Master of Professional Accounting, page 20.

UNIVERSITY
OF SOUTHERN
QUEENSLAND

Left to right. Aidan O'Sullivan (Bachelor of Commerce graduate- Australia), Raed Ahmed Mahmood (Doctorate of Philsoloophy student - Iraq), Vice Chancellor and President of USQ, Professor Jan Thomas, and Litia Rogo (Bachelor of Education student - Fiji).

The University of Southern Queensland (USQ) is a recognised leader in distance, online and blended education – and aspires to make education accessible and attainable for those wishing to pursue university studies. USQ is renowned for its supportive environment and student focused commitment to learning and teaching.

With a student population representing over 90 nationalities, the University is the most multicultural university (per capita) in Australia. Studying on campus at USQ can be a rewarding way to undertake a university degree in a safe and friendly multicultural environment with modern facilities and a relatively low cost of

living. We have cemented our reputation as one of Queensland's fastest growing education institutions, with more than 27,000 students.

While we are committed to seeing you achieve academically, we are also mindful of your personal journey toward achieving your goals. We are dedicated to providing you with a safe and caring environment to live and learn in.

I look forward to welcoming you to USQ so you can achieve what you may have never even dreamed was possible.

Professor Jan Thomas

Vice-Chancellor and President

Welcome to USQ

What will I gain from

STUDYING

with USQ?

- You will learn from experienced and highly qualified academics, recognised throughout the world for their excellence in teaching, and you will receive personalised attention and support throughout your studies.
- You have the opportunity to develop your English language skills through one of our English language programs. On successful completion you are guaranteed entry into selected degree studies within USQ.
- You will have the peace of mind of studying in a safe and friendly environment with modern facilities and a low cost of living.
- You may be able to receive recognition for study you have already completed. Your academic documents will be individually assessed to see if you are able to receive credits and therefore gain your degree faster. USQ has developed an online Credit Calculator to assist you in determining your eligibility for credits.
<http://creditcalculator.usq.edu.au>

INTERNATIONAL RECOGNITION

All USQ degrees are registered with the Australian Government and meet their strict requirements, so you can be assured of the quality of education you will receive. Our degrees are industry-relevant, academically challenging and internationally recognised.

ONLINE/DISTANCE EDUCATION

If you want an international qualification but don't think it is possible for you to move to Australia, then online education is ideal for you. By studying online or via distance education, you can study at a time and place that suits you.

USQ

Support

From the moment you enrol through to the day you graduate, you'll have a dedicated **Student Relationship Officer (SRO)** to call on whenever you need assistance. We are here to help you achieve your goals, support you through any challenges, and celebrate your success.

FREE AIRPORT RECEPTION AND TRANSFER

USQ wishes to make your arrival in Australia and transfer to your choice of campus as smooth as possible. To help us to ensure that someone is waiting for you at Brisbane and Toowoomba airports, we encourage you to complete the online Airport Reception and Transfer Request at least three days prior to your arrival time.

USQ Fraser Coast also provides a free airport transfer shuttle from Fraser Coast Airport. To access the online booking form, please visit usq.edu.au/study/international/apply-before-you-leave

STUDENT LIFE

University isn't just about studying! Make the most of your time at USQ with Phoenix Central. Phoenix Central can find something for every student to get involved with, including a variety of clubs and societies, leadership opportunities, transitional support programs, as well as social, sporting and cultural activities.

RELIGIOUS SERVICES

The Multicultural Centre endeavours to develop and implement projects which address main contemporary issues relating to culture, language, racial discrimination and religion. The USQ Multicultural Centre also hosts a range of activities throughout the year to promote multiculturalism within the University and the local community.

USQ recognises the relevance of religion in the lives of many people. Through the Multi-faith Chaplaincy Services Centre, USQ provides support for staff and students who wish to integrate their spiritual life with their academic development. Chaplains are available from the most widely represented faiths, and assistance is given to members of any religious group.

STUDENT SERVICES

Student Services can provide you with a great variety of support whilst you are at USQ, such as financial aid, childcare, accommodation, mental health support, disability resources and many more. You will have access to career counselling to help you find the right career path to maximise your opportunities. USQ students can also receive free counselling from our professional counsellors to help you with any challenges you may face.

24-HOUR STUDENT ASSISTANCE HOTLINE, AND SECURITY SERVICES

Your safety and wellbeing is very important to us – that is why we have created a Student Assistance Hotline. This hotline is available to international students 24 hours a day, and can help you with problems, such as medical, legal, accommodation and cultural issues. If it is late and you need help, call **1800 689 410**. This is a free call from landlines in Australia (standard call rates apply from mobile phones).

Don't forget – if you have an emergency requiring an ambulance, fire department or police, call 000 immediately.

If you are on-campus and need help, the Security Office assists in providing a safe and secure environment for you.

LEARNING SUPPORT

The Learning Centre can help you to develop your academic learning, and language and mathematical skills to increase your academic success at university. Whether you are studying on-campus or online, the Learning Centre can support you with online and face-to-face workshops, resources and consultations.

MEET-UP PROGRAM

Meet-Up is a student-led program that brings students together who are doing the same course. The sessions can help you understand course content and develop learning skills, and are a way to use your study time more effectively. Sessions can also help you prepare for assignments and exams.

Accommodation

RESIDENTIAL COLLEGES

USQ has three Residential Colleges located at USQ Toowoomba. McGregor, Concannon and Steele Rudd colleges offer a room with private or shared bathroom, meals, utilities, internet allowance, and mentoring and academic support programs included in the accommodation fees. A self-catered option is also available.

To apply for on-campus accommodation or for more information, please see usq.edu.au/accommodation

RESIDENTIAL VILLAGE

On-campus accommodation at USQ Springfield is available through the Education City's Residential Village. Fees include a room in a self-contained two to seven-bedroom apartment with shared bathroom, advanced security and surveillance systems, air-conditioning, cooking and laundry facilities, parking facilities, broadband wireless internet connection, mentoring and academic support.

For more information, please see usq.edu.au/springfield/accommodation

PRIVATE ACCOMMODATION

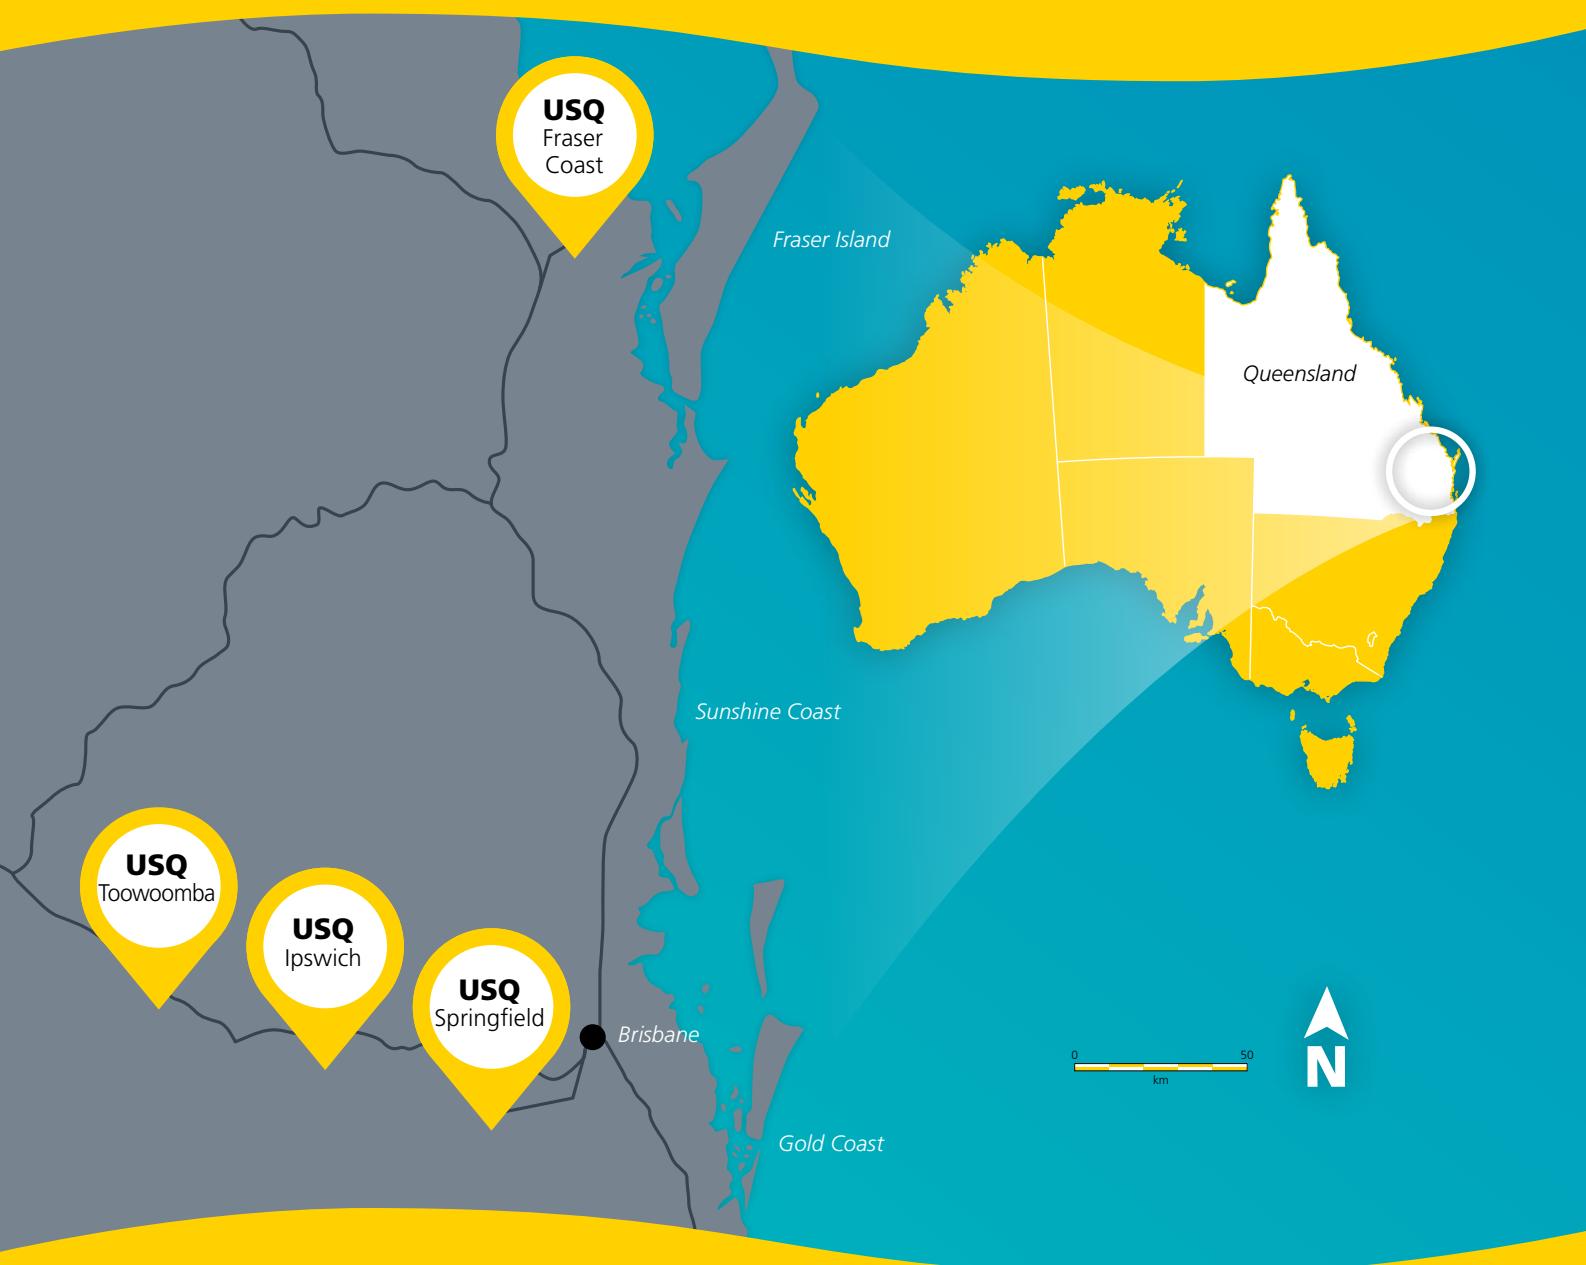

A number of private accommodation options are available at all three USQ campuses, including rental units and houses, and organised homestay for students undertaking English language studies or Study Tours.

For more information on other accommodation options, please see usq.edu.au/current-students/services/welfare/accommodation

— USQ Locations —

USQ has four campuses and two outreach hubs located in the sunshine state of Queensland. Our students have access to a free shuttle bus service to travel between the Ipswich, Springfield and Toowoomba USQ campuses.

We've worked hard to make it possible for students to study with us wherever they want, and we're Australia's second-largest online university. You can also study at any of our six locations or mix online and on-campus study, making it easier than ever for study to fit in with your life.

USQ Toowoomba

USQ Toowoomba provides a perfect sanctuary for study, as it offers you the benefits of a city environment in a relaxed country atmosphere.

USQ Toowoomba offers the full on-campus experience with Residential College accommodation and a great range of sporting and social clubs complementing the academic degrees. Enjoy contemporary lecture halls, a performing arts theatre, and new collaborative science laboratories. USQ Toowoomba also features two beautiful landscaped parks – the historic Japanese Gardens and the new Gumbi Gumbi Gardens. Australia's largest inland city also offers plenty to do when you close those books for the day.

For further information about living and studying in Toowoomba, visit usq.edu.au/toowoomba

USQ Fraser Coast

USQ Fraser Coast provides a high-quality university experience in the relaxed seaside town of Hervey Bay. Enjoy the ideal balance between university study and all that a coastal lifestyle provides.

USQ Fraser Coast offers on-campus study for the degrees in highest demand in the region, as well as provide support services for online students. Some degrees are available in supported mode, which combines the benefits of online study with the support of on-campus tutorials and practicals. Facilities at this small, community-oriented campus include industry-standard nursing labs, a brand-new library, an outdoor gym and the relaxing Olga Miller Garden.

For further information about living and studying in Hervey Bay, visit usq.edu.au/frasercoast

USQ Springfield

USQ Springfield is located in the heart of one of Queensland's fastest-growing regions.

USQ Springfield offers a broad range of undergraduate and postgraduate options in a vibrant modern setting, just 20 minutes from the Ipswich CBD, 35 minutes from Brisbane city and an hour from the Gold Coast, with close access to train networks. A hub for digital production and performance, USQ Springfield includes a state-of-the-art television studio, radio station and rehearsal spaces, as well as collaborative teaching rooms, brand-new laboratories for science and engineering, and relaxed spaces for students to work, rest and play. Close industry links in the thriving community offer students exceptional work experience opportunities.

For further information about living and studying in Springfield, visit usq.edu.au/springfield

USQ Ipswich

USQ's newest campus is on a heritage site in one of Australia's oldest cities. We've been part of Ipswich since 2006 and as the region grows, we're expanding our commitment to the region.

USQ Ipswich's leafy campus has grand vistas across the city and a graceful mix of historic and modern buildings, including a stunning library featuring a living rainforest.

The campus is 55 minutes from Brisbane city, an hour and 15 minutes from the Gold Coast, and is accessible via public transport. Home to USQ's School of Health and Wellbeing, USQ Ipswich includes custom-built paramedical training facilities and new clinical nursing laboratories, sports fields, a cafe and a gym. New degrees will be offered from the campus as we grow with Ipswich.

For further information about living and studying in Ipswich, visit usq.edu.au/ipswich

Our students come from over
90 countries to study at USQ.

What do these university words mean?

At university, we sometimes use words you may not be familiar with. Here is a guide on what they mean so you can make your decision on choosing your USQ degree and how you would like to study with a little more clarity.

POSTGRADUATE DEGREE

A postgraduate degree is generally for those who have already completed an undergraduate degree, and can range from a graduate certificate to a masters or even a doctorate.

COMBINED AND DOUBLE DEGREES

A combined degree allows you to combine two degrees into one allowing you to graduate with a single qualification. A double degree makes it possible for you to study two degrees in a shorter time, graduating with two qualifications.

DURATION

Duration is the time it takes to complete the degree. Full-time study generally consists of three to four courses per semester while part-time study is generally one to two courses per semester.

ONLINE/DISTANCE

Online study gives you the convenience to study wherever you want. You will be provided with all of your study materials online, and you will have access to your lecturers and fellow classmates through forums, chat and email.

ON-CAMPUS

Studying on-campus at one of USQ's four campuses allows you to attend lectures in person and participate in on-campus activities. Attending on-campus lectures and tutorials allows for interactive group discussions and provides the opportunity to work through examples and practical questions.

MAJOR/SPECIALISATION

A major or specialisation is the speciality area that you choose in your degree. Your chosen major or specialisation generally consists of 8–12 units in that topic, and is noted on your certificate when you graduate.

MINOR

A minor is very similar to a major or specialisation but with less units to complete. A minor is usually chosen to complement your major, and is comprised of four courses.

COURSES

A course is a subject you undertake as a part of your degree which usually runs for the duration of one semester.

CORE COURSE

Core courses are courses that are required as a part of your degree. You may have core courses as a part of your major/specialisation or degree.

ELECTIVE

An elective is a course you can choose from a great variety of courses to complement your degree and interests.

SEMESTER

The USQ teaching year is divided into three semesters usually 13 weeks long.

IELTS (INTERNATIONAL ENGLISH LANGUAGE TESTING SYSTEM)

IELTS is an international standardised test of English language proficiency to ensure non-native-English-language speakers will have a strong enough understanding of the English language. At USQ, we offer programs to help you with your English language skills. Visit usq.edu.au/english-language to find out more.

FEES

USQ's fees for international students are reviewed and adjusted each year, so may increase over the length of your study. The estimated fee per unit may also vary depending on your pattern of enrolment. For example, if you choose to enrol in electives or core courses offered by a different faculty, the unit price (and therefore the total price) may be different.

ENTRY REQUIREMENTS

Entry requirements are the requirements needed to gain entry to a USQ degree. These may include IELTS and work experience. Check usq.edu.au/study for your degree's specific entry requirements.

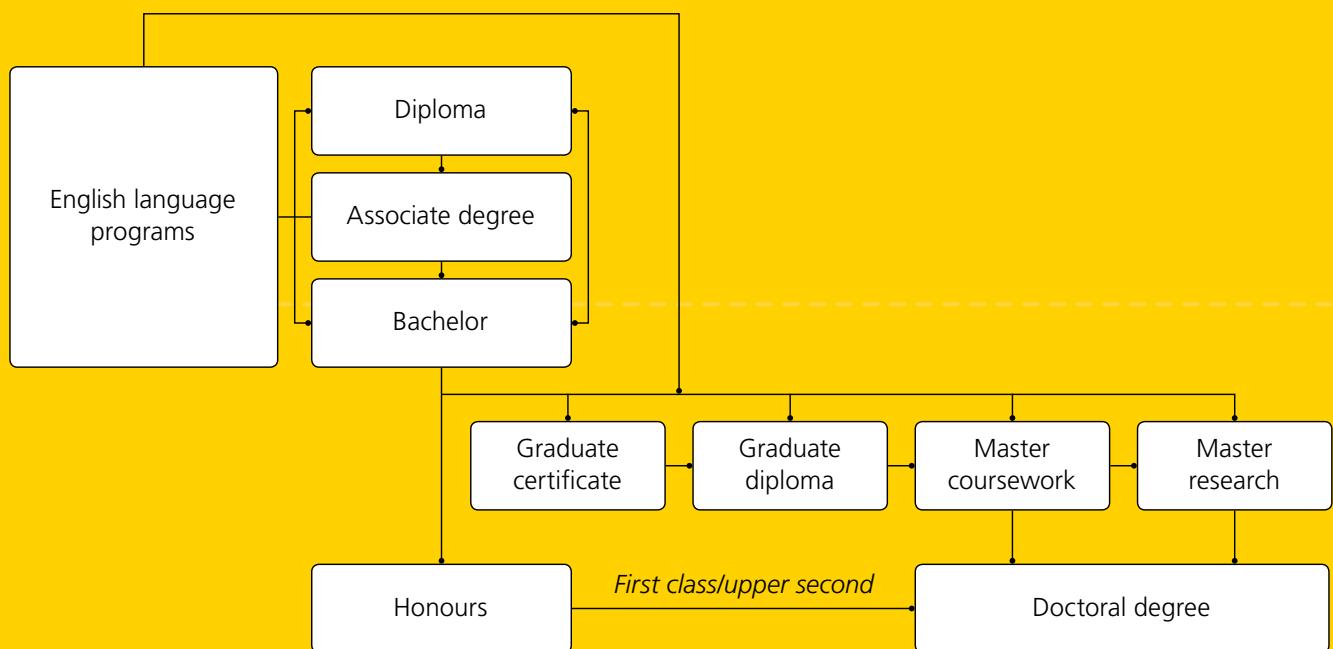

CREDIT FOR PREVIOUS STUDY AND WORK EXPERIENCE

You may be eligible for credit towards your degree for some of your previous study or work experience. Credit can either go towards your overall Grade Point Average for your degree, or save you from undertaking some courses that are part of your degree.

