- English language proficiency  
- entrance examination in mathematics and physics  

**Main subjects typically include (this list is indicative and may change):**

<table>
<thead>
<tr>
<th>Year</th>
<th>Main subjects</th>

</tr>
<tr>
<td>4</td>
<td>Project of Mechatronics, Thesis</td>
</tr>
</tbody>
</table>

**Internship, practice:** Students should complete a 6-week practice at a production company.  
**Career prospects:** Mechatronics engineering has a wide range of application in the business and industrial sectors. Graduates of mechatronics engineering can work in the fields of robotics, nanotechnology, automation, aircraft engineering, oceanography, oil and gas industry, biomedical systems, transport, and computer-aided design.  
**Fees:** Application fee 150 USD, entrance procedure fee 350 USD  
**Tuition Fee:** 6,500 USD/year  

---

### Professional Pilot, BSc

**Academic discipline:** Engineering Science  
**Degree:** Bachelor of Science (BSc)  
**Qualification:** Professional Pilot  
**Duration:** 7 semesters  
**Credits obtained:** The bachelor's degree requires the completion of 210 credits.  
**Aim of the program:** The main objective of the professional pilot program is to give the applicants the knowledge and skills that make the passing of the ATPL (Airline Transport Pilot License) integrated training manual and academic licensing of the National Transport Authority and Aviation Authority possible without any further education. Our aim is to train professionals who are capable of working for aviation companies as professional pilots, who understand aviation, traffic, air operation and ground handling assignments and tasks, who can manage valid quality control tasks, and who have met requirements of the ATP (Airline Transport Pilot, Aircraft) integrated training. Our future graduates understand and excel in the usage of the English language professionally as per the 1178/2011(2011.11.03.) EU ordinate.  
**Entry requirements:**  
- Entry requirements: 12 years of education with grades 80% or above, or grades BBB at A level including mathematics and physics  
- Language requirements: English IELTS 6.0 or equivalent  
- Health: valid Class 1 Medical Certificate (see on EASA website)  
**Lecture, Seminar:**  
- Health: valid Class 1 Medical Certificate (see on EASA website)  
- Language requirements: English IELTS 6.0 or equivalent  
**Practice:**  
- Entry requirements: 12 years of education with grades 80% or above, or grades BBB at A level including mathematics and physics  
- Language requirements: English IELTS 6.0 or equivalent

**Internship, practice:** Professional Pilot BSc students have to complete three summer internships lasting three, four, and five weeks.  
**Career prospects:** Those who pursue this degree program will be able to fly an aircraft in civil aviation, hold a management position in a department (e.g. flight operations, ground operations, flight safety, or compliance manager) after further training and considerable amount of practice or manage flights as an instrument-rated commercial pilot (with commercial pilot licence/instrument rating, CPL/IPL) in accordance with aviation regulations and rules of the air. The degree offers the opportunity to advance to master's level study.  
**Fees:** Application fee 150 USD, entrance procedure fee 350 USD  
**Tuition Fee:** 10,000 USD (full program with type rating)
### Physiotherapy, BSc

**Academic discipline:** Medical and Health Sciences  
**Degree:** Bachelor of Science (BSc)  
**Qualification:** Physiotherapist  
**Duration:** 8 semesters  
**Credits obtained:** The bachelor’s degree requires the completion of 240 credits.  
**Aim of the program:** The curriculum of the BSc in physiotherapy program aims to prepare students for the prevention, treatment and rehabilitation of movement system disorders and other diseases using the therapeutic tools of physiotherapy.  
**Entry requirements:**  
- high school certificate  
- English language proficiency (CEFR level B2, assessed at the compulsory entrance interview)  
**Lecture, Seminar Practice:**  
- English language proficiency (CEFR level B2, assessed at the compulsory entrance interview)

