**International Students:** 8% from 50+ countries  
**Alumni:** 9,000+  
**Academic Staff:** 600+  
**Administrative Staff:** 500+  
**Partnership Agreements:** 70+  
**Language of Instruction:** English and Turkish  
**Research Centers:** 8  
**Laboratories:** 140+  
**Indoor Space:** 100,000+ m²  
**Outdoor Space:** 250,000 m²  

**Celebrating the 20th anniversary,** Atılım University is one of the oldest foundation (private and non-profit) universities, established in 1996 in Ankara, the capital of Turkey. It offers high quality education at European Standards (Bologna Process) and recognized through world university rankings and offers globally accredited degrees and diplomas with a diploma supplement award by EU.
ATILIM UNIVERSITY IS RAPIDLY ASCENDING ITS RANKING BOTH NATIONALLY AND INTERNATIONALLY

Top 500 universities in the 2016-2017 World University Rankings of Times Higher Education (THE)

Top 100 in THE 200 Under 50 Rankings 2017

62nd in BRICS & Emerging Economies University Rankings 2017 of THE.

64th in THE 2017 Asia University Rankings

Among the Top 200 in the QS Top Universities in Emerging Europe and Central Asia (EECA) 2016
INTERNATIONALIZATION

Atilim University promotes internationalization both in education and in campus life with a multinational environment and participative approach. It offers exchange, internship and international mobility programs in EU countries and other parts of the world. International students are from over 50 different countries all over the world including Europe, North America, Africa, Asia, the Middle East, the Balkans, the Gulf Region and the Caucasus. The University employs internationally experienced and renowned staff. In most of the academic programs, the medium of instruction is English.
RESEARCH AND TECHNOLOGY

Atılım University is a prominent and leading research university with more than 140 state of the art laboratories and a unique Metal Forming Center of Excellence (MFCE) which is one of the 5 comparable centers all over the world. The University promotes student-centered approach and hands on training in education and research. The Technology Development Center (TEKMER), the Aerodrome Project in Esenboğa International Airport in cooperation with the Turkish Aerospace Industries (TAI), the Scientific Research Projects (BAP) as the research support program offering funds for scholars, the Research Laboratory Projects (ALP) as the program offering funds to establish new laboratories and to turn them into prospective research and the Undergraduate Research Project (LAP) as the research support program offering funds for undergraduate students are among the research and technology opportunities offered at Atılım University.

Atılım University has the 4th largest library in Ankara. Our library aims to create team spirit, service and perfection within itself, enable the library Users to produce-keep-transfer the information and to create a learning society.
ARGEDA-TTO

The main goal of ARGEDA-TTO is to ensure that the experience and knowledge gained through various studies are used in the most efficient way and technologies emerged as a result of the a wide range of studies conducted within the University gain commercial value and are used by institutions and organizations which need such technologies.

The goals of ARGEDA-TTO:

• To inform the academic staff, institutions and organizations about the existing and new national and international support programmes by organizing seminars and conferences.

• To ensure that the academic staff carry out their studies without losing time by guiding them in the application process of the support programmes

• To ensure that the experience and knowledge gained through various academic studies are not limited to scientific publications and gain commercial value by being used in industry sector and are transformed into product by directing these studies in accordance with the needs of the sector

• To ensure the union of forces and increase in the productivity by establishing communication between people, institutions and organizations from various disciplines

• To minimize the dependence on foreign sources by ensuring that the technologies and products needed by our industry are produced in our country
ACCREDITATION

Authorized by the European Network for Accreditation of Engineering Education (ENAE), for awarding the European Accreditation of Engineering Programs (EUR-ACE) certificate, MUDEK (Association for Evaluation and Accreditation of Engineering Programs) has accredited 6 departments at the Faculty of Engineering:

1. Computer Engineering
2. Electrical & Electronics Engineering
3. Industrial Engineering
4. Civil Engineering
5. Software Engineering
6. Mechatronics Engineering

Department of Translation and Interpretation has also received FEDEK (Science, Literature, Faculty of Science and Letters, Faculty of Languages, History and Geography Curriculum Programs) accreditation.
Faculty of Health Sciences has been launched!

NUTRITION AND DIETETICS
PHYSIOTHERAPY AND REHABILITATION
OFFERED PROGRAMS