English Language and Pathways

Before you start your degree studies at USQ, you will need to meet specific English language levels. If you don't meet the level you require, USQ offers English language programs that will help you achieve your goal.

At USQ, you will have a choice of qualifications ranging from postgraduate certificates and diplomas through to masters degrees and PhDs. It all depends on what you have already studied, and your individual interests and career aspirations.

English Language Intensive Courses for Overseas Students (ELICOS)

	Duration	Approximately 10 weeks per level (minimum 5 weeks, maximum 50 weeks)
	CRICOS	070617J
	Intake 3	20 July 2015 24 August 2015
	Intake 4	28 September 2015 2 November 2015
	Intake 5	7 December 2015 25 January 2016
	Start date	2016 Intake 1 29 February 2016 Intake 2 9 May 2016 Intake 3 11 July 2016 Intake 4 19 September 2016 Intake 5 28 November 2016
	Mode	On-campus
	Campus	Toowoomba

Why study this program?

The English Language Intensive Courses for Overseas Students (ELICOS) is designed to improve your English language skills. You can study ELICOS as a pathway to future study, to improve your career or for personal reasons.

Entry requirements

Level 1 – IELTS less than 3.0

Level 2 – IELTS 3.0

Level 3 – IELTS 3.5

Level 4 – IELTS 4.0

Level 5 – IELTS 4.5

Further study

ELICOS aims to prepare you for further study. When you complete Level 5 of ELICOS, you can choose to go on to study USQ's English for Academic Purposes to prepare you for studies in your chosen degree.

Overview of courses

Level 1 – Beginner

Level 2 – Pre-elementary

Level 3 – Elementary

Level 4 – Pre-intermediate

Level 5 – Intermediate

Preparing for success

'Studying the English for Academic Purposes has helped me prepare to undertake my future degree successfully.'

Mariatou Sylla Loleke

English for Academic Purposes (Graduate)

English for Academic Purposes (EAP)

 Duration	4 units Minimum 10 weeks, maximum 36 weeks (70 weeks online)
 Start date	EAP I 20 July 2015 28 September 2015 7 December 2015 29 February 2016 9 May 2016 11 July 2016 19 September 2016 28 November 2016 EAP II 17 August 2015 28 September 2015 7 December 2015 4 April 2016 9 May 2016 15 August 2016 19 September 2016 28 November 2016
 Mode	On-campus, online
 Campus	Toowoomba, Springfield

Why study this program?

English for Academic Purposes (EAP) will prepare you to study a degree at USQ. As an EAP student, you can access great teaching and support in a friendly, caring environment. EAP will develop your language skills and give you the confidence you need to succeed at university.

Entry requirements

Completion of senior secondary schooling in your home country or equivalent

plus

EAP I – IELTS 5.0 or equivalent

EAP II – IELTS 5.5 or equivalent

(undergraduate, postgraduate coursework, postgraduate research and doctorate).

If you do not have evidence of your English language proficiency, you will need to participate in tests of reading, writing, listening and speaking, to determine your entry level.

Further study

EAP aims to prepare you for entry to university. When you successfully complete Level 2 of EAP, you have the necessary language requirements to study a degree at USQ. Now is the time to start your pathway to a career that you want.

Overview of courses

EAP I

DEGREE STRUCTURE	UNITS
2 x core courses ¹	4
TOTAL	4

You will increase your skills in academic speaking, listening, reading and writing, and develop the strategies you will need to manage your university studies.

EAP II

(UNDERGRADUATE AND POSTGRADUATE COURSEWORK)

DEGREE STRUCTURE	UNITS
3 x core courses	3
1 x elective	1
TOTAL	4

You will learn independent study and learning skills, develop self-motivation techniques and your ability to manage your lifestyle while studying. You will gain skills in undergraduate reading, writing, listening and speaking, including report and essay writing, participating in online or tutorial discussions, and you may choose to learn more about mathematics and communication using mathematical language.

EAP II (POSTGRADUATE, RESEARCH AND DOCTORATE)

DEGREE STRUCTURE	UNITS
3 x core courses ¹	4
TOTAL	4

You will develop skills in academic reading, writing, listening and speaking, and will gain further skills in using your English language and communication skills in regards to philosophy and practice of research.

¹ Each core course is worth two units.

Want to know more?

For more information on English language and pathways or for full course listings, please visit usq.edu.au/pathway-programs

Business and Commerce

Our Business and Commerce degrees are practical and career-oriented. You will have the opportunity to specialise in more than one subject area to expand your knowledge, skills, and **increase your employment prospects**. In fact, Forbes (2014) lists transdisciplinarity as one of the top ten skills for the future.

Economics graduates with a graduate certificate/diploma enjoy a median starting salary of **AUD90 000**, which is **over 37% more** than bachelor degree graduates.

Graduate Careers, 2014

AUD 2500

is the median weekly earnings for chief executives and managing directors in Australia.

Job Outlook, 2014

Employment for **advertising and marketing professionals** is expected to **grow very strongly** over the next five years.

Job Outlook, 2014

Graduate Certificate of Business

	Duration	4 units 0.5 year full-time or part-time equivalent ¹
	CRICOS	084839B
	Start date	March, July, November ²
	Mode	On-campus, online
	Campus	Toowoomba, Springfield

Why study this degree?

The Graduate Certificate of Business is ideal if you have an undergraduate degree or extensive work experience, and want to enhance your career prospects through further studies. You can choose a range of courses to expand your breadth of knowledge or focus your course selection on one particular area of expertise. Areas of expertise include Business, Commerce, Information Systems and Law. The Graduate Certificate of Business can also be used to meet the entry requirements for Masters level study if you do not have an undergraduate degree.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- Approved bachelor degree or equivalent,
- or
- A minimum of five years' full-time professional work experience in a related area.

Further study pathway

Master of Business Administration

Master of Project Management

Master of Business and Innovation

DEGREE STRUCTURE	UNITS
Courses	4
TOTAL	4

In this degree, you will have the flexibility to select four courses from Business, Commerce, Information Systems or Law. This flexibility allows you to tailor your graduate certificate to achieving personal and professional goals.

¹ Depending on the specialisation undertaken, this program may not be available for full-time study.

² There is no Semester 3 intake for international on-campus students.

Master of Business Administration

	Duration	12 units 1.5 years full-time or part-time equivalent
	CRICOS	066850A
	Start date	March, July, November
	Mode	On-campus, online
	Campus	Toowoomba ¹ , Springfield ¹

Why study this degree?

Gain the competitive edge with one of Australia's largest MBAs. You will learn about change and sustainability across global markets and contexts, as well as areas of contemporary business management. The emphasis is on helping you to understand and make critical decisions about change, and developing strategies to address such changes.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- an approved bachelor degree or equivalent in a business-related area.
- a minimum of 2 years' full-time professional work experience in a business-related field.

Professional recognition

USQ is registered with the Project Management Institute (PMI)® as a Global Registered Education Provider (R.E.P.). A study of project management at USQ earns professional development units towards certification with PMI including towards the Project Management Professional (PMP)®. PMI and PMP are registered marks of the Project Management Institute, Inc. USQ is also endorsed by the Australian Institute of Project Management (AIPM) as a National Course Provider for project management education.

The Master of Business Administration (Strategic Human Resource Management) is delivered by USQ's experienced team of HR professionals and is one of few MBA specialisations accredited by the Australian Human Resources Institute (AHRI). This enables graduates to gain professional membership with AHRI and use their membership letters as professional recognition.

Specialisations

DIGITAL TRANSFORMATION

T OL

You will gain a thorough understanding of business intelligence systems including their architecture and implementation, and how they are used in practice by completing this specialisation. Current and real-life contexts will provide you with opportunities for the practical application of your business intelligence knowledge and skills. You will develop knowledge on how to identify an organisation's strategic issues.

FINANCE

T OL

You will learn finance concepts for domestic and global applications and be exposed to the tools and concepts of basic finance, financial statements, and an overview of the structure and operation of the global financial system by completing this specialisation. You will gain real-world knowledge by examining financial institutions and topics.

GENERAL

T S OL

You will be able to select three of USQ's postgraduate courses and also learn to identify and articulate the strategic issues regularly faced by organisations everywhere. Focus on the development and strategic direction of an organisation, with attention paid to internal and external dynamics and communications.

GLOBAL BUSINESS MANAGEMENT

OL

You will examine the management of international organisations through the analysis of international businesses, national business environment and policies, while still focusing on globalisation and international business strategy. While you will gain valuable knowledge of international business generally, you will also learn about international business law and management. You will be exposed to these concepts and more during your studies.

PROJECT MANAGEMENT

S OL

You will establish levels of quality in a project, be able to examine the environment in which projects are carried out and how to inject quality into the different stages of a project. These essential skills will extend your application of knowledge in real business settings during your studies in this specialisation. You will learn how to best manage a project, from establishing time and cost, to putting together the best possible project management team.

STRATEGIC HUMAN RESOURCE MANAGEMENT

OL

Become a master at managing and utilising the full potential of an organisation's talent. You will learn how to best manage employees in an ever-changing business environment. You will gain an understanding of the intricate relationships between employers and workers and know how best to engage and empower a work force to achieve business success.

Valuable experience

'Studying both business administration and professional accounting gives me a stronger background in business, which can open a lot of doors.'

Viviana Garcia

Master of Business Administration and
Master of Professional Accounting

STRATEGIC MARKETING

Understand the psychological and behavioural attitudes of buyers to create, develop and evaluate marketing strategies that will give organisations a competitive advantage. Understand the buyer's thought process and learn strategies and theories to help organisations succeed in a global marketplace.

OL

SUSTAINABLE BUSINESS

Discover tools and techniques to help your organisation become sustainable and grow in a competitive environment. Look at global issues in environmental management and learn the frameworks for analysis and integration of strategic management.

Doctor of Philosophy

DEGREE STRUCTURE	UNITS
2 x specialisations	8
plus 1 x research specialisation	4
TOTAL	12

Specialisations

BIG DATA AND VISUALISATION

Studying Big Data and Visualisation will give you a greater understanding about how data can link business to predict consumer buying trends, producing solutions that match the data of your target market and understanding information.

CRISIS MANAGEMENT

This specialisation will further your understanding of community engagement, environmental surveillance, crisis management planning and social media. You will graduate with a greater understanding of emerging trends, how to influence consumers and governments, and engagement through crisis management techniques.

DIGITAL TRANSFORMATION

By studying Digital Transformation you will gain a deeper understanding of emerging and current technologies in business practices, the use of tools such as data mining and performance dashboards, and measures of business performance.

ENTERPRISE LEADERSHIP

Emerge as a leader in strategic human resources management and leadership techniques by studying Enterprise Leadership. You will gain practical skills and knowledge in solving strategic human resources management topics, employee relations, organisation culture and ethical practices.

FINANCE

You will gain in-depth knowledge of the Australian and global markets, along with practical application of financial tools and techniques. You will also gain a greater awareness of strategic investments, instruments and institutions.

INTERNATIONAL BUSINESS

This specialisation emphasises international business strategies in a changing global economy. You will also delve deeper into international marketing, international human resource management, emerging markets and international relations.

PROFESSIONAL COMMUNICATION

By studying Professional Communication you will explore public relations as a management function. You will have the opportunity to fine tune different writing styles and platforms, including audio, print, electronic mainstream media and social media.

SUSTAINABLE BUSINESS

The Sustainable Business specialisation will give you the knowledge and skills to successfully implement sustainable business practices, including environmental law, biodiversity, conservations, environmental studies, and sustainable economies.

1 November intake only available online.**2** Not all specialisations and courses are offered in on-campus mode.**3** The Graduate Certificate of Business provides an articulation pathway into the Master of Business and Innovation for candidates who have a bachelor degree or equivalent in a non-business related area from a recognised institution.**4** This course is worth two-units.

Master of Information Systems

 Duration	16 units 2 years full-time or part-time equivalent
 CRICOS	082461C
 Start date	March, July, November ¹
 Mode	On-campus, online
 Campus	Toowoomba, Springfield

Why study this degree?

The IT sector has been identified as having a significant shortage of trained professionals, with the expectation that this shortfall will continue into the future. Now is an ideal time to embark on a career that will be dynamic, global, and in demand. Completing the Master of Information Systems will give you the skills and knowledge you need to become an IT manager.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.0 or equivalent (no component lower than 5.5).
- An approved bachelor degree, or equivalent².

Master of Professional Accounting

	Duration	16 units 2 years full-time or part-time equivalent
	CRICOS	082462B
	Start date	March, July, November ¹
	Mode	On-campus, online
	Campus	Toowoomba, Springfield

Why study this degree?

USQ's Master of Professional Accounting will help you to achieve your professional goal of becoming an accountant. Throughout your degree, you will have the opportunity to study topics such as environmental management accounting and corporate accounting. The emphasis in this degree is on giving you practical experience to prepare you thoroughly for the accounting profession.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.0 or equivalent (with no component lower than 5.5).
- An approved bachelor degree, or equivalent².

Applicants with overseas academic qualifications in accounting should contact either of the following professional bodies for an assessment of their qualifications, prior to applying for enrolment in the degree:

THE EDUCATION ASSESSMENT OFFICER

CPA AUSTRALIA

cpaaustralia.com.au

or

THE NATIONAL QUALIFICATIONS ADMINISTRATOR

CHARTERED ACCOUNTANTS

AUSTRALIA AND NEW ZEALAND

charteredaccountants.com.au

This degree may not be suitable for candidates who are already members of CPA Australia or Chartered Accountants Australia & New Zealand.

Professional recognition

The degree meets the educational entrance requirements of both CPA Australia and the Institute of Chartered Accountants in Australia (ICAA). This provides associate membership of CPA Australia, eligibility to study the CPA professional exams and eligibility to study the ICAA professional exams. Successful completion of this degree can qualify students for exemptions from the Fundamental level (9 papers) of the Association of Chartered Certified Accountants (ACCA) exams. For further details please refer to the ACCA website.

DEGREE STRUCTURE	UNITS
Core courses	13
plus 3 x electives	3
TOTAL	16

You will look into theories of accounting in greater depth, study commercial, corporation and taxation laws, and also get plenty of hands-on experience in company financial audits. Gain basic skills in company accounting, and examine principles of economics to give you the potential to become a manager who will be able to make sound decisions in the workplace.

Education

Great educators make a big difference. They play a vital role in developing the capacity of individuals to learn, develop and fully participate in our contemporary world.

Whether you wish to **extend your teaching career** into the field of guidance and counselling, special education or teaching English to speakers of other languages, we have a degree that will allow you to build your knowledge in the areas you are most passionate about.

We understand the importance of finding the right work-life balance. Therefore, our education degrees can be studied **fully online**, meaning you can fit your study around your work, family and life.

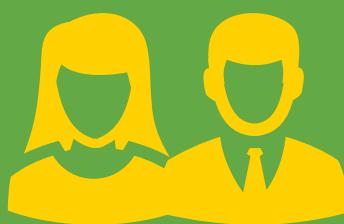

AUD72 000 is the median starting salary for graduate certificate/diploma graduates in all fields of education.

Graduate Careers, 2014

34.9%
of school principals have a postgraduate qualification.

Job Outlook, 2014

Over the next 5 years, **employment** in education and training is projected to **increase by 13.3%**, the second-largest projected increase of any industry.

Labour Market Information Portal, 2014

Graduate Certificate of Education

 Duration	4 units 0.5 year full-time or part-time equivalent
 Start date	March, July, November
 Mode	Online

Why study this degree?

The Graduate Certificate of Education provides you with the flexibility to select courses that best meet your learning needs and career progression as an educator. The Graduate Certificate of Education also provides a pathway into the USQ Education masters portfolio.

NOTE

This degree does not in itself qualify graduates for teacher registration. Please contact USQ for further information about gaining teacher registration.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent.
- 3-year bachelor degree or equivalent.

DEGREE STRUCTURE	UNITS
4 x specialisation courses	4
TOTAL	4

Specialisations

ADULT, PROFESSIONAL AND WORKPLACE LEARNING

Develop your knowledge of career development, particularly areas relevant to lifelong adult career development and the changing world of work. You will have the opportunity to address the theory and practice of assessment, investigate ideas of learning futures and be challenged to explore, reflect on and question your understandings and assumptions about adult learning and teaching principles.

APPLIED LINGUISTICS

Applied Linguistics is ideal if you work with second-language speakers and their communities, or in the fields of speech therapy and pathology, allied health, psychology or training in a variety of settings that requires skills in communication management and cross-cultural interaction. The four courses specified in this specialisation allow you to enhance your knowledge and skills as a facilitator of learning in second-language contexts and to critically reflect on language related issues.

CAREER DEVELOPMENT

This specialisation is ideal if you want to work in teaching, counselling, training, employment or community development roles, and support the career planning and development of students, clients and organisations. You will focus on the big-picture issues in career development, including policy, employability and learning.

DIGITAL LEARNING ENVIRONMENTS

Effective learning design and digital learning environments are at the heart of sound educational practices. This specialisation will help you develop your knowledge and skills in online and blended learning design.

EARLY CHILDHOOD

Examine the role of a play-based, integrated curriculum and explore current international, national and local issues related to many aspects of the care and education of young children. You will be introduced to the key elements of leadership, management and administration within early childhood and undertake professional experience placement in a school or child care setting.

EDUCATIONAL LEADERSHIP

Discover 'leadership in education' from a range of theoretical perspectives and examine human resource strategies for innovation. Be introduced to the fundamental importance of educational organisational transformation through learning, as well as the delivery of appropriate instruction and services to children with learning, behaviour, and adjustment problems.

GUIDANCE AND COUNSELLING

Develop basic counselling skills and an understanding of the key issues presented to guidance personnel in contemporary secondary education settings. You will be introduced to the field of child (and youth) abuse and associated protection issues, various approaches to assisting young people with emotional and behavioural problems, and foundational frameworks of individual assessment and testing.

SPECIAL EDUCATION

You will explore principles of prevention and intervention of learning difficulties in mathematics and reading, as well as learn how to maximise learning outcomes for students with special needs and disabilities. Discover a wide range of methods and strategies for meeting the needs of students with behavioural and adjustment problems in regular pre-school, primary and secondary classrooms.

STUDENT-LED PATHWAY

Under the coursework stream of this program, you are able to select any four courses from a list of available postgraduate courses to tailor your coursework. Please see usq.edu.au/study for more information.