## Business Informatics, BSc

<table>
<thead>
<tr>
<th>Academic discipline:</th>
<th>Computer Science and Information Technology</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree:</td>
<td>Bachelor of Science (BSc)</td>
</tr>
<tr>
<td>Qualification:</td>
<td>Business Informatics Engineer</td>
</tr>
<tr>
<td>Duration:</td>
<td>7 semesters</td>
</tr>
<tr>
<td>Credits obtained:</td>
<td>The bachelor’s degree requires the completion of 210 credits.</td>
</tr>
<tr>
<td>Aim of the program:</td>
<td>The Business Informatics BSc program trains professionals who bridge the gap between the developers of business software and their users. During their training students learn how to implement their knowledge in the fields of economics and IT. As a result, they will be able to understand both software development and business and financial processes, and consequently, after graduation they will be able to solve business problems supported by info-communication technologies and to operate business IT systems. Moreover, they will be able to cooperate with economics and business professionals, partners, and software developers. This major prepares business informatics students for working in a business environment rich in data and enables them to acquire certification in business information technology. Besides this, students have the opportunity to study the most important modules of software produced by SAP, the top company producing business management software. Such knowledge will give students a profitable advantage in the labor market.</td>
</tr>
</tbody>
</table>
| Entry requirements:  | - high school certificate  
- English language proficiency (TOEFL 533 /IELTS 5.5/oral examination)  
- entrance examination in mathematics (written and oral) |
| Lecture, Seminar:    | 49% |
| Practice:            | 51% |

</table>

<table>
<thead>
<tr>
<th>Internship, practice:</th>
<th>Students should complete an 8-week internship either at the university working on research projects or at a multinational or local company.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Career prospects:</td>
<td>The following career prospects are the most probable company management system supporter, business analyzer, financial report developer, system administrator, business data system developer and tester. A successful applicant for a position should be excellent at such basic technologies as MySQL or MS SQL database, Unix/Linux, and Windows operating systems. After gaining appropriate experience business informatics graduates can succeed in applying for the position of manager at smaller enterprises.</td>
</tr>
</tbody>
</table>

### Fees:

- Application fee 150 USD, entrance procedure fee 350 USD
- Tuition Fee: 6,000 USD/year
Computer Science, BSc

**Academic discipline:** Computer Science and Information Technology

**Degree:** Bachelor of Science (BSc)

**Qualification:** Computer Scientist

**Duration:** 6 semesters

**Credits obtained:** The bachelor's degree requires the completion of 180 credits.

**Aim of the program:** Computer Science BSc students acquire knowledge that enables them to create, introduce, operate, service, develop and implement software-oriented IT devices and systems on their own or as members of a team. They learn how to design, analyse and develop algorithms using the most important paradigms, and study basic software development methodologies and technologies. They receive instruction in the skills of data modelling and designing, creating and modifying databases; furthermore, they will learn the use of SQL and will be capable of applying the methods and tools of artificial intelligence, logical programming, using divided systems, and developing websites. The theoretical and practical knowledge that students acquire during their studies makes it possible for them to start MSc courses. The ones who decide to start working after graduation will most likely develop and operate mobile, desktop, server web and multimedia applications and IT systems.

**Entry requirements:**
- high school certificate
- English language proficiency (TOEFL 513 / IELTS 5.5/oral examination)
- entrance examination in mathematics (written and oral)

**Lecture, Seminar:**
- 51%
- 49%

**Practice:**
- 50%

**Main subjects typically include (this list is indicative and may change):**

<table>
<thead>
<tr>
<th>Year</th>
<th>Main subjects</th>
</tr>
</thead>
</table>

**Internship, practice:** Students should carry out an 8-week internship either at the university working in research projects or at a multinational or local company.

**Career prospects:** Computer Science BSc graduates can find positions as junior software developers at software development companies where C, C++, Java, Javascript, C#, .NET, PHP, Python, SQL, etc. are required. In some years, after gaining practical experience they can become senior software developers, or they can specialize in different fields such as mobile development, databases, IT system programming, graphics development, game programming, etc. In the long run they can be promoted to management positions provided they are suitable for such positions and they take part in post-graduate trainings.

**Fees:**
- Application fee 150 USD, entrance procedure fee 350 USD
- Tuition Fee: 6,000 USD/year

---

Computer Science Engineering, BSc

**Academic discipline:** Computer Science and Information Technology

**Degree:** Bachelor of Science (BSc)

**Qualification:** Computer Science Engineer

**Duration:** 7 semesters

**Credits obtained:** The bachelor's degree requires the completion of 210 credits.

**Aim of the program:** The Computer Science Engineer BSc belongs to the field of informatics training; however, it is also characterized by engineering approach. Computer science engineer BSc students acquire appropriate knowledge that enables them to implement and operate information and technical information systems and services, and to carry out developments on them. They study the technical elements of information and infrastructure systems such as computers, telecommunication networks, embedded systems, measurement and management technology solutions, and operating systems. They also study practical engineering methods, the application of software development methodology, and the use of development tools.

