

THE Awards Asia 2020 - Outstanding Leadership and Management Team

Institution Name	King Faisal University
Nominee/key personnel	Dr. Mohammed bin Abdulaziz Alohal, King Faisal University Rector.
Submission	<p>King Faisal University (KFU) has recently launched its institutional identity, which captures KFU's overall approach and specific contributions towards achieving food security and environmental sustainability in Saudi Arabia.</p> <p>We have highlighted nine related domains, which are water, agriculture, environment, management, technology, health, transportation, logistics and manufacturing, showing how every faculty within the university can contribute to our goal.</p> <p>This identity was the result of a thorough analysis of internal and external factors, which ultimately also highlighted further opportunities.</p> <p>Among our achievements are the establishment of Al-Ahsa Oasis for Innovation and Technology, the Wadi Al-Ahsa Investment company, the Agri-business incubator, and a food security hackathon.</p> <p>We are also establishing a modelling and manufacturing lab, and a veterinary business service unit.</p> <p>Impact is clearly evident - we have become the academic partner of the Ministry of Environment, Water, and Agriculture, and also partner with the Saudi Food and Drug Authority.</p>