TERTIARY TEACHING

Demand for professional education and training is increasing. The criterion-oriented program design focuses on the knowledge, skills, performance competencies and attributes necessary for tertiary educators. It will help you develop your planning, instruction, assessment, evaluation and program design capabilities to a high standard, giving you greater employability in the higher education sector.

TEACHING ENGLISH TO SPEAKERS OF OTHER LANGUAGES (TESOL)

You will be introduced to principles of second-language learning, as well as main characteristics of syntax, phonology, and other aspects of language and the relationship between each one. You will have the opportunity to link theory with practice in teaching the four macro skills: listening, speaking, reading and writing, with vocabulary and grammar incorporated.

Overview of courses

ADULT, PROFESSIONAL AND WORKPLACE LEARNING

EDU8701 Teaching and Learning in Contemporary Contexts: Theory and Practice
EDU5760 Professional Study
EDU5713 Assessment Principles and Practices
plus one of the following:
EDU5221 Professional Learning
EDU5601 Designing for Flexible Learning Environments
EDU8406 Theories for Learning Futures
EDU8606 Lifelong Career Development
EDU8605 Building Communities of Practice

APPLIED LINGUISTICS

LIN5000 The Nature of Language
LIN8001 Principles of Second Language Learning
EDR8005 Discourse Analysis
LIN8015 Introduction to Sociolinguistics

CAREER DEVELOPMENT

EDU8606 Lifelong Career Development
EDU8331 Career Development in Educational Settings
EDU8332 Introduction to Counselling in Educational Contexts
plus one of the following:
EDU8406 Theories for Learning Futures
EDU8605 Building Communities of Practice
EDU8328 Consultation and Communication: Theory and Practice

DIGITAL LEARNING ENVIRONMENTS

EDU5112 Transforming Learning with ICT
EDU8111 Emerging Environments for Learning
EDU8114 Online Pedagogy in Practice
EDU8117 Networked and Global Learning

EARLY CHILDHOOD

EDU5010 Politics and Pedagogy in Early Childhood
EDU8000 Early Childhood Principles and Practices
EDU8007 Developing Matters in Early Childhood Education
EDU8011 Professional Culture, Dynamics and Change in Early Childhood Education

EDUCATIONAL LEADERSHIP

EDU5221 Professional Learning
EDU8312 Educators as Leaders: Emerging Perspectives
EDU8314 Human Resource Strategies for Innovation
EDU8318 Organisational Transformation Through Learning

GUIDANCE AND COUNSELLING

EDU8328 Consultation and Communication: Theory and Practice
EDU8332 Introduction to Counselling in Educational Contexts
EDU8333 Advanced Counselling in Educational Contexts
plus one of the following:
EDU5325 Child Abuse and Neglect: Intervention, Protection and Prevention
EDU5335 Emotional and Behavioural Problems of Children and Adolescents

SPECIAL EDUCATION

EDU5321 Educating Students with Special Needs
EDU8328 Consultation and Communication: Theory and Practice
EDU5322 Behaviour Management and Support
plus one of the following:
EDU8324 Learning Difficulties: Reading
EDU8326 Learning Difficulties: Mathematics

TERTIARY TEACHING

EDU5702 Exploring Learning and Teaching in Higher Education Contexts
EDU5713 Assessment Principles and Practices
EDU5705 Principles of Quality Curricula
EDU8701 Teaching and Learning in Contemporary Contexts: Theory and Practice

TESOL

LIN5000 The Nature of Language
LIN8001 Principles of Second Language Learning
LIN8002 Methodology in Teaching a Second Language
LIN8007 Language and Literacy Assessment

Make a difference

'My postgraduate study at USQ will provide me with irreplaceable skills, knowledge and confidence to take with me through my teaching career.'

Rebecca White
Master of Learning and Development

Graduate Diploma of Learning and Teaching (Secondary)

 Duration	8 units 1 year full-time or part-time equivalent
 CRICOS	055149B
 Start date	March, July
 Mode	On-campus, online
 Campus	Toowoomba

Why study this degree?

The Graduate Diploma of Learning and Teaching (Secondary) draws upon your existing knowledge gained from previous bachelor studies in a field other than education, and equips you with the additional skills and abilities to be a highly employable educator in secondary schools.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum IELTS (or equivalent test) overall score of 7.5 (no component lower than 7.0, and a score of no less than 8.0 in speaking and listening).
- 3-year bachelor degree or equivalent in a discipline other than education. All applicants must show how their prior studies meet these requirements by submitting a completed Teaching Areas form with their application.
- Applicants for Secondary pathways must demonstrate discipline knowledge in 2 defined teaching areas in their first degree or other studies.

NOTE

An online induction is required prior to the commencement of study.

Professional recognition

Graduates of the Graduate Diploma of Learning and Teaching are eligible to apply to the Queensland College of Teachers for teacher registration.

Practical experience

There are 75 days of professional experience placements throughout this degree, the majority of which must be completed in Australian schools, which will enable you to connect the theoretical components of your studies with the practical aspects of teaching.

DEGREE STRUCTURE	UNITS
Core courses	4
<i>plus</i> 4 x specialisation courses	4
<i>plus</i> 75 days of professional experience	
TOTAL	8

Graduate Diploma of Teaching (Secondary)

 Duration	8 units 1 year full-time or part-time equivalent
 Start date	March, July
 Mode	Online

Why study this degree?

If you are an international student, Australian citizen or a permanent resident living off-shore and are looking to teach outside Australia, the Graduate Diploma of Teaching enables those of you with a bachelor degree in any field other than education to become a teacher in one year.

NOTE

A compulsory virtual induction must be undertaken prior to your first semester of study. The induction is offered in online mode for both semesters.

This degree does not qualify graduates for teacher registration in Australia. Please contact USQ for more information about gaining teacher registration.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum IELTS (or equivalent test) overall score of 7.5 (no component lower than 7.0, and a score of no less than 8.0 in speaking and listening).
- 3-year bachelor degree or equivalent in a discipline other than education.

Further study pathway

Master of Applied Linguistics

Master of Education (TESOL)

DEGREE STRUCTURE	UNITS
Core courses	4
<i>plus</i> 4 x specialisation courses	4
<i>plus</i> 75 days of professional experience	
TOTAL	8

Master of Education

	Duration	12 units 1.5 years full-time or part-time equivalent
	Start date	March, July, November
	Mode	On-campus ¹ , online

Why study this degree?

Become a leader in education with USQ's Master of Education. Through this degree, you have the option to extend your knowledge and expertise through the student-led design pathway or a research pathway. The student-led design pathway lets you select 12 courses from the many Education postgraduate courses, allowing you to customise your studies to your personal and professional goals and needs. The research pathways will allow you to delve deeply into an area of education research of your choosing and give you an excellent grounding into research methodologies. This is a pathway into further doctoral studies.

NOTE

This degree does not in itself qualify graduates for teacher registration. Please contact USQ for the further information about gaining teacher registration.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum IELTS (or equivalent test) overall score of 6.5 (no component lower than 6.0).
- An approved 4-year undergraduate degree in education, or a 3-year bachelor degree *plus* one year of graduate study in education.

DEGREE STRUCTURE	UNITS
6–8 x specialisation courses	6–8
<i>plus</i> 3 x research courses	3
<i>plus</i> 0–2 x electives	0–2
TOTAL	12

GUIDANCE AND COUNSELLING

OL

Develop basic counselling skills and an understanding of the key issues presented to guidance personnel in contemporary education settings. You will be introduced to the field of child (and youth) abuse and associated protection issues, various approaches to assisting young people with emotional and behavioural problems, and foundational frameworks of individual assessment and testing.

LEADING AND MANAGING

EDUCATIONAL ORGANISATIONS

OL

This specialisation is designed to prepare you for a leadership role within an education context. It focuses on building and enhancing leadership capacity in aspiring and existing leaders and will keep you at the forefront of contemporary educational practice.

SPECIAL EDUCATION

OL

You will explore principles of prevention and intervention of learning difficulties in mathematics and reading, as well as learn how to maximise learning outcomes for students with special needs and disabilities. Discover a wide range of methods and strategies for meeting the needs of students with behavioural and adjustment problems in regular pre-school, primary and secondary classrooms.

STUDENT-LED DESIGN PATHWAY

OL

The Student-led Design pathway lets you select eight courses from the many Education postgraduate courses, allowing you to customise your studies to your personal and professional goals and aspirations.

TEACHING ENGLISH TO SPEAKERS OF

OTHER LANGUAGES (TESOL)¹

T OL

You will be introduced to principles of second-language learning, as well as main characteristics of syntax, phonology, and other aspects of language and the relationship between each one. You will have the opportunity to link theory with practice in teaching the four macro skills: listening, speaking, reading and writing, with vocabulary and grammar incorporated.

Make a difference

'I want to use my skills and passions to motivate the next generation. With the knowledge I gained at USQ, I can make that difference.'

Roxanne Parker

Graduate Diploma of Learning and Teaching

Master of Learning and Teaching (Primary)

	Duration	16 units 2 years full-time or part-time equivalent
	Start date	March, July
	Mode	Online

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum IELTS score of 7.5 with no component below 7.0 in any of the 4 skill areas, and a score of no less than 8.0 in speaking and listening.
- A bachelor degree from an Australian or internationally recognised university, or equivalent, in a discipline other than education, and must have achieved a minimum GPA of 4.0.
- Demonstrate adequate coverage of discipline studies related to the Australian curriculum with particular reference to studies in English, mathematics and science.
- All applicants must show how their prior studies meet these requirements by submitting a completed Teaching Areas form with their application.

Professional recognition

Graduates of the Master of Learning and Teaching are eligible to apply to the Queensland College of Teachers for teacher registration.

Practical experience

There are 60 days of supervised professional experience placements and 20 days of an unsupervised internship at a 50 percent teaching load in a primary school or other approved educational context.

DEGREE STRUCTURE	UNITS
9 x core courses	9
plus 7 x specialisation courses	7
TOTAL	16

Specialisation

PRIMARY

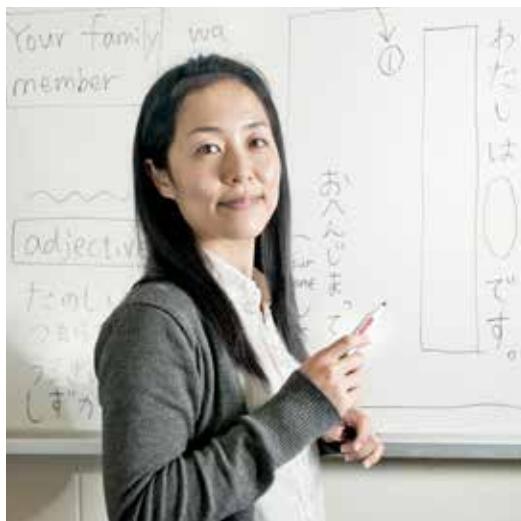

If you have a passion for engaging with learners from around 5 to 12 years of age, then this degree will give you the skills and qualifications you need to educate young learners.

Master of Learning and Development

 Duration	12 units 1.5 years full-time or up to 6 years part-time
 Start date	March, July, November
 Mode	Online

Why study this degree?

USQ's Master of Learning and Development is a flexible and learner-centred degree. Offered online, it is designed to focus on relevant and contemporary educational issues that help you reach your personal and professional goals. You can customise your degree by choosing to design your own study pathway, or you can opt to pick one of our specialisations.

If you are looking to continue on to doctoral studies, you also have the option to take a research pathway.

NOTE

This degree does not in itself qualify graduates for teacher registration. Please contact USQ for the further information about gaining teacher registration.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- A bachelor degree from an Australian or internationally recognised university or equivalent in a related discipline.

Professional experience

Professional experience is required and recommended in the following specialisations: Adult, Professional and Workplace Learning and Early Childhood.

DEGREE STRUCTURE	UNITS
6 x compulsory courses	6
plus 3 x research courses	4
plus 2 x electives	2
TOTAL	12

Specialisations

ADULT, PROFESSIONAL AND WORKPLACE LEARNING

Develop your knowledge of the major theories of career development, particularly those relevant to lifelong adult career development and the changing world of work. You will have the opportunity to address the theory and practice of assessment, investigate ideas of learning futures and be challenged to explore, reflect on and question your understandings and assumptions about learning and teaching.

CAREER DEVELOPMENT

This specialisation is ideal if you want to work in teaching, counselling, training, employment or community development roles, and support the career planning and development of students, clients and organisations. You will focus on the big-picture issues in career development, including policy, employability and learning.

EARLY CHILDHOOD

Examine the role of a play-based, integrated curriculum and explore current international, national and local issues related to many aspects of the care and education of young children. You will be introduced to the key elements of leadership, management and administration within early childhood and undertake professional experience placement in a school or child care setting.

EDUCATIONAL LEADERSHIP

Discover 'leadership in education' from a range of theoretical perspectives and examine human resource strategies for innovation. Be introduced to the fundamental importance of educational organisational transformation through learning, as well as the delivery of appropriate instruction and services to children with learning, behaviour, and adjustment problems.

ONLINE AND DISTRIBUTED LEARNING

You will be introduced to educational approaches to online learning, as well as effective design and implementation of learning environments. Learn more about informal ways students learn outside of education and how to replace instructional teachings with learning processes that support the creation of social and literate futures. You will experience first-hand the development of a learning community as you create your own knowledge around organising themes and key capacities for the building and facilitation of communities of practice.

STUDENT-LED DESIGN PATHWAY

The Student-led Design pathway lets you select eight courses from the many Education postgraduate courses, allowing you to customise your studies to your personal and professional goals and aspirations.

STUDENT-LED DESIGN PATHWAY

The student-led design pathways lets you select eight courses from the many education postgraduate courses, allowing you to customise your studies to your personal and professional goals and aspirations. These courses are completed alongside courses from either the Research Higher Degree pathway or the Applied Research pathway.

1 Students who elect to complete the Research Higher Degree pathway will be eligible to apply for the PhD program subject to meeting the entry requirements.

2 Two-unit course.

3 The Applied Research pathway does not qualify students for direct entry into the PhD program.

Master of Applied Linguistics

	Duration	12 units 1.5 years full-time or part-time equivalent
	CRICOS	085602D
	Start date	March, July, November
	Mode	On-campus ¹ , online
	Campus	Toowoomba

Why study this degree?

A Master of Applied Linguistics is ideal if you work with second-language speakers and their communities, or in the fields of speech therapy and pathology, allied health, psychology or training in a variety of settings that requires skills in communication management and cross-cultural interaction.

NOTE

This degree does not in itself qualify graduates for teacher registration. Please contact USQ for the further information about gaining teacher registration.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum IELTS (or equivalent test) overall score of 6.5 (no component lower than 6.0).
- 3-year bachelor degree or equivalent.

DEGREE STRUCTURE	UNITS
6 x required courses	6
plus 4 x research courses	4
plus 1 x selective course	1
plus 1 x elective course	1
TOTAL	12

APPLIED RESEARCH PATHWAY²

Applied Linguistics is ideal if you work with second-language speakers and their communities, or in the fields of speech therapy and pathology, allied health, psychology or training in a variety of settings that requires skills in communication management and cross-cultural interaction.

RESEARCH HIGHER DEGREE PATHWAY³

If you are looking to continue on to doctoral studies, the Research Higher Degree pathway is for you. You will complete any four units of coursework before embarking on a four-unit degree of research work in the second half of your degree.

Overview of courses

CORE COURSES

LIN5000 The Nature of Language
LIN8001 Principles of Second Language Learning
LIN8002 Methodology in Teaching a Second Language
LIN8006 Computer-Assisted Language Learning
LIN8007 Language and Literacy Assessment
LIN8015 Introduction to Sociolinguistics

APPLIED RESEARCH PATHWAY²

EDR8801 Foundations of Professional Studies in Education
EDR8802 Educational Evaluation
EDR8061 Masters Project II⁴
plus one of the following:
EDR8005 Discourse Analysis
EDU5760 Professional Study
LIN8017 Bilingualism and Bilingual Education
plus one USQ postgraduate course as an elective.

RESEARCH HIGHER DEGREE PATHWAY³

RSH8000 Introduction to Research
RSH8001 Research Methods
EDR8061 Masters Project II⁴

1 If enrolments do not reach the minimum numbers for on-campus study, students may be transferred to distance or online offerings and will be notified of this change before semester commences.

2 The Applied Research pathway does not qualify students for direct entry into the PhD program.

3 Students who elect to complete the Research Higher Degree pathway will be eligible to apply for the PhD program subject to meeting the entry requirements.

4 Two-unit course.

Engineering and Built Environment

We are **Australia's No.1** distance education provider of engineering and surveying degrees. We have a Remote Access Laboratory System that provides students with off-site access to practical and laboratory experiments.

Whether you have an undergraduate degree or industry experience, USQ offers degrees that will equip you with **high-level skills and knowledge** to enhance your job prospects.

Through some of our degrees you will be able to apply for graduate membership as a **professional engineer** with **Engineers Australia** and have the opportunity to **work overseas**.

Aud73 500

is the median starting salary for surveying graduates with a graduate certificate/diploma.

Graduate Careers, 2014

Employment for Engineering Managers is expected to **grow very strongly** to 2018.

Job Outlook, 2014

Graduate Certificate of Engineering Science

 Duration	4 units 0.5 year full-time or part-time equivalent
 CRICOS	067687K
 Start date	March, July
 Mode	On-campus, distance education
 Campus	Toowoomba

Why study this degree?

The Graduate Certificate of Engineering Science gives you the opportunity to extend your knowledge within a specific field of engineering. Through a specialised suite of technical courses across 10 different majors, this degree will equip you with academic, professional, and technical knowledge of engineering and spatial science that will allow you to increase your unique skills.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- 3-year engineering degree or equivalent in the relevant specialisation
or
- an appropriate 4-year engineering degree in a non-related specialisation or equivalent.

Further study pathway

Graduate Diploma of Engineering Science

Master of Engineering Science

DEGREE STRUCTURE	UNITS
Core courses	2
plus major courses	2
TOTAL	4

Majors

AGRICULTURAL ENGINEERING

You will develop your self-management skills, as well as an understanding of the engineering and spatial science professions in a real-world environment. You will study advanced-level agricultural engineering, empowering you to address problems relating to sustainable agricultural production, precision agriculture and the post-harvest handling of agricultural and other primary products.

APPLIED TELECOMMUNICATIONS

You will study advanced-level applied telecommunications engineering, with a strong focus on important industry sectors, such as mine site communications, smart grid and rail communications. Advance your career in the mining and mineral processing, transport, energy, manufacturing, food processing, construction, education, or telecommunications industries.

CIVIL ENGINEERING

Increase your knowledge of soil structures, hydraulics and concrete structures, or learn more about road and street engineering and structural design. Develop your self-management skills which will empower you to plan, design, construct and maintain infrastructure.

ELECTRICAL AND ELECTRONIC ENGINEERING

You will study signal processing and also gain an understanding of wave propagation and electro-magnetic fields. You will also learn more about computer-controlled systems and communication protocols, and build on your personal and professional skills in engineering.

ENVIRONMENTAL ENGINEERING

Discover public health engineering and learn more about hydraulics and environment technology. Examine how to apply engineering solutions to environmental problems and the sustainable management of vital soil and water resources.

GEOGRAPHIC INFORMATION SYSTEMS

You will explore spatial analysis and statistics, map algebra and cartographic modelling, as well as remote sensing and image processing. Be introduced to urban regional planning and web-based geographic information systems, empowering you to manage resources more effectively, manage local government assets more economically and analyse data precisely.

MECHANICAL ENGINEERING

Build on your problem-solving skills and learn more about dynamics, system design, and fluid mechanics. You will study advanced-level mechanical engineering, allowing you to design, inspect, manage and test technologies, systems and procedures.