**Entry requirements:**
- high school certificate
- English language proficiency (TOEFL 513 / IELTS 5.5/oral examination)
- entrance examination in mathematics and physics (written and oral)

**Lecture, Seminar:**
- 50%
- 50%

**Practice:**
- 50%

**Main subjects typically include (this list is indicative and may change):**

<table>
<thead>
<tr>
<th>Year</th>
<th>Main subjects</th>

<tbody>
<tr>
<td>4</td>
<td>Sensors and Actuators Network, Thesis</td>
</tr>
</tbody>
</table>

**Internship, practice:** Students should complete an 8-week internship either at the university working on research projects or at a multinational or local company.

**Career prospects:** There has been a great demand for Computer Science Engineer BSc graduates in the labour market for years. They can easily find work in the sectors of production, services, civil service, banking, commerce, or enterprises. According to their specialization, they can choose to work as system designers and developers, programmers, software developers, web designers, data-base developers, corporate management IT professionals, or system administrators.

**Fees:**
- Application fee 150 USD, entrance procedure fee 350 USD
- Tuition Fee: 6,000 USD/year
### Musical Creative Art and Musicology, BA

<table>
<thead>
<tr>
<th><strong>Degree:</strong></th>
<th>Bachelor of Arts (BA)</th>
</tr>
</thead>
</table>
| **Qualification:** | Music Theoretician  
Music Assistant |
| **Specialization:** | Music Theory  
General Studies in Music |
| **Duration:** | 6 semesters |
| **Credits obtained:** | The bachelor's degree requires the completion of 180 credits. |
| **Aim of the program:** | The BA in musical creative art and musicology aims to educate musicians who  
- with their performing skills, theoretical knowledge, and highly developed musical abilities - enrich and spread Hungarian and European music culture. They can enrich the repertoire of musical knowledge with sophisticated music taste and are able to work in music institutions and at other occupations which require music education. |
| **Entry requirements:** | - high school certificate  
- English language proficiency  
- entrance examination (more information: www.music.unideb.hu) |
| **Main subjects typically include (this list is indicative and may change):** | Main subjects  
Other subjects |
| **Career prospects:** | Graduates are able to work at music institutions and at other occupations which require music education. Having achieved a high standard of knowledge, they can continue their studies in one of the MA specializations. |
| **Fees:** | Application fee 150 USD, entrance procedure fee 350 USD  
Tuition fee: 8,500 USD/year |

### Classical Performing Arts (Music), BA

<table>

Tuition Fee: 8,500 USD/year |
Biology, BSc

- **Academic discipline:** Natural Sciences
- **Degree:** Bachelor of Science (BSc)
- **Qualification:** Biologist (with Bachelor of Science Degree)
- **Duration:** 6 semesters
- **Credits obtained:** The bachelor’s degree requires the completion of 180 credits.
- **Aim of the program:** The aim of the program is to provide students with basic knowledge in the most important biological fields. Students will attain skills in the fundamental methods of laboratory and applied biology and come to understand the most important processes of biochemistry, cytology, and components of living organisms. The Biology BSc program covers a broad range of biological science including the most important concepts in modern biology, the biological levels of organization, the fundamental principles of structure and function and the development of ecosystems.

**Entry requirements:**
- high school certificate
- English language proficiency (TOEFL 513 / IELTS 5.5/oral examination)
- entrance examination in Biology, Mathematics (written and oral)

**Lecture, Seminar:** 58%
**Practice:** 42%

**Internship, practice:** Students should complete a 6-week practice at a company or research institute.

**Career prospects:** Graduates may go on to a variety of subject-specific careers in research laboratories, educational institutions, hospitals, clinics, environmental agencies, and pharmaceutical, food, agricultural and chemical companies. Graduate study opportunities: MSc programs: molecular biology, biology, bioengineering, environmental science.

