The Faculty of Mining and Geology is unique in Czech Republic modern faculty where natural science disciplines are connected with technical and economic fields. Among the accredited fields are, for example, Environmental Engineering, Geoinformatics, Technology, and Water Management, as well as Waste Disposal and Neutralization.

Study with us and you can work, for example, as:

- ECOLOGIST • GEOINFORMATICS SPECIALIST • MINE SURVEYOR • ECONOMIST • GEOLOGIST • WASTE DISPOSAL SPECIALIST • MINER • SURVEYOR • EXPLOSIVES EXPERT • WATER MANAGEMENT SPECIALIST • QUARRYMAN • TREATMENT SPECIALIST

FACULTY OF MINING AND GEOLOGY
www.vsb.cz/en/study-here

fmt.vsb.cz

The University has a tradition in a wide range of activities - selection, production, processing, qualities and application of traditional and specialist materials. Our professional profile is presented by the materials-technological institute, which is unique thanks to its operations in the field of metallurgy, process engineering, and its orientation on the methods of economics a process management.

Study with us and you can work, for example, as:

- MATERIALS ENGINEER • PROCESS ENGINEER • TECHNOLOGIST • SYSTEMS ENGINEER • LOGISTICS SPECIALIST • QUALITY MANAGER • PRODUCTION OPERATOR

FACULTY OF MATERIALS SCIENCE AND TECHNOLOGY