POWER ENGINEERING

You will study advanced-level power systems, including power generation, distribution and transmission. You will also discover principles and applications of power electronics, real-time systems and communication protocols.

STRUCTURAL ENGINEERING

You can choose courses that will introduce you to the behaviour of pre-pressed concrete, and the mechanics and technology of fibre composites. Concepts of geotechnical engineering will teach you to design, construct and maintain structures against the forces of nature for built environment.

SURVEYING

Explore the size and shape of the earth through geodetic surveying, and build on your professional skills and problem-solving in engineering. You will learn about urban and regional planning, and apply new and sophisticated technology to surveying and mapping projects.

Overview of courses

CORE COURSES

ENG5001 Professional Skills in Engineering
ENG8208 Advanced Engineering Project Management
plus **two** courses from one of the following majors:

Graduate Careers Australia, 2014

Graduate Certificate of Engineering Technology

 Duration	4 units 0.5 year full-time or part-time equivalent
 CRICOS	030323K
 Start date	March, July
 Mode	On-campus, distance education
 Campus	Toowoomba

Why study this degree?

If you want to extend your knowledge within a certain engineering field and already have a three-year degree in science, engineering or technology, our Graduate Certificate in Engineering Technology offers you the opportunity to increase your knowledge and skills.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- 3-year degree in engineering, science or technology
- Candidates who wish to study a technical major (a major other than Management in Engineering) will be expected to have completed an appropriate discipline in their undergraduate degree.

Further study pathway

Master of Engineering Technology

DEGREE STRUCTURE	UNITS
Core courses	2
1 x major	2
TOTAL	4

Majors

AGRICULTURAL ENGINEERING

You will have the opportunity to address issues related to sustainable agricultural production through courses, such as agricultural materials and post-harvest technologies, soil science, GPS smart technology and engineering hydrology.

CIVIL ENGINEERING

Build on your knowledge of geotechnical engineering, structural analysis, road and street engineering, and concrete structures, which will empower you to plan, design, construct and maintain infrastructure.

COMPUTER SYSTEMS ENGINEERING

This major will immerse you in the design and development of major hardware and software programs, as well as networking. You will also be introduced to digital signal processing, wireless and internet technology, and computer network programming.

ELECTRICAL AND ELECTRONIC ENGINEERING

You will study signal processing and also gain an understanding of wave propagation and electro-magnetic fields. You will also learn more about computer-controlled systems and communication protocols, and build on your personal and professional skills in engineering.

ENVIRONMENTAL ENGINEERING

You will explore principles of irrigation science, public health engineering, urban and regional planning, and hydrology which will allow you to apply engineering solutions to the sustainable management of our environment.

MANAGEMENT IN ENGINEERING

This major equips you with the skills and knowledge to manage various areas in the engineering environment, such as project management, asset management, technological innovation and development, operations management, and management of technological risk.

MECHANICAL ENGINEERING

Discover concepts of materials technology, heat transfer, energy technology, and the operation and limitations of computer-aided engineering that will give you the knowledge and skills to plan, design and oversee the development of machinery.

MECHATRONIC ENGINEERING

Combine the disciplines of mechanical, electrical and electronic engineering and examine principles of production engineering, robotics, computational mechanics in design and electronic measurements.

POWER SYSTEMS ENGINEERING

You will increase your knowledge of electricity supply systems, electronic measurements, land studies and sustainable development. Build on your management and engineering project skills.

STRUCTURAL ENGINEERING

To be able to apply engineering solutions to the construction of major infrastructure projects, you will be introduced to concepts of structural design, concrete structures and geotechnical engineering, and learn more about construction methods.

TRANSDISCIPLINARY ENGINEERING

You have the option to select from a range of electives which cover civil, agricultural, computer systems, electrical, environmental, mechanical, power systems, structural and technological engineering. Your selected courses will be approved by the Program Coordinator.

Overview of courses

CORE COURSES

Select **two** from the following:

ENG8104 Asset Management in an Engineering Environment
 ENG8208 Advanced Engineering Project Management
 ENG8103 Management of Technological Risk
 ENG8205 Technology Management Practice

plus **two** courses from one of the following majors:

AGRICULTURAL ENGINEERING

AGR2302 Agricultural Machinery
 AGR3304 Soil Science
 MEC2402 Stress Analysis
 AGR2301 Agricultural Science
 ENV3105 Hydrology
 MEC2301 Design of Machine Elements

T D

TRANSDISCIPLINARY ENGINEERING

Elective courses from Engineering, Science or Technology

Postgraduate Certificate of Engineering

 Duration	4 units 1–2 years part-time
 Start date	March, July
 Mode	Distance education, online

Why study this degree?

A Postgraduate Certificate of Engineering is ideal for engineers who want to enhance their skills and knowledge in the evolving fields of advanced structural engineering design, engineering management, engineering project management, or road engineering.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum IELTS 6.5 or equivalent (no component lower than 6.0).
- 4-year Bachelor of Engineering degree awarded by an Australian university, or equivalent
- Technical majors: completed an appropriate major in their undergraduate degree.

Further study pathway

Master of Advanced Engineering

DEGREE STRUCTURE	UNITS
1 x major	4
TOTAL	4

Majors

ADVANCED STRUCTURAL ENGINEERING DESIGN

This major is unique to USQ and will give you the opportunity to further develop your computer modelling skills in structural engineering, as well as explore the technology of fibre composites and asset management.

ENGINEERING MANAGEMENT

You will study the management of technological risks and asset management, as well as develop the analytical skills to evaluate innovations in technology, their impact and how to manage them.

ENGINEERING PROJECT MANAGEMENT

You will gain the specific knowledge and experience to manage small and large-scale engineering projects. You will also learn how to manage the constraints of time, cost and scope of projects, and stakeholder management. Key engineering management skills in the management of technological risk and asset management will be developed.

ROAD ENGINEERING

You will explore theories and principles in road and street engineering, hydrology, soil science and environmental technology. You will also develop the analytical skills to manage assets and technological risks.

Overview of courses

ADVANCED STRUCTURAL ENGINEERING DESIGN

CIV8801	Code-Based Structural Design
<i>plus three</i> courses from the following:	
CIV8802	Advanced Prestressed Concreters
CIV8803	Mechanics and Technology Fibre Composites
CIV8804	Advanced Design Practice using Finite Element Analysis
ENG8104	Asset Management in an Engineering Environment
ENG8208	Advanced Engineering Project Management

ENGINEERING MANAGEMENT

ENG8103	Management of Technological Risk
ENG8104	Asset Management in an Engineering Environment
<i>plus two</i> from the following:	
ENG8101	Technological Impact and its Management
ECO8012	Methods for Sustainable Development
ENG8205	Technology Management Practice
ENG8207	Technological Innovation and Development
ENG8208	Advance Engineering Project Management

ENGINEERING PROJECT MANAGEMENT

MGT8022	Project-Based Management
ENG8111	Project Requirements Management
<i>plus two</i> from the following:	
ENG8103	Management of Technological Risk
ENG8104	Asset Management in an Engineering Environment
ENG8205	Technology Management Practice
MGT8025	Project Scope, Time and Cost Management
ENG8208	Advanced Engineering Project Management

ROAD ENGINEERING

CIV5704	Road and Street Engineering
CIV5705	Pavement Design and Analysis
<i>plus two</i> from the following:	
ENG8206	Whole of Life Facilities Management
FIN5003	Decision Support Tools
ENG8103	Management of Technological Risk
ENG8205	Technology Management Practice
MGT8028	Project Tendering and Contracting
ENG8208	Advanced Engineering Project Management
ENG8104	Asset Management in an Engineering Environment

Graduate Diploma of Engineering Science

	Duration	8 units 1 year full-time or part-time equivalent
	CRICOS	067688J
	Start date	March, July
	Mode	On-campus, distance education
	Campus	Toowoomba

Why study this degree?

The Graduate Diploma of Engineering Science, through a specialised suite of technical courses across nine different majors, will equip graduates with academic, personal, professional, and technical knowledge of engineering and spatial science that will allow them to support practising professionals.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- 3 or 4-year degree in the relevant specialisation awarded by an Australian university, or equivalent
or
- an appropriate 4-year engineering degree in another unrelated field, or equivalent.

Further study pathway

Master of Engineering Science

DEGREE STRUCTURE	UNITS
Core courses	4
plus 4 x major courses	4
plus 2 x practice courses (0 units value)	
TOTAL	8

Majors

AGRICULTURAL ENGINEERING

You will learn to address problems relating to sustainable agricultural production, precision agriculture and the post-harvest handling of agricultural and other primary products. You will also extend your knowledge in irrigation science, hydraulics and waste treatment.

APPLIED TELECOMMUNICATIONS

You will study advanced-level applied telecommunications engineering, with a strong focus on important industry sectors, such as mine site communications, smart grid and rail communications. Advance your career in the mining and mineral processing, transport, energy, manufacturing, food processing, construction, education, or telecommunications industries.

CIVIL ENGINEERING

You will be introduced to concepts of structural design and analysis, concrete structures, hydraulics, and road and street engineering. Learn to critically evaluate research literature and further develop your problem-solving skills.

ELECTRICAL AND ELECTRONIC ENGINEERING

Gain an understanding of wave propagation, electro-magnetic fields and signal processing. Develop your knowledge of communication systems and protocols, and review current technological development and its impact.

ENVIRONMENTAL ENGINEERING

You will focus on the sustainable management of Australia's vital soil and water resources and public health engineering, and examine environmental technology and different research literature.

GEOGRAPHIC INFORMATION SYSTEMS

You will be introduced to spatial analysis and modelling, remote sensing and image processing, as well as web-based GIS. Develop your knowledge of urban and regional planning and the impact of technical development.

MECHANICAL ENGINEERING

Study the management of technological risks and computational mechanics in design. You will build on your skills in dynamics and explore principles of fluid mechanics and energy use.

POWER ENGINEERING

You will be introduced to a combination of advanced study and practice of power systems, electrical equipment, asset management, and computer systems and communication protocols.

STRUCTURAL ENGINEERING

Increase your knowledge of geotechnical engineering, concrete structures, the mechanics of fibre composites, and structural analysis empowering you to design, construct and maintain structures against the forces of nature and stresses of the modern environment.

SURVEYING

You will study cadastral and geodetic surveying, interpret and evaluate data from aerial photographs and laser-scanned images, and asset management. Learn more about survey computations, and urban and regional planning.

¹ Not offered on-campus.

Master of Advanced Engineering

	Duration	8 units 1 year full-time or part-time equivalent
	Start date	March, July, November
	Mode	Distance education

Why study this degree?

This eight-unit degree is perfect for experienced practising engineers who want management qualifications to further their career. Available to study through distance education, the Master of Engineering enables you to travel or work while studying, allowing you to adapt your study to your life.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- 4-year AQF Level 8 Bachelor of Engineering degree or equivalent.
- Students who wish to study a technical major must have completed an appropriate major in their undergraduate degree.

DEGREE STRUCTURE	UNITS
Core courses	2
plus 1 x major	4
plus 1 x project course	2
TOTAL	8

Majors

ENGINEERING MANAGEMENT

You will study courses in management of technological risk and asset management, as well as examine the tools and techniques for sustainable development. You will also develop the analytical skills to evaluate innovations in technology, their impact and how to manage them.

ENGINEERING PROJECT MANAGEMENT

You will gain the specific knowledge and experience to manage small and large-scale engineering projects and also learn how to manage the constraints of time, cost and scope of projects, and stakeholder management. Build on your key engineering management skills in the management of technological risk and asset management.

STRUCTURAL ENGINEERING DESIGN

Develop your computer-modelling skills in structural engineering further, and explore the technology of fibre composites and code-based structural design. Discover design practice using finite element analysis, and learn how to manage technological risks and assets.

*Enhance your
opportunities*

'I wanted a postgraduate degree that would give me a competitive edge. USQ offered me a unique masters degree that is accepted and recognised worldwide.'

Vinay Bhangdia

Master of Engineering Science

Master of Engineering Science

	Duration	16 units 2 years full-time or part-time equivalent
	CRICOS	067689G
	Start date	March, July
	Mode	On-campus, distance education ¹
	Campus	Toowoomba

Why study this degree?

If you want to become a professional engineer, and have a three year engineering degree but no work experience, the Master of Engineering Science will get you there. Throughout the degree there is an emphasis on practical experience, preparing you thoroughly for the engineering profession. In addition to the hands-on laboratory sessions and 60 days' industry experience, you will complete a research project and dissertation, applying all your formal knowledge to a real-world problem. The research project and dissertation can also be a stepping-stone to further research degrees, including a PhD.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0)
- 3 or 4-year engineering degree in the relevant specialisation awarded by an Australian university, or equivalent
or
- an appropriate 4-year engineering degree in a non-related specialisation, awarded by an Australian university, or equivalent.

Professional recognition

The majors of Agricultural Engineering, Civil Engineering, Electrical and Electronic Engineering, Environmental Engineering, Mechanical Engineering, Power Engineering and Structural Engineering have been accorded full accreditation at the level of professional engineer by Engineers Australia and graduates are eligible for graduate membership at the professional engineer level. The majors of Geographic Information Systems and Surveying have been accorded provisional accreditation at the level of Professional Engineer by Engineers Australia. USQ is seeking provisional accreditation by Engineers Australia for the Applied Telecommunications major.

DEGREE STRUCTURE	UNITS
7 x core courses ²	8
plus 6 x major courses	6
plus 2 x electives	2
plus 5 x practice courses (0 units value)	
TOTAL	16

Majors

AGRICULTURAL ENGINEERING

In addition to hands-on laboratory sessions and industry experience, you will learn about agricultural materials, soil mechanics, irrigation science and hydraulics. Discover precision and smart technologies in agriculture, as well as post-harvest technologies and waste methodologies.

APPLIED TELECOMMUNICATIONS

You will study advanced-level applied telecommunications engineering, with a strong focus on important industry sectors, such as mine site communications, smart grid and rail communications. Advance your career in the mining and mineral processing, transport, energy, manufacturing, food processing, construction, education, or telecommunications industries.

CIVIL ENGINEERING

You will take on your masters dissertation and develop knowledge of soil structures and concrete structures, hydraulics, and road and street engineering. You will also examine advanced principles of structural analysis and design.

ELECTRICAL AND ELECTRONIC ENGINEERING

Build on your skills in managing assets, as well as technological risks, and learn about signal processing, wave propagation and electro-magnetic fields. Evaluate research literature, and explore communication systems and advanced digital communications.

ENVIRONMENTAL ENGINEERING

You will gain an understanding of public health engineering, environmental problem solving, soil science, and the treatment of solid and liquid waste. You will also continue to develop your knowledge of hydraulics and water resource management, in addition to undertaking your research project.

GEOGRAPHIC INFORMATION SYSTEMS

You will review the current technological development and its impact on the world we live in and explore web-based GIS. Complete your research dissertation and develop your knowledge of asset management, spatial analysis and modelling, and remote sensing, and evaluate data from aerial photographs and laser-scanned images.

MECHANICAL ENGINEERING

You will gain practical experience and study advanced principles of dynamics, system design, and fluid mechanics. Be introduced to the operation and limitations of computer-aided engineering, as well as current developments in technology and the impact in the world we live.

POWER ENGINEERING

Increase your knowledge of the principles and applications of power electronics, real-time systems and asset management. Develop your analytical skills by studying the performance of electrical equipment and power systems, and embark on your own research project.

STRUCTURAL ENGINEERING

Gain an understanding of the mechanics and technology of fibre composites, advanced applications of structural design and analysis, as well as the stability analysis of soil and concrete structures. In addition to your masters dissertation, you will also be involved in hands-on laboratory sessions and industry experience.

SURVEYING

T D

Explore the size and shape of the earth through geodetic surveying, and examine the adjustment of survey computations, such as terrestrial and GPS observations. You will develop your knowledge of cadastral surveying, asset management and the development of sustainable urban design.

Graduate Certificate of Spatial Science Technology

	Duration	4 units 0.5 year full-time or part-time equivalent
	CRICOS	066078K
	Start date	March, July
	Mode	On-campus ^{1,2} , distance education
	Campus	Toowoomba

Why study this degree?

If you already hold an undergraduate qualification in another field and would like to develop or extend your knowledge in either surveying or geographic information systems, then this four-unit degree is for you.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- 3 or 4-year undergraduate degree or equivalent, in an approved discipline.

Further study pathway

Graduate Diploma of Spatial Science Technology

Master of Spatial Science Technology

DEGREE STRUCTURE	UNITS
1 x major	4
TOTAL	4

Majors

GEOGRAPHIC INFORMATION SYSTEMS

Your core courses will cover the basic principles of geographic information systems, including programming, geo-database design and spatial data visualisation. You can also explore aspects of land studies, remote sensing and image processing, or learn more about web-based GIS and urban regional planning.

SURVEYING

Expand on your previous surveying technology and methodology and gain an understanding of the equipment and methods used to carry out precise surveys to minimise and eliminate errors. You will also have the opportunity to learn about land administration, GPS systems, mining and construction surveying, or sustainable urban design and development.

Overview of courses

GEOGRAPHIC INFORMATION SYSTEMS

GIS1402	Geographic Information Systems
ENG8104	Asset Management in an Engineering Environment
MGT8070	Property Development
<i>plus one of the following:</i>	
CSC1401	Foundation Programming
GIS3407	GIS Programming and Visualisation
GIS3405	Spatial Analysis and Modelling
GIS3406	Remote Sensing and Image Processing
GIS4407	Web Based Geographic Information System
SVY1110	Introduction to Global Positioning System
SVY3202	Photogrammetry and Remote Sensing

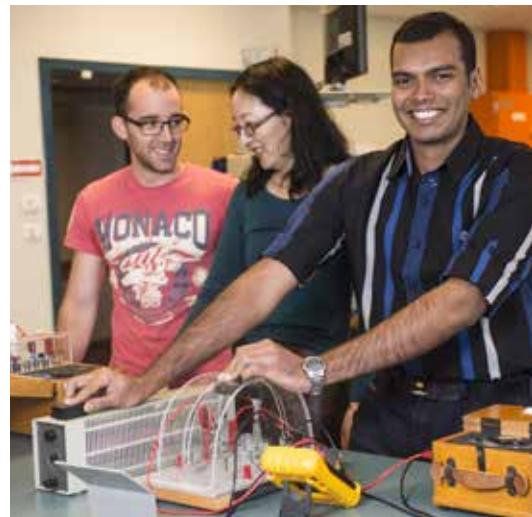

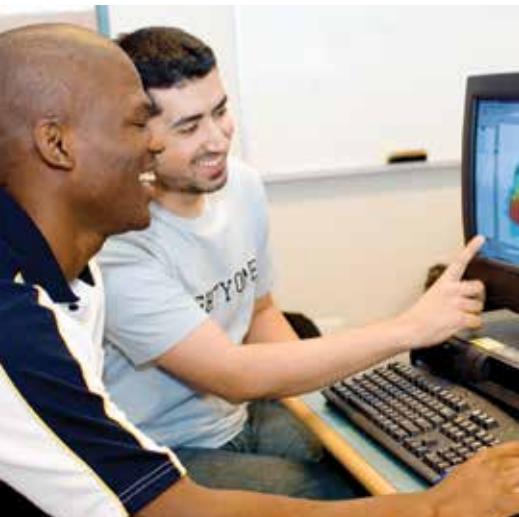

SURVEYING¹

SVY1104	Survey Computations A
ENG8104	Asset Management in an Engineering Environment
MGT8070	Property Development
<i>plus one of the following:</i>	
SVY1110	Introduction to Global Positioning System
SVY2301	Automated Surveying Systems
SVY2106	Geodetic Surveying A
SVY3304	Cadastral Surveying
SVY3107	Geodetic Surveying B
SVY3202	Photogrammetry and Remote Sensing
SVY4304	Land and Cadastral Law

¹ The Graduate Certificate of Spatial Science Technology (Surveying) is not available for international on-campus students.