**Fees:** Application fee 150 USD, entrance procedure fee 350 USD
Tuition Fee: 6,000 USD/year

---

Chemistry, BSc

- **Academic discipline:** Natural Sciences
- **Degree:** Bachelor of Science (BSc)
- **Qualification:** Chemist (with Bachelor of Science Degree)
- **Duration:** 6 semesters
- **Credits obtained:** The bachelor’s degree requires the completion of 180 credits.
- **Aim of the program:** The aim of this study program is the training of chemists possessing theoretical and practical knowledge in chemistry as well as satisfactory basic knowledge in related fields of science (e.g., mathematics, physics, informatics, biology) and at least one foreign language. Degree holders will be able to apply their knowledge in recognizing and solving practical problems in industrial chemical production, in analytical, agricultural, and quality assurance laboratories, as well as in various fields of administration and environmental protection.

**Entry requirements:**
- high school certificate
- English language proficiency (TOEFL 513 / IELTS 5.5/oral examination)
- entrance examination in chemistry, mathematics (written and oral)

**Lecture, Seminar:** 61%
**Practice:** 39%

<td>Mathematics, Physics for Engineers, History and Structure of the EU, Environmental Science, Basic Chemical Informatics, General Chemistry, Topics in Modern Chemistry, Inorganic Chemistry, Organic Chemistry, Introductory Physical Chemistry Laboratory, Nuclear Chemistry</td>
</tr>
</tbody>
</table>

**Internship, practice:** N/A

**Career prospects:** Graduates with a bachelor’s degree in chemistry will find themselves qualified for entry-level positions as clinical laboratory technologists, chemists, or materials scientists. Graduate study opportunities: MSc programs in chemistry, chemical engineering, molecular biology.

**Fees:** Application fee 150 USD, entrance procedure fee 350 USD
Tuition Fee: 6,000 USD/year
Earth Sciences, BSc

Academic discipline: Natural Sciences
Degree: Bachelor of Science (BSc)
Qualification: Earth Scientist
Duration: 6 semesters
Credits obtained: The bachelor’s degree requires the completion of 180 credits.
Aim of the program: Earth scientists research the specific and complex earth system, studying its composition, structure, history, material and energy flow and transformation processes, raw material and energy resources to be utilized, and values to be protected together with features and processes that may prove to be hazardous for mankind. Earth scientists aim to understand both the long-term and short-term results of global and regional natural and anthropogenic processes. The numerous applied fields of earth sciences (e.g. raw material exploration, water supply protection, volcanology, seismology, weather forecasting, alternative and renewable energy resources) fundamentally influence the quality of our everyday life, as well as technology in our civilization and our relationship with the natural environment.
Entry requirements:
- high school certificate
- English language proficiency (TOEFL 513 / IELTS 5.5/oral examination)
- entrance examination in Geography and Mathematics (written and oral)
Lecture, Seminar: 65%
Practice: 35%
Main subjects typically include (this list is indicative and may change):
Year | Main subjects
--- | ---
2 | Structural Geology, Physical Geography, Cartography, Biogeography, Atmospheric Resources Hydrology and Hydrogeology, Geology and Physical Geography, Climate
3 | Geothermics, Surface Analyses, Thesis
Internship, practice: Students should complete a 2-6-week practice at an external company, institution, or research laboratory.
Career prospects: With a Bachelor of Science (BSc) in earth sciences, students can find a position in a number of sectors and industries including environmental consulting firms, oil companies, or research institutes.
Fees: Application fee 150 USD, entrance procedure fee 350 USD, Tuition Fee: 6,000 USD/year

Geography, BSc

Academic discipline: Natural Sciences
Degree: Bachelor of Science (BSc)
Qualification: Geographer
Duration: 6 semesters
Credits obtained: The bachelor’s degree requires the completion of 180 credits.
Aim of the program: The geography BSc program trains professional geographers who have deep insight into spatial processes. Relying on their strong geoinformatical knowledge base, graduates of the program are able to understand natural, environmental, technical and social phenomena and to develop applied science-based solutions.
Entry requirements:
- high school certificate
- English language proficiency (TOEFL 513 / IELTS 5.5/oral examination)
- entrance examination in Geography and Mathematics (written and oral)
Lecture, Seminar: 61%
Practice: 39%
Main subjects typically include (this list is indicative and may change):
Year | Main subjects
--- | ---
2 | Structural Geology, Physical Geography, Biogeography, Atmospheric Resources Hydrology and Hydrogeology, Geology and Physical Geography, Climate
Internship, practice: Students should complete a 6-week practice at an external company or institution.
Career prospects: Graduates can choose from a wide range of career opportunities including working as an environment assistant for the Environment Agency, government researcher, resource planner, or in business development.
Fees: Application fee 150 USD, entrance procedure fee 350 USD, Tuition Fee: 6,000 USD/year
Mathematics, BSc

Academic discipline: Natural Sciences
Degree: Bachelor of Science (BSc)
Qualification: Mathematician
Duration: 6 semesters
Credits obtained: The bachelor’s degree requires the completion of 180 credits.

