Institution Name	King Abdulaziz University
Submission title or project name	Multi-method approach to improving university accessibility for blind students
Nominee/key personnel	Wajdi Wazzan; Habib F Fardoun; Yusuf Alturki
URL	<a href="https://zeroproject.org/practice/pr201548sau-factsheet/">https://zeroproject.org/practice/pr201548sau-factsheet/</a>
Submission	<p>With this project we aimed to enhance the university experience of disabled students with visual impairments. Specifically, we have addressed the physical navigation of campus, the accessibility and reading of textbooks, and accessibility of examinations.</p> <p>A variety of solutions were set in place to take on these challenges and since implementation they have proved to be extremely effective. Further enhancements and upgrades are planned for improved robustness and practicability.</p> <p>Initiatives are in progress to share this experience locally and globally, and continuous monitoring of the impact of these processes on an increasing number of users will help to enhance the benefits we can offer.</p>