² On-campus study available in Semester 1 only.

Graduate Diploma of Spatial Science Technology

	Duration	8 units 1 year full-time or part-time equivalent
	CRICOS	072982E
	Start date	March, July
	Mode	On-campus, distance education
	Campus	Toowoomba

Why study this degree?

USQ's eight-unit Graduate Diploma of Spatial Science Technology is ideal if you have a three or four-year bachelor degree in a field other than engineering and you want to extend your knowledge in surveying and geographic information systems. You don't even need work experience to commence your postgraduate studies in this degree. This graduate diploma degree is designed for those wishing to build competencies across a broader discipline area than the Graduate Certificate of Spatial Science Technology.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- 3 or 4-year undergraduate degree or equivalent, in an approved discipline.

Further study pathway

Master of Spatial Science Technology

DEGREE STRUCTURE	UNITS
5 x core courses	5
plus 3 x major courses	3
TOTAL	8

Majors

GEOGRAPHIC INFORMATION SYSTEMS

T D

Enhance your technical skills in surveying technology, and study concepts of programming, geo-database design and spatial data visualisation. You will interpret and evaluate data from aerial photographs and laser-scanned images, as well as be introduced to aspects of web-based GIS and database design, land studies, urban and regional planning and the use of sustainable resources.

SURVEYING

T D

You will gain an understanding of the principles involved in determining the size and shape of the earth, and study the analysis and adjustment of survey observations and how to process the data from a variety of practical problems. Develop your knowledge of road design and sustainable urban design, mine surveying, GPS and automated surveying systems, and practices of land and cadastral law.

SVY3304	Cadastral Surveying

A surveyor's average annual salary is AUD **76752**.

MyFuture, 2014

Master of Spatial Science Technology

	Duration	16 units 2 years full-time or part-time equivalent
	CRICOS	081717C
	Start date	March, July
	Mode	On-campus, distance education
	Campus	Toowoomba

Why study this degree?

This postgraduate degree will provide you with skills in spatial science investigations, evaluation and synthesis. It allows you to enhance your knowledge of a particular surveying or spatial science information discipline area for application, research or management purposes. You will also develop research methodology skills to complete a research project, which is a stepping-stone to further research degrees, including a PhD.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- 3 or 4-year undergraduate degree or equivalent, in an approved discipline.

Health and Community

Further your expertise and be equipped with the skills and knowledge to advance your career in a **supportive** and **stimulating** learning environment.

Study what interests you most, whether that be nursing, aged care, community health, mental health, scheduled medicines, rural and remote health, or psychology.

AUD79 605 is the USQ Nursing postgraduate median starting salary, which is **over 8% higher** than the Australian median.

Hobson Course Finder, 2014

Employment for Psychologists and Social Workers is predicted to experience **strong growth** to 2018.

Job Outlook, 2014

By 2018, employment in the Health Care and Social Assistance industry is projected to **increase by 16.3%**.

Labour Market Information Portal, 2014

Graduate Certificate of Alcohol and Drug Studies

 Duration	4 units 1–2 years part-time
 Start date	March, July
 Mode	Distance education

Why study this degree?

The Graduate Certificate of Alcohol and Drug Studies is designed for health professionals wanting to assess substance misuse, undertake motivational interviewing and assist people through relapse prevention. Designed in conjunction with Queensland Health's Alcohol and Drug Training and Resource Unit, this award-winning degree also provides an introduction to psychoactive drugs.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- 3-year bachelor degree or equivalent from a recognised university.

DEGREE STRUCTURE	UNITS
Core courses	4
TOTAL	4

You will develop the core skills of assessment for substance misuse, including assessment and intervention methods and tools, and explore the theoretical basis of relapse prevention. Be introduced to foundation principles of motivational interviewing and learn about different drug classes, the effects of each drug type, and the rehabilitative potential for each.

Overview of courses

PSY5010 Assessment for Substance Misuse
 PSY5020 Motivational Interviewing
 PSY5030 Introduction to Psychoactive Drugs
 PSY5040 Relapse Prevention

Graduate Certificate of Health

 Duration	4 units 1–2 years part-time
 Start date	March, July
 Mode	Distance education

Why study this degree?

The Graduate Certificate of Health is designed to enable health professionals to extend their career and prepare for where the health industry is headed.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- 3-year bachelor degree in a health discipline from an Australian or internationally recognised university, or equivalent.
- Hold current registration as a health professional in Australia or a recognised international registration qualification as a health professional (where relevant).
- Hold current nursing registration with the Australian Health Professional Registration Authority^{2,3}.
- Evidence of certified copies of current basic life-support competency and annual medication competency certification².
- Evidence of certified copies of annual medication competency certification³.
- Evidence to demonstrate 2 years' post-registration experience³.

Professional recognition

The Scheduled Medicines specialisation is accredited with the Nursing and Midwifery Board of Australia (NMBA) to enable graduates to achieve Scheduled Medicines endorsement.

TOTAL	4

Specialisations

You have the option to choose three courses of your own choice with approval by the Program Coordinator, or complete set courses around your chosen specialisation.

GERONTOLOGY¹

The Gerontology specialisation is for health professionals working in aged care. It is designed to help you develop knowledge and expertise in healthy ageing.

COMMUNITY HEALTH

The Community Health specialisation enables health and social-wellbeing practitioners to develop the theoretical knowledge and practical skills to analyse and address human health and social wellbeing issues within a community health framework.

MENTAL HEALTH⁴

The Mental Health specialisation focuses on preparing you to develop expertise in mental health care, and will enable you to work as a clinically skilled member in mental health teams.

RURAL AND REMOTE HEALTH

Rural and Remote Health is designed to enable registered nurses to further develop skills and industry knowledge that will enable them to practise nursing in rural and isolated areas.

RURAL CLINICAL EDUCATION

Rural Clinical Education enables health professionals to develop their knowledge and expertise to work successfully as clinical mentors, facilitators and preceptors in supporting the clinical education of students, peers and other health professionals, with the opportunity to focus on rural and non-urban settings.

SCHEDULED MEDICINES

Scheduled Medicines allows you to apply the coursework to your own workplace during the course of study, making it more relevant to your own practice.

1 Gerontology intensive mode is offered on-campus at Fraser Coast and by distance mode.

2 Only for the Rural and Remote Health specialisation.

3 Only for the Scheduled Medicine specialisation.

4 The Mental Health specialisation includes an on-campus residential school component.

Graduate Diploma of Health

	Duration	8 units 2–4 years part-time
	Start date	March, July
	Mode	Distance education ¹

Why study this degree?

USQ's Graduate Diploma of Health is designed for health professionals who wish to undertake specialised postgraduate health education to assist them prepare for, or extend their practices, in a range of specialty areas. Building on the Graduate Certificate of Health, this degree develops your skills, allowing you to further study at a masters level.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- Minimum 3-year undergraduate degree (AQFL 7) in a health discipline from an Australian or internationally recognised university, or equivalent.
- Be a health professional or working in a relevant health-related area.
- Hold current registration as a health professional in Australia or a recognised international registration qualification as a health professional².
- Have and produce certified copy of current basic life-support competency and annual medication competency certification³.

Professional recognition

Students in the Rural and Remote specialisation may include Scheduled Medicine courses. The Scheduled Medicines specialisation has accreditation with the Nursing and Midwifery Board of Australia to enable graduates to apply for Scheduled Medicines endorsement.

Further study pathway

Master of Health

DEGREE STRUCTURE	UNITS
Core courses	2
plus 6 x specialisation courses	6
TOTAL	8

Specialisations

You have the option to choose six courses of your own choice with approval by the Program Coordinator, or complete set courses around your chosen specialisation.

ADVANCED CLINICAL PRACTICES FOR HEALTH⁴

The focus of this specialisation is to prepare health care professionals working in independent clinical practice areas in the community, such as community health centres or as practice nurses, to develop expertise in areas of chronic illness or community-related health.

COMMUNITY HEALTH

This specialisation focuses on enabling experienced health and social wellbeing practitioners to develop the necessary theoretical knowledge and practical application skills. These skills will allow you to analyse and address human health and social wellbeing issues within a community health framework.

HEALTH LEADERSHIP

Incorporating rural clinical education, Health Leadership focuses on the types of leadership and leadership issues from the perspective of teams. This specialisation prepares you to become a leader in your area and develop knowledge and expertise to work as a clinical mentor, facilitator and preceptor in supporting the clinical education of students, peers and other health professionals, with focus on rural and non-urban settings.

MENTAL HEALTH¹

Available for nurses and health professionals, the Mental Health specialisation develops your expertise in mental health care and enables you to work as a clinically skilled member of mental health teams in developing and established services.

GERONTOLOGY

Incorporating aged care, this specialisation uses a wellness model to promote the notion of older people, or people with a disability, living as well as they can even in the face of illness. The courses are designed to enhance the knowledge and expertise of health professionals working with the older person in a variety of health settings.

RURAL AND REMOTE HEALTH⁴

This specialisation has been developed for registered nurses who want to further their knowledge and advance their nursing skills in the area of rural and isolated practice. Registered nurses also have the option to incorporate courses from Scheduled Medicines within the Rural and Remote Health specialisation.

1 The Mental Health specialisation includes an on-campus residential school component.

2 Applicants with an undergraduate relevant qualification who are not required to hold current registration for their position in the relevant health-related area may apply for assessment for entry on an individual basis.

3 For Rural and Remote specialisation incorporating Scheduled Medicines. In addition, students selecting the Scheduled Medicines courses within this specialisation must be registered as a nurse in Division One of the Nursing and Midwifery Board of Australia and must be able to demonstrate at least one year of full-time clinical experience. Applicants must provide a detailed CV, including education, clinical experience, professional development, and full-time equivalent for each employer. USQ requires written confirmation that the applicant is currently practising as a registered nurse (RN) and can complete required hours of clinical mentorship in their workplace. These courses are only available for students from Australia.

4 There is a compulsory clinical requirement.

5 Available on-campus at USQ Fraser Coast only.

6 Compulsory clinical or residential school component.

7 ANP5002 is only available to students who hold current nursing registration with the Australian Health Professional Registration Authority (AHPRA) and are located in Australia.

By 2018, there will be an additional **50 000** job openings for aged and disabled carers in Australia.

Job Outlook, 2014

Postgraduate Diploma of Professional Psychology

	Duration	8 units 1 year full-time or part-time equivalent
	CRICOS	075024E
	Start date	March
	Mode	On-campus ¹
	Campus	Springfield

Why study this degree?

If you have you already completed a four-year psychology degree and are looking to obtain full registration with the Psychology Board of Australia, then USQ's Postgraduate Diploma of Professional Psychology, along with an extra year of supervised practice in the workplace, has been designed to get you into the workplace as a practising psychologist.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 7.0 or equivalent (no component lower than 7.0).
- Completed an Australian Psychology Accreditation Council –(APAC)- accredited 4-year sequence in psychology within the last 10 years.
- Be eligible for provisional registration as a psychologist with the Psychology Board of Australia.
- Provide 2 satisfactory referee reports.
- Be assessed in a face-to-face or via a teleconferencing interview with a panel of departmental staff.

Professional recognition

This degree is provisionally accredited by the Australian Psychology Accreditation Council (APAC) as a fifth-year degree in psychology. Graduates will be eligible to apply for general registration with the Psychology Board of Australia after a further one year of full-time

supervised practice. Graduates will also be able to apply for full membership to the Australian Psychological Society after a period of supervised practice.

Practical experience

You are required to accumulate 300 hours of practical experience, with an additional 40 hours of supervision from a registered psychologist.

DEGREE STRUCTURE	UNITS
Core courses	5
<i>plus</i> 1 x elective	1
<i>plus</i> 2 x practical experience courses	2
TOTAL	8

Develop your interviewing and report-writing skills, as well as your cultural competency and professional ethics. You will focus on discipline knowledge and intervention strategies, and learn about the physical and emotional development encountered by people in different stages of their life. Be introduced to a wide variety of methodological and statistical techniques which will assist you in evaluating treatment efficiency and overall clinical practices.

Overview of courses

CORE COURSES¹

PSY5110 Ethical, Legal and Professional Issues
 PSY5140 Comprehensive Psychological Assessment
 PSY5145 Intervention Strategies
 PSY5050 Research Methods for Practitioners
 PSY5060 Practice Across the Lifespan
plus one elective from the following:
 PSY5030 Introduction to Psychoactive Drugs
 PSY5040 Relapse Prevention

PRACTICAL COURSES

PSY5130 Psychology Practicum 1²
 PSY5230 Psychology Practicum 2²

¹ All courses are offered as on-campus Saturday workshops.

² Students are required to accrue a minimum of 300 hours of practical experience, with an additional minimum of 40 hours of supervision from a registered psychologist.

Master of Health

	Duration	12 units 3–5 years part-time
	Start date	March, July
	Mode	Distance education ¹

Why study this degree?

USQ's Master of Health is designed for health professionals who wish to undertake specialised postgraduate health education to assist them prepare for, or extend their practice in a range of speciality areas. It extends and provides depth in selected areas of specialisation, providing busy health professionals with the opportunity to develop and extend their skills and knowledge. In addition, students will also undertake research training to qualify them to apply for further advanced study.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- Minimum 3-year undergraduate degree (AQFL 7) in a health discipline from an Australian or internationally recognised university, or equivalent.
- Be a health professional or working in a relevant health-related area.
- Hold current registration as a health professional in Australia or a recognised international registration qualification as a health professional².
- Have and produce certified copy of current basic life-support competency and annual medication competency certification³.

Professional recognition

Students in the Rural and Remote specialisation may include the Scheduled Medicines courses. The Scheduled Medicines specialisation is accredited with the Nursing and Midwifery Board of Australia (NMBA) to enable graduates to apply for Scheduled Medicines endorsement.

DEGREE STRUCTURE	UNITS
Core courses	5
plus 6 x specialisation courses	6
plus 1 x elective	1
TOTAL	12

Specialisations

You have the option to choose six courses and one elective of your own choice with approval by the Program Coordinator, or complete set courses around your chosen specialisation.

ADVANCED CLINICAL PRACTICES FOR HEALTH⁴

This specialisation will prepare health care professionals working in independent clinical practice areas within the community. This degree also offers you the opportunity to develop your expertise to promote resilience related to disaster experiences.

COMMUNITY HEALTH

The Community Health specialisation enables experienced health and social wellbeing practitioners to develop the necessary theoretical knowledge and practical application skills to analyse and address human health and social wellbeing issues within a community health framework.

HEALTH LEADERSHIP

The development of types of leadership and leadership issues from the perspective of teams is an essential component of health leadership. This specialisation develops the knowledge of health professionals to work effectively as clinical mentors, facilitators and preceptors in supporting the clinical education of students, peers and other health professionals, with a focus on rural and non-urban settings.

MENTAL HEALTH¹

Open to health professional who want to extend their expertise in mental health, this specialisation prepares you to develop expertise in mental health care and enables you to work as a clinically skilled member of mental health teams in developing and established services.

GERONTOLOGY

This specialisation focuses on the broader perspective to address quality of life care for people with disabilities, as well as the elderly. It is designed to enhance the knowledge and expertise of health professionals working with the older person in a variety of health settings.

RURAL AND REMOTE HEALTH^{3,4}

This is an ideal specialisation for registered nurses wishing to further their knowledge and advance their nursing skills in rural and isolated practice. You have the option to incorporate Scheduled Medicines courses to further advance your knowledge.

1 The Mental Health specialisation includes an on-campus residential school component.

2 Applicants with an undergraduate relevant qualification who are not required to hold current registration for their position in the relevant health-related area may apply for assessment for entry on an individual basis.

3 For Rural and Remote specialisation incorporating Scheduled Medicines. In addition, students selecting the scheduled medicines courses within this specialisation must be registered as a nurse in Division One of the Nursing and Midwifery Board of Australia and must be able to demonstrate at least one year of full-time clinical experience. Applicants must provide a detailed CV, including education, clinical experience, professional development, and full-time equivalent for each employer. USQ requires written confirmation that the applicant is currently practising as a registered nurse (RN) and can complete required hours of clinical mentorship in their workplace. These courses are only available for students from Australia.

4 There is a compulsory clinical requirement.

5 Available on-campus at USQ Fraser Coast only.

Master of Nursing

 Duration	12 units 1.5 years full-time or part-time equivalent
 Start date	March, July
 Mode	Distance education

Why study this degree?

Our Master of Nursing is designed to encourage and develop critical thinking; the degree aims to broaden your skills through studies in health care, law and cultural awareness. With a focus on professional studies, you will be enabled to identify your own objectives in consultation with our nursing academic staff. In addition, students will also undertake research training to qualify them to apply for further advanced study.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- Be a registered nurse (certified copy of your Current Annual Licence Certificate required) holding a 3-year Bachelor of Nursing degree from an Australian university, or equivalent.
- While not mandatory, it would be beneficial and preferable to have clinical experience as a registered nurse.
- A formal process of Accreditation of Prior Learning (APL) will be used to assess registered nurses, without bachelor degrees, who wish to gain entry to the degree on the basis of formal qualifications. Applicants should contact the Program Coordinator if they wish to be assessed for admission on this basis.

DEGREE STRUCTURE

	UNITS
Core courses	6
<i>plus</i> 3 x electives	3
<i>plus</i> 3 x research courses	3
TOTAL	12

You will gain a deeper understanding of your own clinical practice through observation and critical reflection, and also focus on health policy analysis and the legal aspects for the experienced nurse. Examine culture awareness and the impact culture can have on communities in terms of health care needs and provision. Build on your research skills and draw on your previous experiences to complete your degree.

Overview of courses

CORE COURSES

ANP8003 Management in Health Care Practice
 HEA8302 Culture as a Determinant of Health
 NUR8060 Health Policy Analysis and Review
 HSC8050 Research Methodology for the Human Sciences
 NUR8550 Professional Studies 1
 NUR8340 The Law and Health Care Practice
 plus **three** electives

RESEARCH COURSES

HSC8060 Research Project Design
 HSC8070 Masters Project A
 HSC8080 Masters Project B

Master of Psychology (Clinical)

	Duration	16 units 2 years full-time or part-time equivalent
	CRICOS	056705D
	Start date	March
	Mode	On-campus
	Campus	Toowoomba

Why study this degree?

If you want to advance your professional skills and specialise in Clinical Psychology, then USQ's Master of Psychology (Clinical) provides advanced training in psychological assessment and clinical intervention. This degree offers much of the coursework component in three, two-day workshops, for each course, spread over the semester. With a focus on rural clinical health, this degree has been developed to meet the needs of psychologists wishing to specialise in Clinical Psychology, by providing advanced training in psychological assessment, clinical intervention and a range of professional skills within a scientist-practitioner framework.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 7.0 or equivalent (no component lower than 7.0).
- Demonstrated achievement of a minimum of Second Class Honours Division A in an Australian Psychology Accreditation Council (APAC) accredited 4-year honours degree or equivalent.
- Provide 2 satisfactory referee reports, indicating the applicant's ability to successfully undertake both the professional and research components of the degree.
- Be assessed in an interview with a panel of departmental staff as having the interpersonal skills required for professional coursework.
- Before commencing the degree, students must have General Registration with Probationary Conditions or full registration from the Psychologists Board of Australia.

Professional recognition

After a period of supervised practice, graduates may:

- apply for full registration with the Psychologists Board of Australia
- apply for general membership to the Australian Psychological Society
- apply for admission to the College of Clinical Psychology of the Australian Psychological Society.

Practical experience

You are required to accumulate a minimum of 1000 hours of practical experience, including at least 180 hours of supervision from a registered psychologist who is a member of the Australian Psychological Society Clinical College.