Aim of the program: The program provides students with knowledge of basic elements of the most important mathematical fields. Students of mathematics will attain skills in fundamental methods of applied mathematics which are useful for technical, economical, statistical and computer modeling. The Mathematics BSc program provides a standard of knowledge and competence to students that will make them eligible for second cycle course units or degree programs.

Entry requirements: - high school certificate
- English language proficiency (TOEFL 513 / IELTS 5.5/oral examination)
- entrance examination in mathematics (written and oral)

Lecture, Seminar: 62%
Practice: 38%

Main subjects typically include (this list is indicative and may change):

<table>
<thead>
<tr>
<th>Year</th>

<td>Algebra, Number Theory, Differential and Integral Calculus, Computer Geometry, Linear Programming, Differential and Integral Calculus in Several Variables, Measure and Integral Theory, Applied Number Theory, Algorithms in Algebra and Number Theory, Numerical Analysis</td>
</tr>
</tbody>
</table>

Internship, practice: N/A
Career prospects: A mathematician can be employed in various industries. Undergraduate and master’s degrees will suffice for most government and teaching jobs in this fast-growing field, and doctorates allow for research positions at private businesses. Graduate study opportunities: MSc in mathematics, MSc in applied mathematics, MSc in software engineering.
Fees: Application fee 150 USD, entrance procedure fee 350 USD Tuition Fee: 6,000 USD/year

Physics, BSc

Academic discipline: Natural Sciences
Degree: Bachelor of Science (BSc)
Qualification: Physicist (with Bachelor of Science degree)
Duration: 6 semesters
Credits obtained: The bachelor’s degree requires the completion of 180 credits.

Aim of the program: Students of the Physics BSc program obtain a thorough training in subject areas pertaining to Physics – from mechanics to particle physics. They learn about the physical laws governing our environment and get acquainted with the basic constituents and structure of matter. During the BSc program they acquire practical knowledge in physics, computing, and technology. Apart from learning about physics, students will learn how to think and plan logically and solve problems efficiently.

Entry requirements: - high school certificate
- English language proficiency (TOEFL 513 / IELTS 5.5/oral examination)
- entrance examination in mathematics and physics (written and oral)

Lecture, Seminar: 64%
Practice: 36%

Main subjects typically include (this list is indicative and may change):

<table>
<thead>
<tr>
<th>Year</th>
<th>Main subjects</th>
</tr>
</thead>
<tbody>
<tr>

<td>Mathematics in Physics, Basics of Measurement and Evaluation, Differential and Integral Calculus, Linear Algebra, Classical Mechanics, Basic Computer Skills in Physics, Thermodynamics, Thermodynamics practicals, Optics, Mechanics, Laboratory practical mechanics, Optics, Thermodynamics, Differential and Integral Calculus of Multivariable Functions</td>
</tr>
<tr>
<td>3</td>
<td>Introduction to Electronics, Condensed Matter, Quantum Mechanics, Nuclear Physics, Basic Environmental Sciences, Statistical Physics, Statistical Physics practicals, Fundamental Interactions, Atom and Nuclear Physics laboratory work, Thesis</td>
</tr>
</tbody>
</table>

Internship, practice: Students should complete a 6-week practice at an external company or institution.
Career prospects: The solid basic education in natural sciences that our Physics BSc program provides is a foundation for further studies not only in physics, chemistry, and biology, but also in engineering, informatics, and economics.
Fees: Application fee 150 USD, entrance procedure fee 350 USD Tuition Fee: 6,000 USD/year
One-tier medical programs
Dentistry, DMD

Academic discipline: Medical and Health Science
Degree: Master degree in Dentistry (MSc)
Qualification: "Dentist". The certificate is a document verifying the awarding of a dental degree, abbreviated as dr. med. dent. (D.M.D.)
Duration: 10 semesters
Credits obtained: Minimum number of credits needed to earn the D.M.D. degree: 300 credits.