DEGREE STRUCTURE	UNITS
Core courses	16
TOTAL	16

In addition to starting your psychology masters project and clinical placement, you will develop your interviewing and report-writing skills, as well as cultural competency and professional ethics. You will also expand on your discipline knowledge, basic clinical diagnostics and assessment of individual behaviour, and gain an understanding of common psychological disorders.

Overview of courses

CORE COURSES

PSY8010 Issues and Skills in Professional Practice
 PSY8040 Individual Assessment
 PSY8045 Clinical Assessment and Intervention I
 PSY8065 Adult Psychopathology
 PSY8020 Advanced Research Techniques
 PSY8050 Clinical Assessment and Intervention II
 PSY8130 Practicum 1¹
 PSY8160 Psychology Masters Project A
 PSY8060 Health Psychology
 PSY8071 Child and Adolescent Psychopathology
 PSY8140 Practicum 2¹
 PSY8170 Psychology Masters Project B³
 PSY8151 Masters Practicum 3^{1,2}

¹ Students are required to accrue a minimum of 1000 hours of practicum experience, including at least 180 hours of supervision from a registered psychologist who is a member of the Australian Psychological Society Clinical College.

² Two-unit course.

³ Three-unit course.

Master of Psychology/PhD (Clinical Psychology)

	Duration	32 units 4 years full-time or part-time equivalent
	CRICOS	086303G
	Start date	March, July
	Mode	On-campus
	Campus	Toowoomba

Why study this degree?

If you want to advance your professional and academic skills and specialise in Clinical Psychology, then USQ's Master of Psychology/PhD (Clinical Psychology) provides advanced training in psychological assessment and clinical intervention, combined with a high level of research knowledge and skills the PhD supplies.

Through your studies, you will become a specialist psychologist with an in-depth knowledge to tackle emerging and current themes in the mental wellbeing of your clients. Including coursework, research and 1200 hours of practical experience, your studies will allow you to explore numerous topics.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 7.0 or equivalent (no component lower than 7.0).
- Completed the first year of USQ's Master of Psychology (Clinical), or other APAC-accredited degree, with a GPA of 6.0 or higher.
- Submit a dissertation proposal.

Professional recognition

As a graduate of the Master of Psychology/PhD (Clinical Psychology) you can apply for general registration with the Psychology Board of Australia, and full membership to the Australian Psychological Society.

In addition, you can apply for Clinical Psychology endorsement with the Psychology Board of Australia after a period of supervised practice, and admission to the College of Clinical Psychology of the Australian Psychological Society after a period of supervised practice.

Practical experience

You are required to accumulate a minimum of 1200 hours of practical experience, with at least 180 hours of that being supervised by a registered psychologist who is a member of the Australian Psychological Society Clinical College.

DEGREE STRUCTURE	UNITS
Coursework courses	7
Practice courses	1
Research courses	22
TOTAL	32

Some of the topics you will study include individual and group clinical intervention, diagnostic interview skills in complex clinical presentations, and expert research skills in interpretation and analysis.

Overview of courses

COURSEWORK COURSES

PSY8010 Issues and Skills in Professional Practice
 PSY8040 Individual Assessment
 PSY8045 Clinical Intervention
 PSY8050 Advanced Clinical Intervention
 PSY8060 Health Psychology
 PSY8065 Adult Psychopathology
 PSY8071 Child and Adolescent Psychopathology

PRACTICE COURSES

PSY8130 Practicum 1
 PSY8140 Practicum 2
 PSY8150 Practicum 3

RESEARCH COURSES

PSY8020 Advanced Research Techniques
 PSY9152 Clinical Psychology Practicum Case Studies
 PSY9160 Clinical Psychology Masters Project A²
 PSY9170 Clinical Psychology Masters Project B²
 RES9503 Doctor of Philosophy Studies³

¹ PSY9152 Clinical Psychology Practicum Case Studies is a research course that directly relates to the practicum experience.

A USQ Psychology degree can lead to many exciting opportunities.

Identify which degree is right for you.

Career opportunities

Use the problem-solving and people skills you gained from your USQ Psychology degree for an array of careers, including:

- customer service
- market research
- human resources
- social justice
- welfare support officer.

Our students have found career opportunities at Queensland Police, Drug Arm, Disability Services, local schools and NGOs, just to mention a few. In fact, 75 percent of USQ Psychology graduates go on to work in private industry and practice (*Hobsons Course Finder, 2014*).

Psychology Clinic

As a psychology student, you will be able to put your skills to practice in the USQ Psychology Clinic. As a community psychological service centre for children, adolescents and adults, the Psychology Clinic will give you a great opportunity to expand your clinical and professional skills.

Humanities and Creative Arts

Develop **advanced skills** in corporate communication, editing and publishing, professional studies, humanities and communication or creative arts. USQ has a broad range of areas to study in humanities and creative areas; you will find just the right degree to **increase** and **broaden your expertise** and further your successful career in the arts industry.

If you are planning on working and studying at the same time, our Professional Studies degrees gives you the opportunity to **further your career** and gain postgraduate qualifications by developing a workplace based research project that will develop your expertise in your professional field whilst benefiting your current place of employment.

Humanities graduates with a graduate certificate/diploma enjoy a median starting salary of

AUD68 000 which is **over 27% more** than bachelor degree graduates.

Graduate Careers, 2014

Our Communication postgraduates have **better overall satisfaction** when compared with other Australian institutions.

Hobsons Course Finder, 2014

Graduate Certificate of Editing and Publishing

 Duration	4 units 1 year part-time ¹
 Start date	March
 Mode	Distance education

Why study this degree?

Our Graduate Certificate of Editing and Publishing will equip you with the technical skills, and an understanding of the legal and ethical constraints and editorial processes necessary for a successful career in print and digital editing and publishing.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent.
- 3-year bachelor degree or equivalent.

Further study pathway

Master of Arts

DEGREE STRUCTURE	UNITS
Core courses	4
TOTAL	4

In this degree, you will gain the skills needed to be a successful editor. As well as developing your proofreading, copy editing and structural editing techniques, you will learn to identify readable and effective format and design, along with a focus on legal and ethical concerns. Discover the importance of professional communication, and how to work effectively with the publishing team, including authors, designers and digital publishing professionals.

Overview of courses

CORE COURSES

PUB5001 Introduction to Editing and Publishing
 PUB5002 Writing for Editors: Basic
 PUB5003 Editing Practice
 PUB5004 Writing for Editors: Advanced

¹ There is no Semester 2 intake for this degree.

Graduate Certificate of Professional Studies

 Duration	4 units 0.5 year full-time or part-time equivalent
 Start date	March, July, November
 Mode	Distance education

Why study this degree?

The Graduate Certificate of Professional Studies is specifically designed so that you can develop your professional expertise and gain a postgraduate qualification which leverages your experiences in your current employment position.

You will combine your studies with workplace-based projects and research in your current employment position, leading to benefits for both you and your workplace. Professional Studies is a modern way of opening up university learning opportunities and qualifications for busy professionals.

Entry requirements

- Minimum of IELTS 6.5 or equivalent.
- 3-year bachelor degree from an Australian university, or equivalent *plus*
- have the equivalent of at least 3 years' experience in their field of professional practice¹
- Additional entry requirements are needed for this degree. Please see usq.edu.au/study for more information.

Further study pathway

Master of Professional Studies

DEGREE STRUCTURE	UNITS
2 x compulsory courses	4
TOTAL	4

In this degree, you will learn how to critically review literature to address theoretical and practical questions and issues in your professional workplace. You will be required to design and implement a work-based project to further investigate your unique workplace questions and issues.

By completing the Graduate Certificate of Professional Studies, you will gain a postgraduate qualification which demonstrates your high level of expertise in your profession, and makes a significant contribution to your organisation and your own personal and professional development.

Overview of courses

CORE COURSES

WRP8000 Fundamentals of Professional Studies²
 WRP8010 Work-based Research Project A²

¹ Significant experience in a profession or a combination of experience and other tertiary award will be considered in gaining entrance to the degree.

² Two-unit course.

Master of Arts

	Duration	12 units 1.5 years full-time or part-time equivalent
	CRICOS	081818J
	Start date	March, July
	Mode	On-campus, distance education, online
	Campus	Toowoomba

Why study this degree?

USQ's Master of Arts will allow you to gain advanced awareness, understanding and appreciation of the complexities of human thought, expression and behaviour in your chosen areas of study. You will develop your capacity for research and scholarship at a higher level and will enhance your personal, cultural, creative and intellectual capacities.

By choosing one of four specialisation areas, you will focus your research and learning in your area of interest and further enhance your expertise and creative passion.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum IELTS 6.5 or equivalent (no component lower than 6.0).
- 3-year bachelor degree with a minimum GPA of 5.0 or equivalent professional experience¹.

NOTE

Non-USQ applicants may occasionally also be required to submit portfolios, samples of work, or attend an interview or audition, as appropriate.

Majors

CORPORATE COMMUNICATION

Strengthen your career prospects as a skilled public relations practitioner in the areas of strategic corporate and organisational communication, crisis management and community consultation in your coursework and professional development projects. Your research will allow you to focus on a major corporate communications project which will be a great addition to your portfolio.

CREATIVE ARTS

You will have the opportunity to undertake a specialised project in film, television and radio, music, theatre or visual arts. To cater to your interests, you will be able to focus on your area of expertise through studio time and targeted supervision.

EDITING AND PUBLISHING

Extend your present qualifications and experience within the publishing industry, with an additional focus on ethical, management and legal elements of professional editing and publishing. Your complementary research project provides the opportunity to produce a large-scale editing and publishing project to further enhance your portfolio.

HUMANITIES AND COMMUNICATION

Delve into communication and media studies, English literature, history, international relations, journalism, or social sciences in your own research project. This major allows you to develop research skills in your area of expertise.

Information Technology

Information technology is one of the most exciting areas of employment with work available in a **variety** of industries.

Designed with the workplace in mind, you are guaranteed to be prepared to advance or commence a career in the information technology industry.

With USQ's Master of Computing Technology, you can **enhance** your computer skills and build on the knowledge from your previous computing studies, or you can **expand** your career prospects and gain a **professional qualification** in computing, **without prior computing study**.

A number of USQ's postgraduate Information Technology degrees are **professionally accredited** with the Australian Computer Society (ACS) and are internationally recognised through the Seoul Accord.

Employment for ICT Managers is predicted to **grow very strongly** to 2018.

Job Outlook, 2014

USQ's computing and information technology postgraduate median starting salary is

AUD 110 360
which is **over 8% higher**
than all Australian graduates.

Hobsons Course Finder, 2015

Graduate Diploma of Information Technology

	Duration	8 units 1 year full-time or part-time equivalent
	CRICOS	066137D
	Start date	March, July, November
	Mode	On-campus, distance education
	Campus	Toowoomba

Why study this degree?

The Graduate Diploma of Information Technology is great for students from disciplines other than computing or information systems to gain professional qualifications in computing. USQ's Information Technology degrees are flexible and relevant to the ever-changing IT environment. As a graduate, you will become a better problem-solver and innovative thinker.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.0 or equivalent (no component lower than 5.5).
- 3-year bachelor degree or equivalent from a recognised university in an area other than computing
or
- an equivalent qualification or relevant work experience.

Master of Computing Technology

	Duration	16 units 2 years full-time or part-time equivalent
	CRICOS	083407A
	Start date	March, July
	Mode	On-campus, distance education
	Campus	Toowoomba

Why study this degree?

The Master of Computing Technology is designed with industry in mind. If you have completed an undergraduate degree in any discipline and you want to work in computing, this degree will meet both your academic and vocational needs. You will gain skills and knowledge in key areas of computing, including networking and system security, software and the Web.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.0 or equivalent (no component lower than 5.5).
- 3-year bachelor degree from a recognised university, or equivalent
plus
- introductory knowledge of computing.

Professional recognition

The Master of Computing Technology has conditional accreditation at the Professional level by the Australian Computer Society and, through the Seoul Accord, is recognised in other countries.

DEGREE STRUCTURE	UNITS
Major courses	10
<i>plus</i> 1 x research project	4
<i>plus</i> 2 x electives	2
TOTAL	16

Majors

NETWORKING AND SYSTEM SECURITY

Learn the fundamental concepts of networking and routing, including design and analysis, and methods of implementing network security based on cryptography. You will discover the flexibility and security of local area networks, WAN technologies, and wireless communication. Increase your knowledge of computer system design and advanced web data management.

SOFTWARE AND THE WEB

You will be introduced to software engineering and development tools, as well as examine basic principles of networking, routing, database design and query processing. Explore the structure of programming languages, the techniques of object-oriented programming in Java, and the theoretical and practical aspects related to mobile devices.

CSC8415	Computer Network Programming
CSC8419	Cryptography and Security
MSC8001	Research Project I ^{1,2}
MSC8002	Research Project II ^{1,2}

plus two courses from Group 1, Group 2, or Group 3 courses

SOFTWARE AND THE WEB MAJOR

CSC2406	Web Technology
CSC2407	Introduction to Software Engineering
CSC2408	Software Development Tools
CSC8500	Advanced Relational Database Design and Technology
CSC8503	Principles of Programming Languages
CSC8507	Networking Technologies
CSC8409	XML and Semantic Web Services
CSC8416	Advanced Programming in Java
CSC8417	Advanced Web Data Management
CSC8420	Mobile Systems
MSC8001	Research Project I ^{1,2}
MSC8002	Research Project II ^{1,2}

plus two courses from Group 1, Group 2, or Group 3 courses

1 Enrolment into the courses MSC8001 and MSC8002 are subject to availability of research projects and approval from project supervisors.

2 Two-unit courses.

Law and Justice

A USQ law degree will lead to ***opportunities to practise law around the world.*** A law degree can also prepare you for many other great careers in business, commerce and government.

At USQ, law students enjoy abundant opportunities to network with practising legal professionals. These opportunities all help to secure you future career in law.

USQ's law degrees have been developed with an Advisory Committee of senior judges and lawyers, who have given it their enthusiastic endorsement.

78.5%
of law graduates go on
to full-time employment.

Graduate Careers Australia, 2014

Above average growth
is expected for future employment
of solicitors to November 2018.

Job Outlook, 2014

Juris Doctor

 Duration	24 units 3 years full-time or part-time equivalent
 Start date	March, July
 Mode	Distance education

Why study this degree?

The Juris Doctor is a graduate-entry degree for students who already have a degree in a field other than law and who wish to pursue a professional career in law or in law-related work in business or government. You can enter the Juris Doctor rather than the undergraduate Bachelor of Laws. We understand you are starting this degree with a wealth of knowledge, so the Juris Doctor is pitched at a higher level to challenge you throughout your studies, and in the second and third years has a much stronger element of research work in the degree.

NOTE

This qualification does not entitle graduates to use the title 'Doctor'.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- Approved 3-year undergraduate degree or equivalent, in an area other than law from a recognised institution.

Professional recognition

The Juris Doctor has been accredited by the Legal Practitioners Admissions Board, Queensland and the Chief Justice of the Supreme Court of Queensland as an approved academic qualification under the *Supreme Court (Admission) Rules 2004 (Qld)*.

This will partially satisfy the requirements to practise as a solicitor or barrister in Queensland or as a legal practitioner elsewhere in Australia. Intending solicitors and barristers must also complete approved practical legal training in order to be admitted into practice. All USQ Law graduates have the option of completing their practical legal training through a one-year traineeship in a law practice, or through an institution that offers a practical legal training qualification.

DEGREE STRUCTURE	UNITS
Core courses	21
<i>plus</i> 3 x law electives	3
TOTAL	24

You will gain an overall knowledge of advanced law procedures and processes, from contracts, torts and the legal process, to criminal law, property law and the complicated area of evidence – what can be used in court proceedings, who can use it and how it can be used.

Overview of courses

CORE COURSES

LAW5111 Advanced Australian Legal System
 LAW5112 Advanced Legal Writing and Research
 LAW5113 Advanced Civil Obligations A (Contract and Torts)
 LAW5114 Advanced Law in Context
 LAW5121 Advanced Criminal Law
 LAW5122 Advanced Legal Conflict Resolution
 LAW5123 Advanced Civil Obligations B (Contract)
 LAW5124 Advanced Civil Obligations C (Torts)
 LAW5211 Advanced Constitutional Law
 LAW5212 Advanced Equity
 LAW5213 Advanced Property and Trusts A
 LAW5221 Advanced Administrative Law
 LAW5222 Advanced Public International and Human Rights Law
 LAW5223 Advanced Property and Trusts B
 LAW5224 Advanced Theories of Law
 LAW5311 Advanced Company Law
 LAW5312 Advanced Ethics for Lawyers
 LAW5321 Advanced Evidence
 LAW5322 Advanced Civil Procedure
 LAW5323 Advanced Research Project
 LAW8001 Legal Research Methodology

plus three law electives.

Juris Doctor

Sciences

Whether you are looking to **increase** your already existing knowledge and skills, or are interested in broadening your knowledge in new areas, postgraduate sciences degrees are an **exciting** option to **expand your career prospects**.

Science degrees are incredibly **versatile**. If you are a journalist, you could expand your career prospects by studying the Graduate Certificate of Climate Adaptation, which would qualify you to report weather. USQ alumnus and television news presenter, Angie Asimus, did exactly that.

Climate Adaptation, Mathematics and Statistics, Astronomy, Environment and Sustainability, and Research are just a small sample of the many areas available to study in Sciences at USQ.

USQ has invested **over AUD2.5 million** in developing world-class research laboratories at its campuses.

AUD76 273 is the postgraduate starting salary for environmental studies.

Hobsons Course Finder, 2014.

Our science postgraduates have **better overall satisfaction** when compared with other Australian institutions.

Hobsons Course Finder, 2014.

Graduate Certificate of Climate Adaptation

	Duration	4 units 1 year part-time
	Start date	March, July
	Mode	Distance education

Why study this degree?

A Graduate Certificate of Climate Adaptation will provide you with the skills and knowledge to allow you to apply the principles of climate adaptation across a range of different professions, and assess possible climate risks and opportunities. On completion of this certificate, you will be able to demonstrate an in-depth understanding of global climate change, as well as scientific knowledge and concepts. You will also be adept at assessing the impact humans have upon the constantly changing climate system.

Throughout the course, you will have the opportunity to get a taste of natural resource management by a selection of courses offered by the Australian National University (ANU).

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum IELTS 6.5 or equivalent (no component lower than 6.0).
- 3-year degree from an Australian university, or equivalent.

DEGREE STRUCTURE	UNITS
Core courses	3
1 x Climate Change and Adaption courses or 1 x Natural Resource Management and Sustainability course ¹	1
TOTAL	4

CLIMATE CHANGE AND ADAPTATION

You will be introduced to the tools that facilitate climate change adaptation and mitigation, and review the risks associated with environmental changes. You will also explore the dynamics of global environmental systems, the weather and climate systems of the world, and focus on policy communicating international, national and state-wide activities, such as the Kyoto protocol.

D

NATURAL RESOURCE MANAGEMENT

AND SUSTAINABILITY

D

Increase your knowledge of biodiversity, conservation and management of natural, production and disturbed systems. You will also study ecological principles as a basis for managing Australia's land and water resources sustainability.

Overview of courses

CORE COURSE

CLI3302 Adaptation to Climate Change
CLI8204 Global Environmental Systems
CLI8205 Climate and Sustainability
plus one from the following:

CLIMATE CHANGE AND ADAPTATION COURSES

CLI1110 Weather and Climate
CLI2201 Climate Change and Variability
CLI3301 Climate and Environment Risk Assessment

NATURAL RESOURCE MANAGEMENT

AND SUSTAINABILITY COURSES

REN3301 Biodiversity and Conservation
REN3302 Sustainable Resource Use

Explore new skills

'I decided to do postgraduate study to gain a career advantage. I am looking to grow and contribute more to USQ in teaching and researching aspects.'

Zanariah Abdullah

Doctor of Philosophy

Graduate Certificate of Science

 Duration	4 units 0.5 year full-time or part-time equivalent
 CRICOS	069701A
 Start date	March, July
 Mode	On-campus, distance education
 Campus	Toowoomba

Why study this degree?

If you have already completed a degree, the Graduate Certificate of Science will allow you to explore your interests and enhance your professional skills in science. This degree is flexible and relevant to a workforce that thrives on science and technology. It gives you the option to choose courses according to your individual needs, interests and prior study.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- 3-year degree from an Australian university or equivalent.

DEGREE STRUCTURE	UNITS
Any 4 courses from undergraduate science, computing, statistics or mathematics courses ¹	4
TOTAL	4

Biologists have a median salary of AUD **78 000**.

Job Outlook, 2014

Courses can be chosen from one, or a combination of, the disciplines shown in the following table:

Subject area	Residential School requirements for distance education courses
Agricultural Science	Some courses available externally with no residential school, some courses available with a compulsory residential school on-campus
Applied Data Science	Available in both modes – no residential school requirement
Astronomy	Distance education only – no residential school requirement
Biology	Some courses available on-campus, some courses available in both modes – some external courses have compulsory residential schools
Chemistry	Some courses available on-campus, some courses available in both modes – some external courses have compulsory residential schools
Computing	Available in both modes – no residential school requirement
Environment and Sustainability	Available in both modes – no residential school requirement
Mathematics	Available in both modes – no residential school requirement
Mathematics for High School Teaching	Available in both modes – no residential school requirement
Mathematics for Primary/Middle School Teaching	Available in both modes – no residential school requirement
Physics	Available in external mode only – recommended courses have no residential school requirement
Science for Primary/Middle School Teaching	Some courses are available externally with no residential schools, some courses available with a compulsory residential school on-campus
Statistics	Available in both modes – no residential school requirement
Wine Science	Some courses available externally with no residential schools, some courses available with a compulsory residential school on-campus

¹ You may also have the option to select a fourth course from outside of these disciplines. At least two courses must be Level 8 (all specialisations).

Graduate Diploma of Science

	Duration	8 units 1 year full-time or part-time equivalent
	CRICOS	031448M
	Start date	March, July
	Mode	On-campus, distance education
	Campus	Toowoomba

Why study this degree?

The Graduate Diploma of Science is an eight-unit degree aimed to those of you who have completed a three-year tertiary degree. Offering a variety of courses, including studies in Agricultural Science, Applied Data Science, Environment and Sustainability, Mathematics and Statistics and Physics and Astronomy, the flexible degree enables you to acquire knowledge and skills relevant to your current or future career.

Graduates of this degree have the skills and knowledge required to solve mathematical problems and contribute at a higher level in their profession. The degree is also an ideal choice for teachers and other professionals wishing to upgrade their skills, and those of you wishing to articulate into masters or PhD study.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- 3-year degree from an Australian university, or equivalent.

DEGREE STRUCTURE	UNITS
1 x specialisation	8
TOTAL	8

Overview of courses

AGRICULTURAL SCIENCE

CORE COURSES

CLI8001 Climate Risk
AGR8001 Food Security in the 21st Century
AGR8003 Critical Issues in Agriculture
AGR8002 Emerging Technologies in Agriculture
plus four from the following:

AGRICULTURAL PRACTICES THEME

AGR2302 Agricultural Machinery
AGR2301 Agricultural Science
AGR2902 Field Practice
AGR3303 Agricultural Materials and Post-Harvest Technologies
AGR3304 Soil Science
AGR3305 Precision and Smart Technologies in Agriculture
AGR3905 Agricultural Engineering Practice
AGR4305 Agricultural Soil Mechanics
ENV2201 Land Studies

WINE TECHNOLOGY THEME

WIN1101 Grape and Wine Production
WIN2215 Wine Biochemistry and Microbiology
WIN2200 Viticultural and Winemaking Practice
WIN2210 Viticultural Principles and Production
WIN3310 Wine Sensory Analysis
WIN3304 Viticultural and Winemaking Practice 2

BIOLOGY THEME

BIO1101 Biology 1
BIO2103 Biology 2
BIO2107 Cell and Molecular Biology 1
BIO2202 Plant Physiology
STA2300 Data Analysis
BIO2219 Genetics
CHE1110 Chemistry 1
STA2300 Data Analysis
SCI3302 Industry Placement
BIO8201 Biology Foundations
BIO3207 Cell and Molecular Biology 2
CHE2120 Chemistry 2
SCI3302 Industry Placement

CLIMATE THEME

CLI1110 Weather and Climate
CLI2201 Climate Change and Variability
CLI3301 Climate and Environment Risk Assessment
CLI3302 Adaptation to Climate Change

APPLIED DATA SCIENCE

CIS8008 Business Intelligence
CSC8500 Advanced Relational Database Design and Technology
STA8005 Multivariate Analysis for High-Dimensional Data
CSC8004 Data Mining
CSC8001 Introduction to Data Science and Visualisation
CSC8002 Data Management
CSC1401 Foundation Programming
STA2300 Data Analysis

ENVIRONMENT AND SUSTAINABILITY

CORE COURSES

REN8101 Environment, Society and Sustainability
CLI8204 Global Environmental Systems
CLI3301 Climate and Environment Risk Assessment
CLI8205 Climate and Sustainability
REN3302 Sustainable Resource Use
REN8202 Conversation for Sustainable Futures
plus one from the following:
POL3013 Sustainability and Politics
URP4203 Urban and Regional Planning
plus one from the following:
REN3301 Biodiversity and Conservation
CLI3302 Adaption to Climate Change
BIO8201 Biology Foundations
ECO8012 Methods for Sustainable Development

MATHEMATICS AND STATISTICS

T D

Students must complete any eight courses; provided that at least two level 8 courses and at least two extra level 3 or 8 courses are completed.

Select **four** from the following:

- MAT1100 Foundation Mathematics
- MAT1101 Discrete Mathematics for Computing
- MAT1102 Algebra and Calculus I
- MAT1200 Operations Research 1
- CSC1401 Foundation Programming
- CSC2401 Algorithms and Data Structures
- MAT2409 High Performance Numerical Computing
- MAT2100 Algebra and Calculus II
or

ENM2600 Advanced Engineering Mathematics

STA2300 Data Analysis

STA2301 Distribution Theory

STA2302 Statistical Inference

CSC2402 Object-Oriented Programming in C ++

Select at least **two** from the following:

- MAT3105 Harmony of Partial Differential Equation
- MAT3103 Mathematical Modelling and Dynamical Systems
- MAT3104 Mathematical Modelling in Financial Economics
- MAT3201 Operations Research 2
- SCI3320 Industry Placement B
- CSC8410 Independent Studies in Computing/Mathematics/Statistics A
- MAC8901 Issues in Teaching Mathematics
- MAT8180 Mathematics/Statistics Complementary Studies A
- MAT8190 Mathematics/Statistics Complementary Studies B
- STA8180 Advanced Statistics A
- STA8190 Advanced Statistics B

Select at least **two** from the following:

- CSC8410 Independent Studies in Computing/Mathematics/Statistics A
- MAC8901 Issues in Teaching Mathematics
- MAT8180 Mathematics/Statistics Complementary Studies A
- MAT8190 Mathematics/Statistics Complementary Studies B
- STA8180 Advanced Statistics A
- STA8190 Advanced Statistics B

PHYSICS AND ASTRONOMY

D

CORE COURSES

- PHY1101 Astronomy 1
- PHY1104 Physics Concepts 1
- SCI8101 Science in Practice
- PHY1107 Astronomy 2
- PHY1911 Physics Concepts 2
- SCI8102 Research Skills

plus one of the following:

- PHY8001 Observational Astronomy¹
- PHY8002 Planetary Science¹
- PHY8003 Galactic Astronomy and Cosmology¹
- PHY8004 Stellar Astronomy¹

1 Two-unit course.

2 Compulsory residential school.

Master of Science

 Duration	16 units 2 years full-time or part-time equivalent
 CRICOS	078596M
 Start date	March, July
 Mode	On-campus ¹ , distance education
 Campus	Toowoomba

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- 3-year bachelor degree from an Australian university or equivalent.
- Mathematics and Statistics specialisation: have knowledge of mathematics at least equivalent to that found in MAT1102 Algebra and Calculus I and have appropriate communication skills equivalent to those covered in CMS1000 Communication and Scholarship.

DEGREE STRUCTURE	UNITS
1 x major	16
TOTAL	16

Why study this degree?

The Master of Science combines coursework and research within Astronomy, Environment and Sustainability, or Mathematics and Statistics, and is designed for those already in an educational or science communication career. You will undertake a professional development component in science, as well as gain a specialist foundation relevant for further research.

Majors

ASTRONOMY

You will be introduced to planetary science, including physical processes in the solar system, and gain an understanding of our place in the universe and our cosmic origins. You will also look at stellar astronomy, galactic astronomy, and develop technical skills in observational astronomy. Expand your programming, analytical and research methodology knowledge before embarking on your masters dissertation.

D

ENVIRONMENT AND SUSTAINABILITY

Discuss the emergence of environmental issues and systems at the global scale, discover the tools and techniques for sustainable development, and aspects of conservation for sustainable futures. You will gain an understanding of both physical problems and policy debates in trying to achieve sustainability, and examine the climate and arising risks to the natural and built environment.

D

MATHEMATICS AND STATISTICS²

In addition to your independent research project, you will increase your knowledge of mathematical modelling, linear models, statistical inference and programming modern high-performance computers. Discover the harmony of partial differential equations, the elements of probability and distribution theory, and principles and evaluation of experimental design.

T D

Overview of courses

ASTRONOMY

- PHY1101 Astronomy 1
- PHY2204 Astronomy and Astrophysics
- PHY8001 Observational Astronomy³
- PHY1107 Astronomy 2
- CSC1401 Foundation Programming
- PHY8004 Stellar Astronomy³
- PHY8002 Planetary Science³
- MSC8001 Research Project I³
- PHY8003 Galactic Astronomy and Cosmology³
- MSC8002 Research Project II³

D

ENVIRONMENT AND SUSTAINABILITY

- REN8101 Environment, Society and Sustainability
- CLI8204 Global Environmental Systems
- MSC8001 Research Project I³
- REN8202 Conservation for Sustainable Futures
- CLI8205 Climate and Sustainability
- ECO8012 Methods for Sustainable Development
- REN3301 Biodiversity and Conservation
- CLI3301 Climate and Environment Risk Assessment
- POL3013 Sustainability and Politics
- MSC8002 Research Project II³
- REN3302 Sustainable Resource Use
- CLI3302 Adaptation to Climate Change
- REN8203 Sustainability Science
- BIO8412 Biotechnology in Sustainable Systems

D

MATHEMATICS AND STATISTICS⁴

Students may choose at most 3 electives and must complete at least 8 courses at level 8 (including electives) including MSC8001 Research Project I and MSC8002 Research Project II.

- ENM2600 Advanced Engineering Mathematics
- MAT2409 High Performance Numerical Computing
- STA2301 Distribution Theory
- MAT3105 Harmony of Partial Differential Equations
- MAT3201 Operations Research 2
- STA3300 Experimental Design
- MAT2100 Algebra and Calculus II
- STA2302 Statistical Inference
- MAT3103 Mathematical Modelling and Dynamical Systems
- MAT3104 Mathematical Modelling in Financial Economics
- STA3301 Statistical Models
- STA2300 Data Analysis
- MAT8180 Mathematics/Statistics Complementary Studies A
- CSC8410 Independent Studies in Computing/Mathematics/Statistics A
- STA8180 Advanced Statistics A
- MAT8190 Mathematics/Statistics Complementary Studies B
- CSC8411 Independent Studies in Computing/Mathematics/Statistics B
- STA8190 Advanced Statistics B
- MSC8001 Research Project I
- MSC8002 Research Project II

T D

1 Not all major are available on-campus.

2 Semester 2 intake for the Mathematics and Statistics major is subject to approval.

3 Two-unit course.

4 Students are required to submit a proposed enrolment pattern to the Program Coordinator for approval.

Research

The University of Southern Queensland is **recognised** for its research in **agriculture** and **climate science applications, regional development, and digital literacy and education.**

We also have emerging research strengths in the fields of health and biomedicine, engineering and material sciences, astrophysics, comparative law, computational mathematics, environmental and health economics, management and IT systems, creative arts and humanities, and indigenous people and cultures.

USQ's research institutes focus the university's **strengths** through multi-disciplinary research degrees to tackle national and global challenges affecting **agriculture, natural resource management, and people living and doing business in regional areas.**

USQ is ranked 'world class' in **agriculture & veterinary science and physical science.**

Excellence in Research for Australia, 2014.

Master of Business Research

	Duration	12 units 1.5 years full-time or part-time equivalent
	CRICOS	059566G
	Start date	March, July
	Mode	On-campus, distance education
	Campus	Toowoomba

Why study this degree?

The Master of Business Research will give you high-level business research, for either academic or senior management purposes. You will undertake a significant piece of research in your area of interest, using your specialist knowledge and advanced research techniques to explore the resolution of a management problem. Become an expert in your particular area of interest or use this degree to start your research career.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- 3-year bachelor degree in business, commerce or a related field from a recognised university.
- Minimum GPA of 5.0 on a 7.0 scale in undergraduate degree, or a minimum 5.5 for the second and third years of the degree.
- On application, candidates must be able to provide an outline of the dissertation topic they intend to pursue.

NOTE

Admission is dependent upon capacity to supervise the proposed project.

DEGREE STRUCTURE	UNITS
Coursework courses	2
<i>plus</i> thesis courses	10
TOTAL	12

This degree will help you develop your business research plan, from an introduction to basic research and underpinning different research strategies, to the final research and writing of a dissertation in your chosen area of business.

Overview of courses

COURSEWORK COURSES

RSH8000 Introduction to Research
RSH8001 Research Methods

DISSERTATION COURSES¹

BUS8201 Masters Thesis A²
BUS8202 Masters Thesis B²

1 The dissertation allows students to undertake in-depth, independent investigation in a chosen area of business. To complete the dissertation, students will be required to select a topic, develop a proposal, carry out supervised research on the topic using an appropriate research method and present the results in a dissertation of no more than 40 000 words.

2 Full-time students will enrol once in BUS8201 Masters Thesis A (2 units) and twice in BUS8202 Masters Thesis B (4 units) in order to successfully complete 10 units of thesis. Part-time students will enrol 5 times in BUS8201 Masters Thesis A (2 units) in order to successfully complete a total of 10 units of thesis.

*Gain a
competitive edge*

'USQ offers a fantastic environment for postgraduate students, and as a result its' PhD graduates are highly productive and respected researchers, and competitive in the job market.'

Gabrielle Rowen-Clarke
Doctor of Philosophy (Humanities)

Master of Engineering Research

	Duration	12 units 1.5 years full-time or part-time equivalent
	CRICOS	066076A
	Start date	March, July
	Mode	On-campus, distance education
	Campus	Toowoomba

Why study this degree?

The aim of the Master of Engineering Research is to produce graduates who are highly competent in research and development work in engineering. It is also a stepping stone to further research degrees, such as an engineering doctorate or PhD.

Key areas of engineering research at USQ are:

- Agricultural and Environmental Engineering
- Computational Engineering
- Electrical, Electronic and Computer Engineering
- Fluid Mechanics, Rheology and Thermofluids
- GIS and Planning
- Mechanics, Materials and Structures
- Mechatronics and Control.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- A high level of academic performance in a 4-year bachelor degree in engineering awarded by an Australian university, or equivalent

or
- a high level of academic performance in a bachelor degree in science, applied mathematics, or a related field of study awarded by an Australian university, or equivalent, and qualifying degree of engineering studies as deemed appropriate on application

or
- have worked as a professional engineer in a position of responsibility for 5 years or more, provide documentary evidence, such as technical publications, that satisfies the University that advanced knowledge has been acquired, and successfully complete an interview with the University.

DEGREE STRUCTURE	UNITS
Coursework course	1
<i>plus</i> research courses	11
TOTAL	12

You will undertake a significant piece of research in your engineering field using your specialist knowledge and advanced research techniques to explore the resolution of an engineering problem.

2 Four-unit course.

Master of Laws (Research)

 Duration	12 units 1.5 years full-time or part-time equivalent
 CRICOS	078845K
 Start date	March, July
 Mode	On-campus, distance education
 Campus	Toowoomba, Springfield

Why study this degree?

Expand on your theoretical and specialist knowledge of the law and take your research skills to a higher level with USQ's Master of Laws (Research).

You will undertake a significant piece of research in a specialised field of your choice and contribute to the knowledge-base of the legal community through an academic dissertation. Your studies will provide you with skills in undertaking and evaluating legal research using research methodologies and techniques to resolve particular legal problems.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- 3-year or 4-year bachelor degree (AQFL 7) in law, or equivalent, from a recognised university.
- On application, candidates must be able to provide an outline of the dissertation topic they intend to pursue.

NOTE

Admission is dependent upon capacity to supervise the proposed project.

DEGREE STRUCTURE	UNITS
Coursework courses	1
<i>plus</i> dissertation courses	11

Master of Science (Research)

 Duration	12 units 1.5 years full-time or part-time equivalent
 CRICOS	070618G
 Start date	March, July
 Mode	On-campus
 Campus	Toowoomba

Why study this degree?

The Master of Science (Research) gives you the tools and opportunities you need to further your career in your chosen scientific area. In this degree, highly motivated and highly qualified students undertake advanced study to produce a research-based dissertation which will help you to develop your research skills in a specialised area of knowledge and proceed further with your career. This degree has two majors to choose from, Applied Research and Advanced Research.

Entry requirements

MASTER OF SCIENCE (RESEARCH) (APPLIED RESEARCH)

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- 3-year degree at an Australian university, or equivalent, with a minimum GPA of 4.5/7.0 in a relevant discipline
plus
- acceptance will be subject to the availability of, and endorsement by, a USQ supervisor.

MASTER OF SCIENCE (RESEARCH) (ADVANCED RESEARCH)

One of the following:

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- 4-year degree at an Australian university, or equivalent, with a minimum GPA of 4.5/7.0 in a relevant discipline
or
- 3-year degree at an Australian university, or equivalent, *plus* completion of coursework masters, with a minimum GPA of 4.5/7.0 in a relevant discipline
or
- 3-year degree at an Australian university, or equivalent, *plus* completion of a postgraduate diploma in a relevant area, or have completed a postgraduate certificate in a relevant area together with the equivalent of a minimum 2 years of work experience, or equivalent, as deemed appropriate on application
plus
- acceptance will be subject to availability of, and endorsement by, a USQ supervisor.

NOTE

Students who are not considered to have sufficient previous knowledge may be required to undertake a limited number of additional relevant courses.

DEGREE STRUCTURE	UNITS
1 x coursework research training	1
Applied Research major	
3 x coursework electives	
plus 1 x 8-unit research project	11
or	
Advanced Research major	
1 x 11-unit research project	
TOTAL	12

You will find the emphasis to be on the development of knowledge and skills to allow you to undertake independent research and professional practice in your chosen area. Build on your communication skills required in the successful pursuit of a career in scientific research, and explore the purpose of research, research design and various methodology approaches.

The Applied Research major combines research and coursework to enhance your knowledge across a range of different science-based disciplines.

The Advanced Research major gives students, who have already undertaken substantial prior studies, the opportunity to focus on a research project in a specific area. Most research-active students are also members of a USQ Research Centre.

Change lives

'I'm studying alternative methods for treating water in order to reduce the chemicals used, as water is a big part of our lives. I hope to continue my research at USQ.'