Aim of the program: The five year program has been carefully structured and designed to ensure the high standard of knowledge, skills, and responsibility of dental surgeons. To treat patients successfully and safely students must have sufficient motor skills to work with hand and electric instruments. Students must be able to perform palpation, percussion, auscultation and other diagnostic procedures. Students must have reliable gross and fine motor skills, sense of touch and vision. Students are required to be capable of operating all dental equipment, including both high- and low-speed handpieces. Students must be able to take an accurate dental and medical history from the patient. Students must be able to analyze and interpret X-ray and radiographic images necessary for proper diagnosis. Students must be able to perform a visual and tactile dental examination including the observation shape, color, and abnormalities both extra and intraorally. Students must have reliable gross and fine motor skills, sense of touch and vision. Students are required to be capable of operating all dental equipment, including both high- and low-speed handpieces. Students must be able to take an accurate dental and medical history from the patient. Students must be able to analyze and interpret X-ray and radiographic images necessary for proper diagnosis. Students must be able to perform a visual and tactile dental examination including the observation shape, color, and abnormalities both extra and intraorally.

Entry requirements: - high school certificate - entrance examination in biology and physics/chemistry (written and oral) or successful completion of the Basic Medicine Course at the University of Debrecen

Lecture, Seminar: 42%
Practice: 58%

Internship, practice: - Summer practices - In the course of the fourth and fifth year students complete their clinical practice, while they treat patients of various departments

Career prospects: The degree is accepted in the entire EU and several other countries around the world. Access to further study: Ph. D. studies, specialization. Specialist training is available in the disciplines of: restorative and prosthetic dentistry, orthodontics, pediatric dentistry, periodontology, dento-alveolar oral surgery, and maxillofacial oral surgery.

Fees: Application fee 150 USD, entrance procedure fee 350 USD
Tuition Fee: 16,000 USD/year (plus a fee of 2,200 USD/year or 1,200 USD/semester from the 3rd year on covering the costs of materials)
Medicine, MD

**Academic discipline:** Medical and Health Science

**Degree:** Master degree in Medicine (MSc)

**Qualification:** “Doctor of Medicine”. The certificate is a document verifying the awarding of a medical degree, abbreviated as dr. med. (M.D.)

**Duration:** 12 semesters

**Credits obtained:** Minimum number of credits needed to earn the M.D. degree: 360 credits.

**Aim of the program:** The objectives of the six-year Medicine program are determined by well-established standards of medical education and designed to reflect the unique strengths and goals of University of Debrecen Faculty of Medicine. We aim to train medical doctors who, based on the acquisition of knowledge, professional skills, medical skills and attitude during their training, will be able to take part in activities pertaining to the functioning of the healthcare system by performing particular jobs as part of their professional commitment. Our graduates will demonstrate dedication to compassionate care, advocacy, and service. They will have both the knowledge and skills to enroll in a first and/or a second postgraduate specialist medical training program and, following a successful exam in a specialty field, will continue their career of the chosen specialty by working as specialists; in possession of the required theoretical knowledge and practical skills, they will become successful candidates for training at PhD schools.

**Entry requirements:**
- high school certificate
- entrance examination in biology and physics/chemistry (written and oral) or successful completion of the Basic Medicine Course at the University of Debrecen

**Lecture, Seminar:** 38%

**Practice:** 62%

**Main subjects typically include (this list is indicative and may change):**

Hungary and the city of Debrecen

**Country info:**
Hungary is a European Union member country located in Central Europe. The country shares borders with Austria, Slovakia, Ukraine, Romania, Serbia, Croatia and Slovenia. Its population is ca. 10 million.

**City info:**
With 204,000 inhabitants, Debrecen is the second-largest city in Hungary. Debrecen has a small-town feel, with all a big city has to offer. A variety of cozy restaurants with local and international cuisine, cafés, wine bars, and ruin pubs add to the “taste” of life in Debrecen.

**City life:**
Debrecen offers year-round high-quality programs including festivals, concerts, and all sorts of sports events.

Main attractions and places to visit:
- Great Forest of Debrecen and Lake Békás
- Aquaticum Spa and Wellness Centre w/ Mediterranean Aqua Park
- Kölcsey Convention Center – the largest conference center of Eastern Hungary (capacity: 1,150 people)
- MODÉM (Modern and Contemporary Arts Centre)
- Debrecen Zoo
- Debrecen Ice Rink
- Debrecen Swimming Pool complex
- Déri Museum