Raed Mahmood

Doctor of Philosophy
(Engineering and Surveying)

Master of Spatial Science Research

	Duration	12 units 1.5 years full-time or part-time equivalent
	CRICOS	066079J
	Start date	March, July
	Mode	On-campus, distance education
	Campus	Toowoomba

Why study this degree?

The aim of the Master of Spatial Science Research is to provide you with skills in spatial sciences investigation, evaluation and synthesis, as well as the knowledge to undertake high-level spatial sciences research. It allows you to enhance and extend your knowledge of a particular surveying or geographic information systems discipline area. This degree is also a stepping-stone to further research degrees, such as a PhD.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0) *plus*
- a high level of academic performance in a graduate diploma or 4-year bachelor degree in surveying, geomatics, science, urban and regional planning or engineering awarded by an Australian university, or equivalent
or
- a high level of academic performance in a 3-year bachelor degree in science, geographic information systems or related field of study awarded by an Australian university or equivalent; and a GPA of 5.0 or more in qualifying degree of spatial science, as deemed appropriate on application
or
- have worked as a professional in the field of spatial science for 5 years or more, provide documentary evidence, such as technical publications, that satisfies the University that advanced knowledge has been acquired, and successfully complete an interview with the University.

DEGREE STRUCTURE	UNITS
Coursework course	1
<i>plus</i> research courses	11
TOTAL	12

You will undertake a significant piece of research in your discipline area (surveying, geomatics, science or urban and regional planning) and, using your knowledge and advanced research techniques, explore the resolution of a spatial sciences issue.

Doctor of Business Administration

	Duration	24 units 3 years full-time or part-time equivalent
	CRICOS	077414G
	Start date	March, July
	Mode	On-campus, distance education
	Campus	Toowoomba

Why study this degree?

The Doctor of Business Administration is a business-oriented doctoral research degree. If you are a business professional and already have a masters degree, such as a Master of Business Administration, the Doctor of Business Administration will extend and develop your theoretical and empirical understanding, enabling you to identify and resolve business challenges in both the private and public sectors.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- A coursework masters degree or equivalent level from a recognised institution
 - plus
- 5 years' full-time equivalent work experience, including at least 2 years' full-time equivalent work experience in a managerial position.
 - plus
- submission of a satisfactory preliminary research proposal, as determined by the Higher Degrees Review and Admissions Committee.

NOTE

Admission is dependent upon the capacity to supervise the proposed dissertation.

DEGREE STRUCTURE	UNITS
Coursework courses	4
<i>plus</i> research coursework	2
<i>plus</i> research dissertation	18
TOTAL	24

In completing the Doctor of Business Administration, you will undertake research-based subjects that will help you to establish the best research methods and help you discover alternative forms of research. These subjects, as well as four courses of your choice from the Master of Business Administration, will set the groundwork for your final dissertation paper.

Overview of courses

Choose four coursework courses from the Master of Business Administration specialisation courses on page 17

RESEARCH DISSERTATION COURSES¹

DBA9200 Doctor of Business Administration Thesis B²
DBA9400 Doctor of Business Administration Thesis C³

1 Full-time students will enrol once in DBA9200 Doctor of Business Administration Thesis B (2 units) and four times in DBA9400 Doctor of Business Administration Thesis C (4 units) in order to successfully complete 18 units of thesis.
Part-time students will enrol nine times in DBA9200 Doctor of Business Administration Thesis B (2 units) in order to successfully complete a total of 18 units of thesis.

2 Two units.

3 Four units

Doctor of Education

	Duration	24 units 3 years full-time or part-time equivalent
	Start date	March, July, November
	Mode	Distance education

Why study this degree?

USQ's Doctor of Education will see you design, conduct and report research that creates and extends knowledge and understanding of global, real-world education questions and topics. The degree is both theoretically and conceptually stimulating, giving experienced practitioners the opportunity to complete a research degree focusing on areas of special interest and expertise.

The Doctor of Education provides ample opportunity for one-on-one interactions with doctoral supervisors and fellow students in vibrant online communities.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- Completed a masters with a 'credit' average or an honours (I or IIa) degree or equivalent qualification in education, or a cognate field relevant to the proposed area of study.
- Documented record of (normally) 3 years' full-time equivalent of professional or teaching experience in a field relevant to the proposed area of study, and be currently or recently employed in professional practice.

NOTE

Admission is highly competitive owing to limited enrolment capacities and is dependent upon the capacity to supervise the proposed dissertation. Therefore, meeting the minimum requirements does not guarantee admission.

DEGREE STRUCTURE	UNITS
Core courses	6
plus folio/dissertation	16–18
plus optional electives	2
TOTAL	24

You will be introduced to the foundations of contemporary educational research methods and submit a critical literature review paper that will form the basis of a proposed paper for presentation at a conference. You will have the opportunity to examine the challenges created for educational organisations by the emergence of post-corporate influences. Develop your research skills further by discovering the contemporary issues related to the ethics and politics of educational research, and to the appropriate management of data in educational research projects.

Continue to develop your analytical writing and researching skills by working in close consultation with your supervisor to complete your dissertation.

Doctor of Professional Studies

 Duration	24 units 3 years full-time or part-time equivalent
 Start date	March, July, November
 Mode	Distance education

Why study this degree?

The Doctor of Professional Studies allows you to combine your professional work with study and obtain a doctoral degree based entirely in your workplace.

The knowledge you gain throughout your studies will lead to benefits for both you and the organisation you work for. You will critically review resources and address theoretical and practical issues in your workplace by designing and implementing projects. It is expected that the documented results of your projects will be able to be used to improve one or more aspects of your workplace.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- Admission is by written application and interview.
- Bachelor degree with honours, or a masters degree, from a recognised university, or equivalent
- plus*
- a minimum 5 years of experience in your field.

DEGREE STRUCTURE	UNITS
2 x core courses	4
1 x workplace-based research course	16–20

2 Students are required to enrol in WRP9002 Work-Based Research Project recurrently, subject to good progress, until the final work to be examined has been submitted.

Engineering Doctorate

	Duration	24 units 6–8 years part-time
	Start date	March, July, November
	Mode	Distance education

Why study this degree?

The Engineering Doctorate is a high-level, engineering-oriented doctoral research degree.

If you already have a four-year bachelor degree in engineering and are in a position to significantly contribute to the profession of engineering within your discipline, the Engineering Doctorate will extend and develop your technical investigation, applied research and development, innovative design and analysis skills.

Through USQ's Engineering Doctorate, you will take eight units of coursework studies at a postgraduate level to extend your broad technological and management knowledge, as well as research methodology, before embarking on 16 units of independent research.

Your research will result in your original professional technical achievements being presented in a formal academic format.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0).
- 4-year bachelor degree with a high level of academic achievement from a recognised university in the field of engineering, or an approved equivalent.
- Be able to demonstrate your own substantial and original professional contributions in an appropriate Engineering field.

DEGREE STRUCTURE	UNITS
Core course	1
<i>plus</i> 7 x electives	7
<i>plus</i> independent research courses	16
TOTAL	24

In addition to your independent research project, you will have the opportunity to undertake coursework electives introducing you to technological innovation and development, how to manage complex engineering facilities, the management of assets and technological risks, and evaluate the impact technological development has on the world we live in.

Doctor of Philosophy

	Duration	24 units 3 years full-time or part-time equivalent
	CRICOS	031453C
	Start date	March, July
	Mode	On-campus, distance education
	Campus	Toowoomba, Springfield, Fraser Coast, Ipswich

Why study this degree?

The Doctor of Philosophy (PhD) is a research degree available in all study areas, and provides you with the skills to become an effective researcher in your previously studied discipline. By undertaking a Doctor of Philosophy, you will have expansive intellectual freedom to be able to make an original and substantial contribution to your area of study.

Entry requirements

- Students from non-English-speaking backgrounds are required to satisfy English language requirements. This degree requires a minimum of IELTS 6.5 or equivalent (no component lower than 6.0). *plus* either of the following:
 - Bachelor degree with First Class Honours or Second Class Honours (Division A), or equivalent
 - Masters degree (with a significant research component).
 - Other qualifications and/or experiences equivalent to a minimum Second Class Honours (Division A), as deemed appropriate by the respective faculty.

Normally, all students will be enrolled as provisional candidates, with their status being reviewed within 12 months full-time or 24 months part-time enrolment.

Application forms and advice on procedures for enrolment may be obtained from the International Recruitment and Admissions office. Intending students are advised to allow several months for discussion with potential supervisors and for consideration of the application prior to the commencement of the degree.

Supervision

You can start your PhD at any time during the year; however, ideally you would commence at the beginning of Semester 1 or 2. To start your PhD, you need to clarify your research topic and seek an academic staff member to be your supervisor. This can sometimes take time, so it is wise to allow several months for discussion with potential supervisors and for consideration of your application.

Before applying to study

Prior to applying to study at USQ, it is recommended that you first select a degree that meets your career objectives, then check the English language entry requirements and other information provided below, as well as the important dates on the USQ website.

English language requirements

To be admitted into academic degrees at USQ, you must demonstrate your proficiency in the use of English language with one of the following:

1. Successful completion of one of the English language tests shown in the table below

or

2. Successful completion (over a period of at least two years of full-time study) of one of the following in which English was the language of instruction:

- high/secondary school or college equivalent
- 'A' level
- any post-secondary program.

NOTE

This does not apply to students wishing to study a Bachelor of Nursing, Graduate Diploma of Learning and Teaching, Bachelor of Education or doctorate (PhD) degree.

or

3. Successful completion of a foundation studies program offered by an Australian university or equivalent.

If you do not meet USQ's English language entry requirements, you should consider undertaking a USQ pathway program, such as EAP I and II. After successful completion, you will gain direct entry into selected USQ degrees.

NOTE

Approved English language tests noted below must have been completed within the previous two years, and the most recent demonstration of English proficiency will be used. For further information refer to

usq.edu.au/study/international/study/english.

Credit for past study

For the partial fulfilment of degree requirements, USQ will consider your relevant studies, work experience and job training deemed equivalent in objectives, standard and/or content. Exemptions may be granted for relevant studies successfully completed in the past five years. In some circumstances, exemptions may be considered for studies successfully completed in the past 10 years. Exemptions are subject to any existing agreements with Education Partners, or on an individual case-by-case basis. Approved exemptions will be documented in your offer letter.

For further information about course credits and exemptions, please visit the USQ Policy Library: policy.usq.edu.au/documents.php?id=131190PL

To find out what credit that may be available towards your degree, visit creditcalculator.usq.edu.au/

Undergraduate country entry requirements

Some degrees have additional entry requirements. Please refer to the USQ website at usq.edu.au/study/international/apply/entry-requirements

Scholarships

Each year USQ offers a variety of scholarships for international students. You will need to apply for a USQ scholarship at the same time that you submit application to study at USQ.

For information about USQ scholarships available and application closing dates, please refer to usq.edu.au/scholarships

Information for on-campus students

Streamlined student visa processing

Under the streamlined student visa processing arrangements, eligible student visa applicants who have applied to study with USQ are assessed as though they are a lower immigration risk, irrespective of their country of origin.

Further information is available at immi.gov.au/Study/Pages/Streamlined-student-visa-processing.aspx

ESOS Framework

The Education Services for Overseas Students, or ESOS Act, provides the regulatory requirements for USQ offering courses to international students in Australia on a student visa. ESOS provides tuition protection for international students. Please follow the link below for more information: internationaleducation.gov.au/Regulatory-Information/Pages/Regulatoryinformation.aspx

Medical insurance

Overseas Student Health Cover (OSHC) is health insurance for international students that provide cover for the costs of medical and hospital care that you may need in Australia.

The Department of Immigration and Border Protection (DIBP) require all holders of a student visa to have OSHC for the entire length of their student visa. If you are an international student, and do not maintain your OSHC, you are at risk of having your student visa cancelled. immi.gov.au/students/health-insurance.htm

Once you have returned your acceptance of offer form, your OSHC membership will be initiated by USQ. Please see usq.edu.au/current-students/services/healthyu/health/overseas/getting-oshc for more information about getting your OSHC.

Living in Australia

Research and planning will help you have a safe and rewarding study experience at USQ. Take the time to read the following link to 'Live in Australia' studyinaustralia.gov.au/global/live-in-australia

Working in Australia

Once you have settled into your study, international students with USQ can work up to maximum of 40 hours per fortnight during semester. There is no limit to work hours during semester holiday break. immi.gov.au/students/visa-conditions-students.htm

Post Study Work Rights Visa (sub-class 485)

This visa is for international students who have recently graduated from an Australian educational institution and allows you to work in Australia after your studies: immi.gov.au/Visas/Pages/485.aspx

HOW TO *apply?*

Follow the steps below to help ensure your application is processed without any delays.

Prior to applying

Prior to applying to study at USQ, we recommend the following:

- Check:
 - English entry requirements
 - degree-specific entry requirements
 - streamlined student visa processing requirements (Genuine Student and Genuine Temporary Entrant requirements) at immi.gov.au/Visas/Pages/Find-a-visa.aspx
 - requirements to obtain a student visa, if intending to study on-campus in Australia.
- Check the important dates.

Submitting your application

You can submit your application via USQ's online application system at icon.usq.edu.au. Simply register your details and follow the steps through the application process. Once your application has been submitted, it will be assessed by one of our friendly USQ staff.

Accepting your offer

Once you have received your Offer Letter, you will need to return your signed Acceptance of Offer form directly to USQ International Admissions, or through your USQ representative (recruitment agent or Education Partner).

Payment

Along with your Acceptance of Offer, you will need to provide payment.

Want to know more?

Contact us via email, or call us on **+61 7 4631 5543** or **1800 105 359** (within Australia).

TUITION FEES

How do I pay my tuition fees?

You can pay your first semester tuition fees online at usq.edu.au/study/international/apply/accept

Future payments will be done using other payment options. For details, please refer to 'Paying your fees' at usq.edu.au/fees

Please note that your first semester of tuition fees needs to be paid directly to USQ in advance of receiving your eCOE (electronic Confirmation of Enrolment).

What if I change my mind?

Full refunds are available; however, time limit conditions apply. If you are applying for a refund, you are strongly advised to consult Refunds in the section below to ensure that you have an appropriate reason for requesting a refund.

NOTE

International students studying on-campus in Australia in Semesters 1 and 2 are charged on-campus fees, regardless of whether the student has enrolled in individual courses by distance education or online. This does not apply to non-compulsory distance education/online courses studied in Semester 3.

Student Services and Amenities Fee

In accordance with new Australian Government legislation, you will be charged a Student Services and Amenities Fee to cover services, such as employment and career advice, health services, financial advice and other support services. This fee is an ongoing cost that is included as part of your tuition fees.

For more information, visit usq.edu.au/sa-fee

Refunds

If you find you need to withdraw your enrolment in a course before the last date to drop courses, you may be eligible for a refund of fees. It is recommended you familiarise yourself with the policy on Refund of Fees before you accept your offer to study with USQ.

For specific information about refunds of tuition fees and also non-tuition fees, such as accommodation fees and student health care, please refer to policy.usq.edu.au

Checklist for online and distance students

You should ensure that you have completed all of the relevant actions from the list below before the start of semester.

- I have noted my Student Relationship Officer (SRO) contact.
- I have checked to see if my course/s offer compulsory on-campus residential schools, as I may need to consider travel and accommodation arrangements in advance.
- I have checked the textbook requirements for my course/s.
- I have marked the important dates on my USQ calendar.
- I have accessed my UMail account via the JustU Tab of UConnect.
- I have created a study schedule for the semester.
- I have logged onto UConnect, changed my password and checked that my contact details and exam centre are correct.
- I have checked the Ask USQ self-help facility to easily find answers to questions or to ask a question **usqstudy.custhelp.com**
- I have checked the USQStudyDesk and familiarised myself with my course page layout and introduced myself in any online discussions available.
- I have checked the Library's interactive training program.
- I have obtained my USQ student ID card, as I will need it to gain entry to exams.

Please read the following terms and conditions and then sign this form.

I declare that the information supplied by me in this form and relevant attachments is true and correct. I understand that the University may vary or terminate its offer of a place at USQ or any subsequent agreement regarding study at USQ if any of the information provided by me is shown to be incorrect. I have read and accept the University's fees, charges and refund policy (<http://www.usq.edu.au/international>). I understand that there are limited places available and that early submission of this application will give me a better chance of obtaining a place in the program of my choice. I am aware of the applicable tuition fees and understand that I do not have to pay until I return the Acceptance of Offer Form included in the letter of offer from the University.

USQ collects personal information for university purposes of providing tertiary education and related ancillary services and associated functions pursuant to the University of Southern Queensland Act 1998 and the information on this form for the purposes of assessing your application and if applicable, processing your enrolment. USQ collects this information in accordance with the Commonwealth Higher Education Funding Act 1988, Higher Education Support Act 2003, the Education Services for Overseas Students Act 2000 (ESOS Act), ESOS Regulations 2001 and the National Code of Practice for Registration Authorities and Providers of Education and Training to Overseas Students 2007. Where relevant USQ may give all or some of this information to • other education providers to administer cross-institution enrolments; • Commonwealth and state government departments, agencies or their authorised agents or contracted service providers and to USQ approved Representatives (agents and partners) and to other organisations (including international entities) who provide sponsorship or funding for your studies to seek verification of information or provide information regarding your studies (and visas and overseas student health cover if applicable) or to enable surveys concerning your education to be undertaken, and • other students enrolled in the same courses as you or as may be required by a Faculty to facilitate USQ's provision of tertiary education services to you and other students including in the future.

Other than as set out above, personal information will not be disclosed without your consent unless required or authorised by law. Please refer to USQ's Privacy Policy and USQ's Privacy Plan. To facilitate USQ's provision of tertiary education and related ancillary services and associated functions, you acknowledge and consent to the disclosures set out above and to the transfer of your personal information outside of Australia and communication via any available electronic means. In handling any personal information disclosed to you by the university, you agree to use this information for purposes of your study at USQ only and to abide by USQ's ICT Information Management and Security Policy and the ICT Standard for Use of ICT Resources Policy.

Signature _____ Date ____/____/____

Lodging your Application

To ensure your application is processed without delay, please attach certified photocopies of academic transcripts and certificates (i.e. signed by a teacher, lawyer, your local USQ representative or other person in authority). If your documents are not in English, please attach certified English translated versions of your documents. Do not send original documents. Failure to include attachments may delay the processing of your application. **Please note:** USQ does not charge an application fee.

Lodge this application with your local USQ Agent or USQ Education Partner or, if none, mail/fax direct to USQ International Admissions.

Personal Details (Please PRINT capital letters)

Student Family Name _____

Student First name _____

Date of Birth _____

Email Address _____

Contact Number _____

Residential Town/City _____

Length of Residence _____

Relevant qualification and future expectation for the proposed program

(Relevancy and purpose of the program)

Is the program advanced and directly related to the previous studies or work experience? Yes No

(Please explain in detail reason to study proposed program) _____

Is the proposed program in line with your future plans? Yes No

(I) If yes, what is your future plan? _____

(II) If no, why are you planning to study this program? _____

Are there any other programs included in your application? Yes No

(I) If yes, then please provide details of the other program/s _____

(II) Which organisation is the other program/s with? _____

Study gap

Is there a gap in your history of studies and/or work? _____

If yes, how long and why? _____

English proficiency

Have you taken a formal English language test? Yes No

If yes, which test and what score?

Test Type	Score	Date Taken
<input type="checkbox"/> IELTS	_____	_____
<input type="checkbox"/> PTE Academic	_____	_____
<input type="checkbox"/> Others	_____	_____

Test Type	Score	Date Taken
<input type="checkbox"/> TOEFL	_____	_____
<input type="checkbox"/> Cambridge	_____	_____

If no, have you studied in an English medium? Yes No

If yes, how many years? _____

What qualification(s) was/were obtained?

Dependant Background

Are you married? Yes No (if yes, please state when) _____
